PROPERTY TAXES LEVIED IN MINNESOTA

1981 ASSESSMENTS

TAXES PAYABLE IN 1982

F O R E W O R D

Property tax is a very important source of revenue for all local units of government: cities, townships, school districts, special districts and county government. The State Government of Minnesota has not levied a property tax since 1966.

Property Taxes Levied in Minnesota is divided into five main parts. First is a description of the Minnesota property tax system including a review of values, tax levies and mill rates. A section devoted to historical data follows, with some tables containing information from as far back as 1925. A comparison of payable 1981 and 1982 assessed values, taxes levied, homestead credit, agricultural credit, net tax payable and average mill rates by county is also included. The third part contains current year assessed valuation and market valuation data while current year tax data is found in the fourth. Mobile home property tax data for payable 1981 is summarized in the final section of the bulletin.

SECTION I

Review of the Minnesota Property Tax System

A. Values

B. Levies and Mill Rates

SECTION I

REVIEW OF THE MINNESOTA PROPERTY TAX SYSTEM TAXES PAYABLE IN 1982

The following narrative section is a general description of the Minnesota property tax system for taxes payable in 1982 and the laws that prevailed at that time.

The general property tax is the major tax imposed by local governmental units and school districts. The State has not imposed a levy on property since 1966. Therefore, the entire property tax base is subject to taxation only by the local taxing districts; county governments, cities, townships, school districts and special taxing districts. The property tax is an ad valorem tax. The amount of tax levied on a parcel of property is based upon the market value of the property, the total assessed value of property in the taxing districts having authority to levy a tax on the parcel of property, and the property tax budget requirements of the taxing districts. (See Fiscal Disparities, page 20, for the method of taxation in metropolitan counties.) All real property and tangible personal property is subject to taxation unless specifically exempted by law.

A. Values

1. Exempt Property:

Exempt real property includes Indian lands, public property, educational facilities, religious and charitable institutions. The property is valued every six years with the most recent assessment being made in 1980.

Exempt personal property includes farm livestock, farm machinery, furniture, inventories, tools and machinery of service, retail, wholesale and manufacturing businesses, furnishings of rental units if the rental value is subject to the sales tax, and containers in the possession of the consumer during consumption if the sale of the commodities is subject to the sales tax. Household goods are also exempt from property taxation as are intangible properties, such as stocks, bonds and insurance policies.

Effective for the 1973 and subsequent assessments, exempt property also includes the value of commercial and industrial tools, implements, machinery and equipment attached to or installed in real property for use in the business or production activity conducted thereon, excepting public utility attached machinery.

2. Assessors:

As of January 1, 1968, each county must have a county assessor appointed by the Board of County Commissioners and approved by the State Commissioner of Revenue. The term of county assessor is four years. Assessors in municipalities of 30,000 or more population have the same duties and

2. (Cont.)

responsibilities as county assessors. The county assessor, aided by deputy assessors and local assessors, must assess all property except state-assessed property. The state is responsible for the original assessment of electric transmission and distribution systems and pipeline systems distributing natural gas or petroleum products. All air-flight property, i.e., commercial aircraft, is assessed by the state. Minerals and unmined ore are also state-assessed.

3. Valuation of Property:

All taxable property values are listed as of January 2 of each year. At least one-fourth of all parcels of real property in a taxing district must be reassessed every year so that every parcel is assessed at least once every four years. All property is to be valued at its market value, which is its selling price in a normal open market transaction. (Prior to the 1975 assessment all real estate was supposed to be assessed every two years and personal property assessed every year. In practice, especially in counties with many parcels, real estate was rarely reassessed that often.) Before the 1972 assessment, the market value was divided by three to arrive at an "adjusted market value." The statutory classification rates (see Number 4, Classification of Property below) were applied to the adjusted market value to determine the assessed value. With the discontinuation of adjusted market value, the total assessed values of real and personal property approximately tripled. Since the mill rate is determined by dividing the tax levy by the assessed valuation, the mill rate under the current method is approximately one-third of what it had been under the previous system. Therefore, a rate of 300 mills would be only 100 mills under the new system.

4. Classification of Property:

The Minnesota property classification system originated with the 1913 Legislature which passed the classified property tax law. Beginning in assessment year 1914 Minnesota had four classes of property:

Class 1 - Iron ore mined or unmined at 50% of full and true value.

Class 2 - Household goods and personal effects assessed at 25%.

Class 3 - Unplatted real estate, livestock, farm produce, inventories and manufacturers' tools assessed at 33 1/3%.

Class 4 - All other properties, primarily urban realty, assessed at 40% of full and true value.

The 1933 Legislature made a significant change in the classification system by establishing a preferential percentage for homestead property. The following two homestead classifications were created effective for assessment year 1934.

Class 3b - Unplatted real estate used for a homestead, 20% on the first \$4,000 of full and true value and 33 1/3% on any excess.

Class 3c - Platted real estate used for a homestead, 25% on the first \$4,000 of full and true value and 40% on any excess.

Beginning in 1941, there has been a change in the classified property tax law during every session of the state legislature.

The next major reform to the property tax system came in 1967 with the passage of the "Tax Reform and Relief Act." The tax relief programs created by the Act were designed to reduce the burden of local property taxes by reducing the costs of local government and providing taxpayers with reimbursements linked to property tax payments. The state took increased fiscal responsibility for local costs. Under this Act all farm livestock and machinery were exempted from property taxation. Businesses were given the option to exempt either inventory or tools and machinery. Other property tax relief programs not relating to the property classification system were also enacted, such as the homestead credit, renters' credit, senior citizen income tax credit, local government aids and elimination of the state property tax levy.

When property is valued, it must be classified according to the legal classification system. The various statutory classification rates are applied to the market value to determine the assessed value of property. Taxable value differs from assessed value when there are any tax increment assessed values, fiscal disparities assessed values or ten percent power line assessed values. These assessed values must be subtracted from the total assessed value in order to arrive at the taxable value. This taxable value is the one used for mill rate calculations. Real and personal property in Minnesota is classified as follows for the 1981 assessment for determination of taxes payable in 1982. Mobile home property not qualifying for treatment as real estate is classified for the 1981 assessment for taxes payable in 1981.

REAL PROPERTY

Class	Year Enacted	Description	Percent of Market Value
1	1913	Unmined Iron Ore	50%
1a	1913	"Low Recovery" Iron Ore	30 to 48½%
1b		Severed mineral interests tax	*
3	1923	Agricultural non-homestead	19%
3	1959	Seasonal residential for recreational purposes:	
		a. Commercial, but not used for more than 200 days per year (example: resort). See also Class 3b below.	21%
		b. Non-commercial (example: cabin)	21%
3	1974	Tools, implements and machinery of an electric generating, transmission or distribution system or a pipeline system transporting or distributing water, gas or petroleum products which are fixtures to real property	33-1/3%

REAL PROPERTY

<u>Class</u>	<u>Year Enacted</u>	<u>Description</u>	<u>Percent of Market Value</u>
3a	1959	Commercial seasonal recreational residential not used for more than 200 days per year which includes a portion used as a homestead by the owner	12%
3b	1933	Agricultural homestead 1st \$54,000 market value	14%
		Excess of market value over \$54,000	19%
3c	1933	All other homestead** 1st \$27,000 market value	16%
		2nd \$27,000 market value	22%
		Excess of market value over \$54,000	28%
3cc	1953, 1969 & 1974	Paraplegic veterans, homesteads of blind and permanently and totally disabled persons 1st \$35,000 market value***	5%
		\$35,000 to \$54,000 market value: agricultural	14%
		Excess of market value over \$54,000: agricultural	19%
		\$35,000 to \$54,000 market value: all other	22%
		Excess of market value over \$54,000: all other	28%
3d	1971	Non-homestead residential a. Apartments with four or more units that do not qualify as Title II National Housing	36%
		b. Land of Title II National Housing	36%
3dd	1979	Non-homestead residential one, two or three units	28%
3e	1957	Timberland	19%
4	1981	All other real property 4c Commercial, industrial, public utility land and buildings, railroad operating property: 1st \$50,000 market value	40%
	1974	4a Commercial, industrial, public utility land and buildings, railroad operating property: Excess over \$50,000 market value	43%
	1980	4b Vacant land	40%
None	1973	Type I and II Apartments Five or more stories (structures only)	25%
		Four or less stories (structures only)	33-1/3%
None	1969	Housing for elderly or for low and moderate income families financed by direct federal loan or federally insured loan pursuant to Title II of the National Housing Act or the Minnesota Housing Act. Structures only.***	20%

REAL PROPERTY

<u>Class</u>	<u>Year Enacted</u>	<u>Description</u>	<u>Percent of Market Value</u>
None	1971	Housing for elderly or for low and moderate income families financed by a direct loan or insured loan from the Farmer's Home Administration and located in a municipality under 10,000 population. Structures only.***	5%
*		25¢ per acre annually (tax effective January 1, 1975). Each parcel is subject to minimum annual tax of \$2.00.	
**		Townhouse property is classified and valued as all other homestead real estate. Value is added for each unit's share of the development's common areas.	
***		The assessed value resulting from this classification is used to determine a property tax credit (reduced assessment credit) extended to this type of property. The regular classification ratio that applies for this property is used to determine the assessed value which is used for mill rate and tax extension purposes.	

PERSONAL PROPERTY

<u>Class</u>	<u>Year Enacted</u>	<u>Description</u>	<u>Percent of Market Value</u>
2a	1959	Mobil Homes	
		Agricultural Homestead	
		1st \$50,000 market value	14%
		Excess of market value over \$50,000	19%
		Non-Agricultural Homesteads	
		1st \$25,000 market value	16%
		2nd \$25,000 market value	22%
		Excess of market value over \$50,000	28%
		Non-homestead	same as real property for 1980 assessment year
3		Structures on leased public lands in rural areas	21%
3		Tools, implements and machinery of an electric generating, transmission or distribution system or a pipeline system transporting or distributing water, gas or petroleum products which are fixtures	33-1/3%
3		Leased agricultural real estate of exempt land (M.S. 272.01, Subd. 2)	19%
3f	1969	Owner occupied residences on leased public or railroad lands	****
3g	1981	Leased homestead on land owned by occupant	****

PERSONAL PROPERTY

<u>Class</u>	<u>Year Enacted</u>	<u>Description</u>	<u>Percent of Market Value</u>
4*****		Structures on leased public lands in urban areas	40% & 43%
		Structures on railroad operating right-of-ways	40% & 43%
		Leased all other (non-agricultural) real estate of exempt land (M.S. 272.01, Subd. 2)	40% & 43%
		Systems of electric, gas and water utilities	40% & 43%
****		Buildings receive the classification rate as if they were homestead real property within the scope of Class 3b, 3c or 3cc, whichever is applicable.	
*****		Potentially these properties are also eligible for the class 4c preferential 40% rate on the first \$50,000 of market value	

END OF CLASSIFICATION LAW

There will be no assessment of the former classes of property listed below:

- 3 Personal - Inventories, stocks of merchandise of sorts, all materials, parts and supplies, furniture and equipment, manufacturer's materials, manufactured articles including the inventories of manufacturers, wholesalers, retailers and contractors, and the furnishings of a room or apartment in a hotel, rooming house, tourist court, motel or trailer camp, and tools and machinery which, by law, are considered as personal property
- 3a Agricultural products in the hands of the producer
- 3j Petroleum refinery's personal property
- 3 Real - Machinery which constitutes fixtures to real estate except public utilities under ad valorem taxation

5. Market Value Increase Limitation:

The 1973 Legislature created the concept of limited market value by placing a 5% reassessment on homestead property. In 1975 this limit was repealed and the annual market value increase for any property for the 1975 through 1978 assessments was limited to 10 percent or one-fourth of the total amount of increase from the previous year, whichever was greater. In 1979 a change was made in the formula used in determining the limited market value on property for the 1979 assessment and the elimination of the limited market value on property for the 1980 assessment. For the 1979 assessment, the

amount of increase in the limited market value was 10 percent of the 1978 limited market value or one-half of the difference between the 1978 limited market value and the 1979 estimated market value, whichever amount was greater. This limited market value was the base to which the property classification assessment percentages referred to in Number 4 above were applied to arrive at the assessed value for assessment years 1975 - 1979. Beginning with the 1980 assessment, the limited market value on property was eliminated, and the estimated market value is now the base to which the property classification assessment percentages are applied to arrive at the assessed value.

6. Review and Equalization:

The work of the assessor is subject to administrative review and equalization at three levels: the local Board of Review, the County Board of Equalization and the State Board of Equalization. It is the duty of these boards to equalize property assessments within each class and within each taxing district.

B. Tax Levies and Mill Rates

1. The Property Tax Budget Levy:

Each local taxing district determines the amount of money needed to fund their various operations in the coming year. The total amount of this money is commonly referred to as a "budget." Finances for the budget originate from a variety of sources including, among others, state and federal aids, parking meters, fines, municipal liquor stores, licenses, permits, local sales taxes and property taxes. The property tax budget levy is only one constituent of the entire operating budget required by the taxing district.

2. Levy Limitations:

The 1971 Legislature enacted a law which imposed limitations upon the revenue raised by means of property tax levies. There are two basic overall levy limitation laws; one pertains to local government and the other pertains to school districts. Since these laws are completely independent of one another, each will be discussed separately.

a. Local Government Levy Limitations:

All counties, cities, towns, and special taxing districts except the Metropolitan Transit Authority are subject to the 8 percent levy limitation. Basically, it limits these local governmental units to an 8 percent increase in the levy limit base over the levy limit base in the previous levy year. For payable 1982, the beginning levy limit base is the lesser of the payable 1981 levy limit or the actual levy for payable 1981 subject to the levy limit. The payable 1982 levy limit base includes payable 1981 levies for decreased non-tax revenues and shade tree disease control and is adjusted to reflect increases in the homestead count.

Provisions are made in the law which allow the limitations to be increased or adjusted to reflect boundary changes, transfer of functions or services from one governmental subdivision to another, or the will of the voters of the governmental subdivision by way of a direct referendum on a levy increase. Towns are authorized by law to increase levies above the limitation by holding special town meetings.

This 8 percent levy limitation is in addition to specific charter, special law and statutory levy limitations. If the 8 percent levy limitation is more restrictive than the specific limitations, the 8 percent levy limitation prevails. If the specific limitations are more restrictive than the 8 percent levy limitation, the specific limitations prevail.

All ad valorem tax levies are subject to the governmental subdivision's 8 percent levy limitation except for "special levies." The "special levies" authorized outside the 8 percent levy limitations are numerous and detailed, but in brief they include the following levies:

(1) The increased costs of court judgments and out of court settlements on any tort action, including the premium costs of liability insurance (but excluding coverage for Workmen's Compensation claims);

(2) The increased cost of compliance with written lawful orders initially issued prior to January 1, 1977, by the State of Minnesota, or the United States, or any agency or subdivision thereof, or with stipulation agreements in lieu of such lawful orders signed before January 1, 1977. This special levy also includes the cost of complying with permits or applications for permits for treatment works or disposal systems for pollution abatement in lieu of lawful orders which were initially signed before January 1, 1977;

(3) Matching fund programs or projects with the state or federal government to the extent of the increase in levy for the required local share over the amount levied for the program or project in levy year 1970, taxes payable in 1971. In determining the special levy, the governmental subdivision may include levies in anticipation of state or federal grants, levies to reimburse expenditures already made in the previous levy year for local shares, as well as current levy year requirements;

(4) The costs of social services and social services administration and the unreimbursed cost of public assistance aids up to a maximum 18% increase over the previous year. This does not include the costs of public assistance administration;

(5) Bonded indebtedness, including the entire levy amount required to make the bond principal and interest payments due in the forthcoming budget year. A municipality may also claim a special levy for the amount needed to reimburse liquor store revenues used to pay the principal and interest due on municipal liquor store bonds in the calendar year immediately preceding the current levy year. Other bond-like payments that qualify as a special levy are the levies to fund the payments made to the Minnesota State Armory Building Commission to the extent that such payments are for the purpose of retiring the principal and interest on armory construction bonds. Similarly, a levy to fund the payments made to another political subdivision of the State

of Minnesota is a special levy to the extent that such payments are used to retire the principal and interest on bonds or certificates of indebtedness of the type that qualify for a special levy;

(6) The cost of principal and interest on certain types of certificates of indebtedness. These are primarily equipment certificates of indebtedness such as those authorized for statutory cities by Minnesota Statutes, Section 412.301;

(7) A decreased mobile home tax distribution, to the extent that the governmental subdivision's portion of the ad valorem tax on mobile homes in the current levy year is less than the distribution of the mobile home tax aid to the governmental subdivision in calendar year 1971;

(8) For those governmental subdivisions which experienced a county auditor's error of omission or an error of omission in the levy certified to the county auditor in levy year 1971 or thereafter;

(9) The increased costs of municipal services resulting from annexations, consolidations or incorporations ordered by the Minnesota Municipal Board after 1970. The amount of such increased costs must be the costs as estimated by the Minnesota Municipal Board and contained in a Municipal Board order. The total special levy may not exceed 50 percent of the governmental unit's levy limit base. This amount may be levied in one year or prorated over two or three years, depending on the Municipal Board's order;

(10) The increased costs of providing municipal services to new private industrial and non-residential commercial developments. One part of the special levy is for site preparation, such as sewers, water lines, streets, street lighting and traffic signals for the development site. One year's expenditures for each site to be paid by non-bonded indebtedness property tax levies may be claimed as a special levy. The other part of the special levy (applicable only to cities and towns) is tied to the increase in the assessed value of new industrial and commercial property. For each development, the current assessed value is compared to the latest assessed value prior to the issuance of the basic construction permit (the oldest one issued within the three calendar years preceding the current levy year). The sum of these differences for all eligible developments is multiplied times the ratio of the city or town's levy limitation for the current levy year to its total assessed value for the current levy year in order to determine the special levy. The developments used must all be taxable, nonresidential properties and their assessed values for the purpose of this special levy include both land and buildings;

(11) The amount required to recover a loss in tax receipts due to abatement or court action in the year preceding the current levy year. Limited to the ratio of non-special levies to total levies for the year preceding the current levy year multiplied times the loss in tax receipts. The special levy portion may be claimed under other special levy categories. County governments are not authorized to claim this special levy;

(12) The amounts required by law to reduce the unfunded accrued liability (deficit) of public pension funds, including interest on the deficit, to the extent of the increase over 106 percent of the amount levied for that purpose in levy year 1976, payable in 1977;

(13) The cost of establishing and administering an employer commuter van program in accordance with Minnesota Statutes, Section 174 27. Limited to 0.1 mill for establishment and 0.01 mill for administration;

(14) The cost of shade tree disease control programs operating under Minnesota Statutes, Section 18.023. Includes the cost of sanitation, reforestation, equipment and foresters. The special levy is reduced by the unspent balance of the similar levy for 1980 payable 1981 and the amount of anticipated state or federal grants, and does not include the cost of equipment purchased through the issuance of bonds or certificates of indebtedness. The special levy for shade tree disease control is finally reduced by 108% of the payable 1981 special levy.

(15) The amount of tax receipts lost due to abatements or court action in 1980 resulting from a reassessment ordered by the Commissioner of Revenue. This special levy is applicable to county governments. City governments may claim a special levy for lost tax receipts from a particular abatement or court action only once;

(16) The costs of the Southern Minnesota River Basin Area II for Blue Earth, Brown, Cottonwood, Lac Qui Parle, Lincoln, Lyon, Murray, Pipestone, Redwood, or Yellow Medicine counties.

(17) The costs of providing legal assistance to indigents not to exceed 0.25 mills. This special levy is applicable only to county governments.

Except for these "special levies" and any increased levies authorized by direct referendum and special town meetings, all levies in excess of a governmental subdivision's 8 percent levy limitation are subject to a penalty equal to 33 percent of the excess levy, which is deductible from the governmental subdivision's Local Government Aid payments.

2. b. School District Levy Limitations:

Maintenance:

The major levy limitation for school districts limits the school maintenance levy. The chief maintenance expenditures are for instruction, administration and the operation and upkeep of school buildings. The major components of the maintenance levy are the following:

Basic Maintenance: For all school districts, except those with relatively high property valuation per pupil unit and the three intermediate AVTI (Area Vocational-Technical Institute) districts, the basic maintenance levy limitation before adjustment equals 24 mills times the adjusted assessed valuation of the district for the preceding year. For districts with relatively high property valuation per pupil unit, a cap is placed on the basic maintenance levy limitation to avoid giving authority to levy and excessive amount per pupil unit.

(The adjusted assessed valuation is the taxable valuation of each district adjusted by the state for variations in property assessment levels and other adjustments specified by statutes. The adjusted assessed valuation is also known as the EARC value.)

The foundation program provides a certain level of financial support (before adjustments) from state and local efforts combined, for each pupil unit. The maximum local effort is the basic maintenance levy limitation. The state effort is the foundation aid formula allowance times the pupil units of the district less the maximum local effort. The foundation aid formula allowance is \$1,346 for school year 1982-83 (the year for which 1981 payable 1982 levies provide revenue). The state did not support the \$1,346 funding level due to financial problems.

Replacement Maintenance: All K-12 (Kindergarten through 12th grade) districts have a replacement maintenance levy limitation. It is equal to the district's equalizing ratio times the 1982-83 replacement revenue. The 1982-83 replacement revenue replaces the reduction to foundation aid due to the repeal of the supplemental pupil units and the repeal of sparsity aid. Districts with a low EARC value per pupil unit will have a low equalizing ratio. Districts with a high EARC value per pupil unit will have a high equalizing ratio, but the equalizing ratio never exceeds one. With adequate funding, the replacement foundation aid adjustment is equal to the replacement revenue less the levy limitation component.

Grandfather (Excess) Maintenance: Forty-one percent of the K-12 districts have a grandfather maintenance levy limitation. Grandfather revenue is equal to the grandfather allowance times the current year's pupil units. The grandfather levy limitation is equal to the grandfather revenue times the lessor of 1 or the ratio of the district's EARC value per pupil unit to the state's EARC value per pupil unit. A grandfather allowance is established on the basis of 1970-71 operating costs. Districts that had a high operating cost per pupil unit have a grandfather allowance. With adequate funding, the grandfather foundation aid adjustment is equal to the grandfather revenue less the levy limitation component.

Discretionary Maintenance: Seventy-two percent of the K-12 districts had a discretionary maintenance levy limitation. The maximum amount authorized was equal to 2 mills times the previous year's EARC value of the district. The district's voters may, by referendum, eliminate the increase of this limitation authorization. The district's fund balance in the operating funds also restricts the discretionary levy limitation. The maximum discretionary revenue was established at \$138.52 times the district's pupil units. With adequate funding the discretionary foundation aid adjustment is equal to the discretionary revenue less the levy limitation component.

Unemployment Insurance Maintenance: Sixty-two percent of the K-12 districts have an unemployment insurance maintenance levy limitation. It is equal to the amount needed to eliminate the projected deficit balance in the general fund account appropriated for unemployment insurance.

Referendum Maintenance: Thirty-nine percent of the districts have a referendum maintenance levy limitation. It is the additional levy authority

authorized by the voters of the district for the years specified on the ballot. The district's voters may, through a recall referendum, eliminate this levy limitation authority.

SOD Maintenance: 21% of the K-12 districts levy a maximum of 1 1/2 mills times the previous year's EARC value to retire the districts Statutory Operating Debt. This debt is an operating fund balance deficit established as of June 30, 1977.

Transportation:

All K-12 districts had an initial transportation levy limitation. The basic transportation levy limitation is two mill times the previous year's EARC value of the district. Districts are also allowed to have transportation levy limitation components for current year hazardous transportation costs and the additional amount needed to eliminate the projected deficit in the transportation fund account appropriated for bus purchases.

Community Service:

Eighty-three percent of the districts had a community service levy limitation. This limitation is equal to the greater of \$3.40 times the population of the district or the amount of the 1980 community service levy times 1.10. Districts must levy at least the minimum amount for community service in order to qualify for community service aid.

Capital Expenditure:

All K-12 districts have a capital expenditure levy limitation. The initial (basic and special limitation) is equal to \$115, \$120 or \$125 times the pupil units of the district but in no event greater than nine mills times the previous year's EARC value of the district. Low property value districts per pupil unit must levy for capital expenditure an amount at least equal to the minimum capital expenditure levy limitation, in order to qualify for capital expenditure equalization aid. High value districts per pupil unit are not eligible for aid.

General Debt Service:

Eighty-three percent of the K-12 districts levy for general debt service. Districts are obligated to levy an amount sufficient to pay their debt service obligations for bonded indebtedness and state loans.

AVTI Debt Service and AVTI "Other":

Only the 33 AVTI (Area Vocational Technical Institutes) districts are authorized to have an AVTI debt service or AVTI "Other" levy limitation. AVTI Other includes components for unemployment insurance and construction. The three intermediate AVTIs also include components for secondary vocational and special education.

3. **Determination of the Property Tax Levy:**

The local units of government certify to the county auditor their property tax budget levy. The auditor adjusts the levies to comply with specific charter and statutory limitations. Generally, however, he makes no adjustments to the overall levy limitations of the taxing districts unless specifically

authorized to do so by the Commissioner of Education or the Commissioner of Revenue. This last review of the budget levies by the county auditor determines the actual dollar amounts to be levied through ad valorem property taxation.

4. **Special Assessments:**

Special assessments, which are also paid by property owners, involve the funding of such projects as streets, curbs, sidewalks, ditches and storm sewers. When any of these improvements are made to a person's property, that person is considered to have benefited directly by them. Improvements of this nature have no relationship to the value of the owner's property; rather, the amount needed for the project is determined on the basis of how much each property benefits. The determination of the mill rate and the individual's taxes due (see Section 5 below) excludes the amounts needed for these types of special assessments. Any amounts for special assessments are added but enumerated separately on the property owner's tax statement. They are not considered to be a tax on property.

5. **Determination of the Mill Rate and the Individual Taxes Due:**

The final levy requirements of each taxing district, namely counties, cities, towns, school districts and special taxing districts, are spread against the respective taxable values to determine the mill rates required to generate the necessary revenue. Under normal circumstances, this is accomplished by dividing the property tax budget levy amount by the total taxable value. For example, if the county's levy was \$1,000,000 and the total assessed value was \$50,600,000, then the total county mill rate would be calculated as follows:

$$\$1,000,000/\$50,600,000 = .0197628 = 19.763 \text{ mills}$$

Thus, one mill equals one-tenth of one percent.

Special attention, however, needs to be given to mill rate calculations which deviate from the customary calculations.

a. **Fire Protection Districts:**

Township mill rates are influenced by the presence of special fire protection districts (Minnesota Statutes 1982, Section 368.85). Any organized town may, through a majority vote cast by the electors within the proposed district, establish a territory which will receive fire protection. A fire district consists of compact and contiguous property of which at least 25 percent of the total assessed value of taxable real property therein is classified as homestead property and other buildings or structures. All costs of a fire protection district are borne by the property taxpayers located within its boundaries. The cost of the fire district is reflected in a higher municipal mill rate for the concerned property. Property outside of the district does not contribute tax dollars toward this protection.

b. **Rural-Urban Service Districts:**

A factor to be considered in the calculation of city mill rates is the rural-urban service district. A rural service district and an urban service district which are adopted by ordinance constitute "separate taxing districts for the purpose of all municipal property taxes except those levied for the payment of bonds and judgments and interest thereon." (Minnesota Statutes 1982, Section 272.67.) Only unplatted lands which are rural in character and which

are not developed for commercial, industrial or urban use can become rural service districts. Such land is not benefited to the same degree as other lands by municipal services financed by general taxation. An urban service district consists of all lands within the boundaries of the municipality which are not included in the rural service district. Lesser benefits within a rural service district result in lower mill rates for taxpayers within its boundaries than for taxpayers located within the boundaries of the complementary urban service district.

6. **Agricultural Aid Credit:**

The state agricultural aid was first established by the 1933 Legislature as a mill rate differential on agricultural property for school maintenance levies. This resulted in a shift of the tax burden to non-agricultural properties. The 1971 Legislature initiated the providing of state aid to finance the agricultural aid mill rate differential. Initially, this state aid was equal to a differential of 8.3 mills. In 1975 the Legislature changed the aid from a mill rate differential to the type of property tax credit that currently exists. (See Table 16 on page 42.)

Effective for taxes payable in 1982 all agricultural homestead property up to 320 acres is subject to a tax reduction equal to the amount produced by applying a rate of 18 mills on the assessed value of the property. The portion of the agricultural homestead from 320 to 640 acres, the portion of non-homestead agricultural property up to 320 acres and all non-commercial seasonal recreational residential property receive a reduction equal to the amount produced by applying a rate of ten mills on the assessed value of the property. The portion of agricultural homestead property over 640 acres, the portion of non-homestead agricultural properties over 320 acres and 3e timberland properties receive a reduction equal to eight mills times the assessed value of the property. The amount of agricultural credit cannot exceed the amount of the school district levy on a specific property. The agricultural credit granted is paid entirely to the school district by the state.

7. **Wetlands Credit and Reimbursement:**

Enactment of the wetlands exemption, credit and reimbursement was made by the 1979 Legislature effective for taxes payable in 1981.

Effective for taxes payable in 1982, qualifying wetlands of one acre or more are exempt from the property tax, and local taxing districts automatically receive a state paid wetlands reimbursement designed to compensate for the exemption. The reimbursement is determined by multiplying the 1979 assessed value of property currently exempt under the wetlands provisions by the current year total mill rate for the taxing area in which the wetlands are located. For the purpose of this reimbursement, a parcel's 1979 assessed value of exempt wetlands cannot be less than \$5 per acre of wetlands.

Owners of property containing qualifying wetlands can apply for and receive a wetlands credit on the taxes they pay on the rest of their property as long as those parcels are contiguous to the wetlands parcel. The wetlands credit value is determined by multiplying the current year average estimated market value of an acre of tillable land in the township or city in which the wetlands are located by the number of acres of wetlands in the parcel. The actual credit amount is determined by multiplying the wetlands credit value by 7.5 mills. As with all of the property tax credits, the credit amounts actually paid cannot add up to exceed the gross tax liability. The amount of wetlands credit granted is paid by the state directly to the local taxing districts.

The exemption, reimbursement and credit apply to both homestead and non-homestead properties.

8. Native Prairie Credit and Reimbursement:

The 1980 Legislature passed the native prairie exemption, credit and reimbursement. These provisions became effective for taxes payable in 1981.

Effective for taxes payable in 1982, qualifying native prairie of ten acres or more (five acres in certain southern counties) is exempt from the property tax, and local taxing districts automatically receive a state paid native prairie reimbursement designed to compensate for the exemption. The reimbursement is determined by multiplying the 1979 assessed value of property currently exempt under the native prairie provisions by the current year total mill rate for the taxing area in which the native prairie is located. For the purpose of this reimbursement, a parcel's 1979 assessed value of exempt native prairie cannot be less than \$5 per acre of native prairie.

Owners of property containing qualifying native prairie can apply for and receive a native prairie credit on the taxes they pay on the rest of their property as long as those parcels are within two cities and/or townships from the native prairie parcel. The native prairie credit value is determined by multiplying the current year average estimated market value of an acre of tillable land in the township or city in which the native prairie is located by the number of acres of native prairie in the parcel. The actual credit amount is determined by multiplying the native prairie credit value by 15 mills. As with all of the property tax credits, the credit amounts actually paid cannot add up to exceed the gross tax liability. The amount of native prairie credit granted is paid by the state directly to the local taxing districts.

The exemption, reimbursement and credit apply to both homestead and non-homestead properties.

9. Reduced Assessment Credit:

In 1980 the legislature established the reduced assessment credit to become effective for taxes payable in 1981.

Effective for taxes payable in 1982, two sets of values are determined for Title II, Farmers Home Administration and Class 3cc properties. One set of values is based on the classification percentages that have been used in prior years. That is, 20% for all Title II and Minnesota Housing Finance Agency buildings and for Farmers Home Administration buildings in a community with a population over 10,000; 5% for Farmer's Home Administration buildings in communities with a population under 10,000; and 5% for the first \$35,000 of estimated market value for Class 3cc properties. The second set of assessed values is based on the classification percentage that would apply if the preferential assessment provisions did not exist and the properties were classified as 3b, 3c, 3dd or 3d, whichever is appropriate. These higher assessed values are used in the mill rate determination assessed value base and used to determine the gross tax for these properties. The resulting gross tax is to be decreased by the state paid reduced assessment credit. This credit is determined by multiplying the difference between the high and low assessed values for such properties by the prevailing total mill rate. The net effect of the reduced assessment credit is to reduce the property owner's gross tax to the tax amount that would have been due based on the preferential assessment provisions, but without the tax burden shift to other

property types. The reduced assessment credit is paid by the state directly to the local taxing districts.

10. Power Line Credit:

The 1980 Legislature passed the power line credit provision. To qualify for this credit a parcel of property must be located in an organized town or city, classified as class 3, 3b, 3c, 3cc, 3d, 3dd, 3f, or 3g and crossed by a transmission line of 200 KV or above which was constructed after June 30 1974. In the past, utility companies made direct payments to these property owners as a form of compensation for having these power lines cross their property.

Starting with taxes payable in 1982, the utility companies are no longer to make direct payments for the credit. Instead, the county auditor is to compute the credit and apply it against the gross property tax of the property owner. The credit is limited to 20 percent of the total gross tax, and the credit is not granted if it is calculated to be less than \$10. However, if the property containing the high voltage line right-of-way is included in a parcel which is more than 40 acres, the total gross tax on the parcel is multiplied by a fraction before the 20% is figured. This fraction is figured by dividing the 40 acres by the total number of acres in the parcel.

This credit is financed by a certain portion of the property tax paid by the utility companies. Ten percent of the assessed value of these transmission lines (200KV and above, constructed after June 30, 1974 and located in organized towns and cities) is not included in the assessed value used to determine mill rates, but is taxed at the prevailing total local mill rate. This tax is set aside to finance the power line credit.

11. Homestead Property Tax Relief Credit:

The homestead credit provisions were among the many property tax relief programs passed by the 1967 Legislature. (See Table 17 page 43).

Effective for taxes payable in 1982, the homestead credit is computed on 58 percent of the gross tax (less any agricultural, wetlands, native prairie, reduced assessment, supplementary homestead, taconite homestead or power line credits) of owner occupied (homestead) property to a maximum of \$650 per year. The reduction on agricultural homesteads also applies to the gross tax less agricultural, wetlands, native prairie, reduced assessment, supplementary homestead, taconite homestead or power line credits and is limited to the 240 acres of land most contiguous, surrounding, bordering or closest to the dwelling. Non-contiguous land is subject to the homestead classification and credit only if the homestead is classified as class 3b (agricultural homestead) and the detached land is located in the same township or city or not farther than two townships or cities or combination of the two from the homestead. Homestead mobile homes are also eligible for the homestead credit. The amount of homestead credit granted is paid by the state directly to the local taxing districts.

The taconite homestead credit was created by the 1970 Legislature. (See Table 18 page 44).

For taxes payable in 1982, an additional 57 percent or 66 percent (depending upon the iron ore value of the assessment district or the presence of taconite mines, plants or electric generating facilities) taconite homestead credit up to a maximum reduction of \$390 or \$445, respectively, is extended to

homesteads located in certain iron range areas. The taconite homestead credit is deducted before the 58 percent homestead credit is calculated and is paid by the state from a portion of the taconite production tax receipts.

Beginning in payable 1981, homesteads within school district #317 in Itasca County and school district #698 in Aitkin and St. Louis Counties receive the supplemental homestead property tax relief credit instead of the 57% taconite homestead credit. This credit was passed by the 1980 Legislature.

12. Mobile Homes:

Mobile home taxation adheres to the traits of more than one type of tax. The term "hybrid" might be a way of describing its characteristics. A mobile home, or trailer house, is not taxed as a motor vehicle even though it has the ability to be easily moved. Beginning with assessment year 1980, mobile homes that meet each of the following criteria must be treated as real estate and valued and assessed as such in 1981 for taxes payable in 1981 and subsequent years:

1. The owner of the unit holds title to the land upon which it is situated;
2. The unit is affixed to the land by:
 - a. a permanent foundation,
 - b. or is installed at its location in accordance with the mobile homes building code, Sections 327.31 to 327.34,
 - c. or is affixed to the land in a manner comparable to other real property in the taxing district;
3. The unit is connected to public utilities, has a well and septic tank system, or is serviced by water and sewer facilities comparable to other real property in the taxing district.

Those mobile homes not meeting each of the above criteria will continue to be classified as Class 2a personal property. These mobile homes are able to qualify for property tax relief credits in a manner similar to real property. To become eligible for homestead credit, the mobile home must be owner-occupied just as real property. Usually, homesteaded mobile homes receive the same assessment ratios as homesteaded real estate for the previous assessment year and the same homestead base amounts as for real estate in the current assessment year. However, for the 1981 mobile home assessment, the base amounts were the same as the ones used by real property assessed in 1980, payable in 1981. Because the flexible homestead base provisions did not become effective until payable year 1982, mobile homes assessed and payable in 1981 could not use the new homestead base amounts for real property assessed in 1981 and payable in 1982.

Mobile homes classified as Class 2a personal property are assessed every year as other personal property but the taxes are due in full on or before August 31 of that same year. The valuation of 2a mobile home property is not included in the calculations which establish the mill rates used to determine taxes on other real and personal property values. The mill rate applicable to 2a mobile home values is the mill rate which was established and was employed on other real and personal property in that same year.

The 1980 and 1981 valuations and resulting taxes associated with mobile homes classified as Class 2a personal property are shown on Tables 44 and 45.

13. Tax Increment Financing:

The mechanism of tax increment financing provides a growing tax base to finance renewal or renovation projects. There are seven main types of tax increment financing allowable under Minnesota law:

- 1 Minnesota Rural Development Finance Authority (M.S. 362A)
- 2 Port Authority (M.S. 458.192)
- 3 Municipal Development District (M.S. 472A)
- 4 Housing and Redevelopment Authority (M.S. 462.545 and M.S. 462.585)
- 5 Metropolitan Housing and Redevelopment Authority (M.S. 473.193-473.201)
- 6 Municipal Industrial Development (M.S. 474)
- 7 Special Laws:
 - St. Paul Urban Renewal - 1963 Laws, Chapter 881
 - Hopkins Development Districts - 1971 Laws, Chapter 548
 - Minneapolis and Robbinsdale Development Districts - 1971 Laws, Chapter 677
 - Duluth Development Districts - 1973 Laws, Chapter 761
 - St. Paul Development Districts - 1973 Laws, Chapter 764

Although these seven types of tax increment financing have particular distinguishing characteristics, they all function on the same basis. The original value of the project area, before renewal, is used when calculating the mill rate. The tax levies are spread against the full value of the project area. Revenue obtained from the difference between the original assessed value and the current year assessed value of the concerned property is distributed to the appropriate authority to finance the renewal project debt. As the value of the property increases, so will this "tax increment." The increment values and taxes are shown by city and by county on Table 21.

For example, a district had an original assessed value of \$500,000. The current year assessed value of the property, however, increased to \$750,000. The county auditor uses only the original assessed value of \$500,000 when determining mill rates. The difference between the two values, \$250,000, is the "tax increment value." This \$250,000 value times the total local mill rate equals the tax increment amount which the county auditor distributes to the affected tax increment district.

14. Fiscal Disparities:

The Metropolitan Development Act, more commonly known as "Fiscal Disparities," was first implemented for taxes payable in 1975. It established a new property tax system for the seven metropolitan counties of Anoka, Carver, Dakota, Hennepin, Ramsey, Scott and Washington. Although the law is complex, it can be briefly summarized as follows:

Forty percent of the increase in commercial-industrial (including public utility) assessed valuation in each assessment district since 1971 is contributed to an area-wide tax base. Using the factors of population and real property market value, a per capita distribution index is calculated. This index is employed in determining what proportion of the assessed value in the area-wide tax base shall be distributed back to each assessment district. The total assessed value less the contribution assessed value equals the local taxable value used to determine local mill rates.

A taxing district's budget levy is reduced by the levy amount it is permitted to spread on the area tax base. Its area levy amount is its distribution assessed value multiplied by its prior year mill rate. The reduced budget levy divided by the taxing district's local taxable value (assessed value less contribution assessed value) equals its levy mill rate. The local mill rate times the assessed value less contribution value is equal to the local portion of each district's property tax budget levy; whereas, the prior year local mill rate times the distribution value is equal to the area-wide portion. Each metropolitan county auditor certifies to the administrative auditor the area-wide portions of the levy for each district located within his county. The administrative auditor then computes an area-wide mill rate by dividing the total of the area-wide levies by the total area-wide tax base.

A calculated proportion of the assessed value of each commercial-industrial parcel of property is taxed based on the area-wide mill rate; the remaining value receives the local mill rate.

As a result of the aforementioned law, the property tax levy of a taxing district is not the tax amount paid by the taxpayers located within the geographic boundaries of that district. The amount they paid could be more or less than what is actually needed by the district in which they live, depending upon whether the area-wide mill rate was larger or smaller than the local mill rate and whether the contribution value was larger or smaller than the distribution value.

15. **Payment of the Tax:**

The resultant extensions of taxes due are submitted to the county treasurer for collection. Statements containing the assessor's determination of market value and the amount of tax due after the deduction of agricultural, wetlands, native prairie, reduced assessment, supplementary homestead, taconite homestead and the 58% homestead credits, where applicable, are sent to each taxpayer. Property taxes may be paid to the county treasurer in two equal installments. One-half of the personal property tax must be paid by February 28, and the other half by June 30. Payment of one-half of the real estate tax is due by May 31, with the remainder due by October 31. The tax on mobile homes is due in full on August 31.

16. **Property Tax Penalties:**

a. **Personal Property:**

All unpaid personal property taxes where the amount is \$10 or less are deemed delinquent on March 1 in the year they become due, and thereupon a penalty of eight percent is charged upon all such taxes. When the amount of such tax exceeds the sum of \$10, the first half becomes delinquent if not paid prior to March 1 and thereupon a penalty of eight percent is charged on the unpaid first half. The second half of the tax in excess of \$10 becomes delinquent if not paid prior to July 1 and thereupon a penalty of eight percent is charged on such unpaid second half. The provision does not apply to Class 2a mobile home property.

b. **Real Estate:**

On June 1 of each year, with respect to property actually occupied and used as a homestead by the owner of the property, a penalty of three percent is charged upon all unpaid current real estate taxes, and a penalty of seven percent on non-homestead property. Thereafter, for both homestead and

non-homestead property, on the first day of each month, up to and including November 1 following, an additional penalty of one percent for each month is charged on all such unpaid taxes. When the taxes against any tract or lot exceed \$10, one-half of them may be paid prior to June 1 without a penalty; the remaining one-half can be paid at any time prior to the following November 1 without penalty. However, if the remaining one-half is not paid by November 1, then a penalty of four percent is charged on homestead property and a penalty of four percent on non-homestead property. An additional penalty of two percent is added on December 1, and another two percent on January 1 if the second half taxes on homestead property remain unpaid. For non-homestead property, an additional four percent penalty is added on December 1, and another four percent is added on January 1 if the second half taxes remain unpaid. An additional two percent penalty is added on the amount of the original tax remaining unpaid on the first Monday in January.

c. Mobile Home:

All unpaid taxes on mobile homes shall be deemed delinquent on September 1 in the year of assessment and thereupon a penalty of eight percent shall be imposed.

SP:11

SECTION II

Historical Data

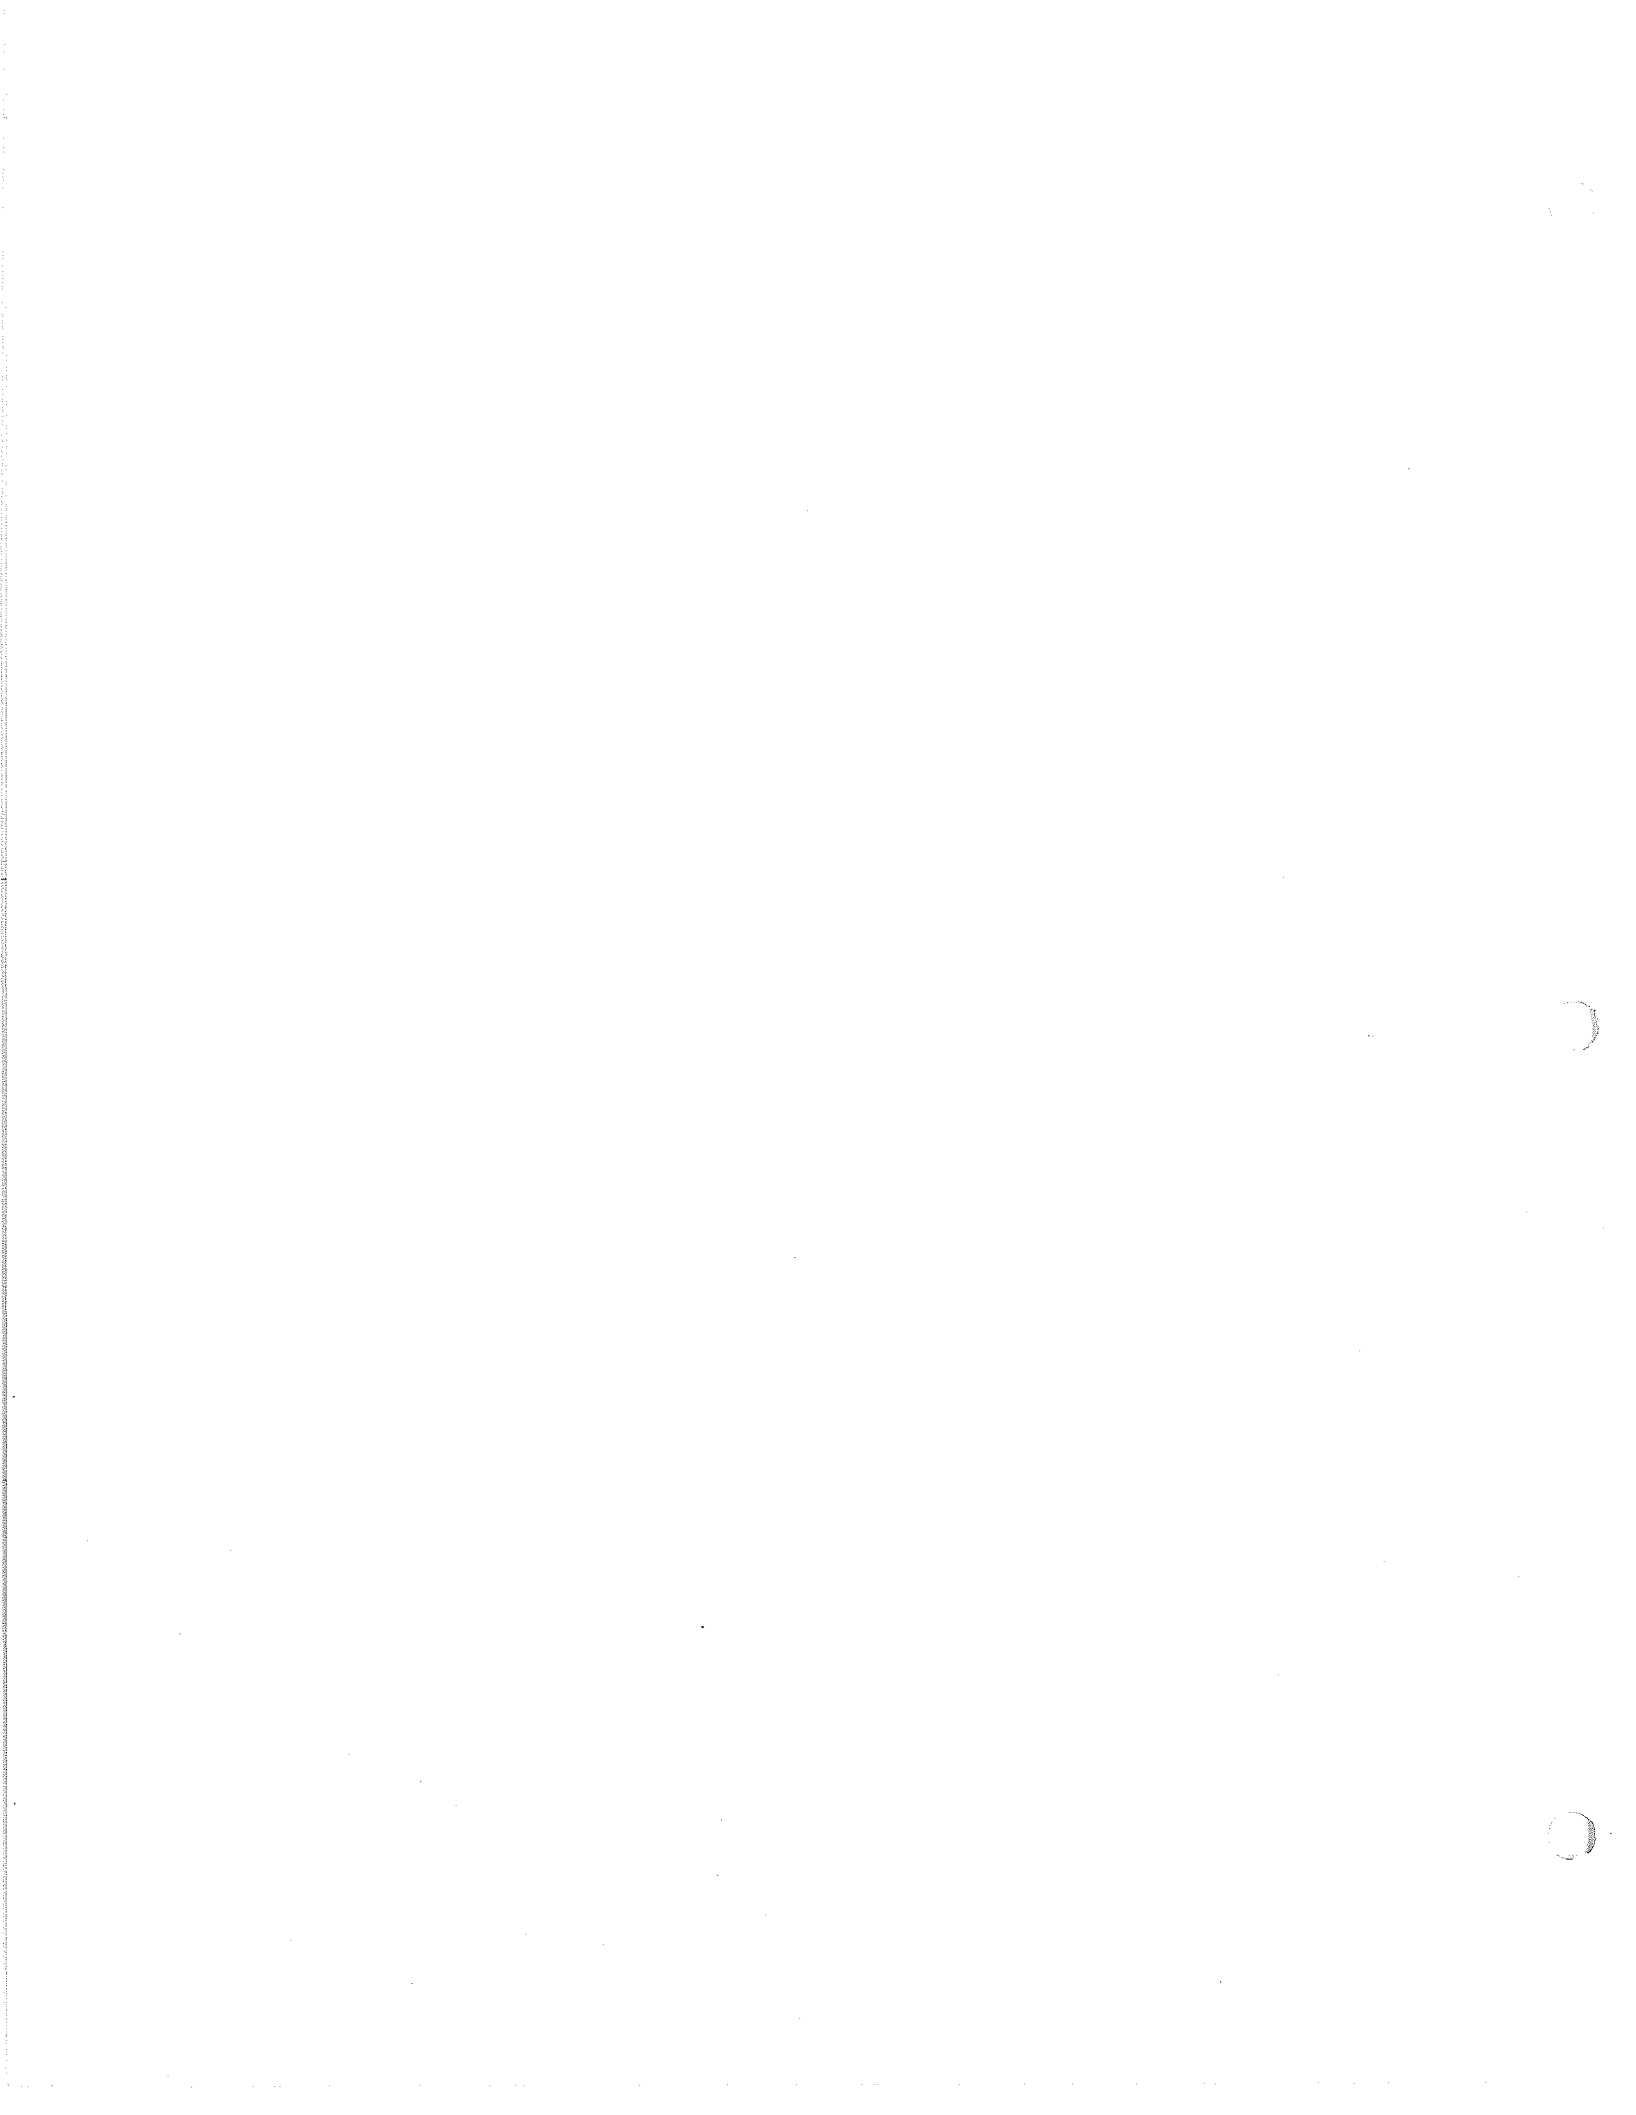

TABLE 1

ASSESSED VALUES, TOTAL TAXES LEVIED INCLUDING SPECIAL ASSESSMENTS
AND STATEWIDE AVERAGE MILL RATES

Payable Year	Assessed Values				Average Tax Rate In Mills*	Total Taxes Levied
	Rural Land Including Structures	Urban Land Including Structures	Personal Property	Total		
1925	\$1,123,400,013	\$ 585,034,919	\$242,871,326	\$ 1,951,306,258	57.26	\$ 121,136,992
1930	1,005,674,702	709,718,458	232,259,503	1,947,652,663	63.59	133,283,850
1935	693,911,735	551,060,473	151,882,975	1,396,855,183	78.27	115,494,682
1940	662,616,101	485,305,203	173,504,673	1,321,425,977	84.63	115,806,240
1945	570,925,664	526,848,397	207,125,645	1,304,899,706	86.72	115,417,272
1950	571,619,218	642,772,757	335,838,340	1,550,230,315	126.71	201,343,601

* The statewide average rate of taxation is exclusive of special assessments.

(a) In 1970 the column headings were revised. The revised individual real estate columns are not comparable with the previous years, however, remaining columns may be compared. Some homestead property values in excess of the amount eligible for homestead credit, in the past, have been incorrectly considered as non-homestead. Therefore, the column headed "Non-homestead Real Estate" actually contains some values that should be in the column entitled "Homestead Real Estate".

(b) The homestead base values by payable year are as follows:

1970-1972...\$4,000; 1973-1976...\$12,000; 1977...\$13,000; 1978...\$15,000; 1979...\$17,000;

1980...\$21,000; 1981...\$25,000; \$50,000 1982...\$27,000; \$54,000

(c) Taxes payable in 1973 were the first levies to come under the market value concept. Due to this change, the assessed values, and consequently, the average tax rate were affected.

NOTE: Homestead credit became effective with taxes payable in 1968; Taconite credit became effective with taxes payable in 1970.

* Due to the elimination of the "adjusted market value" concept, the mill rate decreased to approximately one-third of the previous level. See explanation on page 4.

** Total amounts of homestead credit include the following amounts of taconite credit:

1970.....	\$1,012,094	1973.....	\$2,617,416	1976.....	\$9,263,039	1979.....	\$11,748,570	1982.....	\$16,412,340
1971.....	1,043,486	1974.....	3,250,178	1977.....	9,066,923	1980.....	13,006,426		
1972.....	2,814,419	1975.....	3,648,072	1978.....	9,524,963	1981.....	14,398,085		

*** Includes Seven County Metropolitan Contribution Levy in:

1975.....	\$16,672,517	1977.....	\$19,418,464	1979.....	\$29,523,199	1981.....	\$46,774,964	(Note: For 1982, the Total Taxes Column also includes power line levy of \$367,851)
1976.....	20,986,439	1978.....	23,075,548	1980.....	36,268,483	1982.....	65,019,879	

**** In 1982, special taxing district amount includes tax increment financing levy amount of \$35,141,374.

***** Starting in 1981, the net taxes column reflects the exclusion of the following credits:

	1981	1982
Reduced Assessment Credit.....	\$11,536,758	\$14,026,852
Wetlands Credit.....	2,307,260	2,798,921
Native Prairie Credit.....	83,104	102,267
Power Line Credit.....	NA	135,506

* Special Assessments are charges made to specific real estate parcels for improvements which do not benefit the entire taxing district. Special Assessments are not included in the taxing districts levy when mill rates are determined.

** School Districts do not have special assessments. However, the entries in this table are basically old school district debts that were treated as special assessments during that year in which the taxes were due. Because of their treatment, these taxes were not included in calculating the average county mill rate, the statewide average mill rate, nor were they given homestead credit for the years in which homestead credit was paid.

*** Prior to payable year 1974, no specific provisions were made for reporting special taxing districts' (specifically watersheds) special assessments. Hence, any special taxing district's special assessments were shown on this table as county special assessments. Effective with payable 1974, a separate column was provided for reporting special taxing districts' special assessments.

TABLE 17

HOMESTEAD CREDIT DETERMINATION DATA
TAXES PAYABLE 1968-1982

<u>Payable Year</u>	<u>Base</u>	<u>Rate</u>	<u>Maximum</u>	<u>Acreage</u>
1968-1973	all non-debt	35%	\$250	80
1974	all non-debt plus school debt	45%	\$325	120
1975-1976	all non-debt plus school debt	45%	\$325	120
1977	all non-debt plus school debt after ag credit	45%	\$325	120
1978	gross tax after ag credit	45%	\$325	120
1979	gross tax after ag credit	45%	\$325	120
1980	gross tax after ag credit	50%	\$550	240
1981	gross tax after credits	58%	\$650	240
1982*	gross tax after credits	58%	\$650	240

NOTE: Taconite homestead credit is deducted before the homestead credit is calculated. Beginning in 1981 wetlands credit, native prairie credit, supplemental homestead credit and reduced assessment credit were also deducted in addition to agricultural credit before the homestead credit was calculated. In 1982, the power line credit was also deducted before the homestead credit determination.

* In 1982 a limitation was placed on the mill rate and levy used to determine homestead credit for all local taxing districts except school districts and the Metropolitan Transit Commission. If the 1982 levy of a taxing district was more than 108 percent of its 1981 levy, the total homestead credit amount was determined by the mill rate based on 108 percent of the taxing district's 1981 levy.

TABLE 18

TACONITE HOMESTEAD CREDIT PERCENTAGES AND MAXIMUMS
TAXES PAYABLE 1970-1982

<u>Payable Year</u>	<u>Percentages</u>	<u>Maximums</u>
1970-1971	17, 22 or 27%	\$190
1972-1975	21 or 27%	\$150 or \$190
1976	52 or 60%	\$300 or \$350
1977*	49.7 or 57.3%	\$287 or \$334
1978*	48.9 or 56.7%	\$283 or \$331
1979	57 or 66%	\$345 or \$400
1980	57 or 66%	\$360 or \$415
1981	57 or 66%	\$375 or \$430
1982	57 or 66%	\$390 or \$445

* The 1977 and 1978 percentages and maximums were adjusted due to insufficient receipts to cover the credit. The figures before adjustments were:

1977 - 52% or 60% with maximums of \$300 or \$350;
1978 - 57% or 66% with maximums of \$330 or \$385.

TABLE 19

ADJUSTMENT AMOUNTS FOR PRIOR YEARS
FOR REAL PROPERTY
TAXES PAYABLE 1974-1982

Year	Homestead Credit*		Taconite Homestead Credit	Supplemental Homestead Credit	Agricultural Credit***
	Tax Increment Financing Districts**	All Other Taxing Districts			
1974		\$ 203,485	\$ 164,020		
1975		74,344	11,440		
1976		539,488	17,636		
1977		790,092	16,516		\$ 1,636
1978		657,200	61,913		-3,287
1979		650,112	38,757		35,991
1980		945,389	54,518		42,529
1981	- \$ 73,367	1,229,469	45,038	\$ 2,109	69,284
1982	180,125	1,845,311	57,079	3,778	87,117

* Beginning with taxes payable in 1982, adjustment amounts for homestead credit, reduced assessment credit, wetlands and native prairie credits and reimbursements were combined and reported as one adjustment amount for prior years.

** Prior to payable year 1981, prior year homestead credit amounts for tax increment financing districts were not reported separately.

*** Prior to payable year 1977, a state financed mill rate differential comprised the agricultural aid as opposed to the agricultural credit referenced in this table.

** Homestead credit includes taconite homestead credit. The amounts for taconite homestead credit are as follows:

COUNTY	1981	1982	COUNTY	1981	1982
Aitkin	\$ 543,115	\$ 610,766	Koochiching	\$ -0-	\$ 7,539
Cook	245,716	304,437	Lake	938,277	1,082,623
Crow Wing	631,517	717,797	St. Louis	8,980,047	10,152,543
Itasca	3,059,413	3,536,635	Total:	\$ 14,398,085	\$ 16,412,340

The taconite homestead credit includes the following amounts of supplementary homestead credit:

COUNTY	1981	1982
Aitkin	\$ 1,216	\$ 1,316
Itasca	291,048	328,337
St. Louis	127,273	135,507
Total:	\$ 419,537	\$ 465,160

*** The assessed value and total levy columns contain tax increment financing amounts for those counties containing a tax increment financing district. The tax increment values and levies are listed on Table 21, pages 62-64. For 1982, the net taxes payable column reflects the reduction of the power line credit. The amount for this credit can be found on Table 38, page 210.

* The average rate of taxation is exclusive of special assessments.

** Value and levies include tax increment financing value and levy.

*** Includes: Area Vocational Technical Institutes (AVTI) namely, #287, #916 and #917.

**** Includes: Hospital Districts
Metropolitan Council
Metropolitan Transit
Mosquito Control
Watershed Districts
Housing & Redevelopment Authorities
Sanitary Sewer Districts
County Park District
Port Authorities
Regional Development Commissions

***** Includes the following amount of Supplementary Homestead Credit:

Aitkin	\$ 1,316
Itasca	328,337
St. Louis	135,507
Total	\$465,160

Explanation of Categorical Division of County,
City/Township, School District, and
Special Taxing District Levies by Major Purpose

To obtain uniform reporting from the 87 counties and to comply with the physical limitations of the Abstract of Tax Lists, the numerous authorized levies are grouped by major purpose of the levy. The county auditors are provided with instructions which detail the individual levies to be included in each category (column) on the abstract. Some are self-explanatory, while others include a wide variety of levies.

The following list is not a complete digest of all the levies. It is merely a general index to the nature of each category as found on the abstract. Tables 26 through 30 are patterned after the design of the abstract column headings.

COUNTY LEVIES

<u>Column Heading</u>	<u>Items Included Within Column Heading</u>
General Revenue.	General revenue.
Indebtedness	General obligation, state loans, debt portion of other levies.
Road and Bridge.	Road and bridge, repair and maintenance.
Welfare.	General assistance, aid to dependent children, aid to blind and disabled persons, medical assistance, administration expense, purchase and delivery of social services.
County Building.	County or regional jail construction, other county buildings.
County and/or Regional Library	County library, contracts for library service.
Public Employees Retirement.	Public employees' retirement and social security funds, employees on leave from the state.
Health Services.	Ambulance service, health department and county controlled hospital districts, mental health services, nursing homes and cattle testing.
Community Development.	Agricultural societies and extension committees, civil defense, correction centers, probation services, sheltered workshops, senior citizen recreation programs, historical societies, insect and weed control, solid waste programs, parks and monuments, voting machines.
Miscellaneous	Public examiner's post-audit expense, state reassessment costs, judgments, armories.
County Special Assessments	See (*) after City/Town Special Assessments.

CITY/TOWNSHIP LEVIES

Column Heading	Items Included Within Column Heading
General Revenue - Tort	Tort liability insurance.
General Revenue - All Other	All other regular and general fund purposes.
Indebtedness	General obligations, state loans, hospitals, parking facilities, water, sewer bonds, indebtedness of dissolved villages, and all other debt within any fund.
Road and Bridge	Road work, road drainage, bridge repairs.
Firemen's Relief	Relief for paid and volunteer firemen, police relief.
Public Employees Retirement	Public employees' retirement and social security funds.
Community Services and Protection	Airports, ambulance and health services, civil defense, aquatic vegetation, water pollution, insect control, fire and police protection, community correction and activity centers, dump grounds and sewage disposal, commemorative purposes, parks, recreation, musical entertainment, library, cemetery, voting machines.
Miscellaneous	Advertising, comprehensive planning, judgments, state post-audit expense, permanent improvement and replacement fund.
City/Township Special Assessments	See (*) below.

* Property taxes categorized as special assessments are not determined through the use of a mill rate as are ad valorem property tax levies. Instead, the dollar amount of a special assessment is paid by the property owner who benefits from the improvement regardless of the cash value of the owner's property. Examples of special assessments are ditches, curbs, gutters and storm sewers. If public property is improved by a special assessment, however, such as a courthouse sidewalk, every property owner pays a portion of its costs. The improvement is financed through proper funds within the county or municipality's total ad valorem levy.

SCHOOL DISTRICT LEVIES

Each of the following categories relate directly to the type of school property tax levy reported on the form entitled "Levy Limitation and Certification - 1981 Payable 1982".

Column Heading	Items Included Within Column Heading
Maintenance	Administration, operation and maintenance of school programs and buildings, includes salaries, fuel and supplies.
Transportation	Transportation costs, including bus service.
Community Service	Community oriented activities, not limited to any age group.
Capital Expenditure	Equipment and capital improvements not covered by bond issues.
Indebtedness	Debt service payments on general obligation bonds, state loans. Most debt is incurred due to a building program.

Area Vocational Technical Institute

- Debt Service Debt service payments on AVTI bonds.
- Maintenance All vocational school costs except debt.

Intermediate Area Vocational Technical Institutes

- #287 - Suburban Hennepin County
- #916 - Ramsey-Washington County
- #917 - Dakota County

These three intermediate AVTIs share an overlapping taxing authority with their K-12 component school districts.

- Debt Debt service payments on AVTI bonds.
- Maintenance All vocational school costs except debt.

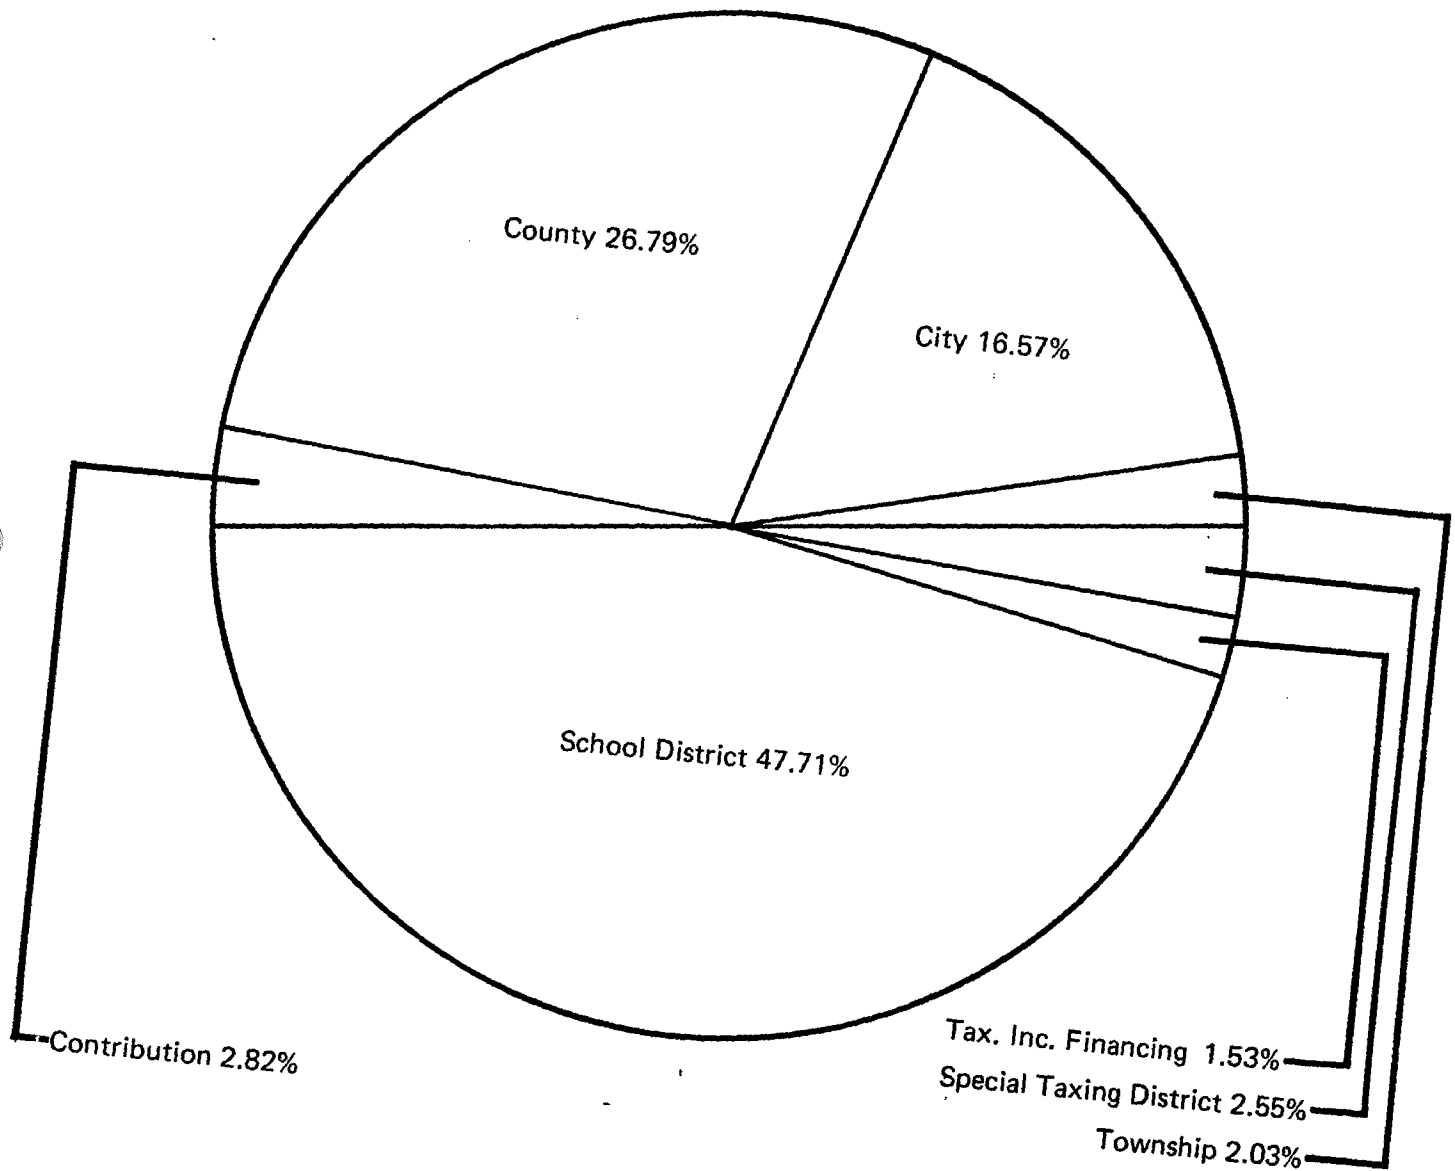

SPECIAL TAXING DISTRICT LEVIES

Although special taxing districts exist with great variance among the counties, general categories are established in this section of the abstract. If special taxing districts exist in a county, the levies are entered separately for revenue and debt. There are 11 main categories of special taxing districts as described in "1979 Tax Levy Authorizations and Limitations" (updated in 1980) as prepared and published by the Department of Revenue.

1. Hospital District
2. Watershed District
3. Sanitary Sewer District
4. Housing and Redevelopment Authority
5. Regional Development Commission
6. Metropolitan Airport Commission
7. Metropolitan Council
8. Metropolitan Transit Commission
(seven county metro and St. Cloud)
9. Park District
10. Port Authority
11. Regional Railroad Authority (Hennepin County)

For purposes of the Abstract of Tax Lists, mosquito control districts are also considered to be special taxing districts.

NOTE: THE TAX ON THE POWER LINE PROPERTY OF ELECTRIC, LIGHT AND POWER COMPANIES IS DIVIDED INTO TWO CATEGORIES. TRANSMISSION LINES ARE ASSESSED AT 43% OF MARKET VALUE, WHILE DISTRIBUTION LINES ARE ASSESSED AT 5% OF MARKET VALUE. THE TAX RATE FOR BOTH IS THE COUNTYWIDE AVERAGE MILL RATE FOR ALL PURPOSES.

* Excludes tax of \$3,772,023, an assessed value of \$38,300,229, and a limited market value of \$76,600,458 for minerals.

Nominal Tax Rate is net tax payable divided by assessed value.

Effective Tax Rate is the net tax payable divided by the indicated market value.

St. Louis	173,745	117,710	-32.25
Statewide Totals:	\$ 325,493	\$ 194,509	-40.24%

** The payable 1981 net tax payable may not equal the gross tax less the homestead credit as in previous years. Beginning in payable 1981 certain mobile homes are eligible for agricultural credit and reduced assessment credit. The amounts for these credits are shown on Table 44 and must also be subtracted from the gross tax to arrive at the net tax.
