Classifications not listed herein were not reported by contractors during the survey.

Wage rates and classifications not listed below are not affected by this survey.

NOTICE TO BIDDERS - WAGE DETERMINATIONS

The wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor and mechanics commonly employed in highway and heavy construction work. Additional classifications may develop between certifications by the Commissioner. No inference may be drawn from the omission of classifications which have local usage. The state will not be liable for increased labor costs if additional classifications are subsequently certified and wage rates increase prior to awarding of contracts.

PREVAILING HOURS OF WORK

The "prevailing hours of labor" for all classes of laborers and mechanics to be employed on state contract highway and heavy construction work are eight hours per day and forty hours per calendar week.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Classifications not listed herein were not reported by contractors during the survey.

Wage rates and classifications not listed below are not affected by this survey.

NOTICE TO BIDDERS - WAGE DETERMINATIONS

The wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor and mechanics commonly employed in highway and heavy construction work. Additional classifications may develop between certifications by the Commissioner. No inference may be drawn from the omission of classifications which have local usage. The state will not be liable for increased labor costs if additional classifications are subsequently certified and wage rates increase prior to awarding of contracts.

PREVAILING HOURS OF WORK

The "prevailing hours of labor" for all classes of laborers and mechanics to be employed on state contract highway and heavy construction work are eight hours per day and forty hours per calendar week.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

NOTICE TO BIDDERS - WAGE DETERMINATIONS

The wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor and mechanics commonly employed in highway and heavy construction work. Additional classifications may develop between certifications by the Commissioner. No inference may be drawn from the omission of classifications which have local usage. The state will not be liable for increased labor costs if additional classifications are subsequently certified and wage rates increase prior to awarding of contracts.

PREVAILING HOURS OF WORK

The "prevailing hours of labor" for all classes of laborers and mechanics to be employed on state contract highway and heavy construction work are eight hours per day and forty hours per calendar week.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

County of RamseyEffective Date of Determination Sept. 1, 1980

Classifications not listed herein were not reported by contractors during the survey.

Wage rates and classifications not listed below are not affected by this survey.

NOTICE TO BIDDERS - WAGE DETERMINATIONS

The wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor and mechanics commonly employed in highway and heavy construction work. Additional classifications may develop between certifications by the Commissioner. No inference may be drawn from the omission of classifications which have local usage. The state will not be liable for increased labor costs if additional classifications are subsequently certified and wage rates increase prior to awarding of contracts.

PREVAILING HOURS OF WORK

The "prevailing hours of labor" for all classes of laborers and mechanics to be employed on state contract highway and heavy construction work are eight hours per day and forty hours per calendar week.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Classifications not listed herein were not reported by contractors during the survey.

Wage rates and classifications not listed below are not affected by this survey.

NOTICE TO BIDDERS - WAGE DETERMINATIONS

The wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor and mechanics commonly employed in highway and heavy construction work. Additional classifications may develop between certifications by the Commissioner. No inference may be drawn from the omission of classifications which have local usage. The state will not be liable for increased labor costs if additional classifications are subsequently certified and wage rates increase prior to awarding of contracts.

PREVAILING HOURS OF WORK

The "prevailing hours of labor" for all classes of laborers and mechanics to be employed on state contract highway and heavy construction work are eight hours per day and forty hours per calendar week.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Classifications not listed herein were not reported by contractors during the survey.

Wage rates and classifications not listed below are not affected by this survey.

NOTICE TO BIDDERS - WAGE DETERMINATIONS

The wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor and mechanics commonly employed in highway and heavy construction work. Additional classifications may develop between certifications by the Commissioner. No inference may be drawn from the omission of classifications which have local usage. The state will not be liable for increased labor costs if additional classifications are subsequently certified and wage rates increase prior to awarding of contracts.

PREVAILING HOURS OF WORK

The "prevailing hours of labor" for all classes of laborers and mechanics to be employed on state contract highway and heavy construction work are eight hours per day and forty hours per calendar week.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

County of WrightEffective Date of Determination Sept. 1, 1980

Classifications not listed herein were not reported by contractors during the survey.

Wage rates and classifications not listed below are not affected by this survey.

NOTICE TO BIDDERS - WAGE DETERMINATIONS

The wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor and mechanics commonly employed in highway and heavy construction work. Additional classifications may develop between certifications by the Commissioner. No inference may be drawn from the omission of classifications which have local usage. The state will not be liable for increased labor costs if additional classifications are subsequently certified and wage rates increase prior to awarding of contracts.

PREVAILING HOURS OF WORK

The "prevailing hours of labor" for all classes of laborers and mechanics to be employed on state contract highway and heavy construction work are eight hours per day and forty hours per calendar week.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.
