# **Minnesota Office of Justice Programs Crime Victim Services**

Quarterly Statistical Report Forms  
Fiscal Year 2007

**Summary Report**

March 2008

The Minnesota Office of Justice Programs (OJP) funds approximately 150 agencies statewide to provide direct services to victims of crime. Grantees receive funding under at least one of the eight program areas:

- Abused Children
- Domestic Violence Community Advocacy Program (CAP)
- Domestic Violence Criminal Justice Intervention (CJI)  
(*CJI programs focus on legal advocacy and systems change*)
- Domestic Violence Hotel/Motel/Safehome (H/M/SH)
- Domestic Violence Shelter
- General Crime
- Parenting Time Center
- Sexual Assault.

Agencies submit quarterly statistical reports during the fiscal year documenting demographic and service information for each of the program areas in which they are funded. The current set of quarterly statistical report forms have been in use by grantees since FY03.

This report presents two sections of summary data for each of the 8 program areas: a) comprehensive FY07 demographic and service data, and b) FY03 to FY07 demographic data on primary victims served (CJI not included).

### **Comprehensive FY07 Demographic and Service Data**

These data are broken down into Judicial Districts (JD). Some Judicial Districts do not have certain types of programming funded by OJP within the district, and therefore the district may not be listed in a particular set of tables or have zeros for data. If an agency has programming based in multiple districts, ALL of that agency's data is recorded in the district of the agency's main office (exception: the data for each of the 27 shelters is included in judicial district in which it is physically located). The definitions section of this report and the actual quarterly statistical report forms in the appendix should help readers interpret the data tables.

### **FY03 to FY07 Demographic Data on Primary Victims Served**

These data will show statewide trends in who has been served by OJP-funded programs over the past five years. It should be noted that while the demographic categories of *Unknown* and *Other* are included in the totals served for each program area, they are not considered in figuring the percentages for sex, age or racial/ethnic background.

Please feel free to use these data as needed (e.g. newsletters, grant proposals, presentations, etc.). If you do choose to disseminate this information, please consider that although grantees are given guidelines on collecting these data, there are hundreds of individual staff interpreting these guidelines and implementing data collection practices within their own agencies before submitting to OJP.

Questions about these data can be directed to Chris Anderson at 651-201-7302 or [chris.anderson@state.mn.us](mailto:chris.anderson@state.mn.us).

## Summary

### Comprehensive FY07 Demographic and Service Data

Below are some quick facts on the demographic and service data for FY07:

- While 26.1% of the children served by **Abused Children** programs statewide were African American or Multi-racial, 48.3% of children served by **Judicial District 1** programs were African American or Multi-racial.
  - 30.8% of victims served by **Domestic Violence Community Advocacy Programs** were children statewide. Programs in **Judicial Districts 2, 4 & 10** served a smaller percentage of children (hence, a larger percentage of adults than the state average).
  - The percentage of American Indians served by **Hotel/Motel/Safehome** programs was equal to or higher than any other racial/ethnic background in **Judicial Districts 6, 7, 9 & 10**.
  - **Shelter** programs in **Judicial Districts 1, 2, 4 & 10** (those containing Twin Cities metro shelters):
    - Served 64.9% of the adults/children served statewide
    - Account for 66.6% of the licensed beds statewide
    - Reported 65.8% of intakes statewide
    - Reported 75% of bed days statewide
- \*Note – 62.0% of the state’s population comes from **Judicial Districts 1, 2, 4 & 10**
- 27.1% of victims served by **General Crime** programs were victims of theft/larceny (13.8%) or domestic abuse (13.3%).
  - Victims of “adult sexual assault” account for the most served by **Sexual Assault** programs in every Judicial District except **Judicial District 10** where victims of “child sexual assault – by other” were the highest category served.

## **Summary**

### **FY03 to FY07 Demographic Data on Primary Victims Served**

The most notable trend over the past 5 years of data is the overall consistency in each demographic category. Whether examining sex, age or racial/ethnic background, the numbers differ minimally within each program type from year to year.

Below are some quick facts on the **primary victims** served over the past five years:

#### **Abused Children**

- 59.6% of the primary victims served were female.
- 14.3% fewer children were served in FY07 than in FY03.

#### **Domestic Violence Community Advocacy Programs**

- 93.8% of the primary victims served were female.
- 24.7% more primary victims were served in FY07 than in FY03.

#### **Hotel/Motel/Safehome**

- 30.3% fewer victims stayed for 30.7% fewer nights in FY07 than in FY03.

#### **Shelter**

- African American adults and children made up 38.1% of all victims served (33.5% of the adults and 45.6% of the children statewide).
- Caucasian adults and children made up 35.1% of all victims served (45.1% of the adults and 25.0% of the children statewide).
- 13.4% fewer intakes for 3.8% more bed days in FY07 than in FY03 means the average stay has increased 19.1% (18.3 to 21.8 days).
- The percentage of Caucasian adults served decreased 10.5% between FY03 and FY07, while the percentage of every other adult racial/ethnic background category increased.
- The percentage of Caucasian children served decreased 13.3% between FY03 and FY07, while the percentage of every other children racial/ethnic background category increased.

#### **General Crime**

- 53.9% of the primary victims served were female.
- 9.4% more primary victims were served in FY07 than in FY03.

#### **Parenting Time Center**

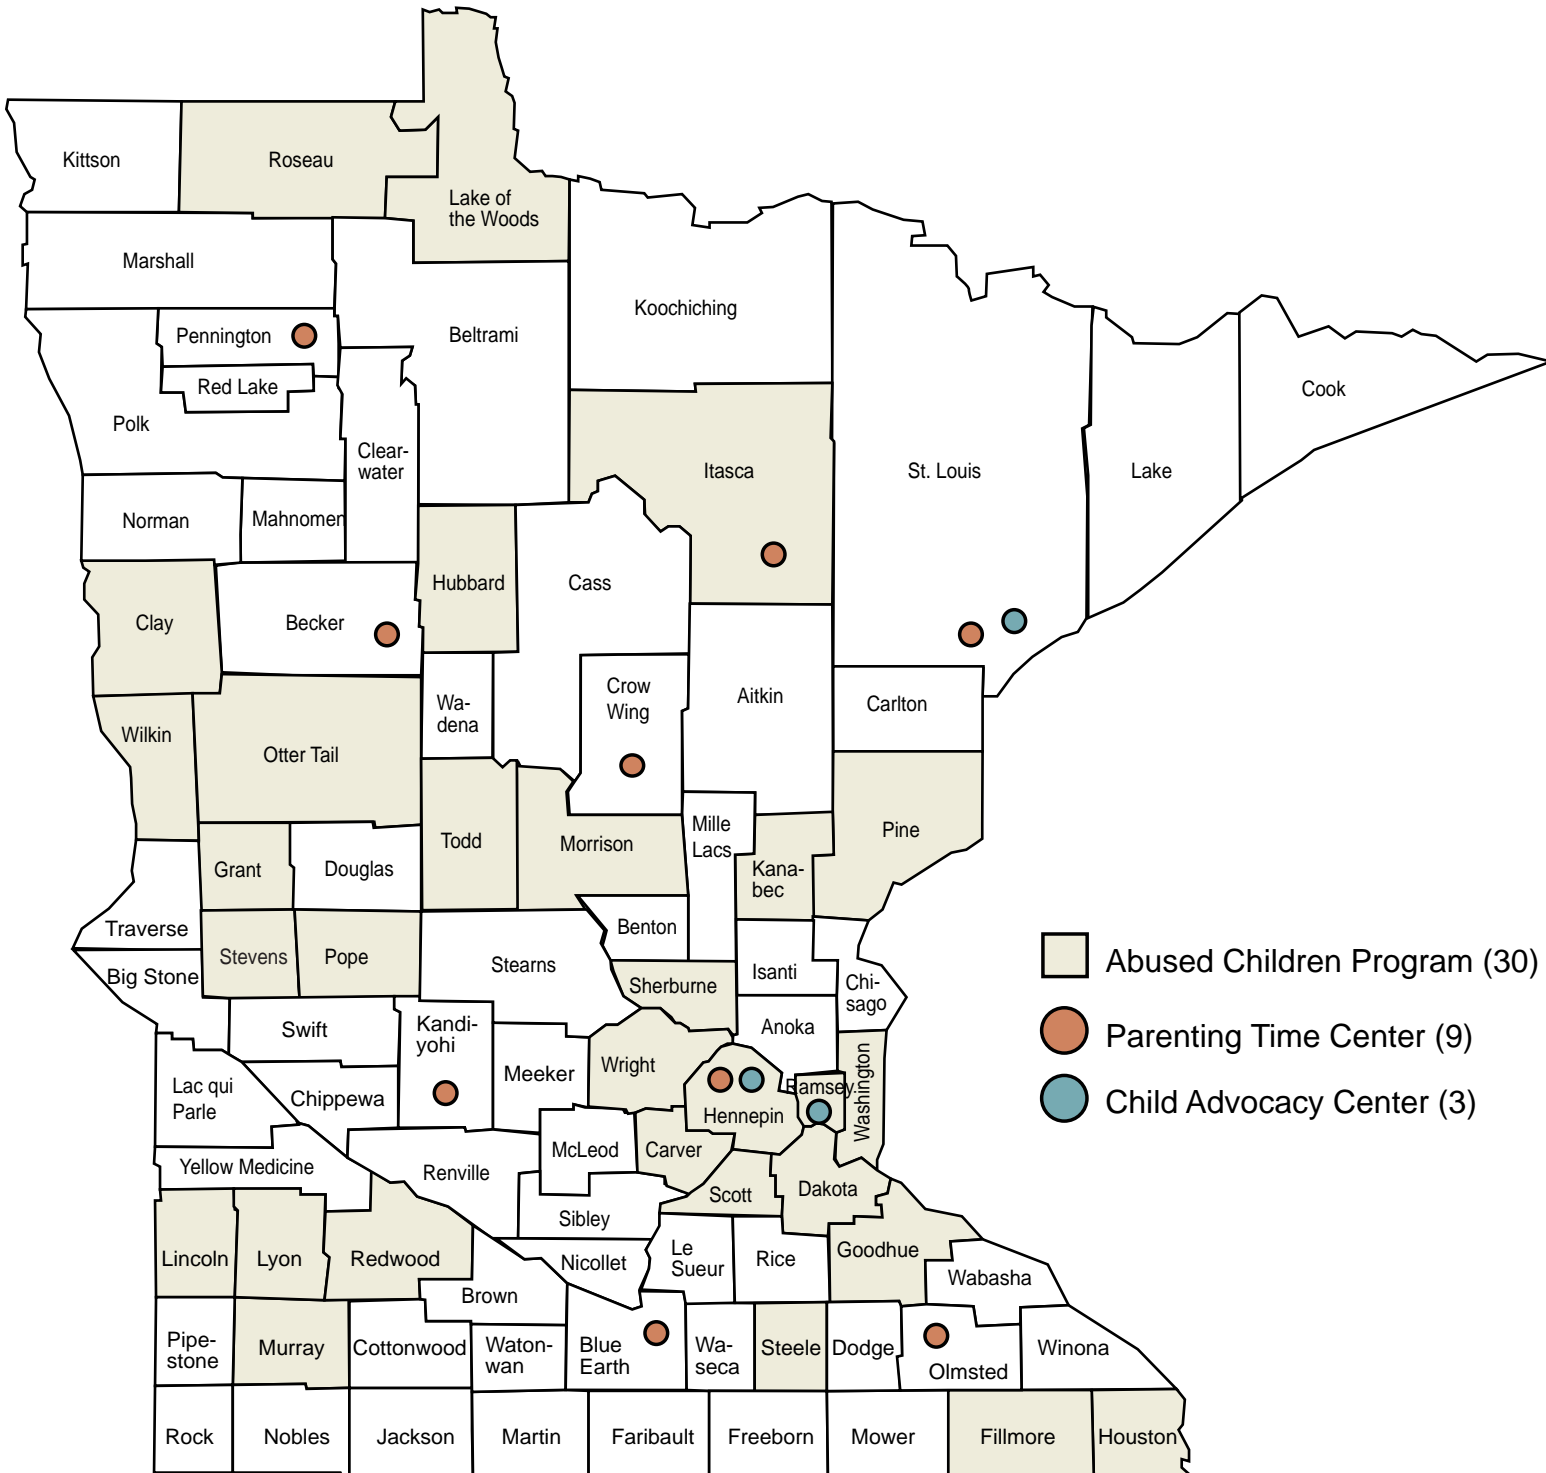

- 52.0% of the primary victims served were ages 5-12 (36.6% were younger and 11.4% were older).

#### **Sexual Assault**

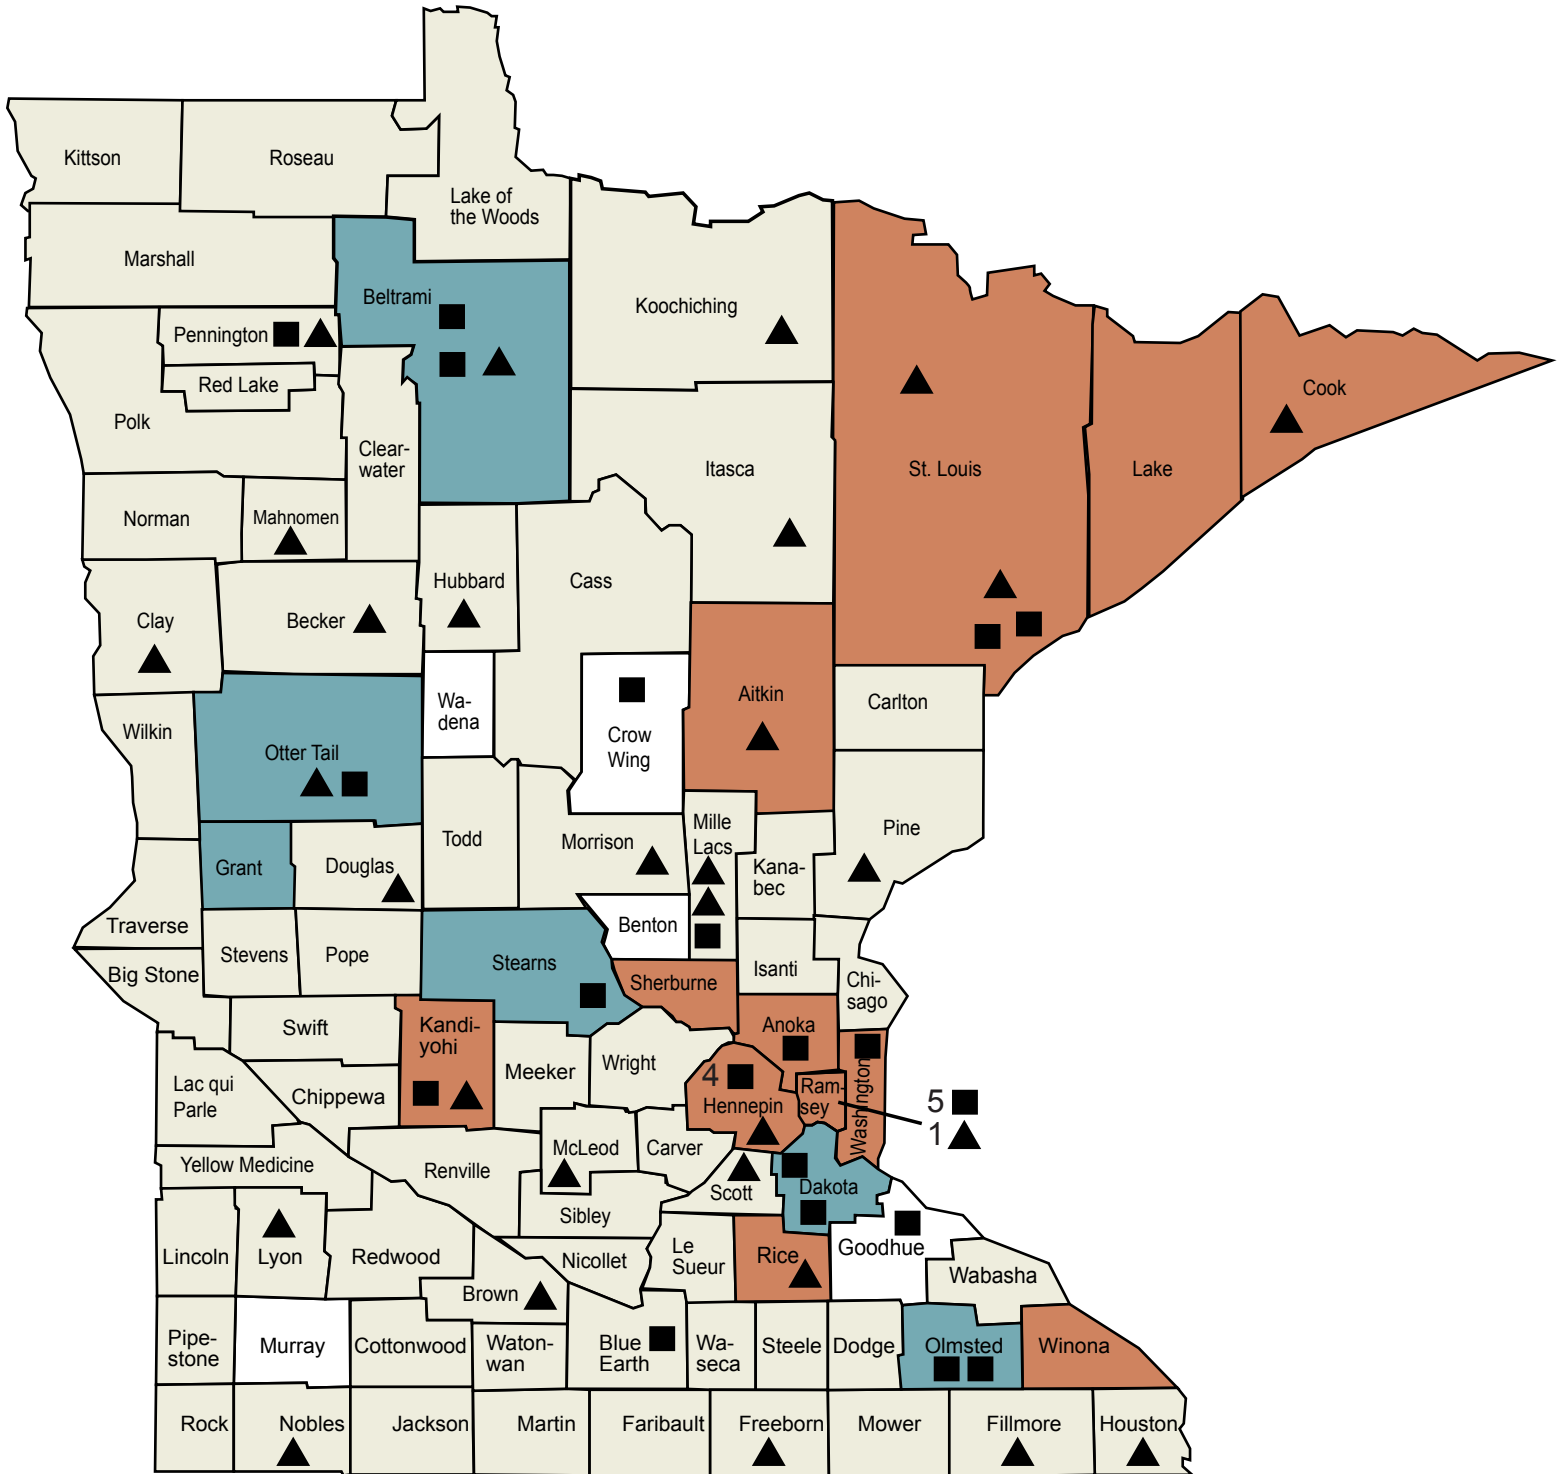

- 88.8% of the primary victims served were female.
- 4.5% fewer primary victims were served in FY07 than in FY03.

## **Quarterly Statistical Form Definitions**

Data category explanations may be found, for the most part, on each specific quarterly statistical form (see appendix). Below are broad definitions that apply to all quarterly statistical forms but do not appear on the forms.

### **Primary Victims Served**

A primary victim served is a person who is directly victimized by a crime and receives at least one of the “services” as defined below. In domestic violence cases, children of primary victims served are also counted as primary victims served if they receive at least one of the services defined below. In homicide cases, family and friends of the deceased should be counted as primary in most instances.

### **Secondary Victim Served**

A secondary victim served is a person who is indirectly victimized by a crime and receives at least one of the “services” as defined below. In domestic violence cases, a secondary victim would include any other victim served by the program, such as an abused woman’s sister or friend, who receives at least one of the services defined below.

### **Services**

A “service” is counted each and every time (volume count) program staff provides a service listed below. Multiple services can be performed and recorded during each contact with a victim. A service is not defined by length of time but rather each instance in which a victim is provided assistance under a category below.

### **Crisis Counseling/Intervention**

Refers to (in-person or telephone) **crisis** intervention, emotional support, safety planning and guidance provided at the scene of a crime, immediately after a crime, or on a crisis hotline call.

### **Counseling/Intervention**

Refers to ongoing or follow-up contact with victim after initial services were provided to offer support, safety planning, guidance, check on the victim’s progress, provide additional information or to evaluate services provided.

### **Information & Referral**

Refers to contact to or from the victim in which you either 1) offer or notify the victim of your available services, or 2) refer him or her to other agencies for assistance/shelter.

### **Personal Advocacy**

Refers to physically assisting victims (including non-emergency transportation) in securing rights, remedies, and services from other agencies; locating emergency financial assistance; intervening with employers, creditors, and others on behalf of the victim; assisting in filing for losses covered by public and private insurance programs including workman’s compensation, unemployment benefits, welfare, etc.; accompanying the victim to the hospital, etc. Information and referral assistance should be recorded under “Information & Referral.”

## **Quarterly Statistical Form Definitions - Continued**

### **Support during Evidentiary Exam**

Refers to any type of advocacy/support for a victim of sexual assault during an evidentiary exam.

### **Criminal Justice Support/Advocacy**

Refers to any support, assistance, or advocacy provided to victims at any stage of the **criminal justice process**, to include post-sentencing services and restitution.

### **Emergency Legal Advocacy**

Refers to **civil assistance** such as orders for protection, restraining orders, injunctions, elder abuse petitions, and child abuse petitions. This does not include criminal prosecution or the employment of attorneys for custody disputes, civil suits, etc.

### **Emergency Financial Assistance**

Refers to financial assistance (money or in-kind) provided by your program for emergency needs such as transportation, food, clothing, lock replacement, etc. – does not include referrals to or information about other organizations for those needs.

### **Assistance in Filing Reparations Claims**

Includes making the victim aware of the availability of crime victim compensation, assisting the victim in completing the required forms, gathering the needed documentation, etc. It also may include follow-up contact with the victim compensation agency on behalf of the victim.

### **Group Treatment/Support**

Refers to the coordination and provision of supportive group activities and includes self-help, peer, social support, etc. Only group treatment and support services that are conducted by your agency should be counted under this category.

### **Therapy**

Refers to intensive professional psychological and/or psychiatric treatment for individuals, couples, and family members related to counseling to provide emotional support in crisis arising from the occurrence of crime. This includes the evaluation of mental health needs, as well as the actual delivery of psychotherapy. Non-licensed provider service should be recorded under “Counseling/Intervention.”

**1. Services to Victims**

\_\_\_\_\_ New incidents this quarter in which an advocate provided CJI services/information. DO NOT count the number of services provided to victims.

The following two numbers should represent individuals provided information or legal advocacy on at least one occasion, not the number of times victims were provided the services. These numbers should include all individual victims served during the quarter even if their victimization was not the result of a new incident this quarter.

\_\_\_\_\_ Individual victims provided information this quarter – information regarding possible options for legal recourse, including **orders** for protection, harassment orders, and civil and criminal remedies.

\_\_\_\_\_ Individual victims provided legal advocacy this quarter – legal advocacy that may include but is not limited to explanation of court process, accompaniment of victim through the court process, attendance of hearings on victim's behalf, intervention with criminal justice personnel on victim's behalf, provision of information on victim witness programs and **reparations**, assurance the victim's rights in case proceedings are upheld, assurance that victim is aware of options to increase safety and warn victim of any immediate threat to safety, and gathering of information from victim on perpetrator's previous violence that victim seeks to convey to the court. This includes assistance with completing OFP/HRO paperwork.

**2. Training of Criminal Justice System Professionals**

Identify the number of times your program formally provided an in-service training on domestic violence to each group of systems professionals listed below, informing them of changes in the law and/or procedures regarding complaints by victims of domestic violence:

\_\_\_\_\_ Law Enforcement

\_\_\_\_\_ Prosecution

\_\_\_\_\_ Probation

\_\_\_\_\_ Court Administration/Judiciary

\_\_\_\_\_ Court-Ordered Batterer's Program

Place a check mark next to each group of systems professionals listed below that you have had contact with regarding changes in the law and/or procedures regarding complaints by victims of domestic violence:

\_\_\_\_\_ Law Enforcement

\_\_\_\_\_ Prosecution

\_\_\_\_\_ Probation

\_\_\_\_\_ Court Administration/Judiciary

\_\_\_\_\_ Court-Ordered Batterer's Program

**3. Policy Development**

Place a check mark next to each of the following criminal justice branches listed below that your program had contact with regarding the establishment/improvement of policies and procedures, with the intent of eliciting a consistent and effective response to domestic violence from the criminal justice system:

\_\_\_\_\_ Law Enforcement

\_\_\_\_\_ Prosecution

\_\_\_\_\_ Probation

\_\_\_\_\_ Court Administration/Judiciary

\_\_\_\_\_ Court-Ordered Batterer's Program

**Primary Victim Demographics**

Primary domestic violence victim demographics are only recorded once per fiscal year no matter how many services are provided for an individual nor how many times the individual has been victimized during the fiscal year. This means that the programs should report the following demographics of each primary victim they serve during the quarter in which he or she was first served during the fiscal year and not again until the first contact the next fiscal year. The totals of sections I, II, III & V should be equivalent.

**Primary Victim Demographics**

Primary general crime victim demographics are only recorded when a primary victim is served by the program for the first time or is served subsequently as a result of a separate victimization. This means that even if you work with someone over multiple quarters or fiscal years, his or her demographics should not be reported again unless he or she received services as a result of a different victimization. The totals of sections I, II, III & V should be equivalent.

\*General Crime programs should generally refer these victims to area crime-specific service providers.

For sibling-to-sibling domestic violence, general crime programs should count these in the "Other Assault" category.

### Secondary Victim Demographics

Secondary general crime victim demographics are only recorded when a secondary victim is served by the program for the first time or is served subsequently as a result of a separate victimization. This means that even if you work with someone over multiple quarters or fiscal years, his or her demographics should not be reported again unless he or she receives services as a result of a different victimization.

Totals of section I & II should be equivalent.
