MFIP Self-support Index and Participation Rate by Racial/Ethnic or Immigrant Group and County

The Three-year Self-support Index

This measure tracks whether adults are either (1) working an average of 30 or more hours per week or (2) no longer receiving MFIP cash, three years from a baseline quarter. Adults who are “timed-off” the program after 60 months are only counted as a success on this measure if they were working 30 or more hours per week or were converted to SSI during the last month for which their eligibility was determined using reliable employment information. For further information on this measure, see Evaluation Notes #15, *Updated information on the MFIP Self-support Index*, located at: <http://edocs.dhs.state.mn.us/lfserver/Legacy/DHS-4064O-ENG.pdf>

The rates reported here are based on adults who were eligible for MFIP during the quarter of July through September of 2004. Participants are grouped by eight racial/ethnic or immigrant subgroups. Participants served by the five tribal providers are reported separately from the county data.

Cells highlighted by shading indicate a potential problem -- the particular racial/ethnic or immigrant subgroup has a Three-year Self-support Index five percent or more below the rate of the White subgroup.

Cells associated with racial/ethnic or immigrant subgroups with fewer than 30 adults are not reported for due to data privacy restrictions.

The TANF Work Participation Rate

This measure identifies the percentage of MFIP cases that are fully engaged in employment or employment-related activities in a quarter, per federal activity requirements. More information on this measure and its history can be found in Evaluation Note #18, *The TANF Work Participation Rate*, located at <http://edocs.dhs.state.mn.us/lfserver/Legacy/DM-0157J-ENG.pdf>.

The rates reported here are based on MFIP cases with work eligible non-exempt adults during from the quarter of July through September of 2007. Under legislation effective July 1, 2005, participants who were formerly exempt from Employment Services were included in the in the TANF Work Participation Rate. Participants are grouped by eight racial/ethnic or immigrant subgroups. Participants served by the four tribal MFIP providers are reported separately from the county data (the Mille Lacs tribal program is a TANF program, therefore the MFIP Participation Rate does not apply).

Cells highlighted by shading indicate a potential problem -- the particular racial/ethnic or immigrant subgroup has a MFIP Work Participation Rate five percent or more below the rate of the White subgroup.

Cells associated with racial/ethnic or immigrant subgroups with fewer than 30 adults are not reported for due to data privacy restrictions.
