## LETTER FROM THE CHAIR

Greetings:

We are pleased to present the Annual Report of the Minnesota Higher Education Facilities Authority for the year ended June 30, 2005, including the financial statements for the year, as audited by Kern, DeWenter, Viere, Ltd. This report includes information about the services provided by the Authority to nonprofit institutions of higher education in the State of Minnesota. The primary service is to provide financing for capital projects of those colleges and universities through tax-exempt debt issued by the Authority. A critical benefit associated with that service is the monetary savings that are realized by those institutions as a result of the lower interest rates available through the Authority's tax-exempt financing.

Throughout the Authority's history, this financing assistance has been provided without cost to the taxpayers of Minnesota. The credit of the State does not back the bonds, either directly or indirectly, and the operating expenses of the Authority are paid from fees associated with the various financings.

In fiscal year 2005, the Authority completed ten financings for eight institutions. The total principal amount of \$157,910,000 reflects a substantial increase in activity from the previous year's total of \$58,855,000. Taking into account regularly scheduled repayments and the refunding of certain prior Authority bonds to take advantage of lower interest rates, the total principal outstanding for Authority-issued debt grew to approximately \$652,472,850 as of the end of the fiscal year. The Authority's limit on outstanding debt remains at \$800 million.

During the fiscal year, Governor Pawlenty reappointed David D. Rowland but did not act to fill the vacancy caused by the retirement of Carol A. Blomberg. In July, the Governor appointed Carla Nelson to the Authority.

Annual bonding volume will continue to fluctuate with market conditions and institutional needs. Since 1971, the Authority has remained a constant source of financing to Minnesota's nonprofit colleges and universities. Through the combined efforts of the Authority members, staff and advisors, the Authority will continue to provide requested services in an efficient and cost-effective manner.

Respectfully Submitted,

David D. Rowland  
Chair

To the Executive Director and Members of the  
Minnesota Higher Education Facilities Authority:

We have audited the accompanying basic financial statements of the Minnesota Higher Education Facilities Authority, as of and for the year ended June 30, 2005, as listed in the Table of Contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Minnesota Higher Education Facilities Authority, as of June 30, 2005, and the changes in its financial position and its cash flows, for the year then ended in conformity with U.S. generally accepted accounting principles.

The Management's Discussion and Analysis, which follows this report letter, is not a required part of the basic financial statements but is supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

## MANAGEMENT'S DISCUSSION AND ANALYSIS: INTRODUCTION

This discussion and analysis of the financial performance of the Minnesota Higher Education Facilities Authority (the Authority) is supplementary information required by the Governmental Accounting Standards Board. It introduces the basic financial statements and provides an analytical overview of the Authority's financial activities for the year ended June 30, 2005.

The Minnesota Higher Education Facilities Authority was created by the legislature in 1971, (Sections 136A.25 through 136A.42, Minnesota Statutes) to assist Minnesota institutions of higher education in capital financing needs. The Authority consists of eight members appointed by the Governor. A representative of the Minnesota Higher Education Services Office (now known as the Office of Higher Education) and the President of the Minnesota Private College Council, who is a nonvoting member, are also members of the Authority.

The Authority is authorized to issue revenue bonds whose aggregate outstanding principal amount at any time cannot exceed \$ 800 million. The Authority has had 140 issues (including refunded and retired issues) totaling \$ 1,182,958,307 of which \$ 652,472,849 is outstanding as of June 30, 2005. Bonds issued by the Authority are payable only from the loan repayments, rentals, and other revenues and moneys pledged for their payment. The bonds of the Authority do not represent or constitute a debt or pledge of the faith or credit or moral obligation of the State of Minnesota. The operations of the Authority are financed solely from fees paid by the participating institutions. It has no taxing power. Bond issuance costs, including the fees of legal counsel, the financial advisor and the trustee, are paid by the participating institution.

Educational institutions eligible for assistance by the Authority are generally private nonprofit educational institutions authorized to provide a program of education beyond the high school level. Under current statutory authority, public community and technical colleges in the State are also eligible for assistance, but only in financing of child-care and parking facilities. In addition, pursuant to special legislation, the Authority has twice issued bonds on behalf of a public community college for housing purposes.

The Authority may issue bonds for a broad range of projects, including buildings or facilities for use as student housing, academic buildings, parking facilities, day-care centers and other structures or facilities required or useful for the instruction of students, the conducting of research, or the operation of an institution of higher education. The Authority is also authorized to issue revenue bonds for the purpose of refunding bonds of the Authority and other debt.

Beginning with fiscal year 1996, the Authority has acted as dissemination agent on behalf of those institutions that are subject to the annual reporting requirement of SEC rule 15c2-12 (most public issues after June 30, 1995). Almost all of the colleges and universities borrowing through the Authority are now subject to the reporting. The service is offered as a convenience to the institutions at no additional charge.

The annual debt financing conference was held in April 2005. The conference was again coordinated with a similar conference for business officers sponsored by the Minnesota Private College Council. The annual conference provides a chance for Authority clients, members and finance professionals to share information on higher education capital financings. This year, the conference focused on campus and facility planning, best management practices and a market outlook.

The Authority continues to review its policies and procedures in an ongoing attempt to most effectively provide financing assistance to Minnesota's nonprofit colleges and universities. It is through the concerted efforts of the borrowers, the Authority's advisors, staff and members, as well as public finance professionals, that tax exempt financing continues to be a vital tool for higher education. The Authority will work with all these groups to continue providing affordable financing to the private colleges and universities and, ultimately to their students.

## MANAGEMENT'S DISCUSSION AND ANALYSIS: **OVERVIEW OF THE FINANCIAL STATEMENTS**

The three basic statements presented within the financial report are as follows:

- ❑ **Statements of Net Assets** – This statement presents information reflecting the Authority's assets, liabilities and net assets. Net assets represent the amount of total assets less total liabilities. The statement of net assets is categorized as to current and noncurrent assets and liabilities. For purposes of the financial statements, current assets and liabilities are those assets and liabilities with immediate liquidity or which are collectible or becoming due within one year of the statement date.
- ❑ **Statement of Revenues, Expenses and Changes in Net Assets** – This statement reflects the operating revenues and expenses during the year. Operating revenue is from administrative fees charged to colleges and universities. The change in net assets for an enterprise fund is similar to net profit or loss for any other business enterprise.
- ❑ **Statement of Cash Flows** – The statement of cash flows is presented on the direct method of reporting which reflects cash flows from operating and investing activities. Cash collections and payments are reflected in this statement to arrive at the net increase or decrease in cash for the year.

The following summarizes the financial position and results of operations of the Authority for the years ended June 30, 2004 and 2005.

## FACTORS EXPECTED TO AFFECT FUTURE FINANCIAL POSITION AND OPERATION

The Authority is primarily dependent on administrative fee revenue with supplemental revenue provided by earnings from its accumulated operating reserve. The fees are based upon the actual outstanding principal amount of each series of bonds when billed. The continued growth in aggregate outstanding principal amount of bonds and a tight rein on expenses have contributed to a substantial operating reserve. Since 1997, the Authority has deliberately reduced the

administrative fee revenue in an attempt to slow or eliminate the growth of an already adequate operating reserve even if such reductions resulted in operating losses. The Authority reduced its annual administrative fees to all borrowers in fiscal year 2005 by 70% and by 80% for fiscal year 2006. Although future reductions cannot be guaranteed, the Authority is committed to providing financing services at affordable fees to colleges and universities in Minnesota.

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. REPORTING ENTITY**

The Minnesota Higher Education Facilities Authority (the Authority) is a state agency created to assist non-profit institutions of higher education in financing the construction of educational facilities. The Authority finances projects through the issuance of bonds; the principal and interest of which are paid by the lease/loan

payments collected from the higher education institutions. In fiscal year 2005, the Authority was authorized to have a maximum of \$ 800 million of revenue bonds outstanding. Bonds issued by the Authority are payable only from specified revenues and collateral and do not constitute a debt of the State of Minnesota.

**B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION**

The Authority utilizes the accrual basis of accounting and is reported using the economic resources measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The operating revenues of the Authority consist principally of annual administrative fees paid by the participating institutions. While the annual administrative fee rate for new bond issues has changed periodically, the fee rate remains constant for the life of the bonds, with the exception of fee reductions for operating reserve stabilization purposes. The annual fee structure is as follows: Bonds issued from December 1971 to September 1975 are charged .125% of the original balance of the bonds;

bonds issued from October 1975 to December 1989 are charged .2% of the original balance of the bonds; bonds issued from January 1990 to present are charged .125% of the outstanding balance of the bonds. In an effort to stabilize its unrestricted net asset balance, the Authority periodically evaluates the administrative fees charged to participating institutions. For the years ended June 30, 2002 and 2001, the Authority required participating institutions to pay 50% of the contractual administrative fees. For the years ended June 30, 2003 and 2004, the Authority determined that participating institutions would be required to pay 40% of the contractual administrative fees. For the year ended June 30, 2005, the contractual administrative fees decreased to 30%.

## **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, *continued***

### **C. ASSETS, LIABILITIES AND NET ASSETS**

#### **Cash and Investments**

Minnesota Statutes require all deposits with financial institutions be collateralized in an amount equal to 110% of deposits in excess of Federal Deposit Insurance Corporation (FDIC) insurance.

The Authority's cash and cash equivalents are considered to be cash on hand, deposits and highly liquid debt instruments purchased with original maturities of three months or less from the date of acquisition. Investments are stated at fair value.

The Authority has no formal policies in place as of June 30, 2005 to address custodial risk for deposits. The Authority also has no policies in place to address custodial risk, credit risk, concentration risk or interest rate risk for investments.

Securities in which the Authority may invest include government bonds, notes, bills, mortgages and other securities which are direct obligations or are guaranteed or insured issues of the United States,

its agencies, its instrumentalities or organizations created by an act of Congress.

Subject to applicable law, the Authority may also invest in general obligation or revenue bonds of any state or any political subdivision provided the general obligation bonds are rated AA or better for states and AAA or better for political subdivisions, and revenue bonds are rated AAA or better for both. Time deposits are allowed, provided they are fully insured by the Federal Deposit Insurance Corporation. In some cases, investment agreements with corporations rated AA by Standard & Poor's or AA by Moody's are allowed as well as repurchase agreements fully collateralized by United States Government securities. Also allowed is commercial paper maturing in 270 days or less and rated within the top two categories without gradation by either Standard & Poor's or Moody's.

#### **Capital Assets**

Capital assets, which include office furniture and equipment, are stated at historical cost and depreciated on the straight-line method over the estimated useful lives of the assets, generally three, five or ten years.

#### **Conduit Debt**

The Authority issues tax-exempt instruments (bond, notes, or other obligations), which do not constitute a debt of the Authority. These debt instruments are limited obligations of the Authority, payable solely from payments made by the related borrowing institutions and related assets held by trustees. The Authority has no general liability with respect to these obligations and has no beneficial interest in the related assets held by trustees. Acting solely in an agency

capacity, the Authority serves as a financing conduit, bringing the ultimate borrower and the ultimate lender together. The Authority has elected to exclude these obligations, and the related assets held by trustees, from the financial statements.

These obligations are itemized in Note 6. Assets held by trustees related to these obligations totaled \$ 64,398,189 as of June 30, 2005.

MINNESOTA HIGHER EDUCATION FACILITIES AUTHORITY: **NOTES TO THE FINANCIAL STATEMENTS**

### RISK MANAGEMENT

The Authority is exposed to various risk of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. In order to protect against these risks of loss, the Authority purchases commercial insurance through the State of Minnesota Department of Administration Risk Management Division.

During the year ended June 30, 2005, there were no significant reductions in insurance coverage from the prior year. Settled claims have not exceeded the Authority's commercial coverage in any of the past three years.

### STATE EMPLOYEES RETIREMENT FUND (SERF) AND STATE UNCLASSIFIED EMPLOYEES RETIREMENT PROGRAM (SUERP)

Pension fund information is provided by the Minnesota State Retirement System (MSRS), who prepares and publishes their own stand-alone comprehensive annual financial report, including financial statements and required supplementary information. Copies of the report may be obtained directly from MSRS at 60 Empire Drive, Suite 300, St. Paul, Minnesota 55103-3000.

The statutory authority for SERF is Minnesota Statutes, Chapter 352. The SERF is a cost sharing multiple employer defined benefit plan. All classified employees are covered by this plan. The annuity formula is the greater of a step rate reduction for each month of early retirement, or a level rate (the higher step rate) with an actuarial reduction for early retirement. The applicable rates are 1.2% and 1.7%.

The statutory authority for SUERP is Minnesota Statutes, Chapter 352D. Only certain unclassified employees are covered by this defined contribution program. The cash value may not be withdrawn prior to termination of the covered employee.

The funding requirements for both SERF and SUERP are 4 to 6% for both employer and employee. Actual contributions were 100% of required contributions. Required contributions for the Authority were:
