DEPARTMENT OF ADMINISTRATION AND FINANCE
ROOM 10, STATE CAPITOL
ST. PAUL, MINNESOTA

June 18, 1920

Proposals will be received by the Commissioner of Purchases, E. W. Austin, not later than June 28, 1920, 11 o'clock a. m. for furnishing the following specified badges I.O.O.F. State Capitol, St. Paul, Minnesota. Proposals to be addressed to the Commissioner of Purchases and deposited with him at his office at room 10, State Capitol Building, St. Paul, at which time proposals will be opened and the contract awarded to the lowest bidder. The State reserves the right to reject any and all bids submitted.

There will be required approximately 30,000 badges. The exact number cannot be given, and bidders will specify a price per badge.

Each proposal must be accompanied by a certified check upon a state or national bank in the amount of one hundred fifty dollars (\$150.00), or such less amount as is equal to 10 per cent of the bid, payable to the state treasurer, the amount of such check to be forfeited to the state in case the successful bidder fails to enter into a contract and furnish bond within ten days after the award of the contract.

The successful bidder will be required to enter into a contract with the state for the manufacture and delivery of such badges, the form of such contract to be approved by the attorney general, and will be required to give a bond to the state with approved corporate surety in the amount of the contract price, conditioned upon the faithful performance of the contract.

SPECIFICATIONS

The badge shall be of brass metal, polished nickel plate, raised border, with heavy 1" pin flashback reinforced, which shall be embossed with the coat-of-arms of the State of Minnesota and the number "1921" to indicate the year. Each badge shall also bear the serial number to distinguish the licensee, stamped into the metal, and enameled in blue. In addition to the design, and these numbers, there shall be the words "LICENSED HAUFELER MINNESOTA."

In order that each may have a distinguishing number, the badges shall be numbered serially beginning with "1" and each badge shall be enclosed in a suitable envelope of good quality paper having printed on the outside the number corresponding with the serial number of the badge. Bidders are requested to submit a pen sketch, duplicate of the design herewith attached. Particular care is to be used in the sketching of the design as the final selection will depend a great deal on the appearance of the pen sketch. The badges shall be delivered in cartons and arranged in numerical order within the carton in such manner that they may be kept in order readily as they are being issued.

The materials and workmanship of the badges furnished under the contract shall be first class and fully equal to quality of badges now in use, and shall be guaranteed to last at least one year as used under ordinary conditions. The gauge of the metal to be used shall be No. 17 brass.

DELIVERIES

The first one thousand (1000) badges shall be delivered not later than September 1, 1930, and the balance on or before November 15, 1930. Additional or duplicate badges shall be furnished after that date during the remainder of the year 1930 and throughout the year 1931 at the Secretary of State shall require and at the same price per badge as the original order.

Whereas promptness in the delivery of additional and duplicate badges will be an important consideration, each bidder will state in his bid the minimum time in which such duplicates and additional badges can be furnished after the order is placed by the Commissioner of Purchases.

The contract will contain a provision that if the contractor shall fail in any respect to perform the contract the state, at the option of the Commissioner of Purchases, may rescind and declare it null and void and the Commissioner of Purchases may purchase or procure such badges in such manner and from such person or persons as he deems proper, pay such price therefor as may be necessary in order to procure such articles or materials of the kind as nearly as practicable if the contractor shall fail to deliver as required, and may charge to the amount and recover from the contractor the difference between the price so paid therefor and the price stipulated in the contract and the amount of such difference shall be paid by the contractor to the State on demand.
