## About the Minnesota Office of Higher Education

The Minnesota Office of Higher Education is a cabinet-level state agency providing students with financial aid programs and information to help them gain access to post-secondary education. The agency serves as the state's clearinghouse for data, research and analysis on post-secondary enrollment, financial aid, finance and trends.

The Minnesota State Grant Program, which is administered by the agency, is a need-based tuition assistance program for Minnesota students. The agency oversees tuition reciprocity programs, a student loan program, Minnesota's 529 College Savings Program, licensing and an early awareness outreach initiative for youth. Through collaboration with systems and institutions, the agency assists in the development of the state's education technology infrastructure and shared library resources.

# Introduction

This report contains data on the number and dollar amounts of Minnesota State Grants received by Minnesota undergraduates for Fiscal Year 2005 (July 1, 2004 to June 30, 2005). This report supplements material contained in the December 2005 report, *Minnesota State Grant Program End of Year Statistics, Fiscal Year 2005*, published by the Office of Higher Education.<sup>1</sup>

Minnesota State Grants are coordinated with Federal Pell Grants, so the tables also show combined Federal Pell and State Grant awards received by State Grant recipients. In addition, since ability to pay is calculated based on income and assets, data are reported by the adjusted gross income of the student's family. The report also includes information on three categories of student characteristics that affect State Grant awards.

**Family Circumstances:** Recipients are classified by family circumstances. Each category of family has its ability to pay assessed somewhat differently:

- Dependent students (usually students less than 24 years old who were not married and not supporting their own children)
- Married independent students with dependents (usually, children)
- Unmarried independent students with dependents
- Married independent students with no other dependents
- Unmarried independent students with no dependents

**Attendance Strategy:** The report classifies recipients by the number of course credits for which they registered. The registration load chosen by the student affects the price of attendance used in calculating Minnesota State Grant awards. The report classifies Minnesota State Grant recipients by two attendance strategies:

- Recipients who registered for fewer than 30 credits during Fiscal Year 2005.
  - These students are commonly called part-time or part-year students.<sup>2</sup>
- Recipients who registered for at least 30 credits during Fiscal Year 2005.
  - These students are commonly called full-time, full-year students.

---

<sup>1</sup> The report is available at [www.ohe.state.mn.us/pdf/faresearch/state-grant-statistics-2005.pdf](http://www.ohe.state.mn.us/pdf/faresearch/state-grant-statistics-2005.pdf).

<sup>2</sup> The Minnesota State Grant Program defines full-time attendance as a registration load of 15 semester credits (or the equivalent) per term. A registration load of 30 or more credits during Fiscal Year 2005 is equal to full-time, full-year attendance in this report. The 30 or more credits can be earned in any combination across all the terms during the fiscal year.

**Post-Secondary Institution Choice:** The institution the students chose to attend determines the price of attendance used in calculating Minnesota State Grants. Institutions are grouped into five sectors:

- Minnesota State Colleges and Universities - two-year colleges
- Minnesota State Colleges and Universities - four-year universities
- University of Minnesota
- Minnesota private for-profit institutions<sup>3</sup>
- Minnesota private non-profit institutions

**Data Used in Reporting Total Minnesota State Grants Received and Number of Recipients:** The data in this report are based on the State Grant research data file as of November 2005. The totals may differ slightly from other documents published by the Minnesota Office of Higher Education, which could be based on data captured on different dates.

---

<sup>3</sup> Institutions operated by government entities other than Minnesota State Colleges and Universities and the University of Minnesota are included in this category for reporting purposes.
