

## 2007 MERC/PMAP Discretionary Fund Distribution

In 2004, ten percent of the funds available for the MERC/PMAP distribution began being set aside for sponsoring institutions to disburse, at their discretion, to their eligible clinical training sites. The original intent of this fund was to offset funding that smaller sites might have lost when the Legislature added a clause to the MERC statute that required sites to host a minimum number of FTEs per training program in order to qualify for the MERC/PMAP grant. In 2005, the FTE minimum was lifted; however, discretionary funding remained.

The 2007 discretionary distribution totaled \$6,235,834.58. This was divided among the sponsoring institutions based on the overall percentage of the MERC/PMAP grant they received.

Listed below are the sponsoring institutions along with the funding they received from the 2007 discretionary fund:

- *Due to rounding, individual institution totals may not add up to the total overall grant.*
- *After the grants were mailed, some funds were returned due to unforeseen site closures. Adjustments were not made to the amounts reported above. All individual site totals account for the actual amount received by the training site. Any returned funds will be rolled into the next distribution.*

Sponsoring Institutions developed their own criteria for disbursing funds to their eligible clinical training sites that hosted FTEs during fiscal year 2005. The clinical training sites that received these funds are listed below in alphabetical order:
