THIS OLD HOUSE

Assessment Year 2008

A Report submitted to the State of Minnesota Legislature
pursuant to
Laws of Minnesota for 1993, Chapter 375, Article 5, Section 42.

Minnesota Department of Revenue
March 2009

MINNESOTA • REVENUE

March 1, 2009

To the Members of the Legislature of the State of Minnesota:

I am pleased to transmit to you the "This Old House" report for assessment year 2008 undertaken by the Department of Revenue in response to Laws of Minnesota for 1993, Chapter 375, Article 5, Section 42 regarding the improvements exclusions under Minnesota Statutes, Section 273.11, Subdivision 16.

The report shows the total market value excluded from taxation under the "This Old House" program for each city and town, and provides some summary tables and graphs that examine the characteristics of This Old House participants. These illustrations summarize the estimated market values, improvement market values, and excluded market values of participants statewide and by county. Detail data is available upon request. There are 32,908 properties participating in the program with a total excluded value of \$425,686,300.

Sincerely,

Ward Einess
Commissioner

Minnesota Statute, Section 3.197 requires that any report to the Legislature contain, at the beginning of the report, the cost of preparing the report.

The cost of preparing this report was \$1,200.00

This Old House

The 1993 Legislature enacted the “This Old House” law (M.S. 273.11, subd. 16). This Minnesota property tax program has allowed homestead property owners to exclude all or a portion of the value of qualifying improvements made to older homes. The program was designed to provide owners of older homes with an incentive to renovate their property, and in turn, preserve and revitalize older neighborhoods. This program expired for new qualifiers as of January 2, 2003, but remains for existing participants through the term of their exclusion. Beginning with assessment year 2004, excluded value has begun returning to the tax rolls as the ten year exclusion for the first year’s participants has expired. This report shows the continued decline in This Old House statistics as the phase out continues.

Which properties were eligible?

Prior to expiring for new qualifiers, a property was eligible for this program if the following criteria were met:

1. The property had to be 45 years of age or older at the time the improvements begin.
2. The property had to be the applicant's homestead in the year the improvements are made.
3. The estimated market value of the property (before improvements) could not exceed \$400,000.
4. Relocated houses were eligible if all other requirements were met.
5. Property classified as residential homestead, agricultural homestead, relative homestead or blind/disabled homestead were eligible. This included duplexes, triplexes, condominiums, etc.
6. The improvements for a single project, or in any one year, had to add at least \$5,000 to the value of the property.

Under the program, homes between 45 and 70 years old were eligible to have one-half the market value (50 percent) of qualifying improvements excluded from the market value, up to a maximum exemption of \$25,000 for all qualified improvements. Properties that were 70 years or older were eligible to exclude 100 percent of their qualifying improvements, up to a maximum exemption of \$50,000.

These eligibility requirements changed over time. For example, for improvements made before July 1, 1999, the age of the house only had to be 35 years or older, the estimated market value of the home could exceed \$150,000 or \$300,000 only if the property’s community met certain criteria, and the minimum improvement value only had to be \$1,000.

Qualifying improvements

Only improvements made to the house and garage qualified. The construction of a new garage (up to 600 square feet) also qualified if no garage originally existed. Improvements to the land, such as landscaping, a driveway, an underground sprinkler system, a sewer system, or a swimming pool did not qualify for exemption. The exemption may apply to multiple improvements to the house and/or garage.

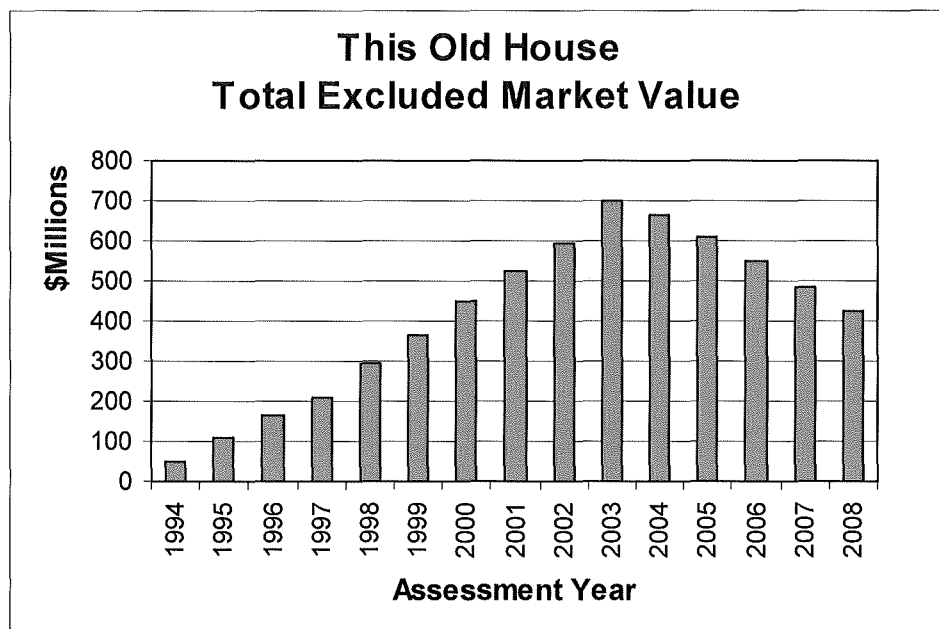

The value of improvements is determined by the assessor and relates to the additional market value added to the property, not the actual cost of the improvements. The value of qualifying improvements will be excluded from property tax for up to a maximum of 10 years. After this time, the value of improvements will be added to the assessment as follows:

1. 50 percent in the two subsequent assessment years if the improvements that began in any one year have a total value of \$10,000 or less; or
2. 20 percent in the five subsequent assessment years if the improvements that began in any one year have a total value of more than \$10,000.

Excluded Market Values

In 2008, 86 counties reported \$425,686,300 in excluded market value spread among 32,908 properties. This compares to 2007 where the same counties reported \$485,163,768 of excluded market value spread among 38,701 properties. Lake of the Woods County did not report any This Old House properties in either year.

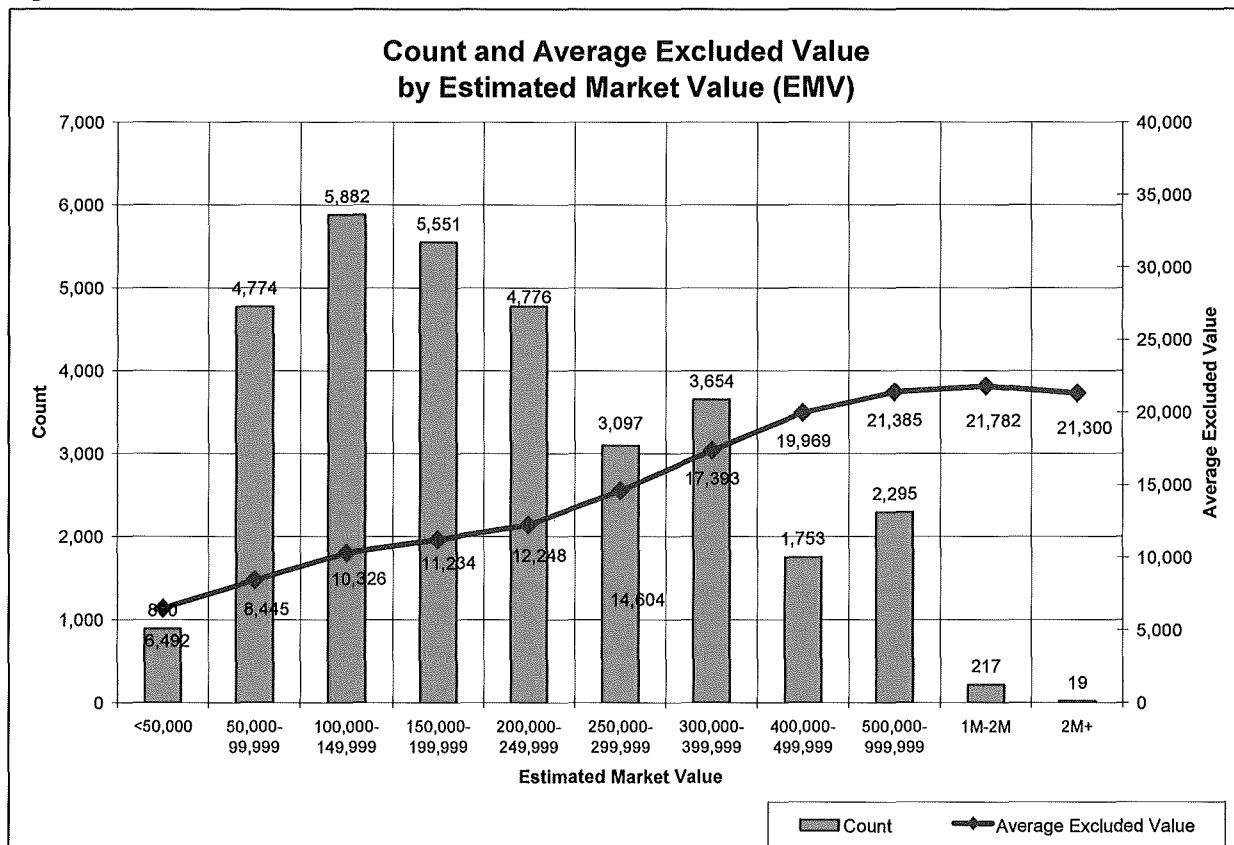

Figure 1.

As Figure 1 shows, the reported excluded market value had grown steadily each year from \$49,073,380 in 1994, the first year these values were reported, to \$700,824,325 in 2003. The somewhat larger increase for 2003 might reflect a rush to qualify prior to the program's expiration. In 2004, as properties began to drop off of the program, the value decreased to \$667,023,295, and continues to drop to \$425,686,300 in 2008.

This report provides some brief examination of the market value excluded from taxation under the "This Old House" program by county, estimated market value, improvement value, and amount of excluded value. This report also details the total market value excluded from taxation for each city and town.

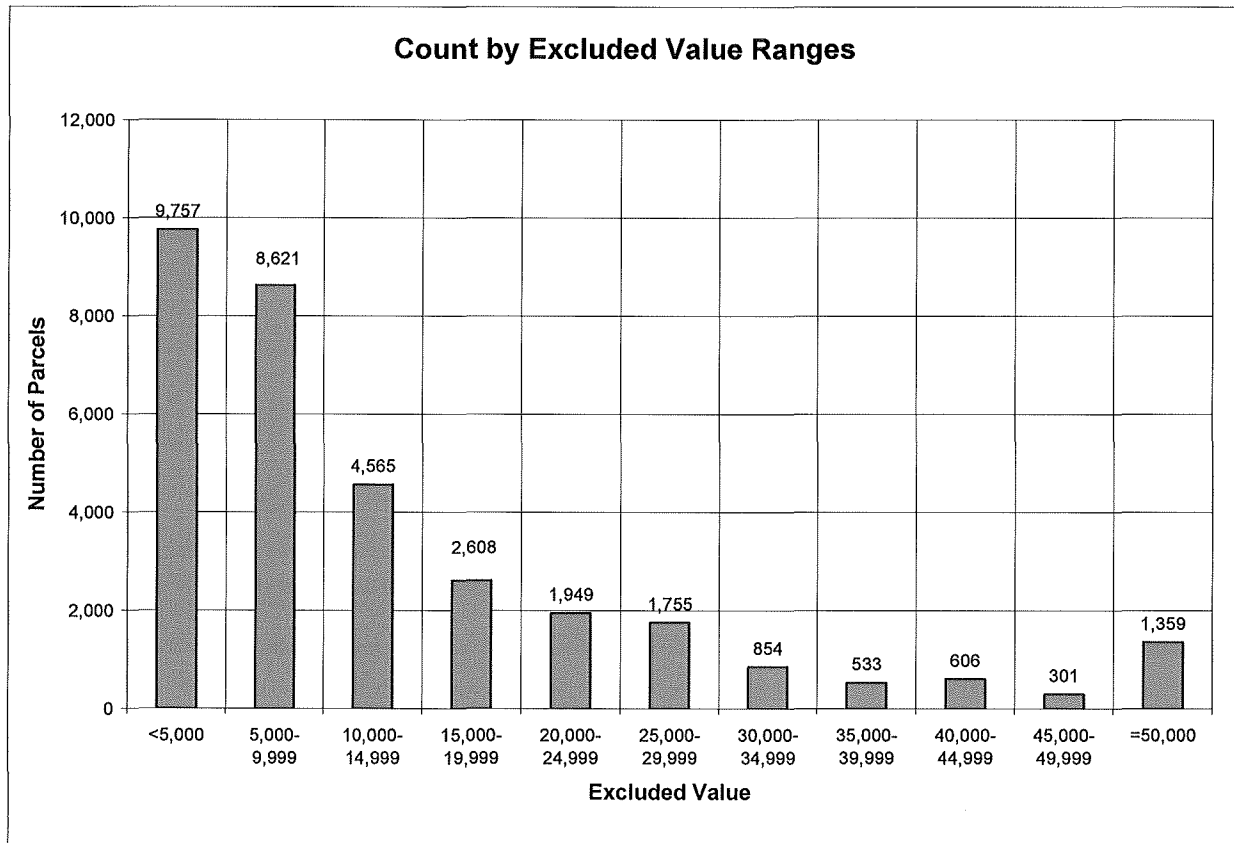

Figure 2.

Observations:

- In the first year of the program there were no EMV limits to qualify. In 1994, limits were established where EMV's of \$150,000 or less would qualify and EMV's greater than this, up to \$300,000, could qualify if the city or town met certain criteria. In 1996, these limits were changed so EMV's of greater than \$300,000 could also qualify if the city or town met other criteria. In 1999, these ranges and criteria were eliminated and a limit of \$400,000 or less was imposed. As a result of these limits, a slight majority of This Old House parcels, 52%, have EMV's of \$200,000 or less prior to the improvements.
- The average excluded value increases as EMV's increase. This excluded value particularly increases faster in ranges beyond \$200,000, suggesting that properties in cities that met the criteria for exceeding \$150,000 or \$300,000 in EMV may have generally been subject to more substantial improvements than the other participants. Moreover, owners of increasingly valuable homes may be able to afford increasingly valuable improvements.
- In 2003, 72% were under \$200,000, while only 52% are under \$200,000 in 2008. This may suggest that many of those that dropped out of the program were lower valued homes, which makes sense because of earlier restrictions on EMV prior to 1999, but this also reflects increasing market values over time.

Figure 3.

Observations:

- This chart breaks excluded market values into eleven ranges of \$5,000 increments and shows the parcel count for each range. There are 32,908 parcels in this program.
- 18,378 parcels (56% of the total) have excluded market values less than \$10,000, and the number of parcels tapers off as the ranges of excluded values increase. However, 1,359 parcels (4% of the total) have the maximum exemption of \$50,000 for homes 70 years old or older.
- Since the 2000 assessment, the program required a minimum qualifying improvement value of \$5,000. Prior to the 2000 assessment, the qualifying improvement value was \$1,000.
- Homes between 45 and 70 years old were eligible to have one-half the market value of qualifying improvements excluded from the market value while homes that were 70 years or older were eligible to exclude 100 percent of their qualifying improvements. The reduced exclusion and greater numbers of homes under 70 years of age contributes to the front loading of the chart.

This Old House by County

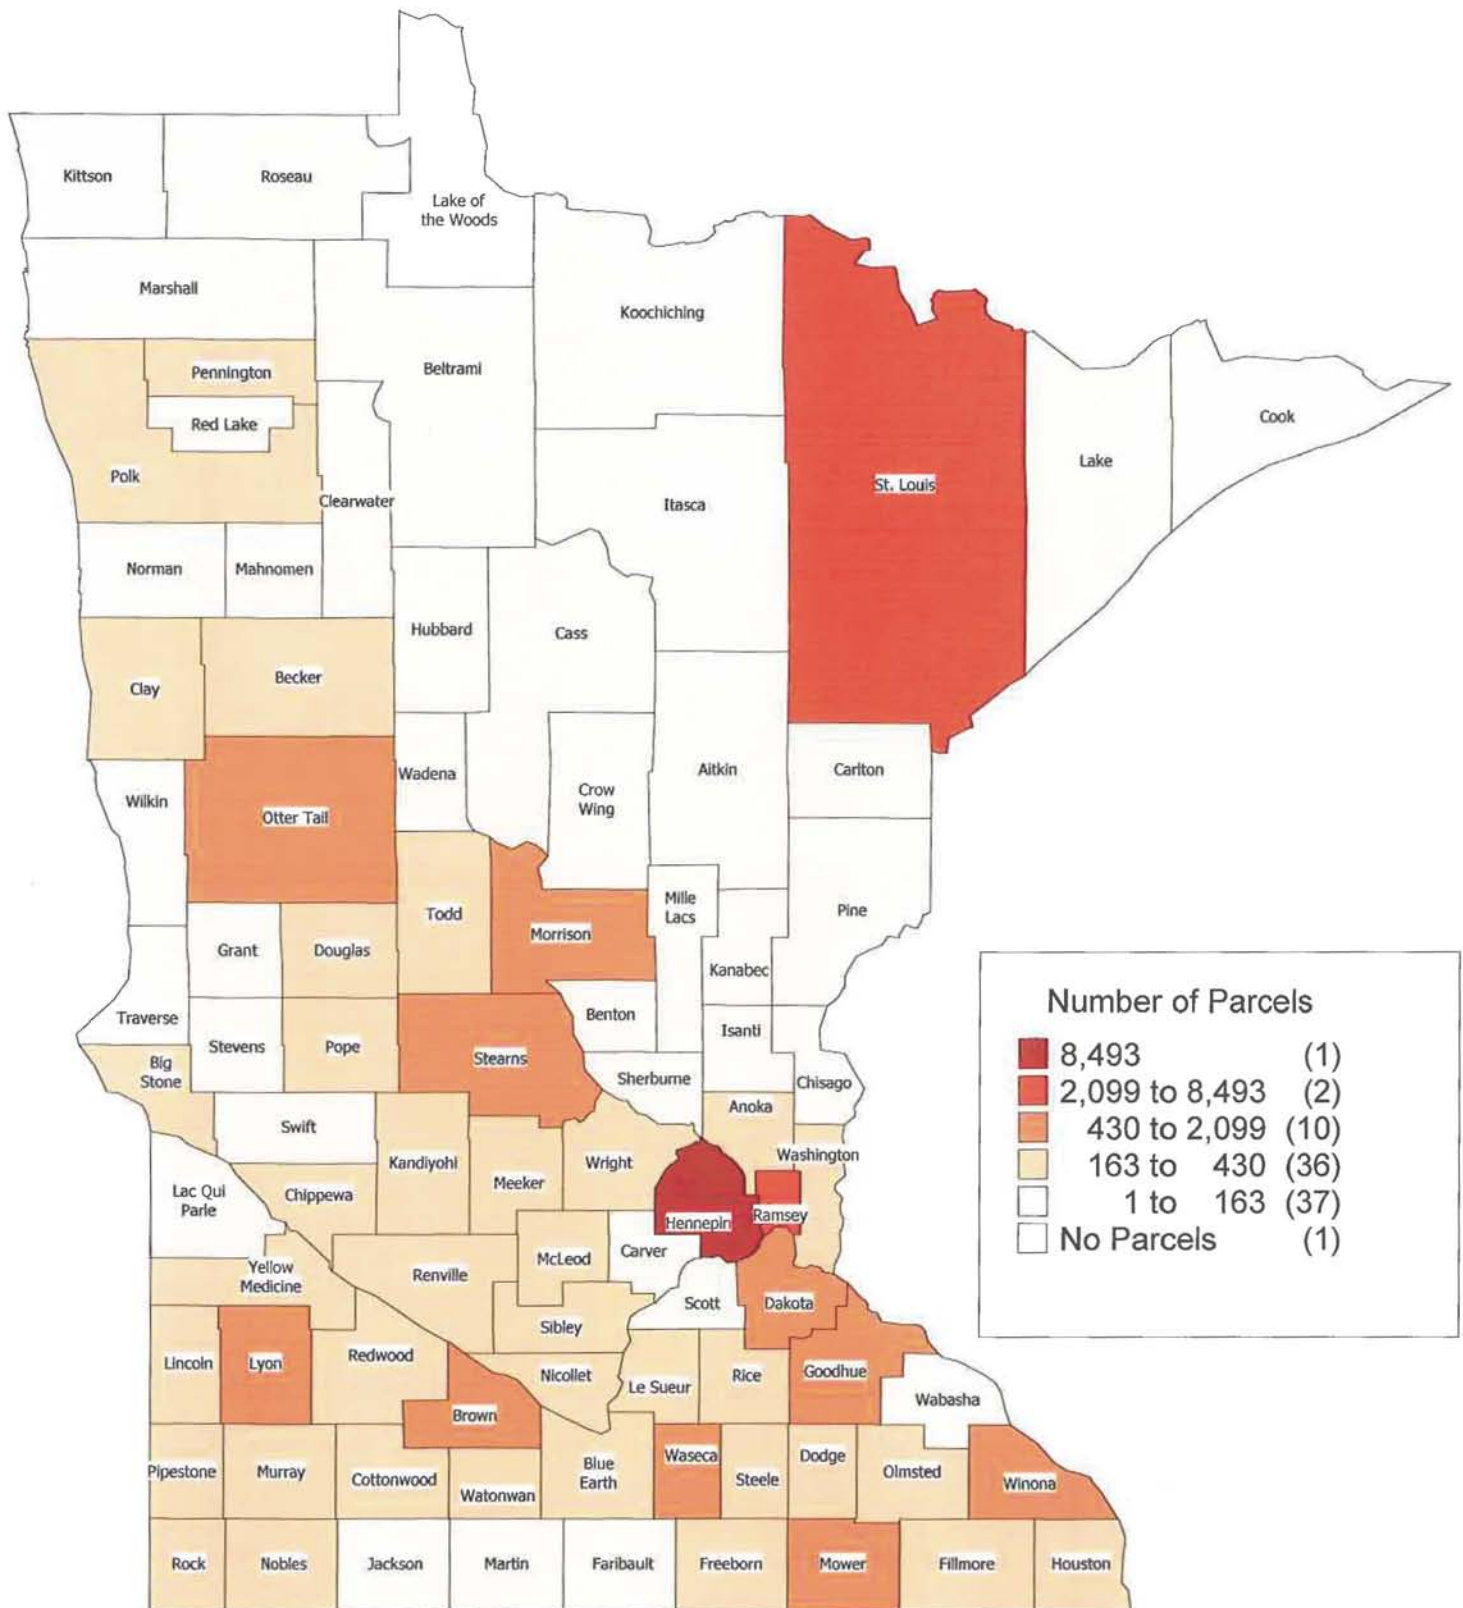

The following maps and table on pages 6-8 summarize This Old House participation by county. Hennepin County has by far the largest participation with 8,493 parcels, or 26% of all participants. Ramsey and St. Louis counties are next with 3,403 (10%) and 2,099 (6%) parcels, respectively. These counties contain Minnesota's three first class cities (Minneapolis, St. Paul, and Duluth), which each have a large population of older homes. The remaining 58% of This Old House participants are well scattered around the state. Some of the counties with the most participants are Dakota, Otter Tail, Stearns, Brown, and Goodhue.

City, Town, and Detail Data

Following the maps and county table is a list of This Old House excluded market value by city and town. The detail parcel data, including age, estimated market value, improvement market value, and the excluded market value is available by request. Please contact Larry Bewley at 651-556-6096 to request this data.
