INTRODUCTION

"Actions of the 1963 Minnesota Legislature" is designed to provide members of the Legislature and other interested persons with a summary of major legislation passed during the 1963 session. This publication, by providing a topical reference to enactments and a detailed and historical analysis of major state appropriations, should serve as a sourcebook on the 1963 session. Although the report was compiled without benefit of the session laws or the bound permanent journals, the material contained herein is believed to be accurate.

The report includes a summary of changes in existing laws and new laws enacted by the 1963 session. Amendments to existing laws are not always indicated. A number of enactments have been excluded because of their minor effect both as to substantive change and limited or local application. The summaries are necessarily brief and in many cases indicate only the general purpose of the law or the major changes effected. Summaries are identified by chapter number and legislative file number. Each enactment is grouped according to its main topic; in some instances summaries are grouped under more than one heading. The headings are identical to those used in previous editions of "Actions".

Additional information on all of the laws may be obtained by referring to the newspaper edition of the session laws which should be available soon.

A large portion of this report is devoted to detailed analysis and historical review of major state appropriations and the state building program.

Members of the legislature are urged to submit suggestions to the Legislative Research Committee for improving the usefulness of this summary.

LEGISLATIVE HIGHLIGHTS

The Sixty-Third Session of the Minnesota Legislature convened on January 8, 1963, and adjourned sine die on May 23, 1963. The actual date of adjournment was the same as the journal record of adjournment. During this period 2,010 bills were introduced in the House of Representatives and 1,893 bills were introduced in the Senate. Of the total 3,903 bills introduced in the two chambers (many of which were companion bills), 888 were enacted into law and seven resolutions were adopted. Four bills were vetoed and two were pocket vetoed by the Governor.

A summary of the above is included in this publication.
