Subject: Legislative Report Required by Minn. Stat. § 216F.012, subd. (c)

Dear Senators Solon and Rosen, Representatives Hilty and Westrom:

The subject statute requires that the Public Utilities Commission issue an annual report to the chairs and ranking minority members of the House of Representatives and Senate committees with primary jurisdiction over energy policy and natural resource policy regarding any variances applied for and not granted under subd. (b) of the same section, relating to wind energy projects and increased setbacks from state lands that may be negotiated with the Department of Natural Resources. No variances were requested in 2009.

Please contact me if you have questions.
