Dear Governor Pawlenty:

The Department of Public Safety, Bureau of Criminal Apprehension is pleased to submit the *Minnesota Crime Information-2009* report for your review. This report is in accordance with Minnesota State Statute 299C.18.

In 2009 Minnesota recorded a 6.4% decrease in Part 1 crimes. The violent crimes (murder, rape, robbery and aggravated assault) decreased 7.4% and property crimes (burglary, larceny, motor vehicle theft and arson) decreased 6.3%.

This report provides statistics to law enforcement, members of state government and the general public for their use in analyzing crime in Minnesota. In addition, the data has been submitted to the Federal Bureau of Investigation's Uniform Crime Reporting Program.

These statistics have been compiled from data submitted by the Minnesota police and sheriffs. Their continued contributions allow the BCA to provide what is currently the most comprehensive picture of crime in Minnesota.

Sincerely yours,

A handwritten signature in black ink that reads "Michael Campion".

PREFACE

In 1935, the Bureau of Criminal Apprehension was given the responsibility to collect activity information from the law enforcement agencies throughout the State of Minnesota. Biennially, reports were completed and forwarded to the concerned parties as required by State Statute. In 1972, the publications began to be printed annually.

This report measures the amount of criminal activity within the State as collected and prepared from data submitted by individual law enforcement agencies. The criminal activity consists of measurements involving offenses, clearances, and arrests.

Along with the collection of crime statistics, other statutory requirements are included in this publication. Among those requirements are sections that provide information on the number of law enforcement officers killed or assaulted; firearms discharges by police officers; missing children reports; police pursuits, and bias offenses.

Limited information is also available on law enforcement personnel.

Comparisons with previous years' statistics will be presented for trend changes that might be of use to the evaluator. Individual comparisons on specific measurements will be left to the evaluator for use as required by the individual's need.

The *Minnesota Crime Information – 2009* publication is compiled from crime statistics that were provided by Minnesota's police and sheriffs. Notations are provided on Table 38, *Offenses, Clearances, Percent Cleared and Crime Rate by Agency-2009*, to agencies not submitting 12 months worth of data. Any comparisons with previous years should be viewed with caution.

The Minnesota Department of Public Safety, Bureau of Criminal Apprehension wishes to express its thanks to the cooperating law enforcement agencies whose assistance provide the success of this publication.

LAW ENFORCEMENT AGENCIES CONTRIBUTING

To assure an accurate interpretation of the data presented in this report, the exact number of law enforcement agencies submitting information must be indicated. Specifically, reports are collected for urban places (cities and towns) and rural areas according to the definitions of Uniform Crime Reporting. The police departments report information for cities while the sheriff's departments collect information for the rural areas.

The Department of Public Safety requests that information from all reporting agencies be submitted regularly. Since 1936, the average percent of sheriff's and police departments forwarding information has been over 94 percent. The 99 percent contribution figure for 2009 is further evidence of the high degree of cooperation reflected by those agencies submitting information.

* After 2007 F.B.I. Population Estimates were derived differently than previous years. Rather than applying the state population rate of growth uniformly to all agencies, the UCR staff computed individual rates of growth from one year to the next for every city/town and county for a seven year period (2000-2006). Each agency's rates of growth were averaged and that average was applied and added to its Census population figure to derive the current year population estimates.

CRIME INFORMATION

BACKGROUND

The State of Minnesota, since 1936, has participated in the FBI's Uniform Crime Reporting Program. The statistics that have been generated each year are not only of vital concern to national figures, but are equally important to the State as a whole. In 1972, Minnesota began collecting crime related data as part of a computerized statewide Criminal Justice Reporting System program. The benefits derived from such an automated program are indicated in a modernistic approach to the collection of Uniform Crime Reports.

The responsibility and authority for collecting and disseminating the UCR information was mandated to the Bureau of Criminal Apprehension through applicable State Statutes. The State Statutes are as follows:

MINNESOTA STATE STATUTES, CHAPTER 299C

299C.05 DIVISION OF CRIMINAL STATISTICS.

There is hereby established within the bureau a division of criminal statistics, and the superintendent, within the limits of membership herein prescribed, shall appoint a qualified statistician and one assistant to be in charge thereof. It shall be the duty of this division to collect, and preserve as a record of the bureau, information concerning the number and nature of offenses known to have been committed in the state, of the legal steps taken in connection therewith from the inception of the complaint to the final discharge of the defendant and such other information as may be useful in the study of crime and administration of justice. The information so collected and preserved shall include such data as may be requested by the United States Department of Justice, at Washington, under its national system of crime reporting. To the extent possible, the superintendent must utilize a nationally recognized system or standard approved by the Federal Bureau of Investigation to collect and preserve crime data.

299C.06 DIVISION POWERS AND DUTIES; LOCAL OFFICERS TO COOPERATE.

It shall be the duty of all sheriff's, chiefs of police, city marshals, constables, prison wardens, superintendents of insane hospitals, reformatories and correctional schools, probation and parole officers, school attendance officers, coroners, county attorneys, court clerks, the liquor control commissioner, the commissioner of highways, and the state fire marshal to furnish to the division statistics and information regarding the number of crimes reported and discovered, arrests made, complaints, information and indictments filed and the disposition

made of same, pleas, convictions, acquittals, probation granted or denied, conditional release information, receipts, transfers, and discharges to and from prisons, reformatories, correctional schools and other institutions, paroles granted and revoked, commutation of sentences and pardons granted and rescinded, and all other data useful in determining the cause and amount of crime in this state and to form a basis for the study of crime, police methods, court procedure, and penal problems. Such statistics and information shall be furnished upon the request of the division and upon such forms as may be prescribed and furnished by it. Unless otherwise required or permitted by the superintendent of the Bureau of Criminal Apprehension, an agency or person furnishing information under this section must utilize a nationally recognized system or standard approved by the Federal Bureau of Investigation for reporting statistics and information. The division shall have the power to inspect and prescribe the form and substance of the records kept by those officials from which the information is so furnished.

299C.12 RECORDS KEPT BY PEACE OFFICERS; REPORTS.

Every peace officer shall keep or cause to be kept a permanent written record, in such form as the superintendent may prescribe, of all felonies reported to or discovered by him within his jurisdiction and of all warrants of arrest for felonies and search warrants issued to him in relation to the commission of felonies, and shall make or cause to be made to the sheriff of the county and the bureau, reports of all such crimes, upon such forms as the superintendent may prescribe, including a statement of the facts and a description of the offender, so far as known, the offender's method of operation, the action taken by the officer, and such other information as the superintendent may require.

GOALS AND OBJECTIVES

The primary goal of the UCR program in Minnesota is to provide statistical information on the volume and affect of crime. To better assist concerned individuals and agencies to solve the state crime problem, a more encompassing approach involving all aspects of criminal activity was needed. With this in mind, and examining the recommendations of the President's Commission on Law Enforcement and the Administration of Justice, the UCR program became one aspect of the computerized State Criminal Justice Reporting System.

The major objectives of Minnesota's UCR Program include:

1. Statistics on crime in Minnesota to be used by the Governor, Legislature, Crime Control Planning Board, and other concerned individuals within the State.
2. Statistics on crime for administrative and operational use by law enforcement administrators.
3. Statistics on specific criminal offenses to be used in the FBI's national crime reports.
4. Statistics involving the age, sex and race of offenders to determine the proper focus for crime prevention and enforcement.
5. Statistics on crime for researchers to assist in the formation of the causes of crime within a biological, sociological and/or psychological framework.
6. Statistics on crime to measure the workload and effectiveness of the 'current' state criminal justice system.
7. Statistics on crime for personnel employed by the criminal justice system to help assist them in improving the efficiency and performance of criminal justice agencies.

REPORTING PROCEDURES

Through Minnesota's crime reporting statutes, participating Minnesota Law Enforcement Agencies are required to submit information as determined by the Department of Public Safety. The required information is tallied from the individual agency's internal record of complaints, investigations, miscellaneous reports and arrests. To help achieve a uniformity of reporting throughout the State, a copy of the FBI's *Uniform Crime Reporting Handbook* is offered to each agency. In conjunction with the manuals, numerous training sessions in record and report writing and filing are offered to each agency by field representatives of the Department of Public Safety. Individual contact with agencies experiencing difficulty in any phase of the Criminal Justice Reporting System is also offered by the field representatives. Verification for authenticity of reports that are submitted are handled by staff at the Department of Public Safety or by a special "edit" program written into the computerized Criminal Justice Reporting System. Inconsistencies of report information and minor errors are corrected by telephone or terminal

contact. Major errors in UCR reporting methods are handled exclusively by field representatives.

The Department of Public Safety, along with the FBI, has established their specific program to measure criminal data activity for both state and federal purposes. The result is a tabulation of the number and type of offenses committed, cases cleared or solved, and the persons arrested. A criminal act may involve several crimes, several persons, and several victims; but all that is necessary for such an act to be reported and recorded by the state and federal programs is one violation. If a given criminal act involves more than one offense, only the more serious offense is counted. "Clearance by arrest" indicates that at least one person was arrested. It does not preclude the fact others may have also been involved in the offense. Any additional arrests are purely supplemental and are used for each department's record purposes only and not reported under the program.

Another part of criminal data collection involves juvenile offenses and arrests. When reviewing such data it should be remembered that many times juvenile offenses are handled informally within the different agencies and therefore go unreported. In cases where an offense involves both adults and juveniles, and subsequent arrests are made of both, the crime reporting program will indicate this offense to be cleared by the arrest of the adult. Juvenile arrests are used for clearance purposes only in those instances where juveniles alone are involved.

Clearing an offense by the arrest of a person(s) is but one means of indicating such activity. Another involves the clearing of a reported offense by use of the term "exceptionally cleared". An exceptional clearance exists when some element beyond law enforcement action prevents formal charges against the offender. Such a situation might arise if:

1. The offender commits suicide.
2. A double murder occurs (two persons kill each other).
3. The offender dies after making a confession (dying declaration).
4. The offender is killed by a law enforcement officer.
5. The offender confesses to committing the crime while already in custody for another crime or serving a sentence.

6. The offender is prosecuted in another city for a different crime by federal, state, or local authorities, or for the same offense, and the other jurisdiction refuses to release the offender.
7. Another jurisdiction refuses to extradite the offender.
8. The victim of a crime refuses to cooperate in the prosecution.
9. The offender is prosecuted for a less serious charge than the one for which he was arrested.
10. The offender is a juvenile who is handled by a verbal or written notice to the parents in instances involving minor offenses.

The count of offenses is taken from the record of complaints received by law enforcement agencies from victims, witnesses, other sources or discovered by them during their own operation. Complaints determined by subsequent investigation to be unfounded are eliminated from the court. The resulting number of "offenses actually known to law enforcement agencies" for each crime offense category is reported without regard to whether anyone is arrested, stolen property is recovered, local prosecutive policy, or any other consideration. Reported offenses are recorded by the municipality and county in which they occur, rather than to the agency which may investigate, arrest, or otherwise in some manner dispose of the case. Municipal law enforcement agencies report those crimes which occur in the counties outside the city. Law enforcement agencies also report on a periodic basis, supplemental offense information such as the value of property stolen and recovered as well as circumstances surrounding homicides. Additional reports of persons arrested are submitted. These reports provide information concerning the age, sex and race of persons arrested by each individual law enforcement agency. Reports of persons arrested are separated as to adults and juveniles.

Crime data and information submitted by municipal and county law enforcement agencies is collected on a daily and semi-daily basis under the Minnesota Criminal Justice Reporting System program. Once received, it is processed and disseminated for use in state and national reports as well as by the participating agencies themselves (see CJRS-UCR flow chart).

"Crime rate" is a term often used in evaluating criminal statistics. The crime rate represents or equates the number of index crimes per 100,000 in population.

Basically, it refers to the comparison of the number of offenses with the number of potential offenses and the number of persons exposed to the risk of the offense. It does not include other variables which might affect the amount of crime within a given area.

CRIME FACTORS

When the current method of crime reporting is considered, several limitations in its accuracy may be immediately recognizable. Law enforcement agencies are not totally to blame because of their capability to only report that which is known to them. In many instances, the very citizens who are themselves "victims" of a crime fail to inform the law enforcement agency of their occurrence. There is a general tendency among the public to not report minor crimes that are, in their eyes, of little consequence. The public may also feel that the law enforcement agency is of little help to them. They may also feel the threat of blackmail or retaliation for participating in a sex, gambling, or narcotic offense. The public may also feel the threat of embarrassment for being involved in a crime regarded against the norms of society. Given these factors, much crime is never included in the total state evaluation of the crime problem.

Another element of concern is the actual number of law enforcement agencies reporting crime information. Lack of crime information by delinquent agencies can potentially reduce the accuracy of the crime picture as developed from reported information.

The term "selective reporting" also has a bearing on the crime reported by participating agencies. Selective reporting reflects only the crimes for which an agency considers important or necessary to be reported through the system. The information that is utilized from such reporting is slanted and misleading. It does not give an accurate account of the crime problem and it further discredits the time spent in reporting the "selected" activity. Such reporting is immediately recognizable from the output reports and its improper use affects all the information submitted by the contributing law enforcement agencies.

Extraneous conditions beyond the realm of law enforcement also affect the measurement and analysis of crime. These conditions, or CRIME FACTORS, include but are not necessarily limited to:

- A. Legislative changes as to what constitutes a criminal offense.

- B. Density and size of the community population and the metropolitan area of which it is part.
- C. Composition of the population with reference particularly to age, sex, and race.
- D. Economic status and mores of the population.
- E. Relative stability of population including commuters, seasonal and other transient types.
- F. Climate, including seasonal weather conditions.
- G. Educational, recreational, and religious characteristics.
- H. Effective strength of the police force.
- I. Standards governing appointments to the police force.
- J. Policies of each of the law enforcement agencies.
- K. Policies of the prosecuting officials and the courts.

- L. Attitude of the public toward law enforcement problems.
- M. The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.

Information provided in the *Minnesota Crime Information 2009*, is as accurate as currently available in the State. Crime and arrest statistics should be interpreted with caution when comparing different law enforcement jurisdictions. **Reported crimes relate to events, while arrests relate to persons.** For any one criminal act there may be multiple crimes, multiple offenders, and multiple victims.

Given the above considerations the total crime picture is indeed influenced by many variables. Opponents of the Uniform Crime Reporting System are often vocal in pointing out the inadequacy of this system. Proponents respond by indicating that at the present time there is no other suitable method of collecting criminal statistics. If a better system is developed, tested, and offered as a replacement, law enforcement will not hesitate to implement it.

Flow Chart of the CJRS/UCR in Minnesota

A DESCRIPTION OF UNIFORM CRIME REPORTING OFFENSES AND THEIR CLASSIFICATION

The Department of Public Safety/Bureau of Criminal Apprehension, using the reporting techniques recommended by the FBI, records criminal data submitted by the many law enforcement agencies in the State. The criminal data collected contains information regarding Part I Offenses called to the attention of Minnesota Law Enforcement agencies.

Part I Offenses reflect information on eight "serious" crime classifications, and it is generally referred to as the "Crime Index" measurement. Part II Offenses are represented by twenty "less serious" crime classifications.

The eight crimes represented in the Part I Offenses include murder, rape, aggravated assault, robbery, burglary, larceny, motor vehicle theft, and arson. These crimes were chosen because of their uniformity of definition, total volumes, and likelihood of being reported. The crimes of murder, rape, aggravated assault, and robbery are also known as "violent crimes." The crimes of burglary, larceny, motor vehicle theft and arson are labeled as "property crimes." The law enforcement agency may become aware of these crimes in several ways; reports of its own officers, citizens complaints, notification from the prosecuting attorney and from information supplied by court officials.

PART I OFFENSES (Serious Crime)

Criminal Homicide - The killing of another person.

- a) Murder - Any unlawful killing of a human being in which the element of malice aforethought was present in the murder.
- b) Manslaughter - Any unlawful killing of a human being without the element of malice aforethought is counted as manslaughter.
- c) Death by Negligence - Any death that occurs because of the negligence of some person other than the victim and that is not in the commission of an unlawful act. These are deaths which police investigation established as primarily caused by gross negligence.

Forcible Rape (does not include Statutory Rape).

- a) Rape by Force - The carnal knowledge of a female forcibly and against her will, but excluding statutory rape and other sex offenses.
- b) Assault to Rape-Attempts - All assaults and attempts to rape.

Robbery - A robbery is defined as the felonious and forcible taking of property of another against his will by violence or by putting him in fear. This includes all attempts.

- a) Armed Robbery-Any Weapon - When any object is so employed as to constitute force or the threat of force, it will be considered a weapon. This would include firearms, knives, clubs, brass knuckles, blackjacks, broken bottles, acid, explosives, etc. Cases involving possible pretended weapons or cases involving weapons not seen by the victim but which the robber claims to have with him should be counted in this category.

- There were 69 actual criminal homicides reported for the state, with 56 of these offenses cleared by arrest. This represents an 81 percent clearance rate for that year.
- The crime rate for homicide in 2009 was 1 per 100,000 population.

FORCIBLE RAPES - INCLUDING ATTEMPTS

Forcible rape is the carnal knowledge of a female using force and committed against her will. Uniform Crime Reporting needs require rape to be divided into two categories: (1) Rape by force, and (2) Attempted rape. Statutory rape and other sex offenses are excluded from this category. Though UCR only collects information about female victims, Minnesota includes male victims as well. All figures presented will include both male and female victims.

SUMMARY ANALYSIS

- For the 2,384 rapes reported in 2009, 155 were listed as unfounded.

- Of the 2,229 reported actual rapes that occurred in Minnesota in 2009, 2,109 were by force while 120 were recorded as attempted rapes.
- Of the total rapes occurring in 2009, 1015 or 46 percent were cleared by arrest. Of this total, 106 were cleared with the arrest of a juvenile.*
- There were 2005 female victims and 224 male victims reported.
- The crime rate for rape in 2009 represented 43 per 100,000 population.
- The total number of rapes in 2009 represented 17 percent of the total violent crimes with 6 averaged per day.

* Cases where an adult and a juvenile are arrested for a case are not counted as cleared by the arrest of a juvenile.

ROBBERY

Robbery involves the felonious and forcible taking of the property of another against his will, by violence or by placing the person in state of fear. The crime of robbery necessitates that a victim be present in order for it to be so classified. As a general rule, robbery differs from larceny in that it is aggravated by the threat and element of force. An attempt to commit a robbery, either armed or strong arm is counted as if the actual offense did occur.

SUMMARY ANALYSIS

- Of the 3,687 total robberies reported in 2009, 80 offenses were unfounded.

- Of the 3,607 actual robbery offenses that occurred in Minnesota in 2009, 943 or 26 percent were cleared by arrest. Of the 943 offenses that were cleared, 161 were cleared by the arrest of a juvenile.*
- The crime rate for robberies in 2009 amounted to 69 per 100,000 population.
- In 2009, robbery offenses represented 28 percent of the total violent crimes with 10 offenses averaged each day.

AGGRAVATED ASSAULT

Assault with intent to commit murder is also listed as aggravated assault.

All assaults where no weapon is used, which result in minor injuries are classified as non-aggravated assaults or simple assaults and are not counted in the crime index total.

SUMMARY ANALYSIS

- Of the 7,231 total aggravated assault offenses reported in 2009, 100 were reported as unfounded.
- For the total 7,131 actual aggravated assaults occurring in Minnesota in 2009, 4,472 or 63 percent were cleared by arrest. Of the 4,472 assaults cleared by arrest, 565 were cleared with the arrest of a juvenile.*

ADDITIONAL STATEWIDE OFFENSE INFORMATION

In addition to the aforementioned crime index information and property crime values, there are additional sources of offense information included as a part of Minnesota Offense Information.

Table 10 contains statewide summary information for total Part I and Part II offenses for 2009. The first column lists offenses according to crime category, as described in the Crime Information section of this publication. The remaining columns give the number of offenses, unfounded offenses, the crime rate, offenses cleared by arrest, and offenses cleared by arrest of a juvenile.

Table 11 encompasses 2009 statewide data relating to property loss. The first portion of the table refers to the various property types and the corresponding stolen and/or recovered value. The rest of the table lists the Part I offenses broken down into sub-categories and the value of the property stolen or recovered for each offense.

Table 12 provides summary information including the crime rate, population, crime index and percent cleared for urban-rural, the various State Judicial Districts, and the reporting agencies in Minnesota for 2009.

Table 13 depicts summary Minnesota Crime Index Information for the years 1936-2009 and also includes state population and crime rate.

MINNESOTA ARREST INFORMATION

GENERAL ARREST INFORMATION

Arrest information for Minnesota in 2009 is presented with a state total concerning age, sex, and race factors. Data has also been tabulated for the specific kinds of narcotic arrests and the individuals involved.

The total number of arrests involving criminal offenses in the state in 2009 was 197,890 with 142,608 males and 55,282 females arrested. There are also significant factors to consider when arrest data is evaluated:

- There can be multiple persons arrested for the same offense.
- An arrest of one or more persons can be reported for an offense that occurred during a previous reporting period.

As a result of the above factors, arrests in most cases will outnumber offenses.

In reporting the arrests of a juvenile, the FBI's instructions state that:

"The UCR Program considers a juvenile to be an individual under 18 years of age regardless of the state definition. An agency must score a juvenile arrest when the circumstances are such that if the individual were an adult, an arrest would have been counted." *

Juveniles (persons under 18 years) constitute 22% (43,170) of all arrests during 2009 and account for 31% (11,362) of the Part I arrests: 3 percent of Murder, 15 percent of Rape, 30 percent of Robbery, 16 percent of Aggravated Assault, 30 percent of the Burglary, 33 percent of the Larceny, 26 percent of the Vehicle Theft, and 62 percent of the Arson arrests.

URBAN-RURAL AND REGIONAL INFORMATION

COMPARISON OF URBAN-RURAL CRIME OFFENSES/ARRESTS FOR 2009

Urban-rural crime comparison by offense offers information to agencies in evaluating the difference in crime occurring by geographical locations. The information that is available must be interpreted with caution as it gives a general indication of urban-rural crime only and does not represent data that can be applied to any one specific agency. Variations in crime are caused by a multitude of crime factors, which have been listed previously in this report. The information that is presented in this section lists the numbers of specific criminal offenses that have been reported to the appropriate urban or rural law

enforcement authority. Because of jurisdictional reasons, Capitol Security and State Patrol figures are excluded from this section of the report.

Of additional value is the ratio of urban to rural crime offenses for 2009. The ratio is nothing more than the amount of one particular criminal offense for the urban area as compared with the amount of one particular offense for the rural area. A ratio of 7:1 aggravated assaults indicates that for every seven offenses of aggravated assault in an urban area, the rural area experienced one aggravated assault.

BIAS MOTIVATED CRIMES

BACKGROUND:

In 1988, the Legislature passed a law which requires peace officers to report any incidents which were motivated by bias. 1989 was the first full year this information was collected. The state statute reads as follows:

626.5531 REPORTING OF CRIMES MOTIVATED BY BIAS.

Subdivision 1. Reports required. A peace officer must report to the head of the officer's department every violation of chapter 609 or a local criminal ordinance if the officer has reason to believe, or if the victim alleges, that the offender was motivated to commit the act by the victim's race, religion, national origin, sex, age and disability, or characteristics identified as sexual orientation. The superintendent of the bureau of criminal apprehension shall adopt a reporting form to be used by law enforcement agencies in making the reports required under this section. The reports must include for each incident all of the following:

- (1) the date of the offense;
- (2) the location of the offense;
- (3) whether the target of the incident is a person, private property, or public property;
- (4) the crime committed;
- (5) the type of bias and information about the offender and victim that is relevant to that bias;
- (6) any organized group involved in the incident;
- (7) the disposition of the case;
- (8) whether the determination that the offense was motivated by bias was based on the officer's reasonable belief or on the victim's allegation; and
- (9) any additional information the superintendent deems necessary for the acquisition of accurate and relevant data.

Subd. 2. Use of information collected. The head of a local law enforcement agency or state law enforcement department that employs peace officers licensed under section 626.843 must file a monthly report describing crimes reported under this section with the department of public safety, bureau of

criminal apprehension. The commissioner of public safety must summarize and analyze the information received and file an annual report with the department of human rights and the legislature. The commissioner may include information in the annual report concerning any additional criminal activity motivated by bias that is not covered by this section.

MINNESOTA MISSING CHILDREN REPORT

BACKGROUND:

In 1984, the Minnesota Legislature enacted what is known as the "Minnesota Missing Children's Act". This Act provides for the Commissioner of Public Safety to maintain a missing children program. This program requires the Commissioner to: provide the necessary computer systems to allow for the maintaining of data on missing children in the Federal Bureau of Investigation's National Crime Information Center; provide a system for broadcasting information on missing children regionally, statewide, multi-state and nationwide; and to annually compile statistical information related to missing children. The statute is as follows:

299C.52 MINNESOTA MISSING CHILD PROGRAM.

Subdivision 1. **Definitions.** As used in sections 299C.52 to 299C.56, the following terms have the meanings given them:

(a) "**Child**" means any person under the age of 18 years or any person certified or known to be mentally incompetent.

(b) "**CJIS**" means Minnesota criminal justice information system.

(c) "**Missing**" means the status of a child after a law enforcement agency that has received a report of a missing child has conducted a preliminary investigation and determined that the child cannot be located.

(d) "**NCIC**" means National Crime Information Center.

(e) "**Endangered**" means that a law enforcement official has received sufficient evidence that the child is with a person who presents a threat of immediate physical injury to the child or physical or sexual abuse of the child.

Subdivision 2. **Establishment.** The commissioner of public safety shall maintain a Minnesota missing child program within the department to enable documented information about missing Minnesota children to be entered into the NCIC computer.

Subdivision 3. **Computer equipment and programs.** The commissioner shall provide the necessary computer hardware and computer programs to enter, modify, and cancel information on missing children in the NCIC computer through the CJIS. These programs must provide for search and retrieval of information using the following identifiers: physical description, name and date of birth, name and social security number, name and driver's license number, vehicle license number, and vehicle identification number. The commissioner shall also provide a system for regional, statewide, multi-state, and nationwide broadcasts of information on missing children. These broadcasts shall be made by local law enforcement agencies where possible or, in the case of statewide or nationwide broadcasts, by the bureau of criminal apprehension upon request of the local law enforcement agency.

Subdivision 4. **Authority to enter or retrieve information.**

Only law enforcement agencies may enter missing child information through the CJIS into the NCIC computer or retrieve information through the CJIS from the NCIC computer.

Subdivision 5. **Statistical data.** The commissioner shall annually compile and make available statistical information on the number of missing children entered into the NCIC computer and, if available, information on the number located.

Subdivision 6. **Rules.** The commissioner may adopt rules in conformance with sections 299C.52 to 299C.56 to provide for the orderly collection and entry of missing child information and requests for retrieval of missing child information.

299C.53 MISSING CHILD REPORTS; DUTIES OF COMMISSIONER AND LAW ENFORCEMENT AGENCIES.

Subdivision 1. **Investigation and entry of information.** Upon receiving a report of a child believed to be missing, a law enforcement agency shall conduct a preliminary investigation to determine whether the child is missing. If the child is determined to be missing, the agency shall

immediately enter identifying and descriptive information about the child through the CJIS into the NCIC computer. Law enforcement agencies having direct access to the CJIS and the NCIC computer shall enter and retrieve the data directly and shall cooperate in the entry and retrieval of data on behalf of law enforcement agencies which do not have direct access to the systems.

Subdivision 2. **Location of missing child.** Immediately after a missing child is located, the law enforcement agency which located or returned the missing child shall notify the law enforcement agency having jurisdiction over the investigation, and that agency shall cancel the entry from the NCIC computer.

GOALS AND OBJECTIVES:

The primary goal of the "Minnesota Missing Children's Act" is to assist in the locating of those children reported missing in the shortest possible time thus insuring their safe return by: requiring investigative action by law enforcement agencies; by requiring the entry of data on the missing child; and by requiring an annual compilation of statistical information for evaluation of the missing children problem in Minnesota.

The following table reflects the information directly from the Federal Bureau of Investigation's, National Crime Information Center's file for Minnesota.

As of December 31, 2009 there were 304 active missing children's records in the FBI/NCIC system for Minnesota.

COUNTY AND MUNICIPAL LAW ENFORCEMENT
AGENCY INFORMATION

County and Municipal Law Enforcement Offense Information contained in this section is arranged by total county figures, sheriff office figures and municipal police department figures.

Legislation passed in October, 1978, reclassified the offense of Arson to a Part 1 Crime. The arson figures reflected in 2009 have been tabulated and

recorded in the Part 1 Crime area. This fact should be taken into consideration whenever comparing Part 1 and Part 2 totals for 1980-2009 with previous years.

The information contained within this section will reflect agencies not reporting specific offenses.

GLOSSARY OF TERMS

APPENDIX A

ADULT - For Minnesota Uniform Crime Report purposes, a person 18 years of age or above.

ARREST RATE - The number of arrests reported for Part I and Part II offenses for each unit of population, generally per 100,000. Arrest rates are computed in the same manner as crime rates.

CLEARED BY ARREST - For crime reporting purposes, an offense is cleared by arrest or solved when at least one person is: (1) arrested, or (2) charged with the commission of the offense.

COUNTY - Subdivisions of state, each with its own government, including a sheriff's department.

CRIME FACTORS - Conditions which affect the amount and type of crime that occurs in a geographical area.

CRIME INDEX - The total number of eight major offenses used to measure the extent, fluctuation and distribution of a crime in a given geographical area. Crime classifications used in the index are: Murder, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny, Motor Vehicle Theft, and Arson. Each of these offenses is referred to as an "Index Offense".

CRIME RATE - The number of index offenses reported for each unit of population, generally per 100,000 persons. Crime rates are computed for communities with varying populations by dividing the number of Index Crimes by the population and multiplying the answer by 100,000. (Example: 500 Index Offenses divided by 10,000 population X 100,000 = 5,000 Crime Rate).

EXCEPTIONAL CLEARANCE - A crime solution or clearance recorded when some element beyond law enforcement control precludes the placing of formal charges against an offender.

JUVENILE - For Minnesota Uniform Crime Report purposes, a person under the age of 18.

MUNICIPALITY - City or town that has its own government, including police department.

PART I OFFENSES - The first of two main categories of crime classes composing a universal crime classification system established for crime reporting purposes. Part I offenses are by their nature more serious and occur most frequently. The monthly tabulation of Part I offenses provides a count of "offenses known".

PART II OFFENSES - The second of two main categories of crime classes composing a universal crime classification system established for crime reporting purposes. Part II offenses are generally less serious in nature. Monthly tabulations of Part II offenses are included in Minnesota's crime information report.

POPULATION FIGURES - 2007 F.B.I. Population Estimates used for the 2008 report were derived differently than previous years. Rather than applying the state population rate of growth uniformly to all agencies within the state, the UCR staff computed individual rates of growth from one year to the next for every city/town and county for a seven year period (2000-2006). Each agency's rates of growth were averaged and that average was applied and added to its 2006 Census population figure to derive the 2007 population estimates.

PROPERTY CRIME - Consists of the Index Offenses of Burglary, Larceny, Motor Vehicle Theft and Arson.

RURAL AREA - Geographical area covered by a Sheriff's Department outside of city limits.

URBAN - Geographical area covered by local police departments within the city limits.

VIOLENT CRIME - Consists of the Index Offenses of Murder, Forcible Rape, Robbery and Aggravated Assault.
