INTRODUCTORY SECTION**Letter of Transmittal**

December 29, 2004

To the Members of the Minneapolis Teachers' Retirement Fund Association:

On behalf of the Board of Trustees of the Minneapolis Teachers' Retirement Fund Association (MTRFA), we are pleased to submit the Ninety-Fifth Annual Report for the fiscal year ended June 30, 2004. This Annual Report has been prepared in accordance with Minnesota Statute 356.20.

During the 2004 fiscal year, the MTRFA saw its investment portfolio start to rebound after several years of poor investment markets. Even with a net outflow of \$63 million (benefit payments in excess of contributions), the assets of the MTRFA increased from approximately \$720 million to over \$763 million.

Although the funding situation of the MTRFA continued to erode because of unfunded liabilities created by insufficient funding for decades, the Board of Trustees continued to pursue every avenue available to remedy this situation and keep the costs of operation contained.

Retirees continued to receive their full benefits plus a 2.00% increase. These retirees consist mainly of MTRFA basic members. (The basic fund was closed to new members as of June 30, 1978 and only a few hundred basic members are still active.)

Legislation

The 2004 legislative session might as well not have taken place, not only for the MTRFA but for the State as well, since nothing seemed to get accomplished.

The efforts of the MTRFA, along with the other public pension funds in the State, to have the legislature extend the date for service credit purchases was not accomplished so the ability to make these purchases expired on May 16, 2004. There will continue to be efforts made to try to reinstitute these service credit purchases.

The main legislative agenda for the MTRFA during the 2004 session was to solve the funding problems facing the Association. A proposal was made by the Fund, and passed by the Senate as an amendment to the Omnibus Pension Bill, that would have consolidated the MTRFA into the Minnesota Teachers Retirement Association (TRA) by utilizing pension obligation bonds. Low interest rates made issuing pension obligation bonds very attractive and poor investment markets for the last several years left TRA's funding level low enough to provide the MTRFA an opportunity to pay the total cost of consolidating its retired members into the TRA post fund and its active members into the active fund at a level that would have needed a fairly modest additional cash inflow on an annual basis.

Unfortunately, the MTRFA provision was taken out of the Omnibus Pension Bill before it was passed. The MTRFA was very disappointed with the results of its efforts during this session since this unique situation (lower funding levels of the TRA and the low interest rates for the pension obligation bonds) may not be available again.

MTRFA Membership

At June 30, 2004 the MTRFA had 13,465 members. The membership consisted of 5,074 active members, 4,627 separated members and 3,764 benefit recipients. Active members make up 38% of the total membership. Of the active members, 94% are members of the coordinated plan. Over 83% of the coordinated members (including reserve teachers) were hired after June 30, 1989 which means they are not eligible for the rule of 90 and their normal retirement age is 66.

Revenues

MTRFA revenues consist of employer and employee contributions and investment earnings on fund assets. Fiscal year 2004 employer and employee contributions totaled \$41,003,084 and \$15,461,562, respectively.

INTRODUCTORY SECTION

The employer contribution included required contributions based on a percentage of payroll (\$19,801,636) paid by the employers of MTRFA members and additional contributions required by Minnesota State Statute which were paid by the State of Minnesota (16,771,302), the Minneapolis Public Schools (2,250,000) and the City of Minneapolis (2,180,146).

The MTRFA had net investment income of \$106,912,346 in fiscal 2004. This income resulted from net appreciation of investment assets, interest, dividends and securities lending income netted with investment expenses.

Expenses

MTRFA expenses for the fiscal year ended June 30, 2004 totaled \$119,886,604. Benefit payments to retirees, disabled, survivors and refund payments to separated members made up 99.4% (\$119,155,712) of the total expenses. The remaining expenses consisted of administrative expenses which totaled \$730,892. The MTRFA continues to work hard on controlling investment and administrative expenses by renegotiating various contracts and through operating efficiencies.

Investments

The MTRFA investment portfolio is dominated by high-quality and diversified assets that emphasize a long-term investment approach. In 2004, working in conjunction with the Investment Advisory Committee, the MTRFA hired BlackRock to manage a core-plus fixed income portfolio.

Net assets increased from \$719,598,888 at June 30, 2003 to \$763,089,276 as of June 30, 2004. For the year ended June 30, 2004, the MTRFA time weighted rate of return was 15.48%.

The five-year investment return for the period ended June 30, 2004 was 0.41%. Since this five year return was below the MTRFA assumed rate of return (8.50%) there was no surplus investment increase payable at January 1, 2005. During the last five years (including the 2004 increase of 2.00%) retirees' annuities have been increased by 18.13%.

Funding

The accrued liability funding ratio of the MTRFA at July 1, 2004, was 50.75%, which was a decrease from 57.23% at July 1, 2003.

The MTRFA actuary report showed a contribution deficiency of 15.24% at July 1, 2004 compared to a deficiency of 9.47% at July 1, 2003. The contribution sufficiency (deficiency) indicates whether the projected revenues for the coming year are sufficient to cover the cost of benefits earned by members in the coming year and also provide sufficient dollars to cover the current year contribution required to fully fund the MTRFA by the year 2020. The contribution deficiency is expressed as a percentage of the projected annual active teacher payroll (\$249,070,000 for the 2005 fiscal year).

Acknowledgments

This report is the result of the combined efforts of the MTRFA staff under the leadership of the Board of Trustees. It is intended to provide reliable information on the operation of the Fund for the year ended June 30, 2004. On behalf of the Board of Trustees, we wish to express our gratitude to the staff, advisors, and others who help ensure the successful operation of the MTRFA.

Respectfully Submitted,

Ann M. Downing

President

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Minneapolis Teachers' Retirement Fund Association

We have audited the basic financial statements of the Minneapolis Teachers' Retirement Fund Association as of and for the years ended June 30, 2004 and 2003, as listed in the table of contents. These basic financial statements are the responsibility of the Association's management. Our responsibility is to express an opinion on these basic financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the plan net assets of the Minneapolis Teachers' Retirement Fund Association as of June 30, 2004 and 2003, and the changes in plan net assets for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The Management's Discussion and Analysis and other required supplementary information referred to in the table of contents are not required parts of the basic financial statements but are required by the Governmental Accounting Standards Board. We have applied

FINANCIAL SECTION

certain limited procedures to this information, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

FINANCIAL SECTION**MANAGEMENT'S DISCUSSION AND ANALYSIS**

**June 30, 2004
(Unaudited)**

We are pleased to provide this overview and analysis of the financial activities of the Minneapolis Teachers' Retirement Fund Association (the Association) for the fiscal year ended June 30, 2004. The Association's Board of Trustees is entrusted with the responsibility of providing retirement benefits to its members and their beneficiaries in a fully responsive and effective manner. Since the Management's Discussion and Analysis is designed to focus on current activities, resulting changes, and current known facts, please read it in conjunction with the financial statements and required supplementary information.

This discussion and analysis is intended to serve as an introduction to the Association's basic financial statements. These statements include the Statement of Plan Net Assets, the Statement of Changes in Plan Net Assets, and the Notes to the Basic Financial Statements for the fiscal year ended June 30, 2004.

The Statement of Plan Net Assets shows the financial position of plan assets and liabilities by investment and accounting categories. The excess of assets over liabilities is reported as "Plan Net Assets Held in Trust for Pension Benefits." Over time, increases or decreases in Plan Net Assets Held in Trust for Pension Benefits may serve as a useful indicator of whether the financial position of the Association is improving or deteriorating.

The Statement of Changes in Plan Net Assets itemizes additions, deductions, and net changes, showing how the Association's assets have decreased or increased during the years ended June 30, 2004, and June 30, 2003. All activities were recorded using the accrual basis of accounting. Transactions are recognized when earned or incurred regardless of the timing of cash flows.

FINANCIAL HIGHLIGHTS

- The Association's total assets exceeded its liabilities by \$763.1 million at the close of fiscal year 2004.
- The Association's net assets held in trust for pension benefits increased by \$43.5 million, or 6.0 percent, from the closing balance of net assets in fiscal year 2003.
- Benefit payments for the year totaled \$119.2 million, compared to \$114.3 million in fiscal year 2003.
- Total contributions for the year totaled \$56.5 million, compared to \$58.9 million in fiscal year 2003.

FINANCIAL SECTION**FINANCIAL ANALYSIS**

The Statement of Plan Net Assets at the close of fiscal year 2004 showed assets exceeding total liabilities by \$763.1 million. This amount represents the total plan assets held in trust for pension benefits. The entire amount is available to cover the Association's obligation to pay benefits to its members and their beneficiaries.

This amount represents an increase in net assets of \$43.5 million, or 6.0 percent, from fiscal year 2003. This increase was due to the increase in the value of the investment portfolio, net of benefit payments exceeding contributions. Benefit payments (annuity payments and refunds) exceeded contributions (member, employer, and supplemental contributions) by \$62.7 million.

Additions to Plan Assets

The overall activities of the Association's accounts, shown in the Statement of Changes in Plan Net Assets and reflected in the difference between total additions and total deductions, resulted in a net increase of \$43.5 million for fiscal year 2004. Additions and deductions are the major segments of the Statement of Changes in Plan Net Assets. Additions include employer contributions of \$19.8 million, member contributions of \$15.5 million, supplemental contributions of \$21.2 million, and net gains of the Association's investment portfolios of \$106.9 million.

Employer contributions totaled \$19.8 million in fiscal year 2004. This was a decrease of \$1.3 million, or 6.2 percent. Member contributions totaled \$15.5 million. This was a decrease of \$1.2 million, or 7.2 percent. Supplemental contributions totaled \$21.2 million, representing a \$0.1 million or 0.6 percent increase from fiscal year 2003.

Over the long term, the investment portfolio has been a major component in additions to income. In 2004, the investment portfolio showed a net gain of \$106.9 million from its investment portfolio. This net investment gain was an increase of \$101.5 million or 1,889.8 percent from fiscal year 2003. The gain was a clear improvement over 2003 and reversed three years which showed a small gain in 2003 and large net losses in 2001 and 2002.

The table below shows a list of revenues by source for fiscal years 2000 through 2004.

(Dollars in Millions)

<u>Year Ended June 30</u>	<u>Net Member Contribution</u>	<u>Employer Contribution</u>	<u>Supplemental Contribution</u>	<u>Net Investment Income/Loss</u>	<u>Total</u>
2000	\$ 16.2	\$ 21.9	\$ 20.6	\$ 128.1	\$ 186.8
2001	16.3	22.0	20.9	(126.3)	(67.1)
2002	17.7	21.7	20.4	(110.9)	(51.1)
2003	16.7	21.1	21.1	5.4	64.2
2004	15.5	19.8	21.2	106.9	163.4

FINANCIAL SECTION**Deductions**

Deductions from the Association's net assets consist of benefit payments to members and their beneficiaries and administrative expenses. For fiscal year 2004, deductions totaled \$119.9 million. Payments to members and their beneficiaries totaled \$119.2 million, and administrative expenses totaled \$0.7 million. The total deductions of \$119.9 million represented an increase of 4.1 percent from the prior year.

Investments

The Association's Board of Trustees recognizes the Association's obligation to provide present and future benefits to the members. To this end, the Board of Trustees has set its investment objective to attain investment returns that are competitive with returns achieved by the broader measures of market performance. This objective is addressed by a strategy of investing in high-quality and diversified assets that emphasize a long-term investment approach.

**MINNEAPOLIS TEACHERS' RETIREMENT FUND ASSOCIATION
MINNEAPOLIS, MINNESOTA**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
AS OF AND FOR THE YEARS ENDED JUNE 30, 2004 AND 2003**

1. Summary of Significant Accounting Policies

Reporting Entity

The Minneapolis Teachers' Retirement Fund (the Fund) is a single-employer defined benefit pension fund administered by the Minneapolis Teachers' Retirement Fund Association (the Association). The Association was originally incorporated under 1909 Minn. Laws ch. 343 and is now governed by Minn. Stat. chs. 354A and 317A and applicable sections of Minn. Stat. chs. 356 and 356A. The Fund's membership consists of eligible employees of the Minneapolis Special School District No. 1, employees formerly employed by Special School District No. 1, and the employees of the Association. The Association is governed by a seven-member Board of Trustees.

The Association's financial statements include the consolidated accounts of the Association; MRT Properties, Inc.; Minntex Foods, Inc.; and Minntex Foods, Ltd. MRT Properties, Inc., is a wholly-owned subsidiary of the Association whose principal activity consists of investing in real estate in the State of Minnesota. Minntex Foods, Ltd., is a limited partnership for which the Association is the sole limited partner and Minntex Foods, Inc., (a Texas corporation) is the general partner. Minntex Foods, Ltd., invests in real estate in the State of Texas. Minntex Foods, Inc., and the limited partnership were organized to allow the Association's real estate acquisitions to qualify as tax-exempt transactions in Texas. MRT Properties, Inc., Minntex Foods, Inc., and Minntex Foods, Ltd., were dissolved as of June 30, 2003, after its last real estate holdings were sold.

The Association is tax exempt as an organization under Section 501(c)(11) of the Internal Revenue Code and is subject to federal income tax only on net unrelated business income. The Association had no unrelated business income during the years ended June 30, 2004 and 2003.

Basis of Presentation

The accompanying financial statements are presented in accordance with Governmental Accounting Standards Board (GASB) Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, and Statement No. 34, *Basic Financial Statements--and Management's Discussion and Analysis--for State and Local Governments*, as amended.

FINANCIAL SECTION**MINNEAPOLIS TEACHERS' RETIREMENT FUND ASSOCIATION
MINNEAPOLIS, MINNESOTA****1. Summary of Significant Accounting Policies (Continued)****Basis of Accounting**

The basis of accounting is the method by which additions and deductions to plan net assets are recognized in the accounts and reported in the financial statements. The Association uses the accrual basis of accounting. Under the accrual basis of accounting, additions are recognized when they are earned, and deductions are recognized when the liability is incurred.

Contributions

Member employee contributions are recognized when withheld or when paid directly by the member employee. Required contributions from the employer are based upon a specific formula applied to teacher compensation used to fund all teachers' retirement plans in the State of Minnesota and are recognized as covered payroll is paid. Supplemental contributions from the State of Minnesota, the City of Minneapolis, and Special School District No. 1 are recognized by the Association when the related tax from levies becomes due to the City of Minneapolis and Special School District No. 1. (The State of Minnesota is required to match some of these tax levies.)

Investment Income

Interest income is recorded when earned on an accrual basis. Dividend income is recorded on the ex-dividend date. Rental income from investments in real estate is recorded when earned.

Investments

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on an exchange are valued at the last reported sales price at current exchange rates. Market values of investments in venture capital funds are determined by reference to financial information of the funds adjusted for subsequent distributions from the funds. Investments that do not have an established market are reported at estimated fair value.

Net appreciation (depreciation) in the fair value of investments includes net unrealized and realized gains and losses. Purchases and sales of securities are recorded on a trade-date basis.

FINANCIAL SECTION**MINNEAPOLIS TEACHERS' RETIREMENT FUND ASSOCIATION
MINNEAPOLIS, MINNESOTA**

1. Summary of Significant Accounting Policies**Investments (Continued)**

The Association participates in a securities lending program. In accordance with GASB Statement No. 28, *Accounting and Financial Reporting for Securities Lending Transactions*, investments lent under the program are reported as assets on the balance sheet, and collateral received on those investments is reported as an asset and a liability.

Accounting for Derivatives

The Minneapolis Teachers' Retirement Fund Association invests in various derivative instruments, including futures contracts and options, with the investment objective of exceeding the total return of the S&P 500 index by using arbitrage strategies. In addition, the Association invests in forward currency exchange contracts.

Futures Contracts

Upon entering into a futures contract, each party is required to deposit with the broker an amount, referred to as an initial margin, equal to a percentage of the purchase price indicated by the futures contract. In lieu of a cash initial margin, the Association holds certain investments in its account for the broker as collateral. Subsequent deposits, referred to as variation margins, are received or paid each day by each party as unrealized gains and losses. When a contract is closed, each party records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

Futures contracts involve, to varying degrees, credit and market risks. The Association enters into contracts only on exchanges or boards of trade where the exchange or board of trade acts as the counterparty to the transaction. Losses in value may arise from changes in the value of the underlying instruments or if there is an illiquid secondary market for the contracts.

Options

The Association's investment in options gives it the right, but not obligation, to buy (call) or sell (put) such options at a fixed price (exercise or strike price) during a specified period. The Association pays a nonrefundable fee (the premium) to the seller (the writer). Option contracts are valued daily. Unrealized gains or losses are recorded based upon the last sales price on the principal exchange on which the option is

FINANCIAL SECTION**MINNEAPOLIS TEACHERS' RETIREMENT FUND ASSOCIATION
MINNEAPOLIS, MINNESOTA****1. Summary of Significant Accounting Policies****Accounting for Derivatives****Options (Continued)**

traded. A realized gain or loss is recognized upon expiration or closing of the contract. When an option is exercised, the proceeds on sales for a written call option, the purchase cost of the security for a written put option, or the cost of the security for a purchased put or call option is adjusted by the amount of the premium received or paid.

The risk in buying an option is that the premium is paid whether or not the option is exercised. The risk in writing a call option is the lost opportunity for profit if the market price of the security increases and the option is exercised. The risk in writing a put option is that a loss may be incurred if the market price of the security decreases and the option is exercised. Risks may also arise from an illiquid secondary market or from the inability of counterparties to meet the terms of the contract.

Forward Currency Exchange Contracts

A forward currency exchange contract is an agreement between two parties to pay or receive specific amounts of a currency at a future date in exchange for another currency at an agreed-upon exchange rate. Forward currency exchange contracts are valued at an estimate of the exchange rate on the settlement date. These amounts fluctuate daily, and the fluctuation is captured in the market value as an unrealized gain/loss. On the settlement date, the difference between the contract exchange rate and the actual exchange rate on that day is recorded as a realized gain/loss. Risks may arise from an illiquid secondary market or from the inability of counterparties to meet the terms of the contract.

Benefits and Refunds

Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Furniture and Equipment

Furniture and equipment is carried at cost less accumulated depreciation. Depreciation has been provided using the straight-line method over estimated useful lives of five years.

FINANCIAL SECTION**MINNEAPOLIS TEACHERS' RETIREMENT FUND ASSOCIATION
MINNEAPOLIS, MINNESOTA****2. Description of Plans****General**

The Minneapolis Teachers' Retirement Fund Association was created to provide retirement and other specified benefits for its members. The Association maintains two defined benefit pension plans covering teachers in the Minneapolis public school system.

Effective July 1, 1978, the Association established a plan, coordinated with Social Security, in accordance with Minnesota statutes (the Coordinated Plan). Teachers who become members of the Association subsequent to June 30, 1978, automatically become members of the Coordinated Plan. Members' contributions and benefits under the Coordinated Plan have been adjusted to reflect contributions to and benefits from Social Security. Teachers who were members of the Association prior to July 1, 1978, are generally covered under the Basic Plan, which provides all retirement benefits for its members.

Membership

At June 30, 2003 and 2002, the Association's membership consisted of:

	<u>FY 2004</u>	<u>FY 2003</u>
Retirees and beneficiaries currently receiving benefits	\$	\$ 3,642
Terminated employees entitled to but not yet receiving benefits		1,123
Terminated, non-vested		3,057
Current active plan member (including members on leave)	<u>5,437</u>	<u>5,437</u>
 Total Membership	 \$	 13,259

Pension Benefits

Members who satisfy required length of service and minimum age requirements are entitled to annual pension benefits equal to a certain percentage of final average salary (as defined in each plan) multiplied by the number of years of accredited service.

Disability Benefits

Active members who become totally and permanently disabled and satisfy required length of service requirements are entitled to receive annual disability benefits as calculated under each plan.

FINANCIAL SECTION

MINNEAPOLIS TEACHERS' RETIREMENT FUND ASSOCIATION
MINNEAPOLIS, MINNESOTA2. Description of Plans (Continued)Other Benefits

Limited service pensions, deferred pensions, survivor benefits, and family benefits are available to qualifying members and their survivors.

3. Deposits and InvestmentsDeposits

Minn. Stat. § 356A.06 authorizes the Association to deposit its cash in financial institutions designated by the Board of Trustees. Minnesota statutes require that all Association deposits be covered by insurance, surety bond, or collateral.

At June 30, 2004 and 2003, bank deposits were \$629,528 and \$986,969, respectively. The carrying value of these deposits on the Association's books at June 30, 2004 and 2003, were \$550,087 and \$859,439, respectively.

Following is a summary of the June 30, 2004 and 2003, insurance and collateral as it relates to the Association's custodial credit risk for its deposits.

	Bank Balance	
	2004	2003
Covered Deposits		
Insured, or collateralized with securities held by the Association or its agent in the Association's name	\$ 423,158	\$ 986,969

Uncollateralized	-	-
Total	\$ 629,528	\$ 986,969

FINANCIAL SECTION**MINNEAPOLIS TEACHERS' RETIREMENT FUND ASSOCIATION
MINNEAPOLIS, MINNESOTA****3. Deposits and Investments (Continued)****Investments**

The Association's investments are authorized by state law and its own Articles of Incorporation. Permissible investments include, but are not limited to: government and corporate bonds, foreign and domestic common stock, real property, venture capital investments, and notes. Generally accepted accounting principles have determined three levels of custodial credit risk for investments:

- (1) insured or registered, or securities held by the Association or its agent in the Association's name;
- (2) uninsured and unregistered, with securities held by the counterparty's trust department or agent in the Association's name; and
- (3) uninsured and unregistered, with securities held by the counterparty, or by its trust department or agent, but not in the Association's name.

The following are the Association's investments at June 30, 2004 and 2003, and the level of custodial credit risk for these investments:

2004	Credit Risk Category	Carrying and Fair Value
Government and corporate bonds	1	\$ 125,937,718
Individual stock holdings	1	233,151,911
Options contracts	1	<u>1,273,505</u>

On the Statement of Plan Net Assets, cash and investments are:

	2004	2003
Cash and cash equivalents	\$ 62,328,195	\$ 50,880,969
Total investments	713,694,755	662,336,226
Invested securities lending collateral	<u>55,822,921</u>	<u>18,654,476</u>
 Total Cash and Investments	 <u>\$ 831,845,871</u>	 <u>\$ 731,871,671</u>

The Association has no concentration of five percent or more of the plan's net investments in securities of a single organization.

4. Securities Lending

The Association participates in a securities lending program. On June 30, 2004 and 2003, 13.1 and 6.2 percent, respectively, of its U.S. government securities, corporate bonds, and corporate stocks were loaned out.

FINANCIAL SECTION**MINNEAPOLIS TEACHERS' RETIREMENT FUND ASSOCIATION
MINNEAPOLIS, MINNESOTA****4. Securities Lending (Continued)**

Minn. Stat. § 356A.06, subd. 7, permits the Association to enter into securities lending transactions. These are loans of securities to broker-dealers and other entities for collateral with simultaneous agreement to return the collateral for the same securities in the future. Loans may be made only to pre-approved borrowers. The Association's securities custodian is the agent in lending the Association's domestic securities for collateral of 102 percent and international securities for cash collateral of 105 percent of the market value of loaned securities. Loaned investments are marked to market daily. If the collateral provided by the borrower falls below 100 percent of the market value of the loaned investments, the borrower is required to provide additional collateral to bring the collateral to 102 percent of the current market value. Collateral may be provided in securities or cash.

All of the collateral at June 30, 2004 and 2003, was provided in cash. The Association has no credit risk exposure to borrowers because the amounts the Association owes borrowers exceed amounts borrowers owe the Association. The contract with the trust company requires the trust company to indemnify the Association if borrowers fail to return the securities (and, if the collateral is inadequate, to replace the securities lent) or fail to pay the system for income distributions by the securities' issuers while the securities are on loan.

All securities loans may be terminated on demand by either the Association or the borrower. The average term of loans is 80 days. Cash collateral is invested in a short-term investment pool with a weighted average maturity of 40 days and 18 days for June 30, 2004 and 2003, respectively.

5. Contributions and Reserves**Funding**

Benefit and contribution provisions are established by state law and may be amended only by the State of Minnesota Legislature.

Minn. Stat. § 354A.12 sets the rate for employee and employer contributions that, expressed as a percentage of annual covered payroll, are sufficient to fully fund the pension plan by the year 2020. The requirement to reach full funding by the year 2020 is set in Minn. Stat. § 356.215, subd. 11. As part of the annual actuarial valuation, the actuary determines the sufficiency or deficiency of the statutory contribution rates toward meeting the required full funding deadline. The actuary compares the actual contribution rate to a "required" contribution rate. The required contribution rate consists of: (a) normal costs based on

FINANCIAL SECTION

MINNEAPOLIS TEACHERS' RETIREMENT FUND ASSOCIATION
MINNEAPOLIS, MINNESOTA5. Contributions and ReservesFunding (Continued)

entry age normal cost methods, (b) a supplemental contribution for amortizing any unfunded actuarial accrued liability by the required date for full funding, and (c) an allowance for administrative expenses.

Required Contributions

For the fiscal year ended June 30, 2004 and 2003, the contribution rates required by statute are as follows:

	Percentage of Members' Salaries	
	Basic Plan	Coordinated Plan
Employee contribution	8.50%	5.50%
Employer contribution	12.14	8.14

Other Contributions

Minn. Stat. § 354A.12, subd. 3b, authorizes Special School District No. 1 and the City of Minneapolis to each levy for the benefit of the Association. Actual contributions to the Association from the levy will be dependent upon the actual amount of the levy. The State of Minnesota was authorized to match, up to \$1,250,000 per year each, the total contributions of the School District and the City. This direct contribution aid will be allowed to continue until the Association reaches the same funded status as the Minnesota Teachers' Retirement Association (TRA). Direct contribution aid as of June 30 follows:

	2004	2003
State of Minnesota	\$ 2,461,192	\$ 2,472,832
Special School District No. 1	1,250,000	1,250,000
City of Minneapolis	1,211,192	1,222,743

Minn. Stat. § 423A.02, subd. 3, requires the state to annually provide certain aid to the Association until it is fully funded provided that the School District and the City make additional annual contributions. The state amortization aid contribution was \$1,005,110 and \$1,005,110 for fiscal years 2004 and 2003, respectively. In fiscal year 2004, the School District and the City made additional contributions of \$1,000,000 and \$968,954, respectively.

FINANCIAL SECTION**MINNEAPOLIS TEACHERS' RETIREMENT FUND ASSOCIATION
MINNEAPOLIS, MINNESOTA****5. Contributions and Reserves****Other Contributions (Continued)**

Minn. Stat. § 354A.12 requires the state to provide the Association with additional funding. This aid was \$13,305,000 and \$13,314,000 in fiscal years 2004 and 2003, respectively, and will continue to be paid annually until the Association reaches the same funded status as the TRA.

Statutes also require active and retired members of the Association to provide contributions for the relative difference between the administrative expenses incurred by the Association and the TRA. No additional contributions were required in fiscal year 2004 or 2003.

Reserves

The Association maintains the following funds as required by its Articles of Incorporation and state statute:

Retirement Deposit Fund

All amounts received for deposit by or on behalf of members, plus interest at a rate of six percent annually for Basic members only, are held in the Retirement Deposit Fund for providing benefits until withdrawal, death, or retirement. Funds to the members' credit in the Retirement Deposit Fund are transferred to the Annuity Reserve fund when members begin receiving annuity payments.

Annuity Reserve Fund

The Association's Articles (Article 12) require that the Association annually determine the net present value of the prospective benefit payments chargeable to the Annuity Reserve Fund. Accordingly, the Annuity Reserve Fund is presented as a component of net assets as the actuarially determined accrued liability of benefits by or on behalf of persons eligible to receive those benefits, adjusted so total of reserves does not exceed the "Net Assets Held in Trust for Pension Benefits."

FINANCIAL SECTION**MINNEAPOLIS TEACHERS' RETIREMENT FUND ASSOCIATION
MINNEAPOLIS, MINNESOTA****5. Contributions and Reserves****Reserves (Continued)****Balance and Funded Status**

	Retirement Deposit Fund	Annuity Reserve Fund
Balance - June 30, 2004	<u>\$ 187,379,252</u>	<u>\$ 553,455,284</u>
Balance - June 30, 2003	<u>\$ 214,308,519</u>	<u>\$ 488,594,252</u>

Neither reserve was fully funded in either year.

In addition, at June 30, 2004 and 2003, respectively, \$22,254,740 and \$16,696,117 of the total net assets is considered reserved as it represents the amount of state amortization aid which, pursuant to Minn. Stat. § 423A.02, subd. 3, must be separately accounted for and may not be used in determining benefit increases. This reserve is considered to be fully funded in both years.

6. Risk Management

The Association is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; injuries to employees; and natural disasters. To cover its liabilities, the Association purchases commercial insurance. There were no significant reductions in insurance coverage from coverage in the prior year. The amount of settlements did not exceed insurance coverage for each of the past three fiscal years.

MINNEAPOLIS, MINNESOTA**

**NOTES TO SCHEDULE 1 AND SCHEDULE 2
AS OF AND FOR THE YEARS ENDED JUNE 30, 2004 AND 2003
(Unaudited)**

Actuarial Methods and Assumptions

The actuarial accrued liability is determined as part of an annual actuarial valuation on July 1. Significant methods are as follows:

- The most recent actuarial valuation date is July 1, 2004.
- Actuarial cost is determined using the Entry Age Normal Actuarial Cost Method.
- The amortization method assumes a level percentage of payroll each year is used to pay the unfunded actuarial accrued liability.
- The amortization period is closed.
- The remaining amortization period at July 1, 2004, is 16 years.
- Actuarial value of assets is determined using market value, adjusted for amortization obligations receivable at the end of each fiscal year, less a percentage of the unrecognized asset return determined at the close of each of the four preceding fiscal years. Unrecognized asset return is the difference between actual net return on market value of assets and the asset return expected during that fiscal year (based on the assumed interest rate employed in the July 1 actuarial valuation of the fiscal year). Transition rules apply between July 1, 2000, and July 1, 2003, when the method is fully in effect.

FINANCIAL SECTION**MINNEAPOLIS TEACHERS' RETIREMENT FUND ASSOCIATION
MINNEAPOLIS, MINNESOTA****Actuarial Methods and Assumptions (Continued)**

Significant actuarial assumptions are as follows:

- Investment rate of return is 8.5 percent. However, the annual 2 percent increase in benefits is accounted for by using a 6.5 percent post-retirement interest rate.
- Payroll increase is five percent. Salary increase varies by age and ranges from 5 to 6.5 percent.
- Post-retirement benefit increase is two percent.
- Mortality assumptions:
- Pre-Retirement

Male: 1983 Group Annuity Mortality Table male rates set back 12 years

Female: 1983 Group Annuity Mortality Table female rates set back ten years

- Post-Retirement

Male: 1983 Group Annuity Mortality Table male rates set back four years

Female: 1983 Group Annuity Mortality Table female rates set back one year

- Post-Disability

Male: 1977 Railroad Retirement Board Mortality for Disabled Lives

Female: 1977 Railroad Retirement Board Mortality for Disabled Lives

Significant Plan Provision and Actuarial Methods and Assumption Changes**2000**

- Asset valuation method changed to employ a more effective asset smoothing technique which is market-value based and which eliminates artificial bias related to manager style (effective July 1, 2000).

2001

- The annual lump sum benefits payable to pre-1974 retirees will be paid as monthly installments (effective January 1, 2002).

FINANCIAL SECTION**MINNEAPOLIS TEACHERS' RETIREMENT FUND ASSOCIATION
MINNEAPOLIS, MINNESOTA****Significant Plan Provision and Actuarial Methods and Assumption Changes****2002 (Continued)**

- Charter schools are no longer covered by the Association. Active charter school teachers retain their rights to benefits earned in this Association through June 30, 2002, as if they were former members with a termination of employment on June 30, 2002. Effective July 1, 2002, these 174 charter school members were transferred to the Minnesota Teachers' Retirement Association.
- The Supplemental Administrative Expense Assessment otherwise payable under law will not be assessed if the administrative expenses of the Association do not exceed the July 1, 2001, administrative expense amount adjusted for inflation.
- A change in the amount of state-aid has occurred with the Association. Since the Duluth Teachers' Retirement Fund accrued liability funding ratio exceeded the Minnesota Teachers' Retirement Fund accrued liability funding ratio as of July 1, 2001, the state-aid normally provided to Duluth shall be re-allocated to the other first class city teachers' funds. This results in an increase in the amount of state-aid for this fund.

Ms. Karen U. Kilberg
Minneapolis Teachers' Retirement Fund Association
730 Second Avenue South, Suite 815
Minneapolis, Minnesota 55402

Dear Ms. Kilberg:

We are pleased to submit this Actuarial Valuation and Review as of July 1, 2004. It summarizes the actuarial data used in the valuation, establishes the funding requirements for fiscal 2004 and analyzes the preceding year's experience.

The census information on which our calculations were based was prepared by the Fund and the financial information was provided by the Fund. That assistance is gratefully acknowledged. The actuarial calculations were completed under our supervision.

This actuarial valuation has been completed in accordance with generally accepted actuarial principles and practices. To the best of our knowledge, the information supplied in this actuarial valuation is complete and accurate.

We look forward to reviewing this report at your next meeting and to answering any questions.

Sincerely,

THE SEGAL COMPANY
