

2004 **Minnesota's** **Lake Superior Terminals**

PORT AND WATERWAYS SECTION
MINNESOTA DEPARTMENT OF TRANSPORTATION

Foreward

The Ports and Waterways Section of the Minnesota Department of Transportation has prepared this terminal directory to provide information about Minnesota's Lake Superior terminals.

This directory includes information on the 33 terminals in Duluth–Superior, Two Harbors, Silver Bay, and Taconite Harbor. Information on Superior, Wisconsin terminals is included because Duluth and Superior share one Harbor. Terminals are arranged in the directory by location in each harbor, beginning with those in Duluth proceeding to Superior and then moving north along Minnesota's North Shore to Two Harbors, Silver Bay, and Taconite Harbor. The index presents an geographical listing of the terminals. Information for each terminal includes cargo handled, pier length, depth along dock, storage, equipment, rail–truck access, and the name of a contact person.

Information included in this directory was obtained from terminal operators and the Seaway Port Authority of Duluth. The photographs of the terminals in Two Harbors, Silver Bay, and Taconite Harbor were obtained from the Canal Park Marine Museum in Duluth. The photograph of the Murphy Oil Main Terminal was obtained from Grandmaison Studios of Duluth.

The cover picture of the M/V Roger Blough was courtesy of Kenneth R. Newhams, Duluth Shipping News. For other boat pictures, contact Mr Newhams at 218-722-3119 or E-mail: knewhams@duluthshippingnews.com.
