STATE OF MINNESOTA  
DEPARTMENT OF STATE  
FILED  
JUL 19 1934

Mr. Mike Holm,  
Secretary of State,  
State Capitol,  
St. Paul, Minnesota.

My dear Mr. Holm:

For your information, we enclose herewith a list of the nurses who have been registered in the State of Minnesota from 1908 to the present date. The law relating to registration was passed in 1907, and the first nurses became registered in this state the following year. From 1908 to 1926, the list of registered nurses was put into printed form. Then realizing that the expense involved in printing the lists did not justify the use to which they were put, we have, since that time, had the lists typed. The total number of nurses registered in the state to the present date is 13,705.

We believe that your department should be in possession of this information, and hereafter will be glad to send you the list of each group of nurses that become registered following the State Board examinations, which occur twice a year.

Yours very sincerely,

*Leila Halverson*
