For the Year Ended June 30, 2008

150 YEARS
of STATEHOOD
1858 - 2008

On the cover:

Admitted to the union May 11, 1858, this year, Minnesota celebrates 150 years of statehood. In this time three buildings in St. Paul have served the state's citizens as the State Capitol.

The first was built at 10th and Cedar Streets in 1853, during the territorial period and underwent distinct remodeling in the 1870s. This structure was destroyed by fire in 1881.

The second Capitol, built on the same site, was completed in 1883. Immediately it was determined to be too small for the growing needs of the state government and in 1893 the legislature appropriated first funding to begin the construction of a new building.

Designed by famed architect, Cass Gilbert, the third and current Capitol Building opened its doors to all in 1905. Today it stands as an elegant and recognizable symbol of Minnesota.

2008 Comparison of Budget and Actual Revenues, Expenditures, and Changes in Fund Balances

Introduction

This report is a supplement to the State of Minnesota Comprehensive Annual Financial Report (CAFR), prepared by the Minnesota Department of Finance. The Department of Finance is responsible for the accuracy and completeness of the CAFR, as well as this report.

Generally accepted accounting principles require budgetary reporting at the legal level of control. As a supplement to the CAFR, this report provides the required level of detail in budgetary reporting.

The purpose of this report is to demonstrate that spending by state agencies was within the authorized limits and in compliance with appropriation laws. These schedules provide a more detailed version of the budget and actual statements included in the state's CAFR.

The detail in the schedules provided is at the legal level of budgetary control, which is the level beyond which agency heads have no authority to further modify the budget. In many cases, agencies have authority to modify budgets by spending dedicated receipts, moving amounts between fiscal years, or moving budgeted amounts from one program to another. Where an agency has the authority to transfer budgeted amounts between programs, the legal level of control is defined as the aggregate of the budgets for those programs.

Scope

The scope of this report covers only those funds for which annual spending limits are established in law. The following funds are included:

General Fund

Special Revenue Funds:

State Government

Transit Assistance

Trunk Highway

Highway User Tax Distribution

State Airports

Petroleum Tank Cleanup

Natural Resources

Game and Fish

Environmental

Remediation

Special Compensation

Health Care Access

Workforce Development

The State Government and Transit Assistance funds are not reported as separate funds in the CAFR, but are included in the General Fund.

Basis

This report is prepared on the budgetary basis of accounting. The budgetary basis is essentially a cash basis of accounting except that encumbrances are recognized as expenditures of the year appropriated. However, encumbrances associated with ongoing appropriations are not recognized as expenditures.

The summary of reporting policies preceding the schedules explains the basis for the budget amounts, budget adjustments, and actual amounts in the schedules. Other information common to all funds and necessary to an understanding of the reported schedules is also presented in the summary. The notes presented with each fund provide additional information unique to that fund.

This report follows closely other budget reports¹ prepared by the Department of Finance, Budget Division. However, because of its different purpose, timing, and level of detail, there are necessarily some differences between the schedules in this report and these other Department of Finance budgetary reports. These differences are explained in the notes to the schedules.

Audit

This report is prepared as a supplement to the state's Comprehensive Annual Financial Report. All funds rolling into the CAFR General Fund are included in the scope of the audit conducted by Office of the Legislative Auditor. Their opinion follows.

¹ Other budget reports prepared by the Department of Finance, Budget Division include:
General Fund - Fund Balance Analysis, dated June 18, 2007
Consolidated Fund Statement, Budgetary Basis, dated June 28, 2007.
Consolidated Fund Statement, Budgetary Basis, dated June 24, 2008.

OFFICE OF THE LEGISLATIVE AUDITOR

STATE OF MINNESOTA • James Nobles, Legislative Auditor

Independent Auditor's Report

Members of the Minnesota State Legislature

The Honorable Tim Pawlenty, Governor

Mr. Tom Hanson, Commissioner, Department of Finance

We have audited the basic financial statements of the State of Minnesota as of and for the year ended June 30, 2008, and have issued our report thereon dated December 9, 2008. Those basic financial statements are the responsibility of the state's management. Our responsibility is to express an opinion on those basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplementary Schedules of Revenues, Expenditures, and Changes in Fund Balance-Budget and Actual-Budgetary Basis (and Summary of Reporting Policy), as listed in the Table of Contents, are presented for the purpose of additional analysis and are not a required part of the basic financial statements. Only the information in the General Fund Schedule of Revenues, Expenditures, and Changes in Fund Balance-Budget and Actual-Budgetary Basis has been subjected to the auditing procedures applied in the examination of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The remaining information on pages 34 to 51, marked unaudited, has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it.

James R. Nobles
Legislative Auditor

Cecile M. Ferkul, CPA, CISA
Deputy Legislative Auditor

December 9, 2008

2008 Comparison of Budget and Actual Revenues, Expenditures, and Changes in Fund Balances Summary of Reporting Policies

General policies followed in preparing this report are discussed below.

Budget

Revenues

Original Budget

The budget amounts reported for revenues and transfers-in are the resource estimates used at the start of the fiscal year to determine allowable spending. In some cases, primarily the General Fund, these amounts were used in determining the amount available for appropriation by the 2007 Legislature and are from the Consolidated Fund Statement, Budgetary Basis, dated June 28, 2007, prepared by the Department of Finance, Budget Division.

Revenue categories in this report closely follow the Consolidated Fund Statement, Budgetary Basis report. The categories used are not consistent across funds because revenues are not estimated at the same level of detail for all revenue categories in all funds. For example, revenues for the General Fund do not include specific estimates of federal revenues even though such revenues are received. The special revenue funds include revenue budgets for federal revenues, as amounts are significant to those funds.

Budget

The budget amounts reported for revenues and transfers-in are the latest resource estimates used in determining allowable spending. These amounts represent the relevant agency's estimate of resources, made at the same point that expenditures were last estimated prior to fiscal year-end, and are taken from the Consolidated Fund Statement, Budgetary Basis report, dated June 24, 2008, prepared by the Department of Finance, Budget Division..

For Dedicated Receipts, revenue received determines the spending limits. Where these receipts were significant to the fund, the Budget is adjusted to reflect the final spending authority of revenues received.

Expenditures

Original Budget

The original expenditure budgets, with the exception of open appropriations, are comprised of the amounts specified in appropriation laws prior to the start of the fiscal year; actual appropriation amounts automatically carried over from previous years; transfers between programs, as authorized; and any other legally authorized legislative or executive changes before the beginning of the fiscal year. For open appropriations, the estimated expenditures were taken from the General Fund - Fund Balance Analysis, dated June 18, 2007, prepared by the Department of Finance, Budget Division.

Budget

The budget expenditures, except for open appropriations, are comprised of the amount specified in appropriation laws, including subsequent appropriations for the same purpose and any other legally authorized legislative or executive changes made during the fiscal year. For open appropriations, actual amounts spent are used because the law authorizes spending at levels necessary to fulfill the obligation.

Adjustments to Expenditure Budgets

The budget is adjusted to reflect changes to the appropriated amounts as permitted (or required) in statute or appropriation laws. Budget adjustments include, but are not limited to, transfers between programs as authorized; and actual dedicated receipts available to fund expenditures, encumbrances and transfers.

Actual

Actual revenues and transfers-in included are those attributable to fiscal year 2008. These primarily represent the amounts received during the fiscal year, net of refunds. In some instances, usually for dedicated revenues, amounts received after year-end, through the close of the books in August, may be included, if related to fiscal year 2008.

Actual expenditures include disbursements and encumbrances for fiscal year 2008. The only instance where encumbrances are not included as expenditures is in ongoing appropriations. These encumbrances are not included since they may not be liquidated for several years. The only exception is in the Trunk Highway Fund where encumbrances are included as expenditures in all appropriation types.

Actual transfers-out are transfers to other funds or component units for 2008, including transfers made after year-end, through the close of the books in August, if related to fiscal year 2008. These transfers are included as a part of expenditures.

Variances

Revenues and transfers-in variances represent the differences between the forecast of revenues to be received and the amount actually received.

Expenditure and transfer-out variances are the primary focus of this report, especially negative variances. Negative variances represent spending in excess of that allowed in law and are explained in fund notes, if significant. Spending did not exceed authorized limits in fiscal year 2008.

NOTES

1. Total budgeted revenues and expenditures on this report differ from those reported in the General Fund - Fund Balance Analysis (FBA), also prepared by the Department of Finance. These differences are explained below:
 - a. On the FBA, open appropriations are based on estimates. However, since this report measures the authority to spend up to fiscal closing, we include the amount actually needed for the program as the budget. This is the legal limit on spending for these programs.
 - b. Estimates are used in the FBA to better forecast ending fund balance. These estimates (if any) may differ from the legal authority presented in this report.
 - c. The FBA includes the same estimated amounts for both revenues and expenditures related to dedicated revenues. On this report, we have included, as authorized, adjustments to expenditure budgets, the actual dedicated revenues received. This is the legal limit on spending related to dedicated revenues.

State of Minnesota

GENERAL FUND

SCHEDULE OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE - BUDGET AND ACTUAL BUDGETARY BASIS YEAR ENDED JUNE 30, 2008 (IN THOUSANDS)

2. In the Comprehensive Annual Financial Report (CAFR), the General Fund includes the direct appropriated portion of two funds, which are included as separate funds in this report. The differences in the budgeted and actual fund balances between the CAFR and this report are the result of this combining activity.
- a. In the "Major Governmental Fund – Statement of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual – Budgetary Basis" report (included in the CAFR) a \$8.13 million transfer from the State Government Fund to the General Fund was eliminated. This is a result of the combining activity discussed above.
- b. A reconciliation of the actual undesignated fund balances is as follows (in thousands):

Legal Level of Budgetary Control Report:

General Fund	\$ 697,892
State Government Fund	4,584

NOTES

1. Federal Revenues include Federal Aid Agreement amounts that will be collected in the future upon completion of the agreement terms. The revenue is included to match encumbrance reserves established in accordance with the agreements.
2. In prior years, the Trunk Highway fund recognized encumbrances for engineering liabilities and corresponding federal revenue for the federal share of these encumbrances. Engineering liabilities represent salary encumbrances on outstanding contracts. In 2008, the Department of Transportation no longer recognizes the encumbrances for engineering liabilities or the corresponding federal revenue. This practice is consistent with other budgetary statements and does not have a material impact on fund balance.
