Residential Housing Finance Bond Resolution Overview Information as of December 31, 2009

The Residential Housing Finance Bond Resolution was adopted on August 24, 1995 by the amendment and restatement of the State Assisted Home Improvement Bond Resolution and has since been amended and supplemented from time to time. Pursuant to the Bond Resolution, the Agency issues its Residential Housing Finance Bonds and has established bond funds relating to the Bonds. The Agency also established under the Bond Resolution, the Endowment Fund (including the three subfunds therein entitled the Home Improvement Endowment Fund, the Homeownership Endowment Fund and the Multifamily Housing Endowment Fund) and the Alternative Loan Fund. Pursuant to an amendment to the Bond Resolution, the Endowment Fund (and its three subfunds) was closed effective July 1, 2007, and all funds and assets therein have been transferred to the Alternative Loan Fund.

The Alternative Loan Fund is not pledged to the payment of the Residential Housing Finance Bonds. Rather, any funds that may be on deposit therein are generally available to pay any debt obligations of the Agency. This disclosure report includes information only about the Residential Housing Finance Bonds. It does not include information about the Alternative Loan Fund.

For further information please refer to the audited financial statements of the Agency for the fiscal year ended June 30, 2009. You can retrieve a copy from Minnesota Housing's website at www.mnhousing.gov or contact the Agency to request a copy.

The Agency has traditionally purchased "whole loans" (i.e., the Agency directly purchased single family mortgage loans from lenders) and financed such purchases with proceeds of Bonds. The Agency recently determined to change its program to acquire mortgage-backed securities guaranteed as to timely payment of principal and interest by GNMA, Fannie Mae or Freddie Mac (as defined in the Bond Resolution, "Program Securities") instead of acquiring mortgage loans. For commitments made on or after September 1, 2009, the Agency expects to purchase Program Securities backed by qualifying mortgage loans instead of directly purchasing mortgage loans. The Agency has entered into a Servicing Agreement, dated as of July 9, 2009, with the Trustee and U.S. Bank, National Association, operating by and through its U.S. Bank Home Mortgage – MRBP Division, as master servicer (the "Master Servicer"), for a term ending August 31, 2011 (subject to renewal and termination rights). Pursuant to the servicing agreement, the Master Servicer is to acquire single family mortgage loans meeting Program requirements and pool such loans into Program Securities to be purchased by the Trustee on behalf of the Agency. As of December 31, 2009, the Agency had purchased some Program Securities from proceeds of the 2009 DEF Bonds (see Section M), but no payments or prepayments had been received thereon.

A portion of the proceeds of the 2009 DEF Bonds were applied to refund and defease on December 1, 2009 several series of Single Family Mortgage Bonds. As a result, all the mortgage loans relating to the refunded bonds were transferred to the Bond Resolution; some were allocated to the 2009 DEF Bonds and the excess were allocated to "Retired." Because of these transactions, certain information contained in this Quarterly Disclosure Report (e.g., information regarding whole loan mortgages, mortgage insurance and delinquency and foreclosure statistics) is not directly comparable on an aggregate basis to the information contained in prior Quarterly Disclosure Reports.

If the number of loans allocated to a series of Bonds in the table is expressed in an increment of 0.5, the allocation reflects the fact that proceeds of Bonds of the series were used, with an equal amount of funds from another source (which may be another series of Bonds or a series of Single Family Mortgage Bonds) to purchase the mortgage loan. In such cases, while principal repayments and prepayments are allocated equally to each funding source, interest payments on the mortgage loan are not allocated pro rata.

At December 31, 2009, there were no mortgage-backed securities held under the Agency's Alternative Loan Fund 2 warehousing account. At December 31, 2009, the Master Servicer had purchased, but not yet pooled into mortgage-backed securities, approximately \$5.5 million in principal amount of single family mortgage loans and had commitments outstanding to purchase approximately \$58.4 million in mortgage loans, all of which, if purchased by the Master Servicer, are expected to be pooled into mortgage-backed securities to be purchased by the Agency. These mortgage-backed securities may ultimately be purchased with bond proceeds from existing and future bond issues.

^{*} Includes acquisition fund balance related to notes or convertible option bonds, but no such notes or convertible option bonds were outstanding as of December 31, 2009.

^{**} Outstanding commitments may include loan commitments, loans purchased but net yet pooled into mortgage-backed securities by the Master Servicer, and mortgage-backed securities. Not all loan commitments result in the purchase of a mortgage loan. If loan commitments do not result in pooled mortgage-backed securities to be purchased by the Agency, the ability of the Agency to commit funds will depend on market conditions at that time.

^{***} Secured by home improvement loans, cash, or investments.

All Loans are serviced by US Bank Home Mortgage.

If the number of loans allocated to a series of Bonds in the table is expressed in an increment of 0.5, the allocation reflects the fact that proceeds of Bonds of the series were used, with an equal amount of funds from another source (which may be another series of Bonds or a series of Single Family Mortgage Bonds) to purchase the mortgage loan. In such cases, while principal repayments and prepayments are allocated equally to each funding source, interest payments on the mortgage loan are not allocated pro rata.

Comparative Statistics(3)

RHFB Mortgage Loan Portfolio, at 12/31/09	8.61 %
Mortgage Bankers Association of America, Minnesota, at 9/30/09 ⁴⁹	6.17 %

⁽¹⁾ Included in "Foreclosures" are loans for which the sheriff's sale has been held and the redemption period (generally six months) has not yet elapsed in addition to those customarily included in foreclosure statistics. See note 3 below.

Refer to the disclaimer on page A-1 H-1

^{(2) 30-59} days not included in total.

⁽³⁾ This table compares 60+ day delinquency and foreclosure statistics, where "foreclosures" include only those loans referred to an attorney and with the first legal documents filed, but not loans for which further proceedings in foreclosure have been taken. Thus, the percentage for the RHFB Mortgage Loan Portfolio differs from that in the table above.

⁽⁴⁾ Mortgage Bankers Association of America average of 60+ days delinquency and foreclosure statistics adjusted by the Agency to reflect the proportions of insurance types in the Residential Housing Finance Bond Resolution mortgage loan portfolio. The unadjusted 9/30/09 Mortgage Bankers Association of America average 60+ days is 4.79% Minnesota and 6.13% national. Reprinted by permission of the Mortgage Bankers Association. ^{*}MHFA has not received all proceeds/cost of sale.

If the number of properties allocated to a series of Bonds in the table is expressed in an increment of 0.5, the allocation reflects the fact that proceeds of Bonds of the series were used, with an equal amount of funds from another source (which may be another series of Bonds or a series of Single Family Mortgage Bonds) to purchase the mortgage loan that financed the property. In such cases, while principal repayments and prepayments are allocated equally to each funding source, interest payments on the mortgage loan are not allocated pro rata.

⁽¹⁾ The Agency has received all proceeds - loans written off.

If the number of properties allocated to a series of Bonds in the table is expressed in an increment of 0.5, the allocation reflects the fact that proceeds of Bonds of the series were used, with an equal amount of funds from another source (which may be another series of Bonds or a series of Single Family Mortgage Bonds) to purchase the mortgage loan that financed the property. In such cases, while principal repayments and prepayments are allocated equally to each funding source, interest payments on the mortgage loan are not allocated pro rata.

Refer to the disclaimer on page A-1

⁽²⁾ Real Estate Owned is carried at the unpaid prinicipal and interest amount as of the date title is transferred to the Agency plus improvements and maintenance costs less any insurance or sale proceeds received. The carrying value is reduced by any expected loss on disposition of the property. The Agency stops accruing interest on loans as of the date title to the underlying property is transferred to the Agency, because it is impossible to accurately predict the date of receipt and amount of final insurance proceeds. In some instances, a portion or all of the unrecorded interest income is paid by the insurer. An accounting gain for an individual loan results when the interest paid by the insurer exceeds the unreimbursed expenses of foreclosure.

^{*} This column includes the application of prepayments and curtailments and revenue from REOs to bond calls/recycled prepayments through January 31, 2010, principally the redemption of bonds on January 1, 2010.

If the number of loans allocated to a series of Bonds in the table is expressed in an increment of 0.5, the allocation reflects the fact that proceeds of Bonds of the series were used, with an equal amount of funds from another source (which may be another series of Bonds or a series of Single Family Mortgage Bonds) to purchase the mortgage loan. In such cases, while principal repayments and prepayments are allocated equally to each funding source, interest payments on the mortgage loan are not allocated pro rata.

Refer to the disclaimer on page A-1 M-1

^{**}The Agency applies these amounts from time to time to the redemption of outstanding bonds or, infrequently, in the acquisition of new mortgage loans. The amounts reflect curtailments and prepayments remaining after January 31, 2010. The redemption of Bonds pursuant to redemption notices that have been issued by the Trustee subsequent to December 31, 2009 but before the date of this disclosure report are listed, as a service to the reader, in the Bond Call History (Section M).
