¹Much of the data in this report indicates 142 administrative units. The Metropolitan Library Service Agency (MELSA) and Traverse des Sioux Library System do not provide any public library services. However, the data includes these two regional public library systems. Their omission in many categories would lead to lower statistics that do not reflect that actual public library numbers.

STATE LIBRARY SERVICES

State Library Services, a division of the Minnesota Department of Education, is the Minnesota state library agency. The state library provides leadership and support to the Minnesota library community in planning, developing and implementing high quality library and information services statewide. The school technology program provides leadership and support to school information technology coordinators and library media specialists. This includes development of a statewide school technology plan and coordination with other state and federal programs to maximize resources for educational technology integration. State Library Services administers federal and state grants-in-aid programs for libraries and schools.

Vision Statement

State Library Services, acting as the State Library Agency for the Minnesota Department of Education, leads in developing, planning and implementing excellent library and information services statewide. The State Library Agency ensures that Minnesota libraries and their communities have access to the present and future information resources they need through partnerships with public information and cultural institutions.

Mission Statement

To provide the library services and information resources needed by Minnesotans, the Minnesota State Library Agency will:

- Administer statewide library services;
- Develop and implement standards of accountability of state and federal funding recipients;
- Develop and implement statewide and regional library services, initiatives and programs;
- Implement statewide planning and evaluation for library development for all types of libraries;
- Develop and implement standards for libraries;
- Provide leadership for career and education opportunities;
- Certify library eligibility for state and federal assistance;
- Advise the Governor, the Legislature and regional and local governing bodies on library-related issues; and
- Facilitate partnerships between libraries and other agencies.

Minnesotans deserve equitable access to library services and information resources regardless of geographic location, economic or social status, cultural background, age or level of intellectual or physical ability. The library network of trustees, friends, librarians, administrators and their communities must work together to voice their concerns and support for equitable access to their funding entities, including their congressional, legislative, county and city officials. This collaboration will help to foster a more informed citizenry, a stronger democracy and more economically viable communities statewide.

State Library Services operates the Minnesota Library for the Blind and Physically Handicapped, located in Faribault..

MINNESOTA STATE RANKINGS 57

OTHER LIBRARY STATISTICS 58

NOTES

1. Officially, as cited on 2004 Statistical Highlights, page i, Minnesota has 140 public libraries. The Metropolitan Library Service Agency (MELSA) and Traverse des Sioux Library System do not provide any public library services. However, these two regional public library systems' administrative services and staff are included in the remainder of this compilation. Their omission in many categories would lead to lower statistics that do not reflect actual public library numbers. For the purpose of consistency, they are included in the summaries and tables whether the category is applicable or not.
2. The survey and the definitions for the data elements are available online at State Library Services and School Technology website http://education.state.mn.us/MDE/Learning_Support/Library_Services/Minnesota_Libraries_and_Librarians/Library_Statistics/index.html
3. Populations served by individual libraries are estimated by the library directors. Because of overlapping estimates by directors, it is possible for the sum of populations served by the individual libraries to exceed the population of a regional public library system designated population.
4. Tables and data other than Maintenance of Effort were compiled by Bruce Pomerantz, Library Development Specialist. Data not available through this publication may be requested by phoning 651-582-8890 or contacting bruce.pomerantz@state.mn.us.
5. The Electronic category in the Materials Trends table (page 10) has been omitted. The state funding for databases and electronic books causes an exaggeration in the numbers because each system enters the items provided by the state as part of their collections. The electronic materials totals for each regional system are provided in the tables beginning on page 18.

¹2004 MOE calculations use 2002 census and property taxes of that year. All other annual report tables use 2004 population figures approximated by the State Demographer.

²The MOE population figures exclude the populations residing in five communities with a library that is unaffiliated with a regional public library system.

¹All data comes from the annual *Public Libraries in the United States*, published by National Center for Education Statistics, U.S./ Department of Education.

²The national average and state rankings, include the 50 states and the District of Columbia.

³All dollar figures are given in current dollars.

⁴NCES excludes Metropolitan Library Service Agency (MELSA) and Traverse des Sioux Regional Public Library System (TDS) from Minnesota data because they do not provide public library services. Consequently, the various measurements in this table will not equal similar calculations in this report that include these two library agencies. The state library agency includes these two agencies in its calculations because their omission in many categories would lead to lower statistics that do not reflect that actual public library numbers.

OTHER LIBRARY STATISTICS

Individual State Public Library Statistics

The Library Research Council of the Colorado State Library maintains links to the public library statistics sections of every state library agency's website.
