Residential Housing Finance Bond Resolution

Overview

Information as of March 31, 2011

The Residential Housing Finance Bond Resolution was adopted on August 24, 1995 by the amendment and restatement of the State Assisted Home Improvement Bond Resolution and has since been amended and supplemented from time to time. Pursuant to the Bond Resolution, the Agency issues its Residential Housing Finance Bonds and has established bond funds relating to the Bonds. The Agency also established under the Bond Resolution, the Endowment Fund (including the three subfunds therein entitled the Home Improvement Endowment Fund, the Homeownership Endowment Fund and the Multifamily Housing Endowment Fund) and the Alternative Loan Fund. Pursuant to an amendment to the Bond Resolution, the Endowment Fund (and its three subfunds) was closed effective July 1, 2007, and all funds and assets therein were transferred to the Alternative Loan Fund.

The Alternative Loan Fund is not pledged to the payment of the Residential Housing Finance Bonds. Rather, any funds that may be on deposit therein are generally available to pay any debt obligations of the Agency. This disclosure report includes information only about the Residential Housing Finance Bonds. It does not include information about the Alternative Loan Fund.

For further information please refer to the audited financial statements of the Agency for the fiscal year ended June 30, 2010. You can retrieve a copy from Minnesota Housing's website at <u>www.mnhousing.gov</u> or contact the Agency to request a copy.

The Agency has traditionally purchased "whole loans" (i.e., the Agency directly purchased single family mortgage loans from lenders) and financed such purchases with proceeds of Bonds. The Agency recently determined to change its program to acquire mortgage-backed securities guaranteed as to timely payment of principal and interest by GNMA, Fannie Mae or Freddie Mac (as defined in the Bond Resolution, "Program Securities") instead of acquiring mortgage loans. For commitments made on or after September 1, 2009, the Agency has been purchasing Program Securities backed by qualifying mortgage loans instead of directly purchasing mortgage loans. The Agency has entered into a Servicing Agreement, dated as of July 9, 2009, with the Trustee and U.S. Bank, National Association, operating by and through its U.S. Bank Home Mortgage – MRBP Division, as master servicer (the "Master Servicer"), for a term ending August 31, 2011 (subject to renewal and termination rights). Pursuant to the servicing agreement, the Master Servicer is to acquire single family mortgage loans meeting Program requirements and pool such loans into Program Securities to be purchased by the Trustee on behalf of the Agency. As of March 31, 2011 the Agency had purchased some Program Securities from proceeds of the 2009 DEF Bonds (see Section F).

The Agency has adopted another bond resolution (the Homeownership Finance Bond Resolution) under which the Agency expects to finance single family mortgage loans through the acquisition of mortgage-backed securities. The Agency currently does not expect to issue additional bonds under the Bond Resolution.

If the number of loans allocated to a series of Bonds in the table is expressed in an increment of 0.5, the allocation reflects the fact that proceeds of Bonds of the series were used, with an equal amount of funds from another source (which may be another series of Bonds or a series of Single Family Mortgage Bonds) to purchase the mortgage loan. In such cases, while principal repayments and prepayments are allocated equally to each funding source, interest payments on the mortgage loan are not allocated pro rata.

All Loans are serviced by US Bank Home Mortgage.

If the number of loans allocated to a series of Bonds in the table is expressed in an increment of 0.5, the allocation reflects the fact that proceeds of Bonds of the series were used, with an equal amount of funds from another source (which may be another series of Bonds or a series of Single Family Mortgage Bonds) to purchase the mortgage loan. In such cases, while principal repayments and prepayments are allocated equally to each funding source, interest payments on the mortgage loan are not allocated pro rata.

(1) Included in "Foreclosures" are loans for which the sheriff's sale has been held and the redemption period (generally six months) has not yet elapsed in addition to those customarily included in delinquency statistics.

(2) 30-59 days not included in total.

See page H-2 for comparative delinquency and foreclosure statistics.

(1) This table compares 60+ day delinquency statistics. Thus, the percentage for the Residential Housing Finance Bond Resolution loan portfolio differs from that in the table on page H-1.

(2) Mortgage Bankers Association of America average of 60+ days delinquency and foreclosure statistics adjusted by the Agency to reflect the proportions of insurance types in the Residential Housing Finance Bond Resolution Ioan portfolio. *MHFA has not received all proceeds/cost of sale.

If the number of properties allocated to a series of Bonds in the table is expressed in an increment of 0.5, the allocation reflects the fact that proceeds of Bonds of the series were used, with an equal amount of funds from another source (which may be another series of Bonds or a series of Single Family Mortgage Bonds) to purchase the mortgage loan that financed the property. In such cases, while principal repayments and prepayments are allocated equally to each funding source, interest payments on the mortgage loan are not allocated pro rata.

(1) The Agency has received all proceeds - loans written off.

(2) Real Estate Owned is carried at the unpaid principal and interest amount as of the date title is transferred to the Agency plus improvements and maintenance costs less any insurance or sale proceeds received. The carrying value is reduced by any expected loss on disposition of the property. The Agency stops accruing interest on loans as of the date title to the underlying property is transferred to the Agency, because it is impossible to accurately predict the date of receipt and amount of final insurance proceeds. In some instances, a portion or all of the unrecorded interest income is paid by the insurer. An accounting gain for an individual loan results when the interest paid by the insurer exceeds the unreimbursed expenses of foreclosure.

If the number of properties allocated to a series of Bonds in the table is expressed in an increment of 0.5, the allocation reflects the fact that proceeds of Bonds of the series were used, with an equal amount of funds from another source (which may be another series of Bonds or a series of Single Family Mortgage Bonds) to purchase the mortgage loan that financed the property. In such cases, while principal repayments and prepayments are allocated equally to each funding source, interest payments on the mortgage loan are not allocated pro rata.

*The Agency applies these amounts from time to time to the redemption of outstanding bonds or, infrequently, in the acquisition of new mortgage loans. The amounts reflect curtailments and prepayments remaining after March 31, 2011. The redemption of Bonds pursuant to redemption notices that have been issued by the Trustee subsequent to March 31, 2011 but before the date of this disclosure report are listed, as a service to the reader, in the Bond Call History (Section M).

Note A: The amount shown under "Bond Calls/Recycled Prepayments through 3/31/2011 From Prepayments/REO & Curtailments" also includes application of prepayments relating to retired Bonds for other purposes, including withdrawals from the Bond Resolution, and the amount shown as "Remaining Curtailments and Prepayments/REO" for the retired series also includes some resolution excesses realting to retired Bonds.

If the number of loans allocated to a series of Bonds in the table is expressed in an increment of 0.5, the allocation reflects the fact that proceeds of Bonds of the series were used, with an equal amount of funds from another source (which may be another series of Bonds or a series of Single Family Mortgage Bonds) to purchase the mortgage loan. In such cases, while principal repayments and prepayments are allocated equally to each funding source, interest payments on the mortgage loan are not allocated pro rata.
