

## Minnesota College Guide 2005–2006

A directory of degree-granting post-secondary institutions in Minnesota

# Your Guide to Choosing a College

Eighty-one schools including one that's just right for you.

Minnesota is home to some of the finest post-secondary institutions in the country. From the shores of Lake Bemidji to the rolling hills of southeastern Minnesota to the kinetic streets of downtown Minneapolis, the state's public and private colleges and universities collectively offer a broad spectrum of educational opportunities and experiences that might surprise you.

### Table of contents

Introduction	2
A-Z College and University Profiles	5
Two-year Associate Degree Programs	89
Four-year Bachelor's Degree Programs	97

# What's in the Guide?

The *Minnesota College Guide* is intended to help you find a college or program that interests you. It includes public and private colleges and universities located in Minnesota that offer two-year associate and four-year bachelor's degrees. For each degree-granting institution, there is a short profile that describes the institution. There is also a program grid to help you locate the institutions that offer the programs that interest you.

## What is Not in the Guide?

This guide does not include information about institutions offering only short-term certificates and diplomas or only graduate and professional degrees. Post-secondary institutions serving fewer than 150 students are not included. For a more complete listing of post-secondary institutions in Minnesota, visit the Office of Higher Education Web site at [www.getreadyforcollege.org](http://www.getreadyforcollege.org).

## Two Years or Four?

### Two-year colleges

Two-year colleges offer students two distinct options. All community colleges and many other two-year colleges provide students with the first two years of a four-year bachelor's degree in any major. Students choose to start their four-year degree at a two-year college for a variety of reasons including location, cost, atmosphere and uncertainty about their major. These students then transfer their credits to a four-year college or university to complete a bachelor's degree.

Two-year colleges also offer career-specific programs leading directly to employment. Technical and career programs prepare students for careers in fields such as health care, manufacturing technology, law enforcement, computer networking, accounting,

e-commerce and many others. Some technical and career programs are transferable to a four-year degree program.

If you plan to enroll in a two-year career training program and hope to have your education count toward a four-year degree later, it is important to explore your credit transfer options before enrolling. Check with the admissions office at the institution to which you hope to transfer. While many two-year college courses and programs can be applied to a four-year degree, some cannot.

### Four-year colleges and universities

Minnesota's four-year colleges and universities generally provide students with a solid foundation for a lifetime of learning, citizenship and work. Hundreds of different majors are offered, leading to careers in teaching, business, health care, engineering, the arts, social services, computer science, communications and many others. Once students earn their four-year bachelor's degrees, many continue on in professional or graduate-level programs to become doctors, lawyers, librarians, therapists, college professors, pharmacists, researchers, orthodontists and other professionals.

## Preparing for College

The best way to prepare for college is to challenge yourself while in high school by taking rigorous courses in core subjects. Even if you have completed the high school graduation requirements and the recommended courses for college admission, remember that you will increase your prospects for success if you continue to learn through your senior year. Most four-year colleges and universities require these courses, at a minimum, for admission:

- Four years of English (including composition and literature)
- Three years of mathematics (two years of algebra and one year of geometry or the equivalent)
- Three years of science (including one year each of a biological and a physical science)
- Three years of social studies (including one year of U.S. history and geography)
- Two years of a single world language
- One year of either world culture or fine arts

Some students earn college credit while in high school by participating in special programs such as Advanced Placement, International Baccalaureate, College in the Schools and Post Secondary Enrollment Options. Ask your high school counselor or teachers about opportunities for enrichment.

While many two-year colleges accept all high school graduates and GED holders, individual programs at those schools may be more selective. Today some specific career and technical programs have high expectations and long waiting lists for new students. You will save money and time if you master core subjects in high school.

## How to Use This Guide

Choosing a college is a big decision. Use this guide only as a quick reference to identify programs, colleges and universities that may interest you. Then contact the schools directly to request more complete information. Visit the college's Web site, tour the campus, talk to the admissions and financial aid representatives, visit with current students and recent graduates and ask questions.

[www.mncareers.org](http://www.mncareers.org) A Web site and published guide used for career exploration

## Buyer Beware

There are several ways to evaluate the quality and value of different programs and institutions. Most private and out-of-state institutions operating in Minnesota are required to be either registered or licensed by the Office of Higher Education. Public colleges and universities need not be licensed or registered. Some occupational training providers must be licensed by other state agencies and organizations as well. (For example, cosmetology and real estate programs must be licensed by the Department of Commerce.)

One way an institution can show that it meets quality standards is to become accredited. Accreditation means that the institution has been approved by a non-government agency that reviews institutions in a region or an occupational area. An institution should tell you whether it is accredited and identify which agency has accredited it. The federal government reviews and recognizes accrediting agencies.

To check the legitimacy of an accrediting agency, contact:

- U.S. Department of Education  
[www.ed.gov/admins/finaid/accred/](http://www.ed.gov/admins/finaid/accred/)  
(202) 219-7011
- Council for Higher Education Accreditation  
[www.chea.org/directories/](http://www.chea.org/directories/)  
(877) 955-2432

To check the legitimacy of a claim of accreditation, contact the accrediting agency directly.

### Associate Degrees

Associate degree programs are designed to either prepare individuals for an occupation, or to provide a foundation for the completion of a bachelor's degree. They require the equivalent of two years of full-time study. Some general education courses are included in associate degree programs such as English and mathematics. Programs of study lead to an Associate in Arts (A.A.), Associate in Science (A.S.), or Associate in Applied Science (A.A.S.).

### Bachelor's Degrees

All baccalaureate or bachelor's degrees require the equivalent of at least four years of full-time study. The degree includes both general courses and advanced course work in a defined area of study, typically called a major. There are hundreds of programs of study that lead to either a Bachelor of Arts (B.A.), Bachelor of Science (B.S.), or discipline-specific bachelor's degrees such as the Bachelor of Music or the Bachelor of Fine Arts.

## Academy College

1101 East 78th Street, Suite 100  
 Bloomington, MN 55435  
[www.academycollege.edu](http://www.academycollege.edu)  
 Toll free: (800) 292-9149

Academy College offers certificates, associate and bachelor's degrees in business administration, computer science, digital art and design, animation, aviation and healthcare fields. Students enjoy small classes, teachers that currently work in their industry and the extra attention that only a small college can give.

## Anoka Technical College

1355 West Highway 10  
Anoka, MN 55303  
www.ank.tec.mn.us

Anoka Technical College has educational options that provide career flexibility. All programs include hands-on, student-centered and experiential learning that stresses the application of theory rather than the memorization of concepts. Many of the programs are transferable and apply toward a bachelor's degree. Free job placement assistance, free tutoring, access to industry technologies, and financial aid for those who qualify are available. Anoka's graduation rate is one of the highest among the two-year state colleges in Minnesota with many programs boasting 100 percent job placement.

## Augsburg College

2211 Riverside Avenue  
Minneapolis, MN 55454  
www.augsburg.edu  
Toll free: (800) 788-5678

Augsburg College is a private coeducational college of the liberal arts and sciences and is affiliated with the Evangelical Lutheran Church in America. Approximately 3,100 students are enrolled in day, weekend or graduate programs. The college's mission is: "To nurture future leaders in service to the world by providing high quality educational opportunities, which are based in the liberal arts and shaped by the faith and values of the Christian church, by the context of a vital metropolitan setting, and by an intentionally diverse campus community." Augsburg's location in the heart of the Twin Cities provides access for all of its students to participate in community service and internship experiences that not only enhance their classroom learning but also prepare them for life's work in a global society.

www.carleton.edu  
Toll free: (800) 995-2275

Carleton College is a coeducational residential college noted for bright and talented students and a strong faculty committed to teaching. Providing a first-class liberal arts education is Carleton's primary goal. By standard objective measures (such as the ability of new-entering students, the percentage of students who graduate, or the numbers who earn doctoral degrees now among the nation's top scientists and educators), Carleton is regarded as one of the country's best liberal arts colleges. Students come from nearly every state and many foreign countries, as well as from a wide range of social, economic, racial and ethnic backgrounds.

## College of St. Scholastica

1200 Kenwood Avenue  
Duluth, MN 55811  
www.css.edu  
Toll free: (800) 249-6412

The College of St. Scholastica is an independent comprehensive college, founded in the Catholic intellectual tradition and shaped by its Benedictine heritage. The college offers programs in the liberal arts and sciences and professional career fields. The entire St. Scholastica community is committed to an educational process that requires students to meet rigorous academic standards, to broaden the scope of their knowledge, and to be accountable to both self and society. The small, friendly community enables each student to participate in academics, extracurricular and recreational activities. A low student-teacher ratio makes it easy to seek individualized help and encouragement. St. Scholastica graduates, well known for their academic and professional preparation, enjoy excellent placement opportunities. Last year, 99 percent of graduates either secured employment or enrolled in graduate school within six months of graduation.

## Duluth Business University Inc.

4724 Mike Colalillo Drive  
Duluth, MN 55807  
www.dbumn.edu  
Toll free: (800) 777-8406

Duluth Business University is a private college specializing in skill-specific training. Programs are conveniently scheduled with day and evening classes and are designed for new students and/or working adults. Programs emphasize hands-on training, are relevant to employers' needs and focus on areas that offer long-term employment opportunities. Small class sizes provide students with more one-on-one time with instructors. The university is open year-round, with programs starting quarterly.

2500 East 80th Street  
Inver Grove Heights, MN 55076  
www.inverhills.edu  
Toll free: (888) 555-5555

Inver Hills is a comprehensive community college offering two-year associate degrees in liberal education (Associate in Arts), career areas (Associate in Science, Associate in Applied Science), and the arts (Associate in Fine Art). Most graduates transfer to four-year schools to complete bachelor's degrees. Classes are offered days, evenings and some Saturdays. Online courses are also available. With 90 acres of rolling woodlands and wetlands and eight separate buildings that all have distinctive natural architecture and are designed to fit into the natural setting, Inver Hills is among the more scenic campuses in the Twin Cities.

1501 Highway 71  
International Falls, MN 56649  
www.rrcc.mnscu.edu  
Toll free: (800) 456-3996

Rainy River Community College is located in northern Minnesota where, just minutes from campus, you can access a wilderness campsite in a world-class national park, fish a hot spot on the lake or river, get a fast food meal, see a movie or visit a Native American museum in Canada. The setting is a small, secure community of about 6,700 people nestled between a lake, a river, a national park and Canada. The 80-acre campus has an eight-building complex connected with heated walkways enclosing a landscaped courtyard. The grounds feature a softball field, tennis courts, lighted cross-country skiing and hiking trails and three ponds edged by decks and walkways. The adjacent student housing offers furnished apartment-style accommodations for students.

St. John's University is a nationally recognized Catholic liberal arts college for men. The college shares academic programs with the College of St. Benedict, and students attend classes together on both campuses. This integrated learning experience combines a challenging academic program with extensive opportunities for international study, leadership, service learning, spiritual growth and cultural and athletic involvement. Each college retains its own campus, residence halls, athletic programs and traditions. Through unique programming, each college is committed to serving the needs of the respective gender it represents.

Saint Mary's University of Minnesota is a private, Catholic, comprehensive institution, administered by the De La Salle Christian Brothers since 1933. At the coeducational residential Winona campus, the undergraduate college curriculum combines traditional liberal arts and sciences with career preparation in a student-centered environment. Saint Mary's University School of Graduate and Professional Programs is one of the largest graduate schools in Minnesota. Programs are offered at the university's Twin Cities, Winona and Nairobi campuses and Rochester center, with courses offered in Apple Valley and at more than 50 off-campus sites in Minnesota and Wisconsin.

### Claim to fame

To become a true Tommie, one must kiss another Tommie under the arches at midnight!

# Vermilion Community College

1900 East Camp Street  
Ely, MN 55731  
www.vcc.edu  
Toll free: (800) 657-3608

Founded in 1922, Vermilion is a two-year residential college located on the edge of the Boundary Waters Canoe Area wilderness. Students enjoy a personal learning environment where relationships with faculty, staff and administration add to the fullness of life at Vermilion. The college offers unique environmental academic programs for students interested in working in outdoor careers including two new academic programs: taxidermy and professional forest harvester. Field study, hands-on learning and internships are integral to the curriculum. Faculty are experts in their fields with experience in the careers students are pursuing. They actively assist students with national job placement after graduation. Job placement rates are excellent. Student can also start a major or complete the foundation for almost any baccalaureate degree in the liberal arts and sciences program.

### Claim to fame

Most Vermilion students love the outdoors. They like to hunt, fish, hike, camp and snowshoe.

# Winona State University

P.O. Box 5838  
Winona, MN 55987  
www.winona.edu  
Toll free: (800) 342-5978

Winona State University is a four-year public university with average class sizes of 25 to 35 students. Winona State's beautiful campus is located in the historic southeast Minnesota river town of Winona (pop. 29,000). Winona State offers 80+ majors and minors, 150 clubs and organizations, NCAA Division II athletics and excellent fine and performing arts. Winona State University is currently one of the largest laptop universities in the country. All students at Winona State have a laptop computer and the entire campus is connected for both wired and wireless network connection.
