PERMIT TO CARRY SUMMARY DATA

[The information collected covers the reporting period January 1, 2006 through December 31, 2006]

Statewide Data - Year 2006

Number of Agencies Reporting:

87 Minnesota County Sheriff's Departments

Introduction

Minnesota State Statute 624.714, Subdivision 20 mandates that by March 1, 2004, and each year thereafter, the commissioner of public safety must report to the legislature on:

- (1) the number of permits applied for, issued, suspended, revoked, and denied, further categorized by age, sex and zip code of the applicant or permit holder;
- (2) the number of permits currently valid;
- (3) the specific reasons for each suspension, revocation, and denial and the number of reversed, canceled or corrected actions;
- (4) the number of denials based on the grounds under subdivision 6, paragraph (a), clause (3), the factual basis for each denial or revocation, and the result of an appeal, if any, including the court's findings of fact, conclusions of law and order;
- (5) the number of convictions and types of crimes committed since the previous submission, and in total, by individuals with permits including data as to whether a firearm lawfully carried solely by virtue of a permit was actually used in furtherance of the crime;
- (6) to the extent known or determinable, data on the lawful and justifiable use of firearms by permit holders; and
- (7) the status of the segregated funds reported to the commissioner under subdivision 21.

This report contains data on permit applications received between April 28, 2003 and December 31, 2006.

This report is a summary of the data reported by the Minnesota county sheriffs.

Background

The Personal Protection Act, Minnesota Statute [624.714] was signed into law on April 28, 2003. The BCA created a web site on May 28, 2003 that allowed sheriffs to enter their permit to carry applications into a centralized database. This database was created as an interim until the final database was built as outlined in MN State Statute 624.714, Subdivision 15. Information from the temporary database was incorporated into the new Permit Tracking System database and all sheriffs were given access. Information from the PTS database is used to produce this report. Since some of the reporting requirements of sheriffs are not collected by the database, a data collection form was created to capture the additional required information. A copy of the data collection form may be found in Appendix A.

On July 13, 2004 the Personal Protection Act was ruled unconstitutional. Entry of new permits was restricted after that date, but existing permit information was updated and maintained. On May 25, 2005 the PPA was reinstated retroactive to 2003 with some minor changes in policy. Modifications were made by the BCA to the Permit Tracking System database that would incorporate the new requirements of the legislature. Permits information was again entered into the PTS database by the Sheriff's Departments. The reports that were run for collection of data for this report were generated on December 31, 2006.
