MEMORANDUM

The board, in approving the proposed annexation, notes that 55th Street, Northwest will be a shared road. It is anticipated that the city and the town will work together to economically service that road.

The board anticipates that the City of Rochester's analysis of the surface water runoff will look for the most efficient and effective method of dealing with surface water drainage and not base its decision solely on which method is the most inexpensive. The testimony before the board indicated that drainage is a concern of the town, the property owners, and the city. Such a concern warrants the most effective action possible to address that matter. Further, the board is confident that the city will address the clearing of the King's Run drainage ditch raised at the hearing. *TAM 3-4-87*
