***OCTOBER, 2004***

# Memo

State Aid for Local Transportation  
395 John Ireland Boulevard  
Mail Stop 500  
St. Paul, MN 55155-1899

Fax: 651 282-2727

**Date:** September 28, 2004

**To:** County Engineers  
District State Aid Engineers

**From:** Diane Gould, Manager  
County State Aid Highway Needs Unit

**Subject:** County Engineers' Screening Board Report

Enclosed is a copy of the 2004 Fall County Engineers' Screening Board Report. This report, compiled from data submitted by each county engineer, reflects the estimated cost of constructing the County State Aid Highway System over a 25-year period.

The data included in this report will be used by the County Screening Board at their October 20-21, 2004 meeting in making their annual mileage and money needs recommendation to the Commissioner of Transportation for the 2005 Apportionment.

If you have any questions or comments, please contact your screening board representative or this office. The district representatives should be well informed regarding any mileage requests or other specific items which may involve your county. District meetings will be held in advance of the Screening Board meeting to discuss this report.

This presentation has only preliminary figures. The final determination of the apportionment will be made in January by the Commissioner with the assistance of the recommendations of the County Screening Board.

If you wish to obtain more copies of this report you can do so from our website:  
[http://www.dot.state.mn.us/stateaid/res\\_csah\\_books.html](http://www.dot.state.mn.us/stateaid/res_csah_books.html).

Enclosure: County Screening Board Report

# TABLE OF CONTENTS FOR THE OCTOBER 20-21, 2004 COUNTY SCREENING BOARD DATA

## **I. GENERAL INFORMATION & BASIC NEEDS DATA**

**Pages 1-6**

A. County Screening Board Members & Various Committees .....	1
B. C.S.A.H. Mileage, Needs and Apportionment 1958 through 2005 .....	2-3
C. Comparison of the Basic 2003 to the Basic 2004 25-Year Construction Needs .....	4-6

## **II. NEEDS ADJUSTMENTS**

**Pages 7-58**

A. Restriction of 25-Year Construction Needs Changes .....	8-11
B. County State Aid Construction Fund Balance "Needs" Deductions .....	12-15
C. Special Resurfacing Projects .....	16-18
D. Comparison of 1984-2003 Rural Design Grading Construction Costs to Needs Study Cost .....	20-30
E. Comparison of 1987-2003 Urban Design Grading Construction Costs to Needs Study Cost .....	32-42
F. Needs Adjustment for Variances Granted on CSAHs .....	43
G. Bond Account Adjustments .....	44-45
H. "After the Fact" Right of Way Needs .....	46-47
I. Miscellaneous "After the Fact" Needs .....	48-49
J. "After the Fact" Bridge Deck Rehabilitation Needs .....	50
K. "After the Fact" Mn/DOT Bridge Needs .....	51
L. Needs Adjustment for "Credit for Local Effort" .....	52
M. Non Existing CSAH Needs Adjustment .....	54-55
N. Mill Levy Deductions .....	56-58

## **III. TENTATIVE APPORTIONMENT DATA**

**Pages 59-70**

A. Development of the Tentative 2005 C.S.A.H. Money Needs Apportionment .....	60 & Fig A
B. Recommendation to the Commissioner .....	61-63
C. Total Tentative 2005 C.S.A.H. Apportionment .....	64-66
D. Comparison of the Actual 2004 to the Tentative 2005 C.S.A.H. Apportionment .....	68-70

## **IV. MILEAGE REQUESTS**

**Pages 71-88**

A. Criteria Necessary for County State Aid Highway Designation .....	72
B. History of the C.S.A.H. Additional Mileage Requests .....	73-75
C. "Banked" CSAH Mileage .....	76
D. Sherburne County Mileage Request .....	77-82 & Fig B
E. Historical Documentation for the Carver County CSAH Mileage Request .....	83
F. Historical Documentation for the Dakota County CSAH Mileage Request .....	84
G. Historical Documentation for the Lake County CSAH Mileage Request .....	85
H. Historical Documentation for the St. Louis County CSAH Mileage Request .....	86
I. Historical Documentation for the Washington County CSAH Mileage Request .....	87

## **V. STATE PARK ROAD ACCOUNT**

**Pages 89-98**

A. State Park Road Account Statutes .....	90
B. Waseca County State Park Road Request .....	91-94
C. Historical Review of 2002 State Park Road Account .....	95
D. Historical Review of 2003 State Park Road Account .....	96
E. Historical Review of 2004 State Park Road Account .....	97

## **VI. REFERENCE MATERIAL**

**Pages 99-102**

A. C.S.A.H. 20-Year Traffic Projection Factors .....	100-101
B. Advancement of Construction Funds from the General CSAH Construction Account .....	102

## **VII. MEETING MINUTES & RESOLUTIONS**

**Pages 103-120**

A. Minutes of the June 2 & 3, 2004 County Engineers Screening Board Meeting .....	103-108
B. Current Resolutions of the County Screening Board .....	109-120

## **2004 COUNTY SCREENING BOARD**

Al Goodman	(03-04)	- Lake County	- District 1
Kelly Bengtson	(04-05)	- Kittson County	- District 2
Russ Larson	(03-04)	- Wadena County	- District 3
Larry Haukos	(04-05)	- Traverse County	- District 4
Bill Malin	(02-05)	- Chisago County	- Metro East
Roger Gustafson	(04-07)	- Carver County	- Metro West
Allen Henke	(04-05)	- Houston County	- District 6
Nathan Richman	(03-04)	- Sibley County	- District 7
Steve Kubista	(04-05)	- Chippewa County	- District 8
Doug Fischer	Permanent	- Anoka County	- Urban
Mark Krebsbach	Permanent	- Dakota County	- Urban
Jim Grube	Permanent	- Hennepin County	- Urban
Ken Haider	Permanent	- Ramsey County	- Urban
Marcus Hall	Permanent	- St. Louis County	- Urban
Don Theisen	Permanent	- Washington County	- Urban
Dave Olsonawski, Secretary		- Hubbard County	

## **2004 SCREENING BOARD ALTERNATES**

Chuck Schmidt	- Cook County	District 1
Dan Sauve	- Clearwater County	District 2
Mitch Anderson	- Stearns County	District 3
Brad Wentz	- Becker County	District 4
Greg Ilkka	- Acting Scott County	Metro
Dennis Luebbe	- Rice County	District 6
Wayne Stevens	- Brown County	District 7
Randy Groves	- Murray County	District 8

## **2004 CSAH GENERAL SUBCOMMITTEE**

Rich Heilman, Chairman	(June, 05)	- Isanti County
Dave Rholl	(June, 06)	- Winona County
Douglas Fischer	(June, 07)	- Anoka County

## **2004 CSAH MILEAGE SUBCOMMITTEE**

Ken Haider, Chairman	(Oct., 04)	- Ramsey county
Rick West	(Oct., 05)	- Otter Tail County
John Brunkhorst	(Oct., 06)	- McLeod County

## **CSAH VARIANCE SUBCOMMITTEE**

Mike Wagner	- Nicollet County
Don Theisen	- Washington County
Dave Schwarting	- Sherburne County

## **C.S.A.H. Mileage, Needs and Apportionment 1958 through 2005**

October, 2004

The following information listed below is presented as historical data for the 47 years of county state aid apportionments and preliminary data for the 48th year.

Since 1958, the first year of state aid apportionment, county state aid mileage has increased more than 1,420 miles of which almost 980 miles can be attributed to the turnback law which was enacted in 1965. Since 1958 needs have increased substantially due to revised design standards, increasing traffic, and ever rising construction costs.

The apportionment for 2005 is estimated to be approximately \$358 million (the same as for 2004). The actual apportionment which will be made by the Commissioner in January will reflect any additional change in income to the county state aid highway fund.

# C.S.A.H. Mileage, Needs and Apportionment - 1958 through 2005

October, 2004

Year	Mileage	Basic 25 Year Construction Needs	Total Apportionment	Adjusted 25 Year Construction Needs	Money Needs Apport	Apportionment Per \$1000 of Adjusted Needs
1958	29,003.30	\$705,318,817	\$23,895,255			
1959	29,128.00	792,766,387	26,520,631			
1960	29,109.15	781,163,725	26,986,118			
1961	29,177.31	881,168,466	29,195,071			
1962	29,183.50	836,684,473	28,398,346			
1963	29,206.63	812,379,561	30,058,060			
1964	29,250.40	844,850,828	34,655,816			
1965	29,285.26	1,096,704,147	35,639,932			
1966	29,430.36	961,713,095	36,393,775			
1967	29,518.48	956,436,709	39,056,521	\$956,436,709	\$19,528,261	\$20.42

N\CSAH\BOOK\Fall 2004\Miles, Need, Apport, Per 1,000 Needs

# **Comparison of the Basic 2003 to the Basic 2004 25-Year Construction Needs**

October, 2004

The following tabulation indicates the various stages of the 2004 update of the C.S.A.H. Needs Study and shows the needs effect each phase produced.

## **Normal Update**

- Reflects the needs changes due to 2003 construction, system revisions and any other necessary corrections. Also, under the Screening Board resolution dealing with construction accomplishments, any segments graded in 1978 or earlier are eligible for complete needs. Also, any bridges built prior to 1968 are eligible for reconstruction needs. This changes several counties' needs considerably.

## **2003 Traffic & Factor Update**

- Shows the effect of the traffic and traffic projection factor update for those counties which were counted in 2003 and for which the needs unit has received updated traffic maps. A map showing the new traffic projection factors is included in the reference material portion of this report.

4

The counties involved are:

Anoka	Grant	Pennington	Sibley
Beltrami	Hennepin	Pope	Stearns
Benton	Houston	Ramsey	Steele
Carver	Isanti	Red Lake	Wabasha
Chisago	LeSueur	Redwood	Waseca
Clearwater	McLeod	Renville	Washington
Dakota	Meeker	St. Louis	Wilkin
Faribault	Nicollet	Scott	Winona
Goodhue	Otter Tail	Sherburne	

## **2004 Bridge Update**

- Reflects the needs cost revision on bridges and box culverts.

## **2004 Unit Prices**

- Shows the needs impact of the unit prices approved at the June 2-3, 2004 meeting.

## **Restriction of 25-Year Construction Needs Changes**

October, 2004

In order to temper any large needs changes, the 1975 County Screening Board adopted the original resolution. The latest revision was made by the Screening Board at the June, 2003 meeting.

**That, the C.S.A.H. construction needs change in any one county from the previous year's restricted C.S.A.H. needs to the current year's basic 25 year C.S.A.H. construction needs shall be restricted to 20 percentage points greater than or 5 percentage points less than the statewide average percent change from the previous year's restricted C.S.A.H. needs to the current year's basic 25 year C.S.A.H. construction needs. Any needs restriction determined by this resolution shall be made to the regular account of the county involved.**

This year the statewide needs increased 3.9%, thereby limiting any individual county's needs change to a range from a minus 1.1% to a plus 23.9%. As you can see, ten counties required a needs restriction.

## **County State Aid Construction Fund Balance "Needs" Deductions**

October, 2004

The resolution below was originally adopted by the Screening Board at its May, 1975 meeting. The latest revision was made by the Screening Board at the October, 1996 meeting.

**That, for the determination of the County State Aid Highway needs, the amount of the unencumbered construction fund balance as of December 31 of the current year; not including the current year's regular account construction apportionment and not including the last three years of municipal account construction apportionment or \$100,000 whichever is greater; shall be deducted from the 25-year construction needs of each individual county. Also, that for the computation of this deduction, the estimated cost of right-of-way acquisitions which is being actively engaged or Federally-funded projects that have been let but not awarded shall be considered as being encumbered and the construction balances shall be so adjusted.**

The following listing indicates the balances as of September 1, the maximum allowable balances, and the "needs" deduction, in the respective accounts, which would be made to the 2004 25-year construction needs if the cut off date was September 1. The balances as of December 31 will be used to compute any adjustments necessary for the calculation of the 2005 CSAH apportionments.

# Special Resurfacing Projects

October, 2004

Due to the necessity for some counties to resurface certain substandard bituminous County State Aid Highways, the 1967 County Screening Board adopted the following resolution:

**That any county using non-local construction funds for special bituminous resurfacing ,concrete resurfacing, concrete joint repair projects or reconditioning projects as defined in State Aid Rules chapter 8820.0100 Subp. 13b shall have the non-local cost of such special resurfacing projects annually deducted from its 25-year County State Aid Highway construction needs for a period of ten (10) years.**

The following list shows the counties, by district, that awarded special resurfacing projects from 1994 through 2003, the number of projects awarded and the project costs in each account which have been deducted from the 2004 County State Aid Highway Money needs. In 2003 alone, more than \$40.2 million of special resurfacing projects were awarded.

## Comparison of 1984-2003 Rural Design Grading Construction Costs to Needs Study Costs

October, 2004

In order to partially offset the expected rapid rate of inflation without reviewing all rural design complete grading costs each year, the 1968 County Screening Board adopted the resolution below.

**That, annually a separate adjustment to the rural and the urban complete grading costs in each county be considered by the Screening Board. Such adjustment shall be made to the regular account and shall be based on the relationship of the actual cost of grading to the estimated cost of grading reported in the needs study. The method of determining and the extent of the adjustment shall be approved by the Screening Board. Any "Final" costs used in the comparison must be received by the Needs Section by July 1 of the Needs Study year involved.**

The original adjustment procedure established that if a county had 30% or more of its rural design mileage in the grading study, then 100% of the rural grading cost factor was used to adjust the remaining rural design complete grading needs.

This procedure was revised in 1984 so that the entire Rural Grading Cost Factor would be applied if the mileage in the grading comparison equaled 10% or more of that county's rural design system that had complete grading remaining in the needs study.

All rural complete grading costs in the needs study were updated in 1984. Because of this, it was necessary to begin the grading comparison over again starting with the 1984 projects.

Below is an example showing St. Louis County's rural design grading cost adjustment computation for the 2005 apportionment.

- 1) 174.8 miles of C.S.A.H.'s which had rural design complete grading needs were graded in St. Louis County in 1984-2003. This represents 17% of the 1,024.50 miles of C.S.A.H.'s which still have rural design complete grading required in their needs study.
- 2) The Rural Grading Cost Factor of 62% was computed by dividing the difference between the average construction cost/mile and the average needs cost/mile by the average needs cost/mile.  
$$\frac{\$317,837 - \$196,483}{\$196,483} = 62\%$$
- 3) Since the % of system indicated in 1) above is over 10%, the entire rural grading cost factor will be used to adjust the remaining complete needs.  
If the % in 1) above is less than 10%, only a proportional part of the grading cost factor would be applied.
- 4) Then by multiplying the Adjusted Factor (62%) times the complete rural design grading needs remaining in the 2004 study (\$173,422,019) an adjustment (+\$107,521,652) to the 2004 needs is computed.
- 5) In the last column we have shown what each county is actually receiving per mile of complete rural grading needs after the adjustment is applied.

The next ten pages show the results of this study by individual counties by district. These adjustments (effect on 2004 25-year construction needs) have been used in calculating the 2004 annual County State Aid Highway money needs.

## Comparison of 1984-2003 Rural Design Grading Construction Costs to Needs Study Costs

October, 2004

County	1984-2003 Rural Design Grading					Rural Grading Cost Factor	Adjusted Rural Grading Cost Factor	Rural Complete Grading Remaining in the 2004 Needs Study				Rural Grading Cost Adjustment  To The 2004 - 25 Year Construction Needs	Actual Adjusted Needs Cost Per Mile

## OTES and COMMENTS

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

## **Comparison of 1987 - 2003 Urban Design Grading Construction Costs to Needs Study Costs**

October, 2004

In 1986, all counties estimated their grading costs on all urban design segments requiring complete grading. In order to keep their costs relatively up to date, the Screening Board directed that an adjustment to these costs be applied in the same manner as has been done to the rural design complete grading costs.

An explanation of Pine County's urban design grading cost adjustments for the 2005 apportionment is shown below.

- 1) 2.0 miles of C.S.A.H.'s which had urban design complete grading needs were graded in Pine County in 1987 - 2003. This represents 15% of the 13.60 miles of C.S.A.H.'s which still have urban design complete grading required in their needs study.
- 2) The Urban Grading Cost Factor of 196% was computed by dividing the difference between the average construction cost/mile and the average needs cost/mile by the average needs cost/mile.

$$\frac{\$568,917 - \$192,320}{\$192,320} = 196\%$$

- 3) Since the % of system indicated in 1) above is over 10%, the entire rural grading cost factor will be used to adjust the remaining complete needs. If the % in 1) above is less than 10%, only a proportional part of the grading cost factor would be applied.
- 4) Then, by multiplying the Adjusted Factor (196.0%) times the complete urban design grading needs remaining in the 2004 needs study (\$3,435,565) an adjustment (+\$6,733,707) to the 2004 needs is computed.
- 5) In the last column we have shown what each county is actually receiving per mile of complete urban grading needs after the adjustment is applied.

The next 10 pages show the results of this study by individual counties by district. These adjustments (effect on 2004 25-year construction needs) have been used in calculating the 2004 annual County State Aid Highway money needs.

## **Needs Adjustments for Variances Granted on CSAHs**

October, 2004

Pursuant to Minnesota Statutes, Chapter 162.07, subdivision 2: "any variance granted .... shall be reflected in the estimated costs in determining needs."

The adjustments shown below are for those variances granted for which projects have been awarded prior to May 1, 2004 and for which no adjustments have been previously made. These adjustments were computed using guidelines established by the Variance Subcommittee and were approved at the June 2-3, 2004 Screening Board meeting.

<b>County</b>	<b>Project</b>	<b>Variance From</b>	<b>2004 Needs Adjustments</b>	<b>Approx. 2005 Apport. Loss*</b>
Faribault	22-651-06	Design Speed	\$47,620	\$981
Fillmore	23-638-04	Design Speed	\$39,122	\$807
Morrison	49-652-04	Design Speed	\$140,644	\$2,900
TOTAL			\$227,386	\$4,688

\* Based on \$20.62 earning factor for each \$1,000 of 25 year money needs.

# **Bond Account Adjustments**

**October, 2004**

To compensate for unpaid County State Aid Highway bond obligations that are not reflected in the County State Aid Highway Needs Studies, the County Engineers Screening Board passed a resolution which provides that a separate annual adjustment shall be made to the total money needs of a county that has sold and issued bonds pursuant to Minnesota Statutes, Chapter 162.181, for use on State Aid projects or has accepted a TRLF loan, except bituminous or concrete resurfacing/joint repair projects, reconditioning projects, or maintenance facility construction projects. This Bond Account Adjustment, which covers the amortization period, and which annually reflects the net unamortized bonded debt, shall be accomplished by adding the adjustment to the 25-year construction need of the county.

The Bond Account and TRLF Loan Adjustment consists of the total Bond or TRLF dollars of projects applied minus the principal paid as of December 31st of the previous year. Since overlay, joint repair, reconditioning, or maintenance facility construction does not reduce needs, Bond or TRLF dollars used for those type of projects would not be used to compute the adjustment.

## **STATE AID BOND RECORD AS OF DECEMBER 31, 2003**

## **"After the Fact" Right of Way Needs**

**October, 2004**

At your June, 1984 meeting, the following resolution dealing with Right-of-Way needs was adopted:

**That needs for Right of Way on County State Aid Highways shall be earned for a period of 25 years after the purchase has been made and the documentation has been submitted and shall be comprised of actual monies paid to property owners with Local or State Aid funds. Only Those Right of Way costs actually incurred will be eligible. It shall be the County Engineer's responsibility to submit justification to the District State Aid Engineer. His approval must be received in the Office of State Aid by July 1 to be included in the following years apportionment determination.**

The Board directed that R/W needs to be included should begin with that purchased in 1978.

Pursuant to this resolution, the following R/W needs will be added to each county's 2004 25-year needs and are shown on the 2005 Money Needs Apportionment Chart.

# Miscellaneous "After the Fact" Needs

**October, 2004**

In 1984, the Screening Board adopted the following resolution dealing with miscellaneous "After the Fact" Needs.

**That needs for Traffic Signals, Lighting, Retaining Walls, Sidewalk, Wetland Mitigation, RR-xing Surfacing, and Concrete Paving (as eligible for State Aid participation) on County State Aid Highways shall be earned for a period of 25 years after the construction has been completed and the documentation has been submitted and shall consist of only those construction costs actually incurred by the county. It shall be the County Engineer's responsibility to justify any costs incurred and to report said costs to the District State Aid Engineer. His approval must be received in the Office of State Aid by July 1 to be included in the following years apportionment determination**

The Board directed that the initial inclusion of these type items begin with construction costs as of January 1, 1984. Pursuant to the resolution above, the following "After the Fact" needs have been added to each county's 2004 25-year needs.

County	Traffic Signals	Lighting	Retaining Walls	Sidewalk	Wetland Mitigation	RR-xing Surfacing	Concrete Paving	Total

In the future the justification of these type needs should include a breakdown of the eligible project costs for each item and should be approved by the District State Aid Engineer before being sent to the State Aid Office.

# **"After The Fact" Bridge Deck Rehabilitation Needs**

**October, 2004**

The resolution below dealing with bridge deck rehabilitation was originally adopted in 1982 by the County Screening Board.

**That needs for bridge deck rehabilitation shall be earned for a period of 15 years after the construction has been completed and the documentation has been submitted and shall consist of only those construction costs actually incurred by the county. It shall be the County Engineer's responsibility to justify any cost incurred and to report said costs to the District State Aid Engineer. His approval must be received in the Office of State Aid by July 1 to be included in the following years apportionment determination.**

Pursuant to this resolution, the following counties have reported and justified bridge deck rehabilitation costs in the amounts and for the years indicated. These adjustments are shown on the 2005 Money Needs Apportionment Form.

<u>County</u>	<u>Letting Date Or Reporting Date</u>	<u># of Projects</u>	<u>Regular Eligible "After the Fact" Bridge Deck Rehab. Needs</u>	<u>Municipal Eligible "After the Fact" Bridge Deck Rehab. Needs</u>	<u>Total Bridge Deck Rehab. Needs</u>	<u>Added to the Needs for these Apport. Years</u>

# **"After The Fact" Mn/DOT Bridge Needs**

**October, 2004**

The resolution below dealing with using county funds on Mn/Dot bridges was adopted in June, 1997 by the County Screening Board.

**That, needs for bridge improvements to trunk highway bridges carrying CSAH routes shall be earned for a period of 35 years after the bridge construction has been completed and the documentation has been submitted and shall be comprised of actual monies paid with local or State Aid funds. Only those bridge improvement costs actually incurred by the county will be eligible. It shall be the County Engineer's responsibility to submit justification to the District State Aid Engineer. His approval must be received in the Office of State Aid by July 1 to be included in the following years apportionment determination.**

Pursuant to this resolution, the following counties have reported and justified county funds used on Mn/DOT bridges in the amounts and for the years indicated. These adjustments are shown on the 2005 Money Needs Apportionment Form.

# NEEDS ADJUSTMENT FOR "CREDIT FOR LOCAL EFFORT"

October, 2004

The resolution below dealing with "Credit for Local Effort" was adopted in October 1989 by the County Screening Board and revised in October, 1997.

That annually a needs adjustment for local effort for construction items which reduce State Aid needs shall be made to the CSAH 25 year construction needs.

The adjustment (credit for local effort) shall be the local (not State Aid or Federal Aid) dollars spent on State Aid Construction Projects for items eligible for State Aid participation. This adjustment shall be annually added to the 25 year County State Aid Highway construction needs of the county involved for a period of twenty years beginning with the first apportionment year after the documentation has been submitted.

It shall be the County Engineer's responsibility to submit this data to their District State Aid Engineer. His submittal and approval must be received in the Office of State Aid by July 1 to be included in the following years apportionment determination.

Pursuant to this resolution, the following counties have reported and justified "credit for local effort" in the amounts indicated. These amounts have been added to each County's 2004 money needs.

## OTES and COMMENTS

[illegible]

## **Non Existing CSAH Needs Adjustment**

October, 2004

In 1990 (REV.1992) the following resolution dealing with non-existing County State Aid Highway designations was adopted.

That all counties which have non-existing CSAH designations, that have drawn needs for 10 years or more, have until December 1, 1992 to either remove them from their CSAH system or to let a contract for the construction of the roadway, or incorporate the route in a transportation plan adopted by the County and approved by the District State Aid Engineer. After that date, any non-existing CSAH designation not a part of a transportation plan adopted by the County and approved by the District State Aid Engineer will have the "Needs" removed from the 25 year CSAH Needs Study after 10 years. Approved non-existing CSAH designations shall draw "Needs" up to a maximum of 25 years or until constructed.

The following segments are covered by this resolution and the corresponding needs will be subtracted from the 2004 25 year needs, as shown on the 2005 Money Needs Apportionment Form.

## Non Existing CSAH Needs Adjustment

# **Mill Levy Deductions**

October, 2004

Minnesota Statutes, Chapter 162.07, Subdivision 3 and 4 requires that a two-mill levy on each rural county, and a one and two-tenths mill levy on each urban county be computed and subtracted from such county's total estimated construction cost.

The 1971 Legislature amended Laws pertaining to taxation and assessment of property valuations. Previously, the term "full and true" (1/3 of market value) was interpreted to mean Taxable Value. The 1971 Legislature deleted the term "full and true" and inserted "market" value where applicable. Also, all adjustments made to market value to arrive at the full and true value were negated. The result of this change in legislation was an increase in Taxable Value by approximately 300%.

To obviate any conflict, the 1971 Legislature enacted the following:

**Chapter 273.1102 RATE OF TAXATION, TERMINOLOGY OF LAWS OF CHARTERS. The rate of taxation by any political subdivision or of the public corporation for any purpose for which any law or charter now provides a maximum tax rate expressed in mills times the assessed value times the full and true value of taxable property (except any value determined by the state equalization aid review committee) shall not exceed 33 1/3 percent of such maximum tax rate until and unless such law or charter is amended to provide a different maximum tax rate. (1971 C 427 S 24)**

We have therefore, reduced the mill rate by the required 33 1/3% to equal a 0.6667 mill levy for rural counties and a 0.4000 mill levy of urban counties.

THE 1985 LEGISLATURE REVISED THE DEFINITION OF URBAN COUNTIES FROM THOSE HAVING A POPULATION OF 200,000 OR MORE TO THOSE HAVING A POPULATION OF 175,000 OR MORE. THIS LEGISLATION GIVES URBAN COUNTY STATUS TO ANOKA AND DAKOTA COUNTIES IN ADDITION TO HENNEPIN, RAMSEY AND ST. LOUIS WHICH WERE CONSIDERED URBAN COUNTIES PRIOR TO 1985.

Action at the 1989 Legislative session resulted in the elimination of references to "Mill Rates". In order to continue the Mill Levy Deduction procedure the Legislature enacted the following:

**Chapter 277, Article 4 MILL RATE Conversions, Section 12 & 13 converts Mill Rate Levy limits based on the old assessed value system to an equivalent percentage of taxable market value limit in order to conform with the new tax capacity system. (Rural counties - 0.01596%, Urban counties - 0.00967%)**

The following listed figures comply with the above requirements of computation.

<b>County</b>	<b>County Total Real &amp; Personal Market Value (Taxes Payable 2004)</b>	<b>Mill Levy Deduction</b>

## **Development of the Tentative 2005 C.S.A.H. Money Needs Apportionment**

October, 2004

This chart was prepared in order to determine an annual money needs figure for each county. These figures, along with each county's mileage and lane miles, must be presented to the Commissioner on or before November 1, for her use in apportioning the 2005 County State Aid Highway Fund. This tabulation also indicates a TENTATIVE 2005 money needs apportionment figure for each county based on an estimated apportionment sum.

The trunk highway turnback adjustment column is the same as was used for the 2004 money needs apportionment determination because more current data was not available at the time the chart was printed. Current data will be used for the final 2005 apportionment.

Adjustments must be made for any turnback activity in 2004, construction fund balances as of 12/31/04, and possibly for any action taken by this Board.

October 21, 2004

Carol Molnau  
Minnesota Department of Transportation  
MS 100, Transportation Building  
St. Paul, Minnesota 55155

Dear Lieutenant Governor/ Commissioner Molnau:

We, the undersigned, as members of the 2004 County Screening Board, having reviewed all information available in relation to the mileage, lane miles and money needs of the County State Aid Highway System, do hereby submit our findings on the attached sheets.

In making this recommendation, we have considered the needs impact resulting from changes in unit costs, traffic and construction accomplishments. After determining the annual needs, adjustments as required by law and Screening Board Resolutions were made to arrive at the money needs as listed. Due to turnback activity in 2004; construction fund balances as of December 31, 2004; and any action taken by this Screening Board, adjustments to the mileage, lane miles and money needs may be necessary before January 1, 2005.

This Board, therefore recommends that the mileage, lane miles and money needs as listed be modified as required and used as the basis for apportioning to the counties the 2005 Apportionment Sum as provided in Minnesota Statutes, Chapter 162.07, Subdivision 5.

Respectfully submitted,

Dave Olsonawski, Secretary  
County Screening Board

Does not include 2004 T.H. Turnback Mileage			

## **Total Tentative 2005 C.S.A.H. Apportionment**

October, 2004

The following tabulation lists a TENTATIVE 2005 Apportionment based on an estimate of \$358 million (same as 2004 apportionment).

The Motor Vehicle Registration Apportionment reflects changes caused by the new registration figures.

Each county's tentative 2005 lane mile apportionment has been computed using the 2004 CSAH needs study lane miles. The limitation by the 1997 legislation which states that no county shall ever receive less in lane mile apportionment than they received in mileage apportionment in 1998 was not necessary this year. Also, 2004 trunk highway turnback mileage is not included, but will be when the final 2005 apportionment is determined.

The money needs apportionment is based on the actual 2004 25-year construction needs, however, these needs will be adjusted by 2004 turnback activity, construction fund balances as of 12/31/04, and by any other action taken at this meeting.

We wish to emphasize that the apportionment as shown is TENTATIVE and the final apportionment will be determined in January, 2005, by the Commissioner with the assistance of recommendations by your Screening Board.

# Components of the TENTATIVE 2005 Apportionment

October, 2004

County	Equalization Apportionment	Motor Vehicle Registration Apportionment	Lane Mile (Mileage) Apportionment	Money Needs Apportionment	TENTATIVE 2005 CSAH Apportionment

## OTES and COMMENTS

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

**Comparison of the Actual 2004 to  
the TENTATIVE 2005 C.S.A.H. Apportionment**  
October, 2004

The following two pages indicate a comparison between the actual 2004 C.S.A.H. apportionment and what each county's 2005 county state aid apportionment would be if all mileage, needs and adjustments remained as published in this booklet and if the 2005 C.S.A.H. road user fund would remain the same as 2004. However, as we stated in the previous pages, some revised figures will be used to determine the final 2005 apportionment. This data is being presented in this manner simply to show the approximate comparison to last year's apportionment, if the Board approves the mileage and money needs as presented.

**Comparison of the Actual 2004 to the TENTATIVE 2005 CSAH Apportionment**

# MILEAGE REQUESTS

# **Criteria Necessary For County State Aid Highway Designation**

October, 2004

In the past, there has been considerable speculation as to which requirements a road must meet in order to qualify for designation as a County State Aid Highway. The following section of the Minnesota Department of Transportation Rules which was updated in July, 1991, definitely sets forth what criteria are necessary.

## **Portion of Minnesota Rules For State Aid Operations**

**State Aid Routes shall be selected on the basis of the following criteria:**

**Subp. 2. A county state-aid highway may be selected if it:**

- (A) is projected to carry a relatively heavier traffic volume or is functionally classified as collector or arterial as identified on the county's functional classification plans as approved by the county board;***
- (B) connects towns, communities, shipping points, and markets within a county or in adjacent counties; provides access to rural churches, schools, community meeting halls, industrial areas, state institutions, and recreational areas; or serves as principal rural mail route and school bus route; and***
- (C) provides an integrated and coordinated highway system affording, within practical limits, a state-aid highway network consistent with projected traffic demands.***

## **"BANKED" CSAH MILEAGE**

**October, 2004**

The Screening Board, at its June, 1990 meeting, revised the mileage resolution to read as follows:

**Mileage made available by an internal revision after July 1, 1990 will be held in abeyance (banked) for future designation.**

The following mileage presently represents the "banked" mileage available. Only mileage made available by commissioners orders received before May 1, 2005 is included.

<b>County</b>	<b>Banked Mileage</b>	<b>Year Made Available</b>	<b>County</b>	<b>Banked Mileage</b>	<b>Year Made Available</b>
Anoka	1.04	2000	Nicollet	0.02	1999

## MINNESOTA DEPARTMENT OF TRANSPORTATION

DATE: 9/16/04  
 TO: Manager, State Aid Needs Unit Diane Gould  
 FROM: Kelvin Howieson, District State Aid Engineer  
 SUBJECT: Request for Approval of a System Revision  
 (Municipality) (County) of Sherburne

Attached is a request and supporting data for a revision to the State Aid System. The proposed route meets the following criteria (indicated by an "X") necessary for designation.

## C.S.A.H. CRITERIA

<input type="checkbox"/>	Projected to carry a relatively heavier traffic volume,
<input checked="" type="checkbox"/>	or is functionally classified as collector or arterial
<input checked="" type="checkbox"/>	Connects towns, communities, shipping points, and markets within a county or in adjacent counties,
<input checked="" type="checkbox"/>	or provides access to rural churches, schools, community meeting halls, industrial areas, state institutions and recreational areas,
<input checked="" type="checkbox"/>	or serves as a principal rural mail route and school bus route.
<input checked="" type="checkbox"/>	Provides an integrated and coordinated highway system affording, within practical limits, a State Aid highway network consistent with projected traffic demands

## M.S.A.S. CRITERIA

## **Report of the CSAH Mileage Committee**

**August 30, 2004**

**Committee Members:** Ken Haider, Chairman, Ramsey County  
John Brunkhorst, McLeod County  
Rick West, Otter Tail County (Absent)

**Others Attending:** Diane Gould, CSAH Needs Unit  
Kelvin Howieson, District 3 DSAE  
David Schwarting, Sherburne County

Dave Schwarting requested the committee meet again to consider additional and corrected information he had collected. At the April meeting, the information available indicated that Sherburne County CSAH mileage as a percentage of total road mileage in the County was 21.5%. Actually, the information used under-reported some of the total mileage. Therefore, the new figure of CSAH/Total Mileage is 19.5%, below the statewide average of 22.4%.

We also had additional discussion concerning the functional classifications identified in the County's Comprehensive Plan. The County has done significant work on access control based on the functional class. These effects are compatible with the spirit and intent of the CSAH system.

The committee considered the information presented by Dave Schwarting and revised its recommendation as shown on the attached spreadsheet. The total new mileage recommended is 26.68 miles. When added to the existing mileage, the CSAH/Total Mileage is 21.9%. This figure is comparable to the statewide average of 22.4%.

## **Report of the CSAH Mileage Subcommittee**

**April 22,2004**

**Committee Members:** Ken Haider  
Rick West  
John Brunkhorst

**Others Attending:** Diane Gould, CSAH Needs Unit  
Kelvin Howieson, District 3 DSAE  
David Schwarting, Sherburne County

The Committee met April 19, 2004 at the Sherburne County Government Center to consider a mileage request submitted by Dave Schwarting on behalf of Sherburne County. Mr. Schwarting started the day by outlining the request and explaining that the basis for the request was the County's Transportation Plan. The request as submitted totaled 59.25 miles. The group then toured all the roads included in the proposal.

The committee members and the MnDOT representatives met after the tour to discuss the request. Some general topics were discussed before tackling the specifics of the request. It was noted that the statewide average for CSAH mileage compared to total road mileage is 22.4%. The current CSAH mileage in Sherburne County compared to the total is 21.5%. The requested additional mileage would result in a figure of 27.4%, well above the statewide average.

The statutorily required selection criteria for county state aid highway routes was reviewed. It was agreed that the CSAH system should be flexible and responsive to the changing needs of the public.

Another issue was establishing a balance between the concepts of a CSAH system that provides reasonable access for the public vs. the concept of carrying significant traffic. In other word what should the spacing between roads be in sparsely populated areas vs. densely populated areas? It was agreed that there are many shades of gray in between and good judgment must be applied.

The following represents discussion of the specific segment requests:

- CH 30, CSAH 14 – Orono/Main St Half could be MSAS and other half too close to TH 10
- CH 31, CSAH 13 – Anoka Co Line Should be a joint request with Anoka County
- CH 33, CSAH 1 – TH 169 Recommend Approval, provides E-W connection
- CH33, TH 169 – CSAH 13 Should be joint request with Anoka County

- CH 36, TH 169 – CSAH 4 should be considered in the future with future interchange
- CH 40, CSAH 13 – CSAH 12 Too close, could be MSAS
- CH 43, CSAH 15 – TH 10 Services only residential development
- CH 43, TH 10 – CSAH 14 Recommend Approval, provides N-S connection
- CH 45, TH 169 - CSAH 4 Premature, maybe warranted when TH 169 becomes freeway
- CH 45, CSAH 4 – CH 49 Recommend Approval, provides N-S connection
- CH 47, CH 48 – CSAH 5 Recommend Approval, provides E-W connection
- CH 48, CSAH 11 – CSAH 47 Recommend Approval, provides E-W connection
- CH 49, CH 45 – CSAH 1 Recommend Approval, provides N-S connection
- CH 60, CSAH 8 – TH 10 Recommend Approval, provides E-W connection
- CH 62, Co. line – CSAH 20 Coordinate with Benton County
- CH 65, TH 10 – CSAH 7 Provides connection to airport, should include deduction of CSAH 3, TH 10 – CH 65
- CH 67, CSAH 23 – CSAH 11 Premature
- CH 73, CSAH 11 – TH 10 Work with Big Lake to put on upcoming MSAS
- CH 81, TH 10 – CH 73 Work with Big Lake to put on upcoming MSAS
- 200<sup>th</sup> St, TH 10 – TH 25 Recommend Approval, Provides N-S connection

Attached is a mileage summary showing a total of 15.23 miles of new mileage?

# **Historical Documentation for the Carver County C.S.A.H. Mileage Request**

# STATE PARK ROAD ACCOUNT

## **State Park Road Account**

October, 2004

Legislation passed in 1989 amended Minnesota Statutes 1986, section 162.06, subdivision 5, to read as follows:

*Subd. 5. (STATE PARK ROAD ACCOUNT.) After deducting for administrative costs and for the disaster account and research account as heretofore provided from the remainder of the total sum provided for in subdivision 1, there shall be deducted a sum equal to the three-quarters of one percent of the remainder. The sum so deducted shall be set aside in a separate account and shall be used for (1) the establishment, location, relocation, construction, reconstruction, and improvement of those roads included in the county state-aid highway system under Minnesota Statutes 1961, section 162.02, subdivision 6 which border and provide substantial access to an outdoor recreation unit as defined in section 86A.04 or which provide access to the headquarters of or the principal parking lot located within such a unit, and (2) the reconstruction, improvement, repair, and maintenance of county roads, city streets, and town roads that provide access to public lakes, rivers, state parks, and state campgrounds. Roads described in clause (2) are not required to meet county state-aid highway standards. At the request of the commissioner of natural resources the counties wherein such roads are located shall do such work as requested in the same manner as on any county state-aid highway and shall be reimbursed for such construction, reconstruction or improvements from the amount set aside by this subdivision. Before requesting a county to do work on a county state-aid highway as provided in this subdivision, the commissioner of natural resources must obtain approval for the project from the county state-aid screening board. The screening board, before giving its approval, must obtain a written comment on the project from the county engineer of the county requested to undertake the project. Before requesting a county to do work on a county road, city street, or a town road that provides access to a public lake, a river, a state park, or a state campground, the commissioner of natural resources shall obtain a written comment on the project from the county engineer of the county requested to undertake the project. Any sums paid to counties or cities in accordance with this subdivision shall reduce the money needs of said counties or cities in the amounts necessary to equalize their status with those counties or cities not receiving such payments. Any balance of the amount so set aside, at the end of each year shall be transferred to the county state-aid highway fund.*

Pursuant to this legislation, the following information has been submitted by the Department of Natural Resources and the county involved.

---

9/16/04

John Strohkirch  
DNR Parks and Recreation  
500 Lafayette Road  
Box 39  
St. Paul, MN 55155-4039

Dear John:

As you may be aware of Waseca County plans to reconstruct CSAH 13 and CSAH 4 (Clear Lake Drive) around Clear Lake in 2006. It is my intention to realign CSAH 4 in the vicinity of the Clear Lake water access and provide for a safer and more user friendly access to the landing on the south side of Clear Lake. CSAH 4 is the primary access route for Clear Lake in Waseca County and therefore we are requesting \$65,032.50 in State Park Road Account funding as outlined in Minnesota State Statute 162.06.

Attached is a detailed estimate, map and preliminary layout of CSAH 4.

Thank you for your consideration.

Sincerely,

Jeff Blue, P.E.  
Waseca County Engineer

## OTES and COMMENTS

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

# **C.S.A.H. 20-Year Traffic Projection Factors**

(For Use in the 2004 C.S.A.H. Needs Study)

October, 2004

The map on the following page indicates the 20-year traffic projection factors used for the 2004 Needs Study.

For those counties whose traffic was counted in 2003 and for which we received traffic maps in 2004, two factors are shown. The first factor is the one used in the 2003 Needs Study and the second one was computed using 2003 traffic and has been used for the 2004 Needs Study.

The resolution on traffic projection factors limits the change in factors to a decrease of 0.3 from one traffic count interval to the next.

The following counties were counted in 2003 and we received new traffic maps in 2004.

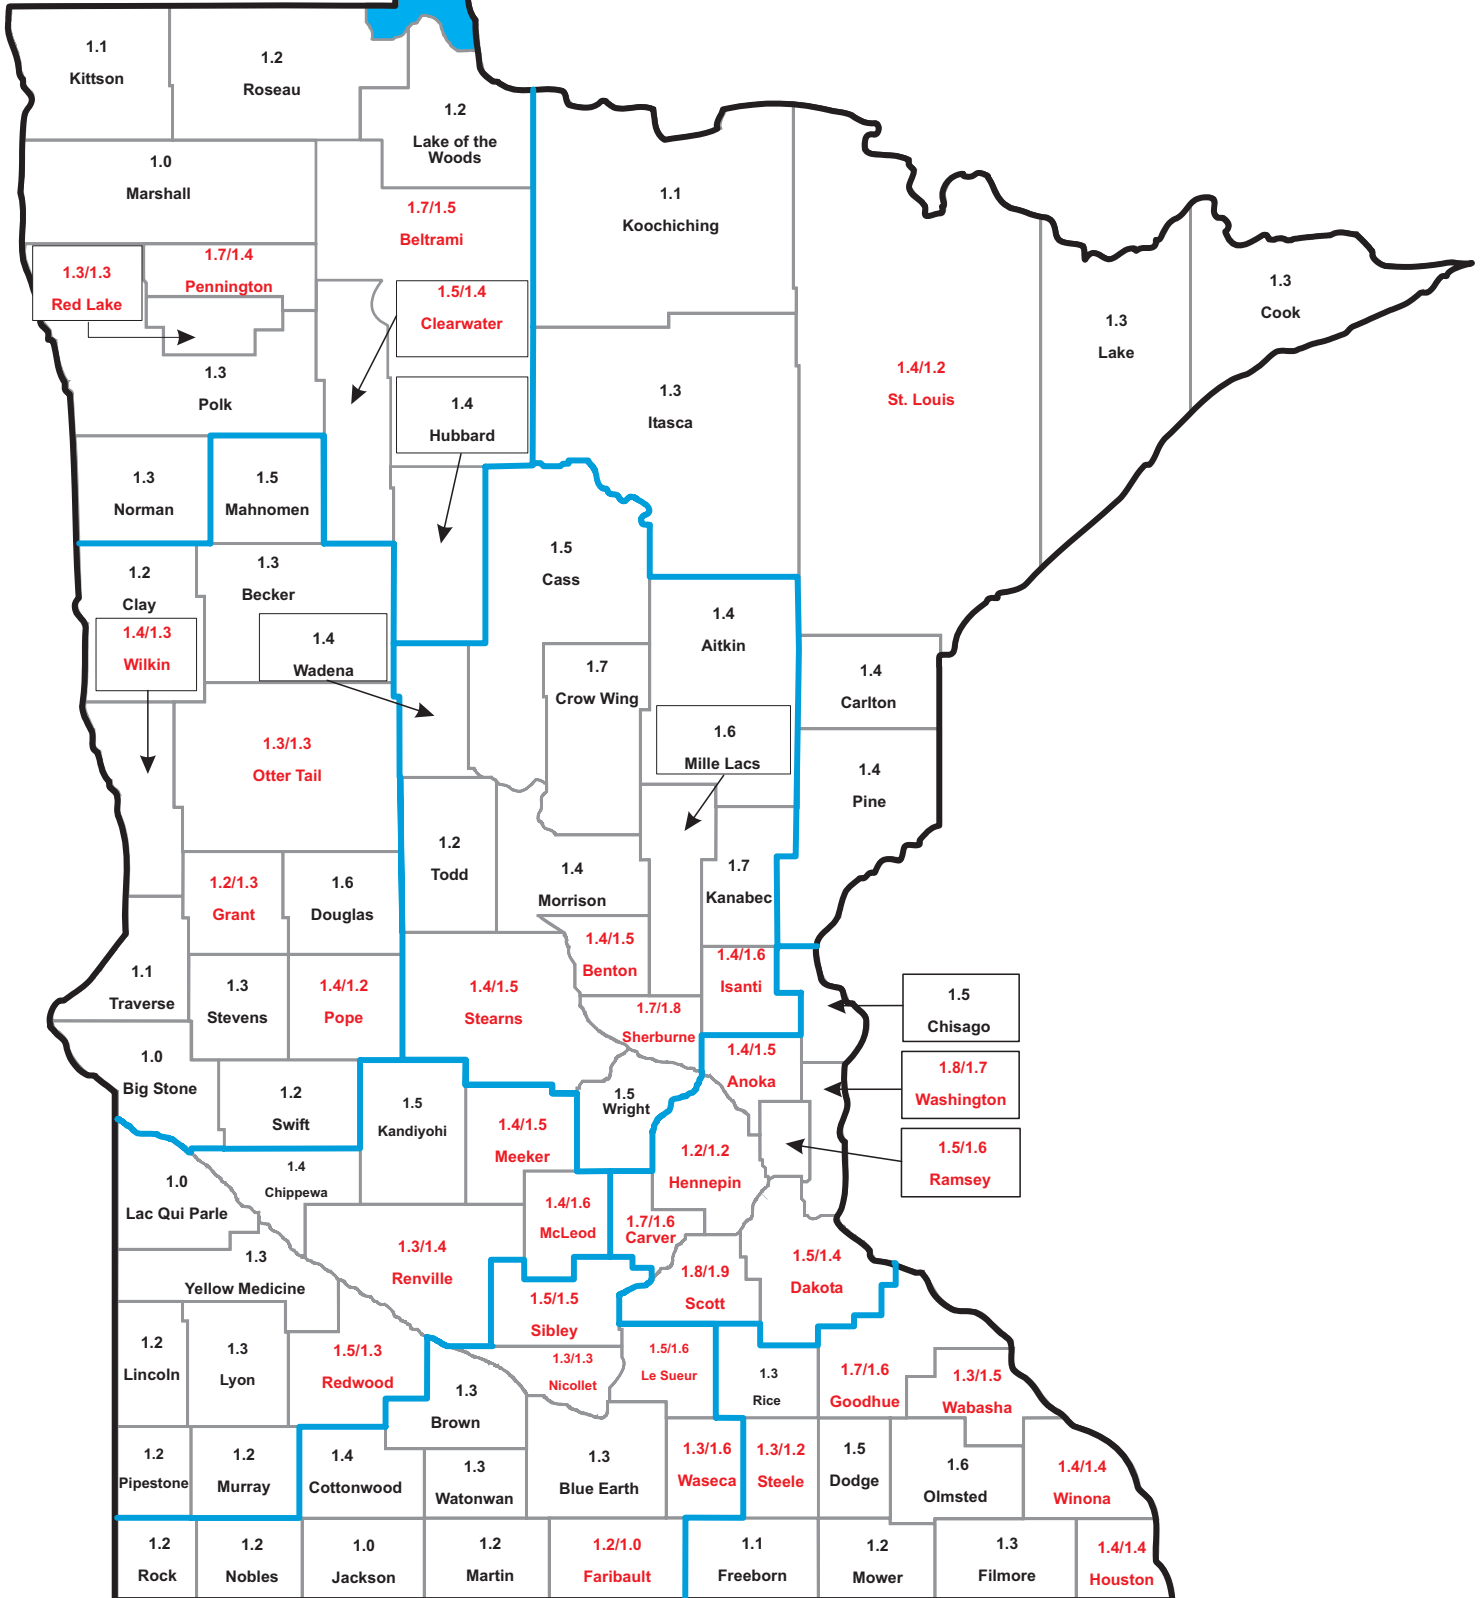

<b>Beltrami</b>	<b>Isanti</b>	<b>Pope</b>	<b>Stearns</b>
<b>Benton</b>	<b>LeSueur</b>	<b>Red Lake</b>	<b>Steele</b>
<b>Clearwater</b>	<b>McLeod</b>	<b>Redwood</b>	<b>Wabasha</b>
<b>Faribault</b>	<b>Meeker</b>	<b>Renville</b>	<b>Waseca</b>
<b>Goodhue</b>	<b>Nicollet</b>	<b>St. Louis</b>	<b>Wilkin</b>
<b>Grant</b>	<b>Otter Tail</b>	<b>Sherburne</b>	<b>Winona</b>
<b>Houston</b>	<b>Pennington</b>	<b>Sibley</b>	
Plus the Seven Metro Counties			
<b>Anoka</b>	<b>Dakota</b>	<b>Ramsey</b>	<b>Washington</b>
<b>Carver</b>	<b>Hennepin</b>	<b>Scott</b>	

# CSAH 20-Year Traffic Projection Factors (For use in the 2004 Needs Study)

October, 2004

Old and new factors are shown for those counties whose traffic was counted in 2003 and for which the Needs Unit has received updated traffic maps.

# Advance of CSAH Construction Funds from the General CSAH Construction Account

October, 2004

Resolutions adopted at the October, 1995 County Screening Board meeting indicate the guidelines to be used to advance CSAH construction funds to individual counties.

Actual Expenditures as of 9/21/04	
Maximim \$'s Allowable to Advance:	\$48,000,000
Less \$'s Actual Advances:	\$24,681,794
Less Outstanding Reserve \$ Amount:	\$23,290,081
Remaining Available to Advance:	\$28,125

County	\$'s Approved for Advancing by Resolution	Request to Reserve Advance Funding	\$'s Actually Advanced
Anoka	\$4,474,620	\$4,425,916	\$3,908,841
Becker	2,075,240		1,389,528
Brown	1,295,614	800,000	808,113
Cass	2,653,560	2,569,609	1,915,281
Chippewa	300,000		
Clay	1,100,000	1,100,000	514,740
Clearwater	1,300,000		973,986
Crow Wing	1,000,000		840,104
Dodge	1,441,006	368,524	717,824
Faribault	2,117,148	2,117,148	976,682
Freeborn	1,120,039		
Goodhue	600,000	600,000	130,520
Hubbard	1,250,000	1,150,000	418,879
Itasca	3,005,000		
Kittson	450,000	442,200	
Lac Qui Parle	1,000,000		448,786

**MINUTES OF THE COUNTY ENGINEER'S SCREENING BOARD MEETING  
JUNE 2 & 3, 2004  
CRAGUN'S CONFERENCE CENTER NEAR BRAINERD**

Chairman Nathan Richman, Sibley County Engineer called the meeting to order at 1:10 p.m., June 2, 2004.

**ATTENDANCE**

Roll call of members:

Al Goodman, Lake	District 1
Kelly Bengtson, Kittson	District 2
Russ Larson, Wadena	District 3
Larry Haukos, Traverse	District 4
Bill Malin, Chisago	Metro East
Roger Gustafson, Carver	Metro West (not present)
Allen Henke, Houston	District 6
Nathan Richman, Sibley	District 7
Steve Kubista, Chippewa	District 8
Don Theisen, Washington	Urban
Lyndon Robjent, Anoka (Wednesday)	Urban
Doug Fisher, Anoka (Thursday)	Urban
Mark Krebsbach, Dakota	Urban
Gary Erickson, Hennepin	Urban
Ken Haider, Ramsey	Urban
Marcus Hall, St. Louis	Urban

Chairman Nathan Richman asked for a motion to approve the October 22 & 23, 2003 Screening Board Minutes held at Ruttger's Bay Lodge in Deerwood. Motion by Marcus Hall and seconded by Ken Haider, motion passed unanimously.

Roll call of MnDOT personnel:

Julie Skallman	Director, Salt Group
Rick Kjonaas	Assistant State Aid Engineer, Salt Group
Mark Gieseke	State Aid Programs Engineer
Jim Koivisto	Program Delivery Engineer
Diane Gould	Manager, County State Aid Needs Unit
Norman Cordes	CSAH Needs
Kim DeLaRosa	CSAH Needs
Marshall Johnston	Manager, Municipal State Aid Needs Unit
Walter Leu	District 1 State Aid Engineer
Lou Tasa	District 2 State Aid Engineer
Kelvin Howieson	District 3 State Aid Engineer
Merle Earley	District 4 State Aid Engineer
Steven Kirsch	District 6 State Aid Engineer
Doug Haeder	District 7 State Aid Engineer
Tom Behm	District 8 State Aid Engineer
Dan Erickson	Metro Division Aid
Patti Simmons	Metro Division Aid

Chairman Nathan Richman recognized, Chairman, Rich Heilman, Isanti County, Dave Rholl, Winona County and Doug Fischer, Anoka County as members of the General Subcommittee.

Chairman Nathan Richman had the secretary recognized the following alternates and other engineers in attendance:

Chuck Schmidt, Cook	District 1
Dan Sauve, Clearwater	District 2
Mitch Anderson, Stearns	District 3
Brad Wentz, Becker	District 4
Greg Iikka, Acting Scott	Metro
Dennis Luebbe, Rice	District 6
Wayne Stevens, Brown	District 7
Randy Groves, Murray	District 8

Others in attendance were:

Kevin Peyman, Martin  
Anita Benson, Lyon  
Dave Halbersma, Pipestone  
John Brunkhorst, McLeod  
David Enblom, Cass  
John Welle, Aitkin  
Nick Anderson, Big Stone  
Jeff Blue, Waseca  
Greg Isakson, Goodhue  
Sue Miller, Freeborn  
Ernie Fiala, Redwood  
Rick West, Otter Tail

### **ELECTION OF VICE-CHAIRMAN**

Chairman Nathan Richman informed the group that a vice chairman must be elected, so campaign and the election will be tomorrow.

### **REVIEW OF SCREENING BOARD REPORT**

Chairman Nathan Richman asked Diane Gould to review the Screening Board book. Diane reviewed the report which she has previously done out in all the Districts. Chairman Nathan Richman suggested that any action taken on the report should wait until Thursday, June 3, 2004.

- A) General Information - pages 2-6, Trend of CSAH Unit Prices  
No comments or questions.
- B) Unit Price Recommendations - Pages 8-15  
Diane informed the Board that on page 8 is where they explain the procedure to arrive at the inflated gravel base prices, remembering that it was changed as of June 2003, because of the new design charts. For those counties that do not have 50,000 tons of gravel base they will use the surrounding counties that do have over 50,000 tons. There were 8 counties that had less than 50,000 tons as shown on the Figure A chart. There were 37

counties inflated gravel base prices that decreased and there were 50 counties that increased. She stressed that our review of the unit price projects listed should be looked over to make sure some base quantities did not get missed. Nobles County had the largest gravel base price decrease of \$ 1.57 and Redwood County had the largest increase of \$ 0.87.

The unit price inflation factor on page 9 is arrived at by dividing the current years annual average by each of the previous four years average. Then the factor is applied to each of the previous years cost as shown in the reference material on pages 36 to 37.

C.S.A.H. roadway unit prices on pages 10 & 11 were figured using the increment method to determine each county's unit prices. Note the change on page 11 where the Combined Bit. Base & Surface prices are shown for both the outstate and metro counties this was agreed to last year to reflect the difference in cost. Pages 12 & 13 show the break down of the Outstate and Metro unit prices used for this year's calculations.

C.S.A.H. miscellaneous unit prices on pages 14 & 15 were figured using the recommended Mn/DOT prices. Storm Sewer prices were taken from Mn/DOT's estimating section, which increased a small amount. Curb and Gutter was taken from the MSAS needs study, which increased to \$ 8.76, which was recommended by the General Subcommittee. Bridge prices were recommended to use the State Aid average only for the 0-149 & 150-499 and the bridges 500 and longer they included the TH bridges, based on the information on pages 43 - 47. Railroad crossing protection had a slight increase from last year, as recommended by the General Subcommittee.

Diane reviewed the handout on "Procedure Needed for Bituminous Pavement Reclamation" to arrive at a way to figure it into our gravel base unit price study. Because everyone may have a different procedure to handle and pay for bituminous reclamation, it is difficult to come up with an average price from the abstract of bids and where and how to include it in to the unit price study. The General Subcommittee suggested having the lump sum cost included in the grading cost comparison for this year. Chairman Nathan Richman commented to the group that this item will have to be reviewed annually by the General Subcommittee to see if changes have to be made in the future in how this item is calculated, due to the variable use and removal by the counties. Russ Larson stated that District 3 would like to see the General Subcommittee continue to analyze this item along with cold in place recycling and how it relates to the penalty for Special Resurfacing Projects. Diane commented that the cold in place recycling projects if related to surfacing projects are already included in calculation for Special Resurfacing. Larry Haukos stated that District 4 felt the same way because of the many variables that can come into play while writing the specs. Rick Kjonaas agreed there are so many different ways to write the specs that it is difficult to pull out accurate numbers off the abstract of bids. At the conclusion of the discussion it was stated that State Aid's goal is to be able to easily pull the items from the abstract of bids and credit it to our needs. However the specs are written to utilize the material to best fit the county's needs, therefore not losing the credit for the money spent on it in the needs. Those goals, however, are not mutually compatible across the state.

C) Mileage Requests - Pages 17-28

The criteria necessary for CSAH designation is on page 18.

The History of Additional Mileage request can be found on pages 19-21.

On page 22 is a list of Banked mileage, this mileage is banked due to a change in their system and does not earn either needs or money.

Reports of Historical documentation is shown on pages 23-27 only as information, for the Carver County, Washington County, Dakota County, Lake County, St. Louis County and Scott County CSAH mileage requests. Stearns County did complete their request so they were taken out of the book.

D) State Park Road Account - Pages 29-33

Diane Gould explained page 30 covers the Minnesota Statute on State Park Road Account and pages 31-33 are the history of SPR Account Projects from 2002 to 2004.

E) Reference Material - Pages 35-76

The Procedure for inflating gravel base unit prices is shown on pages 36 & 37 and the counties with less than 50,000 tons of gravel base is shown on pages 38 - 40 using surrounding counties.

The letter from the State Aid Hydraulic office states that the state aid storm sewer costs are based on the average cost per mile of storm sewer constructed using prices from approximately 142 plans for 2003.

The letter from the Railroad Office recommends using the figures on page 42 for planning purposes.

The General Subcommittee used the information on pages 44 – 46 to determine the average bridge costs for those bridges with lengths of 0 - 149, 150 – 499, & over 500 feet. On page 47 is the recommended price for minor structures updated for June, 1997 to March 2004.

Diane Gould discussed the variances granted on page 48, this is a one time adjustment made for projects that ask for something to be built other than what the rules call for and other than what you draw needs for and the one time 10 year adjustment is the difference between what they have been drawing needs for and what the variance allows them to do. Fairbault, Fillmore, & Morrison Counties are requesting a variance for a Design Speed change.

Diane Gould discussed the advancing of CSAH Construction money with a report on page 49 - 51, the latest numbers requested were 59.7 million and reserved dollars were 38.8 million. Rick Kjonaas explained how this advancing of dollars may work for this year and next.

Page 52 is a request from Nicollet County to look at increasing the credit for Local Effort. The General Subcommittee recommends that this be tied into the review of the State Aid Mission Study and deal with at that time.

Pages 53-55 is the report the Board asked for about the Local Road Research Board Projects from the last three years. The rest of the book has the minutes from the fall

meeting, the CSAH General Subcommittee meeting, the Current Resolutions of the Screening Board and a list of County Engineers addresses and phone numbers.

Chairman Nathan Richman turned over the meeting to Mark Gieseke to present a presentation on the "State Aid Mission Study", reviewing the history of the State Aid System. Mark and the State Aid Staff were complimented on an excellent presentation. Discussion followed the presentation, with Julie Skallman asking for comments good or bad from the entire state, hoping that everyone will step forward and let their feelings and opinions be known to her or the committee members.

Rick Kjonaas told the group based on the Board of Directors meeting he attended in the morning, he was going ahead with the bridge ratings that are needed right now due to the new 90,000 pound legislation. He will assume that he should order at least two signs per bridge, however asked for input on what the sign should say. With some discussion Rick stated he will get a picture of what the sign will say to the Weight Committee before they are ordered. Rick commented the Pavement Rating Program was approved also, however the Pavement Office was not ready to commit work this year but their rate would be \$26.00 per mile. The new pavement rating program approved by the Board of Directors should be up and running in the year 2005. Rick said he will continue to work on the 10-Ton route map and bring it back to the Districts one more time for review.

Chairman Nathan Richman asked for a motion to adjourn until tomorrow morning at 8:30, Marcus Hall made the motion with a second from Gary Erickson, motion carried.

The meeting reconvened at 8:30 a.m. June 3, 2004 with all members present.

Chairman Nathan Richman started the meeting with action on the Screening Book, identifying the items from the index.

### **ACTION ON SCREENING BOOK**

#### **A) Unit Prices Recommendations, Pages 10-16**

Chairman Nathan Richman asked if their questions on the first 5 action items pertaining to the Unit Price recommendation by the General Subcommittee. Motion by Al Goodman, to accept the unit prices as recommended on pages 8 - 15, seconded by Marcus Hall, motion carried.

Chairman Nathan Richman brought the items of Credit for Local Effort up for discussion requested by District 7 and the Bituminous Pavement Reclamation discussion. Chairman Nathan Richman asked for Vice Chairman nominations, Don Theisen nominated Steve Kubista, Lac Qui Parle and Chippewa Counties, Marcus Hall seconded the nomination, motion passed, congratulations Steve.

Chairman Nathan Richman commented that the General Subcommittee recommended the "Credit for Local Effort" be discussed with the State Aid Mission study and it let it be a part of the whole review. No action taken, so it will be reviewed as suggested.

Chairman Nathan Richman asked the group if the Bituminous Pavement Reclamation should be done different this year than the General Subcommittee suggested, hearing no comments State Aid will do nothing different for this year.

Chairman Nathan Richman suggested the group should give some direction to the General

Subcommittee for review at the Fall meeting. Doug Fischer suggested we look for specific spec items for bituminous removal because everyone does it a little different and State Aid could then pick those items from the abstract of the bids. Motion by Larry Haukos to have the General Subcommittee to work with each unit to develop and provide guidance on how to process and identify bituminous reclamation, bituminous milling, class 7, ect., motion seconded by Russ Larson, motion passed.

Chairman Nathan Richman ask for any further official business to come before the Screening Board, Rick Kjonaas asked Dave Rholl about the Truck weight committee meeting. Dave Rholl felt that it was an excellent meeting and the goals of the meeting were to set up meetings with the different industries to discuss truck weight issues hoping to educate all players of the problems that exist. The committee feels this is important to have these discussions to help inform our legislators on the current issues.

Marcus Hall asked a general question about the advance funding discussed previously, State Aid explained the process and suggested some caution for the year 2005.

Chairman Nathan Richman stated this is an opportune time to discuss the presentation by Mark Gieseke the "State Aid Mission Study", however the feeling was it has to be discussed out in the districts. Nathan felt the screening board business was completed and the discussion could continue after we adjourn the meeting.

Motion by Marcus Hall, seconded by Steve Kubista to adjourn the Screening Board meeting, motion passed.

The next meeting will be October 20 & 21 near Alexandria at Arrowwood Resort.

Respectively Submitted,

A handwritten signature in cursive script that reads "David A. Olsonawski".

David A. Olsonawski  
Screening Board Secretary  
Hubbard County Engineer

# **CURRENT RESOLUTIONS OF THE COUNTY SCREENING BOARD**

BE IT RESOLVED:

## **ADMINISTRATIVE**

### **Improper Needs Report - Oct. 1961 (Rev. Jan. 1969)**

That the Office of State Aid and the District State Aid Engineer be requested to recommend an adjustment in the needs reporting whenever there is reason to believe that said reports have deviated from accepted standards and to submit their recommendations to the Screening Board with a copy to the county engineer involved.

### **Type of Needs Study - Oct. 1961 (Rev. June 1965)**

That the Screening Board shall, from time to time, make recommendations to the Commissioner of Transportation as to the extent and type of needs study to be subsequently made on the County State Aid Highway System consistent with the requirements of law.

### **Appearance at Screening Board - Oct. 1962**

That any individual or delegation having items of concern regarding the study of State Aid Needs or State Aid Apportionment Amounts, and wishing to have consideration given to these items, shall, in a written report, communicate with the Commissioner of Transportation through proper channels. The Commissioner shall determine which requests are to be referred to the Screening Board for their consideration. This resolution does not abrogate the right of the Screening Board to call any person or persons to appear before the Screening Board for discussion purposes.

### **Construction Cut Off Date - Oct. 1962 (Rev. June 1983)**

That for the purpose of measuring the needs of the County State Aid Highway System, the annual cut off date for recording construction accomplishments based upon the project letting date shall be December 31.

### **Screening Board Vice-chairman - June 1968**

That at the first County Screening Board meeting held each year, a Vice-chairman shall be elected and he shall serve in that capacity until the following year when he shall succeed to the chairmanship.

### **Screening Board Meeting Dates and Locations - June, 1996**

That the Screening Board Chairman, with the assistance of State Aid personnel, determines the dates and the locations for that year's Screening Board meetings.

### **Screening Board Secretary - Oct. 1961**

That, annually, the Commissioner of Transportation may be requested to appoint a secretary, upon recommendation of the County Highway Engineers' Association, as a non-voting member of the County Screening Board for the purpose of recording all Screening Board actions.

### **Research Account - Oct. 1961**

That the Screening Board annually consider setting aside a reasonable amount of County State Aid Highway Funds for the Research Account to continue local road research activity.

### **Annual District Meeting - Oct. 1963 (Rev. June 1985)**

That the District State Aid Engineer call a minimum of one district meeting annually at the request of the District Screening Board Representative to review needs for consistency of reporting.

### **General Subcommittee - Oct. 1986 (Rev. June, 1996)**

That the Screening Board Chairman appoints a Subcommittee to annually study all unit prices and variations thereof, and to make recommendations to the Screening Board. The Subcommittee will consist of three members with initial terms of one, two and three years, and representing the north (Districts 1, 2, 3 and 4), the south (Districts 6, 7 and 8) and the metro area of the state. Subsequent terms will be for three years.

### **Mileage Subcommittee - Jan. 1989(Rev. June, 1996)**

That the Screening Board Chairman appoint a Subcommittee to review all additional mileage requests submitted and to make recommendations on these requests to the County Screening Board. The Subcommittee will consist of three members with initial terms of one, two and three years and representing the metro, the north (Districts 1, 2, 3 and 4) and the south area (Districts 6, 7 and 8) of the state respectively. Subsequent terms will be for three years and appointments will be made after each year's Fall Screening Board Meeting. Mileage requests must be in the District State Aid Engineer's Office by April 1 to be considered at the spring meeting and by August 1 to be considered at the fall meeting.

### **Guidelines For Advancement of County State Aid Construction Funds From The General CSAH Construction Account - October, 1995 (Latest Rev. October, 2002)**

- 1) The maximum County State Aid construction dollars which can be advanced in any one year shall be the difference between the County State Aid construction fund balance at the end of the preceding calendar year plus any repayment due from the previous years advancing and \$40 million. Advanced funding will be granted on a first come-first served basis.
- 1a) In order to allow for some flexibility in the advancement limits previously stated, the \$40 million target value can be administratively adjusted by the State Aid Engineer and reported to the Screening Board at their next meeting.
- 2) Total advances to the Regular Account shall be limited to the counties last regular construction allotment, and will be reduced by any scheduled regular bond principal obligations and advance encumbrance repayments. Any advances must be repaid by deducting that amount from the next years CSAH regular construction allotment.
- 3) Total advances to the Municipal Account shall be limited to the counties last municipal construction allotment, and will be reduced by any scheduled municipal bond principal obligations and advance encumbrance repayments. Any advances must be repaid by deducting that amount from the next years CSAH municipal construction allotment.

- 4) In addition to the total advances allowed under 2) and 3) above, a county may request an advance in an amount equal to the Federal Funds formally programmed by an Area Transportation Partnership (ATP) in any future programmed year for a State Aid Project and for items that are State Aid eligible. Should Federal Funds fail to be programmed or the project or a portion of the project be declared federally ineligible, the local agency shall be required to pay back the advance under a payment plan agreed to between State Aid and the County.
- 5) Advanced State Aid funding must be requested by County Board Resolution. This resolution need not be project specific, but describes the maximum amount of advances the County Board authorizes for financing of approved County State Aid Highway projects in that year. This resolution must be submitted with, or prior to, the first project specific request. Once the resolution is received by SALT Division, payments will be made to the County for approved County State Aid Highway projects up to the amount requested in the resolution, after that Counties construction account balance reaches zero, and subject to the other provisions of these guidelines. The resolution does not reserve funds nor establish the "first come - first served" basis. First come - first served is established by payment requests and/or by the process describe in (5).
- 6) Prior to entering into a contract where advanced funding will be required, the County Engineer must submit a Request Advanced Funding form. SALT will reserve the funds and return the approved form to the County Engineer provided that:
  - a) the amount requested is within the amount authorized by the County Board Resolution,
  - b) the amount requested is consistent with the other provisions of this guideline, and
  - c) the County intends to approve the contract within the next several weeks; or in the case of a construction project, a completed plan has been submitted for State Aid approval.

Upon receiving the approved Request to Reserve Advanced Funding, the County Engineer knows that funds have been reserved for the project.

## **NEEDS ADJUSTMENTS**

### **Deficiency Adjustment - Oct. 1961 (Rev. June 1965)**

That any money needs adjustment made to any county within the deficiency classification pursuant to Minnesota Statutes Chapter 162.07, Subdivision 4, shall be deemed to have such money needs adjustment confined to the rural needs only, and that such adjustment shall be made prior to computing the Municipal Account allocation.

### **Minimum Apportionment - Oct. 1961 (Latest Rev. Dec. 1966)**

That any county whose total apportionment percentage falls below .586782, which is the minimum percentage permitted for Red Lake, Mahnomen and Big Stone Counties, shall have its money needs adjusted so that its total apportionment factor shall at least equal the minimum percentage factor.

### **Fund to Townships - April 1964 (Rev. June 1965)**

That this Screening Board recommend to the Commissioner of Transportation, that he equalize the status of any county allocating County State Aid Highway Funds to the township by deducting the township's total annual allocation from the gross money needs of the county for a period of twenty-five years.

#### **Bond Adjustment & Transportation Revolving Loan Fund - Oct. 1962 (Latest Rev. June, 2002)**

That a separate annual adjustment shall be made in total money needs of a county that has sold and issued bonds pursuant to Minnesota Statutes, Section 162.181, or has accepted a TRLF loan Pursuant to Minnesota Statutes, Section 162.06 for use on State Aid projects, except bituminous or concrete resurfacing projects, concrete joint repair projects, reconditioning projects or maintenance facility construction projects. That this adjustment, which covers the amortization period, which annually reflects the net unamortized bonded debt, shall be accomplished by adding said net unamortized bond amount to the computed money needs of the county. For the purpose of this adjustment, the net unamortized bonded debt shall be the total unamortized bonded indebtedness less the unencumbered bond amount as of December 31, of the preceding year.

#### **County State Aid Construction Fund Balances - May 1975 (Latest Rev. October 1996)**

That, for the determination of County State Aid Highway needs, the amount of the unencumbered construction fund balance as December 31 of the current year; not including the current year's regular account construction apportionment and not including the last three years of municipal account construction apportionment or \$100,000, whichever is greater; shall be deducted from the 25-year construction needs of each individual county. Also, that for the computation of this deduction, the estimated cost of right-of-way acquisition which is being actively engaged in or Federally-funded projects that have been let but not awarded shall be considered as being encumbered and the construction balances shall be so adjusted.

#### **Needs Credit for Local Effort - Oct. 1989 (Latest Rev. October, 1997)**

That annually a needs adjustment for local effort for construction items which reduce State Aid needs shall be made to the CSAH 25 year construction needs.

The adjustment (credit for local effort) shall be the local (not State Aid or Federal Aid) dollars spent on State Aid Construction Projects for items eligible for State Aid participation. This adjustment shall be annually added to the 25 year County State Aid Highway construction needs of the county involved for a period of twenty years beginning with the first apportionment year after the documentation has been submitted.

It shall be the County Engineer's responsibility to submit this data to their District State Aid Engineer. His submittal and approval must be received in the Office of State Aid by July 1 to be included in the following years apportionment determination.

#### **Grading Cost Adjustment - Oct. 1968 (Latest Rev. June, 1988)**

That, annually, a separate adjustment to the rural and the urban complete grading costs in each county be considered by the Screening Board. Such adjustments shall be made to the regular account and shall be based on the relationship of the actual cost of grading to the estimated cost of grading reported in the needs study. The method of determining and the extent of the adjustment shall be approved by the Screening Board. Any "Final" costs used in the comparison must be received by the Needs Section by July 1 of the Needs Study year involved.

#### **Restriction of 25-Year Construction Needs Increase - Oct. 1975 (Latest Rev. June 2003)**

The CSAH construction needs change in any one county from the previous year's restricted CSAH needs to the current year's basic 25-year CSAH construction needs shall be restricted to 20 percentage points greater than or 5 percentage points less than the statewide average percent change from the previous year's restricted CSAH needs to the current year's basic 25-year CSAH construction needs. Any needs restriction determined by this Resolution shall be made to the regular account of the county involved.

### **Trunk Highway Turnback - June 1965 (Latest Rev. June 1996)**

That any Trunk Highway Turnback which reverts directly to the county and becomes part of the State Aid Highway System shall not have its construction needs considered in the money needs apportionment determination as long as the former Trunk Highway is fully eligible for 100 percent construction payment from the County Turnback Account. During this time of eligibility, financial aid for the additional maintenance obligation of the county imposed by the Turnback shall be computed on the basis of the current year's apportionment data and the existing traffic, and shall be accomplished in the following manner:

<u>Existing ADT</u>	<u>Turnback Maintenance/Lane Mile/Lane</u>
---------------------	--

0 - 999 VPD	Current lane mileage apportionment/lane
-------------	---

1,000 - 4,999 VPD	2 X current lane mileage apportionment/lane
-------------------	---

For every additional 5,000 VPD	Add current lane mileage apportionment/lane
--------------------------------	---

#### **Initial Turnback Maintenance Adjustment - Fractional Year Reimbursement:**

The initial Turnback adjustment, when for less than 12 full months, shall provide partial maintenance cost reimbursement by adding said initial adjustment to the money needs which will produce approximately 1/12 of the Turnback maintenance per lane mile in apportionment funds for each month, or part of a month, that the county had maintenance responsibility during the initial year.

#### **Turnback Maintenance Adjustment - Full Year, Initial or Subsequent:**

To provide an advance payment for the coming year's additional maintenance obligation, a needs adjustment per lane mile shall be added to the annual money needs. This needs adjustment per lane mile shall produce sufficient needs apportionment funds so that when added to the lane mileage apportionment per lane mile, the Turnback maintenance per lane mile prescribed shall be earned for each lane mile of Trunk Highway Turnback on the County State Aid Highway System. Turnback adjustments shall terminate at the end of the calendar year during which a construction contract has been awarded that fulfills the County Turnback Account payment provisions, or at the end of the calendar year during which the period of eligibility for 100 percent construction payment from the County Turnback Account expires. The needs for these roadways shall be included in the needs study for the next apportionment.

That Trunk Highway Turnback maintenance adjustments shall be made prior to the computation of the minimum apportionment county adjustment.

Those Turnbacks not fully eligible for 100 percent reimbursement for reconstruction with County Turnback Account funds are not eligible for maintenance adjustments and shall be included in the needs study in the same manner as normal County State Aid Highways.

### **MILEAGE**

#### **Mileage Limitation - Oct. 1961 (Latest Rev. Oct. 1997)**

Mileage made available by an internal revision after July 1, 1990, will be held in abeyance (banked) for future designation.

That any request, after July 1, 1990, by any county for County State Aid Highway designation, other than Trunk Highway Turnbacks, or minor increases due to construction proposed on new alignment, that results in a net increase greater than the total of the county's approved apportionment mileage for the preceding year plus any "banked" mileage shall be submitted to the Screening Board for consideration. Such request should be accompanied by supporting data and be concurred on by the District State Aid Engineer.

Any requested CSAH mileage increase must be reduced by the amount of CSAH mileage being held in abeyance from previous internal revisions (banked mileage).

All mileage requests submitted to the County State Aid Highway Screening Board will be considered as proposed, and no revisions to such mileage requests will be considered by the Screening Board without being resubmitted prior to publication of the Screening Board Report by the Office of State Aid. The Screening Board shall review such requests and make its recommendation to the Commissioner of Transportation. If approved, the needs on mileage additions shall be submitted to the Office of State Aid for inclusion in the subsequent year's study of needs.

Revisions in the County State Aid Highway System not resulting in an increase in mileage do not require Screening Board review.

Mileage made available by reason of shortening a route by construction shall not be considered as design table mileage elsewhere.

That any additions to a county's State Aid System, required by State Highway construction, shall not be approved unless all mileage made available by revocation of State Aid roads which results from the aforesaid construction has been used in reducing the requested additions.

That in the event a County State Aid Highway designation is revoked because of the proposed designation of a Trunk Highway over the County State Aid Highway alignment, the mileage revoked shall not be considered as eligible for a new County State Aid Highway designation.

That, whereas, Trunk Highway Turnback mileage is allowed in excess of the normal County State Aid Highway mileage limitations, revocation of said Turnbacks designated after July 1, 1965, shall not create eligible mileage for State Aid designation on other roads in the county, unless approved by the Screening Board.

That, whereas, former Municipal State Aid street mileage located in municipalities which fell below 5,000 population under the 1980 and 1990 Federal census, is allowed in excess of the normal County State Aid Highway mileage limitations, revocation of said former M.S.A.S.'s shall not create eligible mileage for State Aid Designation on other roads in the county, but may be considered for State Aid designation within that municipality.

That, whereas, the county engineers are sending in many requests for additional mileage to the C.S.A.H. system up to the date of the Screening Board meetings, and whereas this creates a burden on the State Aid Staff to prepare the proper data for the Screening Board, be it resolved that the requests for the spring meeting must be in the State Aid Office by April 1 of each year, and the requests for the fall meeting must be in the State Aid Office by August 1 of each year. Requests received after these dates shall carry over to the next meeting.

### **Non-existing County State Aid Highway Designations - Oct. 1990 - (Latest Rev. Oct. 1992)**

That all counties which have non-existing CSAH designations, that have drawn needs for 10 years or more, have until December 1, 1992 to either remove them from their CSAH system or to let a contract for the construction of the roadway, or incorporate the route in a transportation plan adopted by the County and approved by the District State Aid Engineer. After that date, any non-existing CSAH designation not a part of a transportation plan adopted by the County and approved by the District State Aid Engineer will have the "Needs" removed from the 25 year CSAH Needs Study after 10 years. Approved non-existing CSAH designations shall draw "Needs" up to a maximum of 25 years or until constructed.

## **TRAFFIC**

### **Traffic Projection Factors - Oct. 1961 - (Latest Rev. Oct. 1992)**

That new Traffic Projection Factors for the needs study be established for each county using a "least squares" projection of the vehicle miles from the last four traffic counts and in the case of the seven county metro area from the number of latest traffic counts which fall in a minimum of a twelve year period. This normal factor can never fall below 1.0. Also, new traffic factors will be computed whenever an approved traffic count is made. These normal factors may, however, be changed by the county engineer for any specific segments where conditions warrant, with the approval of the District State Aid Engineer.

Because of the limited number of CSAH's counted in the metro area under a "System 70" procedure used in the mid-1970's, those "System 70" count years shall not be used in the least squares traffic projection. Count years which show representative traffic figures for the majority of their CSAH system will be used until the "System 70" count years drop off the twelve year minimum period mentioned previously.

Also, due to the major mileage swap between Hennepin County and Mn/DOT which occurred in 1988, the traffic projection factor for Hennepin County shall be based on the current highway system, using the traffic volumes of that system for the entire formula period.

Also, the adjustment to traffic projection factors shall be limited to a 0.3 point decrease per traffic count interval.

### **Minimum Requirements - Oct. 1963 (Rev. June 2003)**

That the minimum requirements for 4 - 12 foot traffic lanes be established as 7,000 projected vehicles per day for rural design and 7,000 for urban design. Traffic projections of over 20,000 vehicles per day for urban design will be the minimum requirements for 6 - 12 foot lanes. The use of these multiple-lane designs in the needs study, however, must be requested by the county engineer and approved by the District State Aid Engineer.

## **ROAD NEEDS**

### **Method of Study - Oct. 1961 (Rev. Nov. 1965)**

That, except as otherwise specifically provided, the Manual of Instruction for Completion of Data Sheets shall provide the format for estimating needs on the County State Aid Highway System.

### **Soil - Oct. 1961 (Latest Rev. June 1985)**

Soil classifications established using a U.S. Soil Conservation Service Soil Map must have supporting verification using standard testing procedures; such as soil borings or other approved testing methods. A minimum of ten percent of the mileage requested to be changed must be tested at the rate of ten tests per mile. The mileage to be tested and the method to be used shall be approved by the District State Aid Engineer. Soil classifications established by using standard testing procedures, such as soil borings or other approved testing methods shall have one hundred percent of the mileage requested to be changed tested at the rate of ten tests per mile.

All soil classification determinations must be approved by the District State Aid Engineer.

### **Unit Costs - Oct. 1961 (Rev. Nov. 1965)**

That the unit costs for base, surface and shouldering quantities obtained from the 5-Year Average Construction Cost Study and approved by the Screening Board shall be used for estimating needs.

### **Design - Oct. 1961 (Latest Rev. June 1982)**

That all roads be divided into proper segments and the highest estimated ADT, consistent with adjoining segments, be used in determining the design geometrics for needs study purposes. Also, that for all roads which qualify for needs in excess of additional surfacing, the proposed needs shall be based solely on projected traffic, regardless of existing surface types or geometrics.

And, that for all roads which are considered adequate in the needs study, additional surfacing and shouldering needs shall be based on existing geometrics but not greater than the widths allowed by the State Aid Design Standards currently in force.

### **Grading - Oct. 1961 (Rev. June, 1988)**

That all grading costs shall be determined by the county engineer's estimated cost per mile.

### **Rural Design Grade Widening - June 1980**

That rural design grade widening needs be limited to the following widths and costs:

#### **Feet of Widening**

#### **Needs Cost/Mile**

4 - 8 Feet    50% of Average Complete Grading Cost/Mile

9 - 12 Feet    75% of Average Complete Grading Cost/Mile

Any segments which are less than 4 feet deficient in width shall be considered adequate. Any segments which are more than 12 feet deficient in width shall have needs for complete grading.

### **Storm Sewer - Oct. 1961 (Rev. Nov. 1965)**

That storm sewer mains may be located off the County State Aid Highway if, in so doing, it will satisfactorily accommodate the drainage problem of the County State Aid Highway.

#### **Base and Surface - June 1965 (Rev. June 2003)**

That base and surface quantities shall be determined by reference to traffic volumes, soil factors, and State Aid standards. Rigid base is not to be used as the basis for estimating needs on County State Aid Highways. Replacement mats shall be 2" bituminous surface over existing bituminous.

#### **Construction Accomplishments - June 1965 (Latest Rev. Oct. 1983)**

That any complete grading accomplishments be considered as complete grading construction of the affected roadway and grading needs shall be excluded for a period of 25 years from the project letting date or date of force account agreement. At the end of the 25-year period, needs for complete reconstruction of the roadway will be reinstated in the needs study at the initiative of the County Engineer with costs established and justified by the County Engineer and approved by the State Aid Engineer.

Needs for resurfacing shall be allowed on all county state aid highways at all times.

That any bridge construction project shall cause the needs on the affected bridge to be removed for a period of 35 years from the project letting date or date of force account agreement. At the end of the 35-year period, needs for complete reconstruction of the bridge will be reinstated in the needs study at the initiative of the County Engineer and with approval of the State Aid Engineer.

The restrictions above will apply regardless of the source of funding for the road or bridge project. Needs may be granted as an exception to this resolution upon request by the County Engineer, and justification to the satisfaction of the State Aid Engineer (e.g., a deficiency due to changing standards, projected traffic, or other verifiable causes).

#### **Special Resurfacing and Reconditioning Projects - May 1967 (Latest Rev. June 1999)**

That any county using non-local construction funds for special bituminous resurfacing, concrete resurfacing, concrete joint repair projects or reconditioning projects as defined in State Aid Rules Chapter 8820.0100 Subp. 13b shall have the non-local cost of such special resurfacing projects annually deducted from its 25-year County State Aid Highway construction needs for a period of ten (10) years.

For needs purposes, projects covered by this resolution shall be defined as those projects which have been funded at least partially with money from the CSAH Construction Account and are considered deficient (i.e. segments drawing needs for more than additional surfacing) in the CSAH Needs Study in the year after the project is let.

#### **Items Not Eligible For Apportionment Needs - Oct. 1961 (Latest Rev. June 1985)**

That Adjustment of Utilities, Miscellaneous Construction, or Maintenance Costs shall not be considered a part of the Study of Apportionment Needs of the County State Aid Highway System.

#### **Loops and Ramps - May 1966**

That any county may include the cost of loops and ramps in the needs study with the approval of the District State Aid Engineer.

## **BRIDGE NEEDS**

### **Bridge Widening - April 1964 (Latest Rev. June 1985)**

That the minimum bridge widening be 4 feet.

### **Bridge Cost Limitations - July 1976 (Rev. Oct. 1986)**

That the total needs of the Minnesota River bridge between Scott and Hennepin Counties be limited to the estimated cost of a single 2-lane structure of approved length until the contract amount is determined. Also, that the total needs of the Mississippi River bridge between Dakota and Washington Counties be limited to the estimated cost of a 2-lane structure of approved length until the contract amount is determined. In the event the allowable apportionment needs portion (determined by Minnesota Chapter 162.07, Subdivision 2) of the contract amount from normal funds (FAU, FAS, State Aid, Local) exceeds the "apportionment needs cost", the difference shall be added to the 25-year needs of the respective counties for a period of 15 years.

## **AFTER THE FACT NEEDS**

### **Bridge Deck Rehabilitation - Dec. 1982 (Latest Rev. Oct. 1992)**

That needs for bridge deck rehabilitation shall be earned for a period of 15 years after the construction has been completed and the documentation has been submitted and shall consist of only those construction costs actually incurred by the county. It shall be the County Engineer's responsibility to justify any costs incurred and to report said costs to the District State Aid Engineer. His approval must be received in the Office of State Aid by July 1 to be included in the following years apportionment determination.

### **Right of Way - June 1984 (Latest Rev. June 2000)**

That needs for Right-of-Way on County State Aid Highways shall be earned for a period of 25 years after the purchase has been made and the documentation has been submitted and shall be comprised of actual monies paid to property owners with local or State Aid funds. Only those Right of Way costs actually incurred by the County will be eligible. It shall be the County Engineer's responsibility to submit justification to the District State Aid Engineer. His approval must be received in the Office of State Aid by July 1 to be included in the following year's apportionment determination.

### **Traffic Signals, Lighting, Retaining Walls, Sidewalk, Railroad Crossing Surfacing, Wetland Mitigation and Concrete Paving - June 1984 (Latest Rev. June 2003)**

That needs for Traffic Signals, Lighting, Retaining Walls, Sidewalk, Railroad Crossing Surfacing, Wetland Mitigation and Concrete paving (as eligible for State Aid participation) on County State Aid Highways shall be earned for a period of 25 years after the construction has been completed and the documentation has been submitted and shall consist of only those construction costs actually incurred by the county. It shall be the County Engineer's responsibility to justify any costs incurred and to report said costs to the District State Aid Engineer. His approval must be received in the Office of State Aid by July 1 to be included in the following year's apportionment determination.

### **Mn/DOT Bridges - June 1997 (Latest Rev. June 2000)**

That, Needs for bridge improvements to trunk highway bridges carrying CSAH routes shall be earned for a period of 35 years after the bridge construction has been completed and the documentation has been submitted and shall be comprised of actual monies paid with local or State Aid funds. Only those bridge improvement costs actually incurred by the County will be eligible. It shall be the County Engineers responsibility to submit justification to the District State Aid Engineer. His approval must be received in the Office of State Aid by July 1 to be included in the following year's apportionment determination.

## **VARIANCES**

### **Variance Subcommittee - June 1984**

That a Variance Subcommittee be appointed to develop guidelines for use in making needs adjustments for variances granted on County State Aid Highways.

### **Guidelines for Needs Adjustments on Variances Granted - June 1985 (Latest Rev. June 1989)**

That the following guidelines be used to determine needs adjustments due to variances granted on County State Aid Highways:

- 1) There will be no needs adjustments applied in instances where variances have been granted, but because of revised rules, a variance would not be necessary at the present time.
- 2) No needs deduction shall be made for those variances which allow a width less than standard but greater than the width on which apportionment needs are presently being computed.

Examples: a) Segments whose needs are limited to the center 24 feet.

b) Segments which allow wider dimensions to accommodate diagonal parking but the needs study only relates to parallel parking (44 feet).

- 3) Those variances granted for acceptance of design speeds less than standards for grading or resurfacing projects shall have a 10 year needs adjustment applied cumulatively in a one year deduction.
  - a) The needs deduction shall be for the complete grading cost if the segment has been drawing needs for complete grading.
  - b) The needs deduction shall be for the grade widening cost if the segment has been drawing needs for grade widening.
  - c) In the event a variance is granted for resurfacing an existing roadway involving substandard width, horizontal and vertical curves, etc., but the only needs being earned are for resurfacing, and the roadway is within 5 years of probable reinstatement of full regrading needs based on the 25-year time period from original grading; the previously outlined guidelines shall be applied for needs reductions using the county's average complete grading cost per mile to determine the adjustment. If the roadway is not within 5 years of probable reinstatement of grading needs, no needs deduction shall be made.

- 4) Those variances requesting acceptance of widths less than standard for a grading and/or base and bituminous construction project shall have a needs reduction equivalent to the needs difference between the standard width and constructed width for an accumulative period of 10 years applied as a single one year deduction.
- 5) On grading and grade widening projects, the needs deduction for bridge width variances shall be the difference between the actual bridge needs and a theoretical need calculated using the width of the bridge left in place. This difference shall be computed to cover a 10 year period and will be applied cumulatively in a one year deduction.

Exception: If the county, by resolution, indicates that the structure will be constructed within 5 years, no deduction will be made.

- 6) On resurfacing projects, the needs deduction for bridge width variances shall be the difference between theoretical needs based on the width of the bridge which could be left in place and the width of the bridge actually left in place. This difference shall be computed to cover a ten year period and will be applied cumulatively in a one year deduction.

Exception: If the county, by resolution, indicates that the structure will be constructed within 5 years, no deduction will be made.

- 7) There shall be a needs reduction for variances which result in bridge construction less than standard, which is equivalent to the needs difference between what has been shown in the needs study and the structure which was actually built, for an accumulative period of 10 years applied as a single one year deduction.
- 8) No needs adjustments will be applied where variances have been granted for a recovery area or inslopes less than standard.
- 9) Those variances requesting acceptance of pavement strength less than standard for a grading and/or base and bituminous construction project shall have a needs reduction equivalent to the needs difference between the standard pavement strength and constructed pavement strength for an accumulative period of 10 years applied as a single one year deduction.

Sherburne County Functional Class & CSAH Assessment Study Pages outlining  
road mileage proposed for CSAH designation

# Sherburne County CSAH Mileage Request Summary for the June, 2004 Screening Board

Summary of the **1997 Transportation Plan** completed by SRF Consultanting Group, Inc.

Section 8 of the Plan entitled "Study Findings and Recommendations" identified the following goals:

- d) Based on the recommended future functional classification plan, Sherburne County should pursue changes to the functional classification system over the next six to 12 months.
- e) In conjunction with the recommended future functional classification plan, Sherburne County should pursue change in its system designation.

The 1997 Transportation Plan recommended **55.5 miles** of new CSAH.

These recommendations led to an update to the transportation plan with the **2002 Functional Class & CSAH Assessment Study** which was completed by Howard R. Green Company.

The 2002 Functional Class & CSAH Assessment Study recommended **87.8 miles** of new CSAH.

The current mileage request is quantified on **Table 1** and **Figure 1** totaling **42.98 miles**. All roads requested are functionally classified as minor collector or major collector.

The Screening Board's Mileage Subcommittee reviewed the mileage request on April 19, 2004

Sherburne County Current CSAH Mileage .....	215.54 miles	19.5% of Total Mileage in Co.
Proposed additional mileage request .....	+42.98 miles	Approved by DSAE.
Total CSAH Mileage if approved .....	<b>258.52 miles</b>	23.3% of Total Mileage in Co.
Statewide Average .....	22.4%	

Therefore, Sherburne County would be **0.9% above** the statewide average.

Percent of CSAH / CSAH + County Mileage.....	52.8% for Sherburne County pre-request
Percent of CSAH / CSAH + County Mileage.....	63.2% w/approved request
Statewide Average .....	67.0%

Therefore , Sherburne County would be **3.8% below** the statewide average.

Estimated apportionment impact: \$4,124/mile x 42.98 miles = **\$177,249.52 annually\***.

*\*Many of the roads requested have recently been constructed to State Aid Standards and are classified as "Adequate" and would not draw full grading needs.*

*Proposal submitted to the Mileage Subcommittee*

## Existing Functional Class

- MINOR ARTERIAL
- MAJOR COLLECTOR
- MINOR COLLECTOR
- LOCAL

## CSAH/CR Change

- County Road to CSAH
- CSAH to County Road
- City/Township Road to CSAH

## Other Roads

- U.S. Highway
- State Highway
- Local

## Roadway Type

- 1 C.S.A.H.
- 40 County Highway
- 24 State Highway
- 10 U.S. Highway

Routes Recommended  
for CSAH Designation

#### Legend

##### Future Functional Classification

- Principal Arterial
- Minor Arterial
- Major Collector
- Minor Collector
- Local Streets/Roads

*Note: Dashed roadway lines indicate proposed new alignment*

##### Roadway Type

- 10 US Highway
- 24 State Highway
- 1 County State Aid Highway
- 40 County Road

##### Other Features & Boundaries

- Railroad
- ✈ Airport
- Lakes, Rivers & Streams
- Sherburne National Wildlife Refuge
- Sand Dunes State Forest
- Township Boundary

Edward R. Green Company

- **CR 33/211<sup>th</sup> Avenue/209<sup>th</sup> Avenue/New Roadway from CR 73 to CSAH 13**
  - Estimated Length – 14.8 miles
  - Proposed Functional Classification – Minor Arterial and Major Collector
  - 1999 Average Daily Traffic (ADT) – 600 to 2,200 vpd
  - 2020 Projected ADT – 1,700 to 5,800 vpd
  - Rationale – This east-west route is proposed to be a Minor Arterial and Major Collector that would connect CSAH 13 to CR 73, which is recommended for inclusion into the state-aid system. It would connect the cities of Big Lake and Elk River. These two communities are projected to have a combined 2020 population of almost 40,000. The route would also act as a parallel reliever route to US 10. It could also become part of a connection to CSAH 22 in Anoka County that currently is a Minor Arterial and may be upgraded to Principal Arterial status.
- **CR32/CR 72/Waco Street/New Roadway from CR 33 to US 10 and CR 30**
  - Estimated Length – 5.3 miles
  - Proposed Functional Classification – Major Collector
  - 1999 Average Daily Traffic (ADT) – 200 to 1,500 vpd
  - 2020 Projected ADT – 900 to 1,800 vpd
  - Rationale – This north-south route is proposed to be a Major Collector that would connect CR 30 (Major Collector) to US 10 and 209<sup>th</sup> Avenue, which is proposed to be upgraded to CSAH status along with CR 33. It would connect Northern Elk River and the Big Lake area to the Sherburne County Government Center, Sherburne County Fairgrounds, and Elk River City Hall.
- **CSAH 8 (New Roadway) from CSAH 8 in Becker to CSAH 11**
  - Estimated Length – 5.2 miles
  - Proposed Functional Classification – Major Collector
  - 1999 Average Daily Traffic (ADT) – Not an Existing Roadway
  - 2020 Projected ADT – NA
  - Rationale – This route is proposed to be a Major Collector and would connect existing CSAH 8 in Becker to CSAH 11. It would create a greater parallel reliever route for US 10 that would connect Saint Cloud to Elk River.
- **CR 36/Jarvis Street/CR 70/New Roadway from CSAH 4 to CSAH 13**
  - Estimated Length – 6.3 miles
  - Proposed Functional Classification – Major Collector
  - 1999 Average Daily Traffic (ADT) – 1,300 to 1,900 vpd
  - 2020 Projected ADT – 5,300 to 6,300 vpd
  - Rationale – This north-south route would connect CSAH 4 with CSAH 13. It would also become part of a greater north-south route that would connect Elk River and US 10 with Princeton. This route would act as a parallel reliever route to US 169.

➤ **CR 45 from CSAH 29/US 169 to CR 49**

- Estimated Length – 10.2 miles
- Proposed Functional Classification – Minor Collector
- 1999 Average Daily Traffic (ADT) – 600 to 2,500 vpd
- 2020 Projected ADT – 1,000 to 5,600 vpd
- Rationale – This north-south route would connect US 169 and Mille Lacs County CSAH 29 to CR 49, which is proposed to become a Major Collector. The route would connect Zimmerman (and the Sand Dunes State Forest Headquarters) to Princeton and would provide a parallel reliever route to US 169.

➤ **CR 36/45/49/New Roadway from CSAH 10 to CR 36**

- Estimated Length – 8.4 miles
- Proposed Functional Classification – Major Collector
- 1999 Average Daily Traffic (ADT) – 300 to 1,900 vpd
- 2020 Projected ADT – 1,000 to 2,900 vpd
- Rationale – This east-west route would connect existing CSAH 10 to CR 36, which is recommended for inclusion into the state-aid system. This route would provide connections between the Sand Dunes State Forest and multiple roadways leading to Elk River, Zimmerman, Princeton, and beyond. It would also be part of greater route connecting the city of Becker, which is projected by city staff to exceed 15,000 people by 2020, to US 169.

➤ **CR 51/New Roadway from CSAH 4 to CSAH 10**

- Estimated Length – 4.4 miles
- Proposed Functional Classification – Major Collector
- 1999 Average Daily Traffic (ADT) – 500 vpd
- 2020 Projected ADT – NA
- Rationale – This east-west route would connect CSAH 4 to existing CSAH 10. This route would connect the city of Becker to the Sand Dunes State Forest. It would also be part of greater route connecting Becker, which is projected by city staff to exceed 15,000 people by 2020, to US 169. It would provide a secondary route to US 10 for vehicles traveling between Becker and US 169 north.

➤ **82<sup>nd</sup> Street/87<sup>th</sup> Street/New Roadway from TH 25 to CSAH 4**

- Estimated Length – 8.5 miles
- Proposed Functional Classification – Minor Arterial
- 1999 Average Daily Traffic (ADT) – NA
- 2020 Projected ADT – NA
- Rationale – This east-west route would connect TH 25 to CSAH 4. It would connect the Becker area to the Sherburne National Wildlife Refuge. It would also be a part of a larger system connecting TH 25 to US 169 and Isanti County CSAH 8.

- **CR 65 from CSAH 7 to US 10**
  - Estimated Length – 3.2 miles
  - Proposed Functional Classification – Major Collector
  - 1999 Average Daily Traffic (ADT) – 200 vpd
  - 2020 Projected ADT – 500 to 800 vpd
  - Rationale – This north-south route would connect CSAH 7 and US 10. The route would connect US 10 to the Saint Cloud Municipal Airport. It would also provide a secondary route into Saint Cloud from US 10.
- **CR 48/73/81/185<sup>th</sup> Avenue from CSAH 16 to US 10**
  - Estimated Length – 13.9 miles
  - Proposed Functional Classification – Minor and Major Collector
  - 1999 Average Daily Traffic (ADT) – 600 to 2,500 vpd
  - 2020 Projected ADT – 1,000 to 5,000 vpd
  - Rationale – This primarily north-south route would connect CSAH 16 to US 10. It would also provide a secondary connection between the Palmer Area and the City of Big Lake.
- **CR 47 or New Roadway from CR 48 to CSAH 5 and CSAH 9**
  - Estimated Length – 2.4 miles
  - Proposed Functional Classification – Minor and Major Collector
  - 1999 Average Daily Traffic (ADT) – NA
  - 2020 Projected ADT – NA
  - Rationale – This east-west route would connect CSAH 5 to CR 48, which is recommended for inclusion into the state-aid system. It would also be a part of a greater CSAH route connecting US 10 and US 169. The Sherburne National Wildlife Refuge is also located along this route.

Assuming that all of the recommended additions to the CSAH system are implemented, the following is the expected future breakdown of all roads in Sherburne County by system designation:

- US/State Highways: 6%
- County State-Aid Highways (CSAH): 25%
- County Roadways (CR): 15%
- Other/Local Roadways: 54%

It should be noted that this breakdown does not include the additional local roadways that will be constructed as development occurs.
