

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

08 - 0687

THIS NOTICE MUST BE POSTED ON JOBSITE  
WHEN PERFORMING STATE CONTRACTS

COUNTY OF AITKIN

EFFECTIVE DATE OF DETERMINATION: JUNE 6, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

\* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CODE NUMBER & CLASSIFICATION	BASIC RATE PER HOUR	FRNGE	PREVAILING RATE WHICH MUST BE PAID

## STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

COUNTY OF BLUE EARTH

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1984.

## TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

\* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE  
WHEN PERFORMING STATE CONTRACTS

COUNTY OF CHIPPEWA

EFFECTIVE DATE OF DETERMINATION: JUNE 6, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

\* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

EFFECTIVE DATE OF DETERMINATION: JUNE 6, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

\* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE  
WHEN PERFORMING STATE CONTRACTS

COUNTY OF FILLMORE

EFFECTIVE DATE OF DETERMINATION: JUNE 6, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

\* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

## STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTIONTHIS NOTICE MUST BE POSTED ON JOBSITE  
WHEN PERFORMING STATE CONTRACTS

COUNTY OF HOUSTON

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1984

## TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

\* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

WHEN PERFORMING STATE CONTRACTS

COUNTY OF KANABEC

EFFECTIVE DATE OF DETERMINATION: JUNE 6, 1984

## TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

\* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE  
WHEN PERFORMING STATE CONTRACTS

COUNTY OF LAKE OF THE WOODS EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

\* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1984

## TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

\* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTIONTHIS NOTICE MUST BE POSTED ON JOBSITE  
WHEN PERFORMING STATE CONTRACTS

COUNTY OF MCLEOD

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE  
WHEN PERFORMING STATE CONTRACTS

COUNTY OF MURRAY

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

\* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTIONTHIS NOTICE MUST BE POSTED ON JOBSITE  
WHEN PERFORMING STATE CONTRACTS

COUNTY OF OTTERTAIL

EFFECTIVE DATE OF DETERMINATION: JUNE 1, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

\* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE  
WHEN PERFORMING STATE CONTRACTS

COUNTY OF PENNINGTON

EFFECTIVE DATE OF DETERMINATION: JUNE 1, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

\* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE  
WHEN PERFORMING STATE CONTRACTS

COUNTY OF RAMSEY

EFFECTIVE DATE OF DETERMINATION: JUNE 1, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

\* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE  
WHEN PERFORMING STATE CONTRACTS

COUNTY OF RED LAKE

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

\* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CODE NUMBER & CLASSIFICATION	BASIC RATE PER HOUR	FRNGE	PREVAILING RATE WHICH MUST BE PAI

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE  
WHEN PERFORMING STATE CONTRACTS

COUNTY OF ST. LOUIS

EFFECTIVE DATE OF DETERMINATION: JUNE 1, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

\* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

## STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTIONTHIS NOTICE MUST BE POSTED ON JOBSITE  
WHEN PERFORMING STATE CONTRACTS

COUNTY OF STEELE

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1984

## TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

\* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

\* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE  
WHEN PERFORMING STATE CONTRACTS

COUNTY OF WILKIN

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

\* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

## STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR HIGHWAY AND HEAVY CONSTRUCTIONTHIS NOTICE MUST BE POSTED ON JOBSITE  
WHEN PERFORMING STATE CONTRACTS

COUNTY OF WINONA

EFFECTIVE DATE OF DETERMINATION: JUNE 13, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in highway and heavy construction work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

\* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.
