

TENTH ANNUAL REPORT
OF THE
STATE BOARD OF REGISTRATION
FOR
ARCHITECTS, ENGINEERS AND LAND SURVEYORS
OF MINNESOTA
TO THE GOVERNOR
FOR THE YEAR ENDED DECEMBER 31, 1930

5027

TENTH ANNUAL REPORT
OF THE
State Board of Registration
For
Architects, Engineers and Land Surveyors
of Minnesota
TO THE GOVERNOR
For the Year Ended December 31, 1930

MEMBERS OF THE STATE BOARD OF REGISTRATION FOR ARCHITECTS, ENGINEERS AND
LAND SURVEYORS

Chairman: Paul Doty, 427 Portland Ave., St. Paul, Minnesota.

Vice Chairman: F. W. McKellip, 525 3rd St. S. W., Faribault, Minnesota.

Secretary-Treasurer: William W. Tyrie, 1028 Andrus Bldg., Minneapolis, Minnesota.

M. E. Chamberlin, 110 Summit Ave., Montevideo, Minnesota.

B. W. Day, 1212 Builders Exchange Bldg., St. Paul, Minnesota.

F. G. German, 411 Exchange Bldg., Duluth, Minnesota.

Charles Foster, 512 Sellwood Bldg., Duluth, Minnesota.

OFFICE OF THE BOARD
605 New York Bldg., St. Paul, Minnesota.

St. Paul, Minnesota, December 31, 1930.

To His Excellency, Floyd B. Olson,
Governor of the State of Minnesota.

The State Board of Registration for Architects, Engineers and Land Surveyors of Minnesota respectfully submits this, its tenth annual report, as required by law.

This Board is organized under the provisions of Chapter 523, session laws of 1921, and is in response to the growing public interest to properly recognize the professions named above, and to safeguard the lives, the health, and the property of the citizens of Minnesota.

Registration in Minnesota is in support of a nation-wide movement. Twenty-six states of the United States now have registration laws for engineering and land surveying, and thirty states have passed laws covering registration for architects.

It is evident the Legislature, in the exercise of the police power of the state, may prescribe regulations for securing the admission of qualified persons to all callings demanding special knowledge, experience, and skill. Evidence in support of this statement is found in the opinion of the Supreme Court of the United States, No. 320, October Term, 1926, "The power of the State to provide for the general welfare of its people authorizes it to prescribe all such regulations as, in its judgment, will secure or tend to secure them against the consequences of ignorance and incapacity as well as of deception and fraud. As one means to this end it has been the practice of different States, from time immemorial, to exact in many pursuits a certain degree of skill and learning upon which the community may confidently rely, their possession being generally ascertained upon an examination of parties by competent persons, x x x. The nature and extent of the qualifications required must depend primarily upon the judgment of the State as to their necessity."

The rapid development of the state, and the increasing magnitude of public works of an engineering and architectural character, and the expenditure of public moneys in construction, makes necessary the protection of the registration law, not only for the public, but for the legitimate professional engineer, and architect, and land surveyor.

The active co-operation of the state, county, and municipal authorities, as well as the professional architect, engineer, and land surveyor is urged that the law may reflect credit to the state and to the respective professions.

The administration of the law is carried on without legislative appropriation, and it is therefore distinctly to the credit of the architectural, engineering, and land surveying professions, that legitimate practitioners are not only willing to register, but willing to pay to register. It is evidence not only of the good will, but of the will of professional men to support the law.

Paul Doty
Chairman of the Board.

BOARD MEMBERS

			TERM EXPIRES
Paul Doty	Mechanical Engineer	of St. Paul, Minnesota.	Jan. 1, 1934
Charles Foster	Electrical and Mechanical Engineer	of Duluth, Minnesota.	Jan. 1, 1933
William W. Tyrie	Architect	of Minneapolis, Minnesota.	Jan. 1, 1933
M. E. Chamberlin	Civil Engineer and Land Surveyor	of Montevideo, Minnesota.	Jan. 1, 1932
F. G. German	Architect	of Duluth, Minnesota.	Jan. 1, 1932
B. W. Day	Architect	of St. Paul, Minnesota.	Jan. 1, 1931
F. W. McKellip	Civil Engineer and Land Surveyor	of Faribault, Minnesota.	Jan. 1, 1931

BOARD MEETINGS

Meetings were held by the Board on the following dates:

January 20, 1930, at St. Paul, Minnesota.

June 23, 1930, at St. Paul, Minnesota.

December 15, 1930, at St. Paul, Minnesota.

APPLICATIONS CONSIDERED AND REGISTRATIONS GRANTED

During the year the Board has received 32 applications for registration, and 3 remained from last year. It has granted 9 architectural, 20 engineering and 4 land surveying registrations. One application was denied, 7 are held for further investigation, and 2 have not had the attention of the examiners.

ADMINISTRATION OF THE REGISTRATION ACT

The Board of Registration has now been functioning for nearly ten years, and therefore is in a position to draw from its experience some conclusions as to the effectiveness of the Act under which it operates, and of those provisions affecting the practical administration of the Act.

The expressed purpose of the Act under which we operate is to "safeguard life, health, and property" by guarding against the practice of the professions of architecture, engineering, and land surveying by persons not qualified to practice. In order that this may be done, there is established a standard of competence on the part of those attempting so to practice, and the work of this Board is to establish and maintain this standard.

The intent of the Act, as stated in Section 1, was that persons practicing as architects, engineers, or land surveyors should be required to show to this Board evidence of their qualifications, and to become registered if proved competent. Without registration by this Board no person can use the word "registered" in connection with his name in his professional practice.

Members of the three professions and the public in Minnesota have given this Board very gratifying support and encouragement, and we feel that much good has been accomplished through this support. That the value of the law is becoming recognized is shown by the increasing respect and consideration that is shown registered professional men by municipal authorities, the courts, and the public generally. Several instances have come to our attention in which the fact of registration has turned the scale for or against an applicant for public work, or where the fact of registration has been accepted by the courts as a test of competency of witnesses. A continued support from registrants and the public generally will raise professional standards of practice and the quality of work produced. It is evident that the greater the number of qualified practitioners who comply with the law as it now stands, the greater the prestige that all those registered will have.

Improper practice of his profession by a registered architect, professional engineer, or land surveyor, may come before the Board on written complaint and may, under certain conditions, result in revocation of his certificate of registration.

Roster of Architects, Professional Engineers and Land Surveyors registered to practice in the State of Minnesota, as of December 31, 1930.

CETIFICATES OF REGISTRATION REVOKED

It is the opinion of the Attorney General of Minnesota that it is unlawful to practice as a registered architect, registered professional engineer, and registered land surveyor in the State of Minnesota by any person who fails to renew his certificate of registration annually, as provided by law.

The following are not authorized to practice architecture, professional engineering and land surveying in Minnesota by reason of failure to renew the certificate of registration annually, as provided by law.

Name	Address	Profession	Date Registration Expired
Amos, R. L.	Minneapolis, Minnesota	Architect	12-31-25
Armstrong, C. H.	Rochester, Minnesota	Professional Engineer and Land Surveyor	12-31-23
Bathurst, J. F.	Minneapolis, Minnesota	Professional Engineer	12-31-24

	(Signed) Henry Rines, Comptroller	
	By A. R. Johnson, Chief Examiner	

The Minnesota Board of Registration is a member of the National Council of Architectural Registration Boards, in which the following state boards hold active membership.

Arizona
California
Colorado
District of Columbia
Florida
Idaho
Illinois
Indiana

Iowa
Louisiana
Michigan
Minnesota
Montana
New Jersey
North Carolina
Oklahoma

Oregon
Pennsylvania
South Carolina
South Dakota
Tennessee
Virginia
Wisconsin
Hawaii

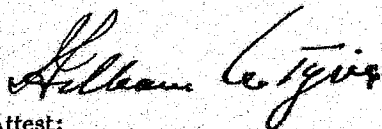

The Minnesota Board of Registration is a member of the National Council of State Boards of Engineering Examiners, in which the following state boards now hold membership.

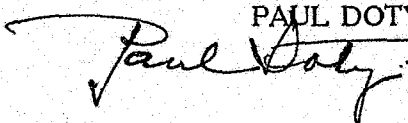

Arizona
Arkansas
California
Colorado
Florida
Idaho
Indiana

Iowa
Louisiana
Michigan
Minnesota
Mississippi
New York
North Carolina

Oregon
South Carolina
South Dakota
Tennessee
Virginia
West Virginia
Wyoming

The Minnesota Board takes pleasure in acknowledging the value of its membership in these organizations.

Attest:
WILLIAM W. TYRIE
Secretary-Treasurer

Respectfully submitted,
State Board of Registration for Architects,
Engineers and Land Surveyors
PAUL DOTY
 Chairman

DECEASED

Edwin H. Brown, Minneapolis, Minnesota
William Conrad Koch, St. Paul, Minnesota
William N. Ryerson, New York, New York
Theodore Simerman, St. Paul, Minnesota
H. P. Wallace, Minneapolis, Minnesota

Information

on

Reciprocal Registration for Architects

The Minnesota Board is a member of the National Council of Architectural Registration Boards. The Council constitutes a clearing house for the convenience of the registration authorities of the various states having laws regulating the practice of architecture. The control of the Council is in the hands of the architectural registration authorities of the various states that are members of the Council.

The Minnesota Board of Registration recommends that architects (not residents of the State of Minnesota) desiring registration in Minnesota or reciprocal transfer of registration from their state to Minnesota make application for said registration or transfer through the medium of the National Council of Architectural Registration Boards. For in most cases where this method is followed, the applicant will be saved the necessity of a personal appearance and examination before any examining committee other than that of his home state. While the Council does not guarantee the acceptance of all applicants who apply for transfer of registration through the Council, it is in a position to and does furnish state examining committees with the results of an unprejudiced and disinterested investigation of the applicant's credentials, moral, educational, and legal. With this data in hand the examining authorities in the state to which the applicant desires transfer are furnished evidence which is usually considered sufficient upon which to predicate judgment as to the applicant's availability for registration in accordance with the laws of that state.

For full information in regard to the above mentioned Council, address Emery S. Hall, Secretary-Treasurer, 5 North La Salle St., Chicago, Illinois.

The Minnesota Board is also a member of the Council of State Boards of Engineering Examiners. In order to set up standard methods of determining engineering qualifications for registration purposes the Council of Engineering Examiners has adopted the following articles of agreement:

ARTICLES OF AGREEMENT ON

RECIPROCAL REGISTRATION OF ENGINEERS

ARTICLE 1. Reciprocal registration as provided for in these Articles of Agreement shall be granted only to an applicant who is already registered in some state which is a member of this Council. A detailed professional record, properly attested, and accompanied by references as to character and qualification from three registered practicing engineers, shall be filed with the applicant's board of examiners. Qualification for reciprocal registration shall be determined upon the basis of such professional record, thorough consideration of which shall constitute examination.

ARTICLE 2. Engineering experience gained by the applicant prior to his reaching the age of eighteen years shall not be counted as a part of his professional experience.

ARTICLE 3. Professional experience shall be considered as beginning when the candidate has entered upon a position in professional engineering work which requires original thought and responsibility. For example:

- (a) In the field, experience shall begin to count when the applicant reaches a position of responsibility equivalent to that of actual transitman.
- (b) In the shop or laboratory, experience shall begin to count only after apprenticeship, foremanship, inspectorship, or other subordinate positions, unless the work done specifically shows that the applicant possesses originality of design and has had responsibility in his subordinate positions.
- (c) In the office or drafting room, experience shall begin to count when the applicant ceases to do merely tracing, lettering, or purely mechanical work requiring for its performance merely manual dexterity, and enters a position of responsibility where he begins actual design.
- (d) Experience in the teaching of engineering shall begin to count when the applicant is a full-time instructor in engineering in an engineering school of recognized standing, and each year of teaching shall be considered equivalent to one year of practice.

ARTICLE 4. The applicant shall have had ten years of experience in professional engineering and in addition shall show that he is qualified to design as well as to direct engineering operations, as evidence of qualification for reciprocal registration, and his experience record shall show progressive advancement in the character of the work performed.

Each case shall be considered on its merits, and the experience record must be given in such complete detail that the Board of Examiners can determine the character of work performed by the applicant.

ARTICLE 5. Graduation from an engineering school of recognized standing shall be accepted as the equivalent of four years of such practice.

An engineering school of recognized standing shall be one which requires the equivalent of a high school or preparatory school diploma as an entrance requirement and demands the equivalent of a four years' course in engineering for graduation.

ARTICLE 6. Making reciprocal registration operative between the states shall be done by means of certification from one state to another of the applicant's qualifications. This certification shall be by means of a card or form bearing the date, serial number, and signatures of the officers and the seal of the board of the state issuing same. This card is to be printed and distributed by the Council of State Boards of Engineering Examiners.

ARTICLE 7. Whenever an applicant applies to his own state board for reciprocal registration, if his qualifications fully comply with the standard herein provided, he shall be granted the same.

ARTICLE 8. The aforesaid reciprocal registration certificate shall be prima facie evidence of qualification for registration in any state that is a member of this Council and that has subscribed to these Articles of Agreement. When such reciprocal registration certificate is presented, together with the legal fee required and such information (other than evidence of qualification) as may be requested for the records of the Board to which the application is made, such Board shall issue a registration certificate to the applicant.

ARTICLE 9. Any reciprocal certificate may be revoked by the state issuing same upon presentation to its Board of Examiners of good and sufficient evidence of incompetency, or proof that the applicant's character warrants such revocation.

ARTICLE 10. Should any questions or disagreements in the interpretation of these Articles arise, such questions shall be referred to the Council for action at its next regular meeting, or if more expeditious action shall be necessary, they may be acted upon by the Council by letter ballot.

If action is taken by letter ballot, such action shall be conducted through the office of the Secretary of the Council in the customary manner; and the votes shall be counted not later than sixty days after forwarding from his office, by registered mail, of questions at issue. The Secretary of the Council shall thereupon immediately certify to the various member boards the roll call and results of the vote, and the determination of the questions at issue; and consequent actions shall be in accordance with the majority of the votes recorded.

RECIPROCAL REGISTRATION CARDS ISSUED

Name	Town	Number
Louis P. Wolff	St. Paul, Minnesota	3702
