CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

08 - 0685

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTSCounty of Aitkin (1 & 3)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

County of Becker (4)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

County of Benton (3)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Code Number & Classification	Basic Rate Per Hour	H & W	Pen- sion	Vac.	Other	Prevailing Rate Which Must Be Paid
101 Laborer, common (general labor work)	10.40	.65	.75	.40	0	12.20

(09)

County of CARLTON (1)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

County of (10) Carver (5)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

County of Clay (4)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Code Number & Classification	Basic Rate Per Hour	H & W	Pen- sion	Vac.	Other	Prevailing Rate Which Must Be Paid
101 Laborer, common (general labor work)	9.40	.00	.00	.00	.00	9.40

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

County of Crow Wing (3)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

County of Dakota (9)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Code Number & Classification	Basic Rate Per Hour	H & W	Pen- sion	Vac.	Other	Prevailing h Rate Which Must Be Paid
101 Laborer, common (general labor work)	12.05	.60	.35	.00	.00	13.00

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

County of Faribault (7)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

County of Fillmore ((6))Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

County of Hennepin (5)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Code Number & Classification	Basic Rate Per Hour	H & W	Pen- sion	Vac.	Other	Prevailing Rate Which Must Be Paid
101 Laborer, common (general labor work)	11.10	.65	.85	.40	.00	13.00

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

County of Itasca (2 & 1)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

County of Kittson (2)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

County of Koochiching (2 & 1)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, *contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

County of Lincoln (8)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

(43)

County of McLeod (8)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Code Number & Classification	Basic Rate Per Hour	H & W	Pen- sion	Vac.	Other	Prevailing Rate Which Must Be Paid

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

County of Olmsted (6)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Code Number & Classification	Basic Rate Per Hour	H & W	Pen- sion	Vac.	Other	Prevailing H Rate Which Must Be Paid

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

County of Pipestone (8)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Code Number & Classification	Basic Rate Per Hour	H & W	Pen- sion	Vac.	Other	Prevailing H Rate Which Must Be Paid

Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

County of Red Lake (2)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Code Number & Classification	Basic Rate Per Hour	H & W	Pen- sion	Vac.	Other	Prevailing Rate Which Must Be Paid
101 Laborer, common (general labor work)	9.00	.00	.00	.00	.00	9.00
203 Dragline and/or other similar equip- ment with shovel type controls	10.00	.00	.00	.00	.00	10.00

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

County of St. Louis (1)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTIONTHIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTSCounty of (13) Stearns (3)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

County of Traverse (4)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTS

(83)

County of Watonwan (7)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Code Number & Classification	Basic Rate Per Hour	H & W	Pen- sion	Vac.	Other	Prevailing Rate Which Must Be Paid
101 Laborer, common (general labor work)	9.35	.60	.45	.40	.00	10.80

Minn. Stat. §§ 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTIONTHIS NOTICE MUST BE POSTED ON JOBSITE
WHEN PERFORMING STATE CONTRACTSCounty of Yellow Medicine (8)Effective Date of Determination July 19, 1982

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic wage rate plus the benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Code Number & Classification	Basic Rate Per Hour	H & W	Pen- sion	Vac.	Other	Prevailing Rate Which Must Be Paid
101 Laborer, common (general labor work)	7.33	0	0	0	0	7.33
