

Minnesota Recycling Directory

(Not including the seven-county metropolitan area.)

Minnesota Pollution Control Agency
1935 West County Road B2, Roseville, Minnesota 55113
(612) 296-7373

January, 1983

This recycling directory lists known recyclers for the area outside of the seven-county Twin Cities metropolitan area. The "Recycle It" directory, available from the Metropolitan Council, 300 Metro Square, 7th and Robert, St. Paul, Minnesota 55101, (612) 297-6464, lists metropolitan area recyclers.

For information on specific materials accepted, materials preparation required, and hours of operation, contact the individual recycler at the number listed. The listed materials should be prepared as follows:

- NEWSPAPERS should be tied together or collected in paper bags.
- MAGAZINES are not recycled by most centers because of low market prices.
- PLASTICS markets are now being developed. Check with the MPCA for possible markets.
- PHONE BOOKS and other paper materials--keep materials separate.
- BEVERAGE CONTAINERS come in aluminum and bimetal containers. They can be separated by checking with a magnet. Bimetal cans should be placed with steel food cans.
- FOOD CANS should be rinsed, the labels removed, and cans crushed.
- GLASS should be sorted by color (clear, green and brown). Only bottles and jars are acceptable; they should be rinsed, but labels need not be removed. (Window glass is usually not recyclable).
- SCRAP METAL such as appliances, automobile parts, batteries, wire, pipe, etc. are often much more valuable than steel cans. Most scrap yard and auto and truck salvage yards sell used iron, tires, batteries, and auto and truck parts to the public at tremendous savings.
- CLOTHES, CLEAN RAGS and other useable or repairable items have a recycle value or can be given away to charities, traded in, or sold at auctions, flea markets or rummage sales.

If you would like more information on recycling, are interested in starting a recycling center, or can provide additional listing for this directory, contact the Minnesota Pollution Control Agency, 1935 W. County Road B2, Roseville, Minnesota 55113, or call (612) 296-7373.

This directory will be updated every six months. A separate addendum will be mailed to those who have requested the directory.

Printed on 100% recycled paper

OUTSTATE RECYCLING CENTERS INFORMATION SHEET

If you are not currently listed in the directory and want to be, please fill out the form below and return it to:

Mr. Sam Hasson
Minnesota Pollution Control Agency
1935 West County Road B2
Roseville, Minnesota 55113

1. Name: _____

2. Address: (street, city, zip code) _____

3. County: _____
4. Telephone: (including area code) _____
5. Contact Person(s) and Title _____

6. Check (X) whether location is:
a. drop off center _____
b. redemption center _____
7. Hours of Operation (days of week and hours) _____

8. Materials taken or excluded: _____

9. Check whether location will contract for specific amounts of tonnage: _____

10. Other Information: _____
