If the number of loans allocated to a series of Bonds in the table is expressed in an increment of 0.5, the allocation reflects the fact that proceeds of Bonds of the series were used, with an equal amount of funds from another source (which may be another series of Bonds or a series of Residential Housing Finance Bonds) to purchase the mortgage loan. In such cases, while principal repayments and prepayments are allocated equally to each funding source, interest payments on the mortgage loan are not allocated pro rata.

All Loans are serviced by US Bank Home Mortgage.

If the number of loans allocated to a series of Bonds in the table is expressed in an increment of 0.5, the allocation reflects the fact that proceeds of Bonds of the series were used, with an equal amount of funds from another source (which may be another series of Bonds or a series of Residential Housing Finance Bonds) to purchase the mortgage loan. In such cases, while principal repayments and prepayments are allocated equally to each funding source, interest payments on the mortgage loan are not allocated pro rata.

(1) Included in "Foreclosures" are loans for which the sheriff's sale has been held and the redemption period (generally six months) has not yet elapsed in addition to those customarily included in delinquency statistics.

(2) 30-59 days not included in total.

See page F-2 for comparative delinquency and foreclosure statistics.

- (1) This table compares 60+ day delinquency statistics. The delinquency rates do not include those delinquent loans referred to an attorney, where the first legal documents have been filed, or where any further foreclosure proceedings have occurred. Thus, the percentage for the Single Family Mortgage loan portfolio differs from that in the table on page F-1.
- (2) Mortgage Bankers Association of America average of 60+ days delinquency and foreclosure statistics adjusted by the Agency to reflect the proportions of insurance types in the Single Family Mortgage loan portfolio. The unadjusted 6/30/11 Mortgage Bankers Association of America average 60+ days delinquency rate is 1.94% Minnesota and 3.10% national. The unadjusted 6/30/11 Mortgage Bankers Association of America foreclosure rate is 1.76% Minnesota and 2.64% national. None of the delinquency and foreclosure rates presented are seasonally adjusted. Reprinted by permission of the Mortgage Bankers Association. For more information, contact the Mortgage Bankers Association, 1331 L Street NW, Washington D.C. 20005, (202) 557-2700 http://www.mortgagebankers.org
- (3) This table compares foreclosure statistics, where "foreclosures" include only those loans referred to an attorney and with the first legal documents filed, but not loans for which a foreclosure sale has been held. Thus, the percentage for the Single Family Mortgage loan portfolio is not directly comparable to the table on page F-1.

<sup>\*</sup>The Agency has not received all proceeds/cost of sale - property has been sold.

If the number of properties allocated to a series of Bonds in the table is expressed in an increment of 0.5, the allocation reflects the fact that proceeds of Bonds of the series were used, with an equal amount of funds from another source (which may be another series of Bonds or a series of Residential Housing Finance Bonds) to purchase the mortgage loan that financed the property. In such cases, while principal repayments and prepayments are allocated equally to each funding source, interest payments on the mortgage loan are not allocated pro rata.

<sup>\*</sup>The Agency has received all proceeds - loans written off.

If the number of properties allocated to a series of Bonds in the table is expressed in an increment of 0.5, the allocation reflect fact that proceeds of Bonds of the series were used, with an equal amount of funds from another source (which may be anoth series of Bonds or a series of Residential Housing Finance Bonds) to purchase the mortgage loan that financed the property. cases, while principal repayments and prepayments are allocated equally to each funding source, interest payments on the n loan are not allocated pro rata.

<sup>\*\*</sup>Real Estate Owned is carried at the unpaid principal and interest amount as of the date title is transferred to the Agency plus improvements and maintenance costs less any insurance or sale proceeds received. The carrying value is reduced by any expected loss on disposition of the property. The Agency stops accruing interest on loans as of the date title of the underlying property is transferred to the Agency, because it is impossible to accurately predict the date of receipt and amount of final insurance proceeds. In some instances, a portion or all of the unrecorded interest income is paid by the insurer. An accounting gain for an individual loan results when the interest paid by the insurer exceeds the unreimbursed expenses of foreclosure.

Note A: The amount shown under "Bond Calls/Recycled Prepayments through 9/30/2011 From Prepayments/REO & Curtailments" also includes application of prepayments relating to retired Bonds for other purposes, including permitted withdrawals from the Bond Resolution, and the amount shown as "Remaining Curtailments and Prepayments/REO" for the retired series also includes some resolution excesses relating to retired Bonds.

<sup>\*</sup>The Agency applies these amounts from time to time to the redemption of outstanding bonds or for other purposes authorized by the Bond Resolution. The amounts reflect curtailments and prepayments and revenue from REOs remaining after September 30, 2011. The redemption of Bonds pursuant to redemption notices that have been issued by the Trustee subsequent to September 30, 2011 but before the date of this disclosure report are listed, as a service to the reader, in the Bond Call History (Section M).

\*The 2000 Series F bonds accrue interest at a floating rate (the "Variable Interest Rate"), recalculated for each calendar month (a "Variable Interest Accrual Period"). The Variable Interest Rate for any Variable Interest Accrual Period means the sum of: (i) one month LIBOR plus (ii) three tenths of one percent (0.30%) per annum; provided that the Variable Interest Rate for any Variable Interest Accrual Period may not be more than eleven percent (11.00%) per annum. Calculations of interest on the 2000 Series F bonds are based on a 360-day year for the actual number of days elapsed.

The interest rate on September 30, 2011 was 0.49%.

Note A: Priorities cited are for calls made under Special Redemption Provisions from excess revenues (including prepayments) of 2001 Series A and 2001 Series B representing "tax restricted" prepayments. Priorities differ for calls made under Optional Redemption Provisions or from unused acquisition funds or from excess revenues (including prepayments) other than "tax restricted" prepayments.

The Agency has discretion to select the bonds to be redeemed if bonds of the same series but different maturities or bonds of different series have the same call priority, or may select other bonds of different series for redemption to the extent permitted by the series resolution. See "Section O – Summary of Special Redemption Provisions".

Optional Redemption: In whole or in part on any date during each of the following periods at a redemption price equal to the following percentage of the principal amount plus accrued interest: July 1, 2010 and thereafter - 100%.

- (a): Sinking fund redemptions begin July 1, 2013.
- (b): Sinking fund redemptions begin January 1, 2018.

<sup>\*</sup> Payment at maturity or upon sinking fund redemption insured by an insurance policy issued by MBIA Insurance Corporation.
