## MEDICAL EDUCATION AND RESEARCH COSTS (MERC) PREPAID MEDICAL ASSISTANCE PROGRAM (PMAP) PREPAID GENERAL ASSISTANCE MEDICAL CARE (PGAMC) 2007 DISTRIBUTION

The MERC Fund was established in 1996 to provide funding for the clinical training of selected medical professions. The purpose of this funding is to compensate teaching facilities for a portion of the costs of clinical training provided in patient care settings. Historically, teaching institutions covered a portion of these costs by setting patient charges above what they would be in a non-teaching environment. However, due to the implementation of managed care and other cost containment mechanisms, it became increasingly difficult for teaching facilities to collect this teaching increment, leaving these facilities at a competitive disadvantage. With the shift away from inpatient care and reductions in Medicare funding of medical education, teaching facilities are finding it more difficult to fund the costs of clinical training. In response to these financial pressures, the MERC fund began distributing funds to clinical training sites in 1998. Currently, funding for MERC is derived from a dedicated cigarette tax, along with federal matching funds.

In addition to the original MERC Fund, beginning in the fall of 2000, medical education 'add-on' funds began to be removed from capitated Prepaid Medical Assistance Program (PMAP) and Prepaid General Assistance Medical Care (PGAMC) rates and transferred to MERC for distribution directly to training sites. These add-on payments had historically been included in the capitated PMAP and PGAMC rates paid to health plans, but began being carved out of rates in October 2000 due to concerns that the funds, intended to offset higher costs at teaching facilities due to medical education, were not being passed through by health plans. Unlike the general MERC Fund, this is not new money but rather a transfer of existing funds that are distributed via a new mechanism. The first PMAP Distribution took place in June 2001. From 2001 until 2003, distributions from the PMAP fund occurred biannually, with each distribution containing six months worth of carved-out dollars. For more information about the history of the PMAP carveout, please visit the MERC website at http://www.health.state.mn.us/divs/hpsc/hep/merc/pmap/index.html.

Prior to 2004, the MERC and PMAP/PGAMC distributions were made separately; however, in 2004, a statutory change directed MDH to combine the two distributions and distribute the funds annually, usually during the summer or fall of each year. In doing this, the legislature also implemented a new method for calculating the distribution. From 2004 through 2007 the MERC/PMAP distributions combined the funding from all the funding pools, then set aside ten percent for sponsoring institutions to use at their discretion for eligible training sites under their teaching programs. Devising a methodology for how much is given to these sites is determined by the sponsoring institution. (Data containing the discretionary distribution is not reflected in this report, with the exception of the total amounts available to the sponsoring institutions.)

For more information on the MERC and PMAP distribution formula, please visit our web page at www.health.state.mn.us/divs/hpsc/hep/merc/index.html.

### 2007 MERC/PMAP Fund Distribution

Applications for grants are submitted by sponsoring institutions (organizations that are financially or organizationally responsible for one or more teaching programs) on behalf of the programs they sponsor. Each teaching program uses clinical training sites to provide training to the provider types listed below. Since the MERC/PMAP grants are designed to offset costs at clinical training sites, not at sponsoring institutions, the sponsoring institutions are obligated to forward the grants on to the clinics or hospitals at which their students' or residents' training was provided. A facility may be both a sponsoring institution and a training site. Training sites often support trainees from multiple sponsoring institutions and programs. Currently, nine provider types (listed below) are eligible for MERC/PMAP grants.

F	rovider	types	eligible	for	grants	from	the	2007	MERC/P	MAP	Fund

- \* Advanced Practice Nurses \* Chiropractic Students
- \* Medical Students\* PharmD Residents
- \* Dental Residents
- \* Dental Students
- \* Medical Residents
- \* PharmD Students\* Physician Assistants

In 2007, the MERC/PMAP Fund distributed grants to 22 sponsoring institutions representing 186 training programs, over 620 distinct training sites, and 3,036 trainees. The table below shows a breakdown of the 2007 distribution by sponsoring institution.

On any animal location time	Numb	er of		Non-Elig	ible FTEs		Eligible	MERC/PMAP	Discretionary	Overall

#### 2007 MERC/PMAP & Discretionary Grants by Sponsoring Institution

Notes:

- Due to rounding, individual institution totals may not add up to the total overall grant.

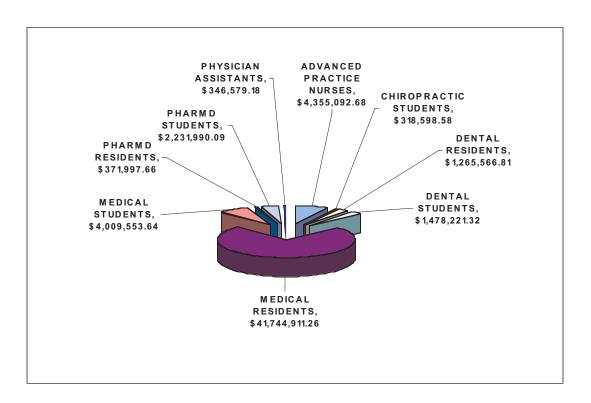

- Of the total MERC/PMAP grant amounts stated above, \$187,407.20 has not been released. Once CMS approves federal funding to nursing homes, these funds will be released .

- After grants were mailed, some funds were returned due to unforeseen site closures. Adjustments were not made to the amounts reported above or any other overall grant amount listed throughout this report. All individual site totals account for the actual amount received by the training sites. Any returned funds will be rolled into the next distribution.

## Distribution by Provider Type

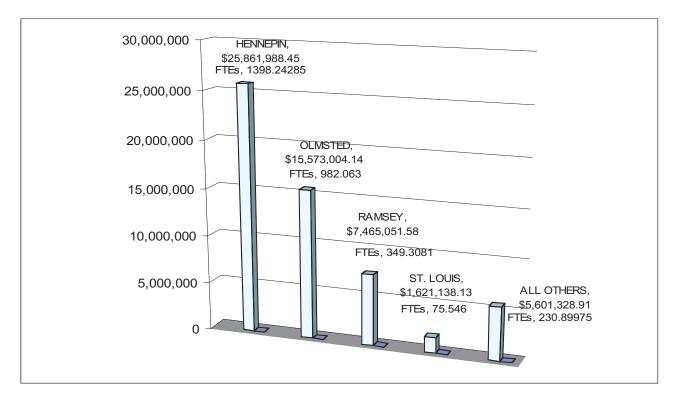

Medical Residents accounted for 59% of FTEs and 74% of the grant distribution in 2007. The FTEs were over three times higher than the FTEs of next largest provider type.

Provider Type	Number of Sites	Eligible FTEs	MERC/PMAP Grant	Percent Grant
ADVANCED PRACTICE NURSES	361	301.2740	\$4,355,092.68	7.7600%
CHIROPRACTIC STUDENTS	101	95.4900	\$318,598.58	0.5677%
DENTAL RESIDENTS	22	63.7600	\$1,265,566.81	2.2550%
DENTAL STUDENTS	2	135.8800	\$1,478,221.32	2.6339%
MEDICAL RESIDENTS	603	1,806.1116	\$41,744,911.26	74.3818%
MEDICAL STUDENTS	233	504.1000	\$4,009,553.64	7.1443%
PHARMD RESIDENTS	23	25.7941	\$371,997.66	0.6628%
PHARMD STUDENTS	90	75.4700	\$2,231,990.09	3.9770%
PHYSICIAN ASSISTANTS	61	28.1800	\$346,579.18	0.6175%
Total	1,496	3,036.0597	\$56,122,511.22	100.000%

#### Distribution by County

In a breakdown of the site distribution by county, grants coincided with the counties where FTEs were placed. For example, training sites in Hennepin County received 46% of the overall distribution. They also hosted 46% of the FTEs. Olmsted County received 28% of the available distribution and hosted 32% of the FTEs. Ramsey Country received 13% of the distribution and hosted 12% of the FTEs. Saint Louis Country received 3% of the distribution and hosted 2% of the FTEs. The remaining counties were combined and totalled 10% of the distribution and 8% of the FTEs.

\* The total amount indicated for these training sites has not been released. Once CMS approves federal funding to nursing homes, the remaining funds that are included in these amounts will be released.

### MERC Fund Distribution, 1998 - 2003 MERC/PMAP Fund Distribution, 2004-2007

The information in the tables below reflect only the MERC distribution from 1998 - 2003, and a combined MERC/PMAP distribution from 2004-2007. Up until 2004, both the MERC and PMAP distributions were distributed and reported separately. However, due to new legislation that began in 2004, the MERC and PMAP distributions were combined into one distribution.

			MERC Dis	stribution			ME	RC/PMAP	Distributi	on
