2006 BUSINESS ASSISTANCE REPORT

Introduction

The business subsidy law, Minnesota Statutes §116J.993 through §116J.995, provides a mechanism for taxpayers to learn about state and local funds used for business subsidies and financial assistance. The law applies to state and local government agencies with the authority to provide business subsidies including Job Opportunity Building Zone (JOBZ), Biozone, financial assistance. Grantors are required to submit a Minnesota Business Assistance Form (MBAF) to the Department of Employment and Economic Development (DEED) for each agreement signed since July 1, 1995 for two years after the benefit date or until goals are met, whichever is later.

Under the law, local government agencies in communities with a population of more than 2,500 and state agencies with the authority to grant subsidies must submit a report to DEED, regardless of whether they have awarded business subsidies. Local government agencies in communities with a population of 2,500 or less are exempt from filing the MBAF unless they have awarded a subsidy in the past five years. DEED is required to complete a report that summarizes submitted MBAFs every even-numbered year.

Data Collection

Reports can be filed to DEED by mailing a hard copy or using the online application launched in 2004. Because reporting requirements changed in 1999, for agreements entered into by agencies during the period of July 1, 1995 through July 31, 1999, agencies use the 1999 MBAF to fulfill reporting requirements. For agreements entered between August 1, 1999 and December 31, 2005, agencies use the standard MBAF form. Prior to 2004, agencies used different MBAFs for each year. Agencies were also instructed to submit a form each year until DEED receives a form documenting that the business has achieved all of its goals.

Forms summarized in this report cover business and financial assistance agreements reached between July 1, 1995 and December 31, 2005 that were submitted to DEED by June 1, 2006. These forms and forms submitted by government agencies after June 1 are available on DEED's web site.

Overview

Because the statute requires DEED to track each individual project awarded funding, grantors are required to submit information annually for each project for two years or until project achieves its goals, whichever is later. This report summarizes business subsidy agreements signed in 2005; agreements signed in previous years are updated and summarized in Appendices (B-I). The report is divided in three sections, non-JOBZ business assistance, Job Opportunity Building Zone (JOBZ) and Biozone business assistance. JOBZ assistance and Biozone assistance activity are summarized in Appendices (K-N). Project data is summarized for each year.

Business assistance activity has varied significantly from year to year as reported by state and local government agencies. Non-JOBZ activity peaked in 2000 with 203 agreements, falling in subsequent years to 69 agreements in 2005. However, when JOBZ and Biozone activity are included, 2004 was the most active year with 220 agreements. Activity level fell in 2005 to 172 total agreements.

Overview of Non-JOBZ Findings

The activity levels and total value of non-JOBZ business assistance have varied significantly from year to year as reported by state and local government agencies. There were 69 non-JOBZ business assistance agreements reported by government agencies in 2006 for 2005 activity, compared to 203 agreements reported for 2000 activity. The total value of business assistance provided has also varied significantly from year to year, from a total value of \$612.3 million for 2000 activity to \$17.8 million for August 1, 1999 and December 31, 1999 (see Table 1).

Goals and Actual Performance

Grantors are required to identify the types of goals that recipients receiving business assistance were expected to achieve. Grantors are also required to indicate the progress toward these goals.

Under the law, if the assistance agreement includes specific wage and job goals then those goals must be attained within two years of the benefit date. Assistance agreements can also include other goals. Of the 69 eligible business assistance agreements entered into by agencies between January 1, 2005 and December 31, 2005, 63 agreements (91.3%) established specific job and wage goals.

Of the 63 business assistance agreements that were reported by agencies that established specific wage goals, 23 agreements (36.5%) have attained specific job and wage goals; and 40 agreements (63.5%) reported that the recipient had not attained specific job and wage goals. All agencies reported that recipients had more time to meet their goals.

There were 25 business assistance agreements that were reported by agencies that established goals other than wage and job goals. Of the 25 agreements reported by agencies that established goals other than wage and job goals, nine recipients attained their goals. All agencies reported that recipients had more time to meet their goals.

Actual Performance

Of the 69 business assistance agreements entered into by government agencies between January 1, 2005 and December 31, 2005, agencies reported 23 agreements where recipients had achieved all goals and obligations stipulated in the agreements. All agencies reported that recipients had more time to meet their goals and obligations. The total value of those 23 agreements was \$4.2 million out of the \$47.9 million of business assistance reported between January 1, 2005 and December 31, 2005.

The two financial assistance agreements reported to DEED indicated, that the one recipient had achieved all goals and obligations stipulated in the agreement. The total value for the agreement was \$500,000 with \$3.5 million outstanding (See Appendix B).

Full-time Job Creation and Wages

Under the law, the business assistance, in addition to other goals, must include goals for the number of jobs created, which may include separate goals for the number of full-time or part-time jobs and wage goals for jobs created.

Of the 69 eligible business assistance agreements, agencies reported a full-time creation goal of 2,537 jobs with an average hourly benefit range between \$1.40 and \$10.50 (see Table 6). Agencies reported 552 actual full-time jobs created. All agencies reported that recipients had more time to meet their job creation and wage goals. The distribution of full-time job creation and wage goals and actual performance was as follows:

Overview of Biozone Findings

This report summarizes Biozone business assistance agreements signed in 2005. Project data have been aggregated into one section for each reporting year. There were five Biozone agreements reported by government agencies in 2006 for 2005 activity. There were also two Biozone business assistance agreements reported by agencies in 2006 for 2004 activity (see Table 15).

2005 Biozone Activity

Of the five Biozone business assistance agreements reached between January 1, 2005 and December 31, 2005, agencies reported a full-time job creation goal of 28 jobs compared to actual job creation of 33 jobs. Agencies reported that recipients had more time to meet their goals and obligations stipulated in the agreements (see Appendix M).

2004 Biozone Activity

Of the two Biozone business assistance agreements reached between January 1, 2004 and December 31, 2004, agencies reported a full-time job creation goal of 27 jobs and a job retention goal of 3.5 jobs. Agencies reported no jobs were created or retained via the MBAF. Agencies reported that recipients had more time to meet their goals and obligations stipulated in the agreements (see Appendix N).

Public Purpose for Biozone Business Assistance Agreements

Minnesota Statutes §116J.994 requires that business assistance agreements including Biozone agreements state a public purpose. Of the five Biozone business assistance agreements entered into in 2005, increasing economic diversity, creating high quality job growth, stabilizing the community and other⁵ accounted for the highest share of public purpose reported by government agencies, five agreements (100.0%) following by job retention, four agreements (80.0%).

Industry Sector for Biozone Assistance for Recipients

Of the five Biozone agreements reported by government agencies in 2006, the service sector accounted for all of the agreements.

Zone Distribution of Biozone Business Assistance Agreements

The Twin Cities region accounted for all the Biozone business assistance reported in 2006.

Biozone Goals and Actual Performance

The Biozone assistance agreements must include specific wage and job goals and those goals must be attained within two years of the benefit date. Biozone assistance agreements can also include other goals such as remaining in the zone for the duration of the program. Of the five Biozone business assistance agreements entered into by agencies between January 1, 2005 and December 31, 2005, four agreements (80.0%) established specific job and wage goals, and one agreement (20.0%) did not.

⁵ Other public purpose was linking with a research institution.

Of the four Biozone business assistance agreements that were reported by agencies that established specific wage goals; three agreements (75.0%) have attained specific job and wage goals; and one agreement (25.0%) reported that the recipient had not yet attained the goals. The agency reported that the recipient had more time to meet the goals.

There were four Biozone business assistance agreements that were reported by agencies that established other job creation and/or retention goals. Under the Biozone program, qualified businesses are required to retain jobs for the duration of the program until December 31, 2010. No recipient has attained their goals at this time. All agencies reported that recipients had more time to meet their job retention goals.

There were two Biozone assistance agreements that were reported by agencies that established goals other than wage and job goals. Of the two agreements reported by agencies, one recipient attained their goals. The agency reported that the recipient had more time to meet their goals.

Full-time Biozone Job Creation Goals, Wages and Actual Performance

Biozone business assistance agreements, in addition to other goals, agreements must include goals for the number of jobs created, which may include separate goals for the number of full-time jobs and wage goals for jobs created.

Of the five Biozone business assistance agreements, agencies reported a full-time job creation goals of 28 jobs with no hourly benefit reported. Agencies reported 33 actual full-time jobs created (see Table 16). All agencies reported that recipients had more time to meet their job creation and wage goals. The distribution of full-time job creation, wage goals and actual performance was follows:
