

Minnesota College Guide 2008–2009

A directory of degree-granting postsecondary institutions in Minnesota

Your Guide to Choosing a College

Find a college that's just right for you.

Thinking About College?

Minnesota is home to some of the finest postsecondary institutions in the country. From large campuses to small, urban to rural, close to home or far away, the state's public and private universities and colleges offer a broad spectrum of educational opportunities and experiences that might surprise you.

The *Minnesota College Guide* is published by the Minnesota Office of Higher Education to help you learn more about the many college opportunities in the state. Here you can find information about the colleges that interest you, including admissions policies, student demographics, college costs and programs.

Table of Contents

Introduction	2
A-Z College and University Profiles	6
Two-year Associate Degree Programs	84
Four-year Bachelor's Degree Programs	94

What's in the Guide?

The *Minnesota College Guide* is intended to help you explore your Minnesota college options. The guide includes public and private colleges and universities located in Minnesota that offer two-year associate and four-year bachelor's degrees. In addition to the profiles for each degree-granting institution, there are program grids at the back to help you identify and locate programs that interest you.

How to Use This Guide

Choosing a college is a big decision. It is difficult to know where to begin. Use this guide as a quick reference to learn about your Minnesota options. Be sure to contact the colleges that interest you directly to request more complete information. If you are interested in a particular college, be sure to visit the Web site, tour the campus, talk to the admissions and financial aid representatives, visit with current students and recent graduates and ask questions.

Two Years or Four?

Two-year colleges

Two-year colleges offer students two distinct options.

- Many public two-year colleges and some private career colleges offer students the first two years of a four-year bachelor's degree in any major. Students choose to start at a two-year college and then transfer their credits to a four-year college for a variety of reasons including location, cost, atmosphere or because they are uncertain of their program of study.

- Two-year colleges also offer career-specific programs leading directly to employment. Technical and career programs prepare students for careers in fields such as health care, manufacturing technology, law enforcement, computer networking, accounting, e-commerce and many other fields.

Four-year colleges and universities

Minnesota's four-year colleges and universities provide students with a solid foundation for a lifetime of learning, citizenship and work. Hundreds of different majors are offered, leading to careers in teaching, business, science, health care, engineering, the arts, social services, computer science, communications and many other fields. After students earn their four-year bachelor's degrees, some continue on in professional or graduate-level programs to become doctors, business professionals, lawyers, librarians, therapists, college professors, pharmacists, researchers, orthodontists and other professionals.

Preparing for College

The best way to prepare for college is to challenge yourself while in high school by taking rigorous courses in core subjects. Even if you have completed the high school graduation requirements, you will increase your chances for success in college by taking more advanced mathematics, science, English and social studies courses. Most four-year colleges and universities require the following, at a minimum, for admission:

- Four years of English (including composition and literature)
- Three and one-half years of social studies (including one year each of U.S. history and geography)
- Three years of mathematics (including two years of algebra and one year of geometry)
- Three years of science (including one year each of a biological and a physical science)
- Two years of a single world language
- One year of either world culture or fine arts

Public two-year colleges accept all high school graduates and GED holders. However, some programs at those schools are more selective and have high preparation standards and waiting lists to get in. Some students find they must spend a semester or even two just getting ready to enter a two-year career program by taking basic required courses they could have taken in high school. That is why your high school preparation is so important. Students who master core subjects while in high school save money and time in college.

Associate Degrees

Associate degree programs are designed to either prepare individuals for an occupation, or to provide a foundation for the completion of a bachelor's degree. They require the equivalent of two years of full-time study. Some general education courses are included in associate degree programs such as English and mathematics.

Bachelor's Degrees

All baccalaureate or bachelor's degrees require the equivalent of at least four years of full-time study. The degree includes both general courses and advanced course work in a defined area of study, typically called a major. There are hundreds of programs of study that lead to either a Bachelor of Arts (B.A.), Bachelor of Science (B.S.), or discipline-specific bachelor's degrees such as the Bachelor of Music or the Bachelor of Fine Arts.

What is Not in the Guide?

This guide does not include information about institutions offering only short-term certificates and diplomas or only graduate and professional degrees. Postsecondary institutions serving fewer than 200 students are also not included. For a more complete listing of Minnesota postsecondary institutions, visit **www.getreadyforcollege.org**.

Other Minnesota Resources

Minnesota State Colleges and Universities:

Seven state universities and 25 community and technical colleges. **www.mnscu.edu**

University of Minnesota: Minnesota's flagship research university in the Twin Cities and three universities in Duluth, Morris and Crookston.

www.umn.edu

Minnesota Career Colleges: 17 private career schools that make up the Minnesota Career College Association. **www.mncareercolleges.org**

Minnesota Private College Council: 17 private, not-for-profit colleges and universities.

www.mnprivatecolleges.org

Career information: A gateway to Minnesota information on careers, training, education, employment and the workforce. **www.iseek.org**

Understand Your Transfer Options

If you are considering enrolling in a two-year college with the possibility of transferring your credits later to a four-year institution, it's essential that you understand in advance how your credits will be received by the four-year institution. While many technical and career programs are transferable to a four-year degree program, some are not. Contact the four-year institution you would like to attend to find out how your credits will be applied to a four-year degree. You can find the contact name of the transfer specialist at each institution at **www.mntransfer.org**.

Evaluating Private Institutions

There are several ways to evaluate the quality and value of different programs and institutions. Most private and out-of-state institutions operating in Minnesota are required to be either registered or licensed by the Office of Higher Education. Public colleges and universities need not be licensed or registered. Some occupational training providers must be licensed by other state agencies and organizations as well. (For example, cosmetology programs are licensed by the Minnesota Board of Barber and Cosmetology Examiners.)

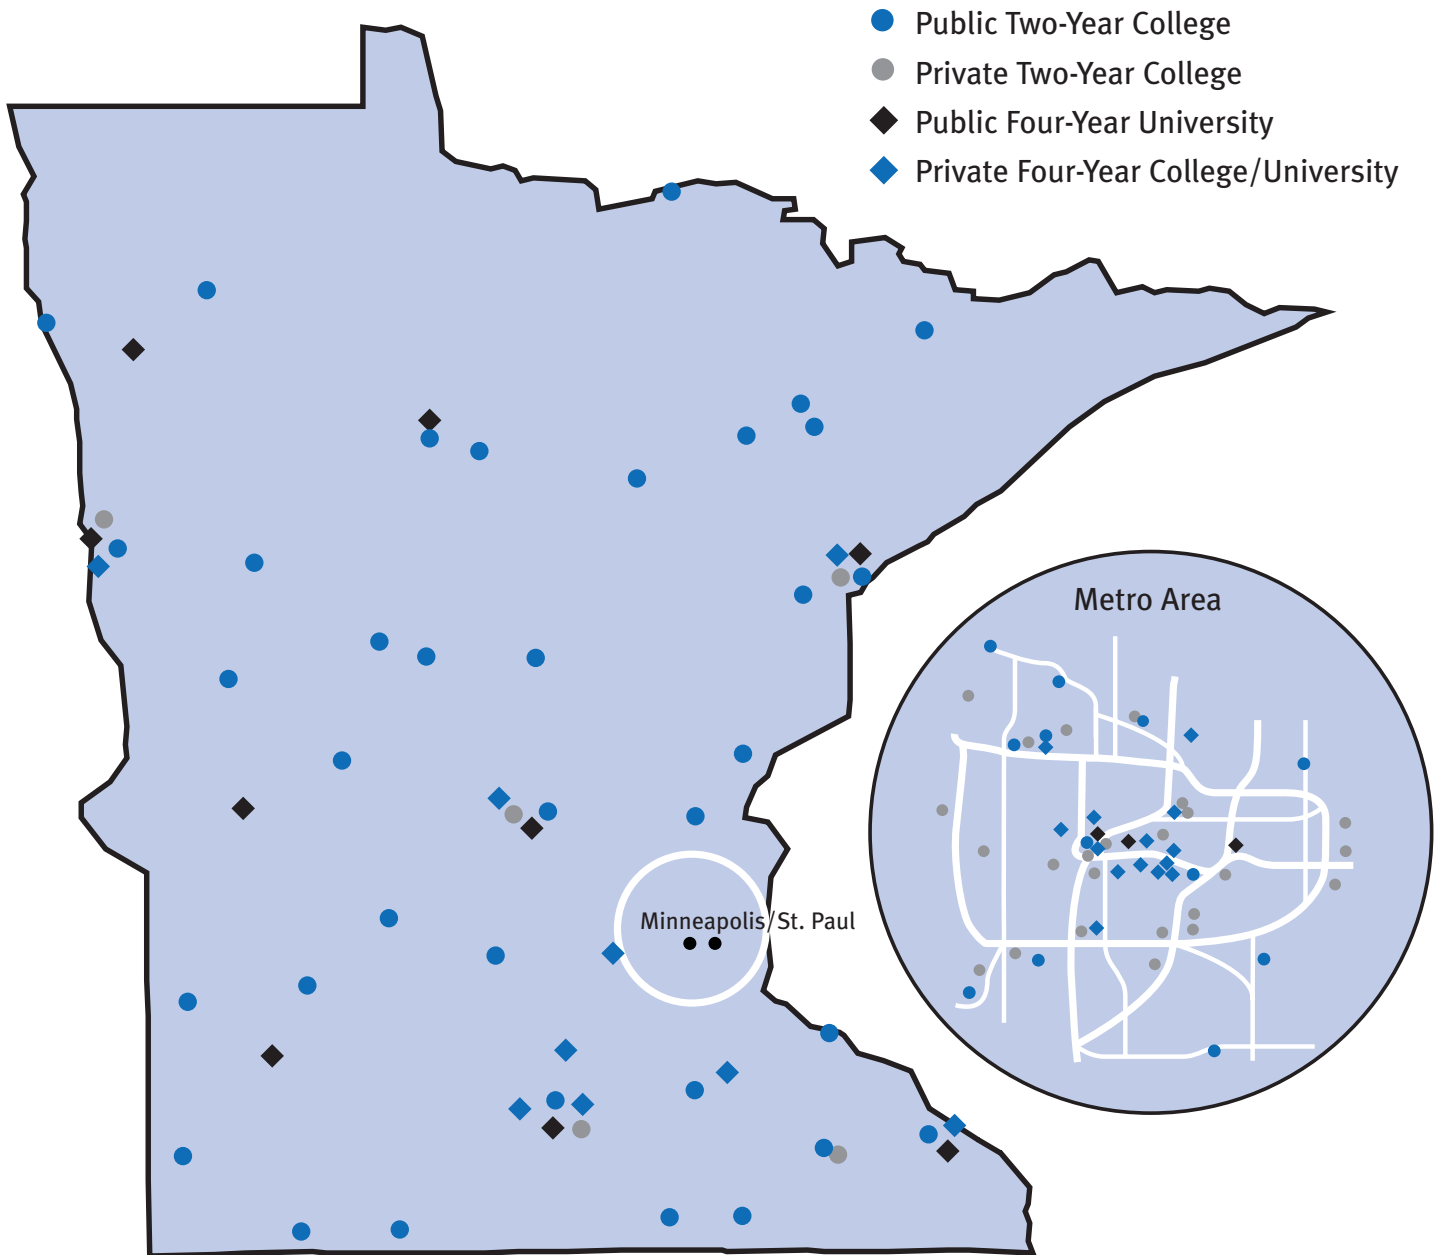

One way an institution can demonstrate that it meets basic standards is to become accredited. Accreditation means that the institution has been approved by a non-government agency that reviews institutions in a region or an occupational area. An institution should tell you whether it is accredited and identify which agency has granted accreditation. The federal government reviews and recognizes about 50 accrediting agencies across the country.

To check the legitimacy of an accrediting agency, contact:

- U.S. Department of Education
www.ed.gov/admins/finaid/accred/
(202) 219-7011
- Council for Higher Education Accreditation
www.chea.org/directories/
(877) 955-2432

To check the legitimacy of a claim of accreditation, contact the accrediting agency directly.

Minnesota's Colleges and Universities

Alexandria Technical College

Alexandria

www.alextech.edu

(888) 234-1222

At Alexandria Technical College, students can graduate in two years or less in one of 50 programs including health, business, office professions, computer, law enforcement, management, manufacturing, marketing, transportation and more. Students receive personal attention from experienced faculty, and enjoy hands-on learning in a friendly, supportive atmosphere. The college features excellent technology, equipment and facilities and welcomes students from diverse backgrounds. Alexandria Technical College offers degrees that can be applied to a four-year degree, online courses and degrees and flex-time courses for students who want to study when it is convenient for them.

Curious Fact

The college offers unique degrees in fine art, music, pre-engineering and environmental science. The most popular class is glassblowing, and the most unique class is Mandarin Chinese.

Anoka Technical College
Anoka
www.anokatech.edu

Anoka Technical College offers educational options that provide career flexibility. All programs include hands-on, student-centered and experiential learning that stresses the application of theory rather than the memorization of concepts. Many of the programs are transferable and apply toward a bachelor’s degree. Free job placement assistance, free tutoring, access to industry technologies and financial aid (for those who qualify) are available. Anoka’s graduation rate is one of the highest among the two-year state colleges in Minnesota with many programs boasting 100 percent job placement.

Curious Fact

The university is one of only a handful of colleges in the world to offer a social science and justice program in reconciliation studies.

Brown College

Brooklyn Center, Mendota Heights

www.browncollege.edu
(800) 627-6966

Brown College is a private, career-focused institution accredited by the Accrediting Commission of Career Schools and Colleges of Technology. The college serves the Twin Cities region with two convenient campuses and offers a diverse range of technology and design programs that stress the importance of real world career opportunities for students. Programs are designed to offer busy students attractive schedules such as short days, short weeks and the opportunity to graduate in as little as 18 months for some programs. Most faculty are industry-experienced full-time instructors.

Carleton College

Northfield

www.carleton.edu

(800) 995-2275

Carleton College is a coeducational residential college noted for bright and talented students and a strong faculty committed to teaching. Providing a first-class liberal arts education is Carleton's primary goal. By standard objective measures (such as the ability of new-entering students, the percentage of students who graduate or the number who earn doctoral degrees), Carleton is regarded as one of the country's best liberal arts colleges. Students come from nearly every state and many foreign countries as well as from a wide range of social, economic, racial and ethnic backgrounds.

Curious Fact

Century is the largest two-year community and technical college in the state of Minnesota.

**College of Saint Benedict**

St. Joseph

www.csbsju.edu

(800) 549-1489

The College of Saint Benedict is nationally-leading liberal arts college whose unique partnership offers students the educational choices of a large university and the individual attention of a premier small college. The college shares academic programs with Saint John's University, and students attend classes and activities together and have access to the resources of both campuses. This integrated learning experience is enlivened by Catholic and Benedictine traditions of hospitality, stewardship, service and the lively engagement of faith and reason. Ranked nationally among the top baccalaureate institutions for the number of students who study abroad, the college is committed to preparing students for leadership and service in a global society. The college enrolls students from around the world and integrates global citizenship into the curriculum.

St. Kate's is home to a family of albino squirrels.

**College of Saint Scholastica**

Duluth

www.css.edu
(800) 249-6412

The College of Saint Scholastica is an independent comprehensive college founded in the Catholic intellectual tradition and shaped by its Benedictine heritage. The college offers programs in the liberal arts and sciences and professional career fields. The entire Saint Scholastica community is committed to an educational process that requires students to meet rigorous academic standards, to broaden the scope of their knowledge and to be accountable to both self and society. The small, friendly community enables each student to participate in academics, extracurricular and recreational activities. A low student-teacher ratio makes it easy to seek individualized help and encouragement. Saint Scholastica graduates, known for their academic and professional preparation, enjoy excellent placement opportunities. Last year, 97 percent of graduates either secured employment or enrolled in graduate school within six months of graduation. The School of Extended Studies offers students an accelerated degree evening program in Brainerd, Rochester, St. Cloud and St. Paul.

Duluth Business University
Duluth

www.dbumn.edu
(800) 777-8406

Duluth Business University is a private college specializing in skill-specific training. Programs are scheduled to meet the needs of busy students with day, evening and online classes, and emphasize hands-on training, employer needs and long-term employment opportunities. Small class sizes provide students with significant one-on-one time with instructors. The university is open year-round, with programs starting quarterly.

Fond du Lac Tribal & Community College

Cloquet

www.fdlccc.edu
(800) 657-3712

Founded in 1987 as the nation's only combined tribal college and state community college, Fond du Lac Tribal and Community College offers two-year associate degrees across a wide range of program areas, and a bachelor's degree in elementary education. Popular programs include law enforcement, human services, business, liberal arts, American Indian studies and environmental science. Students may also choose to complete credits for transfer to another college. The college's goal is to provide a well-rounded experience for students so they can be successful in their educational endeavors. Classes are offered during the day, evening and on weekends. Student clubs, organizations and activities are added bonuses at Fond du Lac.

Gustavus Adolphus College

St. Peter

www.gustavus.edu

(800) 487-8288

Gustavus Adolphus College is a private, coeducational liberal arts college committed to the ideals of academic excellence, community, justice, service and faith. The college calendar offers four months to study four courses (fall semester), one month to study one course (January term) and four months to study four courses (spring semester). January Term provides time for intensive study of a single subject, touring with a musical group, studying abroad, participating in a research project and career exploration through an internship. More than 100 students present academic research annually in an off-campus forum. The college has 25 NCAA Division III varsity athletic teams, 35 music ensembles and more than 110 student organizations.

Curious Fact

Until 1904, an Ojibwe (Chippewa) village of 40 families was located where the Thief River and Red Lake Rivers meet. This is the current site of the Thief River campus.

Northwest Technical College

Bemidji

www.ntcmn.edu
(800) 942-8324

Northwest Technical College provides a 21st century learning environment, where technology is the foundation of all instruction. Graduates enter the job market well-prepared, well-rounded and with a knowledge base vital to success. The college's unique partnership with Bemidji State University means students can live in the university's residence halls and take advantage of university services and activities. Northwest offers associate degree, diploma and certificate programs in health, business and industrial technology careers. Industrial model-making and high performance engine machining are two unique programs. Students in the college's practical nursing program can continue on to complete a bachelor's of science in nursing from Bemidji State University. The college has online majors in nursing, accounting, administrative support, medical administrative secretary, coding/insurance and transcription, sales, marketing and management, and supervisory management.

Rainy River Community College International Falls

www.rrcc.mnscu.edu
(800) 456-3996

Rainy River Community College is located in northern Minnesota where, just minutes from campus, you can access a wilderness campsite in a world-class national park, fish a hot spot on a lake or river, or visit a Native American museum in Canada. The setting is a small, secure community of about 6,700 people nestled between a lake, a river, a national park and the Canadian border. The 80-acre campus has an eight-building complex connected with heated walkways enclosing a landscaped courtyard. The grounds feature a softball field, tennis courts, lighted cross-country skiing and hiking trails and three ponds edged by decks and walkways. The adjacent student housing offers furnished apartment-style accommodations.

Saint John's University is nationally-leading liberal arts college whose unique partnership offers students the educational choices of a large university and the individual attention of a premier small college. The college shares academic programs with the College of Saint Benedict, and students attend classes and activities together and have access to the resources of both campuses. This integrated learning experience is enlivened by Catholic and Benedictine traditions of hospitality, stewardship, service and the lively engagement of faith and reason. Ranked nationally among the top baccalaureate institutions for the number of students who study abroad, the college is committed to preparing students for leadership and service in a global society. The college enrolls students from around the world and integrates global citizenship into the curriculum.

St. Olaf College

Northfield

www.stolaf.edu

(800) 800-3025

Recognized as one of the nation's leading liberal arts colleges, St. Olaf College offers an academically rigorous education with a vibrant faith tradition as a college of the Lutheran church. Widely known for its programs in mathematics, natural sciences and music, St. Olaf also provides dynamic opportunities for interdisciplinary study. Committed to global education, 80 percent of St. Olaf students study abroad. Since 1996, St. Olaf has produced five Rhodes scholars, more than any other liberal arts college in the nation, and 49 Fulbright recipients. St. Olaf ranks eighth overall among baccalaureate colleges in the number of graduates who go on to earn doctoral degrees, placing first in mathematics and statistics, second in education and religion/theology, third in art/music and physical sciences, and fourth in chemistry and foreign language.

South Central College celebrated its 60th anniversary in 2006.

**Southwest Minnesota State University**

Marshall

www.southwestmsu.edu

(800) 642-0684

Southwest Minnesota State University is the youngest of Minnesota's state universities and enjoys a strong working relationship with the Marshall community. Southwest is able to provide a quality academic experience in an intimate learning environment, and students enjoy a wide variety of campus activities ranging from one of the nearly 100 clubs and organizations to NCAA Division II athletics to sponsored bands, comedians and speakers. With a strong sense of community, the university offers students the chance to know their faculty as well as their peers. Southwest is proud to boast a number of new facilities, including a new student center, a library renovation, an apartment-style residence hall, and a regional events center. The university campus buildings are completely interconnected by tunnels, skyways and walkways. SMSU has also been awarded \$9 million for renovation of its science labs.

University of Minnesota, Morris

www.morris.umn.edu
(888) 866-3382

The University of Minnesota, Morris, is an academically rigorous, public undergraduate liberal arts college. The university's strength as a liberal arts institution comes primarily from three factors: a focused, narrowly defined mission that provides a rigorous liberal arts program; an intellectually gifted student body; and a faculty dedicated to teaching, to personal contact with students and to research with full student participation. It is a college for intelligent, thoughtful, down-to-earth students who want to be involved members of campus and academic life.

Curious Fact

To become a true Tommie, one must kiss another Tommie under the arches at midnight.

Vermilion Community College

Ely

www.vcc.edu
(800) 657-3608

Founded in 1922, Vermilion is a two-year residential college located on the edge of the Boundary Waters Canoe Area wilderness. Students enjoy a personal learning environment where relationships with faculty, staff and administration add to the fullness of college life. The college offers unique environmental academic programs for students interested in outdoor careers including programs in taxidermy and professional forest harvester. Field study, hands-on learning and internships are integral to the curriculum. Faculty are experts in their fields with experience in the careers students are pursuing and actively assist students with national job placement after graduation. Job placement rates are excellent. Students can also start a major or complete the foundation for almost any bachelor's degree in the liberal arts and sciences program.

Curious Fact

Most Vermilion students love the outdoors. They like to hunt, fish, hike, camp, snowshoe and cross-country ski.

Winona State University

Winona

www.winona.edu

(800) 342-5978

Winona State University is a public university located in the historic, scenic Mississippi River city of Winona. The university offers more than 80 undergraduate majors, 16 graduate programs, 200 clubs and organizations, NCAA Division II athletics and excellent fine and performing arts opportunities. Winona State is one of the largest laptop universities in the country. All students receive a new PC or Macintosh laptop computer every two years. The program includes software, printing, insurance and unlimited technical support.

About Us

The Minnesota Office of Higher Education is a state agency providing students with financial aid programs and information to help them gain access to postsecondary education. The agency administers the Minnesota State Grant program, which is a need-based tuition assistance program for Minnesota students attending college in Minnesota. The agency also oversees tuition reciprocity programs, a student loan program, Minnesota's 529 college savings program, licensing and an early awareness outreach initiative for youth. As the state's higher education agency, it collects data and serves as the state's clearinghouse on issues relating to postsecondary enrollment and financial aid.

Other Resources Available From the Office of Higher Education:

- Web site on preparing, planning and paying for college **www.getreadyforcollege.org**
- Complete Guide to Paying for College (60 pages)
- Summary Guide to Paying for College (12 pages, available in English, Spanish, Hmong and Somali)

Technical Notes

College profile information was reported in April 2008 by each college. Enrollment numbers represent fall 2007 headcount.

Tuition and fees were reported separately to the Office of Higher Education financial aid division. For the most current tuition and fees, contact the college or university directly or visit **www.getreadyforcollege.org**.

Information included in the program grids was reported directly to the Office of Higher Education by each institution.

Any information determined to be inaccurate should be reported to the college and the Office of Higher Education. Questions and concerns should be directed to karen.buehre@state.mn.us.

This document can be made available in alternative formats to persons with disabilities upon request.
