## EXECUTIVE SUMMARY

---

Minnesota's Ethics in Government Act (Minnesota Statutes, chapter 10A) requires lobbyists to report disbursements for lobbying purposes to the Campaign Finance and Public Disclosure Board two times each year. The Act also requires lobbyist principals to file an annual report disclosing expenditures to the nearest \$20,000. This summary is based on reports of lobbyist and principal disbursements made for calendar year 2005.

During the year, 1357 individuals were registered as lobbyists to represent 1,242 associations and individuals. Lobbyists filed 3,436 periodic reports for the twelve-month period. The lobbying disbursement reports disclosed a total of \$15,419,138 spent on lobbying activities.

Lobbyist Principals filed 1,231 annual reports for 2005. Lobbyist Principals reported making \$54,718,363 in expenditures to support lobbying activities in Minnesota. This amount includes lobbyist salaries, advertising and public relations campaigns, and all other lobbying disbursements made by the principal or lobbyist.

Lobbyists reported that 871 (70%) of the 1,242 entities represented made disbursements for lobbying purposes. The reports disclosed that 92% of lobbying disbursements were made for the purpose of influencing legislative action, 4% of disbursements were to influence administrative action, and 4% to influence the official actions of metropolitan governmental units. See pages 5 and 6 for a comparison of total lobbying disbursements by type of lobbying reported in the last three reporting years and total lobbying expenditures reported by lobbyist principals for the last four calendar years.

Lobbyists must disclose honorariums, gifts, loans, items or benefits equal in value to \$5 or more given or paid to a public or local official from the lobbyist, the lobbyist's employer, or an employee of the lobbyist. Thirty-two associations and one lobbyist reported giving items or benefit of over \$20,250 to 213 legislators, three constitutional officers, 14 constitutional office employees, 133 local and public officials, and 160 legislative employees. See page 20 for definitions.

Lobbyists are not required to disclose their salaries. Neither lobbyists nor principals are required to disclose political contributions.

Lobbyists for the Minnesota Business Partnership reported the largest total disbursements during the period and the largest total disbursements for legislative action lobbying. Lobbyists for Great River Energy reported the largest disbursements for administrative action lobbying and lobbyists for the Minnesota Partnership for Action Against Tobacco reported the largest disbursements in attempts to influence metropolitan governmental units. Complete lists of the entities that reported making the largest amount of disbursements and the largest amount of disbursements by type of lobbying begins on page 40.

The Board summary also includes a list of associations and the lobbyists that represented each association during 2005 and the total amount of disbursements made (see page 49).

## LOBBYING OVERVIEW

---

### **What is lobbying**

Lobbying is attempting to influence legislative or administrative action or the official action of a metropolitan governmental unit by communicating with or urging others to communicate with public or defined local officials. Any activity that directly supports this communication is considered a part of lobbying.

### **Who is a lobbyist**

For the purpose of this summary, “lobbyist” means:

1) An individual who is engaged for pay or other consideration of more than \$3,000 from all sources in a year for the purpose of attempting to influence legislative or administrative action or the official action of a metropolitan governmental unit by communicating with or urging others to communicate with public or local officials.

2) An individual who is not compensated more than \$3,000 but spends more than \$250 in any year (not including travel expenses and membership dues) for the purpose of attempting to influence legislative or administrative action or the official action of a metropolitan governmental unit by communicating with or urging others to communicate with public or local officials.

3) A nonelected local official or an employee of a political subdivision who spends more than 50 hours in any month attempting to influence legislative or administrative action or the official action of a metropolitan governmental unit, other than the political subdivision employing the official or employee, by communicating with or urging others to communicate with public or local officials, including time spent monitoring any of the forenamed actions and related research, analysis, and compilation and dissemination of information relating to legislative, administrative, or metropolitan governmental unit policies in Minnesota.

### **Who is not a lobbyist**

1) An individual who merely communicates with a public official to obtain information or request an interpretation of a law, rule or agency action;

2) An individual who volunteers personal time to work without pay on a lobbying campaign and does not spend more than \$250 on lobbying activities; and

3) An individual who provides administrative support to a lobbyist whose salary and expenses are reported by the lobbyist and who does not actually lobby.

**About lobbyist registration**

A lobbyist must register with the Campaign Finance and Public Disclosure Board on behalf of each association or individual that the lobbyist represents. Registration information includes the name and address of the registrant; the name of the association (including officers and directors) or individual represented; the name and address of the lobbyist principal; the lobbyist’s reporting status, and a general description of subjects on which lobbyist expects to lobby and the kind of action the lobbyist seeks to influence.

**Principal**

An individual or association that spends more than \$500 in the aggregate in any calendar year to engage, compensate, or authorize the expenditure of money by a lobbyist; or is not included in the definition above and spends at least \$50,000 in any calendar year in efforts to influence legislative action, administrative action, or the official action of metropolitan governmental units.

**Types of lobbying**

Administrative action

- The adoption, amendment or repeal of administrative rules by any official, board, commission or agency of the state executive branch. "Administrative action" does not include the application or administration of an adopted rule, except in cases of rate setting, power plant and power line citing, and granting of certificates of need under Minnesota Statutes Chapter 216B.

Legislative action

- Action with regard to any bill, resolution, amendment, nomination, appointment, report, or any other matter which may be the subject of action by either house of the legislature, committee, subcommittee, or commission of the legislature. Legislative action includes attempts to influence a gubernatorial approval or veto of any bill, or an attempt to influence the governor or any public official about development of a proposal for introduction in the legislature.

Metropolitan Governmental Unit action
