

Comprehensive Annual Financial Report

For the Fiscal Year Ended June 30, 2010

Minnesota State Retirement System

Pension Trust Funds of the State of Minnesota

Rebuilding our Foundation

About our cover...

It is with great respect that we dedicate this 2010 CAFR in honor of those who lost their lives, and those first responders who saved the survivors when the I-35W Mississippi River Bridge collapsed on August 1, 2007.

We also pay tribute to those who rebuilt the new bridge, the I-35W St. Anthony Falls Bridge (shown on the cover).

It is the spirit of rebuilding the bridge that we pay tribute to as we work to rebuild the foundation of the retirement plans we administer for our members.

Board Chairperson's Report

Minnesota State Retirement System
MNDCP Minnesota Deferred Compensation Plan
HCSP Health Care Savings Plan

January 3, 2011

Dear Members, Benefit Recipients, and Employers:

Fiscal year 2010 was a critical year for the Minnesota State Retirement System in many aspects. The good news is that we had a positive investment return of 15.2 percent for the year for the Combined Funds, that are comprised, in part, with MSRS defined benefit plan assets. This meant an increase in total net assets of \$1.4 billion or 12 percent.

Strong market returns followed two years of severe market downturns which shook the strong financial footing MSRS has enjoyed for years.

To once again place MSRS on track to reach full funding, the MSRS Board of Directors proposed legislation to adjust benefits. We believe the impact of this legislation, along with strong investment returns, will lead our retirement plans on the path to reach full funding.

The adopted legislation lowers the plans liabilities by:

- Reducing the growth in post-retirement increases;
- Slowing the increase of the benefits for state employees who have left state service but have not started to collect monthly benefits; and
- Lowering interest rate paid to former employees requesting refunds.

The Board feels that everyone must share in the effort to rebuild our retirement fund. And, it is making a difference. With the strong investment returns, along with the reduction in benefits, our funding ratio for the General Plan increased from 85.90 percent to 87.30 percent.

The Board fully appreciates the impact of the legislation. However, as fiduciaries of the plan, the Board's responsibility is to ensure the plan's financial stability. Relying on investment returns alone will not bring the plans back to full funding. For the sake of stability and assurance that MSRS retirement funds would be available for both our current and future retirees, measures to manage the increasing pension liability had to be taken.

Employees and employers have also played a key role in stabilizing the plans. Four consecutive years of phased-in contribution rate increases are now complete. The Board believes that employees could not afford additional increases as salaries have been frozen and significant salary increases are unlikely in the near future. Increasing employer contributions would have meant significant layoffs as the state faces budget deficits projected to be \$5 to \$6 billion in the 2012-13 biennium.

While we are making progress, the Board will continue to closely monitor the financial status of the plan. We may need to do more work if the economic recovery takes longer than expected.

Our goal is to have a retirement plan that is sustainable and financially sound to be able to pay benefits for current recipients, active employees and future employees. We will continue to make informed, proactive decisions to keep your pension secure and sustainable.

Your continued support of the Board and staff is truly appreciated as we move through these troubling economic times.

Sincerely,

Mary Benner, Chair
Board of Directors

Letter of Transmittal

January 3, 2011

Board of Directors
Minnesota State Retirement System
60 Empire Drive, Suite 300
St. Paul, MN 55103-3000

Dear Directors:

We are pleased to present this Comprehensive Annual Financial Report (CAFR) for the Minnesota State Retirement System (MSRS) for the fiscal year ended June 30, 2010, our 81st year of operation. Throughout this report, you will find affirmations of our efforts to fulfill our mission to administer secure retirement plans, assure timely benefit payments, be proactive in public pension policies, and provide exemplary customer service. We do this by carefully monitoring funding progress and evaluating our operations to ensure they are carried out effectively and in compliance with *Minnesota Statutes*.

This CAFR is designed to meet the reporting requirements of *Minnesota Statutes* 356.20. The information contained in this report is accurate in all material respects and is intended to fairly present MSRS' financial position and results of operations for the fiscal year ended June 30, 2010. MSRS management takes full responsibility for the content of this report and ensuring that sufficient internal controls exist to provide reasonable assurance that the information in the financial statements, supporting schedules, and statistical tables is reliable.

Readers of this transmittal letter are encouraged to refer to *Management's Discussion and Analysis* in the *Financial Section* of this CAFR for financial highlights and an overview of MSRS' financial statements for fiscal year 2010.

MSRS' financial activities are also reflected in pension trust fund financial statements included in the *Fiduciary Funds* section of the *State of Minnesota's Comprehensive Annual Financial Report*.

About MSRS Plans

MSRS administers six defined benefit and four defined contribution plans, which are identified below. The net assets of these plans totaled \$13.04 billion as of June 30, 2010.

Defined Benefit Plans

- State Employees Retirement Fund, which includes General Plan employees and three special groups: Minnesota Department of Transportation pilots, deputy state fire marshals, and Military Affairs personnel
- State Patrol Retirement Fund
- Correctional Employees Retirement Fund
- Judges Retirement Fund
- Legislators Retirement Fund
- Elective State Officers Retirement Fund

Defined Contribution Plans

- Minnesota Deferred Compensation Plan (MNDCP)
- Unclassified Employees Retirement Fund
- Health Care Savings Plan
- Supplemental Retirement Plan for Hennepin County

For the defined benefit plans and the Unclassified Employees Retirement Fund, MSRS serves approximately 55,350 active employees from over 30 employer units, 31,200 benefit recipients, and 25,700 members who are no longer contributing, but are eligible for either future monthly benefits or a lump-sum distribution. Net assets for these plans were slightly less than \$9.1 billion at June 30, 2010.

MSRS also serves over 80,000 participants in the MNDCP with net assets totaling \$3.5 billion at June 30, 2010. Over 67,000 members participate in the Health Care Savings Plan with net assets at fiscal year end exceeding \$321 million. Nearly 2,000 members participate in the Supplemental Retirement Plan for Hennepin County with net assets at June 30, 2010, totaling nearly \$110 million.

Major Initiatives

Our primary focus during fiscal year 2010 was the development of pension reform legislation that modified benefits for members of MSRS' defined benefits plans. After two years of consecutive market declines that impaired the funding status of these plans, the MSRS Board of Directors decided that retirees, active employees, and deferred members (employees who have terminated employment, but have not yet started to collect a monthly retirement benefit) will share the responsibility of keeping MSRS' defined benefit retirement plans sustainable. Employees and employers have seen increased contributions over the last four years. The Board of Directors recommended several adjustments, noted below, in the 2010 legislative session primarily aimed at lowering current and future liabilities and providing stability to the MSRS defined benefit retirement plans to ensure funds will be available to pay future benefits:

- Lower future post-retirement benefit increases effective January 1, 2011;
- Reinstatement of the six-month waiting period for a retiree's initial post-retirement benefit increase;
- Reduction in the interest rate paid on refunds;
- Reduction in the benefit increases for deferred members;
- Elimination of the interest on suspended benefits paid to re-employed retirees;
- Increase the vesting period for future hires;
- Increase the early retirement penalty for future hires that are members of the Correctional Employees or State Patrol Retirement Plans;
- Lower the retirement formula for future members of the Correctional Employees Retirement Plan; and
- Increase employee and employer contribution rates for members of the State Patrol Retirement Plan.

Additional details about these changes in plan provisions are reflected in this report and summarized in the *Introductory* and *Actuarial Sections*. The 2010 Legislature passed this legislation, the Omnibus Pension Bill, by overwhelming margins and Governor Tim Pawlenty signed the bill on May 15, 2010. Coupled with changes in actuarial assumptions, these newly enacted provisions are estimated to decrease the unfunded accrued liabilities for the defined benefit plans by nearly \$800 million.

Days after the Governor signed the Omnibus Pension Bill, a class-action lawsuit was filed to stop the reduction of the post-retirement benefit increases. At this time, the case is being litigated and we are not at liberty to discuss the legal aspects of the case.

Early in fiscal year 2010, we successfully completed our transition to a new record keeper, ING, for all of our defined contribution plans. By July 1, 2009, we transferred over 120,000 members' accounts with assets totaling \$3.7 billion. All defined contribution members are now enjoying the benefits of daily valued investments, online transaction capability, enhanced web tools, and lower administrative fees.

In February, 2010, MNDCP participants also received the benefit of two optional services to assist them in making informed investment decisions. Many participants selected the *Personal Online Advisor*, a free web-based service powered by Financial Engines[®] that provides personalized retirement forecasts, risk assessments, savings and investment fund recommendations. Other participants opted for the *Professional Account Manager* program, which provides them with the services of a professional investment advisor who monitors and manages their investment portfolio on their behalf for an asset-based fee. MNDCP participants also enjoyed a six-month fee holiday that took effect January 1, 2010 through June 30, 2010.

With regard to member service initiatives, we began revision of all member handbooks, especially in light of recent changes in plan provisions. Handbooks for the State Employees General Plan and the Unclassified Employees Retirement Plan were rewritten and updated with a new look. The handbooks will be available soon on the MSRS website; hard copies will be sent to members upon request. We also recently relocated our Detroit Lakes office to service our members better and to take advantage of lower office space rental fees.

During fiscal year 2010 we launched a multi-phase project to redesign and rebuild our network infrastructure with enhanced security controls to protect our data and computer systems. The first project phase completed in January, 2010, involved development of detailed design schematics for the new secure network architecture. The second project phase focused on the acquisition of computer hardware and related support services, and configuring a pilot solution which we plan to migrate into production in March, 2011. In the third and final project phase, we will engage an information technology consulting firm to perform an independent verification that the newly implemented network infrastructure meets the design criteria and enhanced security controls are working effectively. Future plans in 2011 include initiating projects to re-engineer or streamline major business processes and exploring options to migrate legacy applications to other computer platforms.

Letter of Transmittal

Financial Information

Accounting System and Reports

MSRS prepares its financial statements in accordance with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board (GASB). Transactions are reported on the accrual basis of accounting. Contributions from employers and members are recognized as revenue when earned. Expenses are recorded when corresponding liabilities are incurred, regardless of when payment is made. Most financial transactions are processed through the Minnesota Accounting and Procurement System under the oversight of the department of Minnesota Management and Budget.

Independent Audit

The Office of the Legislative Auditor, a professional, nonpartisan office in the legislative branch of Minnesota state government, audited the financial statements and related note disclosures contained in this report, and reviewed the adequacy of our internal controls over financial reporting and compliance with certain legal provisions. The Legislative Auditor’s opinion letter is presented in the *Financial Section* of this CAFR.

Financial Summary

The following schedule is a comparative summary of the additions and deductions for MSRS’ defined benefit and defined contribution plans for the fiscal years ended June 30, 2009 and 2010. Additions represent employee and employer contributions and net investment earnings. Deductions include annuity payments, health care reimbursements, ongoing deferred compensation withdrawals, refunds, and administrative expenses. With a 15.2 percent investment return for fiscal year 2010 (following a negative 18.8 percent investment return for fiscal year 2009), MSRS realized an increase of nearly \$1.4 billion in total net assets of all MSRS pension trust funds. This amount is comprised of an increase of \$912 million for MSRS’ defined benefit funds and an increase of \$482 million for its defined contribution funds.

<u>Source</u>	<u>Defined Benefit Funds</u>		<u>Defined Contribution Funds</u>	
	<u>FY 2010</u>	<u>FY 2009</u>	<u>FY 2010</u>	<u>FY 2009</u>
Total Additions	\$1,510,338	\$(1,629,468)	\$696,021	\$(310,607)
Total Deductions	597,983	566,214	213,744	204,962
Change in Net Assets	<u>\$912,355</u>	<u>\$(2,195,682)</u>	<u>\$482,277</u>	<u>\$(515,569)</u>

Actuarial Funding Status

MSRS contracted with Mercer, Inc. of Minneapolis, Minnesota to perform the annual actuarial valuation for all of the MSRS defined benefit plans and to provide other actuarial consulting services during fiscal year 2010. The actuarial valuations measure current costs and contribution requirements to determine how much employers and members should contribute to maintain appropriate funding progress to pay future benefits. Actuarial valuations also measure assets and liabilities to determine the

level of funding for each defined benefit plan that MSRS administers. The better the level of funding, the larger the ratio of assets to accrued liabilities and the greater the level of investment income potential. A high funding ratio gives members more assurance that their pensions are secure, and that present assets and projected investment earnings on those assets are sufficient to cover the liabilities for present and future annuities, survivor and disability benefits, refunds, and administrative expenses.

The schedule below highlights the actuarial value of assets, actuarial accrued liability, funding ratio and contribution deficiency (expressed as a percent of payroll) for

each defined benefit fund as of the latest actuarial valuation date, July 1, 2010.

Highlights of the 2010 Actuarial Valuations				
(Dollars in thousands)				
Defined Benefit Funds	Actuarial Value of Assets	Actuarial Accrued Liability	Funding Ratio	Contribution Deficiency
State Employees	\$8,960,391	\$10,264,071	87.30%	0.99%
State Patrol	\$567,211	\$683,360	83.00%	7.84%
Correctional Employees	\$603,863	\$851,086	70.95%	4.73%
Judges	\$144,728	\$240,579	60.16%	3.62%
Legislators	\$26,821	\$86,236	31.10%	350.43%
Elective State Officers	\$214	\$3,782	5.66%	\$643,501*

* Amount reported is stated in actual dollars.

For all of the defined benefit funds, except the Legislators and Elective State Officers Retirement Funds which are funded on a pay-as-you go basis, the contribution deficiency as of the July 1, 2010 valuation date decreased in comparison to the contribution deficiency one year prior. The primary reasons for the improved contribution deficiency rates are the changes in plan provisions and strong investment returns. Other contributing factors for the State Employees Retirement Fund's improved contribution deficiency include the change in the amortization date for payment of the unfunded actuarial accrued liability from July 1, 2020 to July 1, 2040, and the increases in employee and employer contribution rates from 4.75 percent to 5.00 percent of payroll which took effect July 1, 2010. Nevertheless, significant contribution deficiencies remain. For the State Patrol Retirement Fund, its contribution deficiency will only be partially addressed by the 5 percent of payroll increase in statutory contributions effective July 1, 2011. Without further changes in contribution levels, benefits or actuarial assumptions, favorable actuarial experience or better than expected investment returns, the funded status for all of these defined plans will deteriorate in the future. Changes in each defined benefit fund's plan provisions that affect employees first hired after June 30, 2010 are expected to ultimately reduce the cost of the plan, but they did not have an impact on the July 1, 2010 actuarial valuation results.

The Minnesota Legislature annually reviews reports of the actuarial funding status of the retirement systems. The Legislature has the authority to set contribution rates to ensure that the retirement systems are adequately funded over the long term. Historically, legislators have increased contribution rates only if a long-term trend of weak investment returns and declining funding levels necessitate higher contribution rates.

The assumptions and actuarial methods used in the valuation are in accordance with *Minnesota Statutes*, Section 356.215. For purposes of determining the actuarial value of assets for the four largest defined benefit funds (the State Employees Retirement Fund, the State Patrol Fund, the Correctional Employees Retirement Fund, and the Judges Retirement Fund), the fiscal year 2009 asset loss of the Minnesota Post Retirement Investment Fund (a fund that was dissolved on June 30, 2009) is recognized incrementally or smoothed over five years at 20 percent per year. The individual entry age normal cost method, as prescribed by *Minnesota Statutes*, was used in the actuarial valuation process to compute liabilities and contributions. Additional information regarding the actuarial funding status of MSRS' defined benefit retirement plans is presented in the *Actuarial Section* of this CAFR.

Letter of Transmittal

Investment Results

In accordance with the Minnesota Constitution, the State Board of Investments (SBI) invests the assets of MSRS' funds. The Board is comprised of Governor Tim Pawlenty, Attorney General Lori Swanson, Secretary of State Mark Ritchie, and State Auditor Rebecca Otto. For all investments under SBI's management, the Board, the 17-member Investment Advisory Council (IAC) to the board (which includes the MSRS executive director), and the SBI staff are governed by the prudent person rule, and fiduciary standards detailed in *Minnesota Statutes*, Chapters 11A and 356A. The Board, in conjunction with the IAC and SBI staff, establishes asset allocation and other investment policies and guidelines and conducts detailed investment analyses of the funds under its control.

MSRS does not own specific securities, but instead owns shares in various pools invested by SBI. During fiscal year 2010, the domestic stock pool reported a 15.8 percent return, slightly outperforming the Russell 3000 Index by .01 percentage point. The bond pool posted a 14.5 percent return for fiscal year 2010, outperforming the Barclays Capital Aggregate Bond Index by 5 percent. The International Stock Pool also reported an 11.7 percent return for the fiscal year, outperforming the Morgan

Stanley Capital International All Country World Index excluding the United States (which represents the developed and emerging international markets outside the U.S.) by .7 percent for the fiscal year. The rally that started in the second quarter of calendar year 2009 began to reverse in the second quarter of calendar year 2010. Just as investors seemed to be embracing a slow economic recovery, investor confidence weakened with news of the potential for a sovereign debt crisis in Europe, fear of a continued economic slowdown in China, continued high unemployment in the United States, and the environmental disaster in the Gulf of Mexico.

Within this investment environment, the Combined Funds, which represent all defined benefit pension assets under SBI's control, reported a 15.2 percent return (net of fees) for the 2010 fiscal year. Annualized over the latest ten-year period, it generated a 2.9 percent return, outperforming a composite market index (weighted in manner that reflects the long-term asset allocation of the Combined Funds over the latest ten-year period as indicated in the table below) by 0.1 percentage point. Over the latest twenty-year period, the Combined Funds achieved their long-term investment objective and provided an eight percent return that was 5.4 percentage points greater than inflation, as measured by the Consumer Price Index, over the same period.

Combined Funds Asset Mix and Market Indices		
Investment Type	Market Indicator	Long-Term Policy Target
Domestic Equity	Russell 3000 Index	45.0%
International Equity	Morgan Stanley Capital International All Country World Index Ex-U.S.	15.0
Alternative Assets	Wilshire Real Estate Funds, Venture Capital Funds, Resources Funds	20.0
Bonds	Barclays Capital Aggregate Bond Index	18.0
Unallocated Cash	91-Day Treasury Bills	2.0
		<u>100.0%</u>

Please refer to the *Investment Section* of this CAFR for additional details on the investment results of MSRS' largest defined benefit retirement plans for fiscal year 2010.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a *Certificate of Achievement for Excellence in Financial Reporting* to MSRS for its comprehensive annual financial report for the fiscal year ended June 30, 2009. In order to be awarded a *Certificate of Achievement*, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principals and applicable legal requirements.

A *Certificate of Achievement* is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the *Certificate of Achievement* Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

MSRS also received the Public Pension Coordinating Council's (PPCC) *Public Pension Standards 2010 Award*, in recognition of meeting professional standards for plan administration as set forth in the Public Pension Standards. These standards were developed by a coalition of three associations that represent public pension funds who cover the vast majority of public employees in the U.S. They are intended to reflect minimum expectations for public retirement systems management and administration, and serve as a benchmark by which all defined benefit public plans should be measured. The PPCC has offered this awards program to public retirement systems for the past eight years. MSRS is proud to be a recipient of this award.

Respectfully submitted,

David Bergstrom
Executive Director

Membership Report

This report provides complete and reliable information on which management decisions may be based and through which compliance with statutory requirements may be assessed. It is reproduced, in its entirety, on MSRS' website, www.msrs.state.mn.us. A summary of the CAFR will be published in the next issue of the *Messenger*, MSRS' newsletter.

Acknowledgements

Two key MSRS staff persons deserve significant recognition and our special thanks for preparation of this report: Dennis E. Jensen, accounting director, for his financial management and reporting expertise, and Deb Otto, communications officer, for her artistic creativity and publishing talents. This report would not be possible without their cooperative enthusiasm and tremendous dedication.

We would also like to express our utmost gratitude to the MSRS Board of Directors, all of our outstanding staff, advisors, and our business associates for your outstanding hard work, professionalism, and commitment to MSRS. Because of your remarkable contributions, MSRS continues to experience the success it has enjoyed year after year.

Organization Chart

As of June 30, 2010

Mission Statement

To administer secure retirement plans, a tax-free health care savings plan, and a low cost deferred compensation plan; assure timely benefit payments; be proactive in public pension policies; and provide exemplary customer service through a one-stop shopping source.

Summary of Retirement System Plans

Purpose

The Minnesota State Retirement System (MSRS) was established by the State Legislature in 1929 to provide retirement benefits to state employees. MSRS administers six defined benefit funds and four defined contribution funds for state employees and other selected public employees.

Administration

MSRS administration is governed by an 11-member board of directors. The board includes four elected General/Unclassified Plan members, one elected State Patrol Plan member, one elected Correctional Plan member, one elected retired member, one designated Metropolitan Transit Commission representative, and three members appointed by the governor.

MSRS Board of Directors hires the Executive Director who is responsible for administering the plans in accordance with Minnesota law and board policies. Plan descriptions follow.

Defined Benefit Plans

1. General Employees Retirement Plan

A. Coverage

- Most state employees, University of Minnesota non-faculty employees, and selected metropolitan agency employees

B. Contribution Rates

- Employees: 4.75 percent of salary, increased to 5.0 percent effective July 1, 2010
- Employers: 4.75 percent of salary, increased to 5.0 percent effective July 1, 2010
- Employee contributions are “picked up” according to the provisions of Internal Revenue Code 414(h).

C. Benefit Formula

- If first hired before July 1, 1989, the benefit formula is the greater of (a) or (b):
 - (a) 1.2 percent of a high-five year salary for the first 10 years of allowable service and 1.7 percent of high-five salary for each subsequent year with a reduction of .25 percent for each month the member is under age 65 at time of retirement or under age 62 with 30 years of allowable service. There is no reduction in the formula

if the member’s age plus years of allowable service totals 90 (Rule of 90).

(b) 1.7 percent of high-five year salary for each year of allowable service assuming augmentation to age 65 at three percent per year and actuarial reduction for each month the member is under age 65.

- If first hired after June 30, 1989, the benefit formula is 1.7 percent of high-five year salary for each year of allowable service with an actuarial equivalent, early retirement reduction.
- Salary includes wages, allowances and overtime. It excludes lump sum payments at separation, employer contributions to deferred compensation and tax sheltered annuity plans and benevolent vacation and sick leave donation programs.

D. Retirement Age and Service Requirements

Eligibility for unreduced retirement benefits:

- Age 65 for employees hired before July 1, 1989; or age 66 for employees hired on or after July 1, 1989 with one year of service
- Age 62 for employees hired before July 1, 1989 with 30 years of service
- Rule of 90 for those employees hired before July 1, 1989

Eligibility for reduced retirement benefits:

- Age 55 with three years of service if hired prior to July 1, 2010 (five years of service if hired after June 30, 2010), reduced from full retirement age
- Any age with 30 years of service, reduced from age 62 (pre-July 1, 1989 hires only)
- The plan also offers total and permanent disability benefits for employees with at least three years of service (five years of service after June 30, 2010).

E. Surviving Spouse Benefit

- If employee has at least three years of service at death, (five years if hired after June 30, 2010), generally, the spouse is eligible for a 100 percent survivor annuity or a refund.

F. Refunds

- Employee contributions plus six percent interest compounded annually through June 30, 2011.
- Beginning July 1, 2011, a member’s contributions will receive four percent interest compounded annually.

G. Retirement and Disability Options

- Single-Life annuity
- 50, 75 or 100 percent Joint and Survivor with a bounce-back feature, meaning if your survivor dies first, your benefit would increase to the higher single-life amount
- 15-Year Certain and Life Thereafter

H. Post-Retirement Benefit Increase

- Benefit recipients receive future annual 2 percent benefit increases effective January 1, 2011.
- Annual benefit increase will revert to 2.5 percent when the Plan's funding ratio reaches 90 percent on a market value of assets (instead of an actuarial value of assets) basis.
- Retirees must wait at least six months for their initial post-retirement benefit increase.
- Only employees who retire before June 1 will be eligible for a prorated increase the next January. The prorated increase amount depends on the month the employee retired.

2. Military Affairs, Transportation Pilots (hired before June 1, 2008) and Fire Marshals Retirement Plans

(Provisions differing from the General Plan)

A. Coverage

- Required retirement from federal military status at age 60, or 62 for transportation pilots, no such requirements for deputy fire marshals

B. Contribution Rates

- For Military Affairs and Transportation Pilots Plans, both employee and employer contribution rates are 6.35 percent, increased to 6.60 percent effective July 1, 2010.
- For the Deputy Fire Marshals Plan, the employee contribution rate is 7.53 percent and the employer contribution rate is 8.95 percent, increased to 7.78 percent and 9.20 percent, respectively, effective July 1, 2010.

C. Retirement Age and Service Years

- Military Affairs, age 60, with at least three years of service if hired prior to June 30, 2010 (or five years of service if hired after July 1, 2010), no reduction

- Transportation Pilots, age 62, with at least three years of service, no reduction
- Fire Marshals, age 55 with 2.0 percent accrual rate, with at least three years of service, no reduction

D. Disability

- Eligible for disability with at least three years of service and unable to perform duties
- General Plan formula, no reduction
- Pilots are entitled to 75 percent of salary for maximum of five years
- Deputy fire marshals receive minimum of 15 years of service, 20 years if duty related

3. State Patrol Retirement Plan

(Provisions differing from the General Plan)

A. Coverage

- State troopers, conservation officers, and certain crime bureau and gambling enforcement agents

B. Contribution Rates

- Employees: 10.4 percent, increasing to 12.4 percent effective July 1, 2011
- Employers: 15.6 percent, increasing to 18.6 percent effective July 1, 2011

C. Benefit Formula

- Three percent of successive, high-five year salary for each year of allowable service

D. Retirement Age and Service Requirements

- Age 55 with three years of allowable service if hired prior to July 1, 2010 (five years if hired after June 30, 2010), no reduction
- Early retirement at age 50 with three years of allowable service if hired prior to July 1, 2010 (five years if hired after June 30, 2010), with a reduction in the normal retirement benefit from age 55

E. Disability

- Eligible for disability if unable to perform duties (with one year of service), and immediate coverage if disabled on the job
- Job-related disability, benefit is equal to 60 percent of high-five year average salary, plus three percent for each year beyond 20 years of allowable service.

Summary of Retirement System Plans

F. Survivor Benefits

- Member death in service: spouse gets 50 percent of final average salary; with 10 or more years of service spouse's entitlement changes to 100 percent Joint and Survivor annuity when the employee would have reached age 55
- Children get ten percent of final average salary per child plus \$20 per month, prorated among all dependent children.
- If no survivor benefit is payable, employee contributions are refunded with six percent interest compounded annually until June 30, 2011 and four percent thereafter.

G. Annuity and Disability Options

- Single-Life annuity
- 50, 75, or 100 percent Joint and Survivor with bounce-back feature.

H. Post-Retirement Benefit Increase

- Benefit recipients receive future annual 1.5 percent benefit increases beginning January 1, 2011. If the accrued liability funding ratio of the plan reaches 90 percent (on a Market Value of Assets basis), the benefit increase reverts to 2.5 percent.

4. Correctional Employees Retirement Plan

(Provisions differing from the General Plan)

A. Coverage

- Employees who have direct contact with inmates at Minnesota correctional facilities generally 15 percent of the time or higher

B. Contribution Rates

- Employees: 7.7 percent, increasing to 8.6 percent effective July 1, 2010
- Employers: 11.1 percent, increasing to 12.1 percent effective July 1, 2010

C. Benefit Formula

- 2.4 percent of high-five year average salary (2.2 percent for employees hired after June 30, 2010) for each year of allowable service or an accelerated annuity to age 62 or 65, then an actuarially adjusted benefit thereafter

D. Vesting

- For members hired before July 1, 2010: 100 percent vested after three years of allowable service
- For members hired after June 30, 2010: graded vesting applies ranging from 50 percent vested after five years of allowable service to 100 percent vested after ten years of allowable service

E. Retirement Age and Service Requirements

- Age 55 and vested
- Age 50 and vested, reduction from age 55

F. Disability

- Job-related disability, benefit equals 50 percent of high five year average salary plus 2.4 percent for each year beyond 20 years and ten months of allowable service; the minimum non-job related disability is 36 percent (there is no minimum non-job related disability benefit for those hired after July 1, 2009)
- Member is reclassified from disabled to retired at age 55 (age 65 if disabled prior to July 1, 2009)
- Regular disability requirement is one year of covered correctional service for employees hired before July 1, 2009. Correctional employees hired after June 30, 2009 must be vested to be eligible for regular disability benefits.

5. Judges Retirement Plan

(Provisions differing from the General Plan)

A. Coverage

- District, appellate and supreme court judges

B. Contribution Rates

- Employees: 8.0 percent
- Employers: 20.5 percent

C. Benefit Formula

- 2.7 percent for each year of allowable service prior to July 1, 1980, plus 3.2 percent of same average salary for allowable service after June 30, 1980
- Formula applied to high-five year average salary within the last decade
- Formula is capped at 76.8 percent of average salary

D. Retirement Age and Service Requirements

- Age 70 (mandatory retirement age)
- Age 65 with five years of service, no reduction
- Age 60 with five years of service; normal retirement benefit is reduced for each month member is under age 65.

E. Disability

- Member is eligible for disability if permanently unable to perform duties of a judge
- Continuation of full salary for one year, but not beyond age 70
- Benefit is computed under the formula with no reduction, and subject to a minimum of 25 percent of high-five year salary

F. Survivor Benefits

- Spouse is eligible for larger of 25 percent of average salary or 60 percent of normal retirement benefit had the member retired at date of death.

G. Annuity and Disability Options

- Single-Life annuity
- 100 percent Joint and Survivor with or without bounce-back feature
- 50, 75 or 100 percent Joint and Survivor with bounce-back feature
- 50, 75 or 100 percent Joint and Survivor without bounce-back feature
- 10 or 15-year Certain and Life Thereafter

State of Minnesota General Fund Retirement Plans

6. Legislators Retirement Plan

(Provisions differing from the General Plan)

A. Coverage

- Legislators first elected before July 1, 1997
- Effective July 1, 1997, newly-elected legislators are covered by the Unclassified Employees Retirement Plan

B. Contribution Rates

- Employee: 9 percent of salary
- Employers share is funded by annual appropriation, as needed, from the state's General Fund.

C. Benefit Formula

- For legislators first elected prior to January 1, 1979: 5 percent of high-five average salary for the first eight years of service prior to January 1, 1979, and 2.5 percent for subsequent years
- For legislators elected after December 31, 1978: 2.5 percent of high-five average salary

D. Retirement Age and Service Requirements

- Age 62 with six years of service, no reduction
- Age 55 with six years of service, reduction from age 62

E. Survivor Benefits

- Spouse gets 50 percent of benefit or 100 percent Joint and Survivor amount, if legislator is age 55 or more at death
- First child's benefit is 25 percent of the retirement benefit (computed as for surviving spouse) with 12.5 percent for each additional child
- Maximum benefit payable to children and spouse is 100 percent of the retirement benefit

F. Annuity Options

- Single-Life annuity
- 100 percent Joint and Survivor with bounce-back feature, discounted by value of automatic 50 percent spousal benefit applicable
- 100 percent and 50 percent Joint and Survivor options for other than spouse

G. Post-Retirement Benefit Increase

- Benefit recipients receive future annual 2.0 percent benefit increases beginning January 1, 2011. If the accrued liability funding ratio of the State Employees Retirement Fund reaches 90 percent (on a Market Value of Assets basis), the benefit increase will revert to 2.5 percent

Summary of Retirement System Plans

7. Elective State Officers Retirement Plan

(Provisions differing from the General Plan)

A. Coverage

- Elected constitutional officers; newly elected constitutional officers are covered by the Unclassified Plan as of July 1, 1997
- Note: All current constitutional officers were elected after July 1, 1997, therefore, this plan is closed.

B. Contribution Rates

- Plan is funded by annual appropriations from the state's General Fund

C. Post-Retirement Benefit Increase

- Benefit recipients receive future annual 2.0 percent benefit increases beginning January 1, 2011. If the accrued liability funding ratio of the State Employees Retirement Fund reaches 90 percent (on a Market Value of Assets basis), the benefit increase will revert to 2.5 percent

Defined Contribution Plans

1. Unclassified Employees Retirement Plan (IRC Section 401(a) Plan)

A. Coverage

- Specified employees in unclassified positions

B. Contribution Rates

- Employees: 4 percent of salary, increased to 5 percent effective July 1, 2010
- Employers: 6 percent of salary

C. Investment Options

- Supplemental Investment Fund (SIF) Money Market Account
- Fixed Interest Account
- Bond Market Account
- Income Share Account
- Common Stock Index Account
- Growth Share Account
- International Share Account

D. Administrative Fees

- \$1 per month for an account balance less than \$10,000
- \$2 per month for an account balance that is \$10,000 to \$50,000
- \$3 per month for an account balance exceeding \$50,000
- Plan fees only apply to contributions made after July 1, 1992. Prior to July 1, 1992, participants were charged a front-end fee.

E. Benefits

- Account balance or annuity benefit withdrawal based on age and 6 percent interest assumption

F. Retirement Age and Service Years

- Age 55 with any length of service

G. Refunds

- Account value

H. Annuity and Disability Options for Employees Who Elect Coverage in the General Employees Retirement Plan

- Employees appointed prior to July 1, 2010 may elect to transfer their Unclassified Plan service to the General Plan if they have ten or more years of service, or employees may select General Plan coverage in the first year of employment.
- Employees appointed after June 30, 2010 may elect to be covered by the General Plan within seven years of their appointment.
- Single-Life annuity
- 100, 75 or 50 percent Joint and Survivor with bounce-back feature
- 15 Year Certain and Life Thereafter

I. Third-party Administrator

- Effective July 1, 2009, ING provides recordkeeping services and MSRS counsels plan participants and processes all distribution and other requests. Prior to that date, MSRS administered this plan.

2. Health Care Savings Plan

(Approved Plan through Private Letter Ruling)

A. Coverage

- Negotiated by bargaining unit or personnel department

B. Contribution Rate

- Employee or negotiated employer funding criteria bargained per labor contract
- May include severance pay

C. Investment Options

- Supplemental Investment Fund (SIF) Money Market Account
- Fixed Interest Account
- Bond Market Account
- Income Share Account
- Common Stock Index Account
- Growth Share Account
- International Share Account

D. Annual Administrative Fees

- 0.65 percent, prorated and deducted from participant accounts on a monthly basis
- Maximum annual fee: \$140

E. Benefits

- Account balance including investment gains/losses, which must be used for qualifying health-related expenses

F. When Used

- Upon termination of employment, designation of disability, during medical leave beyond six months, or if normal leave of absence extends beyond one year

G. Refunds

- None
- After participant's death, dependents, or if none exist, beneficiaries may use account for eligible healthcare reimbursements as designated in the Internal Revenue Code

H. Availability

- All public employees in the State of Minnesota

I. Third-party Administrator

- Effective July 1, 2009, ING provides recordkeeping

services and MSRS counsels plan participants and processes all distribution and other requests. Prior to that date, MSRS administered this plan.

3. Minnesota State Deferred Compensation Plan (IRC Section 457 Plan)

A. Coverage

- Optional for all state employees and political subdivision employees

B. Contributions

- Tax deferred with a \$10 per pay period minimum

C. Investment Options

- Various retail mutual funds contracted by the Minnesota State Board of Investment (SBI)
- Self-directed brokerage account through TD Ameritrade
- SBI Supplemental Investment Fund Fixed Interest Account and Money Market Account

D. Annual Administrative Fees

- .07 percent, prorated and deducted from participant accounts on a monthly basis
- Maximum annual fee: \$70 on first \$100,000 in the participant's account
- MSRS declared a six-month fee holiday for period beginning January 1, 2010.

E. Withdrawal Events

- Termination of service or death
- Unforeseeable emergency

F. Withdrawal Options:

- Lump-sum
- Ongoing withdrawals
- Various annuities

G. Third-party Administrator

- Effective July 1, 2009, ING provides recordkeeping services and MSRS counsels plan participants and processes all distribution and other requests. Prior to that date, Great West Life and Annuity Insurance Company administered this plan.

4. Supplemental Retirement Plan for Hennepin County (Non-qualified plan)

A. Coverage

- Optional for employees of Hennepin County, Minnesota, who began employment prior to April 14, 1982

B. Contribution Rates

- Employee: 1 percent of salary
- Employer: 1 percent of salary

C. Investment Options

- SIF Money Market Account
- Bond Market Account
- Income Share Account
- Common Stock Index Account
- Growth Share Account
- International Share Account

D. Annual Administrative Fees

- 0.03 percent, increased to 0.04 percent on January 1, 2010, prorated and deducted from participant accounts on a monthly basis

E. Benefits

- Account balance including investment earnings/losses

F. Withdrawal Events

- Termination of service or death
- Retirement
- Unforeseeable emergency

G. Withdrawal Options:

- Lump-sum
- Monthly withdrawals for five years
- Annual withdrawals for five years

H. Third-party Administrator

- Effective July 1, 2009, ING provides recordkeeping services and MSRS counsels plan participants and processes all distribution and other requests.
- From December 1, 2005 through June 30, 2009 MSRS internally administered this plan.

Plan descriptions are not all inclusive. Descriptions provide general information only.

MSRS Comprehensive Annual Financial Report 2010
Financial Section

Rebuilding our Foundation

Pension Trust Funds of the State of Minnesota

Strong investment returns meant an increase in total net assets of \$1.4 billion or 12 percent over last year.

Independent Auditor's Report

Independent Auditor's Report

Members of the Board of Trustees
Minnesota State Retirement System

Mr. David Bergstrom, Executive Director
Minnesota State Retirement System

We have audited the accompanying basic financial statements of the Minnesota State Retirement System as of and for the year ended June 30, 2010, as listed in the Table of Contents. These financial statements are the responsibility of the Minnesota State Retirement System's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Minnesota State Retirement System as of June 30, 2010, and the changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As disclosed in Note 2F to the basic financial statements, for the year ended June 30, 2010, the Minnesota State Retirement System adopted Governmental Accounting Standards Board Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*.

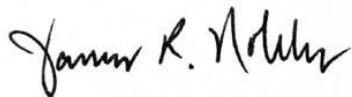

In accordance with *Government Auditing Standards*, we have also issued our report on our consideration of the Minnesota State Retirement System's internal control over financial reporting; on our tests of its compliance with certain provisions of laws, regulations, and contracts; and on other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's Discussion and Analysis and the other required supplementary information, as listed in the Table of Contents, are not a required part of the Minnesota State Retirement System's basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Minnesota State Retirement System's basic financial statements. The Introductory, Investment, Actuarial, and Statistical sections, as listed in the Table of Contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Supporting Schedules in the Financial Section have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The Introductory, Investment, Actuarial, and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Management's Discussion and Analysis

We, the management of the Minnesota State Retirement System (MSRS), present this discussion and analysis of MSRS' financial activities for the fiscal year ended June 30, 2010. We encourage you to read the information contained in this narrative in conjunction with the transmittal letter which begins on page 8, and the financial statements and required supplementary information contained in this section of the CAFR.

Financial Highlights

Overall, the financial condition of all MSRS' pension trust funds improved during fiscal year 2010. Net assets held in trust for pension benefits, totaling \$13 billion as of June 30, 2010, increased nearly \$1.4 billion or 12 percent during the fiscal year. This increase was primarily the result of an increase in investment values and their associated income. Strong investment returns during the fiscal year generated a 15.2 percent return. Additional information about investment activity can be found in the *Investment Section* of this report.

The four largest MSRS defined benefit funds remain adequately funded with sufficient assets to pay projected future benefits for many years. As of July 1, 2010, the most recent actuarial valuation date, the State Employees Retirement Fund was 87.3 percent funded, the State Patrol Retirement Fund was 83.0 percent funded, the Correctional Employees Retirement Fund was 71.0 percent funded, and the Judges Retirement Fund was 60.2 percent funded, on an actuarial value of assets basis. The funding ratios for the State Employees and the State Patrol Retirement Funds improved compared to the July 1, 2009 funding ratios due to reductions in actuarial accrued liabilities. The funding ratios for the Correctional and Judges Retirement Funds remained relatively constant compared to the July 1, 2009 funding ratios. Additional information about the funding status of each defined benefit plan can be found in the *Actuarial Section* of this report.

The contribution deficiencies for the four largest MSRS defined benefit plans improved during fiscal year 2010 due to recently enacted legislative changes in plan provisions aimed at lowering actuarial liabilities, and changes in actuarial assumptions. Yet the contribution deficiencies are significant in amount. Over the long run, without further changes in contribution rates or plan provisions, better than expected investment returns, or favorable actuarial experience, the funded status for all of the defined benefit plans will continue to deteriorate. Contributions that are scheduled to be made to the funds are insufficient to achieve their 100 percent funding ratios by the targeted full funding dates.

Although member and employer contributions increased slightly from \$590 million in fiscal year 2009 to \$625 million in fiscal year 2010, net investment income was significantly greater in 2010, increasing from a negative \$2.6 billion in 2009 to \$1.6 billion in 2010, and was the primary factor in generating the \$4.1 billion increase in total additions to plan net assets during the fiscal year.

Deductions from plan net assets totaled \$811 million for fiscal year 2010, increasing 5.2 percent primarily due to increases in benefits and refunds. Benefits increased due to post retirement cost-of-living adjustments of 2.5 percent that took effect January 1, 2010 for existing benefit recipients and increases in health care reimbursements associated with continued plan growth. Refunds increased due to employee turnover and members transferring funds to other retirement plans.

Overview of the Financial Statements

This comprehensive annual financial report includes two basic financial statements, the *Statement of Plan Net Assets* found on pages 30-31, and the *Statement of Changes in Plan Net Assets*, found on pages 32-33. The purpose of these statements, along with the accompanying *Notes to the Financial Statements*, found on pages 34-53, is to comply with Minnesota Statutes Chapter 356.20 and to provide the reader with financial information in a format that is reasonably comparable to that of other public pension trust funds. As indicated in Note 1C, these statements are prepared using the accrual basis of accounting as required by generally accepted accounting principles.

The *Statement of Plan Net Assets* provides a snapshot of the financial resources and obligations for all of MSRS' pension trust funds at a particular point in time, June 30, the last day of each fiscal year. The assets available and the liabilities owed are reported at fair value as of that date. The difference between total assets and total liabilities is net assets held in trust; this amount is available for payment of future pension benefits or other obligations. Comparisons of total net assets as of June 30, 2010 and 2009 are depicted in the table below.

Summary Statement of Plan Net Assets – All MSRS Pension Trust Funds

As of June 30, 2010 and 2009
(Dollars in millions)

	FY 2010	FY 2009	Change	% Change
Total Assets	\$13,890	\$13,019	\$871	6.7%
Total Liabilities	850	1,374	(524)	(38.1)%
Total Net Assets	<u>\$13,040</u>	<u>\$11,645</u>	<u>\$1,395</u>	12.0%

Total net assets as of June 30, 2010 were \$13.040 billion, an increase of \$1.395 billion or 12.0 percent from the prior year. This change was primarily the result of a substantial increase in the fair value of investments due to strong market returns, as evidenced by an increase in the investment return from a negative 18.8 percent for fiscal year 2009 to 15.2 percent for fiscal year 2010.

Total liabilities as of June 30, 2010 were \$850 million, reduced by \$524 million or 38.1 percent from the prior fiscal year. This decrease was primarily due to decreases in the amount of securities lending collateral held at fiscal year end. This change was attributable to the Minnesota

State Board of Investment's decision to reduce the size of the lending portfolio to minimize its investment risk exposure.

The *Statement of Changes in Plan Net Assets* summarizes the financial transactions that occurred during a fiscal year. Additions include contributions, net investment income, and other revenue sources. Deductions include benefit payments, refunds, and other expenses. Unlike the previous two consecutive fiscal years, net assets increased. Total additions by major source and total deductions by type for the fiscal years ended June 30, 2010 and 2009 are depicted below.

Summary Statement of Changes in Plan Net Assets – All MSRS Pension Trust Funds

For the fiscal years ended June 30, 2010 and 2009
(Dollars in millions)

	FY 2010	FY 2009	Change	% Change
Additions (by Major Source):				
Plan Member Contributions	\$464	\$438	\$26	5.9%
Employer Contributions	161	152	9	5.9%
Investment Income (Net)	1,561	(2,552)	4,113	161.2%
Other (includes transfers)	20	22	(2)	(9.1)%
Total Additions	\$2,206	\$(1,940)	\$4,146	213.7%
Deductions (by Type):				
Benefits	\$650	\$618	\$32	5.2%
Refunds	134	123	11	8.9%
Recordkeeper and Custodian Expenses	2	4	(2)	(50.0)%
Administrative Expenses	11	11	0	0.0%
Other (includes transfers)	14	15	(1)	(6.7)%
Total Deductions	\$811	\$771	\$40	5.2%
Net Increase (Decrease) in Plan Net Assets	\$1,395	\$(2,711)	\$4,106	151.5%

Total additions to plan net assets were \$2.206 billion, an increase of 213.7 percent for fiscal year 2010. This change was due to net investment income of \$1.561 billion that significantly exceeded total member and employer contributions of \$625 million and other income of \$20 million.

Total contributions paid by members and their employers increased by \$35 million, or 5.9 percent, for fiscal year 2010. This change was primarily due to a contribution rate increases took effect July 1, 2009 for members of the State Employees Retirement Fund (General Plan), State Patrol Retirement Fund, and Correctional Employees Retirement Fund. No contribution rate increases took effect in the fiscal year for the remaining defined benefit plans.

Total deductions to plan net assets were \$811 million, an

increase of \$40 million or 5.2 percent for fiscal year 2010. This change was due in part to an increase in annuity benefits, health care reimbursements and refunds to members. Annuity benefits increased 2.5 percent effective January 1, 2010. Health Care Savings Plan reimbursements increased due to plan growth. Refunds increased due to employee turnover and members rolling over funds to other qualified retirement plans.

The *Notes to the Financial Statements* are an integral part of the financial statements. They provide additional information relevant to obtain a full understanding of the financial statements. *Required Supplementary Information* presents additional schedules which provide historic funding information that can be used to determine whether the financial condition of MSRS funds is improving or deteriorating over a longer period of time.

Management's Discussion and Analysis

Financial Analysis of MSRS'

Individual Funds

MSRS administers six defined benefit funds and four defined contribution funds. While each of the funds has some characteristics that are different from the others, such as membership served, each also has some characteristics in common, such as the shared investment pools.

Defined Benefit Funds

The following two tables compare various performance measures of each of the following defined benefit funds to the previous fiscal year: The State Employees Retirement Fund (SERF), the State Patrol Retirement Fund (SPRF), the Correctional Employees Retirement Fund (CERF) and the Judges Retirement Fund (JRF). The Legislative Retirement Fund and the Elective State Officers Retirement Fund are excluded from this analysis because they are funded mostly by state of Minnesota General Fund appropriations.

All of the defined benefit funds showed substantial increase in net assets, and are considered to be financially

healthy to pay promised benefits during fiscal year 2011 and beyond. Even though members and employers contribution rates increased 0.25 percent of payroll, respectively, on July 1, 2010 for the State Employees Retirement Fund, and additional contribution increases totaling 5.0 percent are planned for the State Patrol Retirement Fund on July 1, 2011, less than expected investment returns or unfavorable actuarial experience may trigger the need for higher contribution rates beyond 2010. Other legislative initiatives that are designed to minimize contribution deficiencies and improve each plan's funding ratio overall may also be necessary

Defined Contribution Funds

The Unclassified Employees Retirement Fund, the Health Care Savings Fund, the Minnesota State Deferred Compensation Fund and the Supplemental Retirement Fund for Hennepin County were affected by the same investment market conditions that affected the defined benefit funds. However, because individual members select their own investment options for these funds, comparisons of fund investment earnings are not meaningful.

Summary Statement of Plan Net Assets – MSRS' Four Largest Defined Benefit Funds

For the Fiscal Years Ended June 30, 2010 and 2009
(Dollars in millions)

	SERF	SPRF	CERF	JRF
Total Assets, 06/30/2010	\$8,394	\$533	\$573	\$138
Total Assets, 06/30/2009	8,036	525	532	134
Change in Total Assets	\$358	\$8	\$41	\$4
% Change	4.45%	1.52%	7.71%	2.99%

Summary

As the result of strong investment returns, MSRS experienced significant increases in total net assets. All of the retirement funds remain reasonably healthy, and with steady or improving market conditions, MSRS' funds will continue to be financially sound for 2011 and beyond. If the economic forecast for a slow recovery of jobs and wages does not hold true in the long run, the funded status of the retirement funds will continue to deteriorate and losses will further increase contribution deficiencies. MSRS management will continue to closely monitor economic conditions, changes in funding ratios and contribution deficiency percentages, and the impact on the security and financial stability of our fund.

Request for Information

This financial report is intended to provide a general overview of MSRS' financial position as of June 30, 2010 and the results of financial activities for fiscal year 2010. If you have any questions or comments concerning the contents of this report, please contact Minnesota State Retirement System by mail at 60 Empire Drive Suite 300, Saint Paul, MN 55103-3000, or by telephone toll-free at 1-800-657-5757, or via e-mail at mrs@state.mn.us.

The accompanying notes are an integral part of the financial statements.

Notes to the Financial Statements and the Required Supplementary Information

1. Summary of Significant Accounting Policies

A. Funds Administered

The Minnesota State Retirement System (MSRS) is the administrator of a multiple employer, cost sharing public employee retirement system. It consists of six defined benefit funds: the State Employees Retirement Fund; the State Patrol Retirement Fund; the Correctional Employees Retirement Fund; the Judges Retirement Fund; the Legislators Retirement Fund; and the Elective State Officers Retirement Fund, and four defined contribution funds: the Unclassified Employees Retirement Fund; the Health Care Savings Fund; the Deferred Compensation Fund; and the Hennepin County Supplemental Retirement Fund. MSRS funds are pension trust funds of the state of Minnesota and as such are included with similar funds in its comprehensive annual financial report. This report includes financial information for MSRS only.

B. Participating Employers

MSRS members are employed by the State of Minnesota, the University of Minnesota (non-instructional), various quasi-state and metropolitan agencies, and approximately 69 counties, 275 cities, 223 school districts and 227 additional miscellaneous governmental entities.

C. Basis of Accounting

These financial statements were prepared using the accrual basis of accounting. Plan member and employer contributions are recognized in the period when they become due. Benefits and refunds are recognized when due and payable as specified by statute.

D. Investment Policies

Pursuant to *Minnesota Statutes*, the assets of MSRS funds are pooled with those of other funds and invested by the Minnesota State Board of Investment (SBI). Investments primarily include stocks of registered corporations and obligations of the United States and Canadian governments and their agencies, and short-term obligations of specifically high quality. Various alternative investments, including international securities, are limited by statute to 35 percent of the fund pool.

E. Investment Valuations

All investments are reported at fair value. Fair value is the proportionate share of the combined market value of the investment portfolios of the SBI investment pool in which the funds participate. All securities within the pools are valued at market value except for U.S. Government short-term securities and commercial paper, which are valued at market less accrued interest. Accrued interest is recognized as short-term income. SBI values long-term fixed income securities by using the Financial Times Interactive Data Services valuation system. This service provides prices for both actively traded and privately placed bonds. For equity securities, SBI uses a valuation service provided by Reuters and market value is the last reported sales price for securities traded on national or international exchanges. If a security is not actively traded, then the fair value is based on the analysis of financial statements, analysis of future cash flows and independent appraisals.

Assumptions made in valuing securities are as follows:

1. Values of actively traded securities determined by recognized exchanges are objectively negotiated purchase prices between willing buyers and sellers and are not subject to either undue influence or market manipulation.
2. Values of securities not actively traded are determined by objective appraisals by qualified professional analysts whose results would not vary materially from those of other similarly qualified professionals.

F. Capital Assets

Capital assets consist of office equipment and fixtures, land, building, unamortized bond issuance charges, and capitalized software development or purchase costs. All were capitalized at historical cost at the date of acquisition, issuance, or completion. Balances at June 30, 2010 are reported in Exhibit 1 on the next page.

EXHIBIT 1: CAPITAL ASSETS

(Dollars in thousands)

Capital Asset Types	Cost	Accumulated Depreciation/Amortization	Undepreciated/Unamortized Balance As of June 30, 2010
Office Equipment & Fixtures	\$939	\$936	\$3
Land	88	N/A	88
Building	7,268	1,635	5,633
Building Improvements	109	19	89
Building Equipment	2	1	1
Deferred Bond Issuance Charges	74	23	51
Computer Software	34	0	34
Totals	\$8,513	\$2,614	\$5,899

The estimated useful lives and the depreciation methods used are as follows:

Capital Asset Types	Useful Life (In Years)	Depreciation/Amortization Method
Office Equipment & Fixtures	3-10	Straight Line
Land	N/A	Not Depreciated
Building	30	Straight Line
Building Improvements	10	Straight Line
Building Equipment	10	Straight Line
Deferred Bond Issuance Charges	30	Straight Line
Computer Software	3-10	Straight Line

G. Accrued Compensated Absences

MSRS employees accrue vacation, sick, and compensatory leave in accordance with various collective bargaining agreements. The obligation, \$715,852, for future payment of these balances at June 30, 2010 has been accrued to the extent that the right to receipt is vested or expected to become vested.

H. Due From the State's General Fund

Member contributions to the Legislators and Elective State Officers Funds are deposited into the general operating revenues of the state. In the event of plan termination, the department of Minnesota Management and Budget believes that state's General Fund is obligated to repay member contributions. Because this contingency is considered unlikely, these amounts have not been appropriated in the state's General Fund. These balances at June 30, 2010 are scheduled in Exhibit 2.

EXHIBIT 2: DUE FROM THE STATE'S GENERAL FUND

(Dollars in thousands)

	Amount As of June 30, 2010
Legislators Retirement Fund	\$7,321
Elective State Officers Fund	215
Total.....	\$7,536

I. Reserve Accounts**A. Member Reserve**

For the defined benefit funds, the member reserve is credited with the cumulative employee contributions. Upon retirement, these contributions are transferred to the Benefit Reserve for payment of future annuity benefits. Employees who terminate their covered employment prior to retirement can choose to receive a refund of their contributions plus interest or a deferred annuity benefit. For the defined contribution funds, the Unclassified Employees Retirement Fund, the Health Care Savings Fund, the Deferred Compensation Fund and the Hennepin County Supplemental Retirement Fund, the member reserve includes all assets that are not reserved for the payment of administrative expenses. The member reserve balances as of June 30, 2010 are scheduled in Exhibit 3 on the next page.

Notes to the Financial Statements and the Required Supplementary Information

EXHIBIT 3: MEMBER RESERVE

(Dollars in thousands)

Fund	Member Reserve Balance As of June 30, 2010
State Employees Retirement Fund	\$ 1,155,473
State Patrol Retirement Fund	56,699
Correctional Employees Retirement Fund	100,323
Judges Retirement Fund	28,685
Legislators Retirement Fund	5,993
Elective State Officers Retirement Fund	36
Unclassified Employees Retirement Fund	253,437
Health Care Savings Fund	322,683
Deferred Compensation Fund	3,487,429
Hennepin County Supplemental Retirement Fund	109,546
Total	<u><u>\$5,520,304</u></u>

B. Benefit Reserve

For all funds except the Unclassified Employees Retirement Fund, the Health Care Savings Fund, the Deferred Compensation Fund and the Hennepin County Supplemental Retirement Fund, the benefit reserve is credited with all investment earnings and employer contributions. For the Unclassified Employees Retirement Fund, the Health Care Savings Fund, the Deferred Compensation Fund and the Hennepin County Supplemental Retirement Fund the benefit reserves include only the remaining balances of fees collected to

pay administrative expenses and short-term interest earnings on benefit reserve assets.

The deficit balances for the Unclassified Employees Retirement Fund and the Health Care Savings Fund resulted from the accrual of the year end reallocation of administrative expenses and will be paid from future administrative fee collections.

The benefit reserve balances at June 30, 2010 are reported in Exhibit 4.

EXHIBIT 4: BENEFIT RESERVE

(Dollars in thousands)

Fund	Benefit Reserve Balance As of June 30, 2010
State Employees Retirement Fund	\$6,537,058
State Patrol Retirement Fund	432,171
Correctional Employees Retirement Fund	424,922
Judges Retirement Fund	97,516
Legislators Retirement Fund	20,828
Elective State Officers Retirement Fund	178
Unclassified Employees Retirement Fund	(49)
Health Care Savings Fund	(1,505)
Deferred Compensation Fund	8,549
Hennepin County Supplemental Retirement Fund	2
Total	<u><u>\$7,519,670</u></u>

2. Cash and Investments

A. Cash

MSRS cash is deposited into the state's treasury accounts. On June 30, 2010 and throughout the year, these accounts were secured by pledged collateral and deposit insurance to the extent required by *Minnesota Statutes*.

B. Investment Valuation

The combined funds' proportionate share in the cost and fair values of the Minnesota State Board of Investment (SBI) pools at June 30, 2010, is scheduled in Exhibit 5.

EXHIBIT 5: INVESTMENTS		
(Dollars in thousands)		
Type	Amount

C. Securities Lending

[Governmental Accounting Standards Board (GASB) Statement 28 Required Disclosures]

MSRS does not own specific securities, but instead owns shares in various pooled funds invested by the Minnesota State Board of Investment (SBI). The amounts shown on the financial statements are MSRS' proportionate share of securities loaned, collateral pledged and loan income that resulted from the lending activity of the investment managers, retained by SBI, of these investment pools. The types and amounts of securities loaned are presented in Exhibit 6.

act as agent in lending SBI's securities to broker-dealers and banks pursuant to a form of loan agreement.

During the fiscal year, State Street lent, on behalf of SBI, certain securities held by State Street as custodian and received cash (both United States and foreign currency) and securities issued or guaranteed by the United States government, sovereign debt of foreign countries, and irrevocable bank letters of credit as collateral for each loan of not less than 100 percent of the value of loaned securities. State Street did not have the ability to pledge or sell collateral securities absent a borrower default. Borrowers were required to deliver collateral for each loan in amounts equal to not less than 100 percent of the market value of the loaned securities. Throughout the fiscal year, securities lent were limited to common stock, corporate bonds, and U.S. government notes and bonds.

EXHIBIT 6: SECURITIES LOANED	
(Dollars in thousands)	
Investment Type	Amount as of June 30, 2010
Domestic Equities	\$442,165
U.S. Government Bonds	151,812
International Equities	113,464
Domestic Corporate Bonds	99,805
Total	<u>\$807,246</u>

Pursuant to the securities lending authorization agreement, State Street had an obligation to indemnify SBI in the event of default by the borrower. There were no failures by any borrower to return loaned securities or pay distributions thereon during the fiscal year that resulted in a declaration of notice of default of the borrower or in indemnification by State Street. There were no losses during the fiscal year resulting from a default of the borrowers or State Street.

Minnesota Statutes, section 356A.06, subdivision 7, allows SBI to participate in securities lending transactions. SBI has, by way of a Custodial Trust Agreement, authorized State Street Bank and Trust Company ("State Street") to

Notes to the Financial Statements and the Required Supplementary Information

During the fiscal year, SBI and the borrowers maintained the right to terminate all securities lending transactions on demand. The cash collateral received on each loan was invested in a separate investment pool. As of June 30, 2010 such investment pool had an average duration of 8.03 days and an average final maturity of 43.22 days. Because the loans were terminable at will, their duration did not generally match the duration of the investments made with the cash collateral. On June 30, 2010 SBI had no credit risk exposure to borrowers. MSRS' share of the collateral held and the market value of securities on loan (in U.S. dollars) as of June 30, 2010 was \$834,521,938 and \$807,245,992, respectively. Cash collateral is reported on the *Statement of Plan Net Assets* as an asset. Liabilities resulting from these securities lending transactions are also reported on the *Statement of Plan Net Assets*.

D. Accounting and Financial Reporting for Certain Investments and for External Investment Pools (GASB Statement 31 Required Disclosures)

During fiscal year 2010, the SBI, via a Securities Lending Authorization Agreement, authorized State Street Bank and Trust Company to lend its securities to broker-dealers and banks pursuant to a form of loan agreement. Cash collateral received in respect of such loans was invested at the direction of SBI, in the Minnesota State Board of Investments Fund, a separately managed vehicle (the "Fund"). Assumptions and methods used to determine the Fund's value are as follows:

- 1. Method for determining fair value.** The fair value of investments held by the Fund is based upon valuations provided by a recognized pricing service.
- 2. Policy for utilizing amortized cost method.** Because the Fund does not meet the requirements of Rule 2a-7 of the Investment Company Act of 1940, State Street Bank has valued the Fund's investments at fair value for reporting purposes.
- 3. Regulatory oversight.** The Fund is not registered with the Securities and Exchange Commission. State Street, and consequently the investment vehicles it sponsors (including the Fund) are subject to the oversight of the Federal Reserve Board and the Massachusetts Commissioner of Banks. The fair value of the SBI's position in the Fund is the same as the value of the Fund shares.
- 4. Involuntary Participation.** There was no involuntary participation in an external investment pool by SBI for the fiscal year.

5. Income assignment. No income from one fund was assigned to another fund by State Street during the fiscal year.

E. Deposit and Investment Risk (GASB Statement 40 Required Disclosures)

SBI is responsible for investing various MSRS funds. The disclosures that follow apply to those investments. Cash deposit disclosures are also included in Note 2.A.

Credit Risk

Credit risk is the risk that an issuer or counterparty to an investment will be unable to fulfill its obligations. SBI has policies designed to minimize credit risk. They may invest funds in governmental obligations provided the issue is backed by the full faith and credit of the issuer or the issue is rated among the top four quality rating categories by a nationally recognized rating agency. They may invest funds in corporate obligations provided the issue is rated among the top four quality categories by a nationally recognized rating agency. They may also invest in unrated corporate obligations or in corporate obligations that are not rated among the top four quality categories provided that:

1. The aggregate value of these obligations may not exceed five percent of the fund for which the SBI is investing;
2. Participation is limited to 50 percent of a single offering; and
3. Participation is limited to 25 percent of an issuer's obligations.

SBI may also invest in bankers' acceptances, deposit notes of U.S. banks, certificates of deposit, mortgage securities, and asset-backed securities rated in the top four quality categories by a nationally recognized rating agency. Commercial paper must be rated in the top two quality categories.

As of June 30, 2010 MSRS' proportionate share of the SBI's exposure to credit risk, based on S&P Quality Ratings, is shown in Exhibit 7.

EXHIBIT 7: CREDIT RISK EXPOSURE	
as of June 30, 2010 (Dollars in thousands)	
Quality Rating	Fair Value As of June 30, 2010
BBB or Better	\$2,352,939
BB or Lower	165,306
Not Rated	329,264

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a failure of a depository institution or counterparty to a transaction, MSRS will be unable to recover the value of deposits, investments, or collateral securities in the possession of an outside party. All MSRS deposits and investments are either covered by depository insurance, pledged collateral, or held in external investment pools, so they are not exposed to custodial credit risk.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates of debt investments which could adversely affect the fair value of an investment. SBI does not have a stated policy to limit interest rate risk, instead they follow a general “prudent investor” rule, i.e. distribute maturities so that risk is kept to a reasonable level. Debt securities are held

in external investment pools and as of June 30, 2010 had the following weighted-average maturities as shown in Exhibit 8.

EXHIBIT 8: INTEREST RATE RISK

Security	Weighted Average Maturity (in years)
Cash Equivalents	0.19
Asset-Backed Securities	9.19
Corporate Debt	4.24
Municipal Bonds	16.13
U.S. Treasuries	10.39
U.S. Agencies	2.70
Mortgage-Backed Securities	24.90

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates between the U.S. dollar and foreign currencies could adversely affect the fair value of an investment. Government obligations, including guaranteed or insured issues of the International Bank for Reconstruction and Development, the Inter-American Development Bank, the Asian Development Bank, and the African Development Bank, must pay interest and principal in U.S. dollars. The principal and interest of obligations of corporations, including those corporations incorporated

or organized under the laws of the Dominion of Canada or any province thereof, must also be paid in U.S. dollars. SBI has less than a 15 percent exposure to currency risk. Investments at June 30, 2010 were distributed among the following currencies shown in Exhibit 9.

Note: Other currency, as shown in Exhibit 9, includes new Turkish lira, Moroccan dirham, Pakistan rupee, new Romanian leu, and Yuan renminbi.

EXHIBIT 9: FOREIGN CURRENCY RISK

(Dollars in thousands)

Notes to the Financial Statements and the Required Supplementary Information

F. Derivative Financial Instruments

For fiscal year 2010, MSRS implemented GASB Statement 53, Accounting and Financial Reporting for Derivative Instruments. On behalf of MSRS, SBI invests in various types of derivative financial instruments. Derivatives are defined as any financial arrangement between two parties that has value based on or derived from future price fluctuations. The derivative financial instruments that SBI enters into include futures, options, stock warrants and rights, currency forwards, and synthetic guaranteed investment contracts.

Minnesota Statutes, Section 11A.24, provides that any agreement for put and call options and futures contracts may only be entered into with a fully offsetting amount of cash or securities. This applies to foreign currency forward contracts used to offset the currency risk of a security. All other derivatives are exchange-traded. The purpose of the Minnesota State Board of Investment's (SBI) derivative activity is to equitize cash in the portfolio, to adjust the duration of the portfolio, or to offset current futures positions.

Explanations of each derivative instrument type are presented below. The fair value balances and notational amounts (or face value) at June 30, 2010, classified by derivative instrument type (e.g., futures, options, currency forwards, and stock warrants and rights), and the changes in fair value for fiscal year 2010 are shown in Exhibit 10.

Futures

Futures are contract commitments to purchase (asset) or sell (liability) at a future date. The net change in the values of futures contracts is settled on a regular basis and gains and losses are included in investment income.

Options

Options are contracts that give buyers or sellers the right to buy (calls) or sell (puts) a security at a predetermined price on a future date. Gains and losses result from variances in the market value of the security that is the subject of the contract that occur prior to or on the contract specified date. The gains and losses are included in investment income.

Currency Forwards (Hedges)

Currency forwards are contracts entered into in order to hedge against future fluctuations in foreign currency exchange rates on the foreign investments held in foreign currencies. Forward foreign currency contracts commit the buyer or seller to purchase or sell a specific foreign currency on a future date at a specified price. Gains or losses can result from the market rate variance from the contract rate. The gains and losses are included in investment income.

TBA Mortgage-Backed Security Commitments

Open trades for to-be-announced (TBA) packages of mortgage-backed securities. The gains and losses are included in investment income.

Stock Warrants and Rights

Stock warrants, similar to options, are the right to purchase shares of a stock at a certain price by a certain date. They usually have a longer term before expiration, e.g. five years or more. When exercised, new shares are issued by the company. Rights are the same but are issued to current stock owners to enable them to retain their relative ownership share. Gains and losses from the sale or exercise of stock warrants and rights are included in investment income.

Synthetic Guaranteed Investment Contracts

SBI maintains a fully benefit-responsive synthetic guaranteed investment contract for the Supplemental Investment Fund - Fixed Interest Account. The investment objective of the Fixed Interest Account is to protect investors from loss of their original investment and to provide a competitive interest rate. On June 30, 2010, its portfolio of well diversified high quality investment grade fixed income securities had a fair value of \$747,886,618 that is \$37,691,873 in excess of the value protected by the wrap contract.

Credit Risk with Foreign Currency

Forward Contracts

SBI is exposed to credit risk through multiple counterparties in foreign currency forward contracts that are used to offset the currency risk of a security. All counterparties hold a credit rating of AA- or better, based on Standard & Poor's Quality Ratings. MSRS' proportionate share of the maximum loss that SBI would have recognized as of June 30, 2010 if all counterparties failed to perform as contracted is \$505,000 as presented in Exhibit 11. There is no collateral held or any liabilities included in netting arrangements with those counterparties that would have reduced SBI's exposure to credit risk.

EXHIBIT 11: DERIVATIVE CREDIT RISK	
as of June 30, 2010	
(Dollars in thousands)	
Quality Rating	Forwards
A+	\$499
AA-	<u>6</u>
Total	<u>\$505</u>

Interest Rate Risk

The SBI controls interest rate risk through a comprehensive set of guidelines developed for each portfolio. Derivative instruments may be used by the managers to manage the interest rate risk within the guidelines set for their portfolio.

Foreign Currency Risk

SBI controls the exposure associated with currency forwards through a comprehensive set of guidelines developed for each portfolio. Currency forwards may be used to reduce the effect of non-U.S. currency exposure of the portfolio. The total non-U.S. currency exposure of all securities and currency forwards may not exceed the total market value of any manager's portfolio.

Notes to the Financial Statements and the Required Supplementary Information

3. Interfund Receivables, Payables, and Transfers

The purpose of interfund receivables and payables, as shown in Exhibit 12, is to accrue interfund obligations that are outstanding as of the fiscal year end date, June 30, 2010. Most of these balances are the result of our reallocation of administrative expenses which is done annually. The only such balance that may not be

completely liquidated during the ensuing fiscal year is the Health Care Savings Fund payable. Interfund transfers are primarily the result of elective membership eligibility changes that have occurred during the fiscal year. These interfund transfers during the fiscal year ended June 30, 2010 are shown in Exhibit 13.

4. Leases

MSRS' main office is housed in the Retirement Systems of Minnesota (RSM) building located in St. Paul. The three Minnesota statewide retirement systems, MSRS, Public Employees Retirement Association (PERA), and Teachers Retirement Association (TRA), jointly own this building under the terms of an interagency agreement.

MSRS also leases office space for branch offices in Mankato, St. Cloud, Detroit Lakes and Duluth and counseling space in the Hennepin County Government Center. As of June 30, 2010 future obligations under the terms of those leases are scheduled in Exhibit 14.

Location	FY 2011	FY 2012	FY 2013	FY 2014	FY 2015	FY 2016	Totals
Mankato	\$23,427	\$23,427	\$3,905	\$0	\$0	\$0	\$50,759
St. Cloud	17,130	17,130	17,130	8,565	0	0	59,955

Totals	<u>\$88,719</u>	<u>\$88,607</u>	<u>\$69,733</u>	<u>\$43,751</u>	<u>\$16,767</u>	<u>\$4,192</u>	<u>\$311,769</u>

5. Actuarial Methods, Assumptions and Changes in Assumptions

Minnesota Session Laws of 2010, Chapter 359 and subsequent motions approved by the Legislative Commission on Pensions and Retirement, resulted in various changes to the actuarial assumptions used to value the liabilities of the various funds administered by MSRS. The following disclosures include these changes and are effective as of July 1, 2010, the most recent actuarial valuation date. They apply only to the defined benefit funds. Further information about the effects of these changes is included in the *Actuarial Section* of this report.

Actuarial valuations are performed annually at fiscal year end for all defined benefit funds, except the Legislators Retirement Fund and the Elective State Officers Retirement Fund, which were not valued in fiscal year 2003. Experience studies are generally performed every four or five years for MSRS' largest plans. The entry age normal actuarial cost method – a projected benefit cost method – is used to value all of the defined benefit funds. This method is used to amortize actuarial liabilities by applying a level percentage to projected payroll for a single, closed amortization period. The actuarial projection of benefits for financial reporting purposes does not incorporate the potential, but unknown, effects of legal or contractual funding limitations.

Contributions are made as a level percentage of covered salary; these rates are specified in statute as fixed percentages with no minimums or maximums. The assumed inflation rate is 3.0 percent; the actual inflation rate was 1.1 percent. For all plans except the State Patrol Plan, annuity benefits are increased annually by 2.0 percent to cover the effects of inflation with amounts prorated for those retiring within the past year; for the State Patrol Plan, the annual benefit increase rate after retire-

ment is 1.5 percent. No additional benefit increases are assumed. The assumed investment rate of return is 8.5 percent pre-retirement and 6.5 percent post-retirement for all plans except the State Patrol Plan. The assumed post-retirement investment rate for the State Patrol Plan is 7.0 percent compounded annually.

For actuarial purposes, investments are valued by reducing the market value by 80 percent, 60 percent, 40 percent and 20 percent, respectively, of the unrecognized difference between the cost and market value at the current and preceding three fiscal year ends.

Statutorily specified fiscal year end completion dates for amortization of unfunded actuarial liabilities are listed in Exhibit 15.

Fund	Date
State Employees	06/30/2040
State Patrol	06/30/2036
Correctional Employees	06/30/2038
Judges	06/30/2038
Legislators	06/30/2021
Elective State Officers	06/30/2017

The Unclassified Retirement Fund, the Health Care Savings Fund, the Deferred Compensation Fund, and the Hennepin County Supplemental Retirement Fund are defined contribution plans and therefore there are neither applicable assumptions or actuarial valuations.

Notes to the Financial Statements and the Required Supplementary Information

Mortality Assumptions

For projecting retiree mortality all funds, except the State Employees Retirement Fund and the Judges Retirement Fund, use the 1983 Group Annuity Mortality Tables. These tables are set back or set forward to match fund experience as shown in the Actuarial Section of this report. The State Employees Retirement Fund is valued using various RP-2000 Annuitant Generational Mortality Tables with white collar adjustment and no ages set backs for males or females. This change in the post-retirement mortality rates for the State Employees Retirement Fund became effective for the 2010 actuarial valuation of the fund. Similarly, the Judges Retirement Fund continues to use the RP-2000 Combined Annuity Mortality Tables, projected eight years, with no collar adjustment.

Payroll Growth Assumptions

The payroll growth assumption is 4.50 percent per year for the General Plan of the State Employees Retirement Fund, the Correctional Employees Retirement Fund, the State Patrol Retirement Fund, and the Legislators Retirement Fund. The payroll growth assumption for the Judges Retirement Fund is 4.00 percent per year.

Salary Increase Assumptions

For the State Employees Retirement Fund, during the first five years of employment, referred to as the select period, an amount equal to 0.60 percent times (5 - T), where T is completed years of service, is added to the ultimate rate.

For the State Employees, State Patrol and Correctional Employees Retirement Funds, salaries are assumed to increase according to the rates shown in Exhibit 16.

For the Judges Retirement Fund and the Legislators Retirement Fund, salaries are assumed to increase 4.00 percent and 5.00 percent per annum, respectively. The Elective State Officers Fund has no active members therefore it has no salaries or assumed increases.

Withdrawal Rate Assumptions

For all funds, assumed withdrawal rates are based on actual fund experience and adjusted periodically to reflect the most recent experience study completed.

Retirement Assumptions

Members retiring from active employment status are assumed to retire according to the age related rates reported in Exhibit 17 on the following page. Each retirement fund has different assumed rates of retirement, because of differing plan provisions, that are periodically adjusted to match recent historical trends.

For the State Employees Retirement Fund, members who have attained the highest retirement age are assumed to retire in one year.

All legislators are assumed to retire at age 62, or if over, within one year of the valuation date.

Since no active members remain in the Elective State Officers Retirement Fund, no retirement assumption applies. Current terminated deferred members are assumed to begin receiving benefits at age 62.

Age (in years)	Retirement Funds		
	State Employees	State Patrol	Correctional Employees
20	5.75%	7.75%	6.75%

Benefit Increases After Retirement

For all defined benefit retirement funds except for the State Patrol Retirement Fund, the annual post-retirement benefit increase will change from 2.5 percent to 2.0 percent, effective January 1, 2011. For the State Patrol Retirement Fund, the annual post-retirement benefit increase will change from 2.5 percent to 1.5 percent, effective January 1, 2011.

Funded Status

The funding status schedule, as shown in Exhibit 19 on the following page, was prepared using the preceding actuarial methods and assumptions.

C. Actuarial Accrued Liability	10,264,071	683,360	851,086	240,579	86,236	3,782
D. Total Unfunded Actuarial Accrued Liability (C-B)	\$1,303,680	\$116,149	\$247,223	\$95,851	\$59,415	\$3,568
E. Funded Ratio (B/C)	87.30%	83.00%	70.95%	60.16%	31.10%	5.66%
F. Actual Covered Payroll	\$2,327,398	\$63,250	\$192,450	\$39,291	\$1,877	\$0
G. Ratio of the Unfunded Actuarial Accrued Liability to Annual Covered Payroll (D/F)	56.01%	183.63%	128.46 %	243.95%	3,165.42%	N/A

The required *Schedule of Funding Progress* immediately following these notes to the financial statements present multiyear trend information about whether the actuarial values of fund assets are increasing or decreasing over the ten years presented relative to the actuarial accrued liability for benefits. Other actuarial information is presented later in this report in the *Actuarial Section*.

6. Actuarial Asset Valuations

Minnesota statutes provide for a graduated recognition of the unrealized investment gains or losses. The actuarial basis of assets is adjusted to spread the differences between actual return (measured on a fair value basis) and expected return (8-1/2 percent of assets) over five years. The amounts shown on the *Statement of Plan Net Assets* are presented at fair value and do not include any of the preceding adjustments. The June 30, 2010 current asset values, funded ratio, and contribution deficiency as a percent of payroll for MSRS' four largest defined benefit plans, determined using both methods, are detailed in Exhibit 20.

7. Optional Retirement Annuities

In the defined benefit funds, three Joint-and-Survivor annuity options are available: a 50 percent survivor benefit; a 75 percent survivor benefit; and a 100 percent survivor benefit to the beneficiary. Each option includes the right of reversion to the Single-Life amount if the beneficiary dies before the member. A 15-Year Period Certain and Life thereafter annuity is also available. For the Judges Retirement Fund, a 10-Year Period Certain and Life Thereafter annuity is provided. By statute, the Legislators and Elective State Officers Plans provide, automatically, a 50 percent benefit continuance to a surviving spouse. Also, legislators can choose 100 percent survivor coverage with an actuarially reduced benefit.

EXHIBIT 20: COMPARISON OF ACTUARIAL VALUATION RESULTS GIVEN DIFFERENT BASES FOR ASSET VALUES

(Dollars in thousands)

	Actuarial Basis			Fair Value Basis

Participating Employers	27	1	1	1	1	1

* The remaining members have either retired or elected coverage under the Unclassified Plan. Since this plan is now closed, there no longer is an active payroll.

A. State Employees Retirement Fund

The State Employees Retirement Fund includes the General Employees Plan, a multiple employer, cost sharing plan, and the Military Affairs Plan, the Transportation Pilots Plan, and the Fire Marshals Plan, all single employer plans. Only certain employees of the Departments of Military Affairs, Transportation and the State Fire Marshals office are eligible to be members of those plans, but all state employees who are not members of another plan are covered by the General Employees Plan.

Minnesota Statutes, Section 352.04 required that eligible employees contribute 4.75 percent of their total compensation. The employer contributes 4.75 percent. Effective July 1, 2010, these rates increased to 5.00 percent and 5.00 percent, respectively.

All active and deferred members are fully vested to the extent of their contributions plus interest at a rate six percent, four percent after June 30, 2011. For monthly retirement benefits, members hired before July 1, 2010 become vested after three years of service; those hired after June 30, 2010 vest after five years of service.

Retirement benefits can be computed by two methods: the step formula and the level formula. Step formula benefits are 1.2 percent of the high five-year average salary for each of the first 10 years, plus 1.7 percent for each

year thereafter. Also, it includes full benefits under the *Rule of 90* (age plus years of allowable service equals 90). In contrast, the level formula does not include the *Rule of 90*, benefits are 1.7 percent of the high five-year average salary for all years of service, and full benefits are available at normal retirement age.

As of June 30, 2010, all employees of MSRS are members of this plan. As stated in the preceding paragraph, the authority for the 4.75 percent employee and 4.75 percent employer contributions is *Minnesota Statutes*, Section 352.04. MSRS employee and employer contributions, as reported in Exhibit 22, were funded at 100 percent of the required contributions set by statute.

EXHIBIT 22: MSRS CONTRIBUTIONS TO THE STATE EMPLOYEES RETIREMENT FUND		
For Fiscal Year Ended	Employee	Employer
June 30, 2010	\$253,656	\$253,656
June 30, 2009	\$231,528	\$231,528
June 30, 2008	205,729	205,729
June 30, 2007	180,286	180,286
June 30, 2006	170,116	170,116

Total covered payroll for MSRS employees was approximately \$5.2 million for fiscal year 2010.

Notes to the Financial Statements and the Required Supplementary Information

B. State Patrol Retirement Fund

The State Patrol Retirement Fund includes only the State Patrol Retirement Plan, a single employer plan.

Membership is limited to those state employees who are state troopers, conservation officers, crime bureau officers, gambling-enforcement agents or fugitive apprehension officers.

Minnesota Statutes, Section 352B.02 requires that eligible employees contribute 10.40 percent of their total compensation, the employer contributes 15.60 percent. Effective July 1, 2011, these rates increased to 12.40 percent and 18.60 percent, respectively.

All active and deferred members are fully vested to the extent of their contributions plus interest at a rate six percent, four percent after June 30, 2011. For monthly retirement benefits, members hired before July 1, 2010 become vested after three years of service; those hired after June 30, 2010 vest after five years of service.

Members become eligible for normal retirement benefits at 55 years of age. The benefit is three percent of the high five-year average salary for each year of service.

C. Correctional Employees Retirement Fund

The Correctional Employees Retirement Fund includes only the Correctional Plan, a single employer plan.

Membership is limited to those state employees who have direct responsibility for inmates at Minnesota correctional facilities.

Minnesota Statutes, Section 352.92 requires that eligible employees contribute 7.70 percent of their total compensation. The employer contributes 11.10 percent. Effective July 1, 2010, these rates increased to 8.60 percent and 12.10 percent, respectively.

All active and deferred members are fully vested to the extent of their contributions plus interest at a rate six percent, four percent after June 30, 2011. For monthly retirement benefits, members hired before July 1, 2010 become vested after three years of service. For members hired after June 30, 2010, vesting is graduated from 50% vested after five years to 100% vested after ten years.

Members become eligible for normal retirement benefits at 55 years of age. The benefit is 2.4 percent per year of service credit multiplied by the high five-year average monthly salary. The monthly benefit can be received either as level lifelong payments or accelerated payments until a reversion age of 62 or 65. Upon attaining the

reversion age, the benefit is adjusted actuarially for the larger payment previously provided.

D. Judges Retirement Fund

The Judges Retirement Fund includes only the Judges Retirement Plan, a single employer plan. Membership is limited to Minnesota district, appellate and Supreme Court judges. Also, retirees include former municipal and county court judges.

Minnesota Statutes, Section 490.123 requires that eligible employees contribute 8.00 percent of their total compensation. The employer contributes 20.5 percent.

Members become eligible for retirement benefits at age 65 with five years of service, age 60 with five years of service and a reduced benefit, or age 70, which is mandatory retirement, with one year of service.

The retirement benefit is 2.7 percent for each year of service prior to July 1, 1980, plus 3.2 percent of the same average salary for service after June 30, 1980. The formula is applied to the high five-year average salary with a maximum benefit of 76.80 percent of that salary.

E. General Fund Plans

The General Fund Plans include the Legislators Retirement Plan and the Elective State Officers Retirement Plan. Each is a single employer plan. Members of the Minnesota House of Representatives and Senate are included in the Legislators Retirement Plan; the Elective State Officers Retirement Plan includes only the elected constitutional officers. Both plans are closed to new members. Persons first elected to take office after June 30, 1997 are participants of the Unclassified Plan; those who took office prior to July 1, 1997 were given the option of selecting membership in whichever plan they preferred.

Minnesota Statutes, Sections 3A.03 requires that legislators contribute 9 percent of their salary including certain per diem payments. The Elective State Officers Retirement Plan is closed and there are no active contributing participants. It operates on a pay-as-you-go basis and is funded by annual appropriations from the state's General Fund. The Legislators Retirement Plan is partially funded by annual appropriations from the state's General Fund, and plan member contributions. Annual retirement benefits to members who retired prior to July 1, 2003 are financed by the remaining assets transferred from the Minnesota Post-Retirement Investment Fund to the

Legislators Retirement Fund, upon the Minnesota Post-Retirement Investment Fund's dissolution on June 30, 2009. Upon depletion of those assets, all benefits will be funded on a pay-as-you-go basis with annual appropriations from the state's General Fund.

Legislators are eligible for full retirement benefits upon reaching age 62 with six years of service or for a reduced

benefit at age 55 with the same service. The benefit is 2.5 percent per year of service multiplied by the high five-year average covered compensation, but not to exceed their final annual compensation. The Elective State Officers Plan has similar benefits, but a minimum of eight years service required and reduced benefits at age 60.

9. Membership Statistics, Fund Descriptions and Contribution Information for Defined Contribution Funds

EXHIBIT 23: MEMBERSHIP STATISTICS - DEFINED CONTRIBUTION FUNDS				
(Dollars in thousands)				
As of June 30, 2010	Defined Contribution Retirement Fund

Annual Payroll	\$105,312	N/A	N/A	\$51,453
Participating Employers	10	409	553	2

A. Unclassified Employees Retirement Fund

The Unclassified Employees Retirement Fund is a defined contribution fund comprised entirely of a single, multiple-employer defined contribution plan, the Unclassified Employees Retirement Plan. Membership is limited to certain, specified employees of the state of Minnesota and various statutorily designated entities. *Minnesota Statutes*, Section 352D.01 through 352D.12 authorized creation of this plan. It is considered a money purchase plan, i.e., members vest only to the extent of the value of their accounts (employee contributions plus employer contributions plus/minus investment gains/losses, less administrative expenses), but functions as a hybrid between a defined contribution plan and a defined benefit plan. Retirement and disability benefits are available to some members through conversion, at the member's option, to the General Employees Plan provided he or she had prior service in that plan or at least 10 years of service. This reversion option is not available to judges, legislators and elected state officers. It is a contingent liability of the State Employees Retirement Fund and actuarially valued as of June 30, 2010 in the amount of \$26,629,000.

As stated in the preceding paragraph, the authority for the four percent employee and six percent employer

contributions is *Minnesota Statutes*, Section 352D.04, subdivision 2. Effective July 1, 2010, the employee contribution was increased to be the same as the General Employees Retirement Plan, five percent. No MSRS employees are active members of this plan.

B. Health Care Savings Fund

The Health Care Savings Fund is a defined contribution fund comprised entirely of the Health Care Savings Plan. It is an employer-sponsored program authorized by *Minnesota Statutes* Section 352.98. The Health Care Savings Plan allows employees to save tax-deferred contributions in an investment account to be used to reimburse the plan participants for future medical expenses and/or medical insurance premiums after they terminate employment. As result of various IRS rulings and regulations, benefit payments are tax exempt. Program participation is mandated by either collective bargaining agreement or personnel policy. Contribution rates are determined by collective bargaining agreements or employer personnel policies. They are highly variable, ranging from a percentage of weekly earnings to terminal, lump sum benefits such as severance pay.

Notes to the Financial Statements and the Required Supplementary Information

C. Deferred Compensation Fund

The Deferred Compensation Fund is a voluntary defined contribution fund offered to all state employees and political subdivisions located in Minnesota. Authorized under Section 457 of the Internal Revenue Code, contributions and investment earnings are tax sheltered until the time of withdrawal. Employee contributions may be as little as \$10 each paycheck. Some employer units or bargaining units may match a portion of an employee's contributions annually. However, all contributions are subject to annual maximum limits determined by the Internal Revenue Service (IRS). All assets and income are held in trust, custodial accounts, or annuity contracts for the sole benefit of plan participants and beneficiaries. Plan participants may only withdraw money from their account upon separation of service or retirement. Unlike many other supplemental retirement plans, Section 457 plan participants who take a distribution before reaching age 59 1/2 are not subject to the IRS ten percent early withdrawal penalty.

D. Hennepin County Supplemental Retirement Fund

MSRS is responsible for providing record keeping services for the Hennepin County Supplemental Retirement Fund, a defined contribution fund. Only employees of Hennepin County who began employment prior to April 14, 1982 are eligible to participate in this tax sheltered nonqualified plan. This plan was created in accordance with *Minnesota Statutes* Section 383B.46-52 and Section 6064(d) (2) and (3) of the Technical and Miscellaneous Revenue Act of 1988. Employee contributions of one percent of salary are matched by equal employer contributions of one percent of salary.

10. Long-term Debt

MSRS entered into an agreement with the Teachers Retirement Association and the Public Employees Retirement Association for the purpose of construction and ownership of an administrative office building. Each agency owned an undivided portion of the total asset equal to their relative number of employees at the time the agreement was approved. For MSRS that portion was originally 20.4 percent of the total; it was later revised to 20.2 percent, and subsequently in July, 2007, it was increased to 24.6 percent. To finance the building construction, the state Department of Finance (currently known as Minnesota Management and Budget) issued \$29,000,000 in 30-year revenue bonds on June 1, 2000. The bonds are secured by the value of the land purchased and the building that was constructed and are to be repaid from the revenues of the three retirement systems. Exhibit 24 shows the debt service amounts for which MSRS is directly responsible. Pursuant to the joint and several liability clause in the bond sale official statement, in the event of default, MSRS could be liable for the entire remaining outstanding principal and interest balance of the bonds, \$42,029,469. Bonds Payable on the *Statement of Plan Net Assets* is the MSRS share of the outstanding debt at the current ownership interest, 24.6 percent. Bonds Payable includes the principal balance as of June 30, 2010, \$5,971,650, and interest accrued for the month of June in the amount of \$28,958.

Total, per <i>Statement of Plan Net Assets</i>		<u>\$6,000,608</u>	<u>\$6,001</u> (rounded to nearest thousand dollars)

Notes to the Financial Statements and the Required Supplementary Information

11. Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions (GASB Statement 45 Required Disclosures)

All MSRS employees are covered by the State Employees Group Insurance Plan (SEGIP), a multiple employer cost-sharing defined benefit plan, administered by the Minnesota Management and Budget (MMB) department. At present, this plan subsidizes the cost of retiree insurance by charging a single premium rate for active employees and retirees, regardless of underwriting experience. At June 30, 2010 the SEGIP had an actuarially determined unfunded net obligation for future benefits of \$112,447,000, to be funded on a pay-as-you-go basis. MSRS' allocated portion of this liability is \$65,000. The MSRS share of the required contributions and the net Other Postemployment Benefit (OPEB) obligation is presented in Exhibit 25.

12. Administrative Expenses

MSRS administrative expenses are disbursed from the State Employees Retirement Fund. While no designated revenue source is statutorily dedicated to the payment of administrative expenses, as a policy, they are paid from investment earnings. At fiscal year end, these expenses are allocated pursuant to an approved cost reallocation plan to the various funds administered. Each fund then reimburses the State Employees Retirement Fund for their allocated portion of administrative expenses. After allocation, the expenses by fund at June 30, 2010 are detailed in the *Supporting Schedules*.

State Employee Group Insurance Plan OPEB Disclosures				
Fiscal Year Ended	Annual Required Contributions	Employer Contributions	Percent	Net OPEB Obligation
June 30, 2010	\$57,000	\$36,000	63.16%	\$65,000
June 30, 2009	56,000	30,000	53.57%	43,000
June 30, 2008	N/A	N/A	N/A	17,000

The administrator of the SEGIP, MMB, does not maintain separate assets by employer, therefore such information is not available to be included as a *Schedule of Changes in Plan Net Assets* in the *Statistical Section*. Further information regarding the SEGIP can be obtained by contacting MMB at www.finance.state.mn.us.

13. Litigation

Swanson, et al. v. State of Minnesota, et al. (Ramsey County District Court File No. 62-CV-10-5285)

On May 17, 2010 plaintiffs filed a class-action lawsuit challenging the 2009 and 2010 legislative amendments to the formula for post-retirement annual cost-of-living adjustments (COLAs). Plaintiffs assert that the changes to the COLAs are unconstitutional and that they are entitled to continue to receive the COLA in place on the date of their retirement. MSRS is a named defendant as are Board Chair Mary Benner and Executive Director David Bergstrom, in their official capacities. MSRS moved for summary judgment on September 15, 2010. The judge will hear both parties' motions for summary judgment in March, 2011. In management's opinion, the lawsuit will not have a material effect on the financial statements presented for the fiscal year ended June 30, 2010. However, should the State and MSRS not prevail in this lawsuit, the resulting effect of higher actuarial accrued liabilities and lowered funding ratios would be material to MSRS pension fund financial and actuarial reporting in future years.

14. Required Supplementary Information

A *Schedule of Funding Progress* and a *Schedule of Employer Contributions* for each of the defined benefit plans are presented in the pages that follow these notes.

Investment Authority

The assets of the Minnesota State Retirement System (MSRS) are invested along with the assets of the Public Employees Retirement Association and the Teachers Retirement Association under the direction and authority of the State Board of Investment (SBI) in accordance with Minnesota Statutes, Chapters 11A and 365A. The SBI includes Minnesota’s governor, auditor, secretary of state and attorney general. The Legislature has established a 17-member Investment Advisory Council to advise the SBI and its staff on investment related matters. MSRS’s executive director is a member of the Council.

Investment Policy

Investment policy stipulates that the SBI “will operate within standard investment practices of the prudent person.” The SBI is to “exercise the judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived therefrom.” (See M.S., section 11A.09.) The SBI is authorized to own government obligations, corporate obligations, various short-term obligations, corporate stocks, venture capital interests, resource investments, and real estate interests subject to specific constraints. (See M.S., section 11A.24). In particular, pension fund assets are to be invested for the exclusive benefit of the members of the funds.

Investment Objectives and Performance

MSRS’s pension contributions from employees and employers are invested in the Combined Funds. The Combined Funds include the assets of active and retired public employees who participate in the defined benefit plans administered by MSRS, the Teachers Retirement Association, and the Public Employees Retirement Association. MSRS does not own any underlying assets, but instead owns a participation in the pooled Combined Funds. Because these assets normally accumulate for thirty to forty years, SBI’s objective is to take advantage of the long investment time horizon offered by equities and alternative assets in order to meet its actuarial return target of 8.5 percent per year and ensure that sufficient funds are available to finance promised benefits at the time of retirement. (The separate investment of retiree assets and active member assets ended when the Post Fund and Basic Funds were merged as of June 30, 2009).

The long term objectives of the Combined Funds are:

1. Provide returns that are 3-5 percentage points greater than inflation over the latest 20-year period; and
2. Outperform a composite market index weighted in a manner that reflects the actual asset mix of the Combined Funds over the latest 10-year period.

Consistent with these objectives, the SBI maintains a long-term asset allocation for the Combined Funds as follows:

Domestic Equity	45%
International Equity	15%
Alternatives	20%
Fixed Income	18%
Cash	2%

Based on values on June 30, 2010, the Combined Funds returned 5.4 percentage points above the CPI over the last 20 years and returned 0.1 percentage point above the composite index over the past 10 years.

Investment returns ranked in the 39th percentile over the past five years and in the 65th percentile over the past 10 years, compared to similar funds in the Trust Universe Comparison Service.

Investment Presentation

Investment returns were prepared using a time-weighted rate of return methodology based upon fair market values, net of investment expenses.

Respectfully submitted,

Howard Bicker
Executive Director
State Board of Investment

 **Alternative investments are real estate, venture capital and resource funds.

Investment Results Annuity Increases vs. Inflation (Last 5 Years)

Increases awarded to MSRS retirees have been less than inflation during 2006 through 2008. In the past two years, annuity increases have outpaced inflation. Increases and inflation are measured as of June 30. Increases are effective January 1 of the following year.

Investment Results by Investment Pool

Investment Performance				
Fund	Rates of Return (Annualized)			
	FY2010	Three-Year	Five-Year	Ten-Year
Combined Funds	15.2%	(3.8)%	3.4%	2.9%
Combined Composite Market Index	13.5	(3.8)	3.3	2.8

Notes:

1. Investment return percentages are the time-weighted rate of return, net of all management fees.
2. The composite index is composed of the following market indicators that are weighted according to asset allocation.

Investment Type	Market Indicator
Domestic stocks	Russell 3000 Index
International stocks	Morgan Stanley Capital International All Country World Index Ex-U.S.
Domestic bonds	Barclays Capital Aggregate Bond Index
Alternative assets	Wilshire real estate funds, venture capital funds, resource funds
Unallocated cash	91-day treasury bills

MSRS assets are commingled in various investment accounts administered by the Minnesota State Board of Investment (SBI). MSRS owns an undivided interest proportionate to the amount provided for investment in each of the pools. The percentages shown above are the portion of each of the total pools comprised by portfolio holdings. Information on SBI investment activity and a listing of specific investments held by the various investment pools is available from SBI.

Actuarial Section

Rebuilding our Foundation

Pension Trust Funds of the State of Minnesota

The financial condition of MSRS continues to improve. We believe the impact of legislation to adjust benefits, along with strong investment returns, will lead our retirement plans on the path to reach full funding.

Board of Directors
 Minnesota State Retirement System
 60 Empire Drive, Suite 300
 St. Paul, MN 55103-2088

December 9, 2010

Members of the Board:

We have prepared and presented to you our annual actuarial valuation of the State Employees Retirement Fund (SERF), the State Patrol Retirement Fund (SPRF), the Correctional Employees Retirement Fund (CERF), the Judges Retirement Fund (JRF), the Legislators Retirement Fund (LRF), and the Elective State Officers Retirement Fund (ESORF) as of July 1, 2010.

In this Comprehensive Annual Financial Report (CAFR), all supporting schedules in the Actuarial Section and the Schedule of Funding Progress and the Schedule of Employer Contributions in the Financial Section have been prepared by MSRS based on the information included in Mercer's reports on the annual actuarial valuation. The annual actuarial valuation reports are available on the MSRS website.

Valuation Results

The results of the valuations are summarized in the following table. For all plans except the LRF and the ESORF, because the valuation smoothes asset returns over five years, the funding ratios and contribution deficiencies based on the actuarial value of assets do not reflect 60% of the large asset loss that occurred during the 2009 fiscal year. On a market value of assets basis, the funding ratios are lower and the deficiencies are higher. Valuations for the LRF and the ESORF are based on the market value of assets, consistent with valuations since July 1, 2000.

Plan	Accrued Liability Funding Ratio		Contribution Deficiency (% of Pay)		Statutory Amortization Date
	Actuarial Value of Assets	Market Value of Assets	Actuarial Value of Assets	Market Value of Assets	
SERF	87.30%	74.95%	0.99%	3.90%	2040
SPRF	83.00%	71.54%	7.84%	15.05%	2036
CERF	70.95%	61.71%	4.73%	6.99%	2038
JRF	60.16%	52.46%	3.62%	6.41%	2038
LRF	31.10%	N/A	350.43%	N/A	2021
ESORF	5.66%	N/A	\$644,000 per year*	N/A	2017

* This plan has no active participants, and the deficiency is expressed as a dollar amount rather than as a percent of payroll.

Consulting. Outsourcing. Investments.

A contribution deficiency means that over the long run, without further changes or favorable actuarial experience, the contributions scheduled to be made to the fund will not meet the goal of full funding by the statutory amortization date.

Changes in Plan Provisions

The following changes in plan provisions were recognized this year:

- For all plans, the post-retirement benefit increases change from 2.5% to 2.0% (1.5% for the SPRF) beginning January 1, 2011. For each MSRS plan, if the accrued liability funding ratio of that plan reaches 90% (on a Market Value of Assets basis), the benefit increase reverts to 2.5% for benefit recipients of that MSRS plan. For LRF and ESORF, the benefit increase reverts to 2.5% if the accrued liability funding ratio of the SERF reaches 90%.
- For all plans, the requirement for benefit recipients to receive a full increase in benefits changed from 12 full months receiving as of December 31 to 18 full months and the requirement to receive a partial increase in benefits changed from 0 months receiving as of December 31 to 6 months.
- For all plans, the interest earned on member contributions changes from 6.0% to 4.0% as of July 1, 2011.
- For all plans except JRF, the increase on deferred benefits changes to 2% after December 31, 2011.
- In the SPRF and SERF, vesting was changed from three years to five years for members first hired after June 30, 2010.
- In the SPRF, the reduction applied for early commencement of retirement benefits was changed to 1/5% per month for members first hired after June 30, 2010. Member contributions will increase to 12.4% of pay and employer contributions will increase to 18.6% of pay beginning July 1, 2011.
- In the CERF, The benefit multiplier for employees first hired after June 30, 2010 changed from 2.4% to 2.2% per year of service. The early commencement reduction for retirements after June 30, 2015 and employees first hired after June 30, 2010 was changed from 2.4% to 5% per year. Vesting was changed from three years to graded vesting for employees first hired after June 30, 2010.

Board of Directors
Minnesota State Retirement System

Changes in Actuarial Assumptions

For all plans, the post-retirement discount rate assumption changed from 6.0% to 6.5% (7.0% for the SPRF) to reflect the change in post-retirement benefit increases from 2.5% to 2.0% (1.5% for the SPRF).

For the SERF, the following changes in actuarial assumptions were recognized this year as an outcome of the 2004-2008 experience study:

- Healthy pre-retirement mortality changed from 1983 Group Annuity Mortality set back five years for males and set back two years for females to RP 2000 non-annuitant generational mortality, white collar adjustment, set forward three years for males and set back one year for females.
- Healthy post-retirement mortality changed from 1983 Group Annuity Mortality set back two years for males and set back one year for females to RP 2000 annuitant generational mortality, white collar adjustment, with no age set backs.
- Disabled retired mortality changed from a table based on 1965 Railroad Retirement Board (RRB) rates to RP 2000 disabled retiree mortality with no set back for males and set forward five years for females.
- The marital status assumption for females was changed from 85% to 70% for active members. The beneficiary age difference was changed from three years older to two years older for active females. The form of benefit assumption for active male members was changed from 20% electing the 50% J&S form to 15% and from 0% electing the 75% J&S form to 10%. The form of benefit assumption for active female members was changed from 10% electing the 50% J&S form to 15% and from 15% electing the 100% J&S form to 25%.
- Retirement rates were reduced at some ages to more closely reflect actual retirement experience.

Changes in Actuarial Methods

For the SERF, the statutory amortization date for the payment of unfunded accrued liability was changed from July 1, 2020 to July 1, 2040.

There were no changes in actuarial methods for the SPRF, CERF, JRF, LRF or ESORF.

MERCER

December 9, 2010
Board of Directors
Minnesota State Retirement System

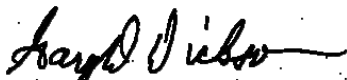

Neither the July 1, 2010 valuation reports nor the information extracted from those reports for this CAFR may be relied upon for any other purpose or by any party other than the Board of Directors, the LCPR or MSRS' auditors solely for the purpose of completing an audit related to the matters described. Mercer is not responsible for the consequences of any unauthorized use.

To the best of our knowledge and belief, the valuations were performed in accordance with generally accepted actuarial principles and procedures (with some exceptions for the LRF and the ESORF, as discussed in the valuation reports), the requirements of Minnesota Statutes, Section 356.215, and the requirements of the Standards for Actuarial Work established by the LCPR, including one modification regarding decrement timing. The LCPR approved this modification prior to the preparation of this report in order to ensure consistency and comparability. For more information about the decrement timing methodology, please refer to the valuation reports. In our opinion, the results of the reports reflect the actuarial position of the plans on an ongoing basis under the prescribed assumptions, methods, and procedures.

Important Notices about the valuations are shown in the Actuarial Section.

The undersigned credentialed actuaries meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained in this report. In addition, Mr. Dickson meets the requirements of "approved actuary" under Minnesota Statutes, Section 356.215, Subdivision 1, Paragraph (c). We are not aware of any direct or material indirect financial interest or relationship, including investments or other services that could create a conflict of interest, that would impair the objectivity of our work.

Respectfully submitted,

Gary Dickson, FSA, EA, MAAA

Bonita J. Wurst, ASA, EA, MAAA

MERCER

Important Notices

Decisions about benefit changes, granting new benefits, investment policy, funding policy, benefit security and/or benefit-related issues should not be made on the basis of the valuation reports, but only after careful consideration of alternative economic, financial, demographic and societal factors, including financial scenarios that assume future sustained investment losses.

A valuation report is only a snapshot of a Plan's estimated financial condition at a particular point in time; it does not predict the Plan's future financial condition or its ability to pay benefits in the future and does not provide any guarantee of future financial soundness of the Plan. Over time, a plan's total cost will depend on a number of factors, including the amount of benefits the plan pays, the number of people paid benefits, the period of time over which benefits are paid, plan expenses and the amount earned on any assets invested to pay benefits. These amounts and other variables are uncertain and unknowable at the valuation date.

Because modeling all aspects of a situation is not possible or practical, we may use summary information, estimates, or simplifications of calculations to facilitate the modeling of future events in an efficient and cost-effective manner. We may also exclude factors or data that are immaterial in our judgment. Use of such simplifying techniques does not, in our judgment, affect the reasonableness of valuation results for the plan.

To prepare the valuation reports, actuarial assumptions, as described in the reports, are used in a forward looking financial and demographic model to present a single scenario from a wide range of possibilities; the results based on that single scenario are included in the valuation. The future is uncertain and the plan's actual experience will differ from those assumptions; these differences may be significant or material because these results are very sensitive to the assumptions made and, in some cases, to the interaction between the assumptions.

Different assumptions or scenarios within the range of possibilities may also be reasonable and results based on those assumptions would be different. As a result of the uncertainty inherent in a forward looking projection over a very long period of time, no one projection is uniquely "correct" and many alternative projections of the future could also be regarded as reasonable. Two different actuaries could, quite reasonably, arrive at different results based on the same data and different views of the future. A "sensitivity analysis" shows the degree to which results would be different if you substitute alternative assumptions within the range of possibilities for those utilized in the reports. Other than the alternative calculations shown in the SERS valuation report, we have not been engaged to perform such a sensitivity analysis and thus the results of such an analysis are not included in this report. At MSRS's request, Mercer is available to perform such a sensitivity analysis.

MERCER

Actuarial assumptions, including discount rates, mortality tables and others identified in the reports, are prescribed by Minnesota Statutes Section 356.215, the LCPR, and the Board of Directors. These parties are responsible for selecting the funding policy, actuarial valuation methods, asset valuation methods, and assumptions. The policies, methods and assumptions are those that have been so prescribed and are described in the reports. MSRS is solely responsible for communicating to Mercer any changes required thereto.

Mercer has used and relied on financial data and participant data supplied by MSRS and summarized in the valuation reports. MSRS is responsible for ensuring that such participant data provides an accurate description of all persons who are participants under the terms of the plan or otherwise entitled to benefits as of the valuation date that is sufficiently comprehensive and accurate for the purposes of this report. Although Mercer has reviewed the data in accordance with Actuarial Standards of Practice No. 23, Mercer has not verified or audited any of the data or information provided.

Mercer has also used and relied on the summary of plan provisions, including amendments, and interpretations of plan provisions, supplied by MSRS as summarized in the valuation reports and on plan provisions stipulated by statute. The Board of Directors is solely responsible for the validity, accuracy and comprehensiveness of this information. If any data or plan provisions supplied are not accurate and complete, the valuation results may differ significantly from the results that would be obtained with accurate and complete information; this may require a later revision of these reports. Moreover, plan documents may be susceptible to different interpretations, each of which could be reasonable, and that the different interpretations could lead to different valuation results.

Summary of Actuarial Assumptions and Methods

The actuarial assumptions and methods that follow are prescribed by *Minnesota Statutes*, the Legislative Commission on Pensions and Retirement (LCPR) and the MSRS Board of Directors.

Actuarial Cost Method

The Individual Entry Age Normal Actuarial Cost Method, based on earnings and the date the employee entered the plan, is applied to all plan benefits. Under this method, actuarial gains or losses increase or decrease the unfunded actuarial accrued liability and are included in determining contribution rates.

Assumptions

Retirement:

Members retiring from active status are assumed to retire according to various age-related rates, as noted below.

State Employees Retirement Fund:⁽⁸⁾

Graded rates ranging from age 55 to age 71 and over with varying percentages of those eligible for Rule of 90 retiring each year;

Correctional Employees Retirement Fund:⁽³⁾

Age-based rates ranging from 5 percent at age 50 to 100 percent at age 65;

State Patrol Retirement Plan:⁽³⁾

Age-based rates ranging from 7 percent at age 50 to 100 percent at age 60;

Judges Retirement Plan:⁽⁸⁾

Age-based rates ranging from 10 percent at age 62 to 100 percent at age 70;

Elective State Officers⁽³⁾ and Legislators Plans:⁽³⁾

Age 62.

Mortality:

The 1983 Group Annuity Mortality Tables⁽⁹⁾ are used for all funds, except for the State Employees Retirement Fund and the Judges Retirement Fund post-retirement members. These tables are set back or set forward (expressed in years) to match fund experience as follows:

Fund	Healthy Pre-retirement		Healthy Post-retirement*	
	Male	Female	Male	Female
State Patrol ⁽⁶⁾	-5	-2	-2	-1
Correctional				
Employees	-5	-2	-2	-1
Judges	-4	-2	**	**
Legislators	-4	-2	0	0
Elective State				
Officers	-4	-2	0	0

*All post-retirement tables used are statutorily gender neutral.
 **For healthy post-retirement, the Judges Retirement Fund uses the RP2000 Combined Annuity Mortality Table ⁽⁸⁾ projected eight years with no collar adjustment.

The State Employees Retirement Fund uses various RP2000 Mortality Tables ⁽¹⁰⁾ as follows:

- **Healthy Pre-retirement:**
Non-annuitant generational mortality with white collar adjustment set forward three years for males and set back one year for females.
- **Healthy Post-retirement:**
Annuitant generational mortality with white collar adjustment and no age set backs for either males or females.
- **Disabled:**
Disabled mortality with no set back for males and a five-year set forward for females.

Separation:

Graded rates are based on actual experience.⁽⁸⁾

Administrative Expenses:

Prior year administrative expenses are expressed as a percentage of prior year payroll; for Elective State Officers, \$1,000 per year.⁽⁴⁾

Interest:

8.5 percent ⁽⁵⁾ pre-retirement for all funds, and 6.5 percent ⁽¹⁰⁾ post-retirement for all funds except the State Patrol Retirement Fund which assumes 7.0 percent.⁽¹⁰⁾

Salary Increases:

A. State Employees Retirement Fund:⁽⁸⁾

Five-year select and ultimate table. During the select period, 0.6 percent times (5-T) where T is completed years of service is added to the ultimate rate. An ultimate table ranges from 5.75 percent at age 20 down to 4.25 percent at age 70.

B. State Patrol Retirement Fund:

Experience adjusted rates from 7.75 percent at age 20 declining to 5.25 percent at age 55 and thereafter.

C. Correctional Employees Retirement Fund:⁽⁸⁾

Experience adjusted rates from 6.75 percent at age 20 declining to 4.75 percent at age 55 and thereafter.

D. Judges Retirement Fund:⁽⁸⁾

Four percent annually.

E. Legislators and Elective State Officers Retirement Funds:⁽⁴⁾

Five percent annually.

Payroll Growth:⁽⁸⁾

Including an assumed 3.0 percent annual inflation rate, the payroll growth assumption is 4.5 percent per annum for the State Employees, State Patrol, Correctional and Legislators Retirement Funds, and 4.0 percent per annum for the Judges Retirement Fund.

Contribution Refund:

Employees who withdraw are assumed to take the larger of a refund or a deferred benefit.⁽²⁾

Social Security

The Correctional Plan ⁽¹⁾ is based on the present law and a 6.0 percent retroactive salary scale and only state service earnings history. Future Social Security benefits replace the same proportion of salary as present. Other retirement plans are unaffected.

Asset Valuation

For all funds except the Legislators and the Elective State Officers Retirement Funds, as shown in the table that follows, asset valuations are based on market values at the end of the fiscal year, less a percentage of the unrecognized asset return determined at the close of each of the four preceding fiscal years. The unrecognized asset return is the difference between the actual net return on the market value of assets and the asset return expected during the fiscal year based on the assumed interest rate, 8.5 percent.⁽⁶⁾

Summary of Actuarial Assumptions and Methods

In prior years, retirees participated in the Minnesota Post Retirement Investment Fund (MPRIF) and the market value was reported as the prorated share of the combined market value of the fund. ⁽⁹⁾The MPRIF was dissolved on June 30, 2009 and the assets were combined with the investments of the respective active members.⁽⁹⁾ The graduated recognition of investment gains and losses to the assets, including those previously a part of the MPRIF, resulted in a total unrecognized investment return at June 30, 2010 as follows:

Retirement Fund	Total Unrecognized Investment Return at June 30, 2010
State Employees	\$(1,267,860,000)
State Patrol	(78,341,000)
Correctional Employees	(78,618,000)
Judges Retirement	(18,527,000)

Valuations for the Legislators and Elective State Officers Retirement Funds are based on the Market Value of Assets.

Experience Studies

Experience studies are conducted as needed for all plans except the Legislators and Elective State Officers, which are closed to new members. The most recent studies and the periods covered are as follows:

Retirement Fund	Period Covered
State Employees	Fiscal years 2004-2008
State Patrol	Fiscal years 1998-2003
Correctional Employees	Fiscal years 1998-2003
Judges	Fiscal years 2000-2007

All recommended assumption and table changes not requiring statutory authorization have been implemented.

Independent Actuarial Review

The Legislative Commission on Pensions and Retirement has retained an independent actuary to audit the performance of MSRS' consulting actuary.

Plan Provision and Actuarial Method Changes ⁽¹⁰⁾

Minnesota Session Laws of 2010, Chapter 359 made several changes to plan provisions and actuarial methods as follows:

1. For all plans except the State Patrol Plan, the post-retirement benefit increase rate was reduced from 2.5 percent to 2.0 percent. For the State Patrol Plan, it was reduced from 2.5 percent to 1.5 percent. These rates will return to 2.5 percent once each of the plans is 90 percent fully funded on a market value basis, or for the Legislators and the Elective State Officers Plans, when the State Employees Retirement Fund reaches that level of funding. These changes resulted in the reductions of the unfunded actuarially accrued liabilities (UAAL) as follows:

Retirement Fund	UAAL Reductions
State Employees	\$439,000,000
State Patrol	61,800,000
Correctional Employees	37,300,000
Judges	8,000,000
Legislators	3,200,000

2. For all plans, the interest rate was reduced from 6 percent per annum to 4 percent per annum for refunds occurring after June 30, 2011 on balances as of June 30, 2011 and additional contributions thereafter.

3. Effective January 1, 2012, the amount by which deferred members' projected benefits are increased was reduced from 3 percent per year before age 55 and 5 percent per year thereafter to 2 percent per year regardless of age.

4. Effective June 30, 2010 the amortization period for the State Employees Plan was extended from 2020 to 2040.

5. For employees hired after June 30, 2010 and covered by the State Employees Plan or the State Patrol Plan the vesting period was increased from 3 years to 5 years. For Correctional Plan members hired after June 30, 2010, vesting was extended from 3 years to graduated vesting ranging from 50 percent vested after five years of allowable service to 100 percent vested after ten years of allowable service.

6. Benefit accrual rate was reduced from 2.4 percent per year to 2.2 percent per year for members of the Correctional Plan hired after June 30, 2010.

7. For members of the State Patrol Plan hired after June 30, 2010, the early retirement reduction factors were increased from 1.2 percent to 2.4 percent per year.

8. For members of the Correctional Plan, the early retirement reduction factor for new hires after June 30, 2010 and for current members who retire after June 30, 2015 will increase from 2.4 percent to 5 percent per year.

9. Various other plan modifications that are immaterial to the funding level of the plans were also enacted.

Rebuilding our Foundation

Pension Trust Funds of the State of Minnesota

Since MSRS was founded 81 years ago, we've played an important role in our members' lives. We also are a critical component of Minnesota's economy.

Introduction

GASB Statement No. 44, Economic Condition Reporting: The Statistical Section established the requirements for the information required to be presented in this section of the report. The information that follows is intended to provide context and historical perspective, to supplement the financial information provided in the preceding sections and to display trends, where they exist.

The *Schedule of Changes in Net Assets* shows a 10-year history of the asset growth of the various funds. The Minnesota Management and Budget (MMB) department of the state of Minnesota administers the multiple-employer cost sharing State Employees Group Insurance Plan (SEGIP). This is the postemployment benefit plan in which MSRS employees and retirees participate. This is an unfunded plan and therefore MMB does not maintain separate assets by employer, accordingly it is not included in this schedule.

The *Schedule of Benefits and Refunds by Type* displays in detail the growth of benefits disbursed; whereas the *Schedule of Revenues by Source* provides a 10-year history of the resources received along with the corresponding member payroll and rate information. The *Schedule of Expenses by Type* summarizes the application of those resources over the past ten years.

The remaining schedules provide demographic information about the memberships and information about the employers that participate in the funds. For example, over the past ten years, the *Active Members Average Age Tables* show slight increases in the ages of all members. As the actual payroll on the *Schedule of Revenues by Source* has increased, the average benefit shown on the *Schedule of New Retirees and Initial Benefit Paid* has similarly increased for members with comparable years of service. Please note, since all MSRS annuity benefits are computed based on the five-year highest average annual salary, that is shown on this schedule instead of the final annual salary. That, along with post-retirement benefit increases, resulted in more members receiving higher benefits as shown in the *Schedule of Retired Members by Benefit Type*. For these schedules the term benefits is used instead of allowances. MSRS benefits are nondiscretionary; they are defined in statute and can only be revised by law changes.

All of the information contained in the schedules of this section was extracted from the database records of MSRS and summarized in the forms shown. There were no estimates or assumptions used in compiling this data.
