March 20, 2007

The Honorable Tim Pawlenty, Governor

Members of the Legislature

I am submitting the State of Minnesota Financial and Compliance Report on Federally Assisted Programs for the year ended June 30, 2006. This report meets the requirements of the Federal Single Audit Act of 1984 as amended in 1996 and the U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*.

This single audit report includes all federal assistance received by the state agencies determined to be a part of the primary government and its blended component units. The criteria used to define the state's reporting entity are those established by the Governmental Accounting Standards Board. All federal program activity of this reporting entity was included under the state's single audit. Programs administered by discretely presented component units are reported in separate single audit reports issued by the individual entities.

For purposes of the single audit in Minnesota, the audited entity is the state rather than each state agency. With this approach, the single audit can be combined with the annual financial audit. This is an efficient approach for Minnesota because state agencies are all subject to the same centralized controls (the accounting, personnel/payroll and procurement systems).

Management Responsibilities

The Department of Finance is responsible for the accuracy, fairness and completeness of the financial schedules, including all disclosures, presented in this report. The department is also responsible for the Minnesota Accounting and Procurement System (MAPS), which was used in preparing this report. I believe these schedules provide a fair representation of financial activity for federal programs for the year ended June 30, 2006.

The Department of Finance is responsible for designing and applying the statewide internal controls. State agencies are responsible for additional internal controls used for the administration of federal programs. These controls provide reasonable assurance that the state's assets are protected against loss, either intentional or unintentional; that resource use is consistent with laws, regulations and policies; that transactions are executed in accordance with management's authorization; and that the accounting records from which the financial schedules were prepared are reliable. The concept of reasonable assurance recognizes that the cost of control should not exceed the benefit derived.

In addition, state agencies have specific responsibilities for federal programs. State agencies are required to manage and maintain adequate accounting records for their federal programs. They are required by the relevant federal departments and agencies to prepare periodic financial reports. State agencies are also responsible for assuring that organizations to which they subgrant federal funds have the required audits and promptly resolve federal program deficiencies reported as a result of those audits. The U.S. Department of Health and Human Services - Office of Inspector General - National External Audit Resources serves as the lead cognizant agency representing all federal agencies awarding federal assistance to the state of Minnesota.

Federal Financial Assistance to the State of Minnesota

In fiscal year 2006, the state of Minnesota received approximately \$7.2 billion in federal assistance for its many programs.

Audits

The Minnesota Office of the Legislative Auditor performs an annual statewide audit primarily for the purpose of expressing an audit opinion on the financial statements included in the state's Comprehensive Annual Financial Report prepared by the Department of Finance. Another purpose of the statewide audit is to provide information to the Governor, Legislature and heads of state agencies concerning financial and accounting issues involving the state and its agencies. The scope of the annual statewide audit also includes the federal requirements of the Single Audit Act and OMB Circular A-133.

The Office of the Legislative Auditor has audited the federal programs financial schedules and their report on them is included as a part of this report. Also included are Office of the Legislative Auditor reports on internal control and compliance.

All subrecipients receiving federal assistance from Minnesota state agencies have been required to have audits in accordance with OMB Circular A-133. State agencies are responsible for assuring that their subrecipients have audits and resolve audit recommendations resulting from these audits. Results of these audits are summarized in the Report on Audits of Subrecipients issued by the Office of the State Auditor.

Report

This Single Audit Report supplements the state's Comprehensive Annual Financial Report for the year ended June 30, 2006, and includes financial information for federal programs compiled by the Department of Finance.

The Office of the Legislative Auditor is responsible for preparing the auditor's reports on internal control and compliance; summary of auditor's results; and the schedules of audit findings for statewide financial statements and federal programs. The Department of Finance is responsible for preparing the schedules of expenditures for federal programs, and the status of prior federal program audit findings schedule.

The financial schedules presented are meant to provide a consistent basis for reporting on the expenditures of federal assistance received by state agencies. They are not meant to replace recipient financial reporting currently required for each individual program of federal assistance.

In addition to this financial and compliance report, the single audit for the state of Minnesota includes the departmental audit reports issued by the Office of the Legislative Auditor and the Report on Audits of Subrecipients issued by the Office of the State Auditor.

Acknowledgments

Although the Department of Finance accepts final responsibility for this report, we would like to acknowledge the significant assistance provided by staff in the many state agencies receiving federal assistance. The financial schedules agencies prepared for each of their federal programs were used to compile these financial schedules.

Sincerely,

A handwritten signature in black ink that reads "Tom J. Hanson". The signature is written in a cursive, flowing style with a long horizontal line extending from the end.

Tom J. Hanson
Commissioner

OFFICE OF THE LEGISLATIVE AUDITOR

STATE OF MINNESOTA • James Nobles, Legislative Auditor

Report on Compliance with Requirements Applicable to Each Major Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133

Members of the Minnesota State Legislature

The Honorable Tim Pawlenty, Governor

Mr. Tom Hanson, Commissioner of Finance

We have audited the compliance of the State of Minnesota with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement*, that are applicable to each of its major federal programs for the year ended June 30, 2006. The State of Minnesota's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the State of Minnesota's management. Our responsibility is to express an opinion on the State of Minnesota's compliance based on our audit.

The State of Minnesota's basic financial statements include the operations of its discretely presented component units, which received approximately \$1.1 billion in federal awards, which are not included in the State of Minnesota's schedule of expenditures of federal awards for the year ended June 30, 2006. Our audit, described below, did not include the operations of the State of Minnesota's discretely presented component units because the component units engaged other auditors to perform an audit in accordance with OMB Circular A-133.

Compliance

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether the state complied with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about the State of Minnesota's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the State of Minnesota's compliance with those requirements.

In our opinion, the State of Minnesota complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2006. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in Section III of the accompanying Schedule of Findings and Questioned Costs.

Internal Control Over Compliance

The management of the State of Minnesota is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the State of Minnesota's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the State of Minnesota's ability to administer a major federal program in accordance with applicable requirements of laws, regulations, contracts, and grants. Reportable conditions are identified and described in Section III of the accompanying Schedule of Findings and Questioned Costs.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that none of the reportable conditions described above is a material weakness.

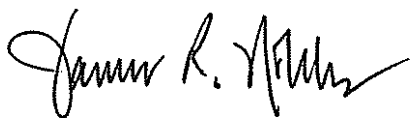

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Minnesota, as of and for the year ended June 30, 2006, and have issued our report thereon dated December 14, 2006. We did not audit the financial statements of the Minnesota State Colleges and Universities (MnSCU), which is

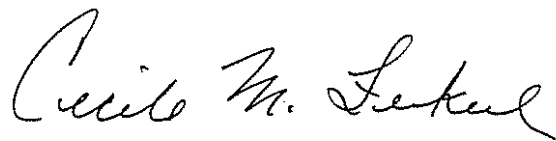

both a major proprietary fund and 73 percent, 67 percent, and 34 percent, respectively, of the total assets, net assets, and operating revenues of the primary government's business-type activities. We also did not audit the financial statements of the Housing Finance Agency, Metropolitan Council, University of Minnesota, Minnesota Partnership for Action Against Tobacco, National Sports Center Foundation, Office of Higher Education, Public Facilities Authority, and Workers' Compensation Assigned Risk Plan, which cumulatively represent 99 percent, 99 percent, and 99 percent, respectively, of the total assets, net assets, and operating revenues of the total discretely presented component units. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the aforementioned major proprietary fund, business-type activities, and discretely presented component units, is based solely on the reports of other auditors.

Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the State of Minnesota's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for the purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the management of the State of Minnesota, the governor of the State of Minnesota, the Minnesota Legislature, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

James R. Nobles
Legislative Auditor

State of Minnesota
Financial and Compliance Report on Federally Assisted Programs
Fiscal Year Ended June 30, 2006

Notes to the Schedules of Expenditures of Federal Awards

These notes provide disclosures relevant to the schedules of expenditures of federal awards presented on the preceding pages.

Note 1 – Summary of Significant Accounting Policies

Basis of Presentation

The reporting policies for fiscal year 2006 conform to the Federal Single Audit Act of 1984 as amended in 1996 and the U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. The required Schedule of Expenditures of Federal Awards is presented for the state's fiscal year ended June 30, 2006. The Schedule of Expenditures of Federal Awards is divided into two sections: major and nonmajor federal programs.

The auditor uses a risk-based approach as defined in the OMB Circular A-133 to determine which federal programs are major programs. Programs expending \$20.6 million or more in federal awards are Type A programs and are considered major programs. Type B programs are programs expending less than \$20.6 million in federal awards. If the auditor assesses Type A programs as low-risk, the auditor may replace Type A programs by higher risk Type B programs as major programs.

For purposes of financial reporting, the Catalog of Federal Domestic Assistance (CFDA) number from the June 2006 basic edition catalog identifies federal programs. The schedules are presented in numeric CFDA order within each federal agency.

Financial Reporting Entity of the State of Minnesota

The financial reporting entity for the state of Minnesota includes all state departments, agencies, institutions, and organizational units, which are controlled by or dependent upon the Minnesota Legislature and/or its constitutional officers. The state, a primary government, has considered for inclusion all potential component units for which it may be financially accountable or other organizations for which the nature and significance of their relationship with the state are such that exclusion would cause the report to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be used in determining financial accountability. These criteria include the state's ability to appoint a voting majority of an organization's governing body and either the ability of the state to impose its will on that organization, or the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the state.

The federal programs included in the schedule of expenditures of federal awards in this report are part of the state's primary government. The federal programs administered by discretely presented component units are not presented in this report, but in single audit reports issued by these entities.

Minnesota State Colleges and Universities (MnSCU), which is part of the primary government, consists of the following education facilities:

Alexandria Technical College	Minnesota State University, Moorhead
Anoka-Ramsey Community College	Minnesota West Community & Tech. College
Anoka Technical College	Normandale Community College
Bemidji State University	North Hennepin Community College
Central Lakes College	Northland Community & Technical College
Century College	Northwest Technical College
Dakota County Technical College	Pine Technical College
Fond du Lac Tribal & Community College	Rainy River Community College
Hennepin Technical College	Ridgewater College
Hibbing Community College	Riverland Community College
Inver Hills Community College	Rochester Community & Technical College
Itasca Community College	St. Cloud State University
Lake Superior College	St. Cloud Technical College
Mesabi Range Community & Technical College	Saint Paul College
Metropolitan State University	South Central College
Minneapolis Community & Technical College	Southwest Minnesota State University
Minnesota State College – Southeast Technical	Vermilion Community College
Minnesota State Community & Technical College	Winona State University
Minnesota State University, Mankato	

Basis of Accounting

The state's Comprehensive Annual Financial Report and these supplemental schedules are presented in accordance with generally accepted accounting principles, following the accrual or modified accrual basis of accounting, as appropriate for the fund structure. Most federal activity is accounted for in the Federal Fund (a major governmental fund), but several other nonmajor special revenue funds (Trunk Highway, Municipal State-Aid Street, County State-Aid Highway, Natural Resources, Game and Fish, and Miscellaneous Special Revenue funds), major proprietary funds (State Colleges and Universities and Unemployment Insurance funds), and the General Fund (a major governmental fund), include federal activity. The Minnesota Accounting and Procurement System is the primary source of financial information. Some state agencies maintain additional manual records or separate cost accounting systems to provide additional information.

Classification of Statement Information

Expenditures are presented for all federal programs and include amounts subgranted to other state or local governmental units, nongovernmental organizations, or individuals. Subgrant expenditures are recognized by the primary state agency subgranting the funds, not by the state agency receiving a subgrant from the primary state agency, except for portions of Temporary Aid for Needy Families (TANF) (CFDA 93.558). TANF subgrants, which are transferred into the Social Services Block Grant (CFDA 93.667) and the Child Care Development Block Grant (CFDA 93.575), are included in those programs and not TANF.

Note 2 – Perkins and Nursing Student Loan Programs

The amount reported on the financial statements for the Perkins Loans (CFDA 84.038) for MnSCU is the administrative and collection costs. Below is a summary of the loan activity for the Perkins Loans and Nursing Loans (NSL) program (CFDA 93.364) during fiscal year 2006.

	<u>Perkins</u>	<u>NSL</u>
Loans Receivable, Beginning	\$ 36,314,494	\$ 53,157
Loan Repayments	(7,175,470)	(14,941)
Loan Cancellations	(1,026,177)	-
New Loans Issued	<u>7,096,002</u>	<u>-</u>
Loans Receivable, Ending	<u>\$ 35,208,849</u>	<u>\$ 38,216</u>

Note 3 – Federal Family Education Loan Programs

MnSCU financial records provide information on various federal higher education student loan programs for which the state does not manage the federal funds.

Under the Federal Family Education Loans (FFEL) program (CFDA 84.032), financial institutions make loans to students attending institutions of higher education. The Federal Direct Student Loan (FDSL) program (CFDA 84.268) operates similarly to the FFEL program except that the federal government, rather than a private lender, provides the loan principal to the student. MnSCU distributed the following FFEL and FDSL loans to students attending state colleges or universities during fiscal year 2006.

Federal Family Education Loans Issued:	
Federal Subsidized Stafford	\$ 152,124,952
Federal Unsubsidized Stafford	136,205,868
Federal Parent Loans for Undergraduate Students	<u>8,701,932</u>
Total Federal Family Education Loans	<u>\$ 297,032,752</u>
Federal Direct Student Loans	<u>\$ 48,765,697</u>

Note 4 – Rebates

The Supplemental Food Program for Women, Infants, and Children (WIC) Program (CFDA 10.557), administered through the Minnesota Department of Health, receives cash rebates from infant formula manufacturers. The rebates are used to offset program costs and are reported as expenditure reductions. During fiscal year 2006, the state of Minnesota received a total rebate of \$26,916,859 on sales of formula to participants in the WIC program.

The Medical Assistance Program (CFDA 93.778), administered through the Minnesota Department of Human Services, receives cash rebates from drug labelers. The rebates are used to offset program costs and are reported as expenditure reductions. During fiscal year 2006, the state of Minnesota received a total rebate of \$139,493,328 on sales of drugs to participants in the Medical Assistance Program.

Note 5 – Unemployment Insurance Program

For fiscal year 2006, expenditures for the Unemployment Insurance Program (CFDA 17.225) include federal and state unemployment insurance grant expenditures as well as federal administrative expenditures. The federal unemployment insurance grant expenditures were \$17,473,213 and the state unemployment insurance grant expenditures were \$673,239,421. The federal administrative expenditures were \$40,265,108. The Unemployment Insurance Program serves workers who are unemployed through no fault of their own and are seeking reemployment. To receive benefits, claimants must be able to work, available for work, and actively seeking work. For audits and reporting under OMB Circular A-133, the U.S. Department of Labor requires that both federal and state unemployment insurance funds be considered federal awards for determining Type A (major) federal programs and for reporting expenditures of federal awards.

Note 6 – Water Quality Capitalization Grants

Water quality capitalization grants (CFDA 66.458) are used by states to create revolving funds to provide financing for construction of wastewater treatment facilities and implementation of other water quality management activities. Loans are administered from these funds by the departments of Employment and Economic Development, Agriculture, and Pollution Control. The state's loan programs are Tourism Septic Loan (TLP), Small Cities (SCDP), Agriculture Best Management Practices (AG BMP) and Clean Water Partnership (CWP). A summary of the loan activity for fiscal year 2006 is shown below.

	<u>TLP</u>	<u>SCDP</u>	<u>AG BMP</u>	<u>CWP</u>
Loans Receivable, Beginning	\$ 228,793	\$ 459,872	\$ 42,915,368	\$ 14,162,710
Loan Repayments	(43,875)	(112,998)	(2,755,191)	(1,598,663)
New Loans Issued	10,000	-	3,502,271	2,810,475
Interest Capitalized	<u>-</u>	<u>-</u>	<u>-</u>	<u>30,206</u>
Loans Receivable, Ending	<u>\$ 194,918</u>	<u>\$ 346,874</u>	<u>\$ 43,662,448</u>	<u>\$ 15,404,728</u>

Note 7 – CFDA Numbers

For certain programs, the correct CFDA number could not be determined. At times, state agencies receive federal grant funds from a federal agency with a program number instead of a CFDA number. When possible, a CFDA number was obtained for the program. Certain CFDA numbers presented are no longer operating programs. These programs resulted in funds being carried over from previous years. In other cases, the Department of Finance assigned a number. State agencies using the number assigned by the Department of Finance in fiscal year 2006 were asked to work with the federal granting agency to obtain a valid CFDA number for the grant program.

This page intentionally left blank.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Fiscal Year Ended June 30, 2006

The Schedule of Findings and Questioned Costs consists of three sections:

- Section I: Summary of Auditor's Results
- Section II: Findings related to the financial statements that are required to be reported in accordance with *Government Auditing Standards*
- Section III: Findings and Questioned Costs for federal awards.

In Section I, the results of our audit are highlighted concerning the State of Minnesota's financial statements, federal awards, and the identification of major programs audited.

In Section II, we refer to our Statewide Report on Internal Control Over Financial Reporting, which we issued as a separate document on March 22, 2007 (Legislative Audit Report 07-04). It contains nine findings related to the State of Minnesota's financial statements that are required to be reported in accordance with *Government Auditing Standards*. The report is addressed to the Minnesota Department of Finance and includes the corrective action plans of the Minnesota Department of Finance and other state agencies involved.

In Section III, a summary schedule of federal program audit findings is presented in CFDA number order within each federal awarding agency. This schedule summarizes our report findings by CFDA number, program name, and state agency. The summary identifies our unique report number (RPT NO) for that agency in the XX-XX format (i.e. 06-26) of our separately issued reports and the finding number (FIND NO) as presented in our report. The summary also identifies whether the finding is an internal control (INT CONT) issue or a compliance issue (COMP REQ). Internal control issues are identified as either reportable conditions (R) or material weaknesses (M). Compliance issues are identified according to Circular A-133 compliance supplement requirements A through N. The summary also provides a short statement of the problem and its financial impact (FIN IMPACT) as procedural (P), nonquantifiable (NQ), or show a dollar amount (questioned cost). Following the summary schedule are the federal program audit findings as they appear in our separately issued reports and the Minnesota State Colleges and Universities (MnSCU) report of Kern-DeWenter-Viere (KDV). The state agencies' corrective action plans follow each finding.

**Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Fiscal Year Ended June 30, 2006**

Section I:

Summary of Auditor's Results

Financial Statements

Type of independent auditor's report issued: Unqualified

Internal control over financial reporting:

Material weakness(es) identified? Yes X No

Significant deficiencies identified
not considered to be material weaknesses? X Yes No

Noncompliance material to financial statements noted? Yes X No

Federal Awards

Internal control over major programs:

Material weakness(es) identified? Yes X No

Reportable condition(s) identified
not considered to be material weaknesses? X Yes No

Type of auditor's report issued on compliance
for major programs: Unqualified

Any audit findings disclosed that are required to be reported
in accordance with Circular A-133, Section .510(a)? X Yes No

Identification of Major Programs (See listing on next page)

Dollar threshold used to distinguish between
Type A and Type B programs: \$20.6 Million

Auditee qualified as low-risk auditee? Yes X No

Financial Statement Audit Findings

We have separately issued our Statewide Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*, as of March 22, 2007 (Legislative Audit Report 07-04).

The report contains nine findings related to the audit of the State of Minnesota's financial statements that are required to be reported in accordance with *Government Auditing Standards*.

Our Statewide Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* is considered to be part of the Single Audit and will be provided separately or as a part of this reporting package.

This report may also be accessed electronically at www.auditor.leg.state.mn.us.

Notes:

This summary schedule highlights federal program audit findings presented in the Minnesota Office of the Legislative Auditor's reports to the affected state agencies.

The "RPT NO" are the report numbers in the format 0X-XX, which refer to individual agency reports; and the "FIND NO" are finding numbers within those reports.

The finding identifies whether the internal control (INT CONT) is a Material (M) weakness or a Reportable (R) condition and or compliance (COMP REQ) requirement addressed (A-N).

These reports may be accessed at www.auditor.leg.state.mn.us.

Kern-DeWenter-Viere (KDV) audited the Minnesota State Colleges and Universities financial statements and their federal financial aid cluster.

The "RPT NO" for KDV federal program findings are reported in KDV-06; and the "FIND NO" are finding numbers within KDV's report.

State Agency: Minnesota Department of Education

Federal Agencies: U. S. Department of Agriculture
U. S. Department of Education

CFDA Numbers/Program Names:

10.558	Child & Adult Care Food Program
84.010	Title 1 Grants to Local Educational Agencies
84.027	Special Education-State Grants

Questioned Costs: None – Procedural Finding Only

Finding 06-26-3 *Severance payments incorrectly charged to program.*

3. Education charged some employee severance payments for sick leave and vacation directly to federal programs, which is prohibited by federal regulations.

Education erroneously charged nearly \$30,000 in employee severance payments for 13 federally-funded employees as direct costs to several federal programs. Federal regulations¹ require severance costs be charged as indirect costs in order to more effectively control federal expenses. Severance payments consist of payments to employees for sick and annual leave upon termination of employment. Table 3-2 indicates the federal programs that were incorrectly charged employee severance costs.

Table 3-2
Federal Programs Incorrectly Charged Severance Costs

CFDA#	CFDA Name	Total
93.938	School Health Programs	\$4,400
10.558	Child and Adult Care Food Program	\$3,120

Source: Department accounting records.

¹ OMB Circular A-87, Attachment B Paragraph 8 (g) (2).

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Education initially sets up the payroll funding so that all federally-funded employees' biweekly payroll costs are charged directly to federal programs. Upon termination of employment, the department revises the funding source to the indirect cost accounts for severance payments made to employees who worked on federal programs. However, for the costs in question, the department failed to verify that it changed the funding source to the indirect cost accounts.

As a result of the audit finding, the department transferred the questioned costs to the indirect cost accounts, and we verified the accuracy of the transfers.

Recommendation

- *Education should verify that future severance payments for federally funded employees are correctly charged to the indirect cost plan.*

Minnesota Department of Education Response:

The audit of the Department of Education 06-26 issued September 28, 2006 Chapter 3 Finding 3 identified internal control weaknesses relating to payroll transactions for severance pay for federally funded employees.

Al Louismet, Agency Finance Manager and Robert Kasper, Audit Director, have implemented audit review procedures for all payroll transactions as of December 1, 2006. The bi-weekly review is conducted by staff reporting to the audit director to separate the review process from the accounting sections payroll transaction processors. All payroll transactions for all payroll transaction types are reviewed and verified for entry accuracy. In addition, labor distribution reports for all payroll transactions are reviewed to guarantee accurate posting of payroll to state and federal accounts. Audit findings are then reported to the agency finance manager with corrective action indicated. All corrections are reconciled to assure accuracy in payroll posting for all earnings types.

Estimated Completion Date: December 1, 2006

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Report 07-03

State Agency: Minnesota Department of Commerce

Federal Agency: U. S. Department of Energy

CFDA Number/Program Name:

84.042 Weatherization Assistance – Low Income Persons

Questioned Costs: \$1,167,772

Finding 07-03-1 *Ineffective monitoring of local service providers.*

- 1. The Department of Commerce did not ensure that local service providers² delivered program funds in compliance with federal requirements for the Weatherization Assistance for Low-Income Persons Program.**

The Department of Commerce did not sufficiently monitor local service providers to ensure they delivered federal program funds to dwellings with greater need for weatherization improvement. Local service providers distribute the program's financial assistance to eligible low income households to improve the energy efficiency of their homes. The department did not have an effective monitoring system, as required by federal regulation, to ensure local service providers complied with federal program requirements. Over 12 percent of the federal program's expenditures did not comply with federal requirements.

The program has three full-time staff in its monitoring unit, but they do not ensure that local service providers comply with the following federal program requirements:

- Selection of cost-effective dwellings – During fiscal year 2006, local service providers inappropriately provided weatherization assistance of \$1,167,772 to dwellings where the cost of the improvement exceeded the estimated long term energy savings. Federal regulations³ require that funds used for weatherization improvements result in energy cost savings over the lifetime of the improvement at least equal to the cost of materials and installation. The state's plan with the federal government quantifies this analysis with a savings-to-investment ratio. If the ratio is below 1, meaning that the cost of the improvement exceeds the

² A local service provider is a public or nonprofit entity or a community action agency authorized to determine eligibility for heating assistance and identify dwellings in need of financial assistance for weatherization improvements.

³ 10 Code of Federal Regulations §440.21(c).

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

estimated energy savings, the improvement is not an effective use of weatherization assistance funds. The department inappropriately allowed local service providers to fund weatherization improvements even though the savings-to-investment ratio was 1 or less.

- Monitoring of local service providers – The department had no documentation to substantiate that it had monitored the minimum number of households and that contractor work complied with standards.
 - The state’s plan indicates that the department will examine at least five percent of the completed dwellings for each local service provider to ensure the completion of quality work and compliance with program requirements. Although there was evidence that the department conducted the reviews (the department had letters to the local service providers citing concerns and requesting corrective action plans), the department could not substantiate the number of reviews performed at each service provider.
 - The department lacked a structured audit approach to guide quality and consistency of their monitoring work. Monitoring staff did not adequately document sample selection methods, recipients examined, and attributes tested. They had no testing documents showing that local service providers had evidence that contractors met program quality standards. Weatherization improvements done by private contractors must comply with standards concerning licensing, insurance, and workmanship. In addition, local service providers must inspect the contractor’s work to ensure it was satisfactory. The department’s site visits did not determine whether local service providers were verifying that contractors complied with those standards.

Because the department did not effectively monitor the local service providers, funds were inappropriately used for energy improvements that were not the most cost-effective and may not have complied with federal requirements or quality standards.

Recommendations

- *The Department of Commerce should work with the federal Department of Energy to resolve the \$1,167,772 in questioned costs for the Weatherization Assistance for Low-Income Persons Program.*
- *The Department of Commerce should improve its monitoring of local service providers to ensure compliance with federal requirements for the Weatherization Assistance for Low-Income Persons Program.*

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Minnesota Department of Commerce Response:

Recommendation: *The Department of Commerce should work with the federal Department of Energy to resolve the \$1,167,772 in questioned costs for the Weatherization Assistance for Low-Income Persons Program*

Response: The department will comply with this recommendation.

The program year audited by your staff was the first full year the department and the service provider energy auditors used the new federal Department of Energy's computer-based energy audit software--the National Energy Audit Tool (NEAT). Moving toward the NEAT tool proved challenging for some of the service provider energy auditors. A couple of the major factors encountered included lack of database experience and discovering that the NEAT tool was somewhat complex and at times counter-intuitive. The department provided extensive training and technical assistance prior to and throughout the program year in an effort to ensure service provider energy auditors were gaining proficiency with NEAT. The department worked with the NEAT developers to provide suggestions for improving the tool's use. Recently a new version of the software was deployed incorporating these suggestions.

When department staff recognized that the Savings to Investment Ratios (SIRs) were not being calculated correctly, we made the decision to require that all jobs for this period must have an SIR of 1 or greater and directed all agencies to verify their records and make necessary changes. Because of the numbers of measures involved, having all data fixed by providers would have taken significant staff time, detracting from the work needed to be done on homes.

When your staff raised questions of inappropriately using funds for measures not reaching an SIR of 1 or better, department staff analyzed the data. Staff first took the measures that were \$1000 or more and analyzed 80 measures, which represented 10% of the questioned costs. Approximately 90% of those measures had qualifying SIRs when they were re-ran using the NEAT tools correctly. The remaining 10% of the measures did not have sufficient data to determine the SIR.

The department has taken or will take the following actions to ensure that all measures installed have appropriate SIRs:

- The department has informed agencies that all measures and jobs performed after June 30, 2006 must have an estimated SIR of 1 or greater. Measures not meeting that standard cannot be paid with DOE funds.
- Training and technical assistance continues to be provided on a one-to-one basis to ensure new auditors have the training needed and all existing auditors are made aware of any new requirements.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Recommendation: *The Department of Commerce should improve its monitoring of local service providers to ensure compliance with federal requirements for the Weatherization Assistance for Low-Income Persons Program.*

Response: The department will comply with this recommendation.

The department is drafting an interim monitoring protocol and tool to use for the remainder of the current program year and will have a permanent tool in place for the next program year. The department will consult with DOE and other state weatherization programs to identify and adopt monitoring best practices. The protocol and tool will be designed to:

- Identify and assess key technical and administrative compliance data for both desk monitoring and on-site monitoring.
- Test performance and cost indicators in a consistent manner across all service providers to identify underperforming agencies.
- Require random selection of federally-required minimum sample of households for on-site performance monitoring.
- Provide a template for clear communication to service providers of monitoring findings, and corrective action required.
- Provide comprehensive file reports of performance data, monitoring findings, and corrective actions taken.
- Meet all federal compliance requirements.

Person Responsible: Janet Streff

Estimated Completion Date: Interim monitoring protocol and tool – March 15, 2007
Final protocol and tool – June 30, 2007

The department plans to contact the DOE to discuss the audit report and will provide detailed information to them upon public release of the document.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Report 07-03

State Agency: Minnesota Department of Commerce

Federal Agencies: U. S. Department of Energy
U. S. Department of Health and Human Services

CFDA Numbers/Program Names:

84.042	Weatherization Assistance – Low Income Persons
93.568	Low-Income Home Energy Assistance

Questioned Costs: None – Procedural Finding Only

Finding 07-03-2 *Federal CFDA numbers not identified in accounting system.*

2. PRIOR FINDING NOT RESOLVED: The Department of Commerce did not identify all of its federal program accounts on the state’s accounting system. (Prior Finding 06-06-2)

The department did not effectively use the state’s accounting system to accumulate federal program expenditures by their respective Catalog of Federal Domestic Assistance (CFDA) identification numbers. It did not identify the CFDA number in the accounting system for all federal accounts. As a result, department staff had to manually identify and assign federal program numbers to \$45.9 million of federal expenditure activity for fiscal year 2006. Without identifying federal program numbers in the accounting system, the department increased the risk of incorrectly reporting each program’s expenditures in the *State of Minnesota’s Financial and Compliance Report on Federally Assisted Programs*.

The Department of Finance’s accounting system reports did not accumulate total federal expenditures by program, because the accounts did not contain the underlying program number. For example, to compile the total expenditures for the Low-Income Home Energy Assistance Program, the department had to identify activity from four different accounts and have the Department of Finance add the expenditures in those four accounts to determine the program total. If the department had entered the federal program number, accounting system reports would have automatically totaled expenditures for that program and eliminated the risk of omission or error.

Recommendation

- *The Department of Commerce should ensure that each federal account in the state’s accounting system is identified with its corresponding federal program number.*

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Minnesota Department of Commerce Response:

The department will comply with this recommendation.

The department will fully utilize the grants module of MAPS to ensure the proper federal program numbers are recorded in the state's accounting system. The department was negligent in not making all of the necessary entries for the fiscal year ending June 30, 2006 until November 2006. In order to ensure compliance in the future, the CFO will conduct periodic checks throughout the year to ensure the necessary federal program numbers are being recorded at the time of original document entry.

Person Responsible: Dennis Munkwitz

Estimated Completion Date: Completed as of November 2006.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Report 07-03

State Agency: Minnesota Department of Commerce

Federal Agency: U. S. Department of Health and Human Services

CFDA Number/Program Name:

93.568 Low-Income Home Energy Assistance

Questioned Costs: None – Procedural Finding Only

Finding 07-03-3 *Inaccurate measurement of federal expenditures.*

3. The Department of Commerce did not accurately measure federal expenditures for the Low-Income Home Energy Assistance Program.

The department inappropriately included \$13,399,244 of the Low-Income Home Energy Assistance Program's expenditures on its federal expenditure report that were already included in expenditures measured by the Department of Human Services' Temporary Assistance to Needy Families Program. The error resulted in an audit adjustment to correct for double-counting of those federal expenditures by the two state departments.

The departments of Commerce and Human Services entered into an interagency agreement to make the funding available and ensure that recipients of heating assistance were eligible for benefits under the Temporary Assistance to Needy Families Program. The agreement, however, did not specify how to report these federal expenditures in the *State of Minnesota's Financial and Compliance Report on Federally Assisted Programs*.

Recommendation

- *The Department of Commerce should ensure that it properly coordinates reporting of federal expenditures when federal funds are transferred in from another state department.*

Minnesota Department of Commerce Response:

The department will comply with this recommendation. An audit adjustment was made on February 14, 2007 to properly reflect the transfer of funds.

Responsible: Dennis Munkwitz

Estimated Completion Date: Completed

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Report 07-05

State Agency: Minnesota Department of Health

Federal Agencies: U. S. Department of Agriculture
U. S. Department of Health and Human Services

CFDA Numbers/Program Names:

10.557	Special Nutrition for Women, Infants and Children
93.268	Childhood Immunization Grants
93.283	CDC-Prevention, Investigations and Technical Assistance

Questioned Costs: Nonquantifiable

Finding 07-05-1 *Salary allocations not sufficiently documented.*

- 1. PRIOR FINDING PARTIALLY RESOLVED: The department did not adequately oversee compliance with federal and state requirements for documenting time charged to programs. (Prior Findings 06-07-1 and 05-16-1)**

The department did not provide sufficient oversight or adequately document the basis for payroll costs charged to the WIC (CFDA 10.557), Immunization (CFDA 93.268), and Centers for Disease Control Technical Assistance (CFDA 93.283) programs. While the department made some improvements in fiscal year 2006 to its payroll process and documentation, it did not always comply with federal and state requirements and department policy for supporting time charged to federal programs.

First, the department continued to have problems supporting its payroll charges to specific federal programs. Payroll charges to federal programs must be supported by evidence that the employees, in fact, worked on those programs. Federal regulations⁴ state that employees who work on multiple programs must support the allocation of their salaries among funding sources with personnel activity reports or equivalent documentation. This documentation must reflect the actual activity of each employee and account for the total activity for which each employee is compensated. In addition, when employees are assigned to work on only one federal program, charges for their salaries must be supported by periodic certifications that the employees worked solely on that program. The department had the following weaknesses related to verification and certification of actual work on the Centers for Disease Control Program:

⁴ U.S. Office of Management and Budget (OMB) Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments*.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

- Six of fifteen time study and certification samples were not completed. The department created and authorized the certifications as of the date of our audit request.
- One employee certified that they only worked on one federal program, when they actually worked on multiple programs.
- One employee's time was reported on time studies; however, according to the employee's supervisor, the time studies were not representative of the employee's work assignments. In addition, the supervisor indicated that the employee's work was coded to one federal program in the state's personnel/payroll system, when approximately one-third of their time was spent on another program.
- One employee's payroll costs for a special project exceeded the maximum allowed by an interagency agreement with the Minnesota Department of Education.

Second, the department continued to make significant manual adjustments to its payroll transactions to adjust the transactions resulting from the default funding allocations to more accurately account for time charged to federal programs based on the time study reports. Manual adjustments create additional workload for the department and increase the risk of error. The department should set the personnel/payroll system's default allocations to more closely match employees' assignments. The department needs to review and assess its initial allocation of payroll expense budgets to minimize the need for manual adjustments.

Finally, the department did not properly set up its approval authorizations in the state's online employee time-entry system. The department did not properly designate the responsibility for employee timesheet review resulting in a large number of exceptions reported on the *Self Service Time Entry Audit Report*. Each pay period, the department must review these exceptions and determine whether employees and supervisors properly recorded and approved the payroll charges.

Recommendation

- *The department should provide oversight of its payroll process and continue to work toward full compliance with federal and state requirements for documenting time charged to specific programs by:*
 - certifying employees time charged to a single federal program in a timely manner;*
 - performing and accurately documenting time studies for employees working on multiple programs;*
 - assessing and establishing accurate funding sources for individual employees in the state's personnel/payroll system to reduce the need for payroll adjustments; and*

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

-- reviewing and modifying its primary and backup approval assignments within the Self-Service Time Entry System to accurately reflect true responsibilities and to minimize the number of errors reported each pay period.

Minnesota Department of Health Response:

The department concurs with this recommendation and will take the following steps to fully resolve the finding within available resources:

- establish and implement a reminder process and a follow up tracking system for those employees that are working on a single federal program;
- establish a follow up process to assure those employees who are required to complete time studies have met the minimal federal requirement;
- look at the timeliness of the current process for reviewing and adjusting the roster of employees in the payroll system and the current method of adjusting for payroll costs;
- will review the approval assignments and make the corresponding corrections as necessary.

The department has assigned Mr. David Hovet, Director of Finance and Facilities Management Division and Jody O'Malley, Director of the Human Resources Division to coordinate these actions with the Assistant Division Directors of the Operating Divisions.

Estimated Completion Date: June 30, 2007

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Report 07-07

State Agency: Minnesota Department of Employment & Economic Development

Federal Agency: U. S. Department of Labor

CFDA Number/Program Name:

17.225 Unemployment Insurance Program

Questioned Costs: None – Procedural Only

Finding 07-07-1 *Inadequate control over employer tax accounts.*

1. The Department of Employment and Economic Development did not effectively control adjustments to employer tax accounts for the Unemployment Insurance Program.

The department did not control adjustments to employer tax accounts for compromises,⁵ cancellations,⁶ and refunds of unemployment insurance premiums. Too many department staff could enter these transactions, and adequate controls did not exist to identify and ensure that these high-risk transactions were proper and complied with federal and state requirements.⁷

The department implemented a new computerized tax system in June 2005. The new system computes unemployment tax obligations and records payments for corporate employer accounts. During fiscal year 2006, the department collected \$975 million of unemployment taxes from employers and \$9.1 million in late fees and penalties. The department also processed compromises totaling \$3.9 million, cancelled amounts due of \$11.5 million, and issued over \$5.8 million of employer refunds for excess taxes paid. Weak monitoring controls, combined with an excessive number of staff that could enter

⁵ *Minnesota Statutes 2005*, 268.067 define a “compromise” as a reduction in the amount owed, in whole or in part, because of a problem or error that occurred during the past 24 months. The commissioner may compromise any amount due from an employer under this chapter. Compromises over \$2,500 shall be authorized by the department’s legal staff.

⁶ *Minnesota Statutes 2005*, 268.066 define a “cancellation” as a write-off of a legitimate amount due that was uncollected for at least six years, or was uncollectible due to bankruptcy, could not be collected by the Department of Revenue’s Collections Division, or the commissioner determines that it is not in the public interest to pursue collection of the amount due.

⁷ The Unemployment Insurance program is a partnership between the federal and state governments; implemented primarily through state law contained in *Minnesota Statutes 2005*, 268.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

these transactions, increased the risk that unauthorized compromises, cancellations, or refunds could occur.

The department had the following weaknesses in its controls over compromises and cancellations of unemployment taxes owed by employers:

- The department did not appropriately limit the number of department staff who could adjust employer accounts. Ninety-one staff had the ability to compromise and/or cancel an employer's unemployment tax liability, and 31 staff could process refunds to employers. Furthermore, there was no review or approval to ensure the accuracy and appropriateness of the transactions. The department should limit access to adjust an employer's account to staff assigned responsibility for those transactions.
- The department did not properly record compromise and cancellation transactions in the unemployment insurance system. When employers filed incorrectly, creating inaccurate tax obligations or amounts due, staff cancelled amounts as uncollectible. However, since these adjustments were for filing errors, the department should have posted compromise transactions instead of cancellations. Over \$7 million (or 60%) of the cancellations posted during 2006 were for amounts due or tax obligations of the past two years. *Minnesota Statutes*⁸ define and distinguish these transactions, which have unique characteristics and legal timeframes. To ensure that it complies with these legal timeframes, the department needed to clarify the accounting for each type of transaction.
- The department did not ensure that its legal staff reviewed and approved all compromises exceeding \$2,500, as required by statute.⁹ The department did not refer compromises miscoded as cancellations to its legal staff for review and approval. In addition, the department had not developed system edits to require a legal review nor did it produce reports to ensure that legal staff reviewed all compromises exceeding \$2,500.
- The unemployment insurance system did not accurately calculate interest owed on delinquent balances. The system did not adjust the interest due when the department made an adjustment to the taxes owed by the employer, resulting in interest overcharges to employer accounts and the need for department staff to compromise those overcharges.

In addition to these weaknesses related to processing of compromises and cancellations, the department did not have controls to ensure that refunds recorded in the unemployment insurance system agreed with those actually paid. Because the refunds are paid through a different system, the department must ensure that refund activity posted to employer accounts agrees with the actual money refunded. The department did not reconcile systems during fiscal year 2006, and staff did not enter important refund

⁸ *Minnesota Statutes* 2005, 268.066 and 268.067.

⁹ *Minnesota Statutes* 2005, 268.067 (c).

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

data, such as the refund warrant number. Starting in August 2006, the department began daily comparisons between the two systems, but the staff performing the reconciliations also had system access allowing them to process refund checks.

Recommendations

- *The department should improve internal control over adjustments to unemployment insurance employer accounts by.*
 - *restricting staff access to enter system compromise and cancellation transactions and developing an independent review and approval process to ensure that adjustments are accurate and authorized;*
 - *properly accounting for compromises and cancellations to employer account balances in the unemployment insurance system;*
 - *developing a system edit or a manual process to prevent compromises greater than \$2,500, except those approved by the department's legal counsel; and*
 - *adjusting the unemployment insurance system's calculation of interest due on unpaid taxes to accurately calculate interest on the unpaid portion of an employer's delinquent account balance.*
- *The department should improve control over employer refunds by:*
 - *limiting the number of employees that have access to enter system refunds;*
 - *preventing staff from completing the refund process without entering important refund data; and*
 - *separating incompatible duties between staff that reconcile refunds between systems and those that process refund checks and post refunds to employer accounts.*

Minnesota Department of Employment & Economic Development Response:

Recommendations:

- *The department should improve internal control over adjustments to unemployment insurance employer accounts by:*
 - *restricting staff access to enter system compromise and cancellation transactions and developing an independent review and approval process to ensure that adjustments are accurate and authorized;*

Response: We agree. The adjustment access should be limited to those that have an operational need to make adjustments. We are taking steps to reduce staff access to adjustments, compromises and cancellations.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

- *properly accounting for compromises and cancellations to employer account balances in the unemployment insurance system;*

Response: We disagree. The authority provided in Minn. Stat. Sect. 268.066, to cancel amounts due from an employer, in whole or in part, does not require approval of an attorney. Whereas compromise authority provided in Minn. Stat. Sect. 268.067 requires that any amount over \$2500 be authorized by an attorney designated by the Commissioner. The compromise authority encompasses more than just debt but deals with tax rates, succession issues, and any other department action involving an employer. (Only two attorneys have that authority currently). The compromise function is used for "legitimate amounts due" in which the debtor is unable to pay and we agree to compromise, it is a formal process. The cancellation function is used to handle "problems or errors" which cancel penalties, fees, and interest that is not in the public interest to collect. We will work with the auditors to reach consensus on the interpretation of the statute or we will seek legislation to amend the law.

(See Auditor Comment)

- *developing a system edit or manual process to prevent compromises greater than \$2,500, except those approved by the department's legal counsel; and*

Response: We agree. We will develop appropriate procedures.

- *adjusting the unemployment insurance system's calculation of interest due on unpaid taxes to accurately calculate interest on the unpaid portion of an employer's delinquent account balance.*

Response: We agree. The interest calculation error occurs in limited volume, under a specific scenario, which has been identified. It has been recorded and will be corrected after DEED's UI Technology Initiative Project is complete, sometime after 2007. Until the correction can be made, incorrect interest overcharges resulting from this scenario will be adjusted using the write-off (cancellation) functionality in the system.

- *The department should improve control over employer refunds by:*
 - *limiting the number of employees that have access to enter system refunds;*

Response: We agree. We will further limit the number of individuals who can initiate the refund process.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

- *preventing staff from completing the refund process without entering important refund data; and,*

Response: We agree. This was completed in August of 2006.

- *separating incompatible duties between staff that reconcile refunds between systems and those that process refund checks and post refunds to employer accounts.*

Response: We agree. We will separate the duties.

Person Responsible: Kathy Nelson

Estimated Completion Date: June 30, 2007

Auditor Comment to Department Disagreement:

We made that recommendation because we found instances of the department misclassifying account adjustments and, as a result, not following the statutorily prescribed method for making the adjustments. Specifically, state law requires that adjustments over \$2,500 that meet the definition of a “compromise” must be approved by a department attorney designated by the department’s commissioner. That approval did not occur in some cases we reviewed because the adjustments were miscoded as cancellations rather than compromises. Based on that finding, we recommended that the department should exercise more control over how the department classifies and accounts for compromises and cancellations. We think it is a recommendation the department should accept and implement.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Report 07-07

State Agency: Minnesota Department of Employment & Economic Development

Federal Agency: U. S. Department of Labor

CFDA Number/Program Name:

17.225 Unemployment Insurance Program

Questioned Costs: None – Procedural Only

Finding 07-07-2 *Wage verification documents inappropriately discarded.*

2. The Department of Employment and Economic Development discarded military and federal employee wage verification documents supporting their eligibility for unemployment insurance benefits.

The department did not retain military discharge papers and federal employee wage verifications used to document eligibility for unemployment benefits. Military applicants must provide the department with a copy of their *Certificate of Release or Discharge from Active Duty* to be eligible for unemployment benefits. Federal employees submit a *Request for Wage and Separation Information* form which contains quarterly wages certified by their federal employer. The department did not retain those documents dated prior to January 1, 2006, and could not support its eligibility decisions for benefits paid related to those applicants. They could only provide records received after January 1, 2006 (last half of fiscal year 2006).

The department's record retention schedule specifies that benefit documents be kept for three years or until audited. Adequate documentation allows the department to demonstrate its compliance with state and federal program regulations. Without this documentation, the department was unable to support the accuracy and propriety of over \$3 million in military benefits and \$1 million of federal employee benefits paid during the first half of fiscal year 2006.

Recommendation

- *The department should comply with its record retention schedules and preserve records supporting military and federal employee unemployment benefits until they are audited or electronically captured and stored.*

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Minnesota Department of Employment & Economic Development Response:

We agree. The retention schedule done in 1982 is outdated and was not followed. It is in the process of being updated from focusing on paper documents to focusing on the data in an electronic environment. However, all military and federal documents are maintained by the Federal Claims Control Center (FCCC).

Report 07-07

State Agency: Minnesota Department of Employment & Economic Development

Federal Agency: U. S. Department of Housing & Urban Development

CFDA Number/Program Name:

14.228 Community Development Block Grant - States

Questioned Costs: None – Procedural Only

Finding 07-07-3 *Inconsistent monitoring and reporting of project expenditures.*

3. PRIOR FINDING PARTIALLY RESOLVED: The Department of Employment and Economic Development did not consistently monitor and report project expenditures for the federal Community Development Block Grant Program. (Prior Finding 06-09-3)

Department staff assigned to monitor the Community Development Block Grant Program did not always ensure that grant recipients filed environmental certifications, submitted timely audit reports, and followed-up on recommendations cited in audits of those organizations. The department also had problems with timely and accurate filings of the program's key federal financial report and measurement of federal expenditures submitted to the Department of Finance for inclusion in the *Minnesota Financial and Compliance Report on Federally Assisted Programs*.

The program provides federal grants to small cities for housing and economic improvement projects. Under federal authority, the state has issued rules to govern grant application, awarding, and monitoring. The department employed 'program monitors' to monitor project progress and verify that cities comply with federal grant requirements. Our prior audit identified inconsistent practices by program monitors. Although the department improved payment authorization controls, the department continued to have some weaknesses, as discussed below.

- The department could not locate an environmental review certification for one city that was awarded federal program funds in 2002 and paid \$749,377 during the end of their grant in fiscal year 2006. In addition, the department did not have other evidence that an environmental review had been done or a written justification that the review was not required. Environmental oversight and reviews are among the state's key compliance responsibilities to ensure they use funds for eligible projects that do not adversely impact the environment.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

- The department did not ensure subrecipients received timely audits of their grant's financial activity. Program monitors did not receive an independent audit report within nine months of the fiscal year-end for three of five subrecipients tested. Federal guidelines require that organizations who receive over \$500,000 annually submit an independent *OMB Circular A-133* audit report within nine months of their year end. One of those audits filed late raised a concern that the department did not acknowledge or pursue through a correction action plan. In addition, program monitors did not always record receipt of audit reports in their database used to monitor each grant's status. Without effective monitoring and oversight of audits completed, ineligible project costs and noncompliance with federal regulations could occur without detection.

- The department was over 40 days late in submitting the program's 2005 *Performance and Evaluation Report* to the federal Housing and Urban Development Agency. The report for the period ending September 30, 2005, was due on December 31, 2005; but the department did not submit it until February 2006. In addition, the department incorrectly included at least \$1.5 million of expenditures paid from October 2005 through January 2006. The department should have included these subsequent expenditures in the next federal reporting period.

- Finally, the department inappropriately included the program's state match expenditures totaling \$372,092 in the federal expenditures reported to the Department of Finance for inclusion in the *Minnesota Financial and Compliance Report on Federally Assisted Programs*. The audit initiated an adjustment to remove those nonfederal amounts from the reported expenditures.

Recommendations

- *The department should comply with federal Community Development Block Grant Program requirements by:*
 - *ensuring that environmental review certifications are filed and that environmental reviews are completed as required by federal regulations;*
 - *ensuring it receives timely subrecipient audits and that any audit issues are adequately monitored and resolved; and*
 - *submitting timely and accurate Performance and Evaluation Reports to the federal Housing and Urban Development Agency.*

- *The department should exclude the state match in reporting the Community Development Block Grant Program's federal expenditures in the Minnesota Financial and Compliance Report on Federally Assisted Programs.*

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Minnesota Department of Employment & Economic Development Response:

Recommendations:

- *The department should comply with federal Community Development Block Grant program requirements by:*

- *ensuring that environmental review certifications are filed and that environmental reviews are completed as required by federal regulations;*

Response: We agree. We have a record of clearing the environmental, but we have no record of the environmental in our electronic files. We will ensure that the reviews are received and retained.

- *ensuring it receives timely subrecipient audits and that any audit issues are adequately monitored and resolved; and,*

Response: We agree. We will develop a system to track required audits to meet the nine month deadline. We will ensure that audit issues are monitored for resolution.

- *submitting a timely and accurate Performance and Evaluation Report to the federal Housing and Urban Development Agency.*

Response: We agree. We will require all annual reports into our office by September 30 of each calendar year which will ensure the submission of the Performance and Evaluation Report to HUD by the December 31st deadline.

- *The department should exclude the state match in reporting the Community Development Block Grant Program's federal expenditures in the Minnesota Financial and Compliance Report on Federally Assisted Programs.*

Response: We agree. We will work with the Department of Finance to ensure that the reports provided to the department do not include match. We will increase oversight review to prevent possible future errors.

Report 07-07

State Agency: Minnesota Department of Employment & Economic Development

Federal Agency: U. S. Department of Education

CFDA Number/Program Name:

84.126 Vocational Rehabilitation Grants to States

Questioned Costs: None – Procedural Only

Finding 07-07-4 *Subrecipient suspension and debarment certification not obtained.*

- 4. The Department of Employment and Economic Development did not ensure that vocational rehabilitation grant contracts had a required certification prohibiting grantees from using suspended or debarred vendors.**

The department's contracts with vocational rehabilitation grant recipients did not include a certification to refrain from using federally suspended or debarred vendors. Three of nine grant contracts tested did not include the required certification indicating they will refrain from using suspended or debarred vendors. (Vendors are suspended or debarred when the federal government determines that they have abused the public trust, perhaps by violating program provisions.) Federal regulations¹⁰ prohibit using federal money to purchase goods or services from vendors who have been suspended or debarred. The federal government expects states and their grantees to identify suspended and debarred vendors and have a process in place to prevent them from receiving federal funds. Without the proper certification, the department could be held liable for any disallowed costs resulting from payments grantees make to suspended or debarred vendors.

Recommendation

- *The department should ensure that all vocational rehabilitation grant contracts contain a suspension and debarment certification indicating that the grantee will not use federal funds to pay vendors who are suspended or debarred by the federal government*

¹⁰ 34 Code of Federal Regulations, Part 85.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Minnesota Department of Employment & Economic Development Response:

We agree. We have included the required language, as an attachment, to all contracts this year. Beginning March 15, 2007, all new contracts will be issued with the required suspension and debarment certification language included in the standard provisions. This eliminates the possibility of failing to include the attachment containing the required certification.

Person Responsible: Kimberly Peck

Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Report 07-08

State Agency: Minnesota Department of Human Services

Federal Agencies: U. S. Department of Agriculture
U. S. Department of Health and Human Services

CFDA Numbers/Program Names:

10.551	Food Stamp Program
93.558	Temporary Assistance for Needy Families
93.563	Child Support Enforcement
93.658	Foster Care
93.659	Adoption Assistance Program
93.767	State Children's Health Insurance Program
93.776	Hurricane Katrina Relief Program
93.778	Medical Assistance

Questioned Costs: None – Procedural Only

Finding 07-08-1 *Inaccurate reporting of spending on schedule of expenditures.*

1. PRIOR FINDING NOT RESOLVED: The Department of Human Services did not accurately report federal spending in the state's federal financial reports.

The department did not establish sufficient internal controls to ensure the reporting accuracy of federal program expenditures published in the *Minnesota Financial and Compliance Report on Federally Assisted Programs*. Program accountants at the department relied on preliminary data supplied by the Department of Finance to calculate the federal programs' expenditure amounts. The preliminary information included most, but not all, accruals and adjustments to federal expenditures as reported in the State of Minnesota's financial statements.

Although the department had a smaller amount of audit adjustments on their federal expenditure schedules this year, the errors were similar to those identified last year. The errors included failing to correctly record expenditure accruals, misclassifying certain transactions, and including transactions that were not appropriate for the program. In some cases, the accountants did not report amounts in the federal program schedules consistent with amounts reported in the state's financial statements. These errors and inconsistencies resulted in audit adjustments to the federal expenditure schedules totaling nearly \$70 million.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

In addition, the department did not coordinate its reporting efforts with the Department of Finance for the Temporary Assistance to Needy Families Program (TANF). The department received an additional \$13 million of bonus funds during fiscal year 2006. The department established an interagency agreement with the Department of Commerce to use the bonus funds for the Low Income Home Energy Assistance Program. Although the department correctly concluded that it would report these funds as TANF expenditures, it did not inform Commerce of this decision, which resulted in both agencies reporting the funds. The department also did not alert Finance to ensure that these funds were not double counted. The department's compliance with established reporting procedures is critical to the success of the state providing accurate information on its federal programs to the federal government.

Recommendation

- *The department should improve controls over financial reporting by:*
 - *adequately training staff on preparing federal financial schedules;*
 - *verifying the accuracy and completeness of federal program schedules; and*
 - *coordinating reporting responsibilities with the Department of Finance and other agencies, as necessary, to ensure accurate reporting.*

Minnesota Department of Human Services Response:

The department agrees with the recommendation. The department will continue its effort to increase management review of the federal program schedules to assure that they are consistent with amounts reported in the state's financial statements. The department will also continue its effort to work with the Department of Finance to improve the reporting of human service programs' financial statement accruals and reclassifications.

Report 07-08

State Agency: Minnesota Department of Human Services

Federal Agency: U. S. Department of Health and Human Services

CFDA Numbers/Program Names:

93.659	Adoption Assistance Program
93.767	State Children's Health Insurance Program

Questioned Costs: None – Procedural Only

Finding 07-08-2 *Insufficient eligibility documentation.*

2. PRIOR FINDING NOT RESOLVED: The Department of Human Services did not adequately document certain eligibility determinations for two federal programs. (Prior Findings 06-10-2 and 05-18-5)

The department was missing certain key documentation to support recipient eligibility determinations for two federal programs - Adoption Assistance (CDFA 93.659) and State Children's Health Insurance Program (CFDA 93.767). It is important for the department to maintain complete documentation to show that eligibility determinations were correct.

The department did not have adequate documentation to support its review of eligibility determinations for the Adoption Assistance Program. If a child meets four specific criteria, the child's family is eligible to receive adoption assistance maintenance subsidies. The eligibility determinations originate with child placing agencies. The department requires the agencies to submit documentation supporting their eligibility determination. The department then reviews the documentation and verifies the agencies' determinations. Although there was some improvement in the department's documentation, eligibility files were incomplete for 5 of the 65 sample items tested this year. Ultimately, the department was able to obtain copies of the missing documentation for all but two sample items.

Our audit of the State Children's Health Insurance Program revealed the following documentation weaknesses:

- For 7 of 47 files tested, the department was unable to locate the original application form. The applicant or applicant's caretaker is responsible for providing the department with a completed application including proof of income, if applicable. The department requires this documentation to determine the applicant's eligibility.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

- For 13 of 47 files tested, the department was unable to provide income verification worksheets. The department requires the MinnesotaCare enrollment representatives to calculate the recipient's income using an income worksheet for every initial and renewal application, even if the recipient does not have income.

By not adequately documenting and maintaining applicant information, the department was unable to demonstrate that it complied with all federal eligibility requirements.

Recommendation

- *The department should collect and maintain all documentation necessary to support its verification of eligibility and income determinations for the Adoption Assistance and the State Children's Health Insurance programs.*

Minnesota Department of Human Services Response:

The department agrees with the recommendation.

Adoption Assistance

In response to last year's audit, the department revised the forms used by certifying agencies to complete eligibility determinations for adoption assistance. The department distributed the revised forms to all certifying agencies, provided training on the forms, and, effective November 1, 2006, mandated that all new applications for adoption assistance be submitted using the revised eligibility forms. Before the department approves adoption assistance for a child, department staff will ensure that all necessary eligibility documentation has been collected from the certifying agency. The department will continue to collect and retain all documents that verify adoption assistance eligibility in the departmental adoption assistance case record.

While the department made changes to the forms last year to address this finding, these changes only impact eligibility determinations of adoption assistance applications made subsequent to November 1, 2006. Since eligibility determinations for adoption assistance are completed only when the initial application for adoption assistance is made; a child determined as eligible then continues to receive adoption assistance to either age 18 or 21. Future audits that include cases certified as eligible for adoption assistance prior to November 1, 2006, will continue to require the department to gather supporting documentation from the certifying agency.

State Children's Health Insurance Program

The department will review the sample cases which were cited for lacking supporting documentation in the electronic file. We will identify the causes of the lack of documentation, and strategies will be developed to eliminate them.

Some strategies are already in place and include; a new electronic case review document, improved delivery of new and experienced worker training and coaching and improved systemic processes related to electronic document management.

Person Responsible: Kathleen Henry

Estimated Completion Date: October 1, 2007

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Report 07-08

State Agency: Minnesota Department of Human Services

Federal Agency: U. S. Department of Health and Human Services

CFDA Number/Program Name:

93.767 State Children's Health Insurance Program

Questioned Costs: \$5,100

Finding 07-08-3 *Non-compliance with eligibility criteria.*

3. The Department of Human Services did not comply with certain eligibility requirements for the State Children's Health Insurance Program.

The department did not conduct eligibility verifications promptly and, as a result, the department paid aid to an ineligible recipient within the State Children's Health Insurance Program (CFDA 93.767). State statutes¹¹ require the department to obtain an eligibility renewal form every 12 months for all active households receiving federal and state assistance through the program. The 12-month period begins the month after the department approves the initial application.

The department was not timely in sending eligibility renewal forms to 11 of 47 recipients tested for the program, resulting in the following overpayments:

- The lack of timely verification of eligibility information resulted in the department paying approximately \$1,300 to an ineligible recipient. The department should have recalculated the recipient's eligibility in December 2004. However, the department did not determine eligibility until May 2005. As a result of the verification process, the recipient should have been ineligible for program benefits starting in January 2005 due to excess income. Without timely income verifications, the department could not ensure that it paid assistance to eligible recipients.
- In another case, the department provided benefits to a recipient with income that exceeded the program guidelines. In order to receive benefits, a recipient's household income must be between 100 and 200 percent of the federal poverty guidelines. The department incorrectly coded a recipient as eligible for the program in the state's Medicaid information system even though the household's

¹¹ *Minnesota Statutes* 2005, 256L.05 Subdivision 3a.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

income exceeded the 200 percent of the federal poverty guidelines cap. Although the department entered the household's correct income into the system, edits in the Medicaid information system did not properly match the eligibility code with the income discrepancy. The department was uncertain if the edit was by-passed or not working as expected. The result was that the department paid approximately \$3,800 in program benefits to an ineligible recipient.

Recommendations

- *The department should verify State Children's Health Insurance Program recipient eligibility in accordance with federal and state time requirements.*
- *The department should review and improve eligibility controls over the State Children's Health Insurance Program, including system edits.*
- *The department should determine if it made payments to other ineligible recipients due to system edits not performing as expected.*
- *The department should repay federal funds expended in error.*

Minnesota Department of Human Services Response:

The department agrees with the recommendations.

Recommendation #3-1

The department will review the sample cases cited for failure to evaluate State Children's Health Insurance Program (SCHIP) eligibility in a timely manner. Upon review, strategies will be developed to address the shortcomings and improve the compliance with federal and state requirements and timelines.

Staffing and work queue assignments have already been altered to assure eligibility reviews are completed in a timely manner,

Recommendations #3-2 and 3-3

The department will review the two sample cases in error to determine the cause of the inaccurate eligibility determination for SCHIP. In addition, the department will review another sample of SCHIP cases that had eligibility determined during the same time period as the sample cases to determine if there is further concern related to system edits. Strategies will be developed in response to the results of the expanded review.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Electronic case reviews have already been implemented to address this concern

Recommendation #3-4

The department will determine the amount of federal funds expended in error. A review of the two sample cases has determined that they are not eligible for SCHIP federal funds (65%) but, are eligible for MinnesotaCare federal funds (50%). The difference will be repaid.

Report 07-08

State Agency: Minnesota Department of Human Services

Federal Agency: U. S. Department of Health and Human Services

CFDA Number/Program Name:

93.778 Medical Assistance

Questioned Costs: None – Procedural Only

Finding 07-08-4 *Federal funds used to pay state share of transportation fees.*

4. The Department of Human Services used federal funds to pay for the state's share of certain transportation fees for the federal Medical Assistance Program.

The department incorrectly used federal funds to pay the state's share of Medical Assistance (CFDA 93.778) transportation administration fees. In July 2005, the department established an estimated budget in a new state account to record this activity. In February 2006, there was not enough money in the specific fund-level account to pay the state share of these costs. In order for the transactions to be processed, the department used the related federal account to cover the full amount of the transportation costs. This funding discrepancy continued for nine payments between March 2006 and June 2006, resulting in a total amount charged in error to the federal account of \$600,219. The department established new accounts at the beginning of fiscal year 2007, which corrected the funding allocation problem.

Although the department reconciled the total expenditures processed on the Medicaid information system to the payments made through the state's accounting and procurement system, the reconciliation did not validate that the payments used the correct source of funds. Due to the errors we discovered as part of our review of the reconciliation process, the department repaid the federal funding for the amount of the error.

Recommendation

- *The department should develop a fund level reconciliation that would discover potential funding allocation errors in a timely manner.*

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Minnesota Department of Human Services Response:

The department agrees with the recommendation. The department will implement procedures for reconciling the Medicaid payment system to the posting of transactions on the state's accounting system to include steps that ensure the amounts posted are accurate -- both in total, and fund by fund.

Report 07-08

State Agency: Minnesota Department of Human Services

Federal Agency: U. S. Department of Health and Human Services

CFDA Numbers/Program Names:

93.767	State Children's Health Insurance Program
93.777	State Survey and Certification of Health Care Provider
93.778	Medical Assistance

Questioned Costs: None – Procedural Only

Finding 07-08-5 *Did not submit quarterly reports timely.*

5. Some reports the Department of Human Services submitted to the federal government were inaccurate and late.

The department did not maintain sufficient internal controls to ensure the timeliness of reports for three of its federal programs - the Medical Assistance Program (CFDA 93.778), the State Children's Health Insurance Program (CFDA 93.767), and the State Survey and Certification of Health Care Providers and Suppliers (CFDA 93.777). The department did not submit its quarterly reports¹² to the federal government within 30 days after the end of the quarter, as required by federal regulation. During fiscal year 2006, the department electronically filed the reports from 67 to 109 days after the end of the quarter.

In addition, the department did not report MinnesotaCare taxes collected during fiscal year 2006 for the Medical Assistance Program. The department is required to report health care related taxes, fees and assessments collected under Public Law 102-234¹³ to the federal Center for Medicare and Medicaid Services at least annually. The department has included these taxes on its quarterly reports in previous years. The amount of unreported taxes collected during fiscal year 2006 was approximately \$372 million.

¹² Quarterly Medicaid Statement of Expenditures for the Medical Assistance Program (CMS-64). This report shows certain federal grant activity, including awards and expenditures.

¹³ Medicaid Voluntary Contribution and Provider-Specific Tax Amendments of 1991 (Public Law 102-234).

Section III: Federal Program Audit Findings – Continued

Recommendation

- *The department should improve its reporting process to ensure timely and accurate completion of all of its federal reports.*

Minnesota Department of Human Services Response:

The department agrees with the recommendation. Recent additional federal reporting requirements, coupled with the department's existing manual reconciliation process, have made it nearly impossible to obtain and process the data needed to complete the reports on a timely basis. The department is addressing this situation as follows: (1) an agreement has been negotiated with the local CMS auditor that allows the department to submit the reports prior to completion. Then, when all data is available for the quarter, the reports will be uncertified, completed and resubmitted, and (2) the department has initiated a project to re-engineer the existing manual reconciliation process to make optimal use of technology and automation. The new process will be designed with strong internal controls, yet provide the flexibility necessary to respond to the ever-changing federal and state reporting requirements.

Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Report 07-08

State Agency: Minnesota Department of Human Services

Federal Agency: U. S. Department of Health and Human Services

CFDA Numbers/Program Names:

93.575	Child Care and Development - Discretionary
93.596	Child Care and Development – Mandatory and Match

Questioned Costs: None – Procedural Only

Finding 07-08-6 *Salary allocations not sufficiently documented.*

6. The Department of Human Services did not comply with federal regulations when allocating salaries to one federal program.

The department did not comply with federal regulations¹⁴ when charging salaries and other employee compensation to the Child Care and Development Cluster (CFDA 93.575 and 93.596). The department did not prepare the required certifications or activity reports for 3 of 36 employees charging time to the Child Care Program. For two other employees, the department allocated their time to multiple funding sources when they actually worked on one federal program.

Federal regulations identify standards for time distribution and payroll documentation which state that employees who have multiple funding sources must have a salary distribution supported by personnel activity reports or equivalent documentation. This documentation must reflect the actual activity of each employee and account for the total activity of all programs that the employee is working on. Employees who work on only one federal program must support their federal salary charges with periodic certifications that are signed by themselves and their supervisors attesting that they actually worked only on that program for the period covered by the certification.

In addition, the department's certification process does not accommodate a certification for an employee no longer working for the department. The process requires an electronic signature by the employee and the supervisor. If the employee is no longer working for the department, the certification process gets stalled. To clear the certifications for three former employees in the Child Care Program, financial management staff inappropriately signed the certifications as the employees and the

¹⁴ U.S. Office of Management and Budget (OMB) Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments*.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

supervisors, even though they had no knowledge of the former employees' responsibilities.

Recommendations

- *The department should support its direct charges of salaries and other employee compensation to federal programs, as required by federal regulation.*
- *The department should improve internal controls over its certification process by enforcing system edits and controls.*

Minnesota Department of Human Services Response:

The department agrees with the recommendation. The department has procedures designed to support its direct charges of salaries and other employee compensation to federal programs. The department will improve internal controls over its certification process by enforcing system edits and controls.

Report 07-08

State Agency: Minnesota Department of Human Services - Hennepin County

Federal Agency: U. S. Department of Health and Human Services

CFDA Numbers/Program Names:

93.558	Temporary Assistance for Needy Families
93.778	Medical Assistance

Questioned Costs: Nonquantifiable

Finding 07-08-H-1 *Untimely resolution of discrepancies identified by IEVS.*

- 1. PRIOR FINDING NOT RESOLVED: Hennepin County did not resolve income discrepancies identified as part of the benefit eligibility process in the timeframes required by federal regulations. (Prior Findings 06-10-H2 and 05-18-H-2)**

Hennepin County made improvements to its income discrepancy resolution process. However, it did not resolve income discrepancies identified by the Income Eligibility and Verification System (IEVS) at the level required by federal regulations. In order to comply with federal requirements, the state Department of Human Services (DHS) coordinates data exchanges with other sources for the Temporary Assistance for Needy Families and the Medical Assistance programs. This data exchange, called IEVS, includes comparing income information submitted by applicants with income and tax information obtained from other state and federal sources, such as the Minnesota Department of Employment and Economic Development, the Social Security Administration, and the Internal Revenue Service.

Discrepancies occur when the income amounts recorded in MAXIS, the state's eligibility determination system, differ by more than a pre-established target amount. DHS relies on county human services offices to review and resolve these discrepancies. Federal law requires the state to resolve at least 80 percent of the case discrepancies within 45 days. The state did not meet this requirement. Hennepin County is a significant contributor to that compliance concern. For the period May 1, 2005, through April 30, 2006, Hennepin County's overall resolution rate was 70 percent. However, we noted that Hennepin County made significant improvements in the second half of our scope. The county's IEVS resolution compliance averaged 75 percent for December 1, 2005, through April 30, 2006, as compared to 63 percent for May through November 30, 2005. The county's resolution rates in fiscal years 2005 and 2004 were 59 and 63 percent, respectively.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Recommendation

- *Hennepin County should continue to make improvements toward resolving all Income Eligibility Verification System (IEVS) discrepancies in a timely manner.*

Minnesota Department of Human Services - Hennepin County Response:

Hennepin County continued to make steady and encouraging strides in this area during 2006. After the OLA audit in July 2006, an additional full time position was dedicated to processing IEVS matches. This resulted in a resolution rate of 86% in the third quarter of 2006. However, because this has historically been an area in which we struggle to meet the federal guidelines, four additional positions were approved for the County's Debt Establishment Unit in the 2007 budget. This will allow DEU to take responsibility for clearing all IEVS matches, including health care related matches, in the future. Once the hiring of the additional staff in DEU is complete, the function of IEVS will be consolidated in one area which will allow for sufficient staff for the job and establish clear accountability for meeting the processing standards. Staff should be hired during the first quarter of 2007.

Tom Pingatore and Maureen Headbird will be the contact persons responsible for ensuring this plan is carried out.

Report 07-08

State Agency: Minnesota Department of Human Services - Ramsey County

Federal Agency: U. S. Department of Health and Human Services

CFDA Numbers/Program Names:

93.558	Temporary Assistance for Needy Families
93.778	Medical Assistance

Questioned Costs: Nonquantifiable

Finding 07-08-R-1 *Untimely resolution of discrepancies identified by IEVS.*

- 1. PRIOR FINDING NOT RESOLVED: Ramsey County did not resolve income discrepancies identified as part of the benefit eligibility process in the timeframes required by federal regulations. (Prior Findings 06-10-R-2 and 05-18-R-2)**

Ramsey County has improved its resolution rate for income discrepancies identified by the Income Eligibility and Verification System (IEVS), but has not attained the level required by federal regulations. The state Department of Human Services (DHS) coordinates data exchanges with other sources for the Temporary Assistance for Needy Families and the Medical Assistance programs. This data exchange, called IEVS, includes comparing income information submitted by applicants with income and tax information obtained from other state and federal sources, such as the Minnesota Department of Employment and Economic Development, the Social Security Administration, and the Internal Revenue Service.

Discrepancies occur when the income amounts recorded in MAXIS, the state's eligibility determination system, differ by more than a pre-established target amount. DHS relies on county human services offices to review and resolve these discrepancies. Federal law requires the state to resolve at least 80 percent of the case discrepancies within 45 days. The state did not meet this requirement. Ramsey County is a significant contributor to that compliance concern. For the period May 1, 2005, through April 30, 2006, Ramsey County's resolution rate was 71.6 percent. The county's resolution rates in fiscal years 2005 and 2004 were 70.5 and 65 percent, respectively.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Recommendation

- *Ramsey County should continue to work with the Department of Human Services to resolve Income Eligibility Verification System (IEVS) discrepancies in a timely manner.*

Minnesota Department of Human Services - Ramsey County Response:

1. *Prior Finding Not Resolved: Ramsey County did not resolve income discrepancies identified as part of the benefit eligibility process in the time frames required by federal regulations.*

As you noted in your letter we have made some improvement over the last two years in resolving income discrepancies identified by the Income Eligibility and Verification System (IEVS) but we have still not attained the 80% level required by federal regulations. Our failure to meet the 80% timely resolution level has also been cited as an issue in our annual Food Support Management Review. The steps listed here are part of our corrective action plan for that review as well as for this audit.

1. We receive an overdue IEVS report each month that is sorted by unit and distributed to the unit supervisor. Resolving matches from this report does not help us meet the 80% level in the first month that they are already over due, but resolving them the first month they appear as overdue prevents them from reoccurring the next month(s) and impacting our on-going compliance level.

In addition supervisors are able to use this report to identify staff not resolving matches timely and they can make a point of monitoring those staff. See number 3.

2. We recently used overtime and dedicated a staff person to resolving a number of overdue matches. Bao Vang, a manager, met with this staff person to identify some of the issues she discovered. As a result we are shifting some of our focus to preventing some of the matches we receive.
 - Through a state matching system workers often receive “New Hire Messages” that notify us that someone has started a new job. By following up on those we can often get the necessary information to adjust the case, preventing a possible future IEVS match.
 - Clients often report that they are going to start a job, but do not always have the necessary information at that point for us to adjust the case. Some workers fail to follow through at a later date to obtain the needed information. We will do training in this area to address the steps the worker should take when a job is reported.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

3. After consulting with the IEVS coordinator at DHS we will put more emphasis on monitoring the IEVS “due” reports so that we are more aware of what needs to be done and make sure that the necessary actions are taken. We find that some workers initiate resolution but do not do all the follow up steps timely and it becomes an overdue situation.

Our goal is to continue to improve our compliance level each quarter and to achieve the necessary 80% timely resolution level.

Bao Vang and Nancy Cincotta are the managers who are primarily responsible for the monitoring of IEVS compliance and implementing the necessary corrective actions to resolve this issue. If you have any questions you may contact Nancy Cincotta at (651) 266-4545.

Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Report 07-08

State Agency: Minnesota Department of Human Services - Cass County

Federal Agency: U. S. Department of Health and Human Services

CFDA Number/Program Name:

93.778 Medical Assistance

Questioned Costs: Nonquantifiable

Finding 07-08-C-1 *Non-compliance with eligibility criteria.*

1. Cass County had weaknesses in its eligibility determination process for the Medical Assistance Program.

Cass County did not properly use the state's Department of Human Services (DHS) eligibility determination system (MAXIS) and the state's benefit recovery unit to determine the cost effectiveness of an applicant's existing health insurance. The county did not input the other insurance coverage in the appropriate MAXIS panel, thus circumventing the edits and other controls in the eligibility system. Eligibility for the Medical Assistance Program is not affected due to the availability of other health coverage. However, an applicant may be required to enroll in or maintain group or private health insurance if that coverage is deemed cost effective. Without complete information, the state and the county cannot determine the most cost effective way to deliver services.

Cass County also did not perform a required income review and did not terminate medical assistance for one recipient in a timely manner. The Medical Assistance Program requires clients to periodically submit income renewal forms. In most cases, income renewals are required on a six-month basis. However, children born to women who applied for assistance before or after the birth and who were eligible at the time of the birth are automatically eligible and remain eligible through the month of their child's first birthday without regard to income, assets, or household composition as long as the child continues to live with the mother in Minnesota.

Cass County did not initiate an income review before the child turned one year old in January 2006, as required. The county subsequently requested the income information in April. However, the parent failed to submit the appropriate information, and the case automatically closed in May 2006. The state paid approximately \$450 of federal medical assistance benefits on behalf of the child without the proper income verification.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Recommendations

- *Cass County should provide complete insurance information to the Department of Human Services in order to determine the most cost effective way to deliver medical benefits.*
- *Cass County should ensure that it follows all established procedures for income verification.*

Minnesota Department of Human Services - Cass County Response:

The Legislative Audit conducted in 2006 indicated findings that Cass County had weaknesses in its eligibility determination process for the Medical Assistance Program (CFDA #93.778). In response to the recommendations provided, Cass County will take the following action:

- It was recommended that Cass County should provide complete insurance information to the Department of Human Services in order to determine the most cost effective way to deliver medical benefits.
- It was recommended that Cass County should ensure that it follows all established procedures for income verification.

Although it has always been the goal of the county to adhere to all regulations and procedures, to ensure greater compliance in these area, the two Mentors (to be overseen by Brenda J. Erickson, Financial Assistance Supervisor) will conduct staff training on the regulations and pertinent procedures regarding cost effective medical benefits and income verification for the Medical Assistance Program by February 28, 2007. As a follow up on worker compliance after training, targeted case reviews will be completed by the Mentors and Financial Assistance Supervisor in 2007.

Report 07-09

State Agency: Minnesota Department of Transportation

Federal Agency: U. S. Department of Transportation

CFDA Number/Program Name:

20.205 Highway Planning and Construction Program

Questioned Costs: \$9,296,000

Finding 07-09-1 *Project oversight procedures need improvement.*

1. Prior Audit Finding Partially Resolved: The Department of Transportation did not adequately follow certain project oversight procedures. (Prior Finding 06-12-2)

The MnDOT Office of Audit's federal compliance report for fiscal year 2006 identified various concerns and issues where project management oversight could be strengthened or improved. The MnDOT Office of Audit's report also describes some best practices for making improvements in compliance from the previous fiscal year. The office identified the following issues for the federal Highway Planning and Construction Program (CFDA #20.205), based on 21 highway construction projects audited:

- Although improvements were noted, compliance with state and federal environmental requirements was a continuing problem. Documented weekly inspections of erosion control effectiveness are required for permit coverage under the National Pollutant Discharge Elimination System. MnDOT Office of Audit identified nine projects where contractors did not complete and submit all required permit inspection logs to project personnel every two weeks as required. The MnDOT Office of Audit also identified five projects where retainage from contractor payments were not withheld to ensure erosion control. For two projects involving building demolitions, notices of intent to perform a demolition were not submitted to the Minnesota Pollution Control Agency, and formal inspections of building materials were not documented as required, and for a third project, the notice was submitted late. For the above projects, the MnDOT Office of Audit's report questioned \$165,000.
- The MnDOT Office of Audit recommended additional management attention for bituminous and concrete production documentation and materials testing requirements. The report indicated that some testing and documentation

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

requirements were not met or not properly documented for six bituminous projects.¹⁵ For these projects, the MnDOT Office of Audit's report questioned \$4,241,000. In addition, the MnDOT Office of Audit questioned \$4,890,000 for two projects in which concrete testing requirements were not followed.

Recommendation

- *The department should continue to strengthen its project oversight procedures to ensure compliance with federal and state requirements.*

Minnesota Department of Transportation Response:

This finding deals primarily with issues of erosion control, permit compliance, asbestos abatement, and building demolition. To date, several actions have occurred, among them:

- District Construction staff will emphasize the importance of correct use of logs with all project personnel and with the contractor during pre-construction conferences.
- Compliance with environmental regulations was reviewed at various construction staff meetings.
- Letters have been sent to district field personnel to clarify understanding of the requirements of NPDES permits.
- Districts conducted reviews of procedures for inspections of bridges for hazardous materials.
- Mn/DOT's Office of Environmental Services will be conducting a follow-up to help resolve this issue.
- Preparation and distribution of a memo reminding district staff of the importance of compliance with environmental requirements.

Report 07-09

State Agency: Minnesota Department of Transportation

Federal Agency: U. S. Department of Transportation

CFDA Number/Program Name:

20.205 Highway Planning and Construction Program

Questioned Costs: \$1,900,000

Finding 07-09-2 *Miscoded payment as participating in federal funding.*

2. The department erroneously coded a payment under a supplemental agreement as participating in federal funding.

The MnDOT Office of Audit's federal compliance report for fiscal year 2006 identified a supplemental agreement payment of \$1.9 million that was inappropriately charged to the Highway Planning and Construction Program on August 31, 2005. The supplemental agreement was coded as participating in federal funding when, in fact, it should have been coded as nonparticipating in federal funding. Department files clearly showed that the \$1.9 million should have been coded as nonparticipating. However, the error was not corrected until September 18, 2006, after MnDOT Office of Audit identified the error.

Recommendation

- *The department should ensure that highway construction costs are charged to the proper funding source.*

Minnesota Department of Transportation Response:

Mn/DOT's Finance Office along with the Construction Office have met and determined an approach that will ensure that supplemental agreements will be correctly classified as participating/non-participating on all construction payments. Procedures will be written as to how federal supplemental agreements should be handled in the future to prevent a re-occurrence of this issue.

Person Responsible: Kevin Z. Gray, Finance and Administration Division Director

Estimated Completion Date: January 2007 (The procedures will be completed and implemented by July 2007.)

Report KDV-06

State Agencies: Minnesota West Community and Technical College
Inver Hills Community College

Federal Agency: U. S. Department of Education

CFDA Numbers/Program Names:

84.007	Federal Supplemental Educational Opportunity Grant
84.063	Federal Pell Grant
84.032	Federal Family Education Loans ("FFEL")
84.038	Federal Perkins Loans

Questioned Costs: \$281,373, of which all has been repaid.

Finding KDV-06-1 *Calculations of Title IV funds to be returned not done timely.*

Condition #1:

Minnesota West Community and Technical College did not perform timely calculations of return to Title IV funds for some students during fiscal years 2003 through 2006. The impact of not calculating these funds in a timely manner totaled \$281,373, and included College share of \$134,589 and student's share of \$146,784. In January and February 2007, the College paid the U.S. Department of Education \$37,480 for both the College and student share of Pell and SEOG amounts. In addition, the College portion of the loans were returned to applicable lenders. Finally, the College provided notice to lenders on the student's portion of the loans. In addition to the amounts above, further penalties and interest may be assessed by the U.S. Department of Education for return of Title IV funds. This condition affected the following aid awards:

CFDA	Description	Fiscal Year	College Share	Student Share	Total
84.063	Federal Pell Grant	2003-2006	\$ 30,192	\$ 7,045	\$ 37,237
84.032	Subsidized FFEL	2003-2006	38,338	62,780	101,118
84.032	Unsubsidized FFEL	2003-2006	65,411	75,864	141,275
84.007	Federal SEOG	2003-2006	243	-	243
84.038	Federal Perkins Loans	2003-2006	405	1,095	1,500
Total			<u>\$ 134,589</u>	<u>\$ 146,784</u>	<u>\$ 281,373</u>

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Criteria:

The *OMB Compliance Supplement* requires an institution to properly calculate and determine the return of Title IV funds for all students that receive financial aid and either officially or unofficially withdraw.

Effect:

Minnesota West Community and Technical College was not in compliance with the federal requirements regarding return of Title IV funds. Specifically, funds were returned late to the U.S. Department of Education and lenders.

Recommendation:

Minnesota West Community and Technical College should improve the methodology used to identify students and perform timely and accurate return of Title IV fund calculations.

Condition #2:

Inver Hills Community College did not consider a combination of grade types when determining which students to complete unofficial withdrawal return to Title IV calculations on. Specifically, the college did not review all students that had a combination of “W” – withdrawals and “F” – failing grades for a term. The college recommends that faculty issue “F” grades, immediately, if a student does not attend a course for two consecutive weeks during a term. The college considers an “F” grade to be an earned “F” grade when “F” grades are entered at the end of the term. The college only completes calculations for students where “F” grades are entered before the end of the term.

One student reviewed in our sample had a combination of the “W” and “F” grades and no calculation was completed. The college was unable to provide support to show that the student completed the enrollment period for the course the student received an “F” in. The student received a \$3,312 loan disbursement for the term, which a return of Title IV calculation was not performed timely. A total of \$739 was returned to the U.S. Department of Education, and notification to lenders was made for the remaining amounts.

Criteria:

The SFA Handbook requires institutions to provide documentation that students complete enrollment periods for return to Title IV purposes when a student has not earned a passing grade in a least one course enrolled in.

Effect:

Inver Hills Community College may not have been in compliance with guidance in the SFA Handbook relating to return to Title IV calculations.

Recommendation:

Inver Hills Community College needs to ensure the policies and procedures are in place to comply with federal regulations and guidance regarding return to Title IV refunds.

Section III: Federal Program Audit Findings – Continued

Criteria:

Under the requirements for the Federal Family Education Loan and Federal Direct Student Loan Programs, changes in student status must be reported to NSLDS within 30 days, unless a Roster File is scheduled to be submitted within 60 days.

Effect:

The above Colleges and Universities are not in compliance with the reporting requirements specified by federal program guidelines.

Recommendation:

The above Colleges and Universities should ensure student enrollment changes are reported to NSLDS within 30 days, unless a Roster File submission is expected within 60 days. They should also review the submission dates for NSLDS to ensure compliance with either the 30 or 60 day requirement.

Minnesota State Colleges and Universities Response:

The colleges and universities agree with the auditor's recommendation and have already taken steps to improve practices. Each of the institutions has made the requested changes to NSLDS schedules to ensure that roster files are submitted every 30 days or requested every 60 days.

Report KDV-06

State Agency: South Central College

Federal Agency: U. S. Department of Education

CFDA Number/Program Name:

84.063 Federal Pell Grant

Questioned Costs: None – Procedural Finding Only.

Finding KDV-06-3 *Failed to report program disbursements within 30 days.*

Condition:

South Central College did not report Federal Pell Grant Program (Pell) disbursements within 30 days. One submission tested was three days late.

Criteria:

Under the requirements for the Federal Pell Grant Program, the College must report student payment data within 30 calendar days after the institution makes a payment to students or becomes aware of the need to make an adjustment to previously reported or expected student payment data.

Effect:

South Central College is not in compliance with the reporting requirements specified by federal program guidelines.

Recommendation:

South Central College should ensure that Federal Pell Grant expenditures are reported to the U.S. Department of Education within 30 days of being disbursed.

Minnesota State Colleges and Universities Response:

The college agrees with the auditor's recommendation and has already taken steps to improve practices. The reporting process has been synchronized with the disbursement process and is reported to both the financial aid director and to the business office.

Report KDV-06

State Agency: Inver Hill Community College

Federal Agency: U. S. Department of Education

CFDA Number/Program Name:

84.032 Federal Family Education Loans (“FFEL”)

Questioned Costs: \$3,015 Total, \$1,312 Subsidized, \$1,703 Unsubsidized

Finding KDV-06-4 *Inadequate monitoring of satisfactory academic progress.*

Condition:

Inver Hills Community College did not accurately track some satisfactory academic progress as required by their current satisfactory academic progress policy. The College requires tracking of cumulative and term GPA’s as part of their policies. The college did not have automated tracking of the term GPA for a short period of time. The setup has since been corrected. As a result, the student sample selection in question was ineligible for aid that was awarded.

Criteria:

The *OMB Compliance Supplement* requires an institution to establish and publish an academic progress policy in compliance with OMB requirements. These requirements are explained in more detail in the SFA Handbook.

Effect:

Inver Hills Community College was not in compliance with the SFA Handbook relating to academic progress.

Recommendation:

Inver Hills Community College should implement policies and procedures to monitor compliance with satisfactory academic progress requirements in accordance with the OMB requirements and SFA regulations.

Minnesota State Colleges and Universities Response:

The college agrees with the auditor’s recommendation and is making the changes to improve practices. Beginning in ’07-’08 the college will no longer track term GPA’s as part of their financial aid satisfactory academic progress policy.

Section III: Federal Program Audit Findings – Continued

Report KDV-06

State Agencies: Minnesota West Community and Technical College
Anoka Technical College

Federal Agency: U. S. Department of Education

CFDA Number/Program Name:

84.032 Federal Family Education Loans ("FFEL")

Questioned Costs: \$3,540 Unsubsidized FFEL

Finding KDV-06-5 Students received loans in excess of permitted amounts.

Condition:

Certain students received subsidized FFEL loans in excess of permitted amounts from the following Colleges:

	<u>Number of Affected Students</u>	<u>Amount of Over Award</u>	<u>Description</u>
Minnesota West Community and Technical College	1	1,540	T
Anoka Technical College	1	2,000	R

T – The student was not denied a PLUS loan. Aid was calculated indicating the student was denied a plus loan, causing the overaward.

R – The student was incorrectly classified as a dependent sophomore, causing the overaward.

Criteria:

The OMB requires an institution properly calculate and determine an eligible student's financial aid award. The NSLDS is maintained in order to avoid overawards, and institutions are required to determine if students have already received their limit of FFEL loans through verification of any records in the NSLDS.

Effect:

The above named Colleges are not in compliance with eligibility requirements regarding FFEL loans.

Minnesota Office of the Legislative Auditor
Schedule of Findings and Questioned Costs
Section III: Federal Program Audit Findings – Continued

Recommendation:

The Colleges should ensure all students eligible for FFEL and FDSL loans have been verified through the NSLDS and that no awards have already been disbursed at another institution. The Colleges and Universities should also ensure students are awarded aid based on accurate eligibility levels.

Minnesota State Colleges and Universities Response:

The colleges agree with the auditor's recommendations and have already taken steps to improve practices. Additional steps have been added to the manual processing practices, to ensure that loan information and student classification are properly monitored.

Person Responsible(s):

Minnesota West Community and Technical College
Lori Voss, Vice-President for Administration

Report KDV-06

State Agency: Minnesota State Colleges and Universities

Federal Agency: U. S. Department of Education

CFDA Numbers/Program Names:

84.007	Federal Supplemental Educational Opportunity Grant
84.033	Federal Work Study
84.063	Federal Pell Grant
84.268	Federal Direct Student Loans ("FDSL")
84.032	Federal Family Education Loans ("FFEL")
84.038	Federal Perkins Loans

Questioned Costs: Nonquantifiable

Finding KDV-06-6 Accounting system records did not always agree with federal reports.

Condition No. 1:

Metropolitan State University, Normandale Community College, Fond du Lac Tribal and Community College, Lake Superior College and St. Cloud State University's accounting system records did not always match the applicable drawdown reports and/or FISAP reports due to incorrect coding, transfers between programs, or not drawing down funds for the applicable federal award programs.

Criteria:

The *OMB Compliance Supplement* requires accurate and timely reporting of federal grant information.

Effect:

The above Colleges and Universities were not in compliance with the OMB Compliance Supplement relating to period of availability and reporting of federal funds.

Recommendation:

The above Colleges and Universities should implement procedures to review and reconcile activity for federal grants to ensure compliance with OMB Provisions.

Minnesota State Colleges and Universities Response:

The colleges and universities agree with the auditor's recommendations and will institute steps to improve practices. The campus assistance section of the Office of the Chancellor will develop procedures and design a process for colleges and universities to use when

Minnesota Office of the Legislative Auditor

**Status of Prior Federal Program Audit Findings
Supplemental Information**

Below are explanations for findings not fully corrected or the corrective action taken differs significantly from the previously stated corrective action plan.

Report 02-53

State Agency: Minnesota Department of Human Services

Federal Agencies: U. S. Department of Agriculture
U. S. Department of Health and Human Services

CFDA Numbers/Program Names:

10.551	Food Stamps
93.558	Temporary Assistance for Needy Families

Finding 02-53-2 *Inappropriate security clearances to MAXIS.*

2. Many employees and contractors had inappropriate security clearances.

Recommendations

- *The department should ensure that all MAXIS security clearances are commensurate with employees' job duties.*
- *The department should develop a process to periodically recertify the appropriateness of all MAXIS security clearances.*

Minnesota Department of Human Services Response:

Although we have completed the security clearance review for the groups noted in the original audit report, the auditors are requiring us to review another group for the proper security clearance to MAXIS. We are continuing to work on this additional security review. We are on schedule to complete this task by our original completion date of March 31, 2007.

Person Responsible: Kate Wulf, Director, TSS

Estimated Completion Date: March 31, 2007

**Status of Prior Federal Program Audit Findings
Supplemental Information – Continued**

Report 05-13

State Agency: Minnesota Department of Human Services

Federal Agencies: U. S. Department of Agriculture
U. S. Department of Health and Human Services

CFDA Numbers/Program Names:

10.551	Food Stamps
93.558	Temporary Assistance for Needy Families
93.778	Medical Assistance

Finding 05-13-5 *Inappropriate security clearance to change IEVS data.*

5. PRIOR FINDING PARTIALLY RESOLVED: Many employees had inappropriate security clearance to change IEVS data.

Recommendation

- *The department should ensure that all security clearances are commensurate with employees' job duties.*

Minnesota Department of Human Services Response:

Although we completed the security review on those security groups noted in our original correction plan, the auditor is requesting that we review another security group that might have inappropriate security clearance to IEVS. We are working on this new security review and it should be completed by March 31, 2007.

Person Responsible: Kate Wulf, Director, TSS

Estimated Completion Date: March 31, 2007

**Status of Prior Federal Program Audit Findings
Supplemental Information – Continued**

Report 05-16

State Agency: Minnesota Department of Health

Federal Agencies: U. S. Department of Agriculture
U. S. Department of Health and Human Services

CFDA Numbers/Program Names:

10.557	Special Nutrition for Women, Infants and Children
93.283	CDC – Investigations and Technical Assistance

Finding 05-16-1 *Salary allocations not sufficiently documented.*

- 1. PRIOR FINDING NOT RESOLVED:** The department did not comply with federal and state requirements for documenting time charged to programs, including the transfer of payroll costs between programs.

This finding is repeated in the current audit report. See Section III, Report 07-05, Finding 1, for the Department of Health's response.

**Status of Prior Federal Program Audit Findings
Supplemental Information – Continued**

Report 05-17

State Agency: Minnesota Department of Employment & Economic Development

Federal Agency: U. S. Department of Labor

CFDA Number/Program Name:

17.225 Unemployment Insurance

Finding 05-17-2 *Inadequate data integrity controls over employer rate calculations.*

- 2. The Department of Employment and Economic Development's (DEED) data integrity controls require improvement to ensure the accuracy of employer unemployment insurance tax rate calculations.**

Recommendation

- *DEED should improve data integrity controls by reconciling and adjusting benefit charges posted to employer accounts when different than actual benefits paid and controlling computer application and data changes.*

Minnesota Department of Employment & Economic Development Response:

Part 1. As verified by the statistically valid sample of rate calculations submitted to the Department of Labor, our rate calculation process is accurate. Any deficiencies are being addressed in the system redesign.

Person Responsible: Kathy Nelson

Estimated Completion Date: Complete

Part 2. The current system of manual adjustments to keep the benefits payable in sync with the benefits chargeable is being automated.

Person Responsible: Kathy Nelson

Estimated Completion Date: Fall 2007

**Status of Prior Federal Program Audit Findings
Supplemental Information – Continued**

Report 05-18

State Agency: Minnesota Department of Human Services

Federal Agency: U. S. Department of Health and Human Services

CFDA Number/Program Name:

93.767 State Children's Health Insurance Program

Finding 05-18-5 *Inadequate documentation for certain eligibility criteria.*

- 5. The Department of Human Services did not adequately document certain eligibility criteria for some State Children's Health Insurance Program participants.**

This finding is repeated in the current audit report. See Section III, Report 07-08, Finding 2, for the Department of Human Services' response.

**Status of Prior Federal Program Audit Findings
Supplemental Information – Continued**

Report 05-18

State Agency: Minnesota Department of Human Services – Hennepin County

Federal Agency: U. S. Department of Health and Human Services

CFDA Numbers/Program Names:

93.558	Temporary Assistance for Needy Families
93.778	Medical Assistance

Finding 05-18-H-2 *Untimely resolution of discrepancies identified by IEVS.*

- 2. Hennepin County did not resolve income discrepancies identified as part of the benefit eligibility process in a timely manner.**

This finding is repeated in the current audit report. See Section III, Report 07-08, Finding H-1, for Hennepin County's response.

**Status of Prior Federal Program Audit Findings
Supplemental Information – Continued**

Report 05-18

State Agency: Minnesota Department of Human Services – Ramsey County

Federal Agency: U. S. Department of Health and Human Services

CFDA Numbers/Program Names:

93.558	Temporary Assistance for Needy Families
93.778	Medical Assistance

Finding 05-18-R-2 *Untimely resolution of discrepancies identified by IEVS.*

- 2. Ramsey County did not resolve income discrepancies identified as part of the benefit eligibility process in a timely manner.**

This finding is repeated in the current audit report. See Section III, Report 07-08, Finding R-1, for Ramsey County's response.

**Status of Prior Federal Program Audit Findings
Supplemental Information – Continued**

Report 06-06

State Agency: Minnesota Department of Commerce

Federal Agency: U. S. Department of Health and Human Services

CFDA Number/Program Name:

93.568 Low Income Home Energy Assistance

Finding 06-06-2 *Federal program numbers not identified in accounting system.*

- 2. The Department of Commerce did not consistently identify federal program numbers for all of its federal accounts in the state's accounting system.**

This finding is repeated in the current audit report. See Section III, Report 07-03, Finding 2, for the Department of Commerce's response.

**Status of Prior Federal Program Audit Findings
Supplemental Information – Continued**

Report 06-07

State Agency: Minnesota Department of Health

Federal Agencies: U. S. Department of Agriculture
U. S. Department of Health and Human Services

CFDA Numbers/Program Names:

10.557	Special Nutrition for Women, Infants and Children
93.283	CDC - Prevention, Investigations and Technical Assistance

Finding 06-07-1 *Salary allocations not sufficiently documented.*

- 1. PRIOR FINDING NOT RESOLVED: The department did not comply with federal and state requirements for documenting time charged to programs, including the transfer of payroll costs between programs.**

This finding is repeated in the current audit report. See Section III, Report 07-05, Finding 1, for the Department of Health's response.

**Status of Prior Federal Program Audit Findings
Supplemental Information – Continued**

Report 06-09

State Agency: Minnesota Department of Employment & Economic Development

Federal Agency: U. S. Department of Housing and Urban Development

CFDA Number/Program Name:

14.228 Community Development Block Grant - States

Finding 06-09-3 *Inconsistent monitoring and reporting of project expenditures.*

- 3. The department did not consistently monitor and report project expenditures for the federal Community Development Block Grant Program (CFDA #14.228).**

This finding is repeated in the current audit report. See Section III, Report 07-07, Finding 3, for the Department of Employment and Economic Development's response.

**Status of Prior Federal Program Audit Findings
Supplemental Information – Continued**

Report 06-10

State Agency: Minnesota Department of Human Services

Federal Agency: U. S. Department of Health and Human Services

CFDA Numbers/Program Names:

93.659	Adoption Assistance
93.767	State Children's Health Insurance Program

Finding 06-10-2 *Inadequate eligibility documentation.*

- 2. The Department of Human Services did not adequately document certain eligibility criteria for two federal programs.**

This finding is repeated in the current audit report. See Section III, Report 07-08, Finding 2, for the Department of Human Services' response.

**Status of Prior Federal Program Audit Findings
Supplemental Information – Continued**

Report 06-10

State Agency: Minnesota Department of Human Services – Hennepin County

Federal Agency: U. S. Department of Health and Human Services

CFDA Numbers/Program Names:

93.558	Temporary Assistance for Needy Families
93.778	Medical Assistance

Finding 06-10-H-2 *Untimely resolution of discrepancies identified by IEVS.*

- 2. PRIOR FINDING NOT RESOLVED: Hennepin County did not resolve income discrepancies identified as part of the benefit eligibility process in the timeframes required by federal regulations. (Finding 05-18-H-2)**

This finding is repeated in the current audit report. See Section III, Report 07-08, Finding H-1, for Hennepin County's response.

**Status of Prior Federal Program Audit Findings
Supplemental Information – Continued**

Report 06-10

State Agency: Minnesota Department of Human Services – Ramsey County

Federal Agency: U. S. Department of Health and Human Services

CFDA Numbers/Program Names:

93.558	Temporary Assistance for Needy Families
93.778	Medical Assistance

Finding 06-10-R-2 *Untimely resolution of discrepancies identified by IEVS.*

- 2. PRIOR FINDING NOT RESOLVED: Ramsey County did not resolve income discrepancies identified as part of the benefit eligibility process in the timeframes required by federal regulations. (Finding 05-18-R-2)**

This finding is repeated in the current audit report. See Section III, Report 07-08, Finding R-1, for Ramsey County's response.

**Status of Prior Federal Program Audit Findings
Supplemental Information – Continued**

Report 06-12

State Agency: Minnesota Department of Transportation

Federal Agency: U. S. Department of Transportation

CFDA Number/Program Name:

20.205 Highway Planning and Construction Program

Finding 06-12-2 *Project oversight procedures need improvement.*

- 2. PRIOR AUDIT FINDING NOT RESOLVED:** The department did not adequately follow certain project oversight procedures.

This finding is repeated in the current audit report. See Section III, Report 07-09, Finding 1, for the Department of Transportation's response.

**Status of Prior Federal Program Audit Findings
Supplemental Information – Continued**

Report KDV-05

State Agency: Minnesota State Colleges and Universities

Federal Agency: U. S. Department of Education

CFDA Numbers/Program Names:

84.268	Federal Direct Student Loans (FDSL)
84.032	Federal Family Education Loans (FFEL)

Finding KDV-05-3 *Some institutions did not timely report changes in student status.*

Condition:

The following Colleges and Universities did not report changes in student status to the National Student Loan Data System (“NSLDS”) clearinghouse within the required deadlines through submission of student status confirmation reports every 60 days.

	<u>Number of Instances</u>
Dakota County Technical College	2
Inver Hills Community College	1
Minnesota West Community and Technical College	1
Minnesota State College – Southeast Technical	1
Rochester Community and Technical College	2
Southwest Minnesota State University	2
Winona State University	3

In addition, we also noted that the scheduling of data submissions to the clearinghouse and roster file creations left exposure for non-compliance with the 60 day requirement at various times during the year at Minnesota State University, Mankato, Minnesota State College – Southeast Technical, Rochester Community and Technical College and Winona State University.

Criteria:

Under the requirements for the Federal Family Education Loan and Federal Direct Student Loan Programs, changes in student status must be reported to NSLDS within 30 days, unless a Roster File is scheduled to be submitted within 60 days.

Effect:

The above Colleges and Universities are not in compliance with the reporting requirements specified by federal program guidelines.

Status of Prior Federal Program Audit Findings Supplemental Information – Continued

Recommendation:

The above Colleges and Universities should ensure student status changes are reported to NSLDS within 30 days, unless a Roster File submission is expected within 60 days. They should also review the submission dates for NSLDS to ensure compliance with either the 30 or 60 day requirement.

Minnesota State Colleges and Universities Response:

Southwest Minnesota State University is the only institution cited in KDV-05-3 that has not fully resolved the finding. Southwest Minnesota State University has updated a schedule with NSLDS to submit files every 30 days.

Person Responsible: David Vikander, Financial Aid Director, Southwest Minnesota State University.

Estimated Completion Date: Spring term 2007

Status of Prior Federal Program Audit Findings Supplemental Information – Continued

Report KDV-05

State Agency: Minnesota State Colleges and Universities

Federal Agency: U. S. Department of Education

CFDA Numbers/Program Names:

84.007	Federal Supplemental Educational Opportunity Grant
84.063	Federal Pell Grant
84.032	Federal Family Education Loans (FFEL)
84.038	Federal Perkins Loans

Finding KDV-05-6 *Title IV funds to be returned were not correctly calculated or returned.*

Condition:

Inver Hills Community College incorrectly calculated return of Title IV funds for the fall 2004 term. The calculations were based on waiving a percentage of charges based on the last date of attendance. The impact of this calculation error was \$ 1,099. *This has been corrected.*

Winona State University returned an amount that did not agree to the return of Title IV calculation. The impact of this was that Pell was underpaid by \$ 140 and Perkins Loan was overpaid \$ 140. *This has been corrected.*

St. Cloud State University did not perform calculations or return to Title IV funds for students who unofficially withdrew for spring 2005 and summer 2005 terms. The impact for spring 2005 was \$ 96,662 and summer 2005 was \$ 19,388. A summary of these questioned costs by SFA Program is as follows:

CFDA	Description	Time Period	Total
84.063	Federal Pell Grant	2005	\$ 8,891
84.032	Subsidized Federal Family Education Loans	2005	38,250
84.032	Unsubsidized Federal Family Education Loans	2005	69,573
84.038	Federal Perkins Loans	2005	575
			<u>\$ 117,289</u>

Status of Prior Federal Program Audit Findings Supplemental Information – Continued

Criteria:

The *OMB Compliance Supplement* requires an institution to properly calculate and determine the return of Title IV funds for all students that receive financial aid and either officially or unofficially withdraw.

Effect:

The above College and Universities may not be consistent with special tests and provisions regarding return of Title IV funds as specified by the *OMB Compliance Supplement*.

Recommendation:

The above College and Universities should improve the methodology used to identify students and perform timely and accurate return of Title IV fund calculations.

Minnesota State Colleges and Universities Response:

St. Cloud State University has placed primary responsibility for ensuring compliance with Return to Title IV (R2T4) requirements with the Director of Business Services. In addition, the Office of the Chancellor's System Director for Financial Aid will be monitoring to ensure that the university is completing timely R2T4 calculations. Finally, the university is awaiting a determination letter from a U.S. Department of Education program review on this issue.

Person Responsible: Jeff Wagner, Director of Business Services, St. Cloud State University

Estimated Completion Date: Spring term 2007

Status of Prior Federal Program Audit Findings Supplemental Information – Continued

Report KDV-05

State Agency: Minnesota State Colleges and Universities

Federal Agencies: U. S. Department of Education
U. S. Department of Health and Human Services

CFDA Numbers/Program Names:

84.007	Federal Supplemental Educational Opportunity Grant
84.033	Federal Work Study
84.063	Federal Pell Grant
84.268	Federal Direct Student Loans (FDSL)
84.032	Federal Family Education Loans (FFEL)
84.038	Federal Perkins Loans
93.364	Nursing Student Loans

Finding KDV-05-9 *Excessive security rights to the financial aid system.*

Condition:

Many colleges and universities had excessive security access rights granted to individuals to the financial aid system, including setup access for the financial aid system and deleting and changing holds.

Criteria:

The *OMB Compliance Supplement* administrative capability provisions require adequate security controls over SFA operations.

Effect:

MnSCU Colleges and Universities accepted a level of system control risk that created unnecessary security exposure to system access rights.

Recommendation:

MnSCU Colleges and Universities should ensure that access to the financial aid system is limited to appropriate levels based on job responsibilities to reduce unnecessary security risks.

Status of Prior Federal Program Audit Findings Supplemental Information – Continued

Minnesota State Colleges and Universities Response:

The specific security identifier that allows access to setup in the financial aid system and the ability to delete and change holds will be limited to two individuals per institution. The system director for financial aid will approve exceptions to this requirement. The security identifier in question allows access to other functionality within the financial aid system. If necessary, additional security identifiers will be created to allow staff to gain access only to functionality needed to complete job responsibilities.

Person Responsible: Christopher Halling, System Director for Student Financial Aid

Estimated Completion Date: May 2007
