

Minnesota College Guide 2007–2008

A directory of degree-granting postsecondary institutions in Minnesota

Your Guide to Choosing a College

Find a college that's just right for you.

Thinking About College?

Minnesota is home to some of the finest postsecondary institutions in the country. From large campuses to small, urban to rural, close to home or far away, the state's public and private universities and colleges offer a broad spectrum of educational opportunities and experiences that might surprise you.

The *Minnesota College Guide* is published by the Minnesota Office of Higher Education to help you learn more about the many college opportunities in the state. Here you can find information about the colleges that interest you, including admissions policies, student demographics, college costs and programs.

Table of Contents

Introduction	2
A-Z College and University Profiles	6
Two-year Associate Degree Programs	84
Four-year Bachelor's Degree Programs	92

What's in the Guide?

The *Minnesota College Guide* is intended to help you explore your Minnesota college options. The guide includes public and private colleges and universities located in Minnesota that offer two-year associate and four-year bachelor's degrees. In addition to the profiles for each degree-granting institution, there are program grids at the back to help you identify and locate programs that interest you.

How to Use This Guide

Choosing a college is a big decision. It is difficult to know where to begin. Use this guide as a quick reference to learn about your Minnesota options. Be sure to contact the colleges that interest you directly to request more complete information. If you are interested in a particular college, be sure to visit the Web site, tour the campus, talk to the admissions and financial aid representatives, visit with current students and recent graduates and ask questions.

Two Years or Four?

Two-year colleges

Two-year colleges offer students two distinct options.

- Many public two-year colleges and some private career colleges offer students the first two years of a four-year bachelor's degree in any major. Students choose to start at a two-year college and then transfer their credits to a four-year college for a variety of reasons including location, cost, atmosphere or because they are uncertain of their program of study.

- Two-year colleges also offer career-specific programs leading directly to employment. Technical and career programs prepare students for careers in fields such as health care, manufacturing technology, law enforcement, computer networking, accounting, e-commerce and many other fields.

Four-year colleges and universities

Minnesota's four-year colleges and universities provide students with a solid foundation for a lifetime of learning, citizenship and work. Hundreds of different majors are offered, leading to careers in teaching, business, science, health care, engineering, the arts, social services, computer science, communications and many other fields. After students earn their four-year bachelor's degrees, some continue on in professional or graduate-level programs to become doctors, business professionals, lawyers, librarians, therapists, college professors, pharmacists, researchers, orthodontists and other professionals.

Preparing for College

The best way to prepare for college is to challenge yourself while in high school by taking rigorous courses in core subjects. Even if you have completed the high school graduation requirements, you will increase your chances for success in college by taking more advanced mathematics, science, English and social studies courses. Most four-year colleges and universities require the following, at a minimum, for admission:

- Four years of English (including composition and literature)
- Three and one-half years of social studies (including one year each of U.S. history and geography)
- Three years of mathematics (including two years of algebra and one year of geometry)
- Three years of science (including one year each of a biological and a physical science)
- Two years of a single world language
- One year of either world culture or fine arts

Public two-year colleges accept all high school graduates and GED holders. However, some programs at those schools are more selective and have high preparation standards and waiting lists to get in. Some students find they must spend a semester or even two just getting ready to enter a two-year career program by taking basic required courses they could have taken in high school. That is why your high school preparation is so important. Students who master core subjects while in high school save money and time in college.

Associate Degrees

Associate degree programs are designed to either prepare individuals for an occupation, or to provide a foundation for the completion of a bachelor's degree. They require the equivalent of two years of full-time study. Some general education courses are included in associate degree programs such as English and mathematics.

Bachelor's Degrees

All baccalaureate or bachelor's degrees require the equivalent of at least four years of full-time study. The degree includes both general courses and advanced course work in a defined area of study, typically called a major. There are hundreds of programs of study that lead to either a Bachelor of Arts (B.A.), Bachelor of Science (B.S.), or discipline-specific bachelor's degrees such as the Bachelor of Music or the Bachelor of Fine Arts.

What is Not in the Guide?

This guide does not include information about institutions offering only short-term certificates and diplomas or only graduate and professional degrees. Postsecondary institutions serving fewer than 200 students are also not included. For a more complete listing of Minnesota postsecondary institutions, visit www.getreadyforcollege.org.

Other Minnesota Resources

Minnesota State Colleges and Universities:

Seven state universities and 25 community and technical colleges. www.mnscu.edu

University of Minnesota: Minnesota's flagship research university in the Twin Cities and three universities in Duluth, Morris and Crookston.

www.umn.edu

Minnesota Career Colleges: 17 private career schools that make up the Minnesota Career College Association. www.mncareercolleges.org

Minnesota Private College Council: 17 private, not-for-profit colleges and universities.

www.mnprivatecolleges.org

Career information: A gateway to Minnesota information on careers, training, education, employment and the workforce. www.iseek.org

Understand Your Transfer Options

If you are considering enrolling in a two-year college with the possibility of transferring your credits later to a four-year institution, it's essential that you understand in advance how your credits will be received by the four-year institution. While many technical and career programs are transferable to a four-year degree program, some are not. Contact the four-year institution you would like to attend to find out how your credits will be applied to a four-year degree. You can find the contact name of the transfer specialist at each institution at www.mntransfer.org.

Evaluating Private Institutions

There are several ways to evaluate the quality and value of different programs and institutions. Most private and out-of-state institutions operating in Minnesota are required to be either registered or licensed by the Office of Higher Education. Public colleges and universities need not be licensed or registered. Some occupational training providers must be licensed by other state agencies and organizations as well. (For example, cosmetology programs are licensed by the Minnesota Board of Barber and Cosmetology Examiners.)

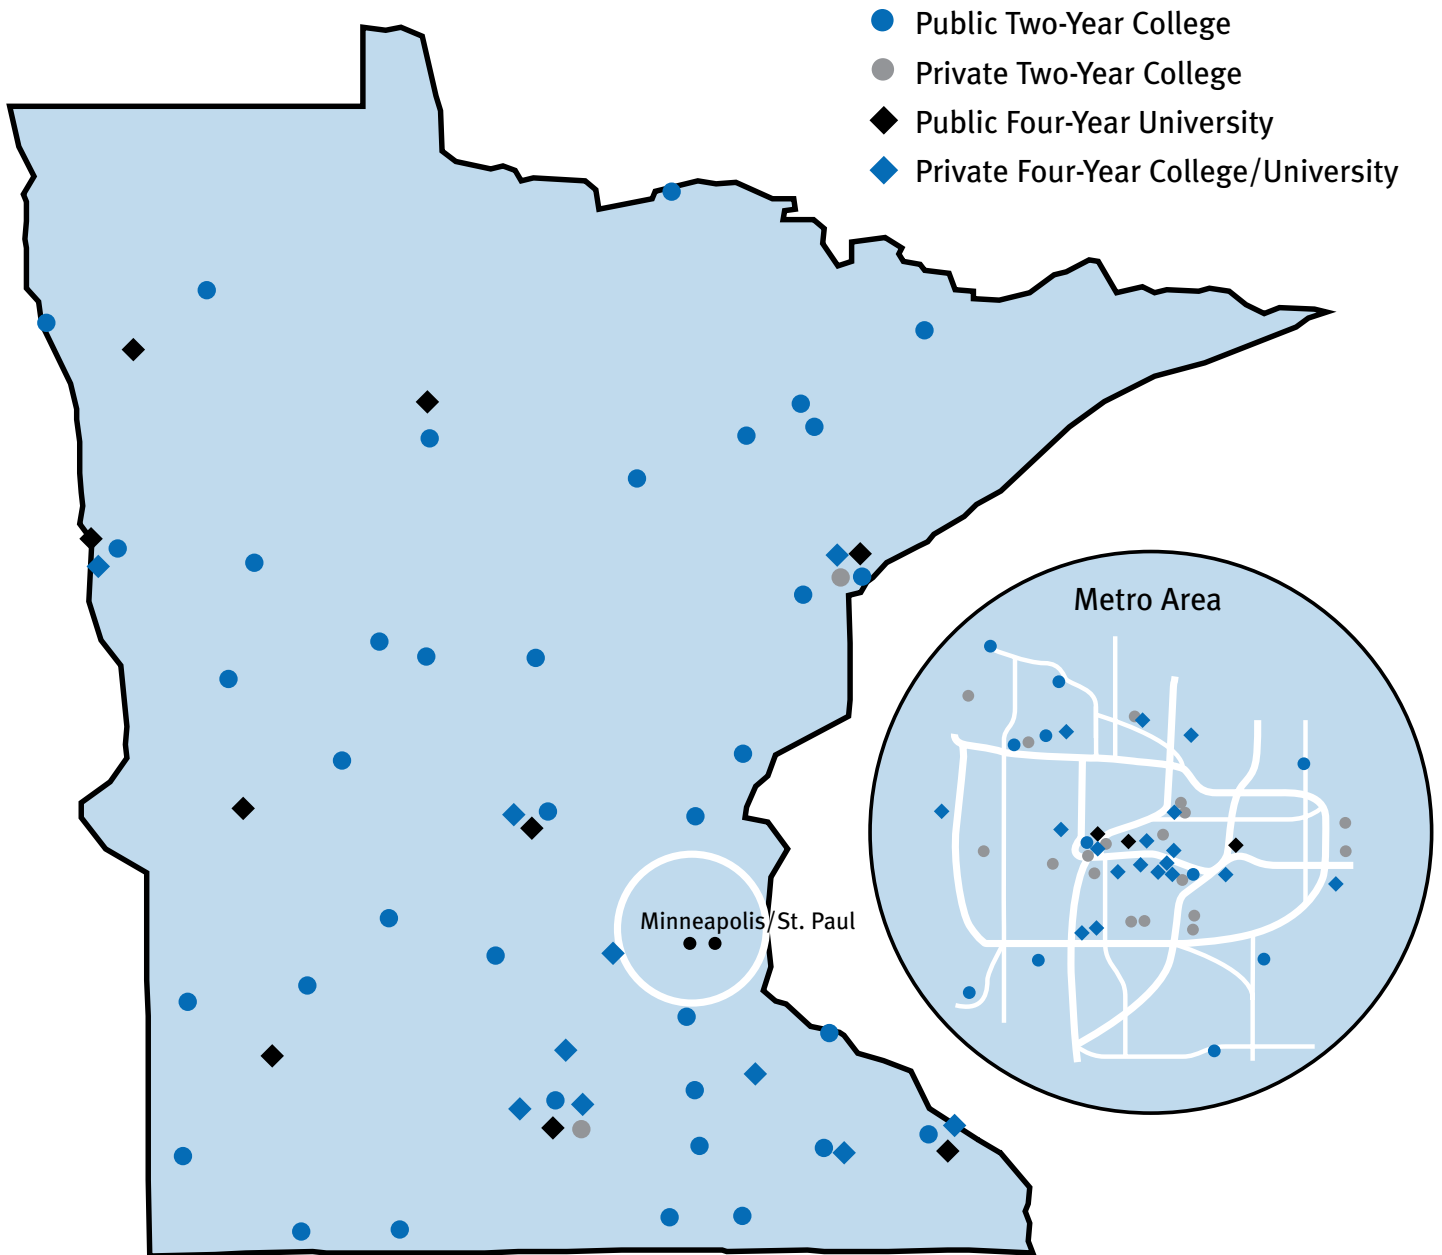

One way an institution can demonstrate that it meets basic standards is to become accredited. Accreditation means that the institution has been approved by a non-government agency that reviews institutions in a region or an occupational area. An institution should tell you whether it is accredited and identify which agency has granted accreditation. The federal government reviews and recognizes about 50 accrediting agencies across the country.

To check the legitimacy of an accrediting agency, contact:

- U.S. Department of Education
www.ed.gov/admins/finaid/accred/
(202) 219-7011
- Council for Higher Education Accreditation
www.chea.org/directories/
(877) 955-2432

To check the legitimacy of a claim of accreditation, contact the accrediting agency directly.

Carleton College is a coeducational residential college noted for bright and talented students and a strong faculty committed to teaching. Providing a first-class liberal arts education is Carleton's primary goal. By standard objective measures (such as the ability of new-entering students, the percentage of students who graduate or the number who earn doctoral degrees), Carleton is regarded as one of the country's best liberal arts colleges. Students come from nearly every state and many foreign countries as well as from a wide range of social, economic, racial and ethnic backgrounds.

College of Saint Benedict

St. Joseph

www.csbsju.edu

Toll free: (800) 549-1489

The College of Saint Benedict is nationally-leading liberal arts college whose unique partnership offers students the educational choices of a large university and the individual attention of a premier small college. The college shares academic programs with Saint John's University, and students attend classes and activities together and have access to the resources of both campuses. This integrated learning experience is enlivened by Catholic and Benedictine traditions of hospitality, stewardship, service, and the lively engagement of faith and reason. The college's values have been shaped by a commitment to ecumenism and inter-faith dialogue. Ranked nationally among the top baccalaureate institutions for the number of students who study abroad, the college is committed to preparing students for leadership and service in a global society. The college enrolls students from around the world and integrates global citizenship into the curriculum.

College of Saint Scholastica

Duluth

www.css.edu

Toll free: (800) 249-6412

The College of Saint Scholastica is an independent comprehensive college, founded in the Catholic intellectual tradition and shaped by its Benedictine heritage. The college offers programs in the liberal arts and sciences and professional career fields. The entire Saint Scholastica community is committed to an educational process that requires students to meet rigorous academic standards, to broaden the scope of their knowledge and to be accountable to both self and society. The small, friendly community enables each student to participate in academics, extracurricular and recreational activities. A low student-teacher ratio makes it easy to seek individualized help and encouragement. Saint Scholastica graduates, well-known for their academic and professional preparation, enjoy excellent placement opportunities. Last year, 97 percent of graduates either secured employment or enrolled in graduate school within six months of graduation.

Curious Fact

The college offers CISCO certification and has a Center of Excellence for computer training. An entire Associate of Arts degree is offered online.

Itasca Community College

Grand Rapids

www.itascacc.edu

Toll free: (800) 996-6422

At Itasca, you can take your general education courses, earn an Associate in Arts or Associate in Science degree after two years, then transfer to a four-year college as a junior. You can also complete one of the college's career programs and be ready for work in two years or less. At Itasca, you'll find the "big college" experience on a friendly, comfortable and academically challenging campus surrounded by majestic pine trees. The college's specialty transfer programs offer students hands-on experiences during their first two years of college. Itasca also has exceptional programs in engineering, natural resources, education, geographic information systems (GIS) and practical nursing. The college offers free tutoring, study skills assistance, dormitory and apartment housing on and near campus, up-to-date computer labs, online registration and library services.

Curious Fact

Until 1904, an Ojibwe (Chippewa) village of 40 families was located where Thief River and Red Lake River meet. This is the current site of the Thief River campus.

Northwest Technical College

Bemidji

www.ntcmn.edu
Toll free: (800) 942-8324

Northwest Technical College provides a 21st century learning environment, where technology is the foundation of all instruction. Graduates enter the job market with an edge on the competition: they're better prepared, more well-rounded and possess a knowledge base vital to success. The college's unique partnership with Bemidji State University means students can live in the university's residence halls and take advantage of university services and activities. Northwest offers programs in health, business and industrial technology careers, which are based on the skills employers need. Industrial model-making and high performance engine machining are two unique programs. Practical nursing is the largest major. The college has online majors in accounting; administrative support; medical administrative secretary, coding/insurance and transcription; sales, marketing and management; and supervisory management.

Toll free: (800) 456-3996

Rainy River Community College is located in northern Minnesota where, just minutes from campus, you can access a wilderness campsite in a world-class national park, fish a hot spot on a lake or river, get a fast food meal, see a movie or visit a Native American museum in Canada. The setting is a small, secure community of about 6,700 people nestled between a lake, a river, a national park and Canada. The 80-acre campus has an eight-building complex connected with heated walkways enclosing a landscaped courtyard. The grounds feature a softball field, tennis courts, lighted cross-country skiing and hiking trails and three ponds edged by decks and walkways. The adjacent student housing offers furnished apartment-style accommodations.

Saint John's University

Collegeville

www.csbsju.edu

Toll free: (800) 544-1489

Saint John's University is a nationally-leading liberal arts college whose unique partnership offers students the educational choices of a large university and the individual attention of a premier small college. The college shares academic programs with the College of Saint Benedict, and students attend classes and activities together and have access to the resources of both campuses. This integrated learning experience is enlivened by Catholic and Benedictine traditions of hospitality, stewardship, service, and the lively engagement of faith and reason. The college's values have been shaped by a commitment to ecumenism and inter-faith dialogue. Ranked nationally among the top baccalaureate institutions for the number of students who study abroad, the college is committed to preparing students for leadership and service in a global society. The college enrolls students from around the world and integrates global citizenship into the curriculum.

**Saint Mary's University of Minnesota**

Winona

www.smumn.edu

Toll free: (800) 635-5987

Saint Mary's University of Minnesota is a private Catholic institution, administered by the De La Salle Christian Brothers since 1933. At the coeducational residential Winona campus, the undergraduate college curriculum combines traditional liberal arts and sciences with career preparation in a student-centered environment. Saint Mary's University School of Graduate and Professional Programs is one of the largest graduate schools in Minnesota. Programs are offered at the university's Twin Cities, Winona and Nairobi campuses and Rochester center, with courses offered in Apple Valley and at more than 50 off-campus sites in Minnesota and Wisconsin.

St. Olaf College, a 300-acre residential campus in Northfield, combines a leading liberal arts experience in a scenic small town with ready access to the urban energy of Minneapolis and St. Paul. Its rigorous academic program has produced three Rhodes Scholars and more than 50 Fulbright Scholars in the past decade. Nationally ranked programs in science, mathematics, music, religion and international studies as well as 27 intercollegiate sports, help this college of the Lutheran church fulfill its mission to help students develop intellectually, spiritually and physically. St. Olaf ranks among the top five producers of graduates who have earned a Ph.D. in mathematics, foreign languages, theology/religion and arts/music, and sixth in the life sciences. Its comprehensive general education curriculum includes requirements that focus on interdisciplinary studies throughout students' four years of college.

Southwest Minnesota State University

Marshall

www.southwestmsu.edu

Toll free: (800) 642-0684

Southwest Minnesota State University is the youngest of Minnesota's state universities. Located in Marshall, the university enjoys a strong working relationship with the community. Southwest is able to provide a quality academic experience in an intimate learning environment, and students enjoy a wide variety of campus activities ranging from one of the nearly 100 clubs and organizations to NCAA Division II athletics to sponsored bands, comedians and speakers. With a strong sense of community, the university offers students the chance to know their faculty as well as their peers. Southwest is proud to boast a new \$18 million student center, a new library renovation totaling \$9 million, a \$6 million new 'apartment style' residence hall, and will be breaking ground soon on a new regional events center which will be home to Mustang football and soccer.

Founded in 1922, Vermilion is a two-year residential college located on the edge of the Boundary Waters Canoe Area wilderness. Students enjoy a personal learning environment where relationships with faculty, staff and administration add to the fullness of college life. The college offers unique environmental academic programs for students interested in working in outdoor careers including two new academic programs in taxidermy and professional forest harvester. Field study, hands-on learning and internships are integral to the curriculum. Faculty are experts in their fields with experience in the careers students are pursuing and actively assist students with national job placement after graduation. Job placement rates are excellent. Students can also start a major or complete the foundation for almost any bachelor's degree in the liberal arts and sciences program.

Curious Fact

Most Vermilion students love the outdoors. They like to hunt, fish, hike, camp, snowshoe and cross-country ski.

Winona State University

Winona

www.winona.edu

Toll free: (800) 342-5978

Winona State University is a four-year public university located in historic, scenic southeast Minnesota river town of Winona. The university offers more than 80 majors and minors, 190 clubs and organizations, NCAA Division II athletics and excellent fine and performing arts opportunities. Winona State is one of the largest laptop universities in the country. All students receive a new PC or Macintosh laptop computer every two years. The program includes software, printing, insurance and technical support. The entire campus is connected for both wired and wireless network connection.

About Us

The Minnesota Office of Higher Education is a state agency providing students with financial aid programs and information to help them gain access to postsecondary education. The agency administers the Minnesota State Grant program, which is a need-based tuition assistance program for Minnesota students attending college in Minnesota. The agency also oversees tuition reciprocity programs, a student loan program, Minnesota's 529 college savings program, licensing and an early awareness outreach initiative for youth. As the state's higher education agency, it collects data and serves as the state's clearinghouse on issues relating to postsecondary enrollment and financial aid.

Other Resources Available From the Office of Higher Education:

- Web site on preparing, planning and paying for college **www.getreadyforcollege.org**
- Complete Guide to Paying for College (60 pages)
- Summary Guide to Paying for College (12 pages, available in English, Spanish, Hmong and Somali)

Technical Notes

College profile information was reported in April 2007 by each college. Enrollment numbers represent fall 2006 headcount.

Tuition and fees were reported separately to the Office of Higher Education financial aid division. For the most current tuition and fees, contact the college or university directly or visit **www.getreadyforcollege.org**.

Information included in the program grids was reported directly to the Office of Higher Education by each institution.

Any information determined to be inaccurate should be reported to the college and the Office of Higher Education. Questions and concerns should be directed to karen.buehre@state.mn.us.

This document can be made available in alternative formats to persons with disabilities upon request.
