FOR THE YEAR ENDED JUNE 30, 2011

Description of the Office of the State Auditor

The mission of the Office of the State Auditor is to oversee local government finances for Minnesota taxpayers by helping to ensure financial integrity and accountability in local governmental financial activities.

Through financial, compliance, and special audits, the State Auditor oversees and ensures that local government funds are used for the purposes intended by law and that local governments hold themselves to the highest standards of financial accountability.

The State Auditor performs approximately 160 financial and compliance audits per year and has oversight responsibilities for over 3,300 local units of government throughout the state. The office currently maintains five divisions:

Audit Practice - conducts financial and legal compliance audits of local governments;

Government Information - collects and analyzes financial information for cities, towns, counties, and special districts;

Legal/Special Investigations - provides legal analysis and counsel to the Office and responds to outside inquiries about Minnesota local government law; as well as investigates allegations of misfeasance, malfeasance, and nonfeasance in local government;

Pension - monitors investment, financial, and actuarial reporting for approximately 730 public pension funds; and

Tax Increment Financing - promotes compliance and accountability in local governments' use of tax increment financing through financial and compliance audits.

The State Auditor serves on the State Executive Council, State Board of Investment, Land Exchange Board, Public Employees Retirement Association Board, Minnesota Housing Finance Agency, and the Rural Finance Authority Board.

INDEPENDENT AUDITOR'S REPORT

Board of Commissioners
Southeastern Minnesota Emergency Medical Services
Joint Powers Board

We have audited the accompanying financial statements of the governmental activities and the General Fund of the Southeastern Minnesota Emergency Medical Services Joint Powers Board as of and for the year ended June 30, 2011, which collectively comprise the Board's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Southeastern Minnesota Emergency Medical Services Joint Powers Board's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the General Fund of the Southeastern Minnesota Emergency Medical Services Joint Powers Board as of June 30, 2011, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who

considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. In accordance with auditing standards generally accepted in the United States of America, we have applied certain limited procedures to the Management's Discussion and Analysis, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This page was left blank intentionally.

**SOUTHEASTERN MINNESOTA EMERGENCY
MEDICAL SERVICES JOINT POWERS BOARD
ROCHESTER, MINNESOTA**

**MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2011
(Unaudited)**

The Southeastern Minnesota Emergency Medical Services Joint Powers Board's Management's Discussion and Analysis (MD&A) provides an overview of the Board's financial activities for the fiscal year ended June 30, 2011. Since this information is designed to focus on the current year's activities, resulting changes, and currently known facts, it should be read in conjunction with the Board's financial statements.

FINANCIAL HIGHLIGHTS

- Total net assets are \$404,081, of which \$56,089 is invested in capital assets.
- The Board's net assets increased by \$152,320 for the year ended June 30, 2011.

OVERVIEW OF THE FINANCIAL STATEMENTS

This MD&A is intended to serve as an introduction to the basic financial statements. The Board's basic financial statements consist of two statements which combine government-wide financial statements and fund financial statements and notes to the financial statements. The MD&A (this section) is required to accompany the basic financial statements and, therefore, is included as required supplementary information.

There are two financial statements. The first column of each statement presents governmental fund data, which focus on how money flows in and out and the balances left at year-end available for spending. These columns are reported using an accounting method called modified accrual accounting. This method measures cash and all other financial assets that can be readily converted to cash. This column provides a detailed short-term view of the Board's general government operations and the basic services it provides. Governmental fund information shows whether there are more or fewer financial resources that can be spent in the near future to finance the Board's programs. We reconcile the relationship (or differences) between governmental fund and governmental activities (reported in the third column) in the center column of each statement.

The third column in each statement presents the Statement of Net Assets and the Statement of Activities, which provide information about the activities of the Board as a whole and present a longer-term view of the Board's finances. These columns tell how these services were financed in the short term as well as what remains for future spending.

THE BOARD AS A WHOLE

The Board's combined net assets increased from \$251,761 to \$404,081. Our analysis below focuses on the net assets (Table 1) and changes in net assets (Table 2) of the Board's governmental activities.

Table 1--Net Assets

	<u>2011</u>	<u>2010</u>	<u>Percent (%) Change</u>
Assets			
Current and other assets	\$ 355,590	\$ 248,478	43.1
Capital assets	<u>56,089</u>	<u>11,670</u>	380.6
Total Assets	<u>\$ 411,679</u>	<u>\$ 260,148</u>	58.2
Liabilities			
Current and other liabilities	<u>\$ 7,598</u>	<u>\$ 8,387</u>	(9.4)
Net Assets			
Invested in capital assets	\$ 56,089	\$ 11,670	380.6
Unrestricted	<u>347,992</u>	<u>240,091</u>	44.9
Total Net Assets	<u><u>\$ 404,081</u></u>	<u><u>\$ 251,761</u></u>	60.5

Net assets of the Board increased by 60.5 percent. Unrestricted net assets--the part of net assets that can be used to finance day-to-day operations without constraints established by enabling legislation or other legal requirements--changed from a \$240,091 surplus at June 30, 2010, to \$347,992 at the end of this year.

Table 2--Changes in Net Assets

Total Expenses	<u>\$ 355,169</u>	<u>\$ 271,581</u>	30.8
Increase (Decrease) in Net Assets	<u>\$ 152,320</u>	<u>\$ 110,619</u>	37.7

The Board's General Fund

As the Board completed the year, its governmental fund (as presented in the first column of the statements) reported an unassigned fund balance of \$340,958, which is an increase of 45.9 percent from last year's undesignated fund balance of \$233,625. This increase is due to increases in expenditures being offset by increases in grant revenues. Total revenues increased by 19.3 percent during the year ended June 30, 2011; expenditures increased by 27.2 percent. The Board has adopted grant budgets for the various grant periods. These budgets may be amended or modified as additional grants are received. A comparison of budgeted revenues and expenditures to actual has not been presented in the financial statements because the budgets are not all adopted on an annual fiscal-period basis.

CAPITAL ASSETS

As of June 30, 2011, the Board had \$56,089 invested in capital assets. (See Table 3 below.) This amount represents a net increase (including additions and deductions) of \$44,419, or 380.6 percent, from last year.

Table 3--Capital Assets at Year-End

	<u>2011</u>	<u>2010</u>	<u>Percent (%) Change</u>
Equipment	\$ 75,702	\$ 26,179	189.2
Less: accumulated depreciation	<u>(19,613)</u>	<u>(14,509)</u>	(35.2)
Net Capital Assets	<u>\$ 56,089</u>	<u>\$ 11,670</u>	380.6

This year's changes included \$14,301 of depreciation expense.

ECONOMIC FACTORS AND NEXT YEAR'S GRANT BUDGETS AND RATES

With the financial uncertainty of the economy including a significant state deficit, the Joint Powers Board considered many factors when planning for the fiscal year ending June 30, 2011. Some of the decisions made in fiscal year 2009 regarding a reduction in spending while increasing revenue-producing activities were continued in fiscal year 2011.

- Due to the state deficit, the Minnesota EMS Regulatory Board reduced funding through the EMS Support Act to regional EMS programs by 6.5 percent for fiscal year 2010 and fiscal year 2011 (*total \$9,886*). While additional reductions of the EMS Support Act were discussed for fiscal year 2011, they were not implemented.
- As of July 1, 2009, failure to wear a seat belt became a primary offense in Minnesota for everyone in the car. With the change in statute significantly increasing the appropriation of Seat Belt fines to regional EMS programs (*\$180,353 during fiscal year 2010*), the Board decided to increase the original Seat Belt budget for fiscal year 2011 by \$100,000. The Pre-hospital Advisory Committee and the ER Nurses Committee prepared a proposal regarding how the additional \$100,000 would be used, and it was presented and approved at the September 16, 2010, Joint Powers Board meeting.
- A federal grant appropriated to the Minnesota Department of Health for Healthcare Systems Preparedness Planning (HSPP) was used during fiscal year 2010 to purchase 21 800 Mhz portable radios for EMS. During fiscal year 2011, the Minnesota Department of Health transferred ownership of the radios to the Southeastern Minnesota EMS. During fiscal year 2011, additional HSPP grant funds were used to purchase an HP Color Laser Jet and Panasonic Toughbook for the Southeastern Minnesota EMS. During fiscal year 2011, a federal Homeland Security grant was issued to the Metro Regional EMS. The money was used towards the purchase of Ambulance Strike Team bags to be distributed throughout the state. The Southeastern Minnesota EMS received 12 of these bags. Capital contributions increased the Southeastern Minnesota EMS's capital assets significantly during fiscal year 2011.
- The Board reviews monthly expenditure reports to ensure programs and administrative expenses are within the operating budget. During fiscal year 2011, the Board:
 - continued the salary and hiring freeze implemented in fiscal year 2009;
 - continued increasing user and registration fees as the consumer market would accept;
 - continued the reduction of advisory committee meetings to quarterly and staff travel outside of the region for meetings and conferences;

- continued the additional meetings of the Executive Committee to review the finances and make recommendations to the full Board; and
- increased the budget for EMS funds (*money raised by regional program activities*) by 27 percent over fiscal year 2009 for fiscal years 2010 and 2011.

The Board acknowledges that there has been minimum economic improvement on a national and state level during 2011. Many of the measures approved for fiscal year 2010 were continued in 2011.

Beginning July 1, 2011, the Minnesota EMS Regulatory Board changed the procedure for Regional EMS Programs to receive their monthly Seat Belt allocations. Regional EMS Programs are notified each month by the Minnesota EMS Regulatory Board on total fines collected and what would be their portion of the amount. Regional EMS Programs must expend the funds on budgeted items then submit an expenditure report to the state before any funds are actually issued. While the impact of this new procedure is not fully understood, it will prevent Regional EMS Programs from investing the Seat Belt funds and earning interest as previously.

CONTACTING THE BOARD'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, customers, investors, and creditors with a general overview of the Board's finances and to show the Board's accountability for the money it receives. If you have questions about this report, or need additional financial information, contact the Southeastern Minnesota Emergency Medical Services Joint Powers Board Director, Linda Horth, 1130½ - 7th Street Northwest, Suite 201, Rochester, Minnesota 55901.

NOTES TO THE FINANCIAL STATEMENTS
AS OF AND FOR THE YEAR ENDED JUNE 30, 2011

1. Summary of Significant Accounting Policies

The Southeastern Minnesota Emergency Medical Services Joint Powers Board's financial statements are prepared in accordance with generally accepted accounting principles (GAAP) for the year ended June 30, 2011. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (statements and interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board issued through November 30, 1989, (when applicable) that do not conflict with or contradict GASB pronouncements.

A. Financial Reporting Entity

The Southeastern Minnesota Emergency Medical Services (the Board) was established February 1, 1983, by Minn. Stat. § 471.59. It was established under a joint powers agreement between 11 counties in Southeastern Minnesota to provide training primarily for policemen, firemen, and ambulance personnel in emergency medical procedures and also to assist in purchasing medical supplies. The Board has contracted with Olmsted County to act as its fiscal agent to receive grant funds from the Minnesota EMS Regulatory Board. The Board is governed by an 11-member Board of Commissioners. Each member county appoints one of its County Commissioners to the EMS Board. The Board is organized with a chair and vice chair elected at the annual meeting in February of each year.

B. Basic Financial Statements

The financial statements combine fund level financial statements and government-wide financial statements (the governmental activities column). These statements include the financial activities of the overall Joint Powers Board.

**SOUTHEASTERN MINNESOTA EMERGENCY
MEDICAL SERVICES JOINT POWERS BOARD
ROCHESTER, MINNESOTA**

1. Summary of Significant Accounting Policies

B. Basic Financial Statements (Continued)

The government-wide columns are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Board's net assets are reported in three parts: (1) invested in capital assets, net of related debt; (2) restricted net assets; and (3) unrestricted net assets. The Board first utilizes restricted resources to finance qualifying activities.

C. Measurement Focus and Basis of Accounting

The governmental activities columns are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund columns (General Fund) are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. The Board considers all revenues as available if collected within 60 days after the end of the current period. Interest is considered susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for compensated absences and claims and judgments, which are recognized as expenditures to the extent that they have matured. When both restricted and unrestricted resources are available for use, it is the Board's policy to use restricted resources first and then unrestricted resources as needed.

D. Assets, Liabilities, and Net Assets or Equity

1. Cash and Pooled Investments

The Board's cash and pooled investments include cash on hand, demand deposits, and cash on deposit with Olmsted County. Cash on deposit with Olmsted County can be withdrawn at any time without prior notice or penalty. The cash on deposit consists of a Board-controlled checking account.

2. Receivables

All receivables are shown net of an allowance for uncollectibles.

**SOUTHEASTERN MINNESOTA EMERGENCY
MEDICAL SERVICES JOINT POWERS BOARD
ROCHESTER, MINNESOTA**

1. Summary of Significant Accounting Policies

D. Assets, Liabilities, and Net Assets or Equity (Continued)

3. Capital Assets

Capital assets are defined by the Board as assets with an initial, individual cost of more than \$500 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Equipment of the Board is depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Office furnishings	5 - 15
Computer equipment	3 - 7
Medical equipment	3 - 5

4. Fund Equity

In the fund financial statements, fund balance assigned represents amounts the Board intends to use for a specific purpose (Seat Belt) that have not been restricted to that purpose by others or committed by formal Board action to that purpose.

5. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**SOUTHEASTERN MINNESOTA EMERGENCY
MEDICAL SERVICES JOINT POWERS BOARD
ROCHESTER, MINNESOTA**

2. Detailed Notes

A. Assets

1. Deposits

As of June 30, 2011, the Board had \$327,794 on deposit with Olmsted County and one checking account of \$9,021. The County is authorized by Minn. Stat. §§ 118A.02 and 118A.04 to deposit its cash in financial institutions. Minnesota statutes require that all County deposits be covered by insurance, surety bond, or collateral. The Board's checking account was fully insured as of June 30, 2011. The Board has established a \$10 change fund.

2. Capital Assets

Capital asset activity for the year ended June 30, 2011, was as follows:

	Beginning Balance	Increase	Decrease	Ending Balance
Capital assets depreciated				
Furniture and equipment	\$ 26,179	\$ 58,978	\$ 9,455	\$ 75,702
Less: accumulated depreciation for				
Furniture and equipment	(14,509)	(14,301)	(9,197)	(19,613)
Total Capital Assets Depreciated, Net	<u>\$ 11,670</u>	<u>\$ 44,677</u>	<u>\$ 258</u>	<u>\$ 56,089</u>

Depreciation expense of \$14,301 was charged to the health function.

A federal grant appropriated to the Minnesota Department of Health for Healthcare Systems Preparedness Planning (HSPP) was used during fiscal year 2010 to purchase 21 800 Mhz portable radios for the EMS. During fiscal year 2011, the Minnesota Department of Health transferred ownership of the radios to the Board. During fiscal year 2011, additional HSPP grant funds were used to purchase an HP Color Laser Jet and Panasonic Toughbook for the EMS. During fiscal year 2011, a federal Homeland Security grant was issued to the Metro Regional EMS. The money was used towards the purchase of Ambulance Strike Team bags to be distributed throughout the state. The Board received 12 of these bags. These federal grant purchases increased the Board's capital assets by \$51,000 during fiscal year 2011, and are reported as capital contributions in the financial statements.

2. Detailed Notes (Continued)

B. Liabilities

1. Leases

Operating Leases

The SEMN EMS leases office space under an operating lease. Total costs for the lease were \$14,400 for the year ended June 30, 2011. The future minimum lease payments for the lease are as follows:

<u>Year Ending June 30</u>	<u>Amount</u>
2011	\$ 14,400
2012	14,400

3. Employee Retirement Systems and Pension Plans

A. Plan Description

All full-time and certain part-time employees of the Board are covered by defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA administers the General Employees Retirement Fund, which is a cost-sharing, multiple-employer retirement plan. The plan is established and administered in accordance with Minn. Stat. chs. 353 and 356.

General Employees Retirement Fund members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security, and Basic Plan members are not. All new members must participate in the Coordinated Plan.

PERA provides retirement benefits as well as disability benefits to members and benefits to survivors upon death of eligible members. Benefits are established by state statute and vest after three years of credited service (five years for those first eligible for membership after June 30, 2010). Defined retirement benefits are based on a member's average yearly salary for the five highest-paid consecutive years of allowable service, age, and years of credit at termination of service.

MEDICAL SERVICES JOINT POWERS BOARD
ROCHESTER, MINNESOTA**

3. Employee Retirement Systems and Pension Plans

A. Plan Description (Continued)

Two methods are used to compute benefits for Coordinated and Basic Plan members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2 percent of average salary for each of the first ten years of service and 2.7 percent for each year thereafter. For a Coordinated Plan member, the annuity accrual rate is 1.2 percent of average salary for each of the first ten years and 1.7 percent for each successive year. Under Method 2, the annuity accrual rate is 2.7 percent of average salary for Basic Plan members and 1.7 percent for Coordinated Plan members for each year of service.

For General Employees Retirement Fund members whose annuity is calculated using Method 1, a full annuity is available when age plus years of service equal 90. Normal retirement age is 65 for members hired prior to July 1, 1989, and is the age for unreduced Social Security benefits capped at age 66 for Coordinated Plan members hired on or after July 1, 1989. A reduced retirement annuity is also available to eligible members seeking early retirement.

The benefit provisions stated in the previous paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits but are not yet receiving them are bound by the provisions in effect at the time they last terminated public service.

PERA issues a publicly available financial report that includes financial statements and required supplementary information for the General Employees Retirement Fund. That report may be obtained on the internet at www.mnpera.org; by writing to PERA at 60 Empire Drive, Suite 200, Saint Paul, Minnesota 55103-2088; or by calling 651-296-7460 or 1-800-652-9026.

3. Employee Retirement Systems and Pension Plans (Continued)

B. Funding Policy

Pension benefits are funded from member and employer contributions and income from investment of fund assets. Rates for employer and employee contributions are set by Minn. Stat. ch. 353. These statutes are established and amended by the State Legislature. The Board makes annual contributions to the pension plans equal to the amount required by state statutes. General Employees Retirement Fund Basic Plan members and Coordinated Plan members were required to contribute 9.1 and 6.0 percent, respectively, of their annual covered salary.

The Board is required to contribute the following percentages of annual covered payroll in 2011:

General Employees Retirement Fund	
Basic Plan members	11.78%
Coordinated Plan members	7.00

The Board's contributions for the years ending June 30, 2011, 2010, and 2009, for the General Employees Retirement Fund were:

	<u>2011</u>	<u>2010</u>	<u>2009</u>
General Employees Retirement Fund	\$ 5,517	\$ 5,644	\$ 5,149

These contributions are equal to the contractually required contribution rates for each year as set by statute.

4. Risk Management

The Board is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; injuries to employees; or natural disasters. The Board has entered into a joint powers agreement with Minnesota counties to form the Minnesota Counties Intergovernmental Trust (MCIT) to protect against liabilities from workers' compensation and property and casualty. There were no significant reductions in insurance from the prior year or settlements in excess of insurance coverage for the past three fiscal years.

**SOUTHEASTERN MINNESOTA EMERGENCY
MEDICAL SERVICES JOINT POWERS BOARD
ROCHESTER, MINNESOTA**

4. Risk Management (Continued)

The Workers' Compensation Division of MCIT is self-sustaining based on the contributions charged, so that total contributions plus compounded earnings on these contributions will equal the amount needed to satisfy claims liabilities and other expenses. MCIT participates in the Workers' Compensation Reinsurance Association with coverage at \$450,000 in 2010 and 2011. Should the MCIT Workers' Compensation Division liabilities exceed assets, MCIT may assess the Board in a method and amount to be determined by MCIT.

The Property and Casualty Division of MCIT is self-sustaining, and the Board pays an annual premium to cover current and future losses. The MCIT carries reinsurance for its property lines to protect against catastrophic losses. Should the MCIT Property and Casualty Division liabilities exceed assets, MCIT may assess the Board in a method and amount to be determined by MCIT.

5. Summary of Significant Contingencies and Other Items

Contingent Liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of the expenditures that may be disallowed by the grantor cannot be determined at this time, although the Board expects such amounts, if any, to be immaterial.

SCHEDULE OF FINDINGS AND RECOMMENDATIONS
FOR THE YEAR ENDED JUNE 30, 2011

INTERNAL CONTROL

PREVIOUSLY REPORTED ITEMS NOT RESOLVED

97-1 Segregation of Duties

In order to ensure proper control of the Southeastern Minnesota Emergency Medical Services Joint Powers Board's assets and financial reporting of the Board, the services of more than one person are required to perform accounting-related activities, including grant reporting and the receipting of collections. Without an adequate number of people to perform accounting-related activities, there is a general absence of internal control with respect to segregation of duties.

Because of the Board's limited staff size and structure, the most effective control lies in the Board's knowledge and constant awareness that the concentration of duties and responsibilities in a limited number of individuals prevents the proper segregation of accounting and reporting functions. Therefore, we recommend the Board continue to approve all bills, review reports submitted to granting agencies, and establish procedures for receipting collections.

Client's Response:

This has been an area that has been identified since the Joint Powers Board was established. As a Board we will continue to operate with the existing staff and monitor their action as recommended in the Audit report.

09-1 Preparation of Financial Statements

The Southeastern Minnesota Emergency Medical Services Joint Powers Board (SEMN EMS) is required to prepare financial statements in accordance with generally accepted accounting principles (GAAP). The preparation of the financial statements is the responsibility of the Board's management. Financial statement preparation in accordance with GAAP requires internal controls over both: (1) recording, processing, and summarizing accounting data (maintaining internal books and records); and (2) preparing and reporting appropriate government-wide and fund financial statements, including the related notes to the financial statements.

The Board's accounting system permits the modified accrual basis of accounting and a separate ledger to allow for the preparation of annual financial statements in accordance with GAAP. The accounting system generates some summary information with the level of detail needed for the preparation of the annual financial statements. However, some accounting services were provided by the auditors in order to prepare complete financial statements.

As is the case with many small and medium-sized entities, the SEMN EMS has relied on its independent external auditors to assist in the preparation of the basic financial statements, including notes to the financial statements, as part of its external financial reporting process. Accordingly, the Board's ability to prepare financial statements in accordance with GAAP is based, at least in part, on its reliance on its external auditors, who cannot by definition be considered part of the government's internal control. This condition was caused by the Board's decision that it is more cost effective to have its auditors prepare its annual basic financial statements than to incur the time and expense of obtaining the necessary training and expertise required to prepare the financial statements internally.

We recommend the Board work toward internally preparing complete annual financial statements in accordance with GAAP.

Client's Response:

The Board has been committed to improving our financial documentation. We will work to preparing the annual financial statements.

PREVIOUSLY REPORTED ITEM RESOLVED

Audit Adjustments (09-2)

During our audit, we proposed material adjustments that resulted in significant changes to the Southeast Minnesota Emergency Medical Services Joint Powers Board's financial statements.

Resolution

No material audit adjustments were proposed for the 2011 audit.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND MINNESOTA LEGAL COMPLIANCE

Board of Commissioners
Southeastern Minnesota Emergency Medical Services
Joint Powers Board

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements of the governmental activities and the General Fund of the Southeastern Minnesota Emergency Medical Services Joint Powers Board (the Board) as of and for the year ended June 30, 2011, in accordance with auditing standards generally accepted in the United States of America, we considered the Board's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Board's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in the internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified deficiencies in

internal control over financial reporting that we consider to be significant deficiencies described in the accompanying Schedule of Findings and Recommendations as items 97-1 and 09-1. A significant deficiency is a deficiency, or combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Minnesota Legal Compliance

We have audited the financial statements of the governmental activities and the General Fund of the Board as of and for the year ended June 30, 2011, which collectively comprise the Board's basic financial statements. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the provisions of the *Minnesota Legal Compliance Audit Guide for Political Subdivisions*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65. Accordingly, the audit included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

The *Minnesota Legal Compliance Audit Guide for Political Subdivisions* contains six categories of compliance to be tested: contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, and miscellaneous provisions. Our study included all of the listed categories, except that we did not test for compliance in public indebtedness because the Board has no debt.

The results of our tests indicate that for the items tested, the SEMN EMS complied with the material terms and conditions of applicable legal provisions.

The Board's written responses to the internal control findings identified in our audit have been included in the Schedule of Findings and Recommendations. We did not audit the Board's responses and, accordingly, we express no opinion on them.

This communication is intended solely for the information and use of the Board of Commissioners, management, and others within the Southeastern Minnesota Emergency Medical Services Joint Powers Board and is not intended to be, and should not be, used by anyone other than those specified parties.
