

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

COUNTY OF AITKIN

EFFECTIVE DATE OF DETERMINATION: JULY 6, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data received for this county.

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

COUNTY OF CARLTON

EFFECTIVE DATE OF DETERMINATION: JULY 6, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

COUNTY 17 COTTONWOOD

EFFECTIVE DATE OF DETERMINATION: JULY 13, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

COUNTY 24 FREEBORN

EFFECTIVE DATE OF DETERMINATION: JULY 13, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

COUNTY 39 LAKE OF THE WOODS EFFECTIVE DATE OF DETERMINATION: JULY 13, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

COUNTY OF LESUEUR

EFFECTIVE DATE OF DETERMINATION: JULY 6, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

COUNTY 50 MOWER

EFFECTIVE DATE OF DETERMINATION: JULY 13, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

COUNTY 58 FINE

EFFECTIVE DATE OF DETERMINATION: JULY 13, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

COUNTY 66 RICE

EFFECTIVE DATE OF DETERMINATION: JULY 13, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

COUNTY 72 SIBLEY

EFFECTIVE DATE OF DETERMINATION: JULY 13, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

STATE OF MINNESOTA/DEPARTMENT OF LABOR AND INDUSTRY

Minn. Stat. 177.41 - 177.44 (1978)

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

COUNTY 73 STEARNS

EFFECTIVE DATE OF DETERMINATION: JULY 13, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

CERTIFIED PREVAILING WAGES FOR COMMERCIAL CONSTRUCTION

THIS NOTICE MUST BE POSTED ON JOBSITE WHEN PERFORMING STATE CONTRACTS
--

COUNTY OF WASECA

EFFECTIVE DATE OF DETERMINATION: JULY 6, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.

COUNTY 87 YELLOW MEDICINE EFFECTIVE DATE OF DETERMINATION: JULY 13, 1984

TO CONTRACTORS AND EMPLOYEES:

Contractors and subcontractors working on a construction project which includes "Minnesota Prevailing Wage Rates" as a stipulation for such project, shall be required to pay wage rates at least equal to the prevailing wage rates of the county in which the project is located. Workers employed directly upon the project site who are permitted or required to work more than eight hours per day and forty hours per calendar week, must be paid for all hours in excess of eight hours per day and/or forty hours per week at a rate of at least one and one-half times their hourly "basic" rate of pay.

The components of the Prevailing Hourly Rate are the basic hourly wage plus benefits. An employer is permitted to combine a basic hourly wage and benefits (if any) and pay compensation to the employee totally as a basic wage rate or pay the basic rate plus benefits. (The benefits may be distributed in any proportion, however, and not only as shown.)

Wage determinations include classifications which the Commissioner of the Department of Labor and Industry has determined to be the classes of labor commonly employed in commercial work. If a classification does not appear on the list below, contractors have not reported this information and no prevailing hourly wage rate is required.

* Indicates that adjacent county rates were used for this classification determination due to insufficient data being received for this county.
