CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

| County of Aitkin Effective Date of Determinati |
|--|
|--|

OCT 26 1981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

| County | of | Benton | Effective Date of Determination | OCT 26 1981 |
|--------|----|--------|---------------------------------|-------------|
| 3 | | | • | |

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

| | | Number & sification | Basic Wa Rate Per Hour | | Vac. | Pen- sion | Other | Prevailing Hrly Rate Which Must Be Paid |

Minn. Stat. \$\$ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

| County of | Carver | Effective Date of Determination | OCT 26 1981 |
|-----------|--------|---------------------------------|-------------|
| | | | |

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

| County | of | Clay | Effective | Date | of | Determination | OCT 20 | 3 1981 |
|--------|----|------|-----------|------|----|---------------|--------|-------------|
| • | | | | | | | | |

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

County of Crow Wing

Effective Date of Determination

OCT 26 1981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (<u>if</u> the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (<u>if</u> any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

| County of | Faribault | Effective Date of Determination 007 26 1981 |
|-----------|-----------|---|
| | | |

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY Minn. Stat. \$\$ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

| County | of | Hennepin |
|--------|----|----------|
|--------|----|----------|

Effective Date of Determination OCT26,/9

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

| Code Number & Classification | Basic Wa Rate Per Hour | | Vac. | Pen- sion | Other | Prevailing Hrly Rate Which Must Be Paid |

Minn. Stat. \$\$ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

| County | of | Itasca | Effective Date of Determination (| OCT 26 | 3 1 981 |
|--------|----|--------|-----------------------------------|-------------|----------------|
| | | | | | |

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

Effective Date of Determination 007261981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

| County of | Lincoln | Effective Date of Determination | 00T 2 5 1981 |
|-----------|--|---------------------------------|---------------------|
| • | The state of the s | | |

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

| County of | McLead | Effective Date of Determination | 007 2 6 1981 |
|-----------|--------|---------------------------------|---------------------|
| ū | | | |

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

| Basic Wage Code Number & Rate Per Pen- | | | | | | | Prevailing Hrly Rate Which | |

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY Minn. Stat. §\$ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

| County of | Mower | Effective Date of Determination | OCT 26 1981 |
|-----------|-------|---------------------------------|-------------|
|-----------|-------|---------------------------------|-------------|

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

| County | of | Olmsted |
|--------|----|---------|
| | | |

Effective Date of Determination

00T 26 1981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

| Code Number & Classification | Basic Wag Rate Per Hour | ge H&W | Vac. | Pen- sion | Other | Prevailing Hrly. Rate Which Must Be Paid |

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

| | Dalle | | OCT 26 1981 |
|-----------|-------|---------------------------------|-------------|
| County of | POIK | Effective Date of Determination | - |

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

| Code Number & Classification | Basic Wa Rate Per Hour | | Vac. | Pen- sion | Other | Prevailing Hrly. Rate Which Must Be Paid |

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY Minn. Stat. \$\frac{55}{55}\$ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

| County | of | Renville |
|--------|----|----------|
|--------|----|----------|

Effective Date of Determination

OCT 26 1981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY Minn. Stat. \$\$ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

County of Sherburne

Effective Date of Determination

OCT 26 1981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY Minn. Stat. \$\frac{8}{8}\$ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

| County of | Sibley | Effective Date of Determination 007261931 |
|-----------|--------|---|
|-----------|--------|---|

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

Minn. Stat. \$\$ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

| County of | Stearns | Effective | Date o | of | Determination | 00T 2 6 1981 |
|-----------|---------|-----------|--------|----|---------------|--------------|
|-----------|---------|-----------|--------|----|---------------|--------------|

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY Minn. Stat. \$\frac{\ss}{2}\$ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

County of Todd County

Effective Date of Determination

OCT 26 1981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

Minn. Stat. \$\ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

| County of <u>Traverse</u> | Effective Date of Determination | _007 2 6 1981 |
|---------------------------|---------------------------------|----------------------|
|---------------------------|---------------------------------|----------------------|

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

County of Washington

Effective Date of Determination

OCT 26 1981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

County of Watonwan

Effective Date of Determination

OCT 26 1981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

| Code Number & | Basic Wa Rate Per | ge | | Prevailing Hrly. Rate Which | | |

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS

County of Yellow Medicine

Effective Date of Determination

OCT 26 1981

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits (if the "benefits" are paid on an hourly basis). An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

| Code Number & Classification | Basic Wa Rate Per Hour | | Vac. | Pen- sion | Other | Prevailing Hrly. Rate Which Must Be Paid |
