### **About the Minnesota Office of Higher Education**

The Minnesota Office of Higher Education is a cabinet-level state agency providing students with financial aid programs and information to help them gain access to post-secondary education. The agency serves as the state's clearinghouse for data, research and analysis on post-secondary enrollment, financial aid, finance and trends.

The Minnesota State Grant Program, which is administered by the agency, is a need-based tuition assistance program for Minnesota students. The agency oversees tuition reciprocity programs, a student loan program, Minnesota's 529 College Savings Program, licensing and an early awareness outreach initiative for youth. Through collaboration with systems and institutions, the agency assists in the development of the state's education technology infrastructure and shared library resources.

## Introduction

This report contains data on the number and dollar amounts of Minnesota State Grants received by Minnesota undergraduates for Fiscal Year 2005 (July 1, 2004 to June 30, 2005). Minnesota State Grants are coordinated with Federal Pell Grants, so the tables and graphs also show combined Federal Pell and State Grant awards. In addition, since ability to pay is calculated based on income and assets, data are reported by the adjusted gross income of the student's family. The report also includes information on three categories of student characteristics that affect State Grant awards.

**Family Circumstances**: Recipients are classified by family circumstances. Each category of family has its ability to pay assessed differently:

- Dependent students (usually students less than 24 years old who were not married and not supporting their own children)
- Married independent students with children<sup>1</sup>
- Unmarried independent students with children
- Married independent students without children
- Single independent students (without children)

**Attendance Strategy**: The report classifies recipients by the number of course credits for which they registered. The registration load chosen by the student affects the price of attendance used in calculating Minnesota State Grant awards. The report classifies State Grant recipients by two attendance strategies:

- Recipients who registered for fewer than 30 credits during Fiscal Year 2004.
  - o These students are commonly called part-time or part-year students.<sup>2</sup>
- Recipients who registered for at least 30 credits during Fiscal Year 2004.
  - o These students are commonly called full-time, full-year students.

**Post-Secondary Institution Choice**: The institution the students chose to attend determines the price of attendance used in calculating Minnesota State Grants. Institutions are grouped into five sectors:

- Minnesota State Colleges and Universities two-year colleges
- Minnesota State Colleges and Universities four-year universities
- University of Minnesota
- Minnesota private for-profit institutions
- Minnesota private non-profit institutions

# **Data Used in Reporting Total Minnesota State Grants Received and Number of Recipients**

The data in this report are based on the State Grant research data file as of November 2005. The totals may differ slightly from other documents published by the Minnesota Office of Higher Education, which could be based on data captured on different dates.

<sup>&</sup>lt;sup>1</sup> The use of the word "children" in this report includes children and others who are financially dependent on the student.

<sup>&</sup>lt;sup>2</sup> The Minnesota State Grant Program defines full-time attendance as a registration load of 15 semester credits (or the equivalent) per term. A registration load of at least 30 credits during Fiscal Year 2005 is equal to full-time, full-year attendance in this report.
