

**HOW DATA FOR THIS REPORT WAS DEVELOPED:**

**Amount of grants:**

Governor Pawlenty's Executive Order 05-03 Regarding Grant Management requires an annual report to the Governor to summarize and report the results of this initiative. This report is to include the "number, total amount, and nature of grants managed by the state".

Data was pulled from MAPS information by Department of Finance staff to capture all grant payments made during the period of July 1, 2004 through June 30, 2005 using the MAPS Acceptance date. The MAPS Acceptance date is the date that MAPS considers the document completely processed. This information is a twelve month "slice" of the grants business and not only includes payments made from state fiscal year 2005 funding but also payments made from certified encumbrances from previous fiscal years. The 5 group object codes in MAPS are categorized as Local Assistance and all 5 group payments were included in the data. Interagency grants (5F) may increase the total amount of grant dollars when funds are granted between agencies and then granted out by the receiving agency.

**Grant payment object codes:**

5A Aid to Counties	5E Aid to Special Districts
5B Aid to Cities & Towns	5F Interagency Grants
5C Aid to School Districts	5G Aid to Non-government Organizations
5D Aid to Higher Education Institutions	5H Aid to Individuals

Grant payments were made by fifty-four entities. Seventeen entities are granting agencies that were requested to provide information for this report because their granting activities represent the focus of this Drive To Excellence Project. Thirty-seven agencies whose data is not included in the analysis are comprised of entities that may have other legal authority such as the University, Historical Society and small boards and commissions that are not within the focus of the Drive To Excellence Project. Appendix 1.

In addition, eight of the seventeen granting agencies also had 5 group object code payments for programs that would not be within the scope of the Drive To Excellence Grants Project. Examples include school district aid payments, entitlement programs, reimbursement programs, subsidies and loans. The seventeen granting agencies were asked to identify programs not within the scope of the Drive To Excellence Grants Project and these programs were excluded from further analysis. See Appendix 2.

The excluded programs were subtracted from an agency's 5 group object code payments so that the value of the grants included in the Drive To Excellence Grants Project could be determined. Appendix 3.

The object code data was used to identify the breakdown of assistance by recipient category (object code). Appendix 4.

## 37 AGENCIES NOT INCLUDED IN DRIVE TO EXCELLENCE GRANTS PROJECT ANALYSIS

AGENCY #	AGENCY NAME	Expenditures
B20	Explore Minnesota Tourism	\$440,977.97
B34	Housing Finance Agency	\$2,790,868.81
B43	Iron Range Resources & Rehabilitation	\$11,246,190.71
B82	Public Utilities Commission	\$1,175,718.94
