March 19, 2004

The Honorable Tim Pawlenty, Governor

Members of the Legislature

I am submitting the State of Minnesota Financial and Compliance Report on Federally Assisted Programs for the year ended June 30, 2003. This report meets the requirements of the Federal Single Audit Act of 1984 as amended in 1996 and the U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*.

This single audit report includes all federal assistance received by the state agencies determined to be a part of the primary government and its blended component units. The criteria used to define the state's reporting entity are those established by the Governmental Accounting Standards Board. All federal program activity of this reporting entity was included under the state's single audit. Programs administered by discretely presented component units are reported in separate single audit reports issued by the individual entities.

For purposes of the single audit in Minnesota, the audited entity is the state rather than each state agency. With this approach, the single audit can be combined with the annual financial audit. This is an efficient approach for Minnesota because state agencies are all subject to the same centralized controls (the accounting, personnel/payroll and procurement systems).

Management Responsibilities

The Department of Finance is responsible for the accuracy, fairness and completeness of the financial schedules, including all disclosures, presented in this report. The department is also responsible for the Minnesota Accounting and Procurement System (MAPS), which was used in preparing this report. I believe these schedules provide a fair representation of financial activity for federal programs for the year ended June 30, 2003.

The Department of Finance is responsible for designing and applying the statewide internal controls. State agencies are responsible for additional internal controls used for the administration of federal programs. These controls provide reasonable assurance that the state's assets are protected against loss, either intentional or unintentional; that resource use is consistent with laws, regulations and policies; that transactions are executed in accordance with management's authorization; and that the accounting records from which the financial schedules were prepared are reliable. The concept of reasonable assurance recognizes that the cost of control should not exceed the benefit derived.

1

In addition, state agencies have specific responsibilities for federal programs. State agencies are required to manage and maintain adequate accounting records for their federal programs. They are required by the relevant federal departments and agencies to prepare periodic financial reports. State agencies are also responsible for assuring that organizations to which they subgrant federal funds have the required audits and promptly resolve federal program deficiencies reported as a result of those audits. The U.S. Department of Health and Human Services - Office of Inspector General - National External Audit Resources serves as the lead cognizant agency representing all federal agencies awarding federal assistance to the state of Minnesota.

Federal Financial Assistance to the State of Minnesota

In fiscal year 2003, the state of Minnesota received approximately \$6.9 billion in federal assistance for its many programs.

Audits

The Minnesota Office of the Legislative Auditor performs an annual statewide audit primarily for the purpose of expressing an audit opinion on the financial statements included in the state's Comprehensive Annual Financial Report prepared by the Department of Finance. Another purpose of the statewide audit is to provide information to the Governor, Legislature and heads of state agencies concerning financial and accounting issues involving the state and its agencies. The scope of the annual statewide audit also includes the federal requirements of the Single Audit Act and OMB Circular A-133.

The Office of the Legislative Auditor has audited the federal programs financial schedules and their report on them is included as a part of this report. Also included are Office of the Legislative Auditor reports on internal control and compliance.

All subrecipients receiving federal assistance from Minnesota state agencies have been required to have audits in accordance with OMB Circular A-133. State agencies are responsible for assuring that their subrecipients have audits and resolve audit recommendations resulting from these audits. Results of these audits are summarized in the Report on Audits of Subrecipients issued by the Office of the State Auditor.

Report

This Single Audit Report supplements the state's Comprehensive Annual Financial Report for the year ended June 30, 2003, and includes financial information for federal programs compiled by the Department of Finance. It is divided into four sections: Transmittal Letter; Financial Statement Section, which includes the auditor's report on internal control and compliance over financial reporting; Federal Programs Section, which includes the auditor's report on internal control and compliance for major federal programs, schedule of expenditures and notes to the schedules; and the Corrective Action Plans Section, which includes the status of prior audit findings and schedule of corrective action plans.

The Office of the Legislative Auditor is responsible for preparing the auditor's reports on internal control and compliance; summary of auditor's results; and the schedules of audit findings for statewide financial statements and federal programs. The Department of Finance is responsible for preparing the schedules of expenditures for federal programs, the schedule of corrective action plans for current year audit findings, and the status of prior federal program audit findings schedule.

The financial schedules presented are meant to provide a consistent basis for reporting on the expenditures of federal assistance received by state agencies. They are not meant to replace recipient financial reporting currently required for each individual program of federal assistance.

In addition to this financial and compliance report, the single audit for the state of Minnesota includes the departmental audit reports issued by the Office of the Legislative Auditor and the Report on Audits of Subrecipients issued by the Office of the State Auditor.

Acknowledgments

Although the Department of Finance accepts final responsibility for this report, we would like to acknowledge the significant assistance provided by staff in the many state agencies receiving federal assistance. The financial schedules agencies prepared for each of their federal programs were used to compile these financial schedules.

Sincerely,

Keggyy Ingusi

۲

Report on Compliance and Internal Control over Financial Reporting Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Members of the Legislature

The Honorable Tim Pawlenty, Governor

Mr. Dan McElroy, Commissioner of Finance

We have audited the basic financial statements of the State of Minnesota as of and for the year ended June 30, 2003, and have issued our report thereon dated December 5, 2003. We did not audit the financial statements of the Minnesota State Colleges and Universities (MnSCU), a business-type activity. The MnSCU financial statements represent 80 percent of the assets and 36 percent of the operating revenues of the primary government's total business-type activities. We also did not audit the financial statements of the University of Minnesota, Metropolitan Council, Housing Finance Agency, Public Facilities Authority, Minnesota Workers Compensation Assigned Risk Plan, National Sports Center Foundation, Higher Education Services Office, and Minnesota Partnership for Action Against Tobacco, which cumulatively represent 99 percent of the assets and 99 percent of the revenues of the total discretely presented component units. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the aforementioned proprietary fund and discretely presented component units, is based solely on the reports of other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. The financial statements of the Minnesota Workers Compensation Assigned Risk Plan, National Sports Center Foundation, and Minnesota Partnership for Action Against Tobacco, which are discretely presented component units, were not audited in accordance with Government Auditing Standards.

Compliance

As part of obtaining reasonable assurance about whether the State of Minnesota's-financialstatements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance that are required to be reported under *Government Auditing Standards* and are described in the accompanying *Minnesota Office of the Legislative Auditor Statewide Audit Schedule of Financial Statement Audit Findings*. Also, in Note 2 to the State of Minnesota's Comprehensive Annual Financial Report, it was disclosed that, on June 30, 2003, the state's collateral was approximately \$59 million under the amount required by law. Members of the Legislature The Honorable Tim Pawlenty, Governor Mr. Dan McElroy, Commissioner of Finance Page 2

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the State of Minnesota's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions and other internal control matters are included in the accompanying *Minnesota Office of the Legislative Auditor Statewide Audit Schedule of Financial Statement Audit Findings*. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the State of Minnesota's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that none of the reportable conditions described above is a material weakness.

This report is intended solely for the information and use of the Minnesota Legislature, the management of affected state agencies, federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Schedule of Financial Statement Audit Findings Fiscal Year Ended June 30, 2003

PURPOSE

The Minnesota Office of the Legislative Auditor Statewide Audit Schedule of Financial Statement Audit Findings lists matters relating to internal control and compliance over financial reporting that were noted as a result of the audit of the State of Minnesota's Comprehensive Annual Financial Report for the year ended June 30, 2003. The following schedule should be used in conjunction with the Report on Compliance and Internal Control over Financial Reporting Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards dated December 5, 2003. The schedule is intended primarily to be a reference to separately issued individual reports. Details concerning findings listed on the schedule, including agency responses, are included in the individual agency audit reports.

The organization and terminology used in the schedule are discussed after the schedule of financial statement audit findings.

Minnesota Office of the Legislative Auditor

Explanation of the Schedule of Financial Statement Audit Findings Fiscal Year Ended June 30, 2003

This schedule shows significant internal control findings identified during our audit of the basic financial statements of the State of Minnesota as of and for the year ended June 30, 2003. These statements are included in the State of Minnesota's Comprehensive Annual Financial Report for the year ended June 30, 2003. The schedule also includes instances of noncompliance at the financial statement level. The findings are sorted by agency and area, for both the state's primary government and its discretely presented component units. The schedule refers to audit reports that contain a more detailed discussion of the respective audit findings and include agency responses.

- The report numbers in the format 0X-XX refer to reports issued by the Minnesota Office of the Legislative Auditor, which can be accessed electronically through the office website at <u>www.auditor.leg.state.mn.us</u>.
- The financial statements of the Minnesota State Colleges and Universities, a part of the state's primary government, were audited by Deloitte & Touche LLP (D&T).
- The financial statements of the Metropolitan Council, a discretely presented component unit, were audited by the Minnesota Office of the State Auditor (OSA).
- The financial statements of the Minnesota Partnership for Action Against Tobacco, a discretely presented component unit, were audited by Eide Bailly, LLP (EB).

Complete financial statements and the related reports for the audits referenced above can be obtained from their respective administrative offices, as follows:

Metropolitan Council Mears Park Centre 230 East Fifth Street Saint Paul, Minnesota 55101

Minnesota Partnership for Action Against Tobacco 590 Park Street, Suite 400 Saint Paul, Minnesota 55103

Minnesota State Colleges & Universities Financial Reporting Unit 500 Wells Fargo Place, 30 East Seventh Street Saint Paul, Minnesota 55101

FEDERAL PROGRAM SECTION

.

Report on Compliance with Requirements Applicable to Each Major Program and on Internal Control over Compliance in Accordance with OMB Circular A-133

Members of the Legislature

The Honorable Tim Pawlenty, Governor

Ms. Peggy Ingison, Commissioner of Finance

Compliance

We have audited the compliance of the State of Minnesota with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement, that are applicable to each of its major federal programs for the year ended June 30, 2003. The State of Minnesota's major federal programs are identified in the Minnesota Office of the Legislative Auditor Summary of Auditor's Results. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the State of Minnesota's management. Our responsibility is to express an opinion on the State of Minnesota's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above, that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the State of Minnesota's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the State of Minnesota's compliance with those requirements.

As described in the accompanying *Minnesota Office of the Legislative Auditor Statewide Single Audit Schedule of Federal Program Audit Findings*, the State of Minnesota did not comply with certain compliance requirements that are applicable to specific major federal programs. Compliance with such requirements is necessary, in our opinion, for the State of Minnesota to comply with requirements applicable to those programs.

Room 140 Centennial Building, 658 Cedar Street, St. Paul, Minnesota 55155-1603 • Tel: 651/296-4708 • Fax: 651/296-4712 E-mail: auditor@state.mn.us • TDD Relay: 651/297-5353 • Website: www.auditor.leg.state.mn.us Members of the Legislature The Honorable Tim Pawlenty, Governor Ms. Peggy Ingison, Commissioner of Finance Page 2

In our opinion, except for the noncompliance described in the preceding paragraph, and except for the errors and questioned costs reported separately to the U.S. Department of Agriculture by the Minnesota Department of Human Services concerning the department's food support quality control activities for the Food Stamp (CFDA #10.551) and Temporary Aid for Needy Families (CFDA #93.558) Programs, the State of Minnesota complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2003.

Internal Control Over Compliance

The management of the State of Minnesota is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the State of Minnesota's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

We noted reportable conditions and other matters involving the internal control over compliance and its operation that are described in the accompanying *Minnesota Office of the Legislative Auditor Statewide Single Audit Schedule of Federal Program Audit Findings*. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the State of Minnesota's ability to administer a major federal program in accordance with applicable requirements of laws, regulations, contracts, and grants.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce, to a relatively low level, the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that none of the reportable conditions described above are material weaknesses.

Members of the Legislature The Honorable Tim Pawlenty, Governor Ms. Peggy Ingison, Commissioner of Finance Page 3

Schedule of Expenditures of Federal Awards

We have audited the basic financial statements of the State of Minnesota as of and for the year ended June 30, 2003, and have issued our report thereon dated December 5, 2003. We did not audit the financial statements of the Minnesota State Colleges and Universities (MnSCU), a business-type activity. The MnSCU financial statements represent 80 percent of the assets and 36 percent of the operating revenues of the primary government's total business-type activities. We also did not audit the financial statements of the University of Minnesota, Metropolitan Council, Housing Finance Agency, Public Facilities Authority, Minnesota Workers Compensation Assigned Risk Plan, National Sports Center Foundation, Higher Education Services Office, and Minnesota Partnership for Action Against Tobacco, which cumulatively represent 99 percent of the assets and 99 percent of the revenues of the total discretely presented component units. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the aforementioned proprietary fund and discretely presented component units, is based solely on the reports of other auditors. Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying State of Minnesota Major Federal Programs Schedule of *Expenditures* is presented for the purpose of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the Minnesota Legislature, the management of affected state agencies, federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Minnesota Office of the Legislative Auditor Statewide Audit

Schedule of Federal Program Audit Findings Fiscal Year Ended June 30, 2003

PURPOSE

The schedule of audit findings for federal programs is presented to accommodate the federal inspector general, program staff, and other federal officials in resolving audit findings associated with federal programs. This schedule is intended primarily to be a reference to the individual management letters (reports) which we have issued to each affected state agency. All audit report findings associated with major and nonmajor federal programs are included in this schedule. We classified findings separately related to internal control and compliance.

This schedule is not intended to replace the individual audit reports and the respective state agency responses. The audit reports contain a detailed discussion of each finding, as well as the state agency's formal response to the findings. Therefore, users of this report are encouraged to utilize the schedule in conjunction with those documents. All audit reports issued by the Minnesota Office of the Legislative Auditor can be accessed electronically through the office website at <u>www.auditor.leg.state.mn.us.</u>

The organization and terminology used in the schedule are discussed after the schedule of federal program audit findings.

Minnesota Office of the Legislative Auditor Statewide Audit

Explanation of the Schedule of Federal Program Audit Findings Fiscal Year Ended June 30, 2003

Introduction

This schedule shows the federal program audit findings for entities included in the state's primary government. The internal control and compliance findings are summarized in the schedule of federal program audit findings by federal grantor agency and program. The federal program is identified by its Catalog of Federal Domestic Assistance (CFDA) number. The federal programs are listed in numerical sequence for each federal agency. The schedule shows the reference to our audit reports, which contain discussion of the respective audit finding. The name of the state agency, the audit report number, and the finding number are also identified. All audit reports issued by the Minnesota Office of the Legislative Auditor can be accessed electronically through the office website at <u>www.auditor.leg.state.mn.us</u>. Deloitte & Touche LLP issued the management letter for the Minnesota State Colleges and Universities. The schedule shows references to their report as DT-03.

Internal Control

Internal control findings are referenced in the schedule. The schedule includes reportable conditions and other internal control matters identified in our audit of the federal programs. We noted no matters involving the internal control over the state's administration of federal financial assistance programs that we consider to be material weaknesses.

Compliance Requirements

Compliance findings referenced in the schedule relate to the requirements specified in federal laws and regulations. Most of these requirements are described in the U. S. Office of Management and Budget (OMB) Circular A-133, *Compliance Supplement*. Compliance findings are categorized by the type of compliance requirement specified in the compliance supplement (Categories A through N).

Summary of Problem and Financial Impact

The schedule contains a brief discussion of the specific problem cited in the respective state agency audit report. This discussion should be interpreted cautiously because of its brevity. We encourage users of this report to refer to the audit report comments for any items which may interest them.

The schedule indicates the financial impact of the finding. We have utilized three standard references in this column:

- P Indicates a procedural finding which normally relates to a weakness in internal control or a nonfinancial instance of noncompliance. The area is generally not subject to quantification, and it is unlikely that a measurable financial impact accrues to the finding. However, leaving the finding unresolved subjects the state agency to a higher than normal risk of errors, irregularities, or inefficiencies.
- NQ Indicates that there is the likelihood of some financial benefits or losses, but the amount was not readily quantifiable. We either did not believe that quantifying the problem would enhance the finding, or records were not available to determine the financial impact.
- Amount Signifies that a finding results in a quantifiable amount, which indicates the potential dollar impact resulting from noncompliance or inconsistency with the requirements set forth in contracts, awards, loan agreements, statutes, or regulations governing the allocation, allowance, or reasonableness of costs charged to federal programs. Amounts are shown for specific dollars questioned in identified audit reports and do not include amounts, if any, separately reported to the respective federal agencies by state agencies.

STATE OF MINNESOTA NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS JUNE 30, 2003

These notes provide disclosures relevant to the schedules of expenditures of federal awards presented on the preceding pages.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The reporting policies for fiscal year 2003 conform to the Federal Single Audit Act of 1984 as amended in 1996 and the U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. The required Schedule of Expenditures of Federal Awards is presented for the state's fiscal year ended June 30, 2003. The Schedule of Expenditures of Federal Awards is divided into two sections: major and nonmajor federal programs.

The auditor uses a risk-based approach as defined in the U.S. Office of Management and Budget (OMB) Circular A-133 to determine which federal programs are major programs. Programs expending \$19.8 million or more in federal awards are Type A programs and are considered major programs. Type B programs are programs expending less than \$19.8 million in federal awards. If the auditors assess Type A programs as low-risk, they may replace Type A programs by higher risk Type B programs as major programs.

For purposes of financial reporting, the Catalog of Federal Domestic Assistance (CFDA) number from the June 2003 basic edition catalog identifies federal programs. The schedules are presented in numeric CFDA order within each federal agency.

Financial Reporting Entity of the State of Minnesota

The financial reporting entity for the state of Minnesota includes all state departments, agencies, institutions, and organizational units which are controlled by or dependent upon the Minnesota Legislature and/or its constitutional officers. The state, a primary government, has considered for inclusion all potential component units for which it may be financially accountable or other organizations for which the nature and significance of their relationship with the state are such that exclusion would cause the report to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be used in determining financial accountability. These criteria include the state's ability to appoint a voting majority of an organization's governing body and either the ability of the state to impose its will on that organization, or the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the state.

The federal programs included in this report are part of the state's primary government. Separate single audit reports issued by individual entities report on the federal programs administered by discretely presented component units.

Minnesota State Colleges and Universities (MnSCU), which is part of the primary government, consists of the following schools:

Alexandria Technical College	Minnesota State University, Moorhead
Anoka Technical College	Minnesota West Community and Technical College
Anoka-Ramsey Community College	Normandale Community College
Bemidji State University	North Hennepin Community College
Central Lakes College	Northland Community and Technical College
Century College	Northwest Technical College
Dakota County Technical College	Pine Technical College
Fergus Falls Community College	Rainy River Community College
Fond du Lac Tribal and Community College	Ridgewater College
Hennepin Technical College	Riverland Community College
Hibbing Community College	Rochester Community and Technical College
Itasca Community College	South Central Technical College
Inver Hills Community College	Southwest State University
Lake Superior College	St. Cloud State University
Mesabi Range Community and Technical College	St. Cloud Technical College
Metropolitan State University	St. Paul Community and Technical College
Minneapolis Community and Technical College	Vermilion Community College
Minnesota State College-Southeast Technical	Winona State University
Minnesota State University, Mankato	

Basis of Accounting

The state's Comprehensive Annual Financial Report and these supplemental schedules are presented in accordance with generally accepted accounting principles (GAAP), following the accrual or modified accrual basis of accounting, as appropriate for the fund structure. Most federal activity is accounted for in the Federal Fund (a major governmental fund), but several other nonmajor special revenue funds (Trunk Highway, Municipal State-Aid Street, County State-Aid Highway, Minnesota Resources, Game and Fish, and Miscellaneous Special Revenue funds) and major proprietary funds (State Colleges & Universities and Unemployment Insurance funds) include federal activity. The Minnesota Accounting and Procurement System is the primary source of financial information. Some state agencies maintain additional manual records or separate cost accounting systems to provide additional information.

Classification of Statement Information

Expenditures are presented for all federal programs and include amounts subgranted to other state or local governmental units, nongovernmental organizations or individuals. Subgrant expenditures are recognized by the primary state agency subgranting the funds, not by the state agency receiving a subgrant from the primary state agency except for portions of Temporary Aid for Needy Families (TANF) CFDA 93.558. TANF subgrants, which are transferred into the Social Services Block Grant (CFDA 93.667) and the Child Care Development Block Grant (CFDA 93.575), are included in those programs and not TANF.

Effective August 1, 2003, the Department of Children, Families, and Learning was renamed to the Department of Education and the Department of Economic Security and the Department of Trade and Economic Development merged to become the Department of Employment and Economic Development.

2. PERKINS AND NURSING STUDENT LOAN PROGRAMS

The amount reported on the financial statements for the Perkins Loans (CFDA 84.038) for the Minnesota State College and University System is the administrative and collection costs. Below is a summary of the loan activity for the Perkins Loans and Nursing Loans (NSL) program (CFDA 93.364) during fiscal year 2003.

	Perkins	NSL	
Loans Receivable, Beginning	\$ 35,674,298	\$ 150,525	
Loan Repayments	(7,124,037)	(45,068)	
Loan Cancellations	(813,331)	(3,101)	
New Loans Issued	7,876,209	18,690	
Loans Receivable, Ending	\$ 35,613,139	\$ 121,046	

3. FEDERAL FAMILY EDUCATION LOAN PROGRAMS

The Minnesota State College and University System (MnSCU) financial records provide information on various federal higher education student loan programs for which the state does not manage the federal funds.

Under the Federal Family Education Loans (FFEL) program (CFDA 84.032), financial institutions make loans to students attending institutions of higher education. The Federal Direct Student Loan (FDSL) program (CFDA 84.268) operates similarly to the FFEL program except that the federal government, rather than a private lender, provides the loan principal to the student. MnSCU distributed the following FFEL and FDSL loans to students attending state colleges or universities during fiscal year 2003.

\$	109,853,450
	97,806,753
_	1,122,731
\$	208,782,934
\$	43,301,778
	\$ \$

4. FOOD STAMPS PROGRAM

The amounts reported on the schedule for the Food Stamps program (CFDA 10.551) primarily consist of electronic benefits and emergency cash payments to individuals. During fiscal year 2003, the state also issued food coupons to recipients totaling \$2,584. Inventory of food stamps on hand at June 30, 2003 is valued at \$204,023.

5. OIL OVERCHARGE FUNDING

Grants made from oil overcharge funds are included in this report as federal expenditures for the Weatherization Assistance (CFDA 81.042) program. Loans are also administered from these funds by the departments of Finance and Commerce. A summary of the loan activity for fiscal year 2003 is shown below.

	Finance		Commerce	
Loans Receivable, Beginning	\$	754,016	\$	414,438
Loan Repayments		(442,449)		(180,234)
New Loans Issued		47,231	_	500,000
Loans Receivable Ending, Federal		358,798		734,204

6. REBATES

The Supplemental Food Program for Women, Infants, and Children (WIC) program (CFDA 10.557), administered through the Minnesota Department of Health, receives cash rebates from infant formula manufacturers. The rebates are used to offset program costs and are reported as expenditure reductions. During fiscal year 2003, the state of Minnesota received a total rebate of \$20,709,801 on sales of formula to participants in the WIC program.

The Medical Assistance program (CFDA 93.778), administered through the Minnesota Department of Human Services, receives cash rebates from drug labelers. The rebates are used to offset program costs and are reported as expenditure reductions. During fiscal year 2003, the state of Minnesota received a total rebate of \$73,089,984 on sales of drugs to participants in the Medical Assistance program.

7. UNEMPLOYMENT INSURANCE PROGRAM

For fiscal year 2003, expenditures for the Unemployment Insurance program (CFDA 17.225) include federal and state unemployment insurance grant expenditures as well as federal administrative expenditures. The federal unemployment insurance grant expenditures were \$180,593,380 and the state unemployment insurance grant expenditures were \$864,092,803. The federal administrative expenditures were \$48,223,512, which includes REED Act expenditures of \$13,728,441. The Unemployment Insurance Program serves workers who are unemployed through no fault of their own and are seeking reemployment. To receive benefits, claimants must be able to work, available for work, and actively seeking work. For audits and reporting under OMB Circular A-133, the U.S.

Department of Labor requires that both federal and state unemployment insurance funds be considered federal awards for determining Type A (major) federal programs and for reporting expenditures of federal awards.

8. FOOD COMMODITIES

The Food Distribution program (CFDA 10.550) for the Department of Education receives food commodities from the U.S. Department of Agriculture. The expenditures consist of non-cash contributions in the form of food commodities provided for distribution to school districts and other organizations. During fiscal year 2003, the state of Minnesota received food commodities of \$16.1 million.

9. WATER QUALITY CAPITALIZATION GRANTS

Water quality capitalization grants (CFDA 66.458) are used by states to create revolving funds that will provide financing for construction of wastewater treatment facilities and implementation of other water quality management activities. Loans are administered from these funds by the departments of Trade and Economic Development, Agriculture, and Pollution Control. The state's loan programs are Tourism Septic Loan (TLP), Small Cities (SCDP), Agriculture Best Management Practices (AG BMP) and Clean Water Partnership (CWP). A summary of the loan activity for fiscal year 2003 is shown below.

	AG			
TLP	SCDP	BMP	CWP	
\$ 393,950	\$ 798,865	\$ 34,739,622	\$ 10,450,669	
(89,644)	(112,998)	(446,759)	-	
82,865	-	3,543,923	1,735,202	
\$ 387,171	\$ 685,867	\$ 37,836,786	\$ 12,185,871	
	\$ 393,950 (89,644) 82,865	\$ 393,950 \$ 798,865 (89,644) (112,998) 82,865 -	TLP SCDP BMP \$ 393,950 \$ 798,865 \$ 34,739,622 (89,644) (112,998) (446,759) 82,865 - 3,543,923	

10. CFDA NUMBERS

The U.S. Department of Labor required that expenditures for program year 2000 funds awarded in fiscal year 2001 be reported in CFDA 17.255 (WIA-Adult and Youth). CFDA 17.255 was used in the federal expenditure schedule for all program year 2000 Adult, Youth and Dislocated Worker awards expended through June 30, 2003. Program year 2001 WIA formula awards, which started on April 1, 2001 and July 1, 2001, are now separately reported in WIA-Adult (CFDA 17.258), WIA-Youth (CFDA 17.259) and WIA-Dislocated Workers (CFDA 17.260).

For certain programs, the correct CFDA number could not be determined. At times, state agencies receive federal grant funds from a federal agency with a program number instead of a CFDA number. When possible, a CFDA number was obtained for the program. Certain CFDA numbers presented are no longer operating programs. These programs resulted in funds being carried over from previous years. In other cases, the Department of Finance assigned a number. State agencies using the number assigned by the Department of Finance in fiscal year 2003 were asked to work with the federal granting agency to obtain a valid CFDA number for the grant program.

CORRECTIVE ACTION PLANS SECTION

55

State of Minnesota Department of Finance

Schedule of Corrective Action Plans for Financial Statement and Federal Program Audit Findings Fiscal Year Ended June 30, 2003

PURPOSE

This schedule is presented to comply with the reporting requirements under the U.S. Office of Management and Budget (OMB) Circular A-133. Those audit findings required to be reported under this Circular associated with the fiscal year 2003 financial audit and single audit are included in this schedule.

This schedule is intended to identify corrective action plans by a state agency to resolve current year audit findings. The schedule includes the Office of the Legislative Auditor report number and finding number⁽¹⁾; the individual responsible for implementation of the corrective action plan; estimated completion dates of the corrective action; and a description of the corrective action to be taken. The schedule is sorted by audit report number and finding number. If a state agency does not agree with the audit findings or believes corrective action is not required, the corrective action plan includes an explanation and specific reasons why the state agency disagrees.

SOURCE OF INFORMATION

The narrative for the corrective action plans was extracted from agency responses to the Legislative Audit findings in the referenced reports. The agency response is included as part of the published audit report, and can be found by reviewing the referenced audit report. If the state agency response did not include an individual responsible for implementation of corrective action plans and/or estimated completion dates, the state agency was contacted in an attempt to obtain this information.

⁽¹⁾Audit reports and findings by other auditors are also included in the schedule.

State of Minnesota Schedule of Corrective Action Plans for Financial Statement and Federal Program Audit Findings Fiscal Year Ended June 30, 2003

Report 03-57: Department of Health (Grants to Minnesota Men of Color)

Finding 2: The Minnesota Men of Color was over reimbursed during the grant periods.

Response: The Department of Health is beginning a process that will identify standard programmatic and business practice trigger points that indicate a need for increased levels of technical assistance and documentation. If this increased level of technical assistance is not effective, a progressive process will be put in place to evaluate the effectiveness of the services provided by the grantee and may result in modifications to or termination of the agreement. This process will include input from the grant manager and review by the Section and Division management.

Estimated Completion Date: Ongoing

Individual Responsible: Agnes Leitheiser, Assistant Commissioner

Report 03-57: Department of Health (Grants to Minnesota Men of Color)

Finding 3: The Minnesota Men of Color did not comply with several financial-related and programmatic requirements of the grant contracts.

Response: Section restructuring will allow the grantee technical assistance staff to become more focused in providing on-site technical assistance and monitoring of intervention implementation. This will allow the department to more closely monitor and document the actual implementation of grant deliverables.

Estimated Completion Date: Ongoing

Individual Responsible: Agnes Leitheiser, Assistant Commissioner

Report 03-58: Department of Education

Finding 1: The Minnesota Department of Education's Food and Nutrition Services Section did not properly charge costs to the Implement Provisions 2 and 3 Grant and did not comply with grant requirements.

Response: The Deputy Commissioner is responsible to lead efforts to assure procedures are implemented. Staff in administrative services will work to implement new procedures.

Estimated Completion Date: Ongoing

Individual Responsible: Chas Anderson, Deputy Commissioner

Report 03-58: Department of Education

Finding 2: The Minnesota Department of Education's Food and Nutrition Services Section did not properly charge payroll to the Team Nutrition 2001 grant. In addition, the department did not comply with specific grant requirements.

Response: The Deputy Commissioner is responsible to lead efforts to assure procedures are implemented. Staff in administrative services will work to implement new procedures.

Estimated Completion Date: Ongoing

Individual Responsible: Chas Anderson, Deputy Commissioner

Report 04-01: Department of Finance

Finding 1: The department does not have effective controls to prevent or detect unauthorized appropriation transfers.

Response: Department of Finance staff will improve instructions regarding appropriation transfer authority, modify transfer approval authority, expand the reconciliation of anticipated and actual transfers monthly, and determine if an automated method can be implemented for preventing agency input of transfers not approved by an executive budget officer.

Estimated Completion Date: June 30, 2004

Individual Responsible: Lori Mo, Assistant Commissioner

Report 04-01: Department of Finance

Finding 2: Some state agencies had unnecessary clearance to selected appropriation accounts.

Response: An initial evaluation indicates that changing the agency code on these accounts, or using journal vouchers rather than appropriation transfers, is not the best solution for increasing control on these accounts. Changing the agency codes has reporting implications and journal vouchers have several drawbacks. Journal vouchers would result in more difficulty tracking transactions due to a diminished audit trail. JVs are only visible at the fund level complicating some budgetary reporting. JVs would increase the manual effort for loading data into the biennial budget system. Finance also considered inactivating appropriation accounts without spending authority, but this approach requires frequent manual intervention and could create business process delays. Another option for increasing control on these accounts is to cancel balances to the fund level on a more frequent basis. Upon initial review, this may be the best solution.

Estimated Completion Date: June 30, 2004

Individual Responsible: Ron Mavetz, Agency Support Director

Report 04-10: Department of Public Safety

Finding 1: The Department of Public Safety did not have an appropriate process to determine year-end accrued liabilities for inclusion in the state's financial statements.

Response: The Department of Public Safety agrees with the finding that errors were made in calculating the June 30, 2003 accrued liabilities from the open encumbrance balances. The Department of Public Safety, Office of Fiscal and Administrative Services, will be establishing a series of meetings with its fiscal staff, grant managers from HSEM, and with staff from the Department of Finance to discuss ways to best identify, capture and report these year-end liabilities accurately and timely in future years.

Estimated Completion Date: June 30, 2004

Individual Responsible: Frank Ahrens, Fiscal and Administrative Services Director

Report 04-11: Department of Human Services (DHS)

Finding 1: The Department of Human Services used Medical Assistance funds for unallowable services.

Response: DHS will use the recently implemented MMIS edit that ensures that federal Medical Assistance funds are only used for individuals in eligible facilities. DHS will also continue the process of reimbursing the federal government for funds used for unallowable program services. They anticipate that the majority of this work will be completed by June 30, 2004, but this is ultimately dependent on county actions to change eligibility for identified individuals.

DHS will implement an annual process to identify chemical dependency claims with retroactive Medical Assistance eligibility. A report will be sent to counties requesting that individuals for whom those claims were made, be moved off of Medical Assistance for the time period that they were in IMDs.

Estimated Completion Date: June 30, 2004

Individual Responsible: Donald R. Eubanks, Director, Chemical Health Division

Report 04-11: Department of Human Services (DHS)

Finding 2: The Department of Human Services did not comply with federal regulations when allocating salaries to some federal programs.

Response: Most department central office staff salaries are allocated to benefiting programs according to federally approved cost allocation plan methodology. Less than 5% of department central office staff are direct charged to more than one federal grant or federal/state combination of grants.

The department will institute semi-annual direct charge certification procedures for employees who are direct charged to only one federal grant. The department will develop and implement appropriate charging procedures for those employees whose work benefits more than one federal grant or federal/state combination of grants.

Estimated Completion Date: June 30, 2004

Individual Responsible: Jon Darling, Director, Financial Management Division

Report 04-11: Department of Human Services (DHS)

Finding 3: The Department of Human Services did not provide adequate tools to monitor certain high-risk eligibility transactions.

Response: DHS is redesigning a report to run from the DHS data warehouse. The counties will have the redesigned report by the end of June.

Estimated Completion Date: June 30, 2004

Individual Responsible: Kate Wulf, Director, TSS Division

Report 04-11: Department of Human Services (DHS)

Finding 4: The Department of Human Services did not ensure that counties timely resolved income discrepancies identified as part of the benefit eligibility process.

Response: The department is committed to working with counties to ensure the timely resolution of IEVS matches. Therefore, the department will implement the following corrective actions with the goal of meeting the federal 80% timeframe by December 31, 2004.

- The department will continue to work with individual counties not meeting the federal timeliness requirement to improve their performance.
- The department will continue to emphasize to counties the importance of resolving IEVS matches timely. As part of the Food Support Management Evaluation plan for FFY 2004, each county being reviewed will receive information on how they as a county are doing with IEVS match resolution. This will not only identify counties with problems but will recognize those that are doing well.
- The department will provide training to staff involved with resolving IEVS matches to ensure they understand the process for resolving matches and the importance of timely resolution.

Estimated Completion Date: December 31, 2004

Individual Responsible: Ramona Scarpace, Program Assessment and Integrity Division Director

Schedule of Corrective Action Plans for Financial Statement

and Federal Program Audit Findings – Continued

Report 04-11: Department of Human Services (DHS)

Finding 6: The Department of Human Services did not adequately control receipts collected by the Special Recovery Unit.

Response: Current procedure calls for the Issuance Operations Center to send SIRS a copy of the Daily Register Report whenever a check is posted under the SIRS deposit codes. The Daily Register Report lists the remitter's name and the amount of the check. A copy of the Daily Register is then given to the investigator to review and then place in the case file, thereby verifying the check that was sent to the Special Recovery Unit was deposited. In addition SIRS will keep a separate file, for review, of all Daily Registers received for a period of one year.

Estimated Completion Date: March 31, 2004

Individuals Responsible: Vicki Kunerth, Director, Performance Measurement and Quality Improvement Division Larry Woods, Director, Healthcare Operations Division

Report 04-11: Department of Human Services (DHS)

Finding 7: The Department of Human Services did not comply with federal regulations by performing the required number of nursing home audits.

Response: The following corrective actions will be implemented to ensure that the required field audits are completed each year.

- Business redesign DHS has not adjusted their field audit operations to account for the reduction in field audit staff. DHS will establish new procedures that will eliminate down time between audits thus raising the number of audits completed each year. The audit staff will be expected to begin their next audit, by making contact and arranging for a start date, before they complete the write-up work for the one in progress.
- Management tools DHS plans to reinstate a report of field audits completed that shows the auditee name, reporting periods that were audited, length of the field work, the auditors involved, date of completion, etc. This tool will allow to review progress in meeting the 15% requirement and help schedule audits.
- Performance standards Since the auditors' position descriptions contain performance standards for the quantity of audits completed, DHS will begin to review quantity and quality of audits completed as a part of an on-going performance management process.

 Supervision - DHS is also revising supervisors' responsibilities to provide more accountability from the audit staff to include activity sheets that show work completed and in progress, a weekly progress report for all audit activity, and closer monitoring of the scheduling of audits.

Estimated Completion Date: March 31, 2005

Individual Responsible: Robert Held, Director, Nursing Facility Rates and Policy Division

Report 04-11: Department of Human Services (DHS)

Finding 8: One account with clearance to some production data was not properly protected.

Response: DHS is already working with the Department of Administration to implement a solution. The department agrees to work with the Department of Administration to limit access to its computer program libraries to only those people who need such access to fulfill their job duties.

Estimated Completion Date: December 31, 2004

Individual Responsible: Kate Wulf, Director, TSS Division

Report 04-12: Department of Education (MDE)

Finding 1: The Department of Education did not provide the required state matching funds for the charter school federal grant (CFDA #84.282). It also improperly drew down funds before incurring program expenses.

Response: In December 2003, MDE determined it did not have funds to meet the match requirement as indicated in the grant application for charter school federal grant (CFDA#84.282) and so they notified the U.S. Department of Education (USDOE). A letter and updated grant application material was sent to the Office of Innovation and Improvement at USDOE. On March 10, 2004, the department was notified by USDOE that the amendment to the grant application to eliminate the state match reported in the application was approved.

All grant applications require approval by the Commissioner's office. Part of this review is to authorize the reported match requirements. In the event that match requirements are authorized, necessary budget accounts will be established to manage and report the grant match using the Minnesota Accounting and Procurement System (MAPS), the state's accounting system.

The department has revised the financial status report for FFY 2002 and submitted it to USDOE. The repayment of funds has also been entered. The department has also reviewed its reconciliation processes and will implement steps to prevent reoccurrence of this issue. Schedules for cash draws will be created and adhered to and expenditures will be documented for cash drawn from the federal system.

Estimated Completion Date: April 1, 2004

Individual Responsible: Julie Gallagher, Administrative Services

Report 04-12: Department of Education (MDE)

Finding 2: The Department of Education did not have adequate controls to prevent overpayments of certain federal programs and did not properly allocate some federal program funding to school districts.

Response: Several steps have been taken to prevent duplicate payments. An edit control has been implemented in the federal program database that will cause an error message to appear to the program person requesting the payment if a previously used batch number is accessed again. Federal program staff who create and attest to the accuracy and validity of the payment requests have developed a spreadsheet that carefully tracks payment amounts, dates and batch numbers. Duplicate payments or batch numbers should be readily apparent using this new spreadsheet. The person responsible for making the payments has now had further training regarding any error messages that occur during the loading of payment requests. While that person cannot independently assess the accuracy of specific payment amounts, further investigation will occur if error messages warrant.

The department will review the federal program allocations to school districts for fiscal year 2001 through 2003 to determine if allocation errors occurred. The department will review its reallocation policies with USDOE to determine compliance.

Estimated Completion Date: July 1, 2004

Individual Responsible: Jessie Montano, Director, NCLB Consolidated Program

Report 04-12: Department of Education (MDE)

Finding 3: The Department of Education did not prepare accurate financial statements for the Maximum Effort School Loan Fund.

Response: Department staff are working with the Department of Finance to develop procedures that will ensure accurate fund balance statements. Staff will receive training in preparation of financial statements that comply to standards. These statements will be reviewed prior to submission for use in the Comprehensive Annual Financial Report. Department staff in Administrative Services and Program Finance will maintain records and full documentation of loan payments made by the agency, interest payments received, accrued interest, and outstanding loan balances. Steps are being taken to develop assumptions regarding collectability to establish a reserve for those loans where collection is unlikely. A model will assist in forecasting and tracking required maximum effort levy and required debt service levy based on current district tax capacity growth to estimate district refunding and payoff. This reserve will be reviewed annually.

Estimated Completion Date: July 1, 2004

Individuals Responsible: Rita Schmidt, Supervisor, Administrative Services Audrey Bomstad, Supervisor, Program Finance

Report 04-12: Department of Education (MDE)

Finding 4: The Department of Education sometimes allowed vendors to provide services before it fully executed the contract or encumbered funds.

Response: The department has a continued commitment to fully execute contracts and encumber funds prior to the start of any work. There are some unusual circumstances that do arise where work has begun prior to the contracts. The five special education contracts or vendor payments did follow the procedure required by M.S. 16A.15, subdivision 3 and the explanations were included with those contracts.

The five charter school items tested did not have the appropriate violation explanation letters attached to them. The department has not consistently required the violation letters for honorarium or purchase order transactions as has been the practice for professional technical services contracts.

The department will make every attempt to have funds fully encumbered prior to the receipt of goods or services and in the event that circumstances make it impossible to do so, will require M.S. 16A.15 explanations for every transaction out of compliance.

Estimated Completion Date: March 17, 2004

Individual Responsible: Tammy McGlone, Director, Administrative Services

Report 04-12: Department of Education (MDE)

Finding 5: The Department of Education did not properly record some expenditure transactions on the state's accounting system.

Response: The department intends to fully comply with this finding. However, there are two issues, one is staff error in input of information for transaction dates when two fiscal years are open. This can be remedied through a training process and use of the Department of Finance document date material in that training to be sure there is complete understanding of the date issues for transactions.

The larger issue is system related for payments that feed to the accounting system from the Contract Financial Management System or our payment interface system. MDE will work with the departments of Finance and Administration to identify the problem and/or come up with other possible solutions. This problem is a system wide problem and is not isolated to the department.

Estimated Completion Date: July 1, 2004

Individual Responsible: Rita Schmidt, Supervisor, Administrative Services

Report 04-12: Department of Education (MDE)

Finding 7: The Department of Education did not properly report child nutrition expenditures to the federal grantor agency and did not properly draw down federal funds.

Response: A schedule is in place to draw down federal school nutrition money on the 14th and 29th of each month. Federal nutrition administrative money is drawn down bi-weekly. Additionally, cross-training has taken place to ensure that no draws will be delayed due to staff absence.

Estimated Completion Date: March 17, 2004

Individual Responsible: Rita Schmidt, Supervisor, Administrative Services

Schedule of Corrective Action Plans for Financial Statement

and Federal Program Audit Findings – Continued

Report 04-12: Department of Education (MDE)

Finding 8: The Department of Education did not allocate federal special education grant funding to school districts according to federal requirements.

Response: Responsibility for special education funding and data collection was transferred from the Special Education Division to the Program Finance Division in early 2003. With this reorganization, the allocation of federal special education money to school districts and charter schools has been placed under the direction of a manager and supervisor with greater experience in education finance and data management. Weekly meetings are held with program staff to discuss problems and issues arising in the administration of special education funding and data collection. Recommendations from program staff are reviewed by Program Finance and Special Education Policy managers, and final decisions are conveyed back to program staff. To maintain a record of current policies and practices that is available to school districts and charter schools as well as program staff, the *Special Education Funding and Data Manual* will be updated on a regular basis, with updates posted to the department's website. Annual allocations of federal special education money to school districts and charter schools will be reviewed and approved by the Program Finance Director, after consulting with the Special Education Policy Director.

After identifying the incorrect allocation of federal special education funding to school districts and charter schools, the department reported the errors to the Office of Special Education Policy (OSEP) of the U.S. Department of Education. Two conference calls were held with OSEP officials to explain the nature and impact of the errors and to receive direction from OSEP on corrective action plans. On February 13, 2004, MDE received a memorandum from the OSEP Director, outlining the timelines and parameters for corrective action to be taken by the department. Under the direction of the Program Finance Director, MDE will determine the Part B, Section 611 and 619 allocations that each school district and charter school should have received for the years in question, and the difference between those amounts and the amounts of the allocations that each school district and charter school actually received. By April 30, 2004, the department will prepare a plan, consistent with the OSEP memorandum, to make whole the school districts and charter schools that received less than the allocations to which they are entitled. After the plan is reviewed and approved by OSEP, the department will implement the plan and provide quarterly reports, beginning July 31, 2004, as required by OSEP.

Estimated Completion Date: April 30, 2004

Individual Responsible: Tom Melcher, Program Finance Director

Report 04-12: Department of Education (MDE)

Finding 9: The Food and Nutrition Section did not keep support for an amount in its report to the U.S. Department of Agriculture.

Response: The department agrees that documentation should be retained in order to substantiate reports produced by the Cyber-linked Interactive Child Nutrition System database. The department will also pursue the use of the state accounting system as an additional measure to track state match.

Estimated Completion Date: July 1, 2004

Individual Responsible: Karla Mouw, Supervisor, Special Education Policy/Nutrition and Early Learning

Report 04-13: Department of Employment and Economic Development (DEED)

Finding 1: The department did not accurately identify and report federal program expenditures.

Response: DEED will work with the Department of Finance to revise their single audit format so that it does not include any match expenditure information. DEED is confident that the inaccurate single audit schedules and quarterly financial status report errors were isolated incidents. However, DEED will increase oversight review to prevent possible future errors. DEED will work with the federal government to identify CFDA numbers for all programs.

Estimated Completion Date: June 30, 2004

Individual Responsible: John Stavros, Chief Financial Officer

Report 04-13: Department of Employment and Economic Development (DEED)

Finding 2: The department's Unemployment Insurance Fund financial statements required adjustments to conform with generally accepted accounting principles.

Response: Current generally accepted accounting principles (GAAP) do not adequately disclose all fund activity. For example, in DEED's case the book balance of a negative \$11 million was shown as a result of a requirement of the Cash Management Improvement Act, which requires cash to be managed at the bank float level. On future reports, a footnote disclosure may be used to explain this unique situation wherein the negative cash balance is not actually a loan.

Schedule of Corrective Action Plans for Financial Statement

and Federal Program Audit Findings – Continued

DEED will work with the Department of Finance to provide additional schedules in regards to the elimination of transfers to improve tracking of transfers for correct financial presentation.

DEED reported the Federal UI loan on the cash flows statement under "Loans Received, Operating Activities". The loan should have been classified as "Non-Capital Financing Activities".

The following changes will be made to improve future financial statement presentations: (1) initiate face-to-face meetings with the Department of Finance to discuss presentation and schedules, (2) start to construct the financial statements earlier so that the Department of Finance and DEED can have adequate time to discuss presentation, and (3) no longer rely on the Legislative Auditor as the last review for proper financial reporting.

Estimated Completion Date: June 30, 2004

Individual Responsible: John Stavros, Chief Financial Officer

Report 04-13: Department of Employment and Economic Development (DEED)

Finding 3: The department did not retain 10% of the payment amount as called for in the medical consultant service contracts for one federal program.

Response: In the case of medical consultant fees, all work is complete at the time the medical contractor submits the invoice to the department. As a result, retaining a portion of the payment serves no purpose. DEED will seek written approval from the Department of Administration to remove the clause from the contracts.

Estimated Completion Date: June 30, 2004

Individual Responsible: John Stavros, Chief Financial Officer

Report 04-14: Department of Administration

Finding 1: The department did not adequately secure some libraries that house critical state agency computer programs.

Response: The joint goal of the agency and Department of Administration is to correct the problem immediately and to ensure appropriate measures are taken to prevent similar occurrences in the future. This will be accomplished by:

- The audited state agency removing, via procedural changes, all instances of inappropriate information and implementing procedures to ensure that entry of similar inappropriate information does not occur in the future.
- The InterTechnologies Group security team limiting the read and/or write access to agencies' information in the libraries to only those individuals that work for these agencies and are in need of such access to perform their normal job duties.

Estimated Completion Date: March 31, 2004

Individuals Responsible: Greg Dzieweczynski, Interagency Services Division Director Jim Steinwand, Security Services Manager

Report 04-16: Department of Revenue

Finding 1: The department's overall security program lacks important ingredients.

Response: Assessments of the information technology risks of the department's applications, hardware and systems are currently in progress and will result in detailed baselines for minimum security.

Estimated Completion Date: June 30, 2005

Individual Responsible: Bruce Showel, Information Security

Report 04-16: Department of Revenue

Finding 2: Access request procedures are weak in several respects.

Response: Internal authentication processes related to the definition, documentation and communication of access request procedures have regularly been identified as an area of concern and proposals have been developed to address it as soon as the availability of financial resources permit.

Estimated Completion Date: Ongoing

Individual Responsible: Bruce Showel, Information Security

Report 04-16: Department of Revenue

Finding 3: Procedures for modifying and revoking security clearances are not effective.

Response: Internal authentication processes related to the identification and modification of security clearances have regularly been identified as an area of concern. Proposals to address this concern have been developed and will be implemented as soon as the availability of financial resources permit.

Estimated Completion Date: Ongoing

Individual Responsible: Bruce Showel, Information Security

Report 04-16: Department of Revenue

Finding 4: Controls used to confirm the identity of system users were weak in several respects.

Response: Proposals addressing the authenticating the identity of individuals have been developed and will be implemented as soon as financial resources permit. The department has implemented controls to ensure that access to individual tax systems can be traced to specific individuals for all front line users. Appropriate controls will be added to assure that information technology professionals are held to the same level of accountability. The department has changed default passwords on purchases software. Procedures will be updated to minimize the risk of acquiring and implementing software without changing default passwords. The department has implemented and enforces comprehensive password management controls. The instances where this was not the case will be addressed.

Estimated Completion Dates: June 30, 2004 and ongoing

Individuals Responsible: Bruce Showel, Information Security Jerry Hanson, Information Systems Division

Report 04-16: Department of Revenue

Finding 5: Many people had excessive clearance to individual income tax systems and data.

Response: A review of the appropriate employee security clearances will be verified with supervisors to check whether each employee has the appropriate level of access.

Estimated Completion Date: Ongoing

Individual Responsible: Bruce Showel, Information Security

Report 04-16: Department of Revenue

Finding 6: The department had too many points of access into its private network.

Response: The number of access points into the department's private network have continually been reduced. The department will be developing a detailed policy to further limit access points. The department is identifying methods and tools with which to manage, secure and monitor its network access points, pending the availability of financial resources. The department's remote access policy will be modified to address IT and occasional users who access the network.

Estimated Completion Date: Ongoing

Individuals Responsible: Jerry Hanson and Bruce Showel

Report 04-16: Department of Revenue

Finding 7: Some computers were running unnecessary and insecure services.

Response: Procedures will be updated to ensure that all unnecessary services are removed. Procedures will be updated to ensure that all services with known security weaknesses are replaced with more secure programs and the replacements can be performed without hampering department activities.

Estimated Completion Date: June 30, 2004 and ongoing

Individual Responsible: Jerry Hanson, Information Systems Division

Report 04-16: Department of Revenue

Finding 8: The department did not promptly perform important system maintenance procedures.

Response: Procedures will be updated to ensure that all security patches are installed, and that the patches are adequately tested to make sure they do not disrupt the current functionality of the systems. The department will also investigate automated solutions for streamlining the patch management tasks, subject to the availability of resources.

Estimated Completion Date: Ongoing

Individual Responsible: Jerry Hanson, Information Systems Division

Report 04-16: Department of Revenue

Finding 9: The department does not adequately monitor its systems.

Response: System monitoring procedures and processes will be updated and implemented, subject to the availability of financial resources.

Estimated Completion Date: Ongoing

Individuals Responsible: Jerry Hanson and Bruce Showel

Report 04-17: Department of Transportation (MnDOT)

Finding 1: The department did not ensure the accuracy of the infrastructure and right-of-way capital outlay expenditures on the state's financial statements.

Response: MnDOT's Office of Finance has begun to do quarterly review of the data input on projects for complete coding and accuracy. Any missing codes will be immediately brought to the attention of the operations personnel for resolution.

Estimated Completion Date: March 2004 and ongoing

Individual Responsible: Kevin Gray, Finance and Administration Division Director

Report 04-17: Department of Transportation (MnDOT)

Finding 2: The department should improve certain oversight procedures.

Response: The Director of the Engineering Services Division through its Office of Materials will work with District Operations staff to continue training, modifying specifications and strengthening project oversight to ensure compliance with federal and state requirements.

Estimated Completion Date: Immediately and ongoing

Individuals Responsible: Julie Skallman, State Aid for Local Transportation Director Richard Stehr, Engineering Services Division Director Robert Winter, District Operations Division Director

Report 04-17: Department of Transportation (MnDOT)

Finding 3: The department over obligated federal funds under the airport improvement program.

Response: MnDOT's Office of Aeronautics has initiated an extra step in the payment process to prevent further overpayments. Before payments are forwarded to the account clerk for payment, a summary of projects and the amount of payment is e-mailed to the Airports District Office of the Federal Aviation Administration (FAA) for verification of funds available. Upon verification by the FAA of funds availability, the grant payment summaries are given to the account clerk for processing. If funds are not available, the proposed payment is returned to the Regional Airport Engineer to inform the Municipality that federal funds have exceeded the amount identified in the Federal Grant Agreement.

Estimated Completion Date: Complete

Individual Responsible: Randy Halvorson, Program Management Division Director

Report 04-18: Department of Finance

Finding 1: Three state agencies submitted erroneous or incomplete accounting information to the Department of Finance; some of the exceptions could have resulted in material errors in the state's financial statements.

Response: The Department of Finance staff will continue to work with the departments of Transportation, Employment and Economic Development, and Public Safety to assure that the departments provide complete and accurate information for the state's financial statements. Department of Finance staff will continue to provide specific instructions and further clarification as necessary to ensure accurate information is included in the financial statements and single audit reporting.

The Department of Finance will expand the review procedures during the financial reporting process to help assure that information submitted by agencies is reasonable. Significant unusual variances will be investigated as part of this procedure.

Estimated Completion Date: October 1, 2004

Individual Responsible: Barb Ruckheim, Financial Reporting Director

Report 04-18: Department of Finance

Finding 2: The Department of Finance has not ensured that state departments properly account for financial activities recorded in agency funds.

Response: In January, the department began a project to review all agency fund accounts. The department will revise procedures governing proper use of the agency fund, including which activity must be accounted for in other funds. During the implementation of these procedures, the department will work with agencies to clear out transactions and balances that are not appropriate for the agency fund.

The Department of Finance will also develop a policy regarding the information agencies must submit to the department for proper elimination of internal clearing account activity from the ending balance in the agency fund. The department will include a procedure that assures the agency fund's ending balance solely represent assets held on behalf of third parties.

Estimated Completion Date: July 1, 2004

Individual Responsible: Barb Ruckheim, Financial Reporting Director

Report 04-18: Department of Finance

Finding 3: The Contract Financial Management Subsystem (CFMS), a component of the state's accounting system, understated financial statement liabilities in the accounting module in fiscal year 2003.

Response: As an immediate solution, the department will develop a query to identify the correct liability date for CFMS obligations. In the longer term, Finance will explore whether or not a system modification should be considered to address this issue.

Estimated Completion Date: September 30, 2004

Individual Responsible: Barb Ruckheim, Financial Reporting Director

Report 04-19: Department of Health

Finding 1: The Department of Health did not obtain certain information that could affect WIC eligibility.

Response: The Department of Health will talk with staff from the Department of Human Services to ascertain the feasibility and cost benefit of obtaining audit results.

Estimated Completion Date: Ongoing

Individual Responsible: Darcy Miner, Deputy Commissioner

Report 04-19: Department of Health

Finding 2: The Department of Health incorrectly recorded some contract payments on the state's accounting system.

Response: The department concurs with the finding that some coding errors have been made. The majority of the payment transaction errors found resulted from miscoding advance payments on grants. Financial Management will begin processing advances using the current date for the date of record. This should eliminate future errors in the system.

Estimated Completion Date: Ongoing

Individual Responsible: Darcy Miner, Deputy Commissioner

Report 04-19: Department of Health

Finding 3: The Department of Health did not comply with federal cash management regulations.

Response: The department agrees with the recommendation to minimize elapsed time. The department and the Community Health Boards (CHBs) have agreed that processing monthly payments instead of quarterly payments does minimize the time elapsed from transfer of funds to payments to the extent of our current cash management systems. Program direction from the Centers for Disease Control and Prevention has also emphasized getting funds to subrecipients as quickly as possible to meet the goal of the grant to build infrastructure for public health preparedness for acts of bioterrorism. Furthermore, local government officials have been extremely conservative about authorizing local investment in new initiatives without a steady stream of funds. The design of the schedule of advances took these programmatic issues into consideration when adopting the payment process.

Estimated Completion Date: Ongoing

Individual Responsible: Darcy Miner, Deputy Commissioner
Report 04-19: Department of Health

Finding 4: The Department of Health did not properly recognize certain grant expenditures for financial reporting.

Response: The department does not agree with this recommendation and it would require additional and unnecessary reporting by the Community Health Boards (CHBs) and the department. The department monitored the cash flow of the CHBs over the past 17 months. By August 30, 2003 the CHBs had expended \$318,109.97 more than they had received from the health department. In five months the CHBs went from a positive \$382,000 to a negative \$318,000 cash position. If any advances remained, as of June 30, 2003, the department believes that they would be immaterial to the financial statements for the state.

The department may consider moving the reporting of expenditures to coincide with the state fiscal year in future grant cycles.

Estimated Completion Date: Ongoing

Individual Responsible: Darcy Miner, Deputy Commissioner

Report 04-19: Department of Health

Finding 5: The Department of Health did not adequately manage its fixed assets.

Response: The department is in the process of developing a new materials management system that will help the department identify a purchase as a fixed asset. The department is also revising its fixed asset policy and procedure as well as its purchasing policy and procedure to account for the changes adopted by the Department of Administration in the management of state assets. The department will also commit additional resources to this area and will work with program staff to correct deficiencies in our current inventory system.

Estimated Completion Date: Ongoing

Individual Responsible: Darcy Miner, Deputy Commissioner

Report D&T: Minnesota State Colleges and Universities (MnSCU)

Finding 3: Insufficient depository insurance and collateral at some institutions.

Response: Substantial progress was made in this area during fiscal 2003, and MnSCU believes the instances noted were generally isolated exceptions and not evidence of systemic non-compliance. They will continue to address this issue with all institutions, with special attention to those having problems during fiscal year 2003.

Estimated Completion Date: Ongoing

Individual Responsible: Margaret Jenniges

Report DT-03: Minnesota State Colleges and Universities (MnSCU)

Finding 1: Certain colleges and universities omitted items within their published satisfactory academic progress policy and as noted in the December 11, 2003 letter to the U.S. Department of Education.

Response: The Senior Vice Chancellor for Academic and Student Affairs is responsible for several initiatives now underway to address inadequate college and university statements of satisfactory academic progress. A regular, periodic review of all college and university academic progress policies to endure continuing compliance has been instituted.

Estimated Completion Date: Ongoing

Individuals Responsible: Linda Baer and John Asmussen

Report DT-03: Minnesota State Colleges and Universities (MnSCU)

Finding 2: Certain colleges and universities did not report changes in student information to the National Student Loan Data System ("NSLDS") clearinghouse within the required deadlines through submission of student status confirmation reports.

Response: The colleges and universities are aware of the timelines and will institute practices to improve reporting performance.

Estimated Completion Date: Ongoing

Individual Responsible: Linda Baer

Report DT-03: Minnesota State Colleges and Universities (MnSCU)

Finding 3: Saint Cloud State University (SCSU) had not been performing the return of Title IV funds calculation. As a result, SCSU estimated that \$425,847, relating to fiscal years 2001 through 2003, could be subject to refund to the U.S. Department of Education, or to lenders.

Response: The colleges and universities agree with the recommendation and will institute steps to improve practices.

Estimated Completion Date: Ongoing

Individuals Responsible: Linda Baer and John Asmussen

Report DT-03: Minnesota State Colleges and Universities (MnSCU)

Finding 4: Multiple institutions were not monitoring satisfactory progress and return of Title IV funds and the refunding amounts to the U.S. Department of Education.

Response: The colleges and universities agree with the Auditor's recommendation and will institute steps to improve practices. The Academic and Student Affairs division, working with the Office of Internal Auditing, will coordinate the effort and undertake follow up efforts.

Estimated Completion Date: Ongoing

Individuals Responsible: Linda Baer and John Asmussen

Report DT-03: Minnesota State Colleges and Universities (MnSCU)

Finding 5: Certain students received subsidized FFEL and FDSL loans in excess of permitted amounts from certain colleges and universities.

Response: The colleges and universities agree with the recommendation and will institute steps to improve practices. The Academic and Student Affairs division, working with the Office of Internal Auditing, will coordinate the effort and undertake follow up efforts.

Estimated Completion Date: Ongoing

Individuals Responsible: Linda Baer and John Asmussen

Report OSA-01: Metropolitan Council

Finding 3: Need to improve timeliness and accuracy of financial reporting process.

Response: The Metropolitan Council will utilize a financial team to prepare and review financial statement presentation with a team member from Metro Transit added. A team coordinator will be designated to ensure deadlines are met and to coordinate the research and responses to questions and issues resulting from the audit process. Realistic timelines will be set for account analysis with staff accountable for meeting those timelines. Finance staff will develop a detailed schedule to identify statement analyses to be prepared and assign specific staff responsibilities for completing the work. A comprehensive review of Council fund analyses and financial statement presentations will be completed before audit work commences.

Estimated Completion Date: Ongoing

Individual Responsible: Edwin Petrie, Metro Transit Director of Finance

Report EB: Minnesota Partnership Against Tobacco (MPAAT)

Finding: Due to a limited number of officer personnel, adequate separation of duties may not be possible for adequate internal accounting controls.

Response: MPAAT is aware of this condition. Supervision and review of accounting policies, procedures, and financial information will be used to prevent and detect errors and irregularities.

Estimated Completion Date: Ongoing

Individual Responsible: Paul Orman, Director of Finance

State of Minnesota Department of Finance

Status of Prior Statewide Financial Statement Audit Findings As of December 1, 2003

PURPOSE

This schedule is presented to comply with the reporting requirements under the U.S. Office of Management and Budget (OMB) Circular A-133. This schedule is intended to identify the status of prior year audit findings, and whether individual audit findings have been resolved or not. For those audit findings that are not fully resolved, a written narrative is included which identifies the agency's progress on the audit finding and plan for resolution of the audit finding.

SOURCE OF INFORMATION

For fiscal year 2003, the Department of Finance used the Office of the Legislative Auditor Findings for fiscal year 2002 as published in the State of Minnesota's 2002 Financial and Compliance Report on Federally Assisted Programs.

The Department of Finance worked with state agency staff and the Office of the Legislative Auditor to determine the status of prior year audit findings and requested written narrative from those state agencies that had audit findings that were not fully resolved.

The organization and terminology used in the schedule are discussed after the status of prior federal program audit findings schedule and narrative.

80

State of Minnesota Department of Finance

Explanation of the Status of Prior Statewide Financial Statement Audit Findings As of December 1, 2003

Reference to Audit Report - "State Agency"

The name of the state agency to which the audit report refers is listed in the first column.

Identification of Program Name - "Program Name"

The prior audit findings are summarized in the schedule by state agency. The program name is identified in the second column of the table.

Finding Summary – "Problem"

Column three contains a brief discussion of the specific problem cited in the respective state agency audit report from the prior year. Users of this report are encouraged to refer to the audit report comments for any items which may interest them, as this is only a brief summary of the problem.

Category of Corrective Action Taken

The fourth column indicates the category of corrective action taken on the audit finding to date. Four standard references in this column have been utilized:

- 1 Indicates that the audit finding has been fully corrected.
- 2 Indicates that the audit finding was not corrected or only partially corrected. The summary schedule shall describe the planned corrective action as well as any partial corrective action taken.
- 3 Indicates that corrective action taken is significantly different from corrective action previously reported in a corrective action plan.
- 4 Indicates that the auditee believes the audit findings are no longer valid or do not warrant further action, the reasons shall be described in the summary schedule.

Report Number and Finding Number

The fifth and sixth columns identify the Office of the Legislative Auditor's audit report number and finding number of the prior audit findings.

Audit Report Fiscal Year

The last column refers to the fiscal year in which the finding was first reported.

Discretely Presented Component Unit Audits

The financial statements of the discretely presented component units listed on the schedule are audited by independent auditors whose reports thereon have been furnished to Minnesota Office of the Legislative Auditor. Complete financial statements of the discretely presented component units may be obtained from their respective administrative offices as follows:

Metropolitan Council Mears Park Centre 230 East Fifth Street Saint Paul, Minnesota 55101 Minnesota Partnership for Action Against Tobacco 590 Park Street, Suite 400 Saint Paul, Minnesota 55103

State of Minnesota Department of Finance

Status of Prior Federal Program Audit Findings As of June 30, 2003

PURPOSE

This schedule is presented to comply with the reporting requirements under the U.S. Office of Management and Budget (OMB) Circular A-133. All audit report findings associated with major and nonmajor federal programs for fiscal year 2002 are included in this schedule.

This schedule is intended to identify the status of prior audit findings, and whether individual audit findings have been resolved or not. For those audit findings that are not fully resolved, a written narrative is included which identifies the agency's progress on the audit finding and plan for resolution of the audit finding.

SOURCE OF INFORMATION

For fiscal year 2003, the Department of Finance used the Office of the Legislative Auditor Findings for fiscal year 2002 as published in the State of Minnesota's 2002 Financial and Compliance Report on Federally Assisted Programs.

The Department of Finance worked with state agency staff and the Office of the Legislative Auditor to determine the status of prior year audit findings and requested written narrative from those state agencies that had audit findings that were not fully resolved.

The organization and terminology used in the schedule are discussed after the status of prior federal program audit findings schedule and narrative.

 *CATEGORY OF CORRECTIVE ACTION TAKEN

 1 - Findings have been fully corrected.

 2 - Findings not corrected or only partiality corrected.

 For Categories 2-3, reference Rpt No and Find No on the Status of Statewide Audit Findings supplemental Information for more detail.

State of Minnesota Department of Finance

Explanation of the Status of Prior Federal Program Audit Findings As of June 30, 2003

Identification of Federal Programs – "CFDA No. and Program Name"

The prior audit findings are summarized in the schedule by federal grantor agency and program. The federal agency responsible for administration of the program is identified on the schedule in the upper left corner of each page. The federal program is identified by its Catalog of Federal Domestic Assistance Number (CFDA No.) and program name in the first two columns. The federal programs are listed in numerical sequence for each federal agency.

Reference to Audit Report – "State Agency"

The name of the state agency to which the audit report refers is listed in the third column.

Finding Summary – "Problem"

Column four contains a brief discussion of the specific problem cited in the respective state agency audit report from the prior year. Users of this report are encouraged to refer to the audit report comments for any items which may interest them, as this is only a brief summary of the problem.

Category of Corrective Action Taken

The fifth column indicates the category of corrective action taken on the audit finding to date. Four standard references in this column have been utilized:

- 1 Indicates that the audit finding has been fully corrected.
- 2 Indicates that the audit finding was not corrected or only partially corrected. The summary schedule shall describe the planned corrective action as well as any partial corrective action taken.
- 3 Indicates that corrective action taken is significantly different from corrective action previously reported in a corrective action plan or in the Federal agency's or passthrough entity's management decision.
- 4 Indicates that the auditee believes the audit findings are no longer valid or do not warrant further action. The summary schedule shall describe the reasons. A valid reason for considering an audit finding as not warranting further action is that all of the following have occurred:

92

- Two years have passed since the audit report in which the finding occurred was submitted to the federal clearinghouse.
- The federal agency or pass-through entity is not currently following up on with the auditee on the audit finding.
- A management decision was not issued.

Report Number and Finding Number

The sixth and seventh columns identify the Office of the Legislative Auditor's audit report number and finding number of the prior audit findings.

Audit Report Fiscal Year

The last column refers to the fiscal year in which the finding was first reported.

State of Minnesota Status of Prior Financial Statement and Federal Program Audit Findings Supplemental Information Fiscal Year Ended June 30, 2003

Below are explanations for findings not fully corrected or the corrective action taken differs significantly from the previously stated corrective action plan.

Report 00-49: Department of Administration

Finding 2: InterTech did not adequately control some powerful ACF2 privileges.

Response: InterTechnologies Group's Mainframe Security Function and Technical Support staff put compensating controls on all but one started task with the RESTRICT privilege and are working with another state agency to complete. Staff also designed and implemented a new recertification process and are developing written procedures. Estimated completion date of June 2004.

Individuals Responsible: Dick Ferderer, Information Technology Specialist Greg Dzieweczynski, Interagency Services Division Director

Report 01-20: Minnesota State Colleges and Universities (MnSCU) - St. Cloud State University

Finding 7: The university does not produce reports comparing ISRS financial aid system award payments and MnSCU accounting system disbursements.

Response: The finding concerning inadequate tracking between computerized systems has been partially completed except for the reconciliation of electronic funds transfer accounts. The Business Manager at St. Cloud State University will continue to work on this finding with a target implementation date of January 2005.

Individual Responsible: Jeff Wagner, Business Manager

Report 01-46: Minnesota State Colleges and Universities (MnSCU) – Anoka Ramsey Community College

Finding 2: The college did not adequately limit access to its computerized business systems.

Response: Access incompatibilities have been corrected for certain functions. The Anoka Ramsey Community College Chief Financial Officer is researching ISRS reports to provide adequate detective controls related to cashiering. Estimated completion date of June 30, 2004.

Individual Responsible: Tim Fisher, Director of Finance

Report 01-50: Minnesota State Colleges and Universities (MnSCU) – Anoka Technical College

Finding 1: The college did not adequately restrict certain employee's access to its computerized business systems.

Response: Access incompatibilities have been corrected for certain job functions. The Anoka Technical College Accounting Manager is researching ISRS reports to provide adequate detective controls related to cashiering. Estimated completion date of June 30, 2004.

Individual Responsible: Wendy Meyer, Vice President of Finance

Report 02-05: Department of Administration

Finding 1: The department did not consistently allocate certain InterTechnologies Group costs to the correct fiscal year.

Response: InterTechnologies Group (ITG) is presently working with Financial Management and Reporting (FMR) division staff to ensure that financial transactions are coded to the correct fiscal year. Particular attention has been given to making improvements in tracking prepaid expenses, coding expenditures to the appropriate accounting period, and improving capital asset recordkeeping measures. The recommendation is partially implemented.

Individual Responsible: Julie Talbott, Administrative Director

Report 02-05: Department of Administration

Finding 2: The Materials Management Division (MMD) did not adequately restrict certain computer security clearances for its pharmacy cooperative purchasing program.

Response: MMD contracted with a third party to design and implement password-protected access controls for the pharmaceutical outreach program's Administration Check Tracking System (ACTS). Further testing and documentation of the configuration of the new security scheme is planned in early 2004. The recommendation is partially implemented.

Individuals Responsible: Rose Svitak, Technology Administrator Judy Hunt, Internal Audit Director

Report 02-15: Department of Human Services

Finding 1: The Department of Human Services did not ensure that counties timely resolved income discrepancies identified as part of the benefit eligibility process.

Response: The department is still working with Hennepin County to resolve their overdue matches. They have reduced them by over half while at the same time keeping current on new matches. The department is also working with Ramsey County to reduce their overdue matches. The department plans include taking on additional individual counties that are struggling with a higher percentage of overdue matches and work with them to clean them up. Estimated completion date of April 30, 2004.

Individual Responsible: Ramona Scarpace, Program Assessment and Integrity Division Director

Report 02-26: Department of Administration

Finding 2: InterTech did not adequately control some powerful ACF2 privileges.

Response: InterTechnologies Group's Mainframe Security Function and Technical Support staff put compensating controls on all but one started task with the RESTRICT privilege and are working with another state agency to complete. Staff also designed and implemented a new recertification process and are developing written procedures. Estimated completion date of June 2004.

Individuals Responsible: Dick Ferderer, Information Technology Specialist Greg Dzieweczynski, Interagency Services Division Director

Report 02-53: Department of Human Services

Finding 1: The department has not performed important activities to validate the continued effectiveness of MAXIS security controls.

Response: Several security reviews have been conducted focusing on various parts of the operation. The Department of Human Services agrees with the recommendation that MAXIS should designate a single employee to coordinate security and oversee ongoing security risk assessment. The department will need to look into securing additional resources for a new position. The department hired a Chief Information Security Officer. This person will work with MAXIS to further refine MAXIS security. Estimated completion date of February 28, 2005.

Individual Responsible: Kate Wulf, Director MAXIS Division

Report 02-53: Department of Human Services

Finding 2: Many employees and contractors had inappropriate security clearances.

Response: The Department of Human Services has reassessed security clearances for users identified in the audit. Clearances have been removed or revised commensurate with the employees' job duties. Security groups have also been reexamined. As a result of this review, some members were either removed entirely from the system or moved to groups that were appropriate to their job responsibilities. Estimated completion date of February 28, 2005.

Individual Responsible: Kate Wulf, Director MAXIS Division

Report 02-53: Department of Human Services

Finding 3: Computer programs used for scheduled batch processing were not properly controlled or secured.

Response: MAXIS system security staff met with other Department of Human Services security staff about the exposure identified in the audit. JCL has already been revised to remove some exposure and more changes are planned. Estimated completion date of February 28, 2005.

Individual Responsible: Kate Wulf, Director MAXIS Division

Report 02-62: Public Employees Retirement Association (PERA)

Finding 1: PERA did not design and implement an effective security program.

Response: PERA has completed most of the suggested changes, except for working on the documentation of policies, procedures, and standards. A security administrator was hired increasing the size of security staff. Changes were made to the infrastructure. Monitoring controls were placed to detect and respond to potential security breaches. Final documentation is expected to be in place by the Summer of 2004.

Individual Responsible: David DeJonge, Assistant Director

Report 02-62: Public Employees Retirement Association (PERA)

Finding 4: PERA did not properly secure its databases.

Response: All but one of the audit findings has been corrected. PERA password protects all accounts that can access databases. Any unnecessary software components from their database environments were removed. Staff are limited to the minimum security clearances necessary. Files were moved to limit the number of servers that need to have SQL installed. Employees can query a copy of the database rather than the production database. However, it is still possible for employees who know how to hit the production database. PERA is researching report writers that will allow the department to prohibit staff from querying the production database directly. Estimated completion date of Spring 2004.

Individual Responsible: David DeJonge, Assistant Director

Report 02-65: Department of Natural Resources (DNR)

Finding 2: The department issued refunds without statutory authority and did not have adequate controls in place to ensure that all refunds issued were appropriate.

Response: The DNR License Center has developed a policy for refunds of licensing fees and proposed legislation to the Governor's office that will provide statutory authority for giving refunds of license fees. Proposed legislation will be followed during the 2004 session.

Individual Responsible: Tom Keefe, Licensing Center Supervisor

Report 02-65: Department of Natural Resources (DNR)

Finding 4: The department did not verify the overall reasonableness and accuracy of its license receipts.

Response: The department is in the process of developing a computer system to allow staff to verify the overall reasonableness and accuracy of license receipts by license type. Estimated completion date is June 2004.

Individual Responsible: Jerry Hampel, Business Services Manager

Report 02-66: Iron Range Resources and Rehabilitation Agency (IRRRA)

Finding 6: The agency did not adequately monitor the venture capital fund's use of Northeast Minnesota Economic Protection Trust Funds nor curtail certain financial activity that did not comply with the financing agreement or statutes.

Response: IRRRA has been and continues working with the venture capital fund Iron Range Ventures to craft amendments to the existing agreement. Terms have been agreed to on all issues other than the definition of equity investment. Estimated completion date of June 30, 2004.

Individual Responsible: Mathew Sjoberg, Loan Officer Supervisor

Report 03-11: Department of Human Services

Finding 2: The Department of Human Services did not ensure that counties timely resolved income discrepancies identified as part of the benefit eligibility process.

Response: The department is still working with Hennepin County to resolve their overdue matches. They have reduced them by over half while at the same time keeping current on new matches. The department is also working with Ramsey County to reduce their overdue matches. The department plans include taking on additional individual counties that are struggling with a higher percentage of overdue matches and work with them to clean them up. Estimated completion date of April 30, 2004.

Individual Responsible: Ramona Scarpace, Program Assessment and Integrity Division Director

Report 03-11: Department of Human Services

Finding 5: The Department of Human Services did not adequately separate duties over receipts collected by the Special Recovery Unit.

Response: The department will be implementing a new control through the SIRS unit. They will receive a hard copy of all deposits to their recovery accounts. For deposits relating to time payment plans they will review the amount paid to the payment amount agreed upon in the settlement. The deposit slip will be filed with the appropriate case file. Estimated completion date of April 2004.

Individual Responsible: Vicki Kunerth, Performance Measurement and Quality Control Director

Report 03-15: Department of Education

Finding 6: The Department of Education did not properly record some expenditure transactions on the state's accounting system.

Response: Staff were informed they are to always use the date goods or services were received for the date of record when entering payments in the state's accounting system.

Individual Responsible: Chas Anderson, Assistant Commissioner

Deloitte & Touche Fiscal Year 2001: Minnesota State Colleges and Universities (MnSCU)

Finding 4: Several instances were noted during fiscal year 2001 where MnSCU's cash deposits and investments were not collateralized at levels required by Minnesota Statutes, or were uncollateralized.

Response: MnSCU has complied with this requirement except for some colleges which during peak times still have difficulties collateralizing cash and investments. Most colleges have made arrangements with their banks to automatically collateralize their cash and investment balances. The remaining colleges are making arrangements with their banks to ensure that cash and investment balances are collateralized at all times. Estimated completion date of February 2004.

Individual Responsible: Margaret Jenniges, Finance Director

Deloitte & Touche Fiscal Year 2002: Minnesota State Colleges and Universities (MnSCU)

Finding 4: Several instances were noted during fiscal year 2002 where MnSCU's cash deposits and investments were not collateralized at levels required by Minnesota Statutes, or were uncollateralized.

Response: MnSCU has complied with this requirement except for some colleges which during peak times still have difficulties collateralizing cash and investments. Most colleges have made arrangements with their banks to automatically collateralize their cash and investment balances. The remaining colleges are making arrangements with their banks to ensure that cash and investment balances are collateralized at all times. Estimated completion date of February 2004.

Individual Responsible: Margaret Jenniges, Finance Director

Report OSA: Metropolitan Council

Finding 01-3: Inadequate year-end financial statement reporting process.

Response: The timeliness and accuracy of the year-end financials has been a major focus for the Metro Transit Finance Department. Efforts were concentrated to ensure account balances were complete, accurate and materially stated with the year-end financial report processing. These efforts included many detailed account reconciliations. In addition, two finance positions have been filled, whose additional efforts will continue to ensure the accuracy of the year-end financial reporting process. The maintenance of this process will allow Metro Transit staff to take a more active role in the preparation and review of the financial statement preparations for the Council in the upcoming year.
