## **Description of the Office of the State Auditor**

The Office of the State Auditor serves as a watchdog for Minnesota taxpayers by helping to ensure financial integrity, accountability, and cost-effectiveness in local governments throughout the state.

Through financial, compliance, and special audits, the State Auditor oversees and ensures that local government funds are used for the purposes intended by law and that local governments hold themselves to the highest standards of financial accountability.

The State Auditor performs approximately 250 financial and compliance audits per year and has oversight responsibilities for over 4,300 local units of government throughout the state. The office currently maintains five divisions:

**Audit Practice** - conducts financial and legal compliance audits for local governments;

**Government Information** - collects and analyzes financial information for cities, towns, counties, and special districts;

**Legal/Special Investigations** - provides legal analysis and counsel to the Office and responds to outside inquiries about Minnesota local government law; as well as investigates allegations of misfeasance, malfeasance, and nonfeasance in local government.

**Pension Oversight** - monitors investment, financial, and actuarial reporting for over 700 public pension funds;

**Tax Increment Financing (TIF)** - promotes compliance and accountability in local governments' use of TIF through financial and compliance audits;

The State Auditor serves on the State Executive Council, State Board of Investment, Land Exchange Board, Public Employee's Retirement Association Board, Minnesota Housing Finance Agency, and the Rural Finance Authority Board.

# 2004 Criminal Forfeitures

## Overview

Minnesota criminal statute § 609.5315, subd. 6, directs law enforcement agencies to report to the State Auditor all property seized subject to forfeiture, with the exception of DWI related forfeitures.<sup>1</sup> This report provides information on the amount of cash and property seized subject to forfeiture in 2004.<sup>2</sup> Forfeitures are considered complete in the year in which a final decision is rendered on the seized property regardless of the date the property is initially seized. At that time items are sold, retained for law enforcement purposes, destroyed, forwarded to other law enforcement agencies, or returned to the owner.

In previous years, reporting only encompassed those incidents involving formal court proceedings where the property was forfeited by court order (judicial action). The statute clearly states that all forfeiture incidents must be reported. This includes administrative forfeitures. The State Auditor clarified that a “forfeiture incident”, for reporting purposes, includes property that is seized with the intention of forfeiting it, regardless of the final disposition. For example, an agency could seize a vehicle due to a fleeing offense and prepare to forfeit the vehicle. If it is discovered that the person who fled in the vehicle was not the owner, the vehicle may be returned to the owner but would still be reported as a forfeiture incident as the original intention was to forfeit the vehicle.

In November of 2003, the State Auditor sent new forms to all law enforcement agencies reminding them of the reporting requirements and provided new forms that clarified the type of incidents they should report.

## Property Seized Subject to Forfeiture

In 2004, 186 Minnesota law enforcement agencies reported a total of 4,660 incidents of property seized subject to forfeiture to the State Auditor<sup>3</sup>. There were 2,025 more forfeiture incidents reported in 2004 than in 2003, a 77.0 percent increase.<sup>4</sup> The reported amount of total gross sales of forfeited property totaled \$3,130,577, with total administrative expenses and lien holder’s obligations totaling \$188,275. This means that total net proceeds totaled \$2,942,302. Tables 1 and 2 illustrate all property seized subject to forfeiture listed by agency and by total net proceeds.

---

<sup>1</sup> Criminal and firearm forfeitures area authorized by Minnesota Statutes §§ 609.531-609.5318. DWI offenses are done pursuant to Minnesota Statute § 169A.63 and are not reported to this office.

<sup>2</sup> In previous years, firearms were analyzed separately from other forfeiture incidents because the Minnesota Department of Planning collected other qualitative information about firearms that was not part of statutory reporting. Beginning in 2003, firearms are analyzed together with all other property and collected on the same form.

<sup>3</sup> Some forfeiture incidents submitted were incomplete to the extent that there was not enough data on the forms to include them. Agencies with incomplete information were contacted for follow up. The forfeitures for those agencies that did not respond are not included. While most forfeiture incidents are complete, there are a few missing some information, but not enough to warrant removal. An example is firearms reported by the Minneapolis police department do not have seizure dates but are otherwise complete.

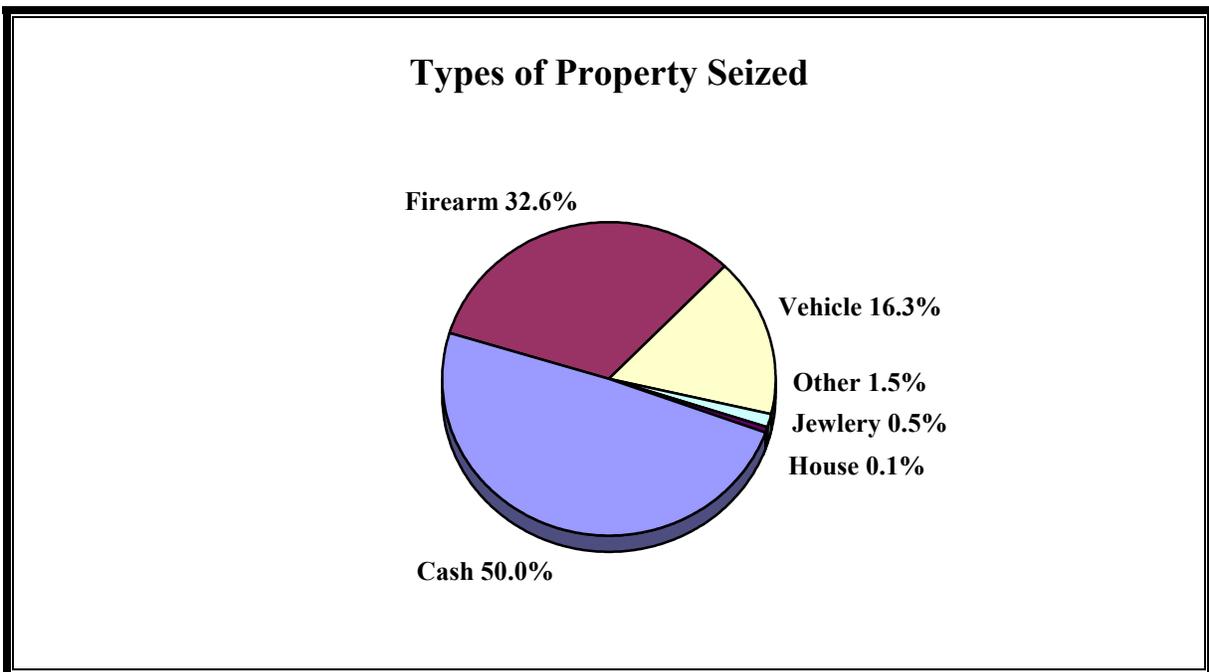

<sup>4</sup> This large percentage increase may not necessarily indicate a true increase in the number of forfeitures, but rather is most likely the result of a concerted effort by the State Auditor’s Office to inform agencies of their statutory responsibility in reporting forfeiture incidents. It is still likely that more agencies are completing forfeiture incidents and not reporting them to the State Auditor’s Office.

Net proceeds involving agencies receiving cash or selling property ranged from negative \$3,540 to \$69,012.<sup>5</sup> Net proceeds per forfeiture averaged \$951. Of the 4,660 forfeitures reported, 2,861 were cash or sold property. Table 3 illustrates net proceeds for distribution by cash and property sold, sorted by net proceeds. An analysis of the net proceeds of these incidents in which the agency received funds for cash, property, or other reasons showed the following:

- 609 (21.2 percent) forfeitures were less than \$100 (including losses).
- 1,150 (40.2 percent) forfeitures ranged from \$100 to \$499.
- 475 (17.0 percent) forfeitures ranged from \$500 to \$999.
- 525 (18.4 percent) forfeitures ranged from \$1,000 to \$4,999.
- 84 (3.0 percent) forfeitures were greater than \$5,000.

### **Type of Property**

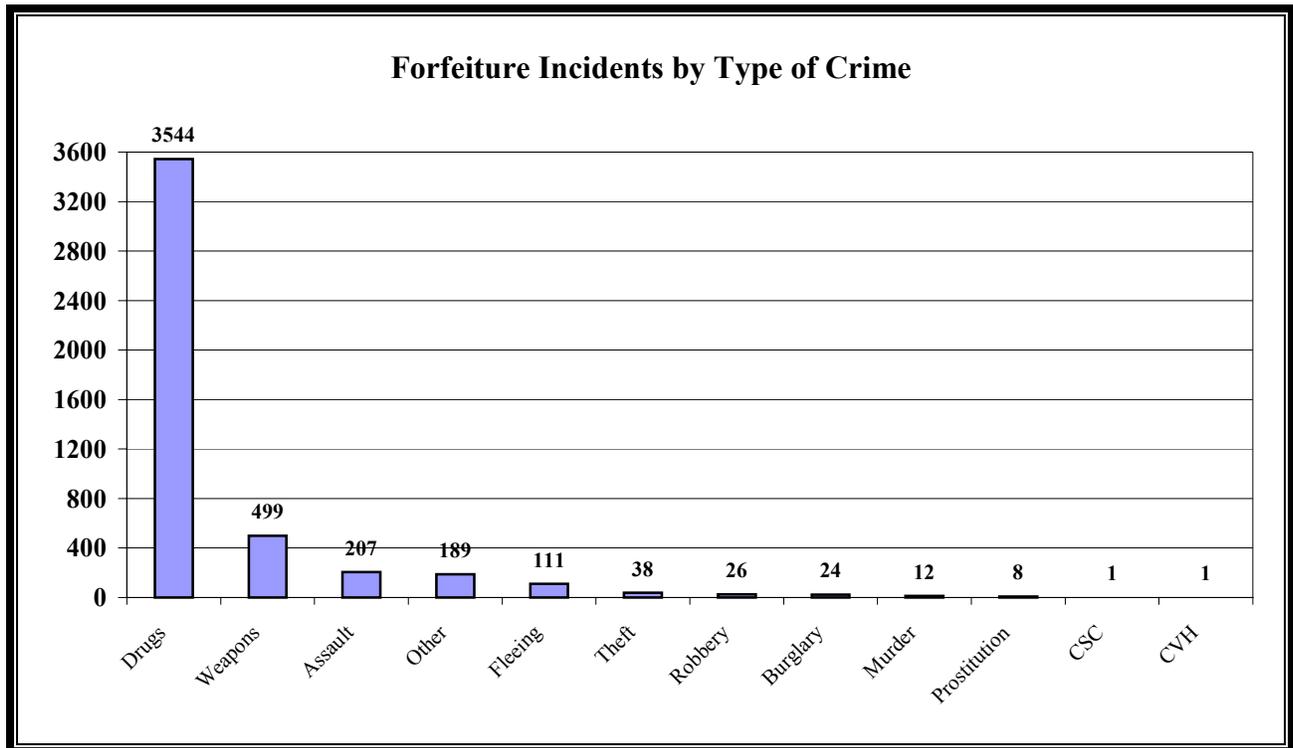

The following chart shows the type of property seized subject to forfeiture in 2004. Cash accounted for 50.0 percent of property seized, followed by firearms (32.6 percent), vehicles (16.3 percent), other property (1.5 percent), jewelry (0.5 percent), and houses (0.1 percent).

<sup>5</sup> A loss may occur where the expenses from the sale of the item are greater than the gross amount received. Agencies also received cash for property returned to an owner by agreement, where owners would pay a set amount agreed upon by both parties.

## Type of Crime

Criminal activity involving a controlled substance accounted for 3,569 (76.1 percent) of the 4,687 forfeiture incidents reported in 2004. The remaining incidents involve fleeing, murder, theft, weapons, prostitution, assault, robbery, criminal sexual conduct (CSC), criminal vehicular homicide (CVH), and other crimes.

## State Proceeds From Criminal Forfeitures

Pursuant to Minnesota Statutes, §609.5315, subd. 5, cash or proceeds from the sale of forfeited property are distributed in the following manner: 70 percent to the appropriate law enforcement agency; 20 percent to the county attorney or other prosecuting agency that handled the forfeiture; and 10 percent to the Department of Finance.<sup>6</sup> In 2004, 4,056 incidents resulted in forfeitures, 265 resulted in an agreement, 263 incidents resulted in court ordered return to the owner, and 76 resulted in other disposition. Of the 4,056 incidents that resulted in a forfeiture of property, the net amount for distribution was \$2,555,231, of which 10 percent goes to the state Victim's Compensation Fund.

Agreements that are completed by the agency and the property owner may involve the agency keeping 100 percent of the proceeds, or the relevant county or city attorney receiving 20 percent of the proceeds. Those types of agreements result in no funds being forwarded to the state. Some agencies, especially when they do not own their own impound lots, often take a loss in holding the

<sup>6</sup> The net amount for distribution is after administrative expenses and payment of liens are subtracted.

property before the forfeiture incident is completed and have no proceeds to distribute.

## **Criminal Forfeiture Activity By Law Enforcement Agency**

The 186 law enforcement agencies reporting criminal forfeiture incidents in 2004 included county sheriff's departments, city police departments, various drug task forces, the Minnesota Gang Strike Force, the Minnesota State Patrol, and the Bureau of Criminal Apprehension. Forty-six more agencies reported forfeiture incidents than in 2003<sup>7</sup>. The agencies with the most forfeiture incidents in 2004 were; Minneapolis Police Department (1,404), St. Paul Police Department (319), and the Minnesota State Patrol (291). Forfeiture incidents are an infrequent occurrence for most law enforcement agencies, with many smaller agencies forwarding forfeiture incidents to a narcotics task force.

## **Forfeited Property Destroyed, Retained, or Forwarded to Another Agency**

In addition to selling forfeited property, law enforcement agencies have the authority, to destroy property that is harmful to the public, to retain property for official use by the agency, or forward property to a federal agency (usually the Drug Enforcement Administration). The value of property used for law enforcement is not included in the net proceeds of criminal forfeitures or the funds transmitted to the Department of Finance until the property is sold. In 2004, 101 forfeiture incidents resulted in property being retained, and 944 resulted in property being destroyed. Property was forwarded to another agency 259 times, while 32 forfeitures went to resolve liens against the property. The Other category includes any other disposition of the property not previously classified and accounted for 33 forfeiture incidents. Property can also be returned to the owner, which occurred 448 times in 2004.

## **Property or Proceeds Shared With Another Agency**

Law enforcement agencies frequently work together, especially on drug-related offenses. Law enforcement agencies working on a case often share the cash proceeds from drug-related criminal forfeitures. The cash proceeds are divided among the cooperating agencies after the proceeds are distributed in accordance with Minnesota Statute §609.5315, subd. 5. This is most apparent in narcotics task forces, where proceeds are split amongst the contributing agencies.

## **Agencies Reporting No Forfeitures in 2004**

Not all law enforcement agencies in the state process property for forfeiture. For 2004, 118 agencies reported that they did not process any property under the forfeiture statutes (see Appendix 1). As previously mentioned, this does not include DWI related forfeitures. This does not mean that forfeitable offenses do not occur in these jurisdictions, but rather it is often cost-prohibitive for these agencies due to their limited size. Many agencies forward their forfeitures to

---

<sup>7</sup> This number does not necessarily indicate a true increase in the number of agencies completing forfeitures, but rather is most likely the result of a concerted effort by the State Auditor's Office to inform agencies of their statutory responsibility in reporting forfeiture incidents. It is still likely that more agencies are completing forfeiture incidents and not reporting them to the State Auditor's Office.

the task force in their jurisdiction. Appendix 2 contains a map of the narcotics task forces throughout the state.

## **Recommendations**

It is apparent that the true extent of forfeitures is still not complete in the state. This is based on conversations that occur on a regular basis with law enforcement agencies and staff at the State Auditor's office. Many agencies are still unaware of not only their reporting obligations, but also their requirement of remitting forfeiture proceeds to the state where applicable. As the intent of the forfeiture reporting legislation was to track the nature and extent of forfeitures in the state, the State Auditor has the following recommendations to ensure that this intention is met.

### **#1 -- Law enforcement agencies should ensure that there are written policies and procedures for forfeiture reporting in their offices.**

Many agencies have high turnover rates in the position that is responsible for tracking forfeitures. As a result, there is often a gap in reporting when a new staff person is given the duties. Often, it is not communicated to the new staff person the required details for the reporting forfeitures. The State Auditor recommends that law enforcement agencies develop written policies and procedures so that any staff responsible for reporting forfeitures will have a clear understanding of the requirements to ensure that the agency is complying with the law.

### **#2 -- City and county officials should ensure that law enforcement agencies under their jurisdiction are reporting their forfeitures by classifying forfeiture proceeds as a special revenue fund.**

Since the intent of the forfeiture legislation is to track the nature and extent of forfeiture activity, the State Auditor recommends that forfeiture proceeds be removed from general fund activity and placed in a special revenue fund or, at a minimum, in segregated accounts within the general fund with separate department or program numbers for all assets, liabilities, revenues and expenditures of the forfeiture activities. This way the true revenues and expenses from forfeiture related activity could be clearly tracked by the agency, the local government entity, the legislature, and the taxpayer. Local officials would also be able to remind law enforcement agencies of their legal obligation to remit funds and report their forfeiture activity. DWI related forfeiture activity should be classified in a different special revenue fund, or different set of department or program accounts within the general fund.
