**Introduction**

The business subsidy law, Minnesota Statutes §116J.993 through §116J.995, provides a mechanism for taxpayers to learn about state and local funds used for business subsidies and financial assistance. It applies to state and local government agencies with the authority to provide business subsidies or financial assistance and entities created or authorized by local government with this authority. Grantors are required to submit a Minnesota Business Assistance Form (MBAF) to the Department of Employment and Economic Development (DEED) for each agreement signed since July 1, 1995 for two years after the benefit date or until goals are met, whichever is later.

Under the law, local government agencies in communities with a population of more than 2,500 and state agencies with the authority to grant subsidies must submit a report to DEED, regardless of whether they have awarded business subsidies. Local government agencies in communities with a population of 2,500 or less are exempt from filing the MBAF unless they have awarded a subsidy in the past five years. DEED is required to complete a report that summarizes submitted MBAFs every even-numbered year.

**Data Collection**

Reports can be filed to DEED by mailing a hard copy or using the new online application launched in 2004. Because reporting requirements changed in 1999, for agreements entered into by agencies during the period of July 1, 1995 through July 31, 1999, agencies use the 1999 MBAF to fulfill reporting requirements. For agreements entered between August 1, 1999 and December 31, 2003, agencies use the standard MBAF form. Prior to 2004, agencies used different MBAFs for each year. Agencies were also instructed to submit a form each year until DEED receives a form documenting that the business has achieved all of its goals. See DEED's web site to obtain copies of all the forms.

Forms summarized in this report cover business and financial assistance agreements reached between July 1, 1995 and December 31, 2003, that were submitted to DEED by June 1, 2004. These forms and any forms submitted after June 1, 2004 along with related materials are available on DEED's web site.

**Overview of Findings**

Because the statute requires that DEED to track each individual project awarded funding, grantors are required to submit information annually for each project for two years or until project achieves its goals, whichever is later. This report summarizes business subsidy agreements signed in 2003; agreements signed in previous years are summarized in Appendices (B-G). To ease review of project performance, project data has been aggregated into one section for each report year.

The activity levels and total value of business assistance have varied significantly from year to year as reported by state and local government agencies. There were 68 business assistance agreements reported by government agencies in 2004 for 2003 activity compared to 197 agreements reached in 2000. The total value of business assistance provided has also varied significantly from year to year - from a high of \$611.4 million in 2000 to \$29.4 million in 2003 (see Table 1).

### *Goals and Actual Performance*

Grantors are required to identify the type of goals that recipients receiving business assistance were expected to achieve. Grantors are also required to indicate the progress toward these goals.

Under the law, if the assistance agreement includes specific wage and job goals then those goals must be attained within two years of the benefit date. Assistance agreements can also include other goals. Of the 68 eligible business assistance agreements entered into by agencies between January 1, 2003 and December 31, 2003, 55 agreements (80.9%) established specific job and wage goals, 12 agreements (17.6%) did not, and one agreement (1.5%) was missing data.

Of the 68 business assistance agreements entered into by government agencies between January 1, 2003 and December 31, 2003, agencies reported 17 agreements where recipients had achieved all goals and obligations stipulated in the agreements. All agencies reported that recipients had more time to meet their goals and obligations. The total value of those 17 agreements was \$10.7 million out of the \$29.4 million of business assistance reported between January 1, 2003 and December 31, 2003.

<sup>3</sup> Granite Falls EDA reported that S & M Manufacturing failed to achieve goals or fulfill any obligations because the business was sold and owner defaulted on the loan. The initial value of the business assistance loan was \$220,000 the type of assistance was a loan. The outstanding value of the assistance is \$222,000. The recipient has not yet begun to repay the loan.

There were 18 business assistance agreements that were reported by agencies that established goals other than wage and job goals. Of the 18 agreements reported by agencies that established goals other than wage and job goals, nine recipients attained their goals. All agencies reported that recipients had more time to meet their goals.

*Full-time Job Creation and Wages*

Under the law, the business assistance, in addition to other goals, must include goals for the number of jobs created, which may include separate goals for the number of full-time or part-time jobs and wage goals for jobs created.

Of the 68 eligible business assistance agreements, agencies reported a full-time creation goal of 1,187 jobs. The distribution of full-time job creation and wage goals are as follows:
