The board notes that a significant amount of the testimony focused on the issue of the use of Old Goodview Road west of the area proposed for annexation. It was agreed by the parties that the proposed annexation and development of the area presently before the board will not significantly increase the traffic on that portion of Old Goodview Road presently located within the Town of Winona. The board takes this opportunity to urge the affected townships, city, and county to work together to try to resolve the issue of maintenance of this road.

There was also significant concern expressed about the completion of the parkland proposed to be included in the We Valley Plat. The board anticipates that the City of Goodview, through its existing or amended subdivision regulations, will ensure that the annexation area will have parkland.

Finally, the board notes that this matter has been in the planning stages for a significant amount of time. The town and the city, through their witnesses, indicated the desire that the area develop as single-family residential. The board would anticipate that, since the governmental entities and the property owner seek the development of this area, it would be done as expeditiously as possible. Further, the board is confident that the city will ensure that the necessary precautions are taken to avoid any environmental problems that could result from the development in the valley. 7-13-87 JAM
