

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

08 - 0684

Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

County of Aitkin

Effective Date of Determination OCT 12 1981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Code Number & Classification	Basic Wage Rate Per Hour			Pen-sion	Other	Prevailing Hrl Rate Which Must Be Paid
	H&W	Vac.				
101 Laborer, common (general labor work)	8.70	.50	.15	.00	.00	9.35

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

County of Benton Effective Date of Determination OCT 12 1981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

County of Big Stone Effective Date of Determination OCT 12 1981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Code Number & Classification	Basic Wage Rate Per Hour			Pen-sion	Other	Prevailing Hrl Rate Which Must Be Paid

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

007 12 1991

County of Cottonwood

Effective Date of Determination _____

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Code Number & Classification	Basic Wage Rate Per					Prevailing Hrl. Rate Which Must Be Paid

County of Faribault

Effective Date of Determination _____

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

OCT 12 1981

County of Hennepin

Effective Date of Determination _____

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Code Number & Classification	Basic Wage					Prevailing Hrl. Rate Which Must Be Paid

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

OCT 12 1981

County of Jackson

Effective Date of Determination _____

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Code Number & Classification	Basic Wage Rate Per Hour			Pen-sion	Other	Prevailing Hrl. Rate Which Must Be Paid
	H&W	Vac.				
101 Laborer, common (general labor work)	5.50	.00	.00	.00	.00	5.50

County of Lac Qui Parle

Effective Date of Determination _____

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTIONTHIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTSCounty of LyonEffective Date of Determination OCT 12 1981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTIONTHIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTSCounty of McLeodEffective Date of Determination OCT 12 1981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

County of Mille Lacs

Effective Date of Determination _____

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Code Number & Classification	Basic Wage Rate Per Hour					Prevailing Hrl Rate Which Must Be Paid

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

OCT 12 1981

County of Nobles

Effective Date of Determination _____

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Code Number & Classification	Basic Wage Rate Per Hour			Pen-sion	Other	Prevailing Hrl: Rate Which Must Be Paid

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTIONTHIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTSCounty of Pine Effective Date of Determination OCT 12 1981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

County of Red Lake Effective Date of Determination OCT 12 1981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Code Number & Classification	Basic Wage Rate Per Hour					Prevailing Hri Rate Which Must Be Paid

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

County of Roseau

Effective Date of Determination OCT 12 1981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Code Number & Classification	Basic Wage					Prevailing Hrl Rate Which Must Be Paid

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

County of Stearns

Effective Date of Determination OCT 12 1981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

County of TraverseEffective Date of Determination OCT 12 1981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Code Number & Classification	Basic Wage Rate Per					Prevailing Hrly Rate Which Must Be Paid

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

County of WatonwanEffective Date of Determination OCT 12 1981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.
