Dear Secretary Flahaven and Chief Clerk Burdick:

On behalf of DNR Commissioner Gene Merriam, I am providing this annual report to the legislature on the **Stream Protection and Improvement Loan Program**, as directed by Minnesota Statutes, Section 103G.705.

The stream loan program was created by Laws of 1999, Chapter 231, Section 129. A \$1.1 million start-up fund for the program was appropriated in Section 5, Subdivision 3, of Chapter 231. The program allows political subdivisions to apply to the DNR for loans to protect or improve streams. Loans must be repaid without interest over a period not to exceed ten years. The DNR is allowed to collect an annual fee to cover its administrative costs.

The City of Stillwater was the only political subdivision that submitted a loan application when the program was announced in 1999. Stillwater requested the entire \$1.1 million to protect Brown's Creek in Washington County, and identified a need for an additional \$1.7 million. DNR and the City signed a stream loan agreement in February 2000 that provided Stillwater with the entire \$1.1 million. The repayment schedule for this loan extends through January 31, 2011.

The legislature appropriated an additional \$850,000 for the program in Laws of 2001, First Special Session, Chapter 2, Section 5, Subdivision 7 (9). Again, Stillwater was the only political subdivision that submitted a loan application. DNR and the City signed a second stream loan agreement in August 2002 that provided Stillwater with the entire \$850,000. The repayment schedule for this second loan extends through January 31, 2013.

Loan repayments are deposited in the Stream Protection and Redevelopment revolving fund established under Minnesota Statutes, Section 103G.705, Subdivision 2. The current balance is about \$500,000 and we will be soliciting new applications in 2004.

Sincerely,
DNR WATERS
