CERTIFICATION OF PREVAILING HOURS OF LABOR
AND WAGE RATES IN ALL AREAS OF THE STATE
FOR ALL CLASSES OF LABOR AND MECHANICS
COMMONLY EMPLOYED IN STATE PROJECTS

CERTIFIED PURSUANT TO MINNESOTA STATUTES SECTION 177.42-44 (1974) AS AMENDED

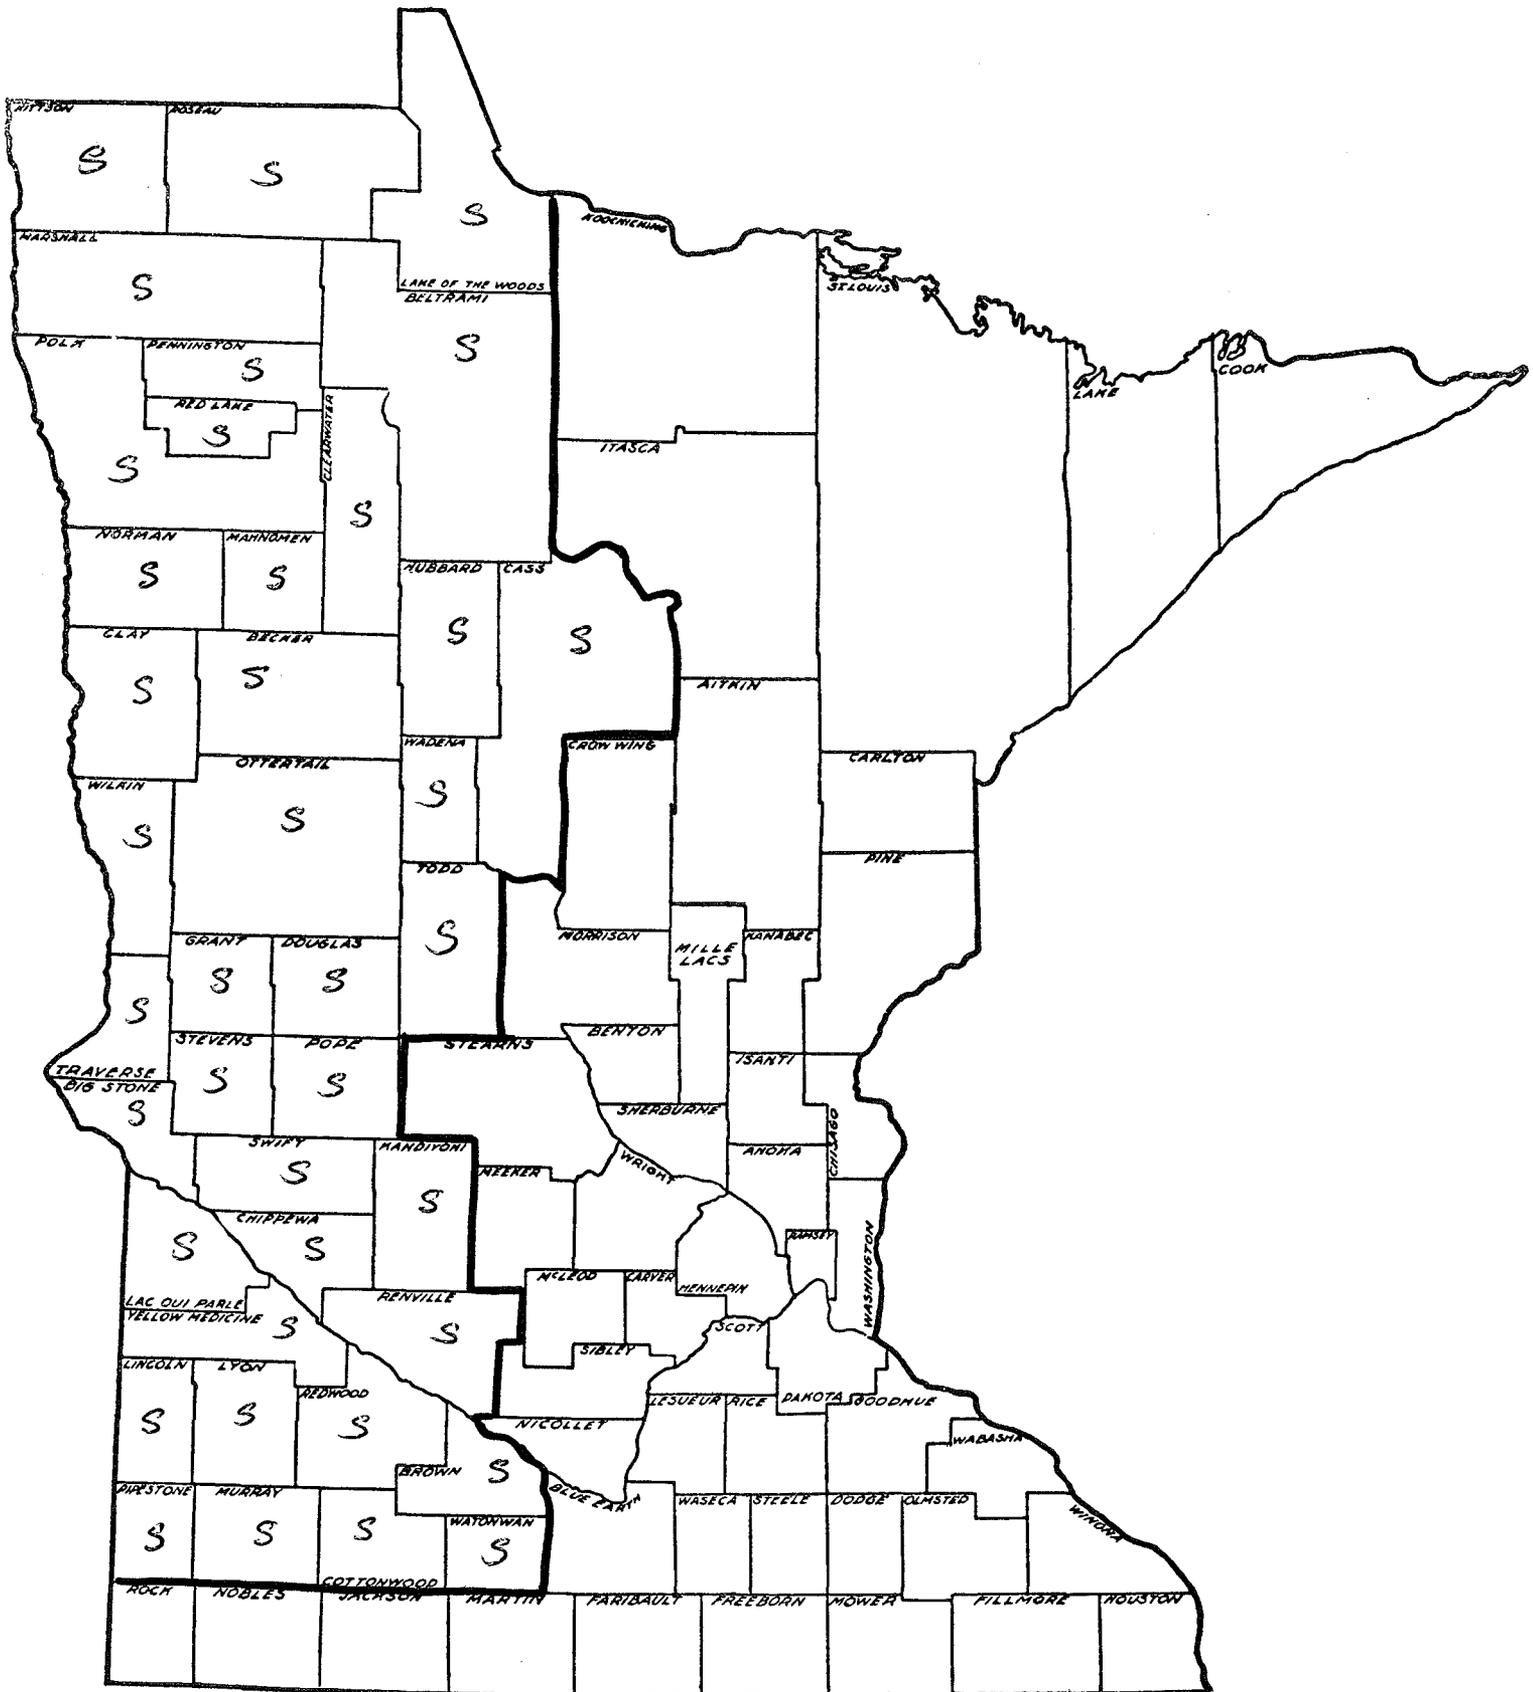

TO: DEPARTMENT OF ADMINISTRATION
DEPARTMENT OF AERONAUTICS
DEPARTMENT OF NATURAL RESOURCES
HISTORICAL SOCIETY
STATE UNIVERSITY SYSTEM
STATE ZOOLOGICAL BOARD
UNIVERSITY OF MINNESOTA

FROM: MINNESOTA DEPARTMENT OF LABOR AND INDUSTRY

CERTIFIED BY:

E. I. MALONE, COMMISSIONER

DATE: October 30, 1978

10-30-78 determination
 S = surveyed (remainder unsurveyed)

classifications may develop between certifications by the Commissioner. Therefore, no inference may be drawn from the omission of classifications which have local usage. Further, the state will not be liable for increased labor costs if and when additional classifications are subsequently required or wage rates increase prior the awarding of contracts.

PREVAILING HOURS OF LABOR

The "prevailing hours of labor" for all classes of laborers and mechanics to be employed on State contract building construction work are eight hours per day and forty hours per calendar week.

NOTICE TO BIDDERS, WAGE DETERMINATIONS

The wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor and mechanics commonly employed in building construction work. Additional classifications may develop between certifications by the Commissioner. Therefore, no inference may be drawn from the omission of classifications which have local usage. Further, the state will not be liable for increase labor costs if and when additional classifications are subsequent required or wage rates increase prior to the awarding of contracts.

PREVAILING HOURS OF LABOR

The "prevailing hours of labor" for all classes of laborers and mechanics to be employed on State contract building construction work are eight hours per day and forty hours per calendar week.

NOTICE TO BIDDERS, WAGE DETERMINATIONS

The wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor and mechanics commonly employed in building construction work. Additional classifications may develop between certifications by the Commissioner. Therefore, no inference may be drawn from the omission of classifications which have local usage. Further, the state will not be liable for increased labor costs if and when additional classifications are subsequently required or wage rates increase prior to the awarding of contracts.

PREVAILING HOURS OF LABOR

The "prevailing hours of labor" for all classes of laborers and mechanics to be employed on State contract building construction work are eight hours per day and forty hours per calendar week.

The wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor and mechanics commonly employed in building construction work. Additional classifications may develop between certifications by the Commissioner. Therefore, no inference may be drawn from the omission of classifications which have local usage. Further, the State will not be liable for increased labor costs if and when additional classifications are subsequently required or wage rates increase prior to the awarding of contracts.

PREVAILING HOURS OF LABOR

The "prevailing hours of labor" for all classes of laborers and mechanics to be employed on State contract building construction work are eight hours per day and forty hours per calendar week.

*Data is insufficient to make a determination for this classification based upon work performed in the county. Therefore, the wage rate is based upon wages paid in this classification in the adjacent counties.

NOTICE TO BIDDERS, WAGE DETERMINATIONS

The wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor and mechanics commonly employed in building construction work. Additional classifications may develop between certifications by the Commissioner. Therefore, no inference may be drawn from the omission of classifications which have local usage. Further, the state will not be liable for increased labor costs if and when additional classifications are subsequently required or wage rates increase prior to the awarding of contracts.

PREVAILING HOURS OF LABOR

The "prevailing hours of labor" for all classes of laborers and mechanics to be employed on State contract building construction work are eight hours per day and forty hours per calendar week.

NOTICE TO BIDDERS, WAGE DETERMINATIONS

The wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor and mechanics commonly employed in building construction work. Additional classifications may develop between certifications by the Commissioner. Therefore, no inference may be drawn from the omission of classifications which have local usage. Further, the state will not be liable for increased labor costs if and when additional classifications are subsequently required or wage rates increased prior to the awarding of contracts.

PREVAILING HOURS OF LABOR

The "prevailing hours of labor" for all classes of laborers and mechanics to be employed on State contract building construction work are eight hours per day and forty hours per calendar week.

*Data is insufficient to make a determination for this classification based upon work performed in the county. Therefore, the wage rate is based upon wages paid in this classification in the adjacent counties.

NOTICE TO BIDDERS, WAGE DETERMINATIONS

The wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor and mechanics commonly employed in building construction work. Additional classifications may develop between certifications by the Commissioner. Therefore, no inference may be drawn from the omission of classifications which have local usage. Further, the state will not be liable for increased labor costs if and when additional classifications are subsequently required or wage rates increase prior to the awarding of contracts.

PREVAILING HOURS OF LABOR

The "prevailing hours of labor" for all classes of laborers and mechanics to be employed on State contract building construction work are eight hours per day and forty hours per calendar week.
