### A Profile of State and Local Taxes in Minnesota 2002 Edition

This handbook contains a summary of the state and local tax system in Minnesota. The first section provides a profile of each state tax including tax base, rates, collection amounts, and legislative history. The second section profiles each local tax in a similar manner. The last section contains summary tables of state and local tax collections.

The tax provisions include changes enacted in the 2002 legislative session.

Please note:

- Collection amounts are net collections after refunds.
- The history sections show major changes by the year enacted, not the effective date.
