Under Minnesota Statutes 16B.307, agencies receiving appropriations for asset preservation are to submit a report by January 15 of each year that provides a list of projects that have been funded with asset preservation money during the preceding calendar year, as well as a list of those priority asset preservation projects for which state bond proceeds fund appropriations will be sought during that year's legislative session.

Attached is the report. It lists funds that were spent in calendar year 2010 for asset preservation/exhibit renewal projects. The report lists all projects from the past three bonding appropriations for asset preservation/exhibit renewal with the total amount expended as of December 31, 2010 and the total spent in calendar year 2009.

Also attached is a current list of asset preservation/exhibit renewal projects which total \$10 million. These are projects which are "shovel ready."
