Achievement Awards

GFOA

The Government Finance Officers Association (GFOA) recognizes public retirement systems that meet its rigorous standards for financial reporting with its annual Certificate of Achievement for Excellence in Financial Reporting. It is the highest form of recognition for accounting and financial reporting in the public pension sector. PERA received this award for our 2006 Comprehensive Annual Financial Report, the 22nd time we have been so honored.

Steven L. Devich
Board President

December 14, 2007

**Dear Members, Annuitants, Beneficiaries
and Governmental Employers:**

This 76th annual financial report of the Public Employees Retirement Association (PERA) discloses financial, actuarial, and other related information about PERA and the funds it administers. On June 30, 2007, PERA's net assets available for benefits at fair value exceeded \$19.4 billion. This reflects an annual increase of approximately 16 percent.

Fiscal year 2007 was another strong investment year. The total rate of return for the assets of the active employees covered by PERA was 18.5 percent, net of fees, for the 12 months ended June 30, 2007. For the past 10 years, these investments outperformed the composite market return benchmark by two-tenths (0.2) of one percent, with an annualized return of 8.5 percent. This rate of return is equal to the fund's actuarial assumed annual rate of return.

As the active employees of PERA retire, assets required to cover expected future benefits are transferred to the Minnesota Post Retirement Investment Fund (MPRIF) in which PERA has a pooled interest with other Minnesota statewide pension systems. The MPRIF supports the annuities payable to retirees and their joint annuitants. The market value of this pool of assets increased to \$25 billion at fiscal year end. PERA's share of that pool increased to almost \$9 billion. Over the past 10 years, the MPRIF has outperformed the composite market return benchmark by two-tenths (0.2) of one percentage point, with an annualized return of 8.1 percent.

PERA worked hard again this year to enhance our level of customer service and to control costs. We opened a new satellite office in Mankato to serve our members in that part of the state. We developed a new online tool for employers, allowing them to enter contribution information directly into our systems securely and accurately. We expanded the capabilities of **My PERA**, our online tool for members. We also worked with police and fire representatives to develop legislation that added some sensible controls to our disability provisions. That legislation was passed in 2007.

During the year we began meeting with the boards of our sister statewide public pension plans in an attempt to shore up the MPRIF both financially and structurally. Those discussions will continue into 2008 as we develop legislation that can be supported by all three boards.

As always, our commitment as trustees of the association is the preservation and growth of the assets of PERA's funds, and the protection and furtherance of the interests of our members, annuitants, and beneficiaries. I believe our efforts over the past year have amply illustrated this continuing dedication as fiduciaries of the public employee retirement funds.

Steven Devich

December 13, 2007

Board of Trustees
Public Employees Retirement Association of Minnesota
60 Empire Drive, Suite 200
St. Paul, Minnesota 55103

Dear Trustee:

We are pleased to present this Comprehensive Annual Financial Report of the Public Employees Retirement Association (PERA) for the fiscal year ended June 30, 2007—our 76th year of operation. The information contained in this report is accurate in all material respects and is intended to present fairly the financial status and results of operations of the association.

Responsibility for the contents of this report, including the financial statements, rests solely with the management of the association. This transmittal letter is designed to complement Management's Discussion and Analysis (MD&A) and should be read in conjunction with it. The MD&A begins on page 18 in the Financial Section of this report.

PLAN OVERVIEW

PERA was established in 1931 by the Minnesota legislature. For financial reporting purposes, PERA is considered a pension trust fund of the State of Minnesota. The State reports our assets in the State's annual report as pension trust fund assets. The Plan is funded on an actuarial reserve basis, with money being set aside for benefits while the benefits are being earned and before they are paid.

PERA serves over 2,000 separate local governmental entities. These participating employers include cities, counties, townships, and school districts located throughout the State. On June 30, 2007, PERA's membership included 160,512 current, active employees and 68,743 benefit recipients in the three defined benefit plans, and another 6,867 members with money in the defined contribution plan.

ACCOUNTING SYSTEMS AND REPORTS

Financial statements are prepared in conformity with accounting principles generally accepted in the United States of America and reporting guidelines set forth by the Governmental Accounting Standards Board (GASB). PERA's Comprehensive Annual Financial Report also complies with Minnesota Statutes, Section 356.20.

Letter of Transmittal

(Continued)

Transactions are reported on the accrual basis of accounting. Contributions from employers and members are recognized as revenue when earned and measurable. Expenses are recorded when corresponding liabilities are incurred, regardless of when payment is made.

PERA's internal accounting controls are designed to provide reasonable assurance for the safekeeping of assets and the reliability of all financial records. Our independent auditors have audited the accompanying financial statements and reviewed our internal control structure. They reported no material weaknesses in our internal controls. Management believes that an adequate system of internal control is in place and that the accompanying statements, schedules and tables are fairly presented.

INVESTMENTS

In accordance with Minnesota Statutes, Section 353.06, assets of the PERA Funds are invested by the Minnesota State Board of Investment (SBI). All investments undertaken by the SBI are governed by the common law prudent person rule and other standards codified in Chapter 11A of the Minnesota Statutes. The board is comprised of the state's elected officers: Governor Tim Pawlenty; State Auditor Rebecca Otto; Secretary of State Mark Ritchie; and State Attorney General Lori Swanson.

The SBI appoints a 17-member Investment Advisory Council (IAC) to advise the State Board on asset allocation and other policy matters relating to investments. The IAC also advises the SBI on methods to improve the rate of return while assuring adequate security of the assets under management. The executive director of PERA is a standing member of the IAC.

The IAC has formed three committees organized around broad investment subjects relevant to the board's decision making: asset allocation, stock and bond managers, and alternative investments. All proposed investment policies are reviewed by the appropriate committee and the full council before they are presented to the board for action.

The SBI also employs investment consultants to monitor and evaluate investment management firms'

performance and to evaluate or suggest various alternatives for asset allocation and other investment policy matters.

ACTIVE FUNDS

Pension assets of the currently working members of the Association are managed externally by private money managers retained under contract with the SBI. These assets are pooled with the assets of other active members of statewide retirement funds into the Basic Retirement Fund. The greatest share of these assets, approximately 65 percent, is invested in domestic and international common stocks in order to maximize the long-term rate of return. Including international stocks in the asset mix allows the SBI to diversify its holdings across world markets and offers the opportunity to enhance returns and reduce the risk/volatility of the total portfolio. For the year ended June 30, 2007, the Basic Retirement Funds produced an 18.5 percent rate of return on active member assets.

The SBI has one overriding responsibility in the management of these funds: to ensure that sufficient funds are available to finance promised retirement benefits. Within this context, SBI has established a long-term investment objective: to outperform a composite market index weighted to reflect the long-term asset allocation policy over a ten-year period. Performance is measured net of all fees and costs to assure the SBI's focus is on true net return. The Basic Funds' ten-year annualized rate of return at June 30, 2007 was 8.5 percent, above its target index of 8.3 percent.

POST RETIREMENT INVESTMENT FUND

The SBI has responsibility for investment of the assets of the Minnesota Post Retirement Investment Fund (MPRIF). When a member retires, a sum of money sufficient to finance a fixed monthly annuity is transferred from the Basic Retirement Fund to the MPRIF. Assets of the retired members of the Association and their joint annuitants are pooled in the MPRIF. These assets are

Fair Value of Investments, June 30, 2007 (in thousands)

<u>Fund</u>	<u>Active Members</u>	<u>Retired Members</u>
PERF	\$ 7,121,036	\$6,606,806
PEPFF	3,163,627	2,358,901
PECF	166,118	7,019
Totals	\$10,450,781	\$8,972,726

also managed externally, sharing the same domestic stock, domestic bond, and international stock managers as the Basic Funds.

The SBI adopted a revised asset allocation strategy for the MPRIF in fiscal year 1993 to reflect the goals associated with the new post-retirement benefit increase formula. In order to maximize long-term rates of return in the equity markets, the SBI gradually allocated 50 percent of the assets to domestic stocks, and added allocations to international stocks and alternative assets. As of June 30, 2007, approximately 65 percent of the assets were invested in domestic and international stocks.

In contrast to the investment goals of the Basic Fund, invested for current working members, the MPRIF's goal is to ensure returns are adequate to meet the actuarially assumed return of 6 percent on its invested assets on an annualized basis and are sufficient to finance lifetime benefit increases.

The SBI measures performance of the MPRIF against a composite of market indices that is weighted to reflect its long-term asset allocation policy. The MPRIF is expected to exceed the composite index over a ten-year period. Similar to the Basic Fund, MPRIF performance is reported net of all fees and costs to assure the SBI's focus is on true net return. For the ten-year period ending June 30, 2007, the MPRIF outperformed its composite index by two-tenths of one percent with an annualized return of 8.1 percent.

Benefit increases are granted based on two components: an inflation component and an investment component. This year the MPRIF will provide a benefit increase of 2.5 percent, payable January 1, 2008.

- Inflation adjustment of 2.5%. This equals 100 percent of the reported Consumer Price Index for wage earners (CPI-W) for the 12 months ended June 30, 2007 with a cap of 2.5 percent in order to maintain the actuarial soundness of the plan. This amount is the difference between the 8.5 percent return assumption for the Basic Funds and the 6 percent return assumption for the MPRIF. This inflation component is always granted, regardless of investment performance.
- Investment adjustment of 0%. This represents a portion of the investment gains that exceed the amount needed to finance the actuarial assumed rate of return (6%) and the inflation component (2.5%). The formula requires that investment

gains and losses be spread forward over five years to adjust for the volatility of short-term returns. As of June 30, 2007, the liabilities of the Post Fund exceed its assets, leaving a deficit of approximately \$2.4 billion. That deficit must be fully recovered before any future investment-based adjustment is given.

Over the last 10 years (including this year), annual benefit increases have averaged 4.7 percent while inflation has averaged 2.6 percent. Because of investment losses sustained in the early 2000's coupled with large benefit increases we were required to grant in the late 1990's, however, increases for the past four years have remained at 2.5% and are expected to be no larger than that for many years to come, until excess investment earnings are able to make up the Post Fund deficit.

ECONOMIC CONDITIONS AND OUTLOOK

The national economy continued to be strong, creating almost 2 million jobs during the fiscal year. The unemployment rate fell from 4.6 percent in June 2006 to 4.5 percent in June 2007, with a record number of people working. Average hourly earnings rose by 3.9 percent during that same period. Inflation was held in check, growing 2.7 percent, despite large fluctuations in the price of oil and uncertainty in the Middle East. Thirty year mortgage rates remained fairly steady throughout the fiscal year. After increasing interest rates 200 basis points in fiscal year 2006, the Federal Reserve left interest rates alone in fiscal year 2007. Industrial production rose 1.4 percent during the year. Median household income rose to \$48,451 in 2006 while Real GDP rose 3.1 percent.

Investment markets did quite well in fiscal year 2007. The Russell 3000 returned 20.1 percent, while the Lehman Brothers Aggregate Bond Index returned 6.1 percent. International stocks also did well. The Morgan Stanley Capital International All Country World Index, which does not include the United States, returned 29.6 percent. PERA's Basic Retirement Fund and the MPRIF, made up of domestic and international equities and fixed assets, had annualized rates of return of 18.5 percent and 18.2 percent respectively, net of fees. Those returns were well above our assumed earnings rate of 8.5 percent.

Employment in Minnesota did not recover from the 2001 recession as fast as it did elsewhere in the nation. Labor markets started the fiscal year with the strongest job growth since 1999, but slowed down during the

Letter of Transmittal

(Continued)

year. For the third year in a row Minnesota's job growth of 1.4 percent lagged behind the nation's job growth pace. Although roughly 37,000 jobs were added during the fiscal year, by the end of the year, Minnesota's unemployment rate of 4.5 percent matched the national rate. Minnesota's unemployment rate had never risen to the national rate since the state began keeping records in 1976.

On the bright side, Minnesota continued to be a great place to live and work. Minnesota had the highest labor force participation rate in the nation at 73.5 percent. The percentage of the population with a high school education or higher remained the highest of any state at 93 percent. The median household income was \$54,023, the tenth best in the country. The poverty rate of 9.8 percent was well below the national rate of 13.5 percent. Minnesota's high standard of living allowed its residents to enjoy the fifth highest home ownership rates nationwide at 75.6 percent. With 20 of the Fortune 500 companies based out of Minnesota, the state has a strong tax base. Tax revenues for the state were about 1 percent above projections.

The economic outlook for Minnesota and the rest of the country is mixed. On one hand, higher energy costs, a weak dollar, a deepening housing recession, and turmoil in the subprime mortgage market will prove to be a drag on the economy. On the other hand, low interest rates, low inflation, strong foreign economies, strong consumer spending, and strong job growth should keep the economy moving forward, albeit at a slower pace than we have seen the past few years.

CURRENT FUNDING RATIOS

The primary funding objectives of the Association are: 1) to establish contribution rates which, when expressed as a percentage of active members' payroll, will remain level from generation to generation; and 2) to meet the required deadlines for full funding.

An important measure of the health of a retirement system is the level of funding. The better the level of funding, the larger the ratio of assets to accrued liabilities and the greater the level of investment income potential. Also, a better level of funding gives the participants a higher degree of assurance that their pensions are secure. A pension plan is fully funded when it has present and projected assets sufficient to cover the

liabilities for present and future annuities, benefits and refunds and the projected cost of fund administration.

The Association's progress toward meeting the full funding objective is displayed on the Schedule of Funding Progress on page 32. This report shows the funding levels using the entry age normal actuarial cost method, and reflect the change in asset valuation method to full fair market value for the MPRIF. At the end of fiscal year 2007, the ratio of assets to liabilities of the PERF was 73.34 percent. For the PEPFF and the PEEF, the ratios were 91.70 percent and 98.38 percent, respectively.

MAJOR INITIATIVES

Along with the good news about investment returns in fiscal year 2007, we also have good news about projects we have been working on. During the year we opened a new satellite office in Mankato to serve the southern part of the state. The Mankato office is our second satellite office, following a successful opening in Duluth three years ago. Satellite offices are much more convenient for members and allow us to reach those members without having to make special trips to those parts of the state. We have been able to keep costs quite low by sharing space with the other two statewide public pension plans, the Minnesota State Retirement System and Teachers Retirement Association.

We also completed development of a new tool that gives our employers the ability to enter wage and contribution data online. The new online system provides basic edits so that employers instantly know if the data they enter does not appear to be correct. The system allows us to receive information quicker and get that information into our systems with fewer errors. Employers are telling us the new system is easier to use and more convenient than the paper process they had been using.

We expanded the capabilities of our members-only website called My PERA in fiscal year 2007. We now include monthly benefit information for our registered retirees, and have upgraded our estimate calculator. Over 30,000 members have now registered to use My PERA, and tell us they appreciate being able to receive up-to-date benefit estimates 24 hours a day using the same data and calculator our staff counselors use.

Legislation was passed in 2007 that makes fairly substantial changes in Police and Fire Plan disability benefits. Disability costs had been soaring in recent years as an increasing number of members took advantage of the courts' liberal interpretation of existing

statutes. A working group, consisting of various entities representing our police and fire plan members and their employers, was created in 2006 to develop legislation designed to help control the rising costs of that plan. The legislation that was ultimately passed represents a lot of hard work that we believe will result in the long-term stability of that plan.

Our Board worked closely with the Boards of the other two statewide public pension plans to review the structure of the Minnesota Post Retirement Investment Fund (MPRIF). That fund has been below 100 percent funded since 2001 with no available source of revenue other than investment income. The three Boards hope to draft legislation for the 2008 session to shore up that fund structurally and financially. We were able to get legislation passed in 2007 that allows us to value the MPRIF at fair value when calculating our funding ratios and contribution rate sufficiencies rather than valuing it equal to the liabilities in that fund as we have been required to do in the past.

In fiscal year 2008 we will complete development of a project that will help us do a better job of responding to an increasing volume of retirement benefit estimate requests we receive each day. We will also begin development of a new scheduler that will allow members to schedule counseling and workshop appointments online.

PROFESSIONAL SERVICES

Actuarial consulting services during the fiscal year were provided by Mercer and by The Segal Company. PERA contracted with Benefacts, Inc. for the production and mailing of our annual Personal Benefit Statements. Evalumed handled independent medical examinations. The State's Attorney General continued to provide PERA with legal counsel. The State's Department of Health provided medical services used for determining disability benefits. The State Board of Investment continued to manage and invest the assets of PERA's funds, and the State's Legislative Auditor provided professional financial auditing services.

MEMBERSHIP REPORT

This report is complemented by an annual financial newsletter that discloses, in summary form, the contents of this report. This financial newsletter is mailed in January of each year to all PERA members, including active members and benefit recipients. In addition, this report is reproduced, in its entirety, on PERA's website, www.mnpera.org.

NATIONAL RECOGNITION

Finally, PERA is justly proud of the abilities, knowledge, drive and dedication of its employees. PERA recently received national recognition as a leader in pension fund administration and disclosure of financial information. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to PERA for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2006. This is the 22nd time PERA has received this honor.

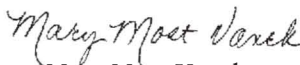

The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for one year only. We believe our current report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

ACKNOWLEDGMENTS

As a compendium of financial, investment, actuarial and other statistical information, PERA's Comprehensive Annual Financial Report provides complete and reliable information on which management decisions may be based and through which compliance with statutory requirements may be assessed. In addition, the report serves as the primary source through which the effectiveness of the Trustees' management and administration of PERA and its funds may be judged.

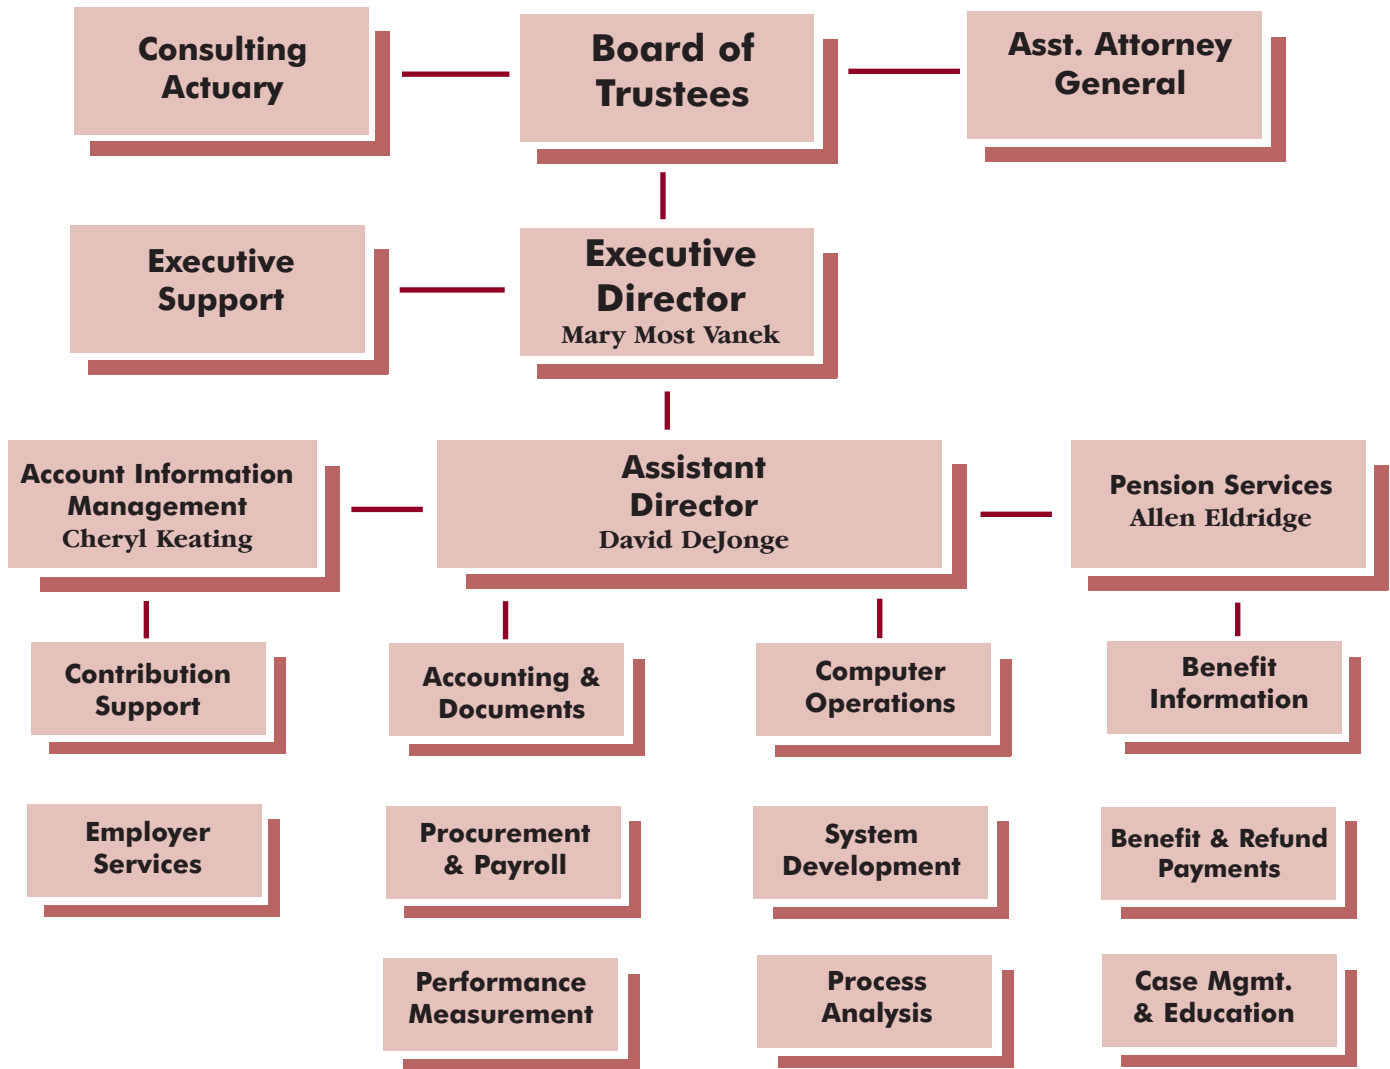

We are sure you join with us in expressing gratitude and appreciation to the staff and PERA's advisors for their efforts in producing this report and for their loyal and dedicated service to the Association and its members, annuitants, beneficiaries, and participating local governmental employers.

Respectfully submitted,

Mary Most Vanek
Executive Director

David DeJonge
Assistant Executive Director

Administrative Organization

MISSION STATEMENT

PERA's mission is to create opportunities for members to achieve a successful and secure retirement by providing the highest quality benefits and services, that members will value and trust.

PERA'S VISION:

PERA will provide on-demand access to reliable pension information and superior customer service.

The PERA Board consists of 11 trustees as follows: The State Auditor is a trustee by virtue of office. The governor appoints five trustees to represent counties, cities, school boards, retired annuitants, and the general public. PERA active members elect five representatives—three general membership, one retiree/disabilitant, and one Police and Fire trustee—to serve four-year terms.

Retirement System Plan Summary

Public Employees Retirement Association of Minnesota

Advisory Council, which advises the Minnesota State Board of Investment on the management and investment of public pension funds and other assets.

MULTI-EMPLOYER PARTICIPATION

Approximately 2,000 separate units of government in Minnesota participate in the PERA-administered retirement system. These units include counties, cities, townships, and school districts*.

EMPLOYEE MEMBERSHIP

PERA has approximately 160,000 active members. With certain statutory exceptions, an employee performing personal services for a governmental employer whose salary is paid, in whole or in part, from revenues derived from taxation, fees, assessments, or other sources, is a member of PERA. Plan participation is dependent on the occupation of the member.

FUNDS

PERA administers four separate funds. Each has specific membership, contribution, benefit, and pension provisions.

The **Public Employees Retirement Fund** encompasses two retirement plans — the PERA Coordinated Plan and the PERA Basic plans. The Coordinated Plan, created in 1968, provides retirement and other benefits in addition to those supplied by Social Security. Established in 1931, the Basic Plan was PERA's original retirement plan and is not coordinated with the federal program.**

The **Public Employees Police and Fire Fund** was created in 1959 for police officers and firefighters not covered by a local relief association. It also encompasses all paid Minnesota police officers and firefighters hired since 1980. In 1999, legislation merged members of PERA's former Police and Fire Consolidation Plan into this plan.

The **Local Government Correctional Service Retirement Fund** was established in 1999 for correctional officers serving in county and regional adult and juvenile corrections facilities. Participants must be responsible for the security, custody and control of the facilities and their inmates.

PURPOSE

Established by the Minnesota Legislature in 1931, the Public Employees Retirement Association (PERA) of Minnesota administers pension funds that serve approximately 200,000 county, school and local public employees, benefit recipients, their survivors, and dependents.

Funds administered by the Association provide a variety of retirement pensions, and survivor and disability benefits. In the case of the Coordinated and Correctional plans, these benefits are in addition to those provided by Social Security.

PERA's Board of Trustees is responsible for administering these funds in accordance with statutes passed by the Minnesota Legislature and has a fiduciary obligation to PERA's members, their governmental employers, the state, and its taxpayers.

ADMINISTRATION

PERA's Board of Trustees is composed of 11 members. The State Auditor is a member by statute. Five trustees are appointed by the Governor. Serving four-year terms, these five trustees represent cities, counties, school boards, retired annuitants, and the general public, respectively.

The remaining five board members are elected by the PERA membership at large to serve four-year terms. Three trustees represent the general active membership, one represents Police and Fire Fund members, and one represents annuitants and benefit recipients. The Association's most recent membership election was held in January 2007.

The board appoints an executive director to serve as chief administrative officer of PERA. With approval of the board, the director develops the annual administrative budget, determines staffing requirements, contracts for actuarial and other services, and directs the day-to-day operations of the association. The director also serves as a member of the State Investment

NOTE:

- * A listing of employers participating in PERA can be found in the Statistical Section of this report.
- ** PERA's Basic Plan was closed to new membership in 1968 with the creation of the Coordinated Plan. At that time, Basic members had the option of remaining in that plan or transferring to the new Coordinated Plan. Today, fewer than 50 Basic members remain active public employees.

Also administered by PERA is the **Public Employees Defined Contribution Plan (DCP)**. Created in 1987 to provide a retirement plan for personnel employed by public ambulance services, the plan has since been expanded to include physicians and locally-elected public officials, except for county sheriffs.*

CONTRIBUTIONS

The table below shows contribution rates for employees and employers under the various plans administered by PERA as of June 30, 2007**. Rates are applied to total salary and are set by statute.

<u>Fund</u>	<u>Employee Contribution</u>	<u>Employer Contribution</u>
Public Employees Retirement Fund		
Coordinated	5.75%	6.25%
Basic	9.10%	11.78%
Public Employees Police & Fire Fund	7.80%	11.70%
Local Government Correctional Fund	5.83%	8.75%
Defined Contribution Plan	5.00%	5.00%***

CREDITED SERVICE AND SALARY

Members of PERA's defined benefit plans receive one service credit for each month for which they are paid. Individuals may earn a maximum of 12 service credits per year. Salary used in retirement and disability benefit calculations is the average monthly salary over an individual's highest-paid 60 consecutive months of public service, or all months of service if less than 60 (high-five salary).

RETIREMENT BENEFITS

Eligibility and Annuity Formulas

Basic and Coordinated Members

Two methods are used to compute benefits for Coordinated and Basic Plan members—a step-rate benefit accrual formula (Method 1) and a level accrual formula (Method 2). Members hired prior to July 1, 1989 receive the higher of the two calculated amounts. Only Method 2 is used for members hired after June 30, 1989.

Method 1: Coordinated members accrue 1.2 percent of the high-five salary for each of the first 10 years of public employment, and 1.7 percent of that average salary for each successive year. Basic members receive 2.2 percent of their high-five salary for each of their first 10 years of service and 2.7 percent for each year thereafter.

Using this calculation, members are eligible for a full (unreduced) retirement annuity if:

- ▶ They are age 65 or over with at least one year of public service; or
- ▶ Their age plus years of public service equal 90 (Rule of 90).

A reduced retirement annuity is payable as early as age 55 with three or more years of service. The reduction is .25 percent for each month under age 65. A member with 30 or more years of service may retire at any age with the .25 percent reduction made from age 62 rather than 65.

Method 2: Coordinated members earn 1.7 percent of their high-five salary for every year of public service while Basic members earn 2.7 percent of their average salary for each year.

This calculation provides for unreduced retirement benefits at age 65 for members first hired prior to July 1, 1989, and at the age for unreduced Social Security benefits, capped at age 66, for those first hired into public service on or after that date.

Early retirement results in an actuarial reduction with augmentation (about 6 percent per year) for members retiring prior to full retirement age.

Police and Fire Members

Members receive 3 percent of average salary for each of their years of service. An unreduced retirement annuity is payable to members when they meet the following conditions:

- ▶ Age 55 with a minimum of three years of service; or
- ▶ Age plus years of service equal at least 90 (if first hired prior to 7/1/89).

A reduced retirement annuity is available to members between the ages of 50 and 55. There is a 1.2 percent reduction in benefits for each year a member retires prior to qualifying for an unreduced retirement benefit. (For members hired or rehired after June 30, 2007, the reduction will be 2.4 percent per year.)

NOTE:

* Officials first elected to a governing body, such as a city council or county board after June 30, 2002, may only participate in PERA's Defined Contribution Plan. Previously, such officials could elect Coordinated Plan participation as an alternative to the DCP.

** Legislation passed in 2005 called for increases in member and employer contribution rates for both the Coordinated and Police and Fire plans to be phased in over several years. Ultimately, employee contribution levels will be 6 percent for the Coordinated Plan and 9.4 percent for the Police and Fire Plan. Employer rates for these two plans will increase incrementally to 7 percent and 14.1 percent, respectively.

*** This is the rate established for elected public officials and physicians. For ambulance service personnel, participation in the program and contributions made for employees are at the discretion of employers. Salaried employees may match this contribution. City managers may also participate in the DCP as an alternative to Coordinated Plan membership.

Summary

(Continued)

NOTE:

* Since many Correctional Plan members were previously members of PERA's Coordinated Plan, they may qualify for a pension from both plans following retirement. However, they must meet the age requirements of each plan and begin benefits within a year of each other to qualify for combined service.

** Selection of a Survivor Option will result in a reduction in the amount of the pension from the Single-life pension level. The amount of the reduction depends on the age of both the retiring member and the survivor.

All survivor pension options incorporate an "automatic bounce back" feature. This returns the amount of the pension to the level of the Single-life benefit in the event the designated survivor predeceases the retiree. The cost of this protection is borne by the funds, not by the retiree.

*** The deferred pension accrual rate is 2.5 percent for members first hired into public service after June 30, 2006.

Correctional Service Members

Correctional Plan members earn 1.9 percent of their average salary for every year of public service under the plan.

A full, unreduced pension, is earned at:

- ▶ Age 55 with three or more years of service; or
- ▶ Age plus years of service total at least 90 (if hired prior to 7/1/89).

An actuarial reduction with augmentation is made in a member's benefit for retirement prior to qualification for an unreduced pension.*

Defined Contribution Plan Members

The Defined Contribution Plan's benefit amount is determined by the performance of the funds in which contributions are invested. The entire market value of the member's account is payable upon termination of public service, disability, retirement, or death.

TYPES OF PENSIONS AVAILABLE

Members of the PERA Coordinated, Basic, Correctional, and Police and Fire plans may select from several types of retirement benefits.

Single-life Pension — A Single-life Pension is a lifetime annuity that ceases upon the death of the retiree. No survivor benefit is payable.

Survivor Options — Upon retirement, members may choose from one of four Survivor Options. All these pensions are payable for the lifetime of the retiree. At the time of the retiree's death, the designated survivor begins to receive monthly benefit payments at varying levels for his or her lifetime. Depending on the Survivor Option chosen by the member, survivor payments are at a 25, 50, 75 or 100 percent level of that received by the member.**

Pre-Age 62 Increase — This pension option allows a member who retires before age 62 to receive a greater monthly payment until he or she becomes eligible for Social Security at age 62. The monthly benefit amount is then reduced by at least \$100 at age 62.

Deferred Pension — A vested member who terminates public service may leave contributions in the fund(s) in which he or she participated and qualify for a pension at retirement age. The benefit amount, calculated as of the date of termination, will increase at a rate of 3 percent per year, compounded annually, until the first of the year following the member's 55th birthday. It will then increase at a rate of 5 percent per year.***

Combined Service and Proportionate Pensions — Retiring members may elect to combine service in a PERA-covered position with service in any of 14 other Minnesota pension funds and qualify for a retirement benefit from each fund in which they participated. These funds are designated by statute. Members with three or more years of total service qualify for a combined service pension if they have six or more months of service in each fund and have not begun to receive a benefit from any of the designated funds. Pensions are based upon the formula of each fund and the member's average salary over the five highest-paid years of service, no matter when it was earned.

Public employees who retire at age 65 or older with between one and three years of service in one or more of 11 designated funds may qualify for a proportionate pension. Benefits are paid by each applicable fund in which the employee has credit and are based upon the formula of each fund and the member's average salary during the period of service covered by that fund.

EARNINGS LIMITATION

Retirees who return to work in a PERA-covered position are subject to the same earnings limitations as Social Security recipients. Benefits are reduced if these limits are exceeded, with the amount escrowed and earning 6 percent interest compounded annually. At age 65 or a year after leaving the position, whichever is later, the retiree may request repayment of these funds.

The earnings limitation only applies to PERA-covered employment. Self- or private employment and elected service will result in no benefit reduction for retirees.

DISABILITY BENEFITS

Members may be eligible for benefits from PERA if they are unable to work because of a physical or mental disability. Disability is defined by statute, and PERA may require periodic medical examinations of those receiving these benefits.

Disability benefit calculations are based upon years of service and average high-five salary for Coordinated and Basic members. The same is true for Police and Fire and Correctional plan members disabled outside the line of duty. In the case of Police and Fire members, there is a minimum non-duty disability benefit of 45 percent of that salary. The minimum benefit for Correctional Plan members is 19 percent.

For Police and Fire members disabled in the line of duty, the minimum benefit is 60 percent of salary, while the minimum duty-related disability benefit for Correctional members is 47.5 percent.*

Basic and Coordinated members qualify for disability with three or more years of service and by meeting the statutory definition. Police and Fire and Correctional members qualify by meeting the definition with one or more years of service if disabled outside the line of duty. If disabled in the line of duty, there is no minimum service requirement. *

SURVIVOR BENEFITS

PERA also provides survivor (death) benefits for families of members who qualify for such coverage. The qualifications and types of benefits vary with each plan.

A Lifetime Survivor Benefit is available to the surviving spouse of a Basic, Coordinated, Correctional, or Police and Fire member. For Police and Fire, and Basic members, this benefit is based on either 50 percent of the member's average salary during the six months prior to death or a formula using the member's total years of service, high-five salary, age at death and age of the spouse. The surviving spouse benefit for Coordinated and Correctional members is only based on the formula. This benefit is payable to the spouse of a deceased member for life, even upon remarriage.**

For the surviving spouse of a Basic, Coordinated or Correctional member,

there are alternative term-certain benefits of 10, 15, or 20 years duration. The monthly payment, however, may not exceed 75 percent of the member's average high five-year salary.

Survivor benefits are immediately suspended for any survivor charged with causing the death of an association member. The benefit is permanently revoked upon conviction of such a crime.

Dependent children of active or disabled Basic, and Police and Fire members are eligible for benefits until age 18, or age 23 if full-time students. In this case, the maximum family benefit is 70 percent of the member's average monthly salary. If a Coordinated or Correctional member dies and there is no surviving spouse, any children under age 20 qualify to receive a monthly term-certain benefit.

Instead of a monthly benefit, the surviving spouse, if a designated beneficiary, may elect a refund of any remaining employee contributions in the account, plus 6 percent interest compounded annually. However, a refund may not be elected if there are dependent children who are eligible for benefits.

REFUNDS

Refunds of contributions are available at any time to members who leave public service and have not yet begun receiving a pension. The refund includes employee contributions plus 6 percent interest, compounded annually.

A refund of member contributions plus interest may also be elected by the designated beneficiary of a member or former member who dies before reaching retirement. If there is no beneficiary, payment is made to the surviving spouse or, if none, to the estate of the deceased member or former member.

If a retiree and designated survivor, if any, die before all employee contributions are paid in the form of a pension or benefits, the remaining balance would be paid in the same manner outlined for beneficiaries.

No interest is paid to beneficiaries on the balance in an account if the member was receiving retirement benefits.

NOTE:

* Significant changes in the definitions of duty and regular (non-duty) disability for Police & Fire and Correctional plan members became effective July 1, 2007. A duty disability benefit will only be awarded if the disabling event occurred while the member was engaged in hazardous activities inherent to the occupation.

** Lifetime Survivor Benefits are also available to the spouse of disabled Basic, and Police and Fire Fund members, and to survivors of disabled Coordinated and Correctional members who choose a Survivor Option to their disability benefit.

The surviving spouse of a P&F member disabled after June 30, 2007 will not qualify for an automatic benefit unless the disability is total and permanent and occurred while the member was engaged in hazardous activities.

Legislative Auditor's Report

OFFICE OF THE LEGISLATIVE AUDITOR
STATE OF MINNESOTA • James Nobles, Legislative Auditor

Independent Auditor's Report

Members of the Board of Trustees

Public Employees Retirement Association of Minnesota

Ms. Mary Most Vanek, Executive Director

Public Employees Retirement Association of Minnesota

We have audited the accompanying basic financial statements of the Public Employees Retirement Association of Minnesota (PERA) as of and for the year ended June 30, 2007, as listed in the Table of Contents. These financial statements are the responsibility of PERA's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of PERA as of June 30, 2007, and the changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 7, 2007, on our consideration of PERA's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's Discussion and Analysis and the other required supplementary information, as listed in the Financial Section of the Table of Contents, are not a required part of PERA's basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise PERA's basic financial statements. The Introductory, Investment, Actuarial, and Statistical Sections, as listed in the Table of Contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Supporting Schedules in the Financial Section have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The Introductory, Investment, Actuarial, and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Deputy Legislative Auditor

Management Discussion and Analysis

As management of Minnesota's Public Employees Retirement Association (PERA), we present this discussion and analysis of the financial activities for the year ended June 30, 2007 (FY07). This narrative is intended to supplement the financial statements which follow this discussion, and should be read in conjunction with the transmittal letter, which begins on page 5 of this annual report.

OVERVIEW OF THE FINANCIAL STATEMENTS

This Comprehensive Annual Financial Report (CAFR) contains two basic financial statements: the *Statement of Plan Net Assets* and the *Statement of Changes in Plan Net Assets*. These financial statements, in conjunction with the accompanying *Notes to the Financial Statements*, report information about PERA's financial condition in an attempt to answer the question: "Is PERA better off or worse off as a result of this year's activities?" These statements are prepared using the accrual basis of accounting as is required by generally accepted accounting principles laid out in statements issued by the Government Accounting Standards Board (GASB).

The *Statement of Plan Net Assets* provides a snapshot of account balances at year-end. It reports the assets available for future payments to benefit recipients, along with any liabilities that are owed as of the statement date. The difference between assets and liabilities, called "Net Assets," represents the value of assets held in trust for future benefit payments. Over time, increases and decreases in Net Assets can be one measurement of whether PERA's financial position is increasing or decreasing.

The *Statement of Changes in Plan Net Assets*, on the other hand, shows additions and deductions to Net Assets during the year. The increase or decrease in Net Assets reflects the change in Net Assets found on the *Statement of Plan Net Assets* from the prior year to the current year.

The *Notes to the Financial Statements* are an integral part of the financial statements and provide additional information that is essential for a comprehensive understanding of the data provided in the financial statements. The Notes describe the accounting and administrative policies under which PERA operates, and provide additional levels of detail for selected financial statement items.

These financial statements should be reviewed along with the *Schedule of Funding Progress* and *Schedule of Employer Contributions* to determine whether PERA is becoming financially stronger or weaker over time. PERA's funding objective is to meet long-term benefit obligations through contributions received and the income derived by investing those contributions during the working career of our members. These two schedules, created by an actuary, show the ratio of the actuarial value of assets to the actuarial accrued liability, and to what extent contributions needed to fully fund the plan are being received.

FINANCIAL HIGHLIGHTS

- ▶ PERA's Net Assets increased 16.2% during the year from \$16.7 billion in fiscal year 2006 (FY06) to \$19.4 billion in FY07.
- ▶ Total additions for FY07 were \$3.8 billion, comprised of contributions of \$693,184,000, investment income of \$3,117,839,000 and other income of \$5,922,000. Total additions for fiscal year 2006 were \$2,516,487,000.
- ▶ Total deductions for the year increased from \$1,057,105,000 in fiscal year 2006 to \$1,108,442,000 due to an increase in the number of benefit recipients.
- ▶ Total administrative expenses totaled \$10,041,000 in FY07, a decrease from \$10,052,000 in FY06.
- ▶ As of June 30, 2007 the Public Employees Retirement Fund is actuarially funded at 73.34%. PERA's Police and Fire Fund is actuarially funded at 91.70%, and PERA's Correctional Fund is 98.38% funded.

FINANCIAL ANALYSIS OF PERA'S FUNDS

PERA is the administrator of three defined benefit plans and one defined contribution plan. In a defined contribution plan, pension benefits are determined by contributions made to a member's account and investment returns for those contributions. PERA administers one such plan: the Public Employees Defined Contribution Plan (PEDCP).

In a defined benefit plan, pension benefits are determined by a member's salary and credited years of service, regardless of contribution amounts and investment returns for those contributions over the working career of a member. PERA administers three such plans: the Public Employees Retirement Fund (PERF), the Public

Employees Police and Fire Fund (PEPFF), and the Public Employees Local Government Correctional Services Retirement Fund (which we call the Public Employees Correctional Fund or PECF).

When members retire from one of the defined benefit plans, an amount equal to the present value of expected future benefits is moved from the Active Funds to the Minnesota Post Retirement Investment Fund (MPRIF) to pay those benefits. The MPRIF is made up of retirement assets from PERA's three plans along with assets from the Teachers Retirement Association and the Minnesota State Retirement System. Due to large post retirement benefit increases granted during the 1990's and 2000, followed by three poor investment years in 2001-03, the MPRIF is now roughly 91% funded. Liabilities exceed assets by approximately \$2.4 billion. PERA's share of that deficit is \$835 million, a large improvement from last year's \$1.4 billion due to excellent investment returns.

Contributions from active members can not be used to supplement the MPRIF according to Minnesota law, so when PERA's actuaries determined funding ratios and contribution deficiencies/sufficiencies, the actuarial value of assets for the MPRIF was required to be valued at the level of actuarial liabilities, making the MPRIF fully funded on paper, regardless of whether it was or not. The actuarial asset valuation method, spelled out in the Legislative Commission on Pensions and Retirement's Standards for Actuarial Work, was changed in 2007. The new asset valuation method values the MPRIF assets at fair market value for actuarial purposes, in compliance with GASB 25. Since actuarial liabilities are greater than the fair market value of the corresponding assets, the change in methods had a negative effect on our funding ratios and contribution deficiencies. The change did not affect our financial statements, which already valued the MPRIF assets at fair market value.

PERF

Total assets as of June 30, 2007 were \$15.9 billion in the PERF, an increase of \$2.7 billion or 20.4 percent from the prior year. The primary reasons for the increase were strong investment performance during the year and a higher value of collateral through the securities lending program administered by the State Board of Investment. Capital assets, mainly our building and land, made up \$10,785,000 of our total assets.

Total liabilities as of June 30, 2007 were \$2.2 billion, an increase of \$770 million from the prior year, mostly due to the higher value of securities lending collateral on the books at year end.

Total net assets, the difference between total assets and total liabilities, increased about \$1.9 billion, or roughly 16.4 percent from the prior year. Ending net assets were \$13.7 billion on June 30, 2007.

Additions to Plan Net Assets

The reserves needed to finance retirement benefits are accumulated through the collection of member and employer contributions and through earnings on investments. Contributions and net investment income for FY07 totaled \$2.75 billion.

Employer contributions and member contributions increased from the previous year by a total of \$53 million, largely due to contribution rate increases that took effect on January 1, 2007. Member rates in the Coordinated Plan increased from 5.5% to 5.75% and employer rates increased from 6% to 6.25%. Net investment income in FY07 totaled \$2.2 billion as our portfolio returned approximately 18.3 percent, much better than our assumed earnings rate of 8.5 percent.

Deductions from Plan Net Assets

Our largest expense was for retirement benefits to members and beneficiaries. Total benefits increased 4.7 percent to \$784 million in FY07. The increase in

benefits resulted from an increase in the number of benefit recipients and a 2.5 percent cost of living increase for most retirees effective January 1, 2007. The amount of refunds decreased slightly in FY07 due to fewer people taking refunds. Administrative expenses also decreased slightly in

Discussion and Analysis

(Continued)

FY07 to \$9 million. As stated earlier, additions to net assets exceeded deductions from net assets, resulting in a \$1.9 billion change in net assets.

Overall Financial Position

The financial position of a public pension plan is not so much determined by what is found on the face of the financials, but by looking at trends in the funding ratio and contribution sufficiency or deficiency.

For the first time since 2001, when we began a 3-year stretch of investment returns below our assumed 8.5% rate of return, our funding ratio improved in 2006. That trend would have continued this year had we not changed the asset valuation method for the MPRIF, with a funding ratio of 76.25%. Under the new asset valuation method, PERA is now 73.34% funded, a decrease from 74.65% in FY06. In general, this indicates that for every dollar of benefits we expect to pay out, we already have about 73 cents in our reserves to cover it. Since investment gains and losses are smoothed over 5 years in the Active Fund, it took us a few years to recover from the poor investment returns we had in 2001, 2002 and 2003. We have achieved excellent returns over the past four years, and now have \$733 million in investment gains that have not yet been recognized in the actuarial value of assets. Those gains will be recognized over the next 4 years.

Contribution rates have not been sufficient for us to become fully funded. In 2005, legislation was passed to increase contribution rates 2.37 percent over a five-year period. The first of those steps occurred on January 1, 2006, and the second step occurred on January 1, 2007. Member contribution rates will increase 0.25% again next January, and employer rates will increase 0.25% per year in each of the next three years.

PEPFF

Total assets as of June 30, 2007 were \$6.4 billion in the Public Employees Police and Fire Fund, an increase of \$1 billion, or 19.3 percent from the prior year. The increase is due to strong investment earnings and a larger amount of securities lending collateral on the books at year end. Total liabilities as of June 30, 2007 were \$884 million, an increase of \$310 million due to the larger securities lending collateral.

Total net assets, the difference between total assets and total liabilities, increased \$727 million or roughly 15 percent from the prior year to an ending balance of \$5.5 billion.

Additions to Plan Net Assets

Contributions and net investment income for FY07 totaled \$1 billion. Employer contributions increased \$11 million and member contributions increased \$8 million in FY07, largely due to an increase in contribution rates. Effective January 1, 2007 member rates increased from 7.0% to 7.8% and employer rates increased from 10.5% to 11.7%. Net investment income in FY07 totaled \$882 million, an increase of \$338 million from last year due to better than average investment returns of 18.3%.

Deductions from Plan Net Assets

Retirement benefits to members and beneficiaries made up over 99 percent of our total deductions. The amount of benefits paid increased 6 percent in FY07 to \$280 million. The increase in benefits resulted from an increase in the number of benefit recipients and a 2.5 percent cost of living increase for most retirees effective January 1, 2007. The amount of refunds increased very slightly in FY07, while administrative expenses decreased slightly during the year.

Overall Financial Position

The Police and Fire Plan was 91.70% funded as of July 1, 2007 under the new asset valuation method, compared to 95.39% as of July 1, 2006. The funded ratio under the old asset valuation method would have been 94.94% at the end of fiscal year 2007. Contributions are deficient by 8 percent of pay for the Plan to become fully funded by 2020. Fortunately, contributions are scheduled to increase 4 percent over the next few years, but we still need to adjust assumptions or benefit provisions, increase contribution rates further, or extend the amortization period in order to shore up the fund. Legislative changes in our disability provisions were enacted in 2007, which resulted in a 0.47% of payroll decrease in our contribution deficiency. This is the seventh year in a row our funding ratio has decreased, but it is still a fairly healthy funding ratio, indicating that we have 91.7 cents available in reserves to pay each dollar in future benefits.

PECF

In the Public Employees Correctional Fund, total assets as of June 30, 2007 equaled \$201 million, an increase of \$54 million or 37% from the prior year. The PECF is a very new fund, and brings in more cash through contributions than it spends paying benefits and refunds. Total liabilities as of June 30, 2007 were \$27 million, an increase of \$11 million from the prior year, due to more securities being loaned out at year end and thus more securities lending collateral on the books. Total net assets, the difference between total assets and total liabilities, increased \$43 million in fiscal year 2007, resulting in an ending net asset value of \$174 million.

Additions to Plan Net Assets

Contributions and net investment income for FY07 totaled \$46 million, an increase of \$13 million. Employer and member contributions increased roughly 6 percent to \$12.5 million and \$8.3 million respectively, due to an increase in the number of active members and higher salaries. Contribution rates were not increased in the PECF. Net investment income in FY07 totaled \$25 million, an increase of \$12 million from FY06, due to tremendous investment returns.

Deductions from Plan Net Assets

Expenses for this plan are still quite small. Retirement benefits increased 37% from \$1.3 million in FY06 to \$1.8 million in FY07 as more members became eligible to retire. Refunds decreased 23% to \$474,000 as a result of members being able to retire.

Administrative expenses decreased slightly and represent about one-tenth of one percent of total net assets.

Overall Financial Position

In only its eighth year of existence, the Public Employees Correctional Fund is 98.38% funded, an increase from last year's 94.35%. Since there are very few PECF retirees in the MPRIF, the change in asset valuation method for the MPRIF had very little effect on this plan. The funded ratio under the old asset valuation method would have been 98.83% as of the end of fiscal year 2007. With only eight years of experience it is difficult to know if our long-term assumptions are accurate, but we believe contribution levels are sufficient to fully fund this plan within the next 17 years.

AGENCY SUMMARY

PERA's combined net assets have increased consistently over the last three decades, with the exception of the economic downturn of fiscal years 2001 and 2002. FY07 was no exception, due to excellent investment returns, increased contribution rates in two of the three plans, and a growing membership. Funding ratios in two of the plans would have improved if we had not changed our asset valuation method, and the third plan is still more than 91% funded. We have concerns with the MPRIF that we plan to address with the legislature this next session. We also hope to adjust some of our actuarial assumptions in fiscal year 2008, based on our last experience study. Those changes should reduce the actuarial accrued liabilities in our defined benefit plans. The Board of Trustees will continue to strive to ensure the security and stability of our funds.

This financial report is designed to provide a general overview of PERA's finances and to demonstrate its accountability with the assets it holds in trust. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to PERA at 60 Empire Drive, Suite 200 in St. Paul, Minnesota 55103-2088.

The accompanying notes are an integral part of the financial statements.

Notes to the Financial Statements

For the Fiscal Year Ended June 30, 2007

PERA is the administrator of three cost-sharing, multiple-employer retirement plans and one multiple-employer deferred compensation plan.

Plan Participation

(Total Membership)

A. PLAN DESCRIPTION

1. Organization

The Public Employees Retirement Association (PERA) is the administrator of three cost-sharing, multiple-employer retirement plans, the Public Employees Retirement Fund (PERF), the Public Employees Police and Fire Fund (PEPFF), and the Public Employees Local Government Correctional Service Retirement Fund, called the Public Employees Correctional Fund (PECF). In addition, PERA administers one multiple-employer deferred compensation plan, the Public Employees Defined Contribution Plan (PEDCP). The plans, including benefit provisions and the obligation to make contributions, are established and administered in accordance with Minnesota Statutes, Chapters 353, 353A, 353B, 353D, 353E and 356. It is also these statutes that define financial reporting requirements.

2. Participating Employers

PERA serves approximately 2000 separate units of government in the PERF, 500 units of government in the PEPFF, 80 counties in the PECF, and 1000 units in the PEDCP. These units of government are made up of counties, cities, townships, school districts, and generally other units of government whose revenues are derived from taxation, fees, or assessments. The defined contribution plan serves any local unit of government whose current or former elected officials elect to participate. The PEDCP also serves any publicly operated ambulance service that receives an operating subsidy from a governmental entity, and elects to participate.

3. Participating Members

The PERF covers employees of counties, cities, townships and employees of schools in non-certified positions throughout the State of Minnesota. The PEPFF, originally established for police officers and fire-fighters not covered by a local relief association, now covers all police officers and firefighters hired since 1980. Effective July 1, 1999, the PEPFF also covers police officers and fire-fighters belonging to a local relief association that elected to merge with and transfer assets and administration to PERA. The PECF covers employees in county correctional institutions who have direct contact with inmates. Coverage under the PEDCP is open to elected local government officials (except elected county sheriffs), emergency medical service personnel employed by or providing service to any of the participating ambulance services, and physicians employed at public facilities. Elected officials and ambulance personnel who are covered by a public or private pension plan because of their employment are not eligible to participate in the PEDCP. At June 30, 2007, there were 6,867 members in the plan.

Shown in **Figure 1** below are the membership totals in the PERA defined benefit plans as of June 30, 2007.

4. Benefit Provisions - Defined Benefit Plans

a) PERA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. All benefits vest after three years of credited service. Retirement benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. PERF members

Fig.1 PERA Membership — Defined Benefit Plans

	<u>PERF</u>	<u>PEPFF</u>	<u>PECF</u>	<u>Total</u>
Retirees and beneficiaries receiving benefits	61,436	7,032	275	68,743
Terminated employees entitled to benefits/refunds but not yet receiving them:				
Vested	39,722	1,200	1,337	42,259
Non-Vested	109,599	814	1,291	111,704
Current, active employees:				
Vested	106,073	8,888	2,253	117,214
Non-Vested	40,153	1,832	1,313	43,298
Total	<u>356,983</u>	<u>19,766</u>	<u>6,469</u>	<u>383,218</u>

belong to either the Basic or Coordinated Plan. Coordinated members are covered by Social Security and Basic members are not. All new members must participate in the Coordinated Plan. Two methods are used to compute benefits for Coordinated and Basic members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2).

Under **Method 1**, the annuity accrual rate for Basic members is 2.2 percent of average salary for each of the first 10 years of service and 2.7 percent for each remaining year. For a Coordinated member, the annuity accrual rate is 1.2 percent of average salary for each of the first 10 years of service and 1.7 percent for each remaining year. Under **Method 2**, the annuity accrual rate is 2.7 percent of average salary for Basic members and 1.7 percent for Coordinated members for each year of service. For PEPFF members, the annuity accrual rate is 3.0 percent of average salary for each year of service. For PERF members whose annuity is calculated using Method 1, and for all PEPFF and PECF members, a full annuity is available when age plus years of service equal at least 90. A reduced retirement annuity is also available to eligible members seeking early retirement. The annuity accrual rate for PECF members is 1.9 percent of average salary for each year of service in that plan.

The benefit provisions stated in the preceding paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

5. Benefit Provisions and Contribution Rates — Defined Contribution Plan

The Public Employees Defined Contribution Plan (PEDCP) is a multiple-employer deferred compensation plan. The PEDCP is a tax qualified plan under Section 401(a) of the Internal Revenue Code and all contributions by or on behalf

of employees are tax deferred until time of withdrawal. (See Notes A.2 and A.3 for employer and employee membership requirements.) The plan is established and administered in accordance with Minnesota Statutes, Chapter 353D.

Plan benefits depend solely on amounts contributed to the plan plus investment earnings, less administrative expenses. Minnesota Statutes, Chapter 353D.03, specifies the employee and employer contribution rates for those qualified personnel who elect to participate. An eligible elected official or physician who decides to participate contributes 5 percent of salary, which is matched by the employer. For ambulance service personnel, employer contributions are determined by the employer, and for salaried employees must be a fixed percentage of salary. Employer contributions for volunteer personnel may be a unit value for each call or period of alert duty. Employees who are paid for their services may elect to make member contributions in an amount not to exceed the employer share. Employer and employee contributions are combined and used to purchase shares in one or more of the seven accounts of the Minnesota Supplemental Investment Fund. Investment options include the Income Share, Growth Share, Common Stock Index, Bond Market, Money Market, International Share, and the Fixed Interest (formerly the Guaranteed Return) accounts. For administering the plan, PERA receives 2 percent of employer contributions paid during the year, plus twenty five-hundredths of one percent (0.25%) of the assets in each member's account each year.

There is no vesting period required to receive benefits in the PEDCP. At the time of retirement or termination, PERA distributes the market value of a member's account to the member or transfers it to another qualified plan or individual retirement arrangement. Upon the member's death, PERA distributes the value of the account to the member's designated beneficiary.

The PEDCP is a tax qualified plan under Section 401(a) of the Internal Revenue Code and all contributions by or on behalf of employees are tax deferred until time of withdrawal.

There is no vesting period required to receive benefits in the PEDCP.

Notes

(Continued)

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PLAN ASSET MATTERS

1. Reporting Entity

PERA functions as a separate statutory entity. The association maintains rights to sue or be sued in its own name and to hold property in its own name. For financial reporting purposes, PERA is considered a pension trust fund of the State of Minnesota and is included in the State's Comprehensive Annual Financial Report with its fiduciary funds. PERA does not have any component units.

2. Basis of Accounting

PERA financial statements for all funds are prepared using the accrual basis of accounting. Employee and employer contributions are recognized as revenues when due, pursuant to formal commitments and statutory requirements. Expenses are recorded when the liability is incurred. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

3. Investment Policies and Valuation Methodology

a) Pursuant to Minnesota Statutes, Section 11A.04, the state's retirement fund assets are commingled in various pooled investment accounts, administered by the State Board of Investment (SBI). As of June 30, 2007, the participation shares in the external pools at fair value, excluding the Minnesota Post Retirement Investment Fund (MPRIF), totaled approximately 28.38 percent for the PERE, 12.61 percent for the PEPFF and 0.66 percent for the PEEF. The funds' shares of net assets of the Minnesota Post Retirement Investment Fund, at fair value, totaled 26.15 percent, 9.34 percent and 0.03 percent, respectively.

b) Minnesota Statutes, Section 11A.24, broadly restricts retirement fund investments to obligations and stocks of United States and Canadian governments, their agencies and their registered corporations; short term obligations of specified high quality; restricted participation as a limited partner in venture capital, real estate or resource equity investments; restricted participation in registered mutual funds; and some qualified foreign instruments.

c) Investments in the pooled accounts, including assets of the PEDCP, are reported at fair value. **Figure 2** provides a summary of cost and fair values of the investments as of June 30, 2007 as reported on the Statement of Plan Net Assets. The fair value of investments is based upon valuations provided by a recognized pricing service. Securities traded on a national or international exchange are valued using the last reported trade price. Short-term investments are reported at cost, which approximates fair value. The fair value of real estate investments is based on independent yearly appraisals. Investments that do not have an established market are reported at estimated fair value.

d) Information about the primary government's (State of Minnesota) investments, including credit risk classification, can be obtained from the Minnesota Department of Finance, 400 Centennial Building, 658 Cedar Street, St. Paul, Minnesota 55155. Information on specific investments owned by the pooled accounts, currency risk, interest rate risk, investment activity and investment management fees paid can be obtained from the Minnesota State Board of Investment at the Retirement Systems of Minnesota Building, 60 Empire Drive, Suite 355, St. Paul, Minnesota 55103.

e) Investment income is recognized as earned. Accrued investment income of the pooled investment accounts is included in participation in the accounts. Gains and losses on sales or exchanges are recognized on the transaction date.

Active Funds Pooled Accounts

(Portfolio Allocation)

PERA functions as a separate statutory entity. The association maintains rights to sue or be sued in its own name and to hold property in its own name. For financial reporting purposes, PERA is considered a pension trust fund of the State of Minnesota.

Fig. 2 PERA Investments — All Funds (in thousands)

	Cost June 30, 2007	Fair Value June 30, 2007
Pooled Accounts		
External Domestic Equity	\$ 3,429,977	\$ 3,505,747
Fixed Income	2,400,149	2,317,704
Global Equity	1,386,362	1,699,770
Passive Domestic Equity	1,347,014	1,672,226
SBI Alternative	986,597	1,125,535
Total Pooled Accounts	\$ 9,550,099	\$10,320,982
Short Term Pooled Cash	\$ 129,799	\$ 129,799
Post Retirement Investment Account	\$ 9,671,931	\$ 8,972,726
Cash and Investments for Deferred Comp. Benefits	\$ 31,786	\$ 31,786
Totals	\$19,383,615	\$19,455,293

f) The cost of security transactions is included in the transaction price. Administrative expenses of the State Board of Investment and investment management fees of the external money managers and the state's master custodian for pension fund assets are allocated to the funds participating in the pooled investment accounts. PERA's share of these expenses totaled \$18,945,836 for PERF, \$7,683,305 for PEPFF, and \$223,341 for PECF. A detailed schedule of fees and commissions for the entire pool by brokerage firm, along with the number of shares traded, total commissions, and commissions per share may be obtained from the Minnesota State Board of Investment at the Retirement Systems of Minnesota Building, 60 Empire Drive, Suite 355, St. Paul, Minnesota 55103.

4. Cash

Cash on deposit consists of year-end receipts not processed as of the investment cutoff deadline on June 30. PERA cash funds are held in the state treasury, commingled with other state funds. Minnesota Statutes, Section 9.031, requires that deposits be secured by depository insurance or a combination of depository insurance and collateral securities held in the state's name by an agent of the state. Such insurance and collateral shall be in amounts sufficient to ensure that deposits do not exceed 90 percent of the sum of the insured amount and the market value of the collateral. Throughout fiscal year 2007, the combined depository insurance and collateral was sufficient to meet legal requirements and secure all PERA deposits, eliminating exposure to custodial credit risk.

5. Investment Risk

a) Credit risk is the risk that an issuer or counterparty to an investment will be unable to fulfill its obligations to the holder of the investment. The State Board of Investment has policies designed to minimize credit risk. They may invest funds in governmental obligations provided the issue is backed by the full faith and credit of the issuer or the issue is rated among the top four quality rating categories by a nationally recognized rating agency. They may invest funds in corporate obligations provided the issue is rated among the top four quality

categories by a nationally recognized rating agency. They may also invest in unrated corporate obligations or in corporate obligations that are not rated among the top four quality categories provided that:

- ▶ The aggregate value of these obligations may not exceed five percent of the fund for which the state board is investing;
- ▶ Participation is limited to 50 percent of a single offering; and
- ▶ Participation is limited to 25 percent of an issuer's obligations.

SBI may also invest in bankers acceptances, deposit notes of U.S. banks, certificates of deposit, mortgage securities, and asset backed securities rated in the top four quality categories by a nationally recognized rating agency. Commercial paper must be rated in the top two quality categories.

PERA's share of SBI's exposure to credit risk, based on S&P Quality Ratings for debt securities and short-term investments, is shown in **Figure 3**.

Fig. 3 Credit Risk Exposure

<u>Quality Rating</u>	<u>Fair Value (in thousands)</u>
BBB or Better	\$ 5,768,376
BB or Lower	130,572
Not Rated	168,027

b) Concentration of credit risk is the risk of loss that may be attributed to the magnitude of a government's investment in a single issuer. PERA does not have exposure to a single issuer that equals or exceeds 5% of the overall portfolio and, therefore, there is no concentration of credit risk.

c) Interest rate risk is the risk that changes in interest rates of debt investments could adversely affect the fair value of an investment. The State Board of Investment does not have a policy on interest rate risk. Debt securities are held in external investment pools and PERA's share has the following weighted average maturities as shown in **Figure 4**.

d) Foreign currency risk is the risk that changes in exchange rates between the

A detailed schedule of fees and commissions by brokerage firm, along with the number of shares traded, total commissions, and commissions per share may be obtained from the Minnesota State Board of Investment.

Notes

(Continued)

Legislation was passed in 1999 allowing PERA, the Minnesota Teacher's Retirement Association and the Minnesota State Retirement System to purchase land and construct a 140,000 square foot building to house all three retirement systems. The systems moved into the facility in September 2001.

Fig. 4 Interest Rate Risk

Security	Weighted Average Maturity (in years)
Cash Equivalents	0.14
Mutual Funds	0.42
U.S. Agencies	3.95
Municipal Bonds	5.68
U.S. Treasuries	6.56
Corporate Bonds	9.65
Asset-Backed Securities	12.44
Mortgage-Backed Securities	25.23

U.S. dollar and foreign currencies could adversely affect the fair value of an investment. Most foreign currency risk resides within SBI's international equity investment holdings. In order to reduce foreign currency risk, the State Board of Investment has developed the following policies. Government obligations, including guaranteed or insured issues of the International Bank for Reconstruction and Development, the Inter-American Development Bank, the Asian Development Bank, and the African Development Bank, must pay interest and principal in U.S. dollars. The principal and interest of obligations of corporations, including those corporations incorporated or organized under the laws of the Dominion of Canada or any province thereof, must also be paid in U.S. dollars. SBI has less than a 15 percent exposure to currency risk. PERA's share of investments at June 30, 2007 was distributed among the currencies shown in Figure 5.

e) In accordance with Minnesota Statutes, SBI has the authority to enter into, and has entered into, derivative transactions including put and call options and future contracts traded on a contract market regulated by a governmental agency or by a financial institution regulated by a governmental agency. Any agreements for put and call options and futures contracts may only be entered into with a fully offsetting amount of cash or security. As of June 30, 2007, PERA's exposure to market risk is minimal.

5. Capital Assets

Capital assets, generally assets with a cost in excess of \$5,000 and a useful life greater than 1 year, are capitalized at the time of acquisition at cost. Depreciation is computed on a straight-line method over the useful life of the related assets. The estimated useful lives are three to 10 years for furniture and equipment.

Capital assets are presented on the June 30, 2007 Statement of Plan Net Assets at historical cost, net of accumulated depreciation, as summarized in Figure 6.

6. Building and Land

Legislation was passed in 1999 allowing PERA, the Minnesota Teacher's Retirement Association and the Minnesota State Retirement System to purchase land and construct a 140,000 square foot building to house all three retirement systems. The systems moved into the facility in September 2001. Ownership of the facility is pro-rated based on the amount of square footage each retirement system occupies in the building. PERA's ownership share as of June 30, 2007 is 39.8 percent. PERA's share of the cost to purchase the 4.3 acres of land was \$170,308.

In June 2000 the State of Minnesota, under the authority of the Commissioner of Finance, issued revenue bonds totaling \$29 million on behalf of the three retirement systems to pay for the construction of the facility. Those bonds are backed by the assets of the three retirement systems, excluding equity in the Minnesota Post Retirement Investment Fund and assets in the Defined Contribution Plans, and both

principal and interest payments are made by the retirement systems using the same ownership ratio to determine amounts. At year end, PERA's share of the bonds payable is \$10,377,850. We are depreciating the facility over 40 years. PERA's share of bond issuance costs are shown on the Statement of Plan Net Assets as Deferred Bond Charges and are being amortized over 30 years, the life of the bonds. The bond repayment schedule is shown in **Figure 7**.

7. Accrued Compensated Absences

PERA's employees accrue vacation leave, sick leave and compensatory leave at various rates within limits specified in collective bargaining agreements. Accumulated amounts for compensated absences are accrued when incurred. Such leave is liquidated in cash primarily at the time of termination of employment. We estimate that \$66,975 is considered a short-term liability and \$647,611 is considered a long-term liability. The total, \$714,586, is shown on the Statement of Plan Net Assets.

8. Securities Lending

PERA does not own specific securities, but instead owns shares in pooled funds invested by the State Board of Investments (SBI). The SBI is authorized to enter into securities lending transactions in accordance with Minnesota Statutes, Chapter 356A.06, subd. 7 and has, via a Securities Lending Authorization Agreement, authorized State Street Bank and Trust Company to lend its securities to broker-dealers and banks pursuant to a form of loan agreement.

During the fiscal year, State Street lent, at the direction of the SBI, certain securities held by State Street as custodian and received cash (both United States and foreign currency), securities issued or guaranteed by the United States government, sovereign debt of foreign countries, and irrevocable bank letters of credit as collateral. State Street did not have the ability to pledge or sell collateral securities absent a borrower default. Borrowers were required to deliver collateral for each loan in amounts equal to not less than 102% of the market value of the loaned securities.

The SBI did not impose any restrictions during the fiscal year on the amount of the loans that State Street made on its behalf. There were no failures by any borrower to return loaned securities or pay distributions thereon during the fiscal year. Moreover, there were no losses during the fiscal year resulting from a default of the borrowers or State Street.

During the fiscal year, the SBI and the borrowers maintained the right to terminate all securities lending transactions on demand. The cash collateral received on each loan was invested, together with the cash collateral of other qualified tax-exempt plan lenders, in a collective investment pool. As of June 30, 2007, the investment pool had an average duration of 53 days and an average final maturity of 430 days. Because the loans were terminable at will their duration did not generally match the duration of the investments made with cash collateral. On June 30, 2007 SBI had no

PERA does not own specific securities, but instead owns shares in pooled funds invested by the State Board of Investments (SBI). The SBI is authorized to enter into securities lending transactions and has authorized State Street Bank and Trust Company to act as agent in lending securities to broker-dealers and banks.

■ Employer

credit risk exposure to borrowers. PERA's portion of the collateral held and the fair value of securities on loan from the SBI as of June 30, 2007 was \$3,516,405,465 and \$3,388,870,672 respectively. Cash collateral of \$3,078,186,438 is reported on the Statement of Plan Net Assets as an asset. Liabilities resulting from these securities lending transactions are also reported on the Statement of Plan Net Assets.

C. CONTRIBUTIONS REQUIRED AND CONTRIBUTIONS MADE

Minnesota Statutes, Chapters 353, 353A, 353B, 353E and 356 set the rates for employer and employee contributions. In 2005 the Minnesota legislature passed legislation that increases employer and employee contribution rates for PEPFF members and for Coordinated Plan members of the PERF over a five-year period. Current and future contribution rates are shown in **Figure 8**. New contribution rates are expected to be sufficient to get the PERF fully funded by the year 2031, the PECF by the year 2023, and the PEPFF by 2020, as is required under Minnesota Statutes. The required contributions are expressed as a level percentage of covered payroll and are actuarially determined using an individual entry-age actuarial cost method.

Legislation passed in 1999 closed the Police and Fire Consolidation Fund and moved members and necessary assets to the PEPFF.

Legislation passed in 1999 closed the Police and Fire Consolidation Fund and moved members and necessary assets to the PEPFF. Some consolidation units were not fully funded at the time, and an amortization schedule was created that allowed those units to pay off the unfunded liability over a 10-year period. The method for calculating yearly payments was set forth in Minnesota Statutes and calculated by an actuary. Payments are due by January 31st each year through the year 2009. In fiscal year 2007 we received \$6,428,330 in principal and interest payments. Future principal payments of \$11,859,323 are

shown on the Statement of Plan Net Assets as a receivable. Of that amount, \$5,687,921 is due by January 31, 2008.

D. MINNESOTA POST RETIREMENT INVESTMENT FUND (MPRIF) RESERVE

For all retiring members, except those in the PEPFF who have not elected to have their post retirement adjustments determined by the MPRIF formula, the reserves required to pay the cost of the member's annuity are transferred to the MPRIF where the funds are invested along with funds from the other statewide retirement systems. Increases in annuities are based upon CPI and earnings of the MPRIF, as defined in Minnesota Statutes, Section 11.18, Subd. 9.

The MPRIF is a legally required reserve account, and was, until this year, by definition fully funded when funding ratios were calculated, in accordance with Minnesota statutes. Effective this year, funding ratios are calculated using the full fair value of the MPRIF assets. PERA's share of the MPRIF investments is shown at fair value, and is calculated based on each fund's level of participation in the pooled invest-

Fig 7. Remaining Revenue Bond Repayment Schedule (In dollars)

Fiscal Year	PERA		Total P & I
	Principal	Interest	
2008	\$ 228,850	\$ 600,716	\$ 829,566

2027	666,650	175,879	842,529
2028	716,400	136,713	853,113
2029	756,200	93,729	849,929
2030	805,950	48,357	854,307
Totals	\$10,377,850	\$8,830,991	\$19,208,841

ments. Participation in the MPRIF is determined by the actuarially determined required reserves level in accordance with Minnesota Statutes, Section 11A.18, Subd. 7. It includes a 6 percent assumed income distribution and any mortality gains or losses incurred during the year. As of June 30, 2007, the Public Employees Retirement Fund's share of net assets of the MPRIF, at participation, is \$7,577,865,197 and at fair value is \$6,606,806,101. The Public Employees Police and Fire Fund's share of net assets of the MPRIF, at participation, is \$2,706,554,320 and at fair value is \$2,358,900,619. The Public Employees Correctional Fund's share of net assets of the MPRIF, at participation, is \$8,414,877 and at fair value is \$7,019,072.

Beginning in fiscal year 1993, the MPRIF income available for distribution is determined using a post-retirement benefit increase formula based on total investment return. This formula contains both an inflation adjustment and an investment component. Stated as a percentage of eligible required reserves, annuitants and other individuals receiving benefits in June, 2006 are eligible to receive the following January 1, 2008 benefit increase:

Inflation Based Benefit Increase	2.500%
Investment Based Benefit Increase	0.000%
Total Benefit Increase	2.500%

Benefit recipients whose first benefit was paid after June 30, 2006 but before June 2, 2007 will receive a prorated amount of the January 1, 2008 benefit increase.

E. OTHER NOTES

1. Administrative Expenses

Administrative expenses of the Public Employees Retirement Association are paid during the year from the Public Employees Retirement Fund. At year-end, a portion of the expenses are allocated to the Public Employees Police and Fire Fund and the Public Employees Correctional Fund, based on membership counts. The PEDCP reimburses the PERF to the extent of fees collected for recovery of administrative costs. The applicable amounts are reported as expenses of the four funds and reported on the Statement of Plan Net Assets as a payable to other funds or due from other funds. Administrative costs are funded from investment income for the defined benefit plans.

For fiscal year 2007, administrative expenses allocated to PERF, PEPFF, PECF, and PEDCP totaled \$9,060,892, \$678,383, \$185,346 and \$116,465 respectively.

2. Participating Pension Plan

All employees of the Public Employees Retirement Association are covered by the PERF Coordinated Plan and eligible for the plan provisions described in Note A.4. Minnesota Statute 353.27 sets the rates for employee and employer contributions. These statutes are established and amended by the state legislature. Current and future rates are shown in

Figure 8. Total covered payroll for PERA employees during fiscal year 2007 was approximately \$4.35 million.

Employer pension contributions for PERA employees for the years ending June 30, 2007, 2006 and 2005 were \$266,635, \$260,366, and \$246,135, respectively, equal to the required contributions for each year as set by state statute.

Fig. 8 Retirement Plan Contribution Rates

Effective Date	Contributor	PERF		PEPFF	PECF*
		Basic*	Coordinated		
1/1/06	Member	9.10%	5.50%	7.00%	5.83%
	Employer	11.78%	6.00%	10.50%	8.75%
1/1/07	Member	9.10%	5.75%	7.80%	5.83%
	Employer	11.78%	6.25%	11.70%	8.75%

An Equal Opportunity
Employer

Investment Authority

The assets of the Public Employees Retirement Association are invested under the direction and authority of the State Board of Investment (SBI) in accordance with Minnesota Statutes, Chapters 11A and 356A. The SBI is made up of the State Governor, State Auditor, Secretary of State, and the Attorney General. The Legislature has also established a 17-member Investment Advisory Council to advise the SBI and its staff on investment-related matters. The Executive Director of PERA is a permanent member of this Council.

Investment Policy

Investment policy states that the SBI will operate within standard investment practices of the prudent person. The SBI is to “exercise that degree of judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived therefrom.” The SBI is authorized to own government obligations, corporate obligations, various short-term obligations, corporate stocks, venture capital interests, mutual funds, resource investments, and real estate interests subject to specific parameters. Above all, pension fund assets are to be invested for the exclusive benefit of the members of the fund.

Investment Objectives

Pension fund assets are managed and accounted for separately in the Basic Funds and the Post Fund. The SBI reviews the performance of all the assets in the Combined Funds.

Pension contributions of PERA members are invested in the Basic Funds along with pension contributions from active members in seven other statewide retirement funds. PERA does not own any underlying assets, but instead owns a participation in these pooled Basic Funds. Because these assets normally accumulate in the Basic Funds for thirty to forty years, SBI’s objective is to take advantage of the long investment time horizon offered by equities and alternative assets in order to meet its actuarial return target of 8.5 percent per year and ensure that sufficient funds are available to finance promised benefits at the time of retirement.

When a member retires, PERA transfers assets on behalf of the member to the Minnesota Post Retirement Investment Fund (MPRIF). The assets of the Post Fund, which include the eight plans which participate in the Basic Funds as well as the Legislative and Survivors Retirement Fund, finance monthly annuity payments paid to retirees. Investments in the Post Fund are generally invested a bit more conservatively, but still invest heavily in equities to take advantage of the 15-20 year time horizon associated with the length of time a typical retiree can be expected to draw benefits. The actuarial return target for the Post Fund is 6 percent.

The Combined Funds, while not existing under statute, represents the assets of both the active and retired public employees who participate in the defined benefit plans administered by PERA, the Minnesota

State Retirement System, and the Teachers Retirement Association. They are used by the SBI for comparison purposes only, since most public pension plans do not separate the assets of their active employees and retirees. The long term objectives of the Combined Funds are:

- (1) provide returns that are 3-5 percentage points greater than inflation over the latest 20-year period;
- (2) outperform a composite market index weighted in a manner that reflects the actual asset mix of the Combined funds over the latest 10-year period; and
- (3) provide returns that are ranked in the top half of a universe of public and corporate plans over the latest 10-year period.

The Combined Funds returned 7.0 percentage points above the CPI over the last 20 years. The Combined Funds outperformed the Composite Index by 0.2 percentage points over the past 10 years, and ranked in the 42nd percentile, above the median fund in the Trust Universe Comparison Service.

Investment Presentation

Investment returns were prepared using a time-weighted rate of return methodology based upon fair market values, net of investment expenses.

 ** Alternative assets include real estate, venture capital and resource (oil, gas, etc.) funds.

BASIC FUNDS

POST RETIREMENT INVESTMENT FUND

ANNUITY INCREASE VS. INFLATION (LAST 10 YEARS)

Increases awarded to PERA retirees under the MPRIF greatly outpaced inflation during the 1990s but fell slightly short over the last four years. Increases and inflation are both measured as of June 30, the end of PERA's fiscal year.

Board of Trustees
Public Employees Retirement
Association of Minnesota
60 Empire Drive, Suite 200
St. Paul, Minnesota 55103-2088

Members of the Board:

We have completed our annual actuarial valuation of the Public Employees Retirement Association of Minnesota to test how well the fundamental financing objectives are being achieved and to determine the actuarial status of the Public Employees Retirement Fund (PERF), the Public Employees Police and Fire Fund (PEPFF), and the Public Employees Correctional Fund (PECF) as of June 30, 2007.

The fundamental financing objectives of the funds are to establish contribution rates that, when expressed as a percentage of active member payroll, will remain approximately level from generation to generation and meet the required deadline for full funding.

The results of the valuation indicate that the PERF is 73.34% funded, and the contributions are deficient by 1.06% of payroll to meet the target of full funding by 2031. The PEPFF is 91.70% funded, and the contributions are deficient by 7.98% of payroll to meet the 2020 full funding target date. The PECF is 98.38% funded, and the contribution rates are 2.22% of payroll higher than what is necessary for that fund to be fully funded by 2023.

The actuarial valuation was based upon applicable GASB 25 and statutory provisions and the Standards for Actuarial Work in effect on July 1, 2007. In the aggregate, the basic financial and membership data provided to us by the association office appears reasonable in comparison to last year, and we have relied upon the data as submitted in performing the actuarial valuation and preparing trend data schedules. It is our understanding that the data has subsequently been audited with no significant changes made. We are responsible for providing the numbers for each of the supporting schedules in the Actuary section of PERA's comprehensive annual financial report. We are also responsible for preparing both of the Required Supplementary Information schedules found in the Financial Section of this annual report.

The three valuations were performed by using the actuarial cost method and actuarial assumptions that are described in a separate table of this report.

The actuarial cost method and the assumptions related to asset valuation, investment return, earnings progression and active member payroll growth are specified by state statute. All other assumptions are based on actual experience with changes recommended by the actuary, adopted by the PERA Board and approved by the Legislative Commission on Pensions and Retirement.

The asset valuation method for the Minnesota Post Retirement Investment Fund was changed this year. Rather than valuing that Fund equal to the reserves necessary to make the Fund fully funded as was required in the past, this year the Fund was valued at fair market value. That change had a negative effect on funding ratios. Had that change not occurred, the funding ratio for the PERF would have increased to 76.25%. The funding ratios for the PEPFF and the PECF would have been 94.94% and 98.83% respectively. The new asset valuation method is in compliance with generally accepted accounting principles.

We certify that to the best of our knowledge and belief, this actuarial valuation was performed in accordance with the requirements of Minnesota Statutes Section 356.215, and the requirements of the Standards for Actuarial Work.

Sincerely,

Thomas D. Levy,

November 30, 2007

GASB Statement No. 44, Economic Condition Reporting: The Statistical Section, was issued in May 2004. The statement establishes requirements related to the supplementary information presented in the Statistical Section of this report. The objective of the information found in the Statistical Section is to provide financial statement users with additional historical perspective, context, and detail. We hope that when used in conjunction with information found in previous sections of this report, readers will gain a better understanding of PERA's overall financial condition.

Financial Information

The Schedule of Changes in Net Assets is presented for the last 10 years, giving the reader an opportunity to review trends in the revenues and expenses of our defined benefit plans. The Revenues and Expenses graph on page 58 shows that almost 70 percent of our revenue has come from investment income over the past 20 years.

Plan Membership

Membership data for the past ten years can be found on page 59. Active membership has increased 10 percent during that time period, while the number of benefit recipients has increased 43 percent and the number of terminated vested members has increased 236 percent. The graphs on page 60 show the distribution of our active membership as of 6/30/07.

Information about our benefit recipients is provided on pages 61 through 67, including monthly benefit amounts, types of benefits, benefit options, and location of benefit recipients.

Employers

The rest of this section provides information about the employers who participate in PERA.

All non-accounting data is derived from PERA's internal sources.

A handwritten signature in black ink that reads 'David Bergage'.

PERA Annuitant Residency

by State

Top 10 States by PERA Annuitant Population

State	Population
1. Minnesota	62,396
2. Wisconsin	1,215
3. Arizona	1,125
4. Florida	890
5. Texas	415
6. South Dakota	291
7. North Dakota	221
8. California	205
9. Iowa	202
10. Arkansas	166

Nearly 92 percent of PERA's annuitants remain residents of Minnesota.

Annuitants and Payments on June 1, 2007
